EXECUTIVE SUMMARY

Essel Environmental Engineering & Consulting (Essel) was retained by Mr. Jeremy Hoffman of Eden Housing (User) to perform a Phase I Environmental Site Assessment (ESA) of the property located at Commodore Webster Drive in the City of Point Reyes Station, County of Marin, California (Site). This Phase I ESA was performed in accordance with the scope and limitations of the American Society for Testing and Materials (ASTM) Standard Practice E 1527-13 and the scope of work defined in the following report. The Phase I ESA is designed to identify recognized environmental conditions (RECs) in connection with the previous and current uses and ownership of the Site.

Site and Vicinity Description

The Site encompasses the entirety of Commodore Webster Drive in Point Reyes Station, CA 94956. The nearest cross-street is Mesa Road at the western end of the Site. The Marin County Assessor’s Parcel Number (APN) for the Site is 119-240-73. The Site encompasses an irregular-shaped area of approximately 31.4 acres. The Site is presently vacant; however the Marin County Fire Department uses part of the Site for training, storage, and other operations.

The Site is developed with USCG housing units located at 101, 102, 103, 104, 201, 202, 203, 204, 205, and 206 Commodore Webster Drive. The multi-family housing buildings appear to be of similar construction. They were observed with concrete slab-on-grade foundation with wooden frames, stucco and vinyl siding, an asphalt-shingled roof, and asphalt-paved parking areas. The buildings at 101, 102, 103, 104, 201, 202, and 203 Commodore Webster Drive are divided into four residential units. Two of the buildings, located at 205 and 206 Commodore Webster Drive, are divided into three residential units. The final building, located at 204 Commodore Webster Drive, is divided into two residential units. The exterior development includes a playground area east of 203 and 204 Commodore Webster Drive.

The Site also includes eight non-residential buildings: a galley building, Building 50, Building 100, the mechanical shop, and storage buildings. These buildings have similar construction to the residential buildings with the exception of metal overhead doors and Building 100. The storage shed building located to the south of the mechanical shop building is constructed of a concrete slab-on-grade foundation, corrugated metal siding, and a metal roof. The landscaping equipment storage building located to the west of the mechanical shop building is constructed of corrugated metal siding, a corrugated metal roof, and three open-air equipment storage bays with an asphalt-paved floor. The hazardous waste storage building
consisted of a pre-fabricated metal storage container with metal walls and a metal roof. A wood-framed recreational pavilion, basketball court, and a tennis court are located to the south of the galley building.

Adjacent and surrounding properties consist of a residential neighborhood to the west along Giacomini Road. The downtown Point Reyes Station area is further to the west.

**Site History, Use, and Records Review**

Review of historical aerial photographs indicates that the Site was undeveloped land from 1952 to 1971. From 1974 to 2016 the Site was developed with residential structures however roughly half of the Site appears to be undeveloped land.

The Site was being used for the 10 multi-family housing unit buildings located at 101, 102, 103, 104, 201, 202, 203, 204, 205, and 206 Commodore Webster Drive and eight non-residential buildings that comprise the USCG Facilities Engineering (FE) facility for the Communications Area Master Station Pacific (CAMSPAC) facility located in Point Reyes Station, Marin County, California. The Site is now vacated and being used primarily by the Marin County Fire Department.

The Site is identified as **US Coast Guard Camspac**, at 3 and 100 Commodore Webster Drive. These facilities are listed on the RCRA-SQG, FINDS, ECHO, CERS, HAZNET, and HWTS databases, all of which are tracking databases. Review of the EDR listings for these addresses found no violations and clear evidence that the small quantities of hazardous materials were removed by qualified companies (e.g., Safety-Kleen Systems). On this basis these facilities are not represent a significant environmental concern to the Site.

**Site Vicinity History, Use, and Records Review**

The surrounding properties to the northeast and southeast remained largely undeveloped from 1952 to 2016. The surrounding properties to the northwest and southwest evolved from sparsely populated with residential and some commercial structures in 1952 to very significant residential and commercial development in 2016 as the unincorporated town of Point Reyes Station.

The EDR report includes fourteen (14) entries for facilities that are located within ¼ mile of the Site. Several entries are of the same facility and listed in multiple databases, and are considered repeat listings. One (1) entry is included on the EDR Historical Auto database, and three (3) entries are included on the LUST database. All of these LUST cases have been closed. There is one entry on the CSP-SLIC database and this
case has been closed. The listing on the EDR Historical Auto Database is at the address of a facility that is the subject of a closed LUST case. None of these listings are considered to be of environmental concern to the Site.

**Findings**

Based on the information obtained during the course of this Phase I ESA, Essel finds the following:

- No recognized environmental conditions are identified in connection with the Site.
- No controlled recognized environmental conditions are associated with the Site.
- No historical recognized environmental conditions are present in connection with the Site.
- No de minimis environmental conditions are present in connection with the Site.

**Opinion**

Review of historical aerial photographs indicates that the Site was undeveloped land from 1952 to 1971. From 1974 to 2016 the Site was developed with residential structures however roughly half of the Site appears to be undeveloped land. The Site was being used for the 10 multi-family housing unit buildings located at 101, 102, 103, 104, 201, 202, 203, 204, 205, and 206 Commodore Webster Drive and eight non-residential buildings that comprise the USCG Facilities Engineering (FE) facility for the Communications Area Master Station Pacific (CAMSPAC) facility located in Point Reyes Station, Marin County, California. The Site is now vacated and being used primarily by the Marin County Fire Department. The Site is identified as **US Coast Guard Camspac**, at 3 and 100 Commodore Webster Drive. These facilities are listed on the RCRA-SQG, FINDS, ECHO, CERS, HAZNET, and HWTS databases, all of which are tracking databases. Review of the EDR listings for these addresses found no violations and clear evidence that the small quantities of hazardous materials were removed by qualified companies (e.g., Safety-Kleen Systems). On this basis these facilities are not represent a significant environmental concern to the Site.

**Conclusion and Recommendation**

Essel has performed a Phase I ESA in general conformance with the scope and limitations of ASTM Practice E 1527-13 for the Site at located at Commodore Webster Drive in the City of Point Reyes Station, County of Marin, California (Site). Any exceptions to, or deletions from, this practice are described in Section 11.0 of the accompanying report. Recognized environmental conditions (RECs) are defined as “the presence or likely presence of any hazardous substances or petroleum products in, on, or at a property: (1) due to any release to the environment; (2) under conditions indicative of a release to the environment; or
(3) under conditions that pose a material threat of a future release to the environment.” This assessment has revealed no recognized environmental conditions in connection with the Site.
1.0 INTRODUCTION

Essel Environmental Engineering & Consulting (Essel) was retained by Mr. Jeremy Hoffman of Eden Housing (User) to perform a Phase I Environmental Site Assessment (ESA) of a commercial property located at Commodore Webster Drive in the City of Point Reyes Station, County of Marin, California (Site). Mr. Hoffman provided authorization for this assessment on March 19, 2021.

1.1 Purpose

The Phase I ESA is designed to identify recognized environmental conditions (RECs) in connection with the previous and current uses and ownership of the Site. Recognized environmental conditions are defined as “the presence or likely presence of any hazardous substances or petroleum products in, on, or at a property: (1) due to any release to the environment; (2) under conditions indicative of a release to the environment; or (3) under conditions that pose a material threat of a future release to the environment. The term includes hazardous substances or petroleum products even under conditions in compliance with laws. The term is not intended to include de minimis conditions that generally do not present a threat to human health or the environment and that generally would not be the subject of an enforcement action if brought to the attention of appropriate governmental agencies. De minimis conditions are not recognized environmental conditions.”

1.2 Scope of Work

This Phase I ESA has been performed in conformance with American Society for Testing and Materials (ASTM) Standard E 1527-13 (Standard). The ASTM Standard is the most widely recognized method currently used to perform the due diligence required to achieve the above purpose. The ASTM created the Standard “…in an effort to define good commercial and customary practice in the United States of America for conducting an environmental Site assessment…”.

The scope of work for this Phase I ESA involved a reconnaissance of the Site with limited observations of adjoining properties to assess current uses and conditions of the Site and vicinity; review of historical aerial photographs, topographic maps, building department records, and Sanborn Fire Insurance Company (Sanborn) maps to assess the historical usage of the Site and adjacent properties; and review of relevant environmental documentation provided by various public and private sources (including the client and/or owner of the Site) to assess the storage, use, and disposal of petroleum products and wastes and hazardous materials and wastes. In addition, this Phase I ESA includes a brief evaluation and assessment, as appropriate, of potential environmental issues that may not rise to the level of RECs, such as obvious
improper hazardous material or waste handling; off-Site issues; suspect asbestos-containing materials (ACM); lead-based paint (LBP); and polychlorinated biphenyls (PCBs). Other conditions or issues that are beyond the ASTM Standard scope may also be discussed in this report, as detailed within each section.

1.3 Significant Assumptions

No significant assumptions are associated with this Phase I ESA.

1.4 Limitations and Exceptions

As discussed in the ASTM Standard, no Phase I ESA can completely eliminate uncertainty regarding the potential for RECs in connection with a Site. This investigation is simply intended to reduce uncertainty within reasonable limits of time and cost.

The observations contained within this Phase I ESA are based upon conditions readily observable during the Site visit. These observations are typically unable to address conditions of subsurface soil, groundwater, underground storage tanks (USTs), neighboring properties, and the like, unless specifically mentioned. It is not the purpose of this Phase I ESA to determine the actual presence, degree, or extent of contamination (if any) at the Site. Unless specifically noted within this report, this Phase I ESA does not include testing, coring, sampling, or laboratory analysis to address groundwater, soil, soil vapor, or extraneous materials contamination in or on the Site.

Essel makes no warranties or guarantees as to the accuracy or completeness of information obtained from or compiled by others. Information that is beyond the scope of this investigation or was not provided to Essel may also exist and may have an impact on the conclusions of this Phase I ESA. This Phase I ESA does not attempt to address past or forecast future Site conditions.

This Phase I ESA has been conducted and prepared in accordance with generally accepted practices and procedures exercised by reputable professionals under similar circumstances. During the Site reconnaissance, no restrictions or limitations were encountered during the course of this Phase I ESA and there are no exceptions to the provisions of ASTM E 1527-13. Essel makes no other warranties or guarantees, either expressed or implied, as to the findings, opinions, or recommendations contained in the report, or as to the existence or non-existence of RECs at the Site.
2.0 DESCRIPTION OF SITE AND SURROUNDING AREA

2.1 Site Location and Description

The Site encompasses the entirety of Commodore Webster Drive in Point Reyes Station, CA 94956. The nearest cross-street is Mesa Road at the western end of the Site. The Marin County Assessor’s Parcel Number (APN) for the Site is 119-240-73. The Site encompasses an irregular-shaped area of approximately 31.4 acres. The Site is presently vacant; however the Marin County Fire Department uses part of the Site for training, storage, and other operations.

The Site is developed with USCG housing units located at 101, 102, 103, 104, 201, 202, 203, 204, 205, and 206 Commodore Webster Drive. The multi-family housing buildings appear to be of similar construction. They were observed with concrete slab-on-grade foundation with wooden frames, stucco and vinyl siding, an asphalt-shingled roof, and asphalt-paved parking areas. The buildings at 101, 102, 103, 104, 201, 202, and 203 Commodore Webster Drive are divided into four residential units. Two of the buildings, located at 205 and 206 Commodore Webster Drive, are divided into three residential units. The final building, located at 204 Commodore Webster Drive, is divided into two residential units. The exterior development includes a playground area east of 203 and 204 Commodore Webster Drive.

The Site also includes eight non-residential buildings: a galley building, Building 50, Building 100, the mechanical shop, and storage buildings. These buildings have similar construction to the residential buildings with the exception of metal overhead doors and Building 100. The storage shed building located to the south of the mechanical shop building is constructed of a concrete slab-on-grade foundation, corrugated metal siding, and a metal roof. The landscaping equipment storage building located to the west of the mechanical shop building is constructed of corrugated metal siding, a corrugated metal roof, and three open-air equipment storage bays with an asphalt-paved floor. The hazardous waste storage building consisted of a pre-fabricated metal storage container with metal walls and a metal roof. A wood-framed recreational pavilion, basketball court, and a tennis court are located to the south of the galley building.

Figures that show the Site, Site vicinity, and topographic features are included in Appendix A. Photographs of the Site are included as Appendix B.

2.2 Surrounding Areas

Adjacent and surrounding properties consist of a residential neighborhood to the west along Giacomini Road. The downtown Point Reyes Station area is further to the west.
2.3 Current Site Use

The Site was being used for the 10 multi-family housing unit buildings located at 101, 102, 103, 104, 201, 202, 203, 204, 205, and 206 Commodore Webster Drive and eight non-residential buildings that comprise the USCG Facilities Engineering (FE) facility for the Communications Area Master Station Pacific (CAMSPAC) facility located in Point Reyes Station, Marin County, California. The Site is now vacated and being used primarily by the Marin County Fire Department.
3.0 USER PROVIDED INFORMATION

To qualify for one of the Landowner Liability Protections (LLPs) offered by the Small Business Liability Relief and Brownfields Revitalization Act of 2001 (the “Brownfields Amendments”), the User is responsible for providing pertinent information about the Site, if available, that might help identity the potential for recognized environmental conditions in connection with the Site. Pursuant to Section 6 of ASTM E 1527-13, Essel provided a user questionnaire to Mr. Jeremy Hoffman of Eden Housing (User) on March 17, 2021. As of the date of this report the user questionnaire has not been returned.

3.1 Title Records

A completed user questionnaire has not been received.

3.2 Environmental Liens and Activity and Use Limitations

A completed user questionnaire has not been received.

3.3 Specialized Knowledge

A completed user questionnaire has not been received.

3.4 Commonly Known or Reasonably Ascertainable Information

A completed user questionnaire has not been received.

3.5 Valuation Reduction for Environmental Issues

A completed user questionnaire has not been received.

3.6 Obviousness of the Presence of Contamination

A completed user questionnaire has not been received.

3.7 Other Pertinent Information

A completed user questionnaire has not been received.
4.0 PHYSICAL SETTING

Readily available physical setting information was reviewed to evaluate surface and subsurface characteristics in the vicinity of the Site. Information sources reviewed for this project are listed in References at the end of this report.

4.1 Physiographic and Geologic Setting

The City of Point Reyes Station and the Site lie within the Coast Ranges Geomorphic Province, which extends approximately 550 miles in a northwest to southeast direction along the coast of California. The Coast Ranges comprise a series of northwest to southeast trending ridges and narrow valleys, whose orientations are controlled by the fault-dominated geologic structure of the region. Point Reyes Station and the Site are located with the Lagunitas Creek Valley which drains into Tomales Bay to the north. The Point Reyes Stations is bounded by Quaternary alluvium deposits to the west and Cretaceous sandstone and shale of the Bolinas Ridge to the east, and is underlain by older Quaternary alluvium (Blake, Graymer, and Jones, 2000).

The Site is underlain by older Quaternary alluvial deposits that are present over a significant proportion of Point Reyes Station. These deposits consist of poorly sorted coarse sand and gravel, and moderately sorted fine sand, silt, and clay, and have a specific yield of 8 to 17 percent (DWR 1982).

The Site is located near the southern edge of Point Reyes Station and is at an approximate elevation of 31 feet above mean sea level (USGS Inverness, California 7½-minute series topographic map) and surface topography in the area of the site slopes downward toward the southwest.

4.2 Hydrologic Setting

The Site is located in the Lagunitas Creek watershed which drains directly to Tamales Bay. The alluvial deposits that underlie the Site are not perennially saturated, have low permeability, and are generally unconfined or slightly confined (Cardwell 1958).

Lagunitas Creek is located directly adjacent to the southeast edge of the Site. No settling ponds, lagoons, surface impoundments, wetlands or natural catch basins were observed at the subject property during this assessment.

Apex Envirotech, Inc. (Apex, 2013) reported on water-level measurements in shallow and deeper groundwater zones in wells MW-5 and DW-2, which were installed in January 2002 adjacent to the
northeastern corner of the Site. The static groundwater surface in shallow-zone well MW-5, which was installed to 18 feet below the ground surface, ranged from 2 to 9 feet below the ground surface between January 2002 and September 2012. Deeper-zone well DW-2 was installed to 40 feet below grade and the potentiometric surface (confined groundwater condition) in this well also varied from 2 to 9 feet below the ground surface during this time interval.

