

CHOOSE A BAY-FRIENDLY LANDSCAPER!

Bay-Friendly Landscaping is a holistic – sustainable – approach to landscaping that works in harmony with the natural conditions of the San Francisco Bay Watershed – of which Marin County is a part!

Bay-Friendly practices foster soil health and conserve water and other valuable resources while reducing waste and preventing pollution.

Since April 2008, professional landscapers serving Marin clients graduated from a 20-hour “Bay Friendly Landscape Maintenance Training and Certificate Program” sponsored by Marin County Stormwater Pollution Prevention Program and Marin Municipal Water District in cooperation with the Marin Art and Garden Center.

These landscapers can help ensure a sustainable landscape that protects local resources - including our creeks and ocean and San Francisco Bay! They are:

Heritage Landscapes
