

Am I required to go **electric**?

My appliance is...	Stove Range	Water Heater	Space Heater	Gas Fireplace
I am... Keeping my current appliance.	  Keep using what you have. (No one is coming for your gas stove, but there are lots of cool electric options!)			
Voluntarily changing/updating my appliance(s).	Great! We have rebates & tech assistance available for you. Check out Electrify Marin .			Lots of cool electric options, but no rebates.
Replacing my broken appliance.	  No requirements...but rebates for induction are available!	No requirements...but starting in 2027, unit will need to be NOx free*. Rebates are available!	No requirements...but starting in 2029, unit will need to be NOx free*. Rebates are available!	  No restrictions.
Doing a major remodel of my house.	You will need to include Energy Efficiency or Electrification measures based on a flexible list of options. Check our Remodel Fact Sheet .			  Can't be wood burning.
Building a new home.	 It's time to go electric! Learn more at MarinGreenBuilding.org or check out our New Construction Fact Sheet .			

*Nitrogen Oxide Free. The [rules amendments](#) will only apply to new appliances, as required by the Bay Area Air Quality Management District (BAAQMD).
