County of Marin
Community Service Fund Program
Application Form

Application Date March 30, 2020

Fiscal Year July 1, 2019 - June 30, 2020

Organization Information

Full Legal Name: Point San Pedro Road Coalition

Organization URL: www.sprcoalition.org

Mission/purpose of your organization:

The Point San Pedro Road Coalition (Coalition) is a non-profit, 501(c)(3), all volunteer organization, located in East San Rafael along the Pt. San Pedro Road corridor. The purpose of this coalition of homeowner associations (HOAs) and local residents is to enhance the area, to promote the health and safety of the residents, and to protect the peaceful enjoyment of the local neighborhoods. In 2004, the Coalition began to prepare our community for disasters including fires, earthquakes, and floods by creating a Disaster Preparedness Committee. This committee is currently very active and is addressing resident training, neighborhood preparedness, resources, evacuation, and prepositioning of disaster and medical supplies at three primary sites. In March, 2020, the Coalition allocated $2,500 of its operating funds and the committee raised approximately $7,500 from HOA's, businesses, and residents to support the purchase of over $20,000 in critical disaster and medical supplies.

Grant Request Information

Program/Project Name: Point San Pedro Road Coalition Disaster Supply Program

Summary of how County funds would be used for project:

The funds would be used to supplement a limited amount of supplies that are currently stored by the Coalition and would include both medical supplies such as AED defibrillators and stretchers and disaster supplies such as N95 masks.

Amount Requested Dollar: The funds would be used to supplement a limited amount of supplies that are cur

Total Project Cost: $20,286.00

Description of the proposed project/program, including the proposed project's goal(s), and the nature of the costs in specific terms, i.e. materials, labor costs, etc. Specifics of how the requested County funds will be used.

The goal is to improve the safety of the Point San Pedro Road communities that risk being cut off from emergency services in a major disaster or fire and must be self sufficient in a disaster's immediate aftermath. The Committee is in discussions with three centers for citizen refuge/evacuation in the instance of a community wide (or greater) disaster. They are identified as (1) San Rafael High School for the western end of the corridor, (2) Church of the Redeemer in the Glenwood neighborhood for the middle area of the corridor, and (3) the Peacock Gap Golf Club for the eastern end of the corridor. Each of these sites has sufficient space to make it suitable for such a refuge/ evacuation center. Medical supplies will be focused in Glenwood where a triage center would be created in an emergency staffed by local members of the Marin Medical Response Corp and other medical professionals. All funds will be used for critical supplies including suitable storage units if space is not available within the facilities. A detailed list of supplies to be purchased has been developed by a team of experienced individuals (CERT trained) and medical professionals that includes AED defibrillators ($4,500), oxygen cylinders etc. ($482), pulse oximeters ($160), stretchers ($1,824), A95 masks - adult & children ($2,600), medical trauma kits - lightening x jumbo medic bags ($4,800), search and rescue kits ($1,650), storage units ($2,700) five gallon toilets ($1,200), two-way radios ($120). The cost of these supplies is approximately $20,000 and will be purchased with grant funds combined with Coalition funds and donations. These supplies will be combined with limited supplies that have been purchased in the past by the Coalition and various Home Owner Associations.

List of all community interests that will be affected by the proposed project/program and the public benefit to be derived from it:

In a general disaster or large fire along Point San Pedro Road, public safety agencies will be overwhelmed by demands for service and will only be able to initially respond to the most severe situations. In addition, our community of 2300 homes may be cut off from public safety agencies due to slides, road collapse, or flooding leaving us with only with the resources of SRFD Engine 55. It is imperative that we plan now for such events and

put the supplies in place to meet the needs of our residents. Preparing for such events will result in the following:

- Save the lives of local residents if they require rescue or immediate medical treatment;
- Provide refuge and post event shelter locations if residents must leave their homes due to wild fire, earthquake or other events;
- Reduce the demands on public safety agencies so that they can address those most in need of assistance.

The total amount received for the past three fiscal years:

Year	Amount	Project
2018 - 2019		Many years ago
2017 - 2018		
2016 - 2017		

No County funding was received for this project or others.

Project/program cannot be completed if amount received is less than requested amount of Community Service funds.

Applicants are encouraged to leverage funding from other non-County sources, and priority will be given to requests that represent no more than 50% of total project cost. To demonstrate all sources of project funding, including other County sources, please provide a project/program budget below. Please fill in as applicable, and round to the nearest dollar.
