3. RECOMMENDATIONS FOR LOCATING BALLOT BOX OUTSIDE: Elaine Ginnold, Director of the Elections Department, addressed the Conservancy for discussion regarding an alternative location for ballot drop-off at the Civic Center. Due to many mail-in ballots and timeliness of USPS mail delivery, she suggested the red, white, and blue-decorated box that is normally outside of the Elections office could be placed outside. She provided additional information and asked for feedback:

   • 70% of Marin County voters vote by mail
   • Due to changes in USPS, delivery can take up to five days
   • Many voters wait until just before election day to cast their vote
   • Box would ensure votes can be received in time to be counted
   • Box would be made available five days before the election
   • Elections staff will empty box at least twice each work day; once on Saturday and Sunday
   • Box would be clearly labeled for mail ballots only
   • Suggested outside of the middle arch at the Courts entrance near the newspapers, bolted down
   • Civic Center is closed on weekend unless Library is open
   • Administration building at the gate was suggested
     o Chain to gate
Conservancy members recommended the Administration entrance. Mark Schatz moved and Kate Sears seconded the motion to allow the temporary ballot box be located at the administration entrance of the Civic Center, chained to the gate with appropriate Civic Center staff notified. Motion passed unanimously.

4. PRESENTATION OF PROPOSED PLANS FOR MIDDLE ARCH TRAFFIC LANE MODIFICATION FOR TRANSIT: Mary Archer, Senior Transit Planner for Marin Transit distributed a handout depicting changes being made to the traffic and crosswalk area at the “Judge Haley” (middle) arch due to changes being made in August by the Transit district. She took the Conservancy’s recommendations from the last presentation and confirmed changes to their design:
- Increase median by 2 feet to bring to 8 feet
- No rails on median
- No bench proposed on median -- will bring bench proposals later
- Ramp up to median for accessibility
- Working with DPW for reconstruction
- Provided sample truncated domes to be embedded in the concrete
  - Charcoal (Marin Center’s Exhibit Hall currently uses)
  - Beige
  - Other colors available

The Conservancy concurred with the changes. Mark Schatz moved and Catherine Munson seconded the motion to recommend the charcoal truncated domes be used and to request viewing bench proposals at a later time. Motion passed unanimously.
