To: Consulting Parties

Subject: Re-issue of Section 106 review for the proposed French Drain installation at Golden Gate Village

Dear Consulting Parties:

As you know, Golden Gate Village is listed in the National Register of Historic Places and is a historic property for the purpose of Section 106 review under the National Historic Preservation Act (Section 106). With the assistance of its qualified consultant, Marin Housing Authority (MHA) conducted a review of the proposed undertaking at Golden Gate Village to determine its conformance with the Secretary of the Interior’s Standards for the Treatment of Historic Properties (Standards) and its effect under Section 106.

The undertaking would involve the installation of a French drain to prevent flooding in unit #15 at 49 Cole Drive at Golden Gate Village. We have determined that the proposed undertaking conforms to the Standards and will have no adverse effect on the historic property in the Area of Potential Effects. Detailed analysis supporting this conclusion is provided in the attached Finding of Effect Memorandum (FoE).

This FoE is being re-issued to provide additional opportunity for consulting party comments. We request your written comments within 30 days of posting, by October 30, 2020. Please feel free to contact the project coordinator, Evan Smith (Modernization and Compliance Manager at Marin Housing Authority) at ggvpubliccomment@marincounty.org should you have any questions or wish to consult further regarding this undertaking.

Sincerely,

Evan Smith