On March 15, 2016, a soil and groundwater investigation was conducted at the Site (USCG, 2016). During the investigation, groundwater was encountered at 22 feet below ground surface (ft bgs). Based on the investigation, groundwater is anticipated to be encountered at approximately 22 ft bgs at the Site.

4.3 Flood Zone

Essel accessed the Federal Emergency Management Agency’s (FEMA) online Map Service Center to review the Flood Insurance Rate Map (FIRM) covering the Site area. According to FIRM No. 06041C0233D, dated May 4, 2009, portions of the Site adjacent to Lagunitas Creek are located within an area within the regulatory floodway, Zone AH. Zone AH is considered a special flood hazard area.

4.4 Wetlands

A review of the United States Fish and Wildlife Service National Wetlands Inventory map for the Site area indicates that the northeast portion of the Site is mapped as a freshwater forested shrub wetland. Wetlands are also mapped on properties across Lagunitas Creek.

4.5 Wells

Environmental Data Resources, Inc. (EDR) provided a report of wells in the Site area from drilling and well log records submitted to and compiled by the USGS and United States Environmental Protection Agency (USEPA). According to these records two monitoring wells are located on the northeast portion of the Site. Additionally, four monitoring wells are mapped on the southwesterly adjacent property. No water-supply wells are located within ¼-mile of the Site.

Essel reviewed data available on the California Division of Oil, Gas, and Geothermal Resources’ online mapping system for records of oil, gas, or geothermal wells located near the Site. Records show no oil, gas, or geothermal resources wells are located at or in the vicinity of the Site.
5.0 HISTORICAL RECORDS REVIEW

The objective of the historical review is to develop an understanding of the history of the previous uses of the Site and surrounding area to identify the likelihood of past uses or activities that might result in a REC in connection with the Site. As defined by the ASTM Standard, a standard historical source is considered complete if the information contained within the source provides the required information back to 1940 or to the first developed use, whichever is earlier. Ideally, the information should be available in either 5-year intervals or Site milestone events (such as, initial construction activities, demolition activities, etc.). However, available public and private historical sources do not always fulfill this goal, in which case the closest approximation of Site use is made based upon the sources readily available at the time of historical review. The historical review for this Phase I ESA consisted of a search of various public and private standard historical sources, as detailed in the sections below.

5.1 Aerial Photograph Review

Historical aerial photographs dated 1952, 1963, 1971, 1974, 1983, 1993, 2006, 2009, 2012, and 2016 were provided by EDR and reviewed by Essel to assess Site history. A summary of the aerial photograph information is provided in the table below and copies of the aerial photographs are contained in Appendix E.

<table>
<thead>
<tr>
<th>Year/Scale</th>
<th>Site Observation</th>
<th>Surrounding Property Observation</th>
</tr>
</thead>
</table>
| 1952; 1963; 1971; 1"=500’ | The Site is undeveloped land with possibly a small structure in the southwest corner | **Northwest:** Undeveloped land followed by what appear to be farming structures  
**Northeast:** Undeveloped land  
**Southeast:** Undeveloped land  
**Southwest:** Cultivated land and farming structures |
| 1974; 1"=500’ | Site is developed with what appear to be residential structures. Note this is an incomplete image. | **Northwest:** Cultivated land and residential and commercial structures.  
**Northeast:** No image  
**Southeast:** Undeveloped land and some commercial structures.  
**Southwest:** Commercial structures and cultivated land. |
| 1983; 1993; 1"=500’ | Site is developed with what appear to be residential structures, however roughly half of the Site appears to be undeveloped land. | **Northwest:** Cultivated land and residential and commercial structures.  
**Northeast:** Undeveloped land  
**Southeast:** Undeveloped land and some commercial structures and a reservoir.  
**Southwest:** Commercial structures and cultivated and undeveloped land. |
<table>
<thead>
<tr>
<th>Year/Scale</th>
<th>Site Observation</th>
<th>Surrounding Property Observation</th>
</tr>
</thead>
</table>
| 2006; 2009; 2012; 2016; 1”=500’ | Site is developed with what appear to be residential structures, however roughly half of the Site appears to be undeveloped land. | **Northwest:** Cultivated land and residential and commercial structures. New residential structures are evident adjacent to the Site.  
**Northeast:** Undeveloped land  
**Southeast:** Undeveloped land and some commercial structures and a reservoir.  
**Southwest:** Commercial structures and cultivated and undeveloped land. |

Review of historical aerial photographs indicates that the Site was undeveloped land from 1952 to 1971. From 1974 to 2016 the Site was developed with residential structures however roughly half of the Site appears to be undeveloped land.

The surrounding properties to the northeast and southeast remained essentially undeveloped from 1952 to 2016. The surrounding properties to the northwest and southwest evolved from sparsely populated with residential and some commercial structures in 1952 to very significant residential and commercial development in 2016.

### 5.2 Building Permits

Essel reviewed the Marin County online Building Department records on April 6, 2021 using the Site APN information. No records were retrieved in this search which could be because Point Reyes Station is an unincorporated location. This is not of environmental concern because other historic records indicate that the Site went from undeveloped land to primarily residential construction.

### 5.3 Historic Topographic Maps

Historic topographic maps, dated 1916, 1918, 1954, 1968, 1971, 1976, and 2012 were reviewed to assess Site history and use. The maps were obtained from EDR. The 1916 and 1918 topographic maps depict the Site as undeveloped land with a railroad track running through it. The 1954 through 1976 topographic maps depict the Site as undeveloped land with a single structure in the southwest corner. The railroad track is no longer evident. The 2012 topographic map also depicts the roads but shading or building structures. No features of environmental concern were observed on the Site or on adjacent properties on the topographic maps reviewed. Copies of the topographic maps are included in Appendix F.
5.4 Sanborn™ Fire Insurance Company Map Review

Sanborn maps were created for insurance underwriters and often contain information regarding the uses of individual structures and the locations of fuel and/or chemical storage tanks that may have been on a particular property. No coverage for Sanborn Maps for the Site were available. A copy of the Sanborn Map Report is included in Appendix G.

5.5 City Directory Search

Essel reviewed available city directory information provided by EDR for the historic and/or current addresses for the Site and adjacent properties. City directory listings for the years 1973 to 2017 were searched by EDR. Information for the Site and surrounding properties was found for selected years between 1977 to 2017. The following table summarizes listings for the Site and adjacent property addresses.

<table>
<thead>
<tr>
<th>Historical Tenants</th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>SITE</td>
<td></td>
</tr>
<tr>
<td>Address</td>
<td>Year – Occupant</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Historical Tenants</th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>Adjacent Properties</td>
<td></td>
</tr>
<tr>
<td>Address</td>
<td>Year – Occupant</td>
</tr>
<tr>
<td>SOUTHHWEST</td>
<td></td>
</tr>
<tr>
<td>100 Commodore Webster Drive</td>
<td>2017 - TSR Inc.</td>
</tr>
<tr>
<td>50 Commodore Webster Drive</td>
<td>2000 – Private Individual</td>
</tr>
<tr>
<td>22 Commodore Webster Drive</td>
<td>2000 – Private Individual</td>
</tr>
</tbody>
</table>

City directory listings for the Site indicate that it was occupied by Private Individuals from 1977 to 2017. Because of the location of the Site, very few listings for surrounding properties were available: TSR Inc. and two private individuals southwest of the Site.

None of the City Directory listings were of environmental concern to the Site. A copy of the City Directory report is included in Appendix G.

5.6 Previous Environmental Documentation

Tetra Tech Inc. – Environmental Compliance Due Diligence Activities Report, U.S. Coast Guard Point Reyes Station, California Housing Units. Project No: 103G1058245.001, November 2016.

This Environmental Compliance Due Diligence report consists of a Phase I ESA, Subsurface Investigation, Asbestos-Containing Survey and Condition/Risk Assessment, Lead-Based Paint Inspection
and Risk Assessment, Lead in Soil Sampling Assessment, and NEPA Report for the Site. The following is a summary of the relevant reports:

- Phase I ESA – A REC was reported based on a concrete cut that was suspected of being part of a former in-ground hydraulic lift due to a risk of PCB contamination. A *de minimis* condition was reported due to visible staining on the parking areas. Suspected mold was observed in the water heater closets of the 203 Commodore Webster Drive building Unit 203A which Tetra Tech recommends be cleaned and repaired. Lastly, pesticides and other chemicals were observed stored within storage areas and chemical cabinets. These were observed to be stored properly and not considered an environmental risk.

- Subsurface Investigation – Tetra Tech performed soil and groundwater sampling in this area. Elevated metals were discovered in the groundwater during the first assessment which constituted a follow up investigation. The follow up investigation determined that the original sample was from a perched water source due to groundwater likely being 40 to 60 feet below ground surface and no groundwater being encountered during the follow up investigation. Tetra Tech determined that the elevated metals in the original sampling event are not a major concern to the Site’s health or health of future occupants and therefore the former hydraulic lift was no longer considered a REC.

- Asbestos-Containing Materials Survey – Non-destructive testing was conducted at the Site which discovered the presence of asbestos in 10 of the 15 buildings. These materials are black sink undercoating, black mastic, yellow mastic, white sheet flooring, green sheet flooring, off-white floor tile, and white acoustical ceiling texture. Tetra Tech recommends that a certified abatement company be used to remove these materials if necessary and if going to be left in place, an Asbestos Operations & Maintenance Plan be put in place.

- Lead-Based Paint Inspection – The survey discovered the presence of lead-based paint in 3 locations only. The living room closet door and second floor hall storage closet of Unit 201C and the living room closet door frame in 205A were found to contain lead paint greater than 1.0 mg/cm². Tetra Tech recommends that should these painted materials be disturbed, that the necessary local, state, and federal regulations be followed.

- Lead in Soil Sampling – A single location of the soil located outside of 103 Commodore Webster Drive exceeded the California EPA SWRCB limit of lead in soil of 200 mg/kg by being reported at 278.4 mg/kg. Step out sampling was performed at this location and no elevated samples were found. Tetra Tech concluded that this location is considered localized and not a major concern to the Site. They do however recommend that the soil in this localized area be removed.
### 6.0 Regulatory Records Review

Essel reviewed federal and state regulatory agency database information, provided by Environmental Data Resources, Inc. (EDR), of Shelton, Connecticut, concerning activities that may be of environmental concern in the general vicinity of the Site. The database search was conducted using publicly available regulatory records, as detailed in a March 26, 2021 EDR Radius Map™ Report with GeoCheck® (EDR report). The EDR report includes properties and facilities that are contained in regulatory-agency environmental databases and are located within the ASTM-specified search radius of the Site for the applicable database. The EDR report also contains the EDR Historic Auto and EDR Historic Cleaner databases that EDR generates from a search of business directories. Businesses that EDR judges might potentially be gasoline service stations or dry cleaners and are located within ¼-mile of the Site are included in the two respective databases. The following table summarizes the findings of the database report, a copy of which is included in Appendix I.

<table>
<thead>
<tr>
<th>Database</th>
<th>Target Property</th>

NOTES:
- TP = Target Property
- NR = Not Requested at this Search Distance
- Sites may be listed in more than one database

Some facilities listed in the EDR report (referred to as orphan sites) are not shown on the radius map because of inadequate address information. Such occurrences are the result of limitations in the regulatory database. Essel has reviewed the available location information for the two (2) “orphan” sites listed in the EDR report, and concludes that this facility is not located on or adjacent to the Site; therefore, is not expected to represent any significant environmental concern to the Site.

**6.1 Site and Surrounding Property Record Sources**

**Site**

The Site is identified as US Coast Guard Camspac, at 3 and 100 Commodore Webster Drive. These facilities are listed on the RCRA-SQG, FINDS, ECHO, CERS, HAZNET, and HWTS databases, all of which are tracking databases. Review of the EDR listings for these addresses found no violations and clear evidence that the small quantities of hazardous materials were removed by qualified companies (e.g., Safety-Kleen Systems). On this basis these facilities are not represent a significant environmental concern to the Site.

**Surrounding Properties**

The search performed by EDR identifies nearby properties and facilities that are listed on various environmental databases. These facilities are included in the EDR report if they are located within the ASTM-specified search radius of the Site for the applicable database. Some of these databases track information that does not pertain to releases of petroleum products or hazardous materials or wastes. In addition, chemical releases (particularly petroleum-product releases) often result in only local impacts to soil and groundwater. The lateral migration of these contaminants in either liquid or vapor phases in soil or dissolved in the groundwater may extend several tens to a few hundred feet from the release point, depending on the magnitude of the release. Therefore, chemical releases at locations that are within ¼-mile
(660 feet) of a property, particularly locations that are up-gradient with respect to the direction of groundwater flow, are considered to have a higher potential to impact that property, whereas more distant properties and properties that are down-gradient or cross-gradient to a site have less potential for such impact.

The EDR report includes fourteen (14) entries for facilities that are located within ¼ mile of the Site. Several entries are of the same facility and listed in multiple databases, and are considered repeat listings. One (1) entry is included on the EDR Historical Auto database, and three (3) entries are included on the LUST database. All of these LUST cases have been closed. There is one entry on the CSP-SLIC database and this case has also been closed. The listing on the EDR Historical Auto Database is at the address of a facility that is the subject of a closed LUST case.

Two LUST entries are of the same facility and are considered repeat listings. A summary of the environmental database information for pertinent adjacent or nearby properties is presented below with an evaluation of the potential for environmental impact to have occurred based on proximity, use, and location (up-gradient, cross-gradient, and/or down-gradient) relative to the inferred predominant southeast direction of groundwater flow. The pertinent entries are further discussed below:

**Chevron Bulk Plant**, at 11095 State Route 1, is located approximately 314 feet west southwest and cross-gradient to the Site. This facility is listed on the CPS-SLIC, ENF and CERS databases. The CPS-SLIC case was closed on March 30, 2012 after remediation and testing that demonstrated low residual contaminants in the groundwater. The ENF and CERS databases are tracking databases without violations or other irregularities. On this basis, this facility is not of environmental concern to the Site.

### 6.2 Agency Records Search

In addition to the database report provided by EDR, Essel contacted or researched other regulatory-agency sources of environmental documents, described as follows.

**County of Marin**

Essel requested information via electronic mail to the County of Marin requesting public records pertaining to permits, hazardous materials, spills, leaks, cleanup cases, USTs, and ASTs at the Site. Essel did receive a response from the County of Marin indicating that they had no records responsive to my request.

**Marin County Public Works Department**
Essel submitted an online records request to the Marin County Public Works Department for records pertaining to permits, hazardous materials, spills, leaks, cleanup cases, USTs, and ASTs at the Site. Essel did not receive a response from the Department for records as of the date of this report.

**Marin County Health and Human Services Department**

Essel submitted an online records request to the Marin County Health and Human Services Department for records pertaining to permits, hazardous materials, spills, leaks, cleanup cases, USTs, and ASTs at the Site. Essel did not receive a response from the Marin County Health and Human Services Department as of the date of this report.

**Bay Area Air Quality Management District (BAAQMD)**

Essel requested information via electronic mail and searched the BAAQMD online database for records pertaining to air emissions permits, emission episodes, permits to operate, and notices of violation that may be available for the Site addresses. Later the same day, the BAAQMD responded with no records found for the Site addresses.

**State Water Resources Control Board (SWRCB)**

Essel accessed the State Water Resources Control Board’s GeoTracker electronic database to review records for the Site pertaining to leaking USTs, hazardous materials releases, investigations, and cleanup actions. No records were located on GeoTracker for the Site addresses.

**California Department of Toxic Substances Control EnviroStor (EnviroStor)**

Essel accessed the DTSC’s online EnviroStor database to research information related to hazardous materials/wastes release incidents or clean-up actions at the Site. No records were found on EnviroStor for the Site addresses.

**California Department of Toxic Substances Control Hazardous Waste Tracking System (HWTS)**

Essel accessed the DTSC online HWTS database to identify disposal records (waste manifests) pertaining to hazardous wastes associated with the Site. Based on the review of available records, no records concerning the Site were identified on this database.

