I won't be attending the meeting, but I'd like to add a comment I forgot at the community meeting.

One of the appealing things about our community is how peaceful and quiet it is. Except when dogs are outside barking early in the morning (most common) or late at night (rare). I'd like to see a statement asking people to bring their barking dogs inside after a short time (5, 10, or 15 minutes?) It should be commonsense, but it doesn't seem to be.

Thank you,
Bob Spatz
