ARGUMENT IN FAVOR OF MEASURE K

For over 18 years, our County Service Area No. 13 has contracted with the City of San Rafael for paramedic services. A "YES" vote on Measure K will ensure that all households will continue to receive the protections and benefits of this vital life-saving service. The approval of two-thirds of those voting is required to pass this measure.

Measure K both authorizes continuation of the paramedic assessment and sets the maximum assessment amount at \$53.00 per year. The actual annual rate will be determined by the actual costs for service and set by the Board of Supervisors following budget hearings and negotiations with the City of San Rafael. The annual assessment is calculated by dividing the costs of paramedic services by the number of households served. Over the past four years, this charge has not exceeded \$45.00.

In order to account for future cost increases, this measure provides the authority to increase the assessment to a maximum of \$53.00 per year per dwelling unit. Remember, this is only a maximum amount to account for any possible increase in costs over the next four years. Under the rules of Proposition 4, the appropriations limit to accommodate this tax must be voted on by the people every four years. Since the last vote, 4 years ago, San Rafael provides 3 paramedic units instead of one, and 2 of the paramedic units is stationed in Terra Linda which means much faster response time to Lucas Valley.

If this measure does not pass, the City of San Rafael will terminate paramedic service to our community.

We urge a "YES" vote on Measure K to maintain this vital service to our Lucas Valley Community.