**California Environmental Protection Agency (CalEPA) Regulated Site Portal**
Essel accessed the CalEPA regulated site portal to research information related to hazardous materials or substances that may be regulated by a California agency. No records were found on CalEPA Site Portal for the Site addresses.

7.0 SITE RECONNAISSANCE

Mr. Trevor Marion of Essel performed a reconnaissance of the Site on April 4, 2021. Mr. Marion was accompanied by Ms. Ruth Lopez who is involved in the Site development (see Section 8).

The findings of the Site reconnaissance are presented in the following sections and photographs of the Site taken during the reconnaissance are included in Appendix B.

7.1 Underground/Aboveground Storage Tanks

Each building has one AST propane tank. Essel observed two ASTs (presumably propane) in the northeast corner of building 100. Essel observed several partially buried – USTs (possibly for fertilizer) along the south side of Commodore Webster Drive near the Site entrance. None of the regulatory database listings or other regulatory-agency records searched during this Phase I ESA contained records pertaining to either USTs or ASTs at the Site.

7.2 Pits, Ponds, Lagoons, Sumps, and Catch Basins

No pits, ponds, lagoons, sumps, or catch basins were observed during the Site reconnaissance. A monitoring well was observed near Building 203, southeast side.

7.3 Petroleum Products and Hazardous Materials and Wastes

A chemical storage cabinet used by the Marine County Fire Department was observed at the Site located behind the Maintenance Building. Several plastic gasoline and diesel containers were observed inside of the cabinet. Also located behind the maintenance building were two used oil secondary containments containing used oil, also used by the Marine County Fire Department.

7.4 Staining and Other Evidence of Chemical Releases

Heavy staining in the parking lot due to discarded vehicles. It is unlikely that the subsurface has been impacted beneath the Site.
7.5 **Solid Non-Hazardous Waste**

Since the Site is vacant, there is no solid non-hazardous waste removal.

7.6 **Wastewater and Stormwater Management**

Wastewater previously generated at the Site had consisted of typical household domestic wastewater. Surface drainage is sloped eastward to Lagunitas Creek.

7.7 **Utilities**

The Pacific Gas & Electric Company (PG&E) provides electrical services to the Site. McPhales provides propane to the Site. Water is provided by the North Marin Water District. Sewage is handled by an on-Site septic system. Since the Site is vacant, there is no municipal waste service.

7.8 **Polychlorinated Biphenyls (PCB)-Containing Equipment**

No elevators or transformers were observed on the Site. Fluorescent light ballasts were observed throughout the Site. These light ballasts are to be assumed to contain PCBs unless labeled otherwise.

7.9 **Air Quality**

No unusual smells, odors, or visual emissions were noted at the Site during the reconnaissance; however, these observations are general in nature and should not be construed as an air quality assessment.

7.10 **Moisture-Intrusion/Mold**

In some areas of the water heater closets water damage and suspected mold was observed.

7.11 **Vapor Encroachment**

A vapor encroachment condition (VEC) is defined by ASTM E 2600-10 (Standard Guide for Vapor Encroachment Screening on Property Involved in Real Estate Transactions) as the presence or likely presence of volatile chemical vapors in the subsurface of the target property caused by the release of vapors from contaminated soil or groundwater or both either on or near the target property. The ASTM standard further defines the critical distance as the linear distance contaminant vapors that have volatilized from contaminated soil or groundwater might migrate in the vadose zone beyond the edge of the contaminant mass or plume. For petroleum hydrocarbons in soil or dissolved in groundwater, the critical distance is 30 feet. For non-aqueous phase petroleum liquids on the groundwater and non-petroleum volatile compounds
in soil and groundwater, the critical distance is 100 feet in any direction beyond the edge of a contaminant mass or plume. A VEC may exist for a Site if a volatile contaminant plume is present within the critical distance of the Site property.

No evidence has been found indicating that USTs containing volatile chemicals (such as gasoline) have been or are present at the Site and no known contaminant plumes have been identified in the ground water beneath the Site or within a critical distance from the Site. A VEC; therefore, is not expected to be present at the Site.
8.0 INTERVIEWS

8.1 Interview with Site Owner

The Site owner was not available to be interviewed.

8.2 Interview with Site Manager

Mr. Marion was accompanied on the Site reconnaissance by Ms. Ruth Lopez who has been involved for seven years with Community Land Trust Association of West Marin (CLAM). CLAM appears to have been awarded “Site Developer” for about two years. Her responses are incorporated in the relevant portions of this report.

8.3 Interviews with Site Occupants

The Site is vacated so no Site occupants were available to be interviewed.

8.4 Interviews with Local Government Officials

No local government officials were interviewed during the course of this Phase I ESA.

8.5 Interviews with Others

No other individuals were interviewed during the course of this Phase I ESA.
9.0 NON-ASTM ITEMS

9.1 Asbestos-Containing Materials

For buildings constructed prior to 1981, federal regulations state that thermal system insulation (boiler insulation, pipe lagging, and related materials) and surface materials (e.g., acoustical ceilings) must be designated as “presumed asbestos-containing material” (PACM) unless proven otherwise through sampling in accordance with the standards of the Asbestos Hazard Emergency Response Act. Tetra Tech performed an asbestos-containing materials survey at the Site which is summarized in Section 5.6. Asbestos-containing materials were discovered at the Site.

9.2 Lead-Based Paint

In 1978, the federal government banned the use of lead-based paint (LBP) in commercial applications, although usage was allowed to continue in many industrial settings. Tetra Tech performed a lead-based paint inspection at the Site which is summarized in Section 5.6. Lead-based paints were discovered at the Site.

9.3 Radon

The USEPA assigns each county in the United States a zone (1, 2, or 3) based on radon potential. Zone 1 counties are areas where the average predicted indoor radon concentration in commercial dwellings exceeds the USEPA Action Limit of 4.0 picoCuries per liter (pCi/L). In Zone 2 and 3 counties, average predicted concentrations are less than the Action Limit. The USEPA has found elevated levels of radon in homes in all three zones and recommends Site specific testing to determine radon levels at a particular location. According to the USEPA Map of Radon Zones, the Site is located within Zone 3, where average predicted radon levels are less than 2.0 pCi/L.
10.0 FINDINGS, OPINION, AND CONCLUSION

10.1 Findings

Findings

Based on the information obtained during the course of this Phase I ESA, Essel finds the following:

- No recognized environmental conditions are identified in connection with the Site:
- No controlled recognized environmental conditions are associated with the Site.
- No historical recognized environmental conditions are present in connection with the Site.
- No de minimis environmental conditions are present in connection with the Site.

10.2 Opinion

Review of historical aerial photographs indicates that the Site was undeveloped land from 1952 to 1971. From 1974 to 2016 the Site was developed with residential structures however roughly half of the Site appears to be undeveloped land. The Site was being used for the 10 multi-family housing unit buildings located at 101, 102, 103, 104, 201, 202, 203, 204, 205, and 206 Commodore Webster Drive and eight non-residential buildings that comprise the USCG Facilities Engineering (FE) facility for the Communications Area Master Station Pacific (CAMSPAC) facility located in Point Reyes Station, Marin County, California. The Site is now vacated and being used primarily by the Marin County Fire Department. The Site is identified as US Coast Guard Camspac, at 3 and 100 Commodore Webster Drive. These facilities are listed on the RCRA-SQG, FINDS, ECHO, CERS, HAZNET, and HWTS databases, all of which are tracking databases. Review of the EDR listings for these addresses found no violations and clear evidence that the small quantities of hazardous materials were removed by qualified companies (e.g., Safety-Kleen Systems). On this basis these facilities are not represent a significant environmental concern to the Site. Adjacent and surrounding properties consist of a residential neighborhood to the west along Giaccomini Road. The downtown Point Reyes Station area is further to the west.

10.3 Conclusion and Recommendation

Conclusion and Recommendation

Essel has performed a Phase I ESA in general conformance with the scope and limitations of ASTM Practice E 1527-13 for the Site at located at Commodore Webster Drive in the City of Point Reyes Station, County of Marin, California (Site). Any exceptions to, or deletions from, this practice are described in
Section 11.0 of the accompanying report. Recognized environmental conditions (RECs) are defined as “the presence or likely presence of any hazardous substances or petroleum products in, on, or at a property: (1) due to any release to the environment; (2) under conditions indicative of a release to the environment; or (3) under conditions that pose a material threat of a future release to the environment.” This assessment has revealed no recognized environmental conditions in connection with the Site.
11.0 DEVIATIONS FROM THE ASTM STANDARD

No significant deviations from the ASTM standard were noted.
12.0 CERTIFICATION, LIMITATIONS, AND RELIANCE

Essel Environmental Consulting, Inc. (Essel) has performed this Phase I ESA in accordance with American Society for Testing and Materials (ASTM) Standard E 1527-13, the scope of services identified in this report, and the service agreement. The information presented in this Phase I ESA conveys Site conditions that Essel could readily observe and reasonably ascertain to be present at the time of the Site visit and on information provided by others. Essel has no reason to suspect or believe that the information provided by others is inaccurate. The findings and conclusions represent the professional opinion and judgment of Essel based on these observations and review of the provided information.

The objective of this Phase I ESA was to ascertain the potential presence or absence of recognized environmental conditions that could impact the Site, as delineated in the scope of services and limitations identified in this report and in the service agreement. The procedure was to perform reasonable steps in accordance with existing regulations, currently available technology, and generally accepted environmental consulting practices, in order to accomplish the stated objective.

This Phase I ESA has been performed for the exclusive use and benefit of the addressee(s) identified on the cover of this report, or agents directly specified by it (them), for the transaction at issue concerning the subject property described in this report. This Phase I ESA shall not be used or relied upon by others without the prior written consent of Essel and of the addressee(s) named on the cover of this report.

Signature of Reviewer and Environmental Assessor:

Carlo Golino, Ph.D.  
Senior Project Manager

Tyler Barazoto  
Project & Operations Manager

I declare that, to the best of my professional knowledge and belief, I meet the definition of Environmental professional as defined in §312.10 of 40 CFR 312.

I have the specific qualifications based on education, training, and experience to assess a property of the nature, history, and setting of the subject property. I have developed and performed the all appropriate inquiries in conformance with the standards and practices set forth in 40 CFR Part 312.

Sincerely,

Nik Lahiri  
Principal

APPENDIX E

AERIAL PHOTOGRAPHS
Environmental Data Resources, Inc. (EDR) Aerial Photo Decade Package is a screening tool designed to assist environmental professionals in evaluating potential liability on a target property resulting from past activities. EDR’s professional researchers provide digitally reproduced historical aerial photographs, and when available, provide one photo per decade.

The Sanborn Library has been searched by EDR and maps covering the target property location as provided by Essel Technology Services were identified for the years listed below. The Sanborn Library is the largest, most complete collection of fire insurance maps. The collection includes maps from Sanborn, Bromley, Perris & Browne, Hopkins, Barlow, and others. Only Environmental Data Resources Inc. (EDR) is authorized to grant rights for commercial reproduction of maps by the Sanborn Library LLC, the copyright holder for the collection. Results can be authenticated by visiting www.edrnet.com/sanborn.

The Sanborn Library is continually enhanced with newly identified map archives. This report accesses all maps in the collection as of the day this report was generated.

**Certified Sanborn Results:**

Certification # 2C7C-4278-88A3
PO # 100.21002
Project USCG Point Reyes Station

UNMAPPED PROPERTY

This report certifies that the complete holdings of the Sanborn Library, LLC collection have been searched based on client supplied target property information, and fire insurance maps covering the target property were not found.

Limited Permission To Make Copies

Essel Technology Services (the client) is permitted to make up to FIVE photocopies of this Sanborn Map transmittal and each fire insurance map accompanying this report solely for the limited use of its customer. No one other than the client is authorized to make copies. Upon request made directly to an EDR Account Executive, the client may be permitted to make a limited number of additional photocopies. This permission is conditioned upon compliance by the client, its customer and their agents with EDR's copyright policy; a copy of which is available upon request.

EXECUTIVE SUMMARY

DESCRIPTION

Environmental Data Resources, Inc.’s (EDR) City Directory Report is a screening tool designed to assist environmental professionals in evaluating potential liability on a target property resulting from past activities. EDR’s City Directory Report includes a search of available city directory data at 5 year intervals.

RECORD SOURCES

EDR’s Digital Archive combines historical directory listings from sources such as Cole Information and Dun & Bradstreet. These standard sources of property information complement and enhance each other to provide a more comprehensive report.

EDR is licensed to reproduce certain City Directory works by the copyright holders of those works. The purchaser of this EDR City Directory Report may include it in report(s) delivered to a customer. Reproduction of City Directories without permission of the publisher or licensed vendor may be a violation of copyright.

RESEARCH SUMMARY

The following research sources were consulted in the preparation of this report. A check mark indicates where information was identified in the source and provided in this report.

RADIUS MAP REPORT WITH GEOCHECK
The EDR Radius Map™ Report with GeoCheck®
A search of available environmental records was conducted by Environmental Data Resources, Inc (EDR). The report was designed to assist parties seeking to meet the search requirements of EPA’s Standards and Practices for All Appropriate Inquiries (40 CFR Part 312), the ASTM Standard Practice for Environmental Site Assessments (E 1527-13), the ASTM Standard Practice for Environmental Site Assessments for Forestland or Rural Property (E 2247-16), the ASTM Standard Practice for Limited Environmental Due Diligence: Transaction Screen Process (E 1528-14) or custom requirements developed for the evaluation of environmental risk associated with a parcel of real estate.

TARGET PROPERTY INFORMATION

SURROUNDING SITES: SEARCH RESULTS
Surrounding sites were identified in the following databases.

Elevations have been determined from the USGS Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified. Sites with an elevation equal to or higher than the target property have been differentiated below from sites with an elevation lower than the target property. Page numbers and map identification numbers refer to the EDR Radius Map report where detailed data on individual sites can be reviewed.

Sites listed in **bold italics** are in multiple databases.

Unmappable (orphan) sites are not considered in the foregoing analysis.
STANDARD ENVIRONMENTAL RECORDS

Federal CERCLIS NFRAP site list

SEMS-ARCHIVE: SEMS-ARCHIVE (Superfund Enterprise Management System Archive) tracks sites that have no further interest under the Federal Superfund Program based on available information. The list was formerly known as the CERCLIS-NFRAP, renamed to SEMS ARCHIVE by the EPA in 2015. EPA may perform a minimal level of assessment work at a site while it is archived if site conditions change and/or new information becomes available. Archived sites have been removed and archived from the inventory of SEMS sites. Archived status indicates that, to the best of EPA’s knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list the site on the National Priorities List (NPL), unless information indicates this decision was not appropriate or other considerations require a recommendation for listing at a later time. The decision does not necessarily mean that there is no hazard associated with a given site; it only means that, based upon available information, the location is not judged to be potential NPL site.

A review of the SEMS-ARCHIVE list, as provided by EDR, and dated 12/30/2020 has revealed that there is 1 SEMS-ARCHIVE site within approximately 0.5 miles of the target property.

Federal RCRA generators list

RCRA-LQG: RCRAInfo is EPA’s comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Large quantity generators (LQGs) generate over 1,000 kilograms (kg) of hazardous waste, or over 1 kg of acutely hazardous waste per month.

A review of the RCRA-LQG list, as provided by EDR, and dated 12/14/2020 has revealed that there is 1 RCRA-LQG site within approximately 0.25 miles of the target property.

RCRA-SQG: RCRAInfo is EPA’s comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Small quantity generators (SQGs) generate between 100 kg and 1,000 kg of hazardous waste per month.

A review of the RCRA-SQG list, as provided by EDR, and dated 12/14/2020 has revealed that there is 1 RCRA-SQG site within approximately 0.25 miles of the target property.
State- and tribal - equivalent CERCLIS

ENVIROSTOR: The Department of Toxic Substances Control’s (DTSC’s) Site Mitigation and Brownfields Reuse Program’s (SMBRP’s) EnviroStor database identifies sites that have known contamination or sites for which there may be reasons to investigate further. The database includes the following site types: Federal Superfund sites (National Priorities List (NPL)); State Response, including Military Facilities and State Superfund; Voluntary Cleanup; and School sites. EnviroStor provides similar information to the information that was available in CalSites, and provides additional site information, including, but not limited to, identification of formerly-contaminated properties that have been released for reuse, properties where environmental deed restrictions have been recorded to prevent inappropriate land uses, and risk characterization information that is used to assess potential impacts to public health and the environment at contaminated sites.

