## Direct Marketing Fees

A Market Manager's total fees consist of: one fee for devices oversight (\$120) plus a second tiered fee for each market under their control. The tiered fee is based on the number of certified producers selling at each market.

**Example:** You manage two markets, one with 5 producers and one with 11. Your total fees are: one devices oversight fee (\$120) plus a fee for each market you manage (based on the fees in the table below). In this example the fees are for markets with 5 producers (\$232) and 11 producers (\$392), so your total bill is \$744.

Farmers' Market Certified Producer Tiers:	Fees
1 to 9 Certified Producers	\$232 [\$207 plus \$25 for the commercial device location fee]
10 to 24 Certified Producers	\$392 [\$342 plus \$50 for the commercial device location fee]
25 or more Certified Producers	\$673 [\$573 plus \$100 for the commercial device location fee]

## Vineyard Erosion and Sediment Control (VESCO) Program

Vineyard development is a complex undertaking whose site-specific costs will depend on many factors, such as the number of experts needed (geologists, engineers, biologists, technicians, etc.), slope, soil type(s), grading, drainage, the number of inspections/re-inspections, etc. Marin County contracts out VESCO services to Sonoma County, whose staff have extensive experience with vineyard development. The overall costs for the project will be Sonoma County's VESCO fees plus Marin County's staff time. For Sonoma's current fee schedule, please click [here](#). Marin County will collect approximately 90% of the fees when the Vineyard Development Notification Application is received; the remaining fees will be collected at a later date. Please call our office with any questions about your project. The following table shows estimated fees; actual fees will vary by project:

### Acreage for Development (estimated fees)

(click for definitions):	< 1 acre	1 to < 10 acres	10 to < 50 acres	50 to < 100 acres	100 or more acres
