Project Title: Bayside Acres Beach Sewer Relocation Project

Project Applicant: San Rafael Sanitation District

Project Location - Specific:

Bayside Acres San Rafael. Point San Pedro Rd and Oak and Beach drives.

Project Location - City: San Rafael Project Location - County: Marin County

Description of Nature, Purpose and Beneficiaries of Project:

The project includes installation of individual sewer pump systems for 20 homes to replace use of a deteriorated existing sewer line located within the beach at SF Bay since 1972. 20 homes along beach are lower than existing District sewer pipes in roadways; therefore, project includes small sewer pumps to convey flows to existing main sewer lines located in Pt San Pedro Rd. Lateral pipes will be installed in private property to convey flow to new pressurized pipeline installed on private property and within Beach (180LF) and Oak (378LF) Drives to convey flows from new residential pump systems to the existing and new (814LF in Pt San Pedro Rd) main sewer pipeline system to replace flow patterns that were previous conveyed to existing sewer in beach then pumped up to main sewer line. Individual property owners will have a reliable sewer system and water quality will improve in Bay with abandonment of sewer line in beach and 2 pump stations that serviced the existing system in the area. Abandoned pipeline in beach will be physically decommissioned at a later time as a separate project.

Name of Public Agency Approving Project: San Rafael Sanitation District

Name of Person or Agency Carrying Out Project: Doris Toy, District Manager/District Engineer

Exempt Status: (check one):

- Ministerial (Sec. 21080(b)(1); 15268);
Declared Emergency (Sec. 21080(b)(3); 15269(a));
Emergency Project (Sec. 21080(b)(4); 15269(b)(c));
Categorical Exemption. State type and section number: 15301, Existing Facilities
Statutory Exemptions. State code number:

Reasons why project is exempt:

The project is exempt under the existing condition because it is a repair of an existing sewer system that is not functioning correctly and is causing water quality issues in the Bay. The project does not expand the existing system capacity and it is designed to address existing sewer needs only. It serves to restore of an existing deteriorated system.