A review of the ENVIROSTOR list, as provided by EDR, and dated 10/26/2020 has revealed that there is 1 ENVIROSTOR site within approximately 1 mile of the target property.

State and tribal leaking storage tank lists

LUST: Leaking Underground Storage Tank (LUST) Sites included in GeoTracker. GeoTracker is the Water Boards data management system for sites that impact, or have the potential to impact, water quality in California, with emphasis on groundwater.

A review of the LUST list, as provided by EDR, has revealed that there are 7 LUST sites within approximately 0.5 miles of the target property.

State and tribal registered storage tank lists

UST: The Underground Storage Tank database contains registered USTs. USTs are regulated under Subtitle I of the Resource Conservation and Recovery Act (RCRA). The data come from the State Water Resources Control Board’s Hazardous Substance Storage Container Database.

A review of the UST list, as provided by EDR, has revealed that there are 12 UST sites within approximately 0.25 miles of the target property.

### Local Lists of Registered Storage Tanks

SWEEPS UST: Statewide Environmental Evaluation and Planning System. This underground storage tank listing was updated and maintained by a company contacted by the SWRCB in the early 1990’s. The listing is no longer updated or maintained. The local agency is the contact for more information on a site on the SWEEPS list.

A review of the SWEEPS UST list, as provided by EDR, and dated 06/01/1994 has revealed that there is 1 SWEEPS UST site within approximately 0.25 miles of the target property.

CERS TANKS: List of sites in the California Environmental Protection Agency (CalEPA) Regulated Site Portal which fall under the Aboveground Petroleum Storage and Underground Storage Tank regulatory programs.

A review of the CERS TANKS list, as provided by EDR, and dated 10/19/2020 has revealed that there is 1 CERS TANKS site within approximately 0.25 miles of the target property.

Other Ascertainable Records

RCRA NonGen / NLR: RCRAInfo is EPA’s comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Non-Generators do not presently generate hazardous waste.

A review of the RCRA NonGen / NLR list, as provided by EDR, and dated 12/14/2020 has revealed that there are 4 RCRA NonGen / NLR sites within approximately 0.25 miles of the target property.

FINDS: The Facility Index System contains both facility information and "pointers" to other sources of information that contain more detail. These include: RCRIS; Permit Compliance System (PCS); Aerometric Information Retrieval System (AIRS); FATES (FIFRA [Federal Insecticide Fungicide Rodenticide Act] and TSCA Enforcement System, FTTS [FIFRA/TSCA Tracking System]; CERCLIS; DOCKET (Enforcement Docket used to manage and track information on civil judicial enforcement cases for all environmental statutes); Federal Underground Injection Control (FURS); Federal Reporting Data System (FRDS); Surface Impoundments (SIA); TSCA Chemicals in Commerce Information System (CICS); PADS; RCRA-J (medical waste transporters/disposers); TRIS; and TSCA. The source of this database is the U.S. EPA/NTIS.

A review of the FINDS list, as provided by EDR, and dated 11/04/2020 has revealed that there are 2 FINDS sites within approximately 0.001 miles of the target property.
EXECUTIVE SUMMARY

Registry ID: 110002625892

ECHO: ECHO provides integrated compliance and enforcement information for about 800,000 regulated facilities nationwide.

A review of the ECHO list, as provided by EDR, and dated 01/02/2021 has revealed that there is 1 ECHO site within approximately 0.001 miles of the target property.

HAZNET: The data is extracted from the copies of hazardous waste manifests received each year by the DTSC. The annual volume of manifests is typically 700,000-1,000,000 annually, representing approximately 350,000-500,000 shipments. Data from non-California manifests & continuation sheets are not included at the present time. Data are from the manifests submitted without correction, and therefore many contain some invalid values for data elements such as generator ID, TSD ID, waste category, & disposal method. The source is the Department of Toxic Substance Control is the agency. This database begins with calendar year 1993.

A review of the HAZNET list, as provided by EDR, and dated 12/31/2019 has revealed that there is 1 HAZNET site within approximately 0.001 miles of the target property.

CERS: The CalEPA Regulated Site Portal database combines data about environmentally regulated sites and facilities in California into a single database. It combines data from a variety of state and federal databases, and provides an overview of regulated activities across the spectrum of environmental programs for any given location in California. These activities include hazardous materials and waste, state and federal cleanups, impacted ground and surface waters, and toxic materials.

A review of the CERS list, as provided by EDR, and dated 10/19/2020 has revealed that there is 1 CERS site within approximately 0.001 miles of the target property.

EDR HIGH RISK HISTORICAL RECORDS

EDR Exclusive Records

EDR Hist Auto: EDR has searched selected national collections of business directories and has collected listings of potential gas station/filling station/service station sites that were available to EDR researchers. EDR’s review was limited to those categories of sources that might, in EDR’s opinion, include gas station/filling station/service station establishments. The categories reviewed included, but were not limited to gas, gas station, gasoline station, filling station, auto, automobile repair, auto service station, service station, etc. This database falls within a category of information EDR classifies as “High Risk Historical Records”, or HRHR. EDR’s HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

A review of the EDR Hist Auto list, as provided by EDR, has revealed that there is 1 EDR Hist Auto site within approximately 0.125 miles of the target property.

**Environmental Interest/Information System:**

AIR EMISSIONS CLASSIFICATION UNKNOWN
California Hazardous Waste Tracking System - Datamart (HWTS-DATAMART) provides California with information on hazardous waste shipments for generators, transporters, and treatment, storage, and disposal facilities.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

SAN FRANCISCO BAY RWQCB (REGION 2)
Lead Agency Case Number:
Not reported
Latitude: 38.0666424809552
Longitude: -122.803448438644
Case Type:
Cleanup Program Site
Case Worker: JMJ
Local Agency:
Not reported
RB Case Number:
21S0018
File Location:
Regional Board

Potential Media Affected:
Other Groundwater (uses other than drinking water), Soil

Potential Contaminants of Concern:
Diesel, Gasoline, Kerosene, Other Petroleum

Site History:
The site is located on California Highway 1 in Point Reyes and currently a tile company operates at the site. A fuel bulk terminal previously occupied the site from 1923 thru 1990. In 1999, all five ASTs and associated product piping were removed from the site. The ASTs and piping were reported to be in good condition at the time of removal. Based on visible evidence of surficial staining, about 50 cubic yards of soil were removed from the loading rack and fill pipe area. Final confirmation soil samples contained up to 1,000 mg/kg of TPH-d and 220 mg/kg of TPH-k. TPH-g and benzene were below detection limits. One monitoring well (MW) was installed at the site in August 1999. Fifteen soil borings were installed at the site in 1990 and May 2000. A grab groundwater (GW) sample from one of the soil borings (SB-6) installed in May 2000 contained 440,000 ppb TPH-g and 12,000 ppb of TPH-d. Four monitoring wells were also installed at the site in February 1991 and April 2004. The nearest surface water bodies are Arroyo San Geronimo, a seasonal lagoon, located about 600 feet southeast of the site, and Lagunitas Creek, a perennial creek, located 700 feet southeast of the site. As of the last annual monitoring and sampling event (2010), all MWs were either non-detect or slightly above detection limits, well below environmental screening levels (ESLs). It appears that the GW concentrations detected in SB-6 are not representative of the actual GW concentrations.
CHEVRON BULK PLANT (Continued)  S106234954

concentrations at the site for the following reasons: (1) The investigation report reported that the sample from SB-6 was turbid. It is likely that the turbidity of the sample adversely affected the analytical results; (2) Both MW-4, located 20-feet crossgradient, and MW-5, located 25-feet downgradient of SB-6 have consistently contained much lower concentrations that SB-6; and (3) Soil samples from B-5 (10-feet crossgradient of SB-6) contained no TPH-g and only trace amount of TPH-d at 2.9 mg/kg. Based on the following, case closure for this site is considered to be appropriate: (1) The site has been adequately investigated; (2) The primary source (the five AGTs that formerly occupied this site) were removed in 1999 and no further storage of petroleum hydrocarbons has occurred since that time; (3) The secondary source (impacted soil) were also removed in 1999; (4) The GW plume is decreasing and residual concentrations in GW is very low; (5) There is little likelihood that the shallow groundwater will be used as a drinking water supply in the near future; and (6) The residual concentrations in the soil and groundwater apparently do not represent a current or future public health, ecological, and water resources threat.

Environmental Interest/Information System:

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Click this hyperlink while viewing on your computer to access additional FINDS: detail in the EDR Site Report.

FEDERAL FACILITY HAZARDOUS WASTE DOCKET
RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

To maintain currency of the following federal and state databases, EDR contacts the appropriate governmental agency on a monthly or quarterly basis, as required.

**Number of Days to Update:** Provides confirmation that EDR is reporting records that have been updated within 90 days from the date the government agency made the information available to the public.

### STANDARD ENVIRONMENTAL RECORDS

#### Federal NPL site list

NPL: National Priority List

National Priorities List (Superfund). The NPL is a subset of CERCLIS and identifies over 1,200 sites for priority cleanup under the Superfund Program. NPL sites may encompass relatively large areas. As such, EDR provides polygon coverage for over 1,000 NPL site boundaries produced by EPA’s Environmental Photographic Interpretation Center (EPIC) and regional EPA offices.

**Proposed NPL:** Proposed National Priority List Sites

A site that has been proposed for listing on the National Priorities List through the issuance of a proposed rule in the Federal Register. EPA then accepts public comments on the site, responds to the comments, and places on the NPL those sites that continue to meet the requirements for listing.

- **Date of Government Version:** 12/30/2020
- **Date Data Arrived at EDR:** 01/14/2021
- **Date Made Active in Reports:** 02/09/2021
- **Number of Days to Update:** 26

**Last EDR Contact:** 03/04/2021  
**Next Scheduled EDR Contact:** 04/12/2021  
**Data Release Frequency:** Quarterly

**NPL LIENS:** Federal Superfund Liens

Federal Superfund Liens. Under the authority granted the USEPA by CERCLA of 1980, the USEPA has the authority to file liens against real property in order to recover remedial action expenditures or when the property owner received notification of potential liability. USEPA compiles a listing of filed notices of Superfund Liens.
Federal Delisted NPL site list

Delisted NPL: National Priority List Deletions

The National Oil and Hazardous Substances Pollution Contingency Plan (NCP) establishes the criteria that the EPA uses to delete sites from the NPL. In accordance with 40 CFR 300.425.(e), sites may be deleted from the NPL where no further response is appropriate.

Federal CERCLIS list

FEDERAL FACILITY: Federal Facility Site Information listing

A listing of National Priority List (NPL) and Base Realignment and Closure (BRAC) sites found in the Comprehensive Environmental Response, Compensation and Liability Information System (CERCLIS) Database where EPA Federal Facilities Restoration and Reuse Office is involved in cleanup activities.

SEMS: Superfund Enterprise Management System

SEMS (Superfund Enterprise Management System) tracks hazardous waste sites, potentially hazardous waste sites, and remedial activities performed in support of EPA's Superfund Program across the United States. The list was formerly know as CERCLIS, renamed to SEMS by the EPA in 2015. The list contains data on potentially hazardous waste sites that have been reported to the USEPA by states, municipalities, private companies and private persons, pursuant to Section 103 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). This dataset also contains sites which are either proposed to or on the National Priorities List (NPL) and the sites which are in the screening and assessment phase for possible inclusion on the NPL.

Federal CERCLIS NFRAP site list

SEMS-ARCHIVE: Superfund Enterprise Management System Archive

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING
SEMS-ARCHIVE (Superfund Enterprise Management System Archive) tracks sites that have no further interest under the Federal Superfund Program based on available information. The list was formerly known as the CERCLIS-NFRAP, renamed to SEMS ARCHIVE by the EPA in 2015. EPA may perform a minimal level of assessment work at a site while it is archived if site conditions change and/or new information becomes available. Archived sites have been removed and archived from the inventory of SEMS sites. Archived status indicates that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list the site on the National Priorities List (NPL), unless information indicates this decision was not appropriate or other considerations require a recommendation for listing at a later time. The decision does not necessarily mean that there is no hazard associated with a given site; it only means that, based upon available information, the location is not judged to be potential NPL site.

**Date of Government Version:** 12/30/2020  
**Source:** EPA

**Federal RCRA CORRACTS facilities list**

CORRACTS: Corrective Action Report  
CORRACTS identifies hazardous waste handlers with RCRA corrective action activity.

**Date of Government Version:** 12/14/2020  
**Source:** EPA

**Federal RCRA non-CORRACTS TSD facilities list**

RCRA-TSDF: RCRA - Treatment, Storage and Disposal  
RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Transporters are individuals or entities that move hazardous waste from the generator offsite to a facility that can recycle, treat, store, or dispose of the waste. TSDFs treat, store, or dispose of the waste.

**Date of Government Version:** 12/14/2020  
**Source:** Environmental Protection Agency

**Federal RCRA generators list**

RCRA-LQG: RCRA - Large Quantity Generators  
RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Large quantity generators (LQGs) generate over 1,000 kilograms (kg) of hazardous waste, or over 1 kg of acutely hazardous waste per month.

**Date of Government Version:** 12/14/2020  
**Source:** Environmental Protection Agency
RCRA-SQG: RCRA - Small Quantity Generators
RCRAInfo is EPA’s comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Small quantity generators (SQGs) generate between 100 kg and 1,000 kg of hazardous waste per month.

RCRA-VSQG: RCRA - Very Small Quantity Generators (Formerly Conditionally Exempt Small Quantity Generators)
RCRAInfo is EPA’s comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Very small quantity generators (VSQGs) generate less than 100 kg of hazardous waste, or less than 1 kg of acutely hazardous waste per month.

State- and tribal - equivalent CERCLIS

ENVIROSTOR: EnviroStor Database
The Department of Toxic Substances Control’s (DTSC’s) Site Mitigation and Brownfields Reuse Program’s (SMBRP’s) EnviroStor database identifies sites that have known contamination or sites for which there may be reasons to investigate further. The database includes the following site types: Federal Superfund sites (National Priorities List (NPL)); State Response, including Military Facilities and State Superfund; Voluntary Cleanup; and School sites. EnviroStor provides similar information to the information that was available in CalSites, and provides additional site information, including, but not limited to, identification of formerly-contaminated properties that have been released for reuse, properties where environmental deed restrictions have been recorded to prevent inappropriate land uses, and risk characterization information that is used to assess potential impacts to public health and the environment at contaminated sites.

State and tribal Brownfields sites
BROWNFIELDS: Considered Brownfields Sites Listing
A listing of sites the SWRCB considers to be Brownfields since these are sites have come to them through the MOA Process.
Date of Government Version: 12/17/2020
Date Data Arrived at EDR: 12/17/2020
Date Made Active in Reports: 03/09/2021
Number of Days to Update: 82
Source: State Water Resources Control Board
Telephone: 916-323-7905
Last EDR Contact: 03/23/2021
Next Scheduled EDR Contact: 07/05/2021
Data Release Frequency: Quarterly

ADDITIONAL ENVIRONMENTAL RECORDS

Local Brownfield lists
US BROWNFIELDS: A Listing of Brownfields Sites
Brownfields are real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. Cleaning up and reinvesting in these properties takes development pressures off of undeveloped, open land, and both improves and protects the environment. Assessment, Cleanup and Redevelopment Exchange System (ACRES) stores information reported by EPA Brownfields grant recipients on brownfields properties assessed or cleaned up with grant funding as well as information on Targeted Brownfields Assessments performed by EPA Regions. A listing of ACRES Brownfield sites is obtained from Cleanups in My Community. Cleanups in My Community provides information on Brownfields properties for which information is reported back to EPA, as well as areas served by Brownfields grant programs.
Date of Government Version: 12/11/2020

Next Scheduled EDR Contact: 06/28/2021
Data Release Frequency: Semi-Annually

Local Lists of Landfill / Solid Waste Disposal Sites
WMUDS/SWAT: Waste Management Unit Database
Waste Management Unit Database System. WMUDS is used by the State Water Resources Control Board staff and the Regional Water Quality Control Boards for program tracking and inventory of waste management units. WMUDS is composed of the following databases: Facility Information, Scheduled Inspections Information, Waste Management Unit Information, SWAT Program Information, SWAT Report Summary Information, SWAT Report Summary Data, Chapter 15 (formerly Subchapter 15) Information, Chapter 15 Monitoring Parameters, TPCA Program Information, RCRA Program Information, Closure Information, and Interested Parties Information.
SWRCY: Recycler Database
A listing of recycling facilities in California.

