POST IN POOL EQUIPMENT ROOM / PROVIDE CONTACT INFO FOR EHS IN CASE OF POOL CLOSURE

California Code of Regulations § 65521. Public Pool Supervision and Operation.

(a) Every public pool shall be under the supervision of a pool operator.
(b) The pool operator shall maintain pool operating procedures at the public pool site for use by the operator and inspection by the enforcing agent.
(c) The pool operator shall maintain manufacturers' instructions for operation and maintenance of all mechanical and electrical equipment and water treatment systems at the public pool site for use by the pool operator and inspection by the enforcing agent.

California Code of Regulations § 65523. Operation Records.

(a) Except as provided in Health and Safety Code section 116048, the pool operator of every public pool open for use at a public pool site shall test the disinfectant residual and pH of the public pool water a minimum of once per day. The pool operator shall also test pool water temperature a minimum of once per day. The pool operator may perform these daily tests using a properly calibrated automatic chemical monitoring and control system if approved by the enforcing agent and in accordance with the manufacturer's equipment specifications for calibration and directions for proper use. The pool operator shall maintain a written daily record of all test results, equipment readings and calibration and corrective action taken at the public pool site.

(b) If the pool operator adds cyanuric acid to a public pool, the pool operator shall measure the cyanuric acid concentration in that pool a minimum of once per month and shall maintain a written record of these test results and corrective action taken at the public pool site.

(c) The pool operator shall maintain a written record of routine maintenance and repairs to the public pool at the public pool site.

(d) If a fecal, vomit, blood contamination, near-drowning or drowning incident occurs in a pool, the pool operator shall record the incident in accordance with the requirements of section 65546 and shall identify the affected public pool if there is more than one pool at the public pool site. This record shall be maintained at the public pool site,

(e) The pool operator shall maintain data and records collected pursuant to subsections (a), (b), (c), (d) and (e) for at least two years for inspection by the enforcing agent and shall submit all data and records to the enforcing agent upon the agent's request.

CA Health & Safety Code § 116048. Record keeping for common interest development of less than 25 units.

a) On or after January 1, 1987, for public swimming pools in any common interest development, as defined in Section 4100 or 6534 of the Civil Code, that consists of fewer than 25 separate interests, as defined in Section 4185 or 6564 of the Civil Code, the person operating each pool open for use shall be required to keep a record of the information required by subdivision (a) of Section 65523 of Title 22 of the California Administrative Code, except that the information shall be recorded at least two times per week and at intervals no greater than four days apart.

b) On or after January 1, 1987, any rule or regulation of the department that is in conflict with subdivision (a) is invalid.
