At the public workshop on 3/5 we heard quite a few comments regarding traffic & speeding issues on Harbor Drive by the deli. For some time I have felt that a crosswalk is needed from the parking area to the deli. Perhaps having one might slow traffic a bit. Don't know if this is something appropriate to include in the Black Point Community Plan or if this concern should be passed on to some other County office.

By the way, Glen & I thought the public workshop was very well run. Thanks to you and your team for all your work.