HAULERS: Registered Waste Tire Haulers Listing
A listing of registered waste tire haulers.

INDIAN ODI: Report on the Status of Open Dumps on Indian Lands
Location of open dumps on Indian land.

DEBRIS REGION 9: Torres Martinez Reservation Illegal Dump Site Locations
A listing of illegal dump sites location on the Torres Martinez Indian Reservation located in eastern Riverside County and northern Imperial County, California.

ODI: Open Dump Inventory
An open dump is defined as a disposal facility that does not comply with one or more of the Part 257 or Part 258 Subtitle D Criteria.

IHS OPEN DUMPS: Open Dumps on Indian Land
A listing of all open dumps located on Indian Land in the United States.
Local Lists of Hazardous waste / Contaminated Sites

US HIST CDL: National Clandestine Laboratory Register
A listing of clandestine drug lab locations that have been removed from the DEAs National Clandestine Laboratory Register.

| Date of Government Version: 12/07/2020 | Source: Drug Enforcement Administration |
| Date Data Arrived at EDR: 12/09/2020 | Telephone: 202-307-1000 |
| Date Made Active in Reports: 03/02/2021 | Last EDR Contact: 02/22/2021 |
| Number of Days to Update: 83 | Next Scheduled EDR Contact: 06/06/2021 |
| Data Release Frequency: No Update Planned |

HIST CAL-SITES: CalSites Database
The CalSites database contains potential or confirmed hazardous substance release properties. In 1996, California EPA reevaluated and significantly reduced the number of sites in the CalSites database. No longer updated by the state agency. It has been replaced by ENVIROSTOR.

| Date of Government Version: 08/08/2005 | Source: Department of Toxic Substance Control |

| Number of Days to Update: 76 | Next Scheduled EDR Contact: 04/19/2021 |
| Data Release Frequency: Varies |

TOXIC PITS: Toxic Pits Cleanup Act Sites
Toxic PITS Cleanup Act Sites. TOXIC PITS identifies sites suspected of containing hazardous substances where cleanup has not yet been completed.

| Date of Government Version: 07/01/1995 | Source: State Water Resources Control Board |
| Date Data Arrived at EDR: 08/30/1995 | Telephone: 916-227-4364 |
| Date Made Active in Reports: 09/26/1995 | Last EDR Contact: 01/26/2009 |
| Number of Days to Update: 27 | Next Scheduled EDR Contact: 04/27/2009 |
| Data Release Frequency: No Update Planned |

CERS HAZ WASTE: CERS HAZ WASTE
List of sites in the California Environmental Protection Agency (CalEPA) Regulated Site Portal which fall under the Hazardous Chemical Management, Hazardous Waste Onsite Treatment, Household Hazardous Waste Collection, Hazardous Waste Generator, and RCRA LQ HW Generator programs.
US CDL: Clandestine Drug Labs
A listing of clandestine drug lab locations. The U.S. Department of Justice ("the Department") provides this web site as a public service. It contains addresses of some locations where law enforcement agencies reported they found chemicals or other items that indicated the presence of either clandestine drug laboratories or dumpsites. In most cases, the source of the entries is not the Department, and the Department has not verified the entry and does not guarantee its accuracy. Members of the public must verify the accuracy of all entries by, for example, contacting local law enforcement and local health departments.

PFAS: PFAS Contamination Site Location Listing
A listing of PFAS contaminated sites included in the GeoTracker database.

Local Lists of Registered Storage Tanks

SWEEPS UST: SWEEPS UST Listing
Statewide Environmental Evaluation and Planning System. This underground storage tank listing was updated and maintained by a company contacted by the SWRCB in the early 1990's. The listing is no longer updated or maintained. The local agency is the contact for more information on a site on the SWEEPS list.

HIST UST: Hazardous Substance Storage Container Database
The Hazardous Substance Storage Container Database is a historical listing of UST sites. Refer to local/county source for current data.

SAN FRANCISCO AST: Aboveground Storage Tank Site Listing
Aboveground storage tank sites
GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

CERS TANKS: California Environmental Reporting System (CERS) Tanks
List of sites in the California Environmental Protection Agency (CalEPA) Regulated Site Portal which fall under the Aboveground Petroleum Storage and Underground Storage Tank regulatory programs.

Date of Government Version: 10/19/2020  
Source: California Environmental Protection Agency
Date Data Arrived at EDR: 10/19/2020

DEED: Deed Restriction Listing
Site Mitigation and Brownfields Reuse Program Facility Sites with Deed Restrictions & Hazardous Waste Management Program Facility Sites with Deed / Land Use Restriction. The DTSC Site Mitigation and Brownfields Reuse Program (SMBRP) list includes sites cleaned up under the program’s oversight and generally does not include current or former hazardous waste facilities that required a hazardous waste facility permit. The list represents deed restrictions that are active. Some sites have multiple deed restrictions. The DTSC Hazardous Waste Management Program (HWMP) has developed a list of current or former hazardous waste facilities that have a recorded land use restriction at the local county recorder’s office. The land use restrictions on this list were required by the DTSC HWMP as a result of the presence of hazardous substances that remain on site after the facility (or part of the facility) has been closed or cleaned up. The types of land use restriction include deed notice, deed restriction, or a land use restriction that binds current and future owners.

Other Ascertainable Records
RCRA NonGen / NLR: RCRA - Non Generators / No Longer Regulated
RCRAInfo is EPA’s comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Non-Generators do not presently generate hazardous waste.

EPA WATCH LIST: EPA WATCH LIST
EPA maintains a "Watch List" to facilitate dialogue between EPA, state and local environmental agencies on enforcement matters relating to facilities with alleged violations identified as either significant or high priority. Being on the Watch List does not mean that the facility has actually violated the law only that an investigation by EPA or a state or local environmental agency has led those organizations to allege that an unproven violation has in fact occurred. Being on the Watch List does not represent a higher level of concern regarding the alleged violations that were detected, but instead indicates cases requiring additional dialogue between EPA, state and local agencies - primarily because of the length of time the alleged violation has gone unaddressed or unresolved.

Date of Government Version: 08/30/2013  Source: Environmental Protection Agency
Date Data Arrived at EDR: 03/21/2014  Telephone: 617-520-3000

2020 COR ACTION: 2020 Corrective Action Program List
The EPA has set ambitious goals for the RCRA Corrective Action program by creating the 2020 Corrective Action Universe. This RCRA cleanup baseline includes facilities expected to need corrective action. The 2020 universe contains a wide variety of sites. Some properties are heavily contaminated while others were contaminated but have since been cleaned up. Still others have not been fully investigated yet, and may require little or no remediation. Inclusion in the 2020 Universe does not necessarily imply failure on the part of a facility to meet its RCRA obligations.

RMP:  Risk Management Plans
When Congress passed the Clean Air Act Amendments of 1990, it required EPA to publish regulations and guidance for chemical accident prevention at facilities using extremely hazardous substances. The Risk Management Program Rule (RMP Rule) was written to implement Section 112(r) of these amendments. The rule, which built upon existing industry codes and standards, requires companies of all sizes that use certain flammable and toxic substances to develop a Risk Management Program, which includes a(n): Hazard assessment that details the potential effects of an accidental release, an accident history of the last five years, and an evaluation of worst-case and alternative accidental releases; Prevention program that includes safety precautions and maintenance, monitoring, and employee training measures; and Emergency response program that spells out emergency health care, employee training measures and procedures for informing the public and response agencies (e.g. the fire department) should an accident occur.

RAATS:  RCRA Administrative Action Tracking System
RCRA Administration Action Tracking System. RAATS contains records based on enforcement actions issued under RCRA pertaining to major violators and includes administrative and civil actions brought by the EPA. For administration actions after September 30, 1995, data entry in the RAATS database was discontinued. EPA will retain a copy of the database for historical records. It was necessary to terminate RAATS because a decrease in agency resources made it impossible to continue to update the information contained in the database.

HIST FTTS: FIFRA/TSCA Tracking System Administrative Case Listing
A complete administrative case listing from the FIFRA/TSCA Tracking System (FTTS) for all ten EPA regions. The information was obtained from the National Compliance Database (NCDB). NCDB supports the implementation of FIFRA (Federal Insecticide, Fungicide, and Rodenticide Act) and TSCA (Toxic Substances Control Act). Some EPA regions are now closing out records. Because of that, and the fact that some EPA regions are not providing EPA Headquarters with updated records, it was decided to create a HIST FTTS database. It included records that may not be included in the newer FTTS database updates. This database is no longer updated.
Date of Government Version: 10/19/2006
Date Data Arrived at EDR: 03/01/2007
Date Made Active in Reports: 04/10/2007

Data Release Frequency: Quarterly

CONSENT: Superfund (CERCLA) Consent Decrees
Major legal settlements that establish responsibility and standards for cleanup at NPL (Superfund) sites. Released periodically by United States District Courts after settlement by parties to litigation matters.
BRS: Biennial Reporting System
The Biennial Reporting System is a national system administered by the EPA that collects data on the generation and management of hazardous waste. BRS captures detailed data from two groups: Large Quantity Generators (LQG) and Treatment, Storage, and Disposal Facilities.

FUSRAP: Formerly Utilized Sites Remedial Action Program
DOE established the Formerly Utilized Sites Remedial Action Program (FUSRAP) in 1974 to remediate sites where radioactive contamination remained from Manhattan Project and early U.S. Atomic Energy Commission (AEC) operations.

UMTRA: Uranium Mill Tailings Sites
Uranium ore was mined by private companies for federal government use in national defense programs. When the mills shut down, large piles of the sand-like material (mill tailings) remain after uranium has been extracted from the ore. Levels of human exposure to radioactive materials from the piles are low; however, in some cases tailings were used as construction materials before the potential health hazards of the tailings were recognized.

LEAD SMELTER 1: Lead Smelter Sites
A listing of former lead smelter site locations.

LEAD SMELTER 2: Lead Smelter Sites
A list of several hundred sites in the U.S. where secondary lead smelting was done from 1931 and 1964. These sites may pose a threat to public health through ingestion or inhalation of contaminated soil or dust.
US AIRS (AFS): Aerometric Information Retrieval System Facility Subsystem (AFS)
The database is a sub-system of Aerometric Information Retrieval System (AIRS). AFS contains compliance data on air pollution point sources regulated by the U.S. EPA and/or state and local air regulatory agencies. This information comes from source reports by various stationary sources of air pollution, such as electric power plants, steel mills, factories, and universities, and provides information about the air pollutants they produce. Action, air program, air program pollutant, and general level plant data. It is used to track emissions and compliance data from industrial plants.

US AIRS MINOR: Air Facility System Data
A listing of minor source facilities.

US MINES: Mines Master Index File
Contains all mine identification numbers issued for mines active or opened since 1971. The data also includes violation information.

US MINES 2: Ferrous and Nonferrous Metal Mines Database Listing
This map layer includes ferrous (ferrous metal mines are facilities that extract ferrous metals, such as iron ore or molybdenum) and nonferrous (Nonferrous metal mines are facilities that extract nonferrous metals, such as gold, silver, copper, zinc, and lead) metal mines in the United States.
US MINES 3: Active Mines & Mineral Plants Database Listing
Active Mines and Mineral Processing Plant operations for commodities monitored by the Minerals Information Team of the USGS.

Date of Government Version: 04/14/2011  Source: USGS
Date Data Arrived at EDR: 06/08/2011  Telephone: 703-648-7709
Date Made Active in Reports: 09/13/2011  Last EDR Contact: 02/26/2021
Number of Days to Update: 97  Next Scheduled EDR Contact: 06/06/2021
Data Release Frequency: Varies

ABANDONED MINES: Abandoned Mines
An inventory of land and water impacted by past mining (primarily coal mining) is maintained by OSMRE to provide information needed to implement the Surface Mining Control and Reclamation Act of 1977 (SMCRA). The inventory contains information on the location, type, and extent of AML impacts, as well as, information on the cost associated with the reclamation of those problems. The inventory is based upon field surveys by State, Tribal, and OSMRE program officials. It is dynamic to the extent that it is modified as new problems are identified and existing problems are reclaimed.

Number of Days to Update: 81  Next Scheduled EDR Contact: 06/21/2021
Data Release Frequency: Quarterly

FINDS: Facility Index System/Facility Registry System
Facility Index System. FINDS contains both facility information and ‘pointers’ to other sources that contain more detail. EDR includes the following FINDS databases in this report: PCS (Permit Compliance System), AIRS (Aerometric Information Retrieval System), DOCKET (Enforcement Docket used to manage and track information on civil judicial enforcement cases for all environmental statutes), FURS (Federal Underground Injection Control), C-DOCKET (Criminal Docket System used to track criminal enforcement actions for all environmental statutes), FFIS (Federal Facilities Information System), STATE (State Environmental Laws and Statutes), and PADS (PCB Activity Data System).

Date of Government Version: 11/04/2020  Source: EPA
Date Data Arrived at EDR: 12/01/2020  Telephone: (415) 947-8000

**Special Notes:**
- **FUELS PROGRAM:** This listing includes facilities that are registered under the Part 80 (Code of Federal Regulations) EPA Fuels Programs. All companies now are required to submit new and updated registrations.
- **CA BOND EXP. PLAN:** Department of Health Services developed a site-specific expenditure plan as the basis for an appropriation of Hazardous Substance Cleanup Bond Act funds. It is not updated.
- **CORTESE:** The sites for the list are designated by the State Water Resource Control Board (LUST), the Integrated Waste Board (SWF/LS), and the Department of Toxic Substances Control (Cal-Sites).
- **CUPA LIVERMORE-PLEASANTON:** List of facilities associated with the various CUPA programs in Livermore-Pleasanton.
- **DRYCLEAN AVAQMD:** A listing of dry cleaners in the Antelope Valley Air Quality Management District.
- **DRYCLEANERS:** A list of drycleaner related facilities that have EPA ID numbers. These are facilities with certain SIC codes: power laundries, family and commercial; garment pressing and cleaner's agents; linen supply; coin-operated laundries and cleaning; drycleaning plants, except rugs; carpet and upholstery cleaning; industrial launderers; laundry and garment services.

HAZNET: Facility and Manifest Data
Facility and Manifest Data. The data is extracted from the copies of hazardous waste manifests received each year by the DTSC. The annual volume of manifests is typically 700,000 - 1,000,000 annually, representing approximately 350,000 - 500,000 shipments. Data are from the manifests submitted without correction, and therefore many contain some invalid values for data elements such as generator ID, TSD ID, waste category, and disposal method. This database begins with calendar year 1993.
### ICE: ICE
Contains data pertaining to the Permitted Facilities with Inspections / Enforcements sites tracked in Envirostor.

WASTEWATER PITS: Oil Wastewater Pits Listing

Water officials discovered that oil producers have been dumping chemical-laden wastewater into hundreds of unlined pits that are operating without proper permits. Inspections completed by the Central Valley Regional Water Quality Control Board revealed the existence of previously unidentified waste sites. The water boards review found that more than one-third of the region's active disposal pits are operating without permission.

WDR: Waste Discharge Requirements Listing

In general, the Waste Discharge Requirements (WDRs) Program (sometimes also referred to as the "Non Chapter 15 (Non 15) Program") regulates point discharges that are exempt pursuant to Subsection 20090 of Title 27 and not subject to the Federal Water Pollution Control Act. Exemptions from Title 27 may be granted for nine categories of discharges (e.g., sewage, wastewater, etc.) that meet, and continue to meet, the preconditions listed for each specific exemption. The scope of the WDRs Program also includes the discharge of wastes classified as inert, pursuant to section 20230 of Title 27.

CERS: CalEPA Regulated Site Portal Data
The CalEPA Regulated Site Portal database combines data about environmentally regulated sites and facilities in California into a single database. It combines data from a variety of state and federal databases, and provides an overview of regulated activities across the spectrum of environmental programs for any given location in California. These activities include hazardous materials and waste, state and federal cleanups, impacted ground and surface waters, and toxic materials.

