Dear Kristin,

I'm a resident of Green Point (537 Atherton Ave) and wanted to voice my support for the 2016 Green Point Community Plan. When we purchased our home four years ago it was marketed as Green Point and we were surprised to learn some time ago that another neighborhood (Black Point) was potentially going to be deciding on important things concerning our area - without our input.

We're thankful that our neighbors have gotten involved and thank you for working with them to approve the Green Point Community Plan and GPAC.

Best regards,
Ethan
