ENVIRONMENTAL HEALTH

March 28, 2019

Ms. Lorene Jackson  
Marin County  
3501 Civic Center Drive, Suite 236  
San Rafael, California 94903

Dear Ms. Jackson:

The purpose of this letter is to inform you of the final status of the Marin County 2018 Basin Boundary Modification Request. On February 11, 2019, the Department of Water Resources (DWR) released the Final 2018 Basin Boundary Modification Results. The submitted modification request is approved.

Basin Boundary Regulations (23 CCR § 344 et seq.) specify information that must be provided by the requesting agency to support a basin boundary modification request. DWR reviewed the modification request following the methodology and criteria set forth in the regulations (23 CCR § 345 et seq.).

The request to modify the Wilson Grove Formation Highlands and Sand Point Area Basins was a jurisdictional internal type. The request included technical documents that met the requirements of the regulations and adequately supported the jurisdictional modification of the basin. Because of the approved request, the Wilson Grove Formation Highlands and Sand Point Area Basins were modified to reflect a new segment-based description supported with specific documentation as included and referenced in the request. Additional information can be found on the DWR Basin Boundary Website and in the Basin Boundary Modification Request System (BBMRS).

If you have further questions regarding this notification or the Basin Boundary Modification Project, please contact Dane Mathis at (559) 230-3354 or via email at [Dane.Mathis@water.ca.gov](mailto:Dane.Mathis@water.ca.gov).

Sincerely,

Dane Mathis  
Project Lead

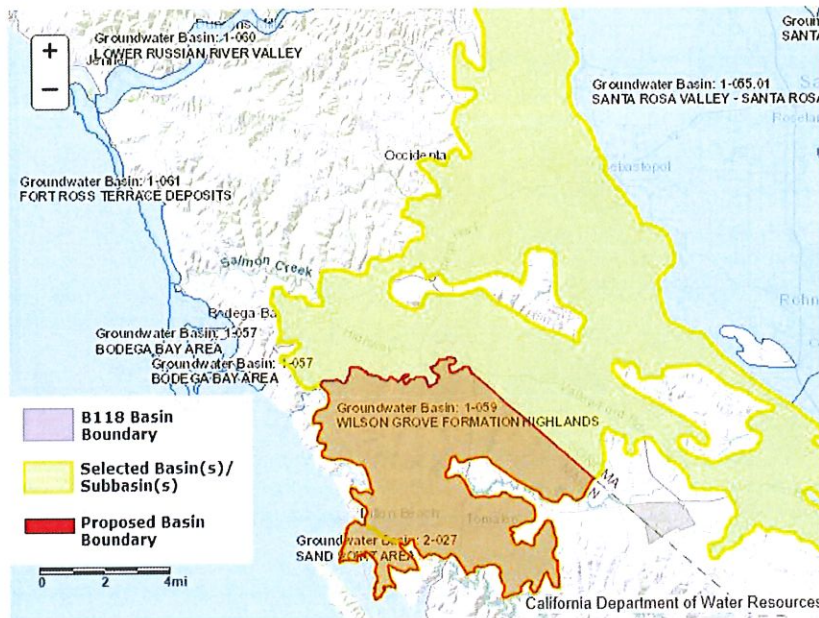

Christopher Olvera  
Technical Lead

## 2018 Basin Boundary Modifications - Final

**Basin(s):** 1-059 WILSON GROVE FORMATION HIGHLANDS; 2-027 SAND POINT AREA

**Requesting Agency:**  
Marin County

**Modification Category:**  
Jurisdictional Internal

**Agency Description:**  
Internal boundary modification that would extend the Sand Point Area Basin to include the portion of the Wilson Grove Formation Highlands Basin currently in Marin County. The new boundary would be the county line.

**Other Affected Basins:** None

**DWR Final Decision:** Approve

**Basis for Decision:** The basin boundary modification request would move the existing shared boundary between Sand Point Area basin and Wilson Grove Formation Highlands basin to align with the Marin County line. Six letters of support are associated with the request. This request meets regulatory requirements.