EDR HIGH RISK HISTORICAL RECORDS

EDR Exclusive Records

EDR MGP: EDR Proprietary Manufactured Gas Plants

The EDR Proprietary Manufactured Gas Plant Database includes records of coal gas plants (manufactured gas plants) compiled by EDR’s researchers. Manufactured gas sites were used in the United States from the 1800’s to 1950’s to produce a gas that could be distributed and used as fuel. These plants used whale oil, rosin, coal, or a mixture of coal, oil, and water that also produced a significant amount of waste. Many of the byproducts of the gas production, such as coal tar (oily waste containing volatile and non-volatile chemicals), sludges, oils and other compounds are potentially hazardous to human health and the environment. The byproduct from this process was frequently disposed of directly at the plant site and can remain or spread slowly, serving as a continuous source of soil and groundwater contamination.

EDR Hist Auto: EDR Exclusive Historical Auto Stations

EDR has searched selected national collections of business directories and has collected listings of potential gas station/filling station/service station sites that were available to EDR researchers. EDR’s review was limited to those categories of sources that might, in EDR’s opinion, include gas station/filling station/service station establishments. The categories reviewed included, but were not limited to gas, gas station, gasoline station, filling station, auto, automobile repair, auto service station, service station, etc. This database falls within a category of information EDR classifies as “High Risk Historical Records”, or HRHR. EDR’s HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

EDR Hist Cleaner: EDR Exclusive Historical Cleaners

EDR has searched selected national collections of business directories and has collected listings of potential dry cleaner sites that were available to EDR researchers. EDR’s review was limited to those categories of sources that might, in EDR’s opinion, include dry cleaning establishments. The categories reviewed included, but were not limited to dry cleaners, cleaners, laundry, laundromat, cleaning/laundry, wash & dry etc. This database falls within a category of information EDR classifies as “High Risk Historical Records”, or HRHR. EDR’s HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

LOS ANGELES CO LF METHANE: Methane Producing Landfills
This data was created on April 30, 2012 to represent known disposal sites in Los Angeles County that may produce and emanate methane gas. The shapefile contains disposal sites within Los Angeles County that once accepted degradable refuse material. Information used to create this data was extracted from a landfill survey performed by County Engineers (Major Waste System Map, 1973) as well as historical records from CalRecycle, Regional Water Quality Control Board, and Los Angeles County Department of Public Health.

OTHER DATABASE(S)
Depending on the geographic area covered by this report, the data provided in these specialty databases may or may not be complete. For example, the existence of wetlands information data in a specific report does not mean that all wetlands in the area covered by the report are included. Moreover, the absence of any reported wetlands information does not necessarily mean that wetlands do not exist in the area covered by the report.

CT MANIFEST: Hazardous Waste Manifest Data
Facility and manifest data. Manifest is a document that lists and tracks hazardous waste from the generator through transporters to a TSD facility.

Date of Government Version: 08/10/2020
Date Data Arrived at EDR: 10/20/2020
Date Made Active in Reports: 11/02/2020
Number of Days to Update: 13

**Sensitive Receptors:** There are individuals deemed sensitive receptors due to their fragile immune systems and special sensitivity to environmental discharges. These sensitive receptors typically include the elderly, the sick, and children. While the location of all sensitive receptors cannot be determined, EDR indicates those buildings and facilities - schools, daycares, hospitals, medical centers, and nursing homes - where individuals who are sensitive receptors are likely to be located.

**AHA Hospitals:**

Source: American Hospital Association, Inc.
Telephone: 312-280-5991

The database includes a listing of hospitals based on the American Hospital Association's annual survey of hospitals.

**Medical Centers: Provider of Services Listing**

Source: Centers for Medicare & Medicaid Services
Telephone: 410-786-3000

A listing of hospitals with Medicare provider number, produced by Centers of Medicare & Medicaid Services, a federal agency within the U.S. Department of Health and Human Services.

**Nursing Homes**

Source: National Institutes of Health
Telephone: 301-594-6248

Information on Medicare and Medicaid certified nursing homes in the United States.

**Public Schools**

Source: National Center for Education Statistics
Telephone: 202-502-7300

The National Center for Education Statistics' primary database on elementary and secondary public education in the United States. It is a comprehensive, annual, national statistical database of all public elementary and secondary schools and school districts, which contains data that are comparable across all states.

**Private Schools**

Source: National Center for Education Statistics
Telephone: 202-502-7300

The National Center for Education Statistics' primary database on private school locations in the United States.

EDR’s GeoCheck Physical Setting Source Addendum is provided to assist the environmental professional in forming an opinion about the impact of potential contaminant migration.

Assessment of the impact of contaminant migration generally has two principle investigative components:

1. Groundwater flow direction, and
2. Groundwater flow velocity.

Groundwater flow direction may be impacted by surface topography, hydrology, hydrogeology, characteristics of the soil, and nearby wells. Groundwater flow velocity is generally impacted by the nature of the geologic strata.
GROUNDWATER FLOW DIRECTION INFORMATION
Groundwater flow direction for a particular site is best determined by a qualified environmental professional using site-specific well data. If such data is not reasonably ascertainable, it may be necessary to rely on other sources of information, such as surface topographic information, hydrologic information, hydrogeologic data collected on nearby properties, and regional groundwater flow information (from deep aquifers).

TOPOGRAPHIC INFORMATION
Surface topography may be indicative of the direction of surficial groundwater flow. This information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

TARGET PROPERTY TOPOGRAPHY
General Topographic Gradient: General West

SURROUNDING TOPOGRAPHY: ELEVATION PROFILES

Source: Topography has been determined from the USGS 7.5' Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified.
HYDROLOGIC INFORMATION
Surface water can act as a hydrologic barrier to groundwater flow. Such hydrologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

Refer to the Physical Setting Source Map following this summary for hydrologic information (major waterways and bodies of water).

FEMA FLOOD ZONE

<tbody>
<tr>
<td>FEMA FIRM Flood data</td>
</tr>
</tbody>
</table>

HYDROGEOLOGIC INFORMATION
Hydrogeologic information obtained by installation of wells on a specific site can often be an indicator of groundwater flow direction in the immediate area. Such hydrogeologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

Site-Specific Hydrogeological Data*:

- Search Radius: 1.25 miles
- Status: Not found

AQUIFLOW®

EDR has developed the AQUIFLOW Information System to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted by environmental professionals to regulatory authorities at select sites and has extracted the date of the report, groundwater flow direction as determined hydrogeologically, and the depth to water table.

All of the information and opinions presented are those of the cited EPA report(s), which were completed under a Comprehensive Environmental Response Compensation and Liability Information System (CERCLIS) investigation.
GROUNDWATER FLOW VELOCITY INFORMATION

Groundwater flow velocity information for a particular site is best determined by a qualified environmental professional using site specific geologic and soil strata data. If such data are not reasonably ascertainable, it may be necessary to rely on other sources of information, including geologic age identification, rock stratigraphic unit and soil characteristics data collected on nearby properties and regional soil information. In general, contaminant plumes move more quickly through sandy-gravelly types of soils than silty-clayey types of soils.

GEOLOGIC INFORMATION IN GENERAL AREA OF TARGET PROPERTY

Geologic information can be used by the environmental professional in forming an opinion about the relative speed at which contaminant migration may be occurring.

(Decoded above as Era, System & Series)

DOMINANT SOIL COMPOSITION IN GENERAL AREA OF TARGET PROPERTY

The U.S. Department of Agriculture’s (USDA) Soil Conservation Service (SCS) leads the National Cooperative Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. The following information is based on Soil Conservation Service SSURGO data.

**Soil Map ID: 6**

- **Soil Component Name:** OLOMPALI
- **Soil Surface Texture:** loam
- **Hydrologic Group:** Class D - Very slow infiltration rates. Soils are clayey, have a high water table, or are shallow to an impervious layer.
- **Soil Drainage Class:** Somewhat poorly drained
- **Hydric Status:** Partially hydric
- **Corrosion Potential - Uncoated Steel:** High
- **Depth to Bedrock Min:** > 0 inches
- **Depth to Watertable Min:** > 0 inches

TOPOGRAPHIC INFORMATION

USGS 7.5' Digital Elevation Model (DEM)
Source: United States Geologic Survey
EDR acquired the USGS 7.5’ Digital Elevation Model in 2002 and updated it in 2006. The 7.5 minute DEM corresponds to the USGS 1:24,000- and 1:25,000-scale topographic quadrangle maps. The DEM provides elevation data with consistent elevation units and projection.

Current USGS 7.5 Minute Topographic Map
Source: U.S. Geological Survey

HYDROLOGIC INFORMATION

Flood Zone Data: This data was obtained from the Federal Emergency Management Agency (FEMA). It depicts 100-year and 500-year flood zones as defined by FEMA. It includes the National Flood Hazard Layer (NFHL) which incorporates Flood Insurance Rate Map (FIRM) data and Q3 data from FEMA in areas not covered by NFHL.
Source: FEMA
Telephone: 877-336-2627

NWI: National Wetlands Inventory. This data, available in select counties across the country, was obtained by EDR in 2002, 2005 and 2010 from the U.S. Fish and Wildlife Service.

State Wetlands Data: Wetland Inventory
Source: Department of Fish and Wildlife
Telephone: 916-445-0411

HYDROGEOLOGIC INFORMATION

AQUIFLOW Information System
Source: EDR proprietary database of groundwater flow information
EDR has developed the AQUIFLOW Information System (AIS) to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted to regulatory authorities at select sites and has extracted the date of the report, hydrogeologically determined groundwater flow direction and depth to water table information.

GEOLOGIC INFORMATION

Geologic Age and Rock Stratigraphic Unit

STATSGO: State Soil Geographic Database
Source: Department of Agriculture, Natural Resources Conservation Service (NRCS)
The U.S. Department of Agriculture’s (USDA) Natural Resources Conservation Service (NRCS) leads the national Conservation Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. Soil maps for STATSGO are compiled by generalizing more detailed (SSURGO) soil survey maps.

SSURGO: Soil Survey Geographic Database
Source: Department of Agriculture, Natural Resources Conservation Service (NRCS)
Telephone: 800-672-5559
SSURGO is the most detailed level of mapping done by the Natural Resources Conservation Service, mapping scales generally range from 1:12,000 to 1:63,360. Field mapping methods using national standards are used to construct the soil maps in the Soil Survey Geographic (SSURGO) database. SSURGO digitizing duplicates the original soil survey maps. This level of mapping is designed for use by landowners, townships and county natural resource planning and management.
LOCAL / REGIONAL WATER AGENCY RECORDS

FEDERAL WATER WELLS

PWS: Public Water Systems
   Source: EPA/Office of Drinking Water
   Telephone: 202-564-3750
   Public Water System data from the Federal Reporting Data System. A PWS is any water system which provides water to at least 25 people for at least 60 days annually. PWSs provide water from wells, rivers and other sources.

PWS ENF: Public Water Systems Violation and Enforcement Data
   Source: EPA/Office of Drinking Water
   Telephone: 202-564-3750

USGS Water Wells: USGS National Water Inventory System (NWIS)
   This database contains descriptive information on sites where the USGS collects or has collected data on surface water and/or groundwater. The groundwater data includes information on wells, springs, and other sources of groundwater.

OTHER STATE DATABASE INFORMATION

Groundwater Ambient Monitoring & Assessment Program
   State Water Resources Control Board
   Telephone: 916-341-5577
   The GAMA Program is California's comprehensive groundwater quality monitoring program. GAMA collects data by testing the untreated, raw water in different types of wells for naturally-occurring and man-made chemicals. The GAMA data includes Domestic, Monitoring and Municipal well types from the following sources, Department of Water Resources, Department of Health Services, EDF, Agricultural Lands, Lawrence Livermore National Laboratory, Department of Pesticide Regulation, United States Geological Survey, Groundwater Ambient Monitoring and Assessment Program and Local Groundwater Projects.

Water Well Database
   Source: Department of Water Resources
   Telephone: 916-651-9648

California Drinking Water Quality Database
   Source: Department of Public Health
   Telephone: 916-324-2319
   The database includes all drinking water compliance and special studies monitoring for the state of California since 1984. It consists of over 3,200,000 individual analyses along with well and water system information.

California Oil and Gas Well Locations
   Source: Dept of Conservation, Geologic Energy Management Division
   Telephone: 916-323-1779
   Oil and Gas well locations in the state.

California Earthquake Fault Lines
   Source: California Division of Mines and Geology
   The fault lines displayed on EDR's Topographic map are digitized quaternary fault lines prepared in 1975 by the United State Geological Survey. Additional information (also from 1975) regarding activity at specific fault lines comes from California's Preliminary Fault Activity Map prepared by the California Division of Mines and Geology.

RADON

State Database: CA Radon
   Source: Department of Public Health
   Telephone: 916-210-8558
   Radon Database for California
Area Radon Information
Source: USGS
Telephone: 703-356-4020
The National Radon Database has been developed by the U.S. Environmental Protection Agency (USEPA) and is a compilation of the EPA/State Residential Radon Survey and the National Residential Radon Survey. The study covers the years 1986 - 1992. Where necessary data has been supplemented by information collected at private sources such as universities and research institutions.

EPA Radon Zones
Source: EPA
Telephone: 703-356-4020
Sections 307 & 309 of IRAA directed EPA to list and identify areas of U.S. with the potential for elevated indoor radon levels.

OTHER

Airport Landing Facilities: Private and public use landing facilities
Source: Federal Aviation Administration, 800-457-6656

Epicenters: World earthquake epicenters, Richter 5 or greater
Source: Department of Commerce, National Oceanic and Atmospheric Administration

California Earthquake Fault Lines: The fault lines displayed on EDR’s Topographic map are digitized quaternary fault lines, prepared in 1975 by the United State Geological Survey. Additional information (also from 1975) regarding activity at specific fault lines comes from California’s Preliminary Fault Activity Map prepared by the California Division of Mines and Geology.

Re: Public Records Act Request dated March 28, 2021
File No. 21-192

Dear Requestor,

My office represents the County of Marin. We are in receipt of your Public Records Act (PRA) request, dated March 28, 2021. Below is your request with a corresponding response.

Request No. 1:

“A routine Phase I Site Assessment for 100 Commodore Webster Drive, Point Reyes Station and I am requesting records pertaining to permits, hazardous materials, spills, leaks, cleanup cases, ...... USTs, and .. ASTs ...... at this address (APN 119-240-73).”

Response to Request No. 1:

The County of Marin has no responsive records to your request.

If you need any further assistance, please do not hesitate to contact me directly.

Sincerely,

BRIAN E. WASHINGTON
COUNTY COUNSEL

Chief Deputy County Counsel
CAL LAND TITLE COMPANY
FIRST LOOK CHECKLIST

Will any of the following situation potentially affect your transaction:

☐ Will the principals be using a **POWER OF ATTORNEY**?

☐ Are any of the parties in title **INCAPACITATED OR DECEASED**?

☐ Has a **CHANGE IN MARITAL STATUS** occurred for any of the principals?

☐ Will the property be transferred to a **NEW TRUST, PARTNERSHIP OR CORPORATION**?

☐ Do the sellers of the property **RESIDE OUTSIDE OF CALIFORNIA OR THE UNITED STATES**?

☐ Have any of the principals **RECENTLY FILED BANKRUPTCY**?

☐ Are the principals involved in an **EXCHANGE WITH THIS PROPERTY**?

☐ Has there been a **WORK OF IMPROVEMENT, CONSTRUCTION, OR ANY REMODELING** of the subject property in the last 90 days?

If you answered YES to any of these questions, please contact your escrow officer right away, so we can assure a smooth closing.

Remember, all parties signing documents must have a valid photo I.D. or driver’s license for a notarial acknowledgment.

Thank you for helping Cal Land Title Company serve you better.

252 First Street, Benicia, CA 94510 (707) 361-5760
300B Drakes Landing Road, Suite 290, Greenbrae, CA 94904 (415) 569-4800
In response to the application for a policy of title insurance referenced herein, Stewart Title Guaranty Company hereby reports that it is prepared to issue, or cause to be issued, as of the date hereof, a policy or policies of title insurance describing the land and the estate or interest therein hereinafter set forth, insuring against loss which may be sustained by reason of any defect, lien or encumbrance not shown or referred to as an exception herein or not excluded from coverage pursuant to the printed Schedules, Conditions and Stipulations or Conditions of said policy forms.

The printed Exceptions and Exclusions from the coverage and Limitations on Covered Risks of said policy or policies are set forth in Attachment One. The policy to be issued may contain an arbitration clause. When the Amount of Insurance is less than that set forth in the arbitration clause, all arbitrable matters shall be arbitrated at the option of either the Company or the Insured as the exclusive remedy of the parties. Limitations on Covered Risks applicable to the CLTA and ALTA Homeowner’s Policies of Title Insurance which establish a Deductible Amount and a Maximum Dollar Limit of Liability for certain coverages are also set forth in Attachment One. Copies of the policy forms should be read. They are available from the office which issued this report.

This report (and any supplements or amendments hereto) is issued solely for the purpose of facilitating the issuance of a policy of title insurance and no liability is assumed hereby. If it is desired that liability be assumed prior to the issuance of a policy of title insurance, a Binder or Commitment should be requested.

The policy(s) of title insurance to be issued hereunder will be policy(s) of Stewart Title Guaranty Company.

Please read the exceptions shown or referred to herein and the exceptions and exclusions set forth in Attachment One of this report carefully. The exceptions and exclusions are meant to provide you with notice of matters which are not covered under the terms of the title insurance policy and should be carefully considered.

It is important to note that this preliminary report is not a written representation as to the condition of title and may not list all liens, defects and encumbrances affecting title to the land.

Dated as of April 8, 2019 at 7:30 A.M.

By: [Signature]
Authorized Signatory
The form of policy or policies of title insurance contemplated by this report is:

ALTA Owner’s Policy (6/17/06) with Regional Exceptions (Standard Coverage)

And

ALTA Loan Policy (6/17/06) (Extended Coverage)

A specific request should be made if another form or additional coverage is desired.

TITLE TO SAID ESTATE OR INTEREST AT THE DATE HEREOF IS VESTED IN:

UNITED STATES OF AMERICA

THE ESTATE OR INTEREST IN THE LAND HEREAFTER DESCRIBED OR REFERRED TO COVERED BY THIS REPORT IS:

A FEE

THE LAND REFERRED TO IN THIS REPORT IS DESCRIBED AS FOLLOWS:

See Exhibit A attached hereto and made a part hereof.
EXHIBIT A

LEGAL DESCRIPTION

The land referred to in this report is situated in the unincorporated area of County of Marin, State of California, and is described as follows:

PARCEL ONE:
Beginning at the most Easterly corner of the parcel of land conveyed in the Deed executed by Harold F. Genazzi to Victor De Carli, et al, recorded January 12, 1959, in Book 1247 of Official Records at Page 429, Marin County Records, thence leaving said Easterly line and running along the Southeasterly boundary line of the parcel of land conveyed in the Deed executed by the Northwestern Pacific Railroad Company, a corporation, to Fred Genazzi, recorded November 5, 1935 in Book 306 of Official Records at Page 208, Marin County Records, North 59° 33’ 14” East 496.4 feet to the most Easterly corner thereof, thence along the Southerly and Easterly line of the 50 foot right of way of the North Pacific Coast Railroad Extension company, now Northwestern Pacific Railroad Co., acquired from. Galen Burdell by Deed dated January 2, 1889, and recorded January 4, 1889, in Book 9 of Deeds at Page 219, Marin County Records, thence on a curve to the left, a radius of 1067 feet, through a central angle of 61° 11’ 10” an arc distance of 1139.45 feet, thence North 1° 37 West 443.00 feet, thence leaving said Easterly line North 88° 23’ East 240.00 feet to a point in the center line of the Arroyo San Geronimo or Paper Mill Creek, thence Southerly meandering along said center line to a point which bears South 65° 20’ 44” East from the point of beginning, thence leaving said center line North 65° 20’ 44” West 546.50 feet to the point of beginning.

PARCEL TWO:
Beginning at the most Easterly point of that certain parcel of land described in Deed made by George Plummer, dated March 23, 1917 and recorded March 30, 1917, in Book 186 of Deeds at Page 432, Marin County Records, said point being also 25 feet Southeasterly, radially from a point on a curve concave to the North of a radius 1042 feet, being the center line of the original 50 foot right of way of the North Pacific Coast Railroad Extension Company, now Northwestern Pacific Railroad Company, acquired from Galen Burdell by Deed dated January 2, 1889, and recorded January 4, 1889 in Book 9 of Deeds at Page 219, Marin County Records, thence Southwesterly, along the Southeasterly line and its production Southwesterly of the said land acquired from Plummer, a distance of 496.4 feet, more or less, to a point on the Southerly line of that certain parcel of land described secondly in Deed made by Galen Burdell to the North Pacific Coast Railroad Extension Company, now Northwestern Pacific Railroad Company, dated January 2, 1889 and recorded January 4, 1889 in Book 9 of Deeds at Page 219, Marin County Records, thence Westerly along said Southerly line and the Southern line of that certain parcel of land described firstly in Deed made by James B. Burdell, as executor of the Last Will and Testament of Galen Burdell, to the Northwestern Pacific Railroad Company, dated April 24, 1909 and recorded May 19, 1909 in Book 121 of Deeds at Page 367, Marin County Records; a distance of 293.3 feet, more or less, to a point on the Northeasternly line of that certain parcel of land described firstly in that certain Deed made by Northwestern Pacific Railroad Company to Henry R. Bell, et ux, dated January 12, 1917 and recorded February 24, 1917 in Book 185 of Deeds Page 300, Marin County Records, thence Northerly along the said Northeasternly line a distance of 94.2 feet, more or less, to a point in the Easterly line of First Street in the Town of Point Reyes; thence Northerly along the said Easterly line of First Street, a distance of 182.2 feet, more or less, to the most Northerly point of that certain parcel of land described secondly in Deed made by James B. Burdell, as executor of the Last Will and Testament of Galen Burdell, to the Northwestern Pacific Railroad Company, dated April 24, 1909 and recorded May 18, 1909 in Book 121 of Deeds at Page 367, Marin County Records; thence Southeasterly along the Northeasternly line of said last named parcel a distance of 125 feet more or less to a point
on the Northerly line of the above mentioned 50 foot right of way of the North Pacific Coast Railroad Extension Company, thence Northeasterly along the said Northerly line of the 50 foot right of way to a point 50 feet Northwesterly measured radially from the point of beginning; thence Southeasterly radially, 50 feet to the ‘point of beginning.

Excepting therefrom that portion thereof contained in the following Deeds:

PARCEL THREE:
Beginning at a point in the Northwesterly boundary line of the parcel of land firstly described in the Deed executed by Galen Burdell to the North Pacific Coast Railroad Extension Company, recorded January 4, 1889 in Book 9 of Deeds at Page 219, Marin County Records, said point being the most Southerly corner of the parcel of land described in the Deed executed by Armando E. Campigli to George T. Dettner, et ux, recorded May 9, 1962 in Book 1568 of Official Records at Page 400, Marin County Records, thence along the Southwesterly line of said Dettner parcel, North 32° 36’ 30” West (called North 32° 41’ West in Deed) 478.71 feet, thence leaving said Southwesterly line North 33° 38’ 47” East 848.28 feet to a point in the Westerly line of said parcel conveyed to the North Pacific Coast Railroad Extension Company, thence along said line South 1° 37’ East (called North 1° 05’ West R/R Deed) 443.00 feet, thence on a curve to, the right, radius of 1017 feet, through a central angle of 40° 27’ 51” an arc distance of 718.25 feet to the point of beginning.

PARCEL FOUR:
Beginning at a point in the Northerly line of said parcel conveyed to North Pacific Coast Railroad Extension Company, said point being the Northeast corner of the parcel of land, described in the Deed executed by Northwestern Pacific Railroad Company, a corporation to Fred Genazzi, recorded November 5, 1935 in Book 306 of Official Records at Page 208, Marin County Records thence along the Northerly and Westerly line of said parcel (9 Deeds 219) on a curve to the left, radius of 1017 feet, through a central angle of 61° 11’ 10” an arc distance of 1086.06 feet, thence North 1° 37’ West (called North 1° 05’ West in Deed) 443.00 feet, thence leaving said Westerly line North 88° 23’ East 50.00 feet to a point in the Easterly line of said parcel, thence along the Easterly and Southeasterly line of said parcel, South 1° 37’ East (called North 1° 05’ West in R/R Deed) 443.00 feet, thence an a curve to the right, radius of 1067 feet, through a central angle of 61° 11’ 10” an arc distance of 1139.45 feet, to the most Easterly corner of said Genazzi parcel, (Book 306 OR 208) thence along said Easterly line North 30° 25’ 50” West 50.00 feet to the point of beginning.

APN: 119-236-10 and 119-240-73
AT THE DATE HEREOF, EXCEPTIONS TO COVERAGE IN ADDITION TO THE PRINTED EXCEPTIONS AND EXCLUSIONS IN SAID POLICY FORM WOULD BE AS FOLLOWS:

1. Property taxes, which are a lien not yet due and payable, including any assessments collected with taxes, to be levied for the fiscal year 2019–2020.

2. The herein described property is not presently assessed due to the fact the vestee herein is an exempt body; however, if said property is conveyed to a taxable entity, said property will be assessed taxes for the remainder of the fiscal year. Tax parcel(s) for said land are currently shown as 119-236-10 and 119-240-73.

3. The lien of supplemental taxes, if any, assessed pursuant to the provisions of Chapter 3.5 (commencing with Section 75) of the Revenue and Taxation Code of the State of California, solely as a result of (i) the transfer to the Insured of title to the property described on Schedule A hereto (the “Property”), or (ii) new construction occurring on the Property after the date of this Policy.

4. Assessments, if any, for Community Facility Districts affecting said land which may exist by virtue of assessment maps or notices filed by said districts. Said assessments will be collected with the County Taxes if said property is conveyed to a taxable entity, said property will be assessed for the remainder of the fiscal year.

5. Water rights, claims or title to water in or under said land, whether or not shown by the public records.

6. Easement for the free and natural flow of the creek across the herein described property as the same may now exist.

7. Any change in the boundaries of the herein described property that has occurred or may hereafter occur by natural means and by imperceptible degrees.

8. Rights of Riparian Owners, and rights of County, State of Federal Governments to control water, use and access to Lagunitas Creek (also known as Arroyo San Geronimo and Paper Mill Creek) and any title, interest, rights or easements which exist or are claimed to exist over any part of said land which presently is or in the past has been covered by water.

9. Any adverse claim based upon the assertion that:

   a) Some portion of said land is tide or submerged land, or has been created by artificial means or has accreted to such portion so created.

   b) Some portion of said land has been brought within the boundaries thereof by an avulsive movement of the Lagunitas Creek or has been formed by accretion to any such portion.

10. Any rights in favor of the public which may exist on said land for access, parking, beach or recreational uses, if said land or portions thereof were at any time used by the public for such purposes.

11. Possible existing utilities which may be presently installed within the former Northwestern Pacific Railroad right of way.
12. Right to construct and maintain dams, reservoirs and places of storage of water and to divert and appropriate
such waters as granted from Loretta Garcia to Marin County Water Company, by instrument recorded April

13. An easement for the construction, repair, maintenance and operation of well sites, treatment plant and
pipelines and rights incidental thereto in favor of North Marin County Water District as set forth in a
document recorded February 1, 1973 in Book 2653 of Official Records at Page 385, Marin County Records,
affects Northerly Portion.

14. Covenants, Conditions and Restrictions (but omitting any covenants or restrictions if any, based upon race,
color, religion, sex, handicap, familial status, or national origin unless and only to the extent that said
covenant (a) is exempt under Chapter 42, Section 3607 of the United States Code or (b) relates to handicap
but does not discriminate against handicapped persons) as set forth in the document referred to in the
numbered item last above shown.

The conditions therein contain no express words of forfeiture or reversion of title if violated.

Note: Section 12956.1 of the Government Code provides the following: If this document contains any
restrictions based on race, color, religion, sex, familial status, marital status, disability, national origin, or
ancestry, that restriction violates state and federal fair housing laws and is void. Any person holding an
interest in this property may request that the county recorder remove the restrictive language pursuant to
subdivision (c) of Section 12956.1 of the Government Code.

15. An easement for water pipelines and rights incidental thereto in favor of North Marin County Water District
as set forth in a document recorded February 1, 1973 in Book 2653 of Official Records at Page 389, Marin
County Records, affects Northerly Portion.

16. Covenants, Conditions and Restrictions (but omitting any covenants or restrictions if any, based upon race,
color, religion, sex, handicap, familial status, or national origin unless and only to the extent that said
covenant (a) is exempt under Chapter 42, Section 3607 of the United States Code or (b) relates to handicap
but does not discriminate against handicapped persons) as set forth in the document referred to in the
numbered item last above shown.

The conditions therein contain no express words of forfeiture or reversion of title if violated.

Note: Section 12956.1 of the Government Code provides the following: If this document contains any
restrictions based on race, color, religion, sex, familial status, marital status, disability, national origin, or
ancestry, that restriction violates state and federal fair housing laws and is void. Any person holding an
interest in this property may request that the county recorder remove the restrictive language pursuant to
subdivision (c) of Section 12956.1 of the Government Code.

17. An easement for utility purposes and rights incidental thereto in favor of Pacific Gas and Electric Company, a
public utility as set forth in a document recorded February 14, 1974 in Book 2764 of Official Records at Page
675, Marin County Records, affects Central Portion.
18. Covenants, Conditions and Restrictions (but omitting any covenants or restrictions if any, based upon race, color, religion, sex, handicap, familial status, or national origin unless and only to the extent that said covenant (a) is exempt under Chapter 42, Section 3607 of the United States Code or (b) relates to handicap but does not discriminate against handicapped persons) as set forth in the document referred to in the numbered item last above shown.

The conditions therein contain no express words of forfeiture or reversion of title if violated.

Note: Section 12956.1 of the Government Code provides the following: If this document contains any restrictions based on race, color, religion, sex, familial status, marital status, disability, national origin, or ancestry, that restriction violates state and federal fair housing laws and is void. Any person holding an interest in this property may request that the county recorder remove the restrictive language pursuant to subdivision (c) of Section 12956.1 of the Government Code.

Said easement is also depicted upon the Record of Survey recorded December 10, 2010 in Book 2010 of Maps at Page 164, Marin County Records.

20. Please be advised that our search did not disclose any open deeds of trust of record. If you should have knowledge of any outstanding obligation, please contact your title officer immediately for further review.

21. Minerals of whatsoever kind, subsurface and surface substances, including but not limited to coal, lignite, oil, gas, uranium, clay, rock, sand and gravel in, on, under and that may be produced from the Land, together with all rights, privileges, and immunities relating thereto, whether or not appearing in the Public Records or listed in Schedule B. The Company makes no representation as to the present ownership of any such interests. There may be leases, grants, exceptions or reservations of interests that are not listed.

22. Any and all unrecorded leases.

23. Any facts, rights, interests or claims which are not disclosed by the public records but which could be ascertained by making inquiry of the parties in possession of the herein described land.

24. Any easements, liens (including but not limited to any Statutory Liens for labor or materials arising from any on-going or recently completed works of improvement), encumbrances, facts, rights, interest or claims which are not shown by the public records but which could be ascertained by an inspection of the herein described land.

25. Discrepancies, conflicts in boundary lines, shortages in area, encroachments or any other facts which a correct survey of the herein described land would disclose which are not shown by the public records and the requirement that said survey meets with the minimum standards for ALTA/ACSM Land title surveys.
If ALTA Survey is obtained, said ALTA survey needs to be certified to both Stewart Title of California, Inc. and to Stewart Title Guaranty Company, our Underwriter.

26. Any lien, or right to a lien, for services, labor, or material heretofore or hereafter furnished, imposed by law and not shown by the Public Records.

-ENDORSEMENTS-
Information Notes:

a. Neither the policy to be issued, nor the CLTA 116.7 Endorsement, if issued, provide insurance that a building permit can be obtained from the local City or County. Interested parties should contact the City or the County to determine the requirements for a building permit.

b. The Assessor’s Parcel Number(s), if any, contained in the legal description herein, are for quick identification purposes only, and are not a part of the actual legal descriptions.

c. Any statement regarding the acreage of the herein described land contained within the legal description in this report is derived from the public record and is for recorded deed purposes only. The Policy of Title Insurance contemplated by this report provides no insurance with respect to acreage and no acreage statement will appear within the legal description of such policy.

d. The County Recorder may charge an additional $20.00 recording fee, if not provided with a “Preliminary Change of Ownership Report” Form, for each Deed to be recorded. The purchaser is responsible for completing and signing this form.

e. Before an escrow can close, or funds placed in a Savings Account, the Seller must furnish a Taxpayer Identification Number to us so that we can file an IRS Form 1099S or its equivalent, with the Internal Revenue Service. This procedure is required by Section 6045 of the Internal Revenue Code.

f. The policy to be issued may contain an arbitration clause. When the Amount of Insurance is less than the certain dollar amount set forth in any applicable arbitration clause, all arbitrable matters shall be arbitrated at the option of either the Company of the Insured as the exclusive remedy of the parties. If you desire to review the terms of the policy, including any arbitration clause that may be included, contact the office that issued this Commitment or Report to obtain a sample of the policy jacket for the policy that is to be issued in connection with your transaction.

Lenders Supplemental Report:

g. This report contemplates the issuance of a Lender’s Policy of Title Insurance. We have no knowledge of any fact that would preclude the issuance of CLTA Form 100 Endorsement and a CLTA Form 116 Endorsement in conjunction with said policy.

h. Said CLTA Form 116 Endorsement will indicate that there is located on the land a Commercial Building, commonly known as: 100 Commodore Webster Drive Point Reyes Station, CA 94956

i. According to the public records, there has been no conveyance of the land within a period of two years prior to the date of this report, except as follows:

NONE

**WARNING:**

The map attached, if any, may or may not be a survey of the land depicted hereon. First American disclaims any liability for loss or damage which may result from reliance on this map except to the extent coverage for such loss or damage is expressly provided by the terms and provisions of the title insurance policy, if any, to which this map is attached.

**CLICK HERE FOR MAP**

Included are the documents that you (or someone on your behalf) requested. As required by Section 12956.1(b) of the Government Code, please take note of the following:

*If this document contains any restriction based on race, color, religion, sex, sexual orientation, familial status, marital status, disability, national origin, source of income as defined in subdivision (p) of Section 12955, or ancestry, that restriction violates state and federal fair housing laws and is void, and may be removed pursuant to Section 12956.2 of the Government Code. Lawful restriction under state and federal law on the age of occupants in senior housing or housing for older persons shall not be construed as restrictions based on familial status.*

If this cover page is a copy which has been sent by facsimile, e-mail or other form of electronic transmission, please note that in the original of this page the above notice is printed in 18-point boldface type.

Restrictions indicating a preference, limitation or discrimination based on race, color, religion, sex, handicap, familial status, or national origin are hereby deleted to the extent such restrictions violate 42 U.S.C. §3604(c).
PRIVACY POLICY

We are Committed to Safeguarding Customer Information
In order to better serve your needs now and in the future, we may ask you to provide us with certain information. We understand that you may be concerned about what we will do with such information – particularly any personal or financial information. We agree that you have a right to know how we will utilize the personal information you provide to us. Therefore, together with our parent company, The First American Corporation, we have adopted this Privacy Policy to govern the use and handling of your personal information.

Applicability
This Privacy Policy governs our use of the information which you provide to us. It does not govern the manner in which we may use information we have obtained from any other source, such as information obtained from a public record of from another person or entity. First American has also adopted guidelines that govern our use of personal information regardless of its source. First American calls these guidelines its Fair Information Values, a copy of which can be found on our website at www.firstam.com.

Type of Information
Depending upon which of our services you are utilizing, the types of nonpublic personal information that we may collect include:

- Information we receive from you on applications, forms and in other communications to us, whether in writing, in person, by telephone or any other means;
- Information about your transactions with us, our affiliated companies, or others; and
- Information we receive from a consumer reporting agency.

Use of Information
We request information from you for our own legitimate business purposes and not for the benefit of any nonaffiliated party. Therefore, we will not release your information to nonaffiliated parties except: (1) as necessary for us to provide the product or service you have requested from us, or (2) as permitted by law. We may, however, store such information indefinitely, including the period after which any customer relationship has ceased. Such information may be used for any internal, such as quality control efforts or customer analysis. We may also provide all of the types of nonpublic personal information listed above to one or more of our affiliated companies. Such affiliated companies include financial service providers, such as title insurers, property and casualty insurers, and trust and investment advisory companies, or companies involved in real estate services, such as appraisal companies, home warranty companies, and escrow companies. Furthermore, we may also provide all the information we collect, as described above, to companies that perform marketing services on our behalf, on behalf of our affiliated companies, or to other financial institutions with whom we or our affiliated companies have joint marketing agreements.

Former Customers
Even if you are no longer our customer, our Privacy Policy will continue to apply to you.

Confidentiality and Security
We will use our best efforts to ensure that no unauthorized parties have access to any of your information. We restrict access to nonpublic personal information about you to those individuals and entities who need to know that information to provide products or services to you. We will use our best efforts to train and oversee our employees and agents to ensure that your information will be handled responsibly and in accordance with this Privacy Policy and First American’s Fair Information Values. We currently maintain physical, electronic, and procedural safeguards that comply with federal regulations to guard your nonpublic personal information.
ATTACHMENT ONE (Revised 06-03-11)
CALIFORNIA LAND TITLE ASSOCIATION
STANDARD COVERAGE POLICY – 1990
EXCLUSIONS FROM COVERAGE

The following matters are expressly excluded from the coverage of this policy and the Company will not pay loss or damage, costs, attorneys' fees or expenses which arise by reason of:

1. (a) Any law, ordinance or governmental regulation (including but not limited to building or zoning laws, ordinances, or regulations) restricting, regulating, prohibiting or relating (i) the occupancy, use, or enjoyment of the land; (ii) the character, dimensions or location of any improvement now or hereafter erected on the land; (iii) a separation in ownership or a change in the dimensions or area of the land or any parcel of which the land is or was a part; or (iv) environmental protection, or the effect of any violation of these laws, ordinances or governmental regulations, except to the extent that a notice of the enforcement thereof or a notice of a defect, lien, or encumbrance resulting from a violation or alleged violation affecting the land has been recorded in the public records at Date of Policy.
   (b) Any governmental police power not excluded by (a) above, except to the extent that a notice of the exercise thereof or notice of a defect, lien or encumbrance resulting from a violation or alleged violation affecting the land has been recorded in the public records at Date of Policy.

2. Rights of eminent domain unless notice of the exercise thereof has been recorded in the public records at Date of Policy, but not excluding from coverage any taking which has occurred prior to Date of Policy which would be binding on the rights of a purchaser for value without knowledge.

3. Defects, liens, encumbrances, adverse claims or other matters:
   (a) whether or not recorded in the public records at Date of Policy, but created, suffered, assumed or agreed to by the insured claimant;
   (b) not known to the Company, not recorded in the public records at Date of Policy, but known to the insured claimant and not disclosed in writing to the Company by the insured claimant prior to the date the insured claimant became an insured under this policy;
   (c) resulting in no loss or damage to the insured claimant;
   (d) attaching or created subsequent to Date of Policy; or
   (e) resulting in loss or damage which would not have been sustained if the insured claimant had paid value for the insured mortgage or for the estate or interest insured by this policy.

4. Unenforceability of the lien of the insured mortgage because of the inability or failure of the insured at Date of Policy, or the inability or failure of any subsequent owner of the indebtedness, to comply with the applicable doing business laws of the state in which the land is situated.

5. Invalidity or unenforceability of the lien of the insured mortgage, or claim thereof, which arises out of the transaction evidenced by the insured mortgage and is based upon usury or any consumer credit protection or truth in lending law.

6. Any claim, which arises out of the transaction vesting in the insured the estate of interest insured by this policy or the transaction creating the interest of the insured lender, by reason of the operation of federal bankruptcy, state insolvency or similar creditors' rights laws.

EXCEPTIONS FROM COVERAGE - SCHEDULE B, PART I

This policy does not insure against loss or damage (and the Company will not pay costs, attorneys' fees or expenses) which arise by reason of:

1. Taxes or assessments which are not shown as existing liens by the records of any taxing authority that levies taxes or assessments on real property or by the public records.
   Proceeding by a public agency which may result in taxes or assessments, or notices of such proceeding, whether or not shown by the records of such agency or by the public records.

2. Any facts, rights, interests, or claims which are not shown by the public records but which could be ascertained by an inspection of the land or which may be asserted by persons in possession thereof.

3. Easements, liens or encumbrances, or claims thereof, not shown by the public records.

4. Discrepancies, conflicts in boundary lines, shortage in area, encroachments, or any other facts which a correct survey would disclose, and which are not shown by the public records.

5. (a) Unpatented mining claims; (b) reservations or exceptions in patents or in Acts authorizing the issuance thereof; (c) water rights, claims or title to water, whether or not the matters excepted under (a), (b) or (c) are shown by the public records.

6. Any lien or right to a lien for services, labor or material not shown by the public records.

CLTA HOMEOWNER’S POLICY OF TITLE INSURANCE (02-03-10)
ALTA HOMEOWNER’S POLICY OF TITLE INSURANCE
EXCLUSIONS

In addition to the Exceptions in Schedule B, You are not insured against loss, costs, attorneys' fees, and expenses resulting from:

1. Governmental police power, and the existence or violation of those portions of any law or government regulation concerning:
   a. building;
   b. zoning;
   c. land use;
   d. improvements on the Land;
   e. land division; and
   f. environmental protection.
   This Exclusion does not limit the coverage described in Covered Risk 8.a., 14, 15, 16, 18, 19, 20, 23 or 27.
2. The failure of Your existing structures, or any part of them, to be constructed in accordance with applicable building codes. This Exclusion does not limit the coverage described in Covered Risk 14 or 15.

3. The right to take the Land by condemning it. This Exclusion does not limit the coverage described in Covered Risk 17.

4. Risks:
   a. that are created, allowed, or agreed to by You, whether or not they are recorded in the Public Records;
   b. that are Known to You at the Policy Date, but not to Us, unless they are recorded in the Public Records at the Policy Date;
   c. that result in no loss to You; or
   d. that first occur after the Policy Date - this does not limit the coverage described in Covered Risk 7, 8.e., 25, 26, 27 or 28.

5. Failure to pay value for Your Title.

6. Lack of a right:
   a. to any land outside the area specifically described and referred to in paragraph 3 of Schedule A; and
   b. in streets, alleys, or waterways that touch the Land.
   This Exclusion does not limit the coverage described in Covered Risk 11 or 21.

7. The transfer of the Title to You is invalid as a preferential transfer or as a fraudulent transfer or conveyance under federal bankruptcy, state insolvency, or similar creditors’ rights laws.

LIMITATIONS ON COVERED RISKS

Your insurance for the following Covered Risks is limited on the Owner’s Coverage Statement as follows:

- For Covered Risk 16, 18, 19, and 21 Your Deductible Amount and Our Maximum Dollar Limit of Liability shown in Schedule A.

The deductible amounts and maximum dollar limits shown on Schedule A are as follows:

<table>
<thead>
<tr>
<th>Covered Risk</th>
<th>Your Deductible Amount</th>
<th>Our Maximum Dollar Limit of Liability</th>
</tr>
</thead>
<tbody>
<tr>
<td>16:</td>
<td>1.00% of Policy Amount Shown in Schedule A or $2,500.00 (whichever is less)</td>
<td>$10,000.00</td>
</tr>
<tr>
<td>18:</td>
<td>1.00% of Policy Amount Shown in Schedule A or $5,000.00 (whichever is less)</td>
<td>$25,000.00</td>
</tr>
<tr>
<td>19:</td>
<td>1.00% of Policy Amount Shown in Schedule A or $5,000.00 (whichever is less)</td>
<td>$25,000.00</td>
</tr>
<tr>

AMERICAN LAND TITLE ASSOCIATION
RESIDENTIAL TITLE INSURANCE POLICY (6-1-87)

EXCLUSIONS

In addition to the Exceptions in Schedule B, you are not insured against loss, costs, attorneys’ fees, and expenses resulting from:

1. Governmental police power, and the existence or violation of any law or government regulation. This includes building and zoning ordinances and also laws and regulations concerning:
   * land use
   * improvements on the land
   * land division
   * environmental protection
   This exclusion does not apply to violations or the enforcement of these matters which appear in the public records at Policy Date.
   This exclusion does not limit the zoning coverage described in Items 12 and 13 of Covered Title Risks.

2. The right to take the land by condemning it, unless:
   * a notice of exercising the right appears in the public records
   * on the Policy Date
   * the taking happened prior to the Policy Date and is binding on you if you bought the land without knowing of the taking

3. Title Risks:
   * that are created, allowed, or agreed to by you
   * that are known to you, but not to us, on the Policy Date – unless they appeared in the public records
   * that result in no loss to you
   * that first affect your title after the Policy Date – this does not limit the labor and material lien coverage in Item 8 of Covered Title Risks

4. Failure to pay value for your title.

5. Lack of a right:
   * to any land outside the area specifically described and referred to in Item 3 of Schedule A
2006 ALTA LOAN POLICY (06-17-06)
EXCLUSIONS FROM COVERAGE

The following matters are expressly excluded from the coverage of this policy, and the Company will not pay loss or damage, costs, attorneys' fees, or expenses that arise by reason of:

1. (a) Any law, ordinance, permit, or governmental regulation (including those relating to building and zoning) restricting, regulating, prohibiting, or relating to
   (i) the occupancy, use, or enjoyment of the Land;
   (ii) the character, dimensions, or location of any improvement erected on the Land;
   (iii) the subdivision of land; or
   (iv) environmental protection;
   or the effect of any violation of these laws, ordinances, or governmental regulations. This Exclusion 1(a) does not modify or limit the coverage provided under Covered Risk 5.
   (b) Any governmental police power. This Exclusion 1(b) does not modify or limit the coverage provided under Covered Risk 6.

2. Rights of eminent domain. This Exclusion does not modify or limit the coverage provided under Covered Risk 7 or 8.

3. Defects, liens, encumbrances, adverse claims, or other matters
   (a) created, suffered, assumed, or agreed to by the Insured Claimant;
   (b) not Known to the Company, not recorded in the Public Records at Date of Policy, but Known to the Insured Claimant and not disclosed in writing to the Company by the Insured Claimant prior to the date the Insured Claimant became an Insured under this policy;
   (c) resulting in no loss or damage to the Insured Claimant;
   (d) attaching or created subsequent to Date of Policy (however, this does not modify or limit the coverage provided under Covered Risk 11, 13 or 14); or
   (e) resulting in loss or damage that would not have been sustained if the Insured Claimant had paid value for the Insured Mortgage.

4. Unenforceability of the lien of the Insured Mortgage because of the inability or failure of an Insured to comply with applicable doing business laws of the state where the Land is situated.

5. Invalidity or unenforceability in whole or in part of the lien of the Insured Mortgage that arises out of the transaction evidenced by the Insured Mortgage and is based upon usury or any consumer credit protection or truth-in-lending law.

6. Any claim, by reason of the operation of federal bankruptcy, state insolvency, or similar creditors’ rights laws, that the transaction creating the lien of the Insured Mortgage, is
   (a) a fraudulent conveyance or fraudulent transfer, or
   (b) a preferential transfer for any reason not stated in Covered Risk 13(b) of this policy.

7. Any lien on the Title for real estate taxes or assessments imposed by governmental authority and created or attaching between Date of Policy and the date of recording of the Insured Mortgage in the Public Records. This Exclusion does not modify or limit the coverage provided under Covered Risk 11(b).

The above policy form may be issued to afford either Standard Coverage or Extended Coverage. In addition to the above Exclusions from Coverage, the Exceptions from Coverage in a Standard Coverage policy will also include the following Exceptions from Coverage:

EXCEPTIONS FROM COVERAGE

This policy does not insure against loss or damage (and the Company will not pay costs, attorneys' fees or expenses) that arise by reason of:

1. (a) Taxes or assessments that are not shown as existing liens by the records of any taxing authority that levies taxes or assessments on real property or by the Public Records; (b) proceedings by a public agency that may result in taxes or assessments, or notices of such proceedings, whether or not shown by the records of such agency or by the Public Records.

2. Any facts, rights, interests, or claims that are not shown by the Public Records but could be ascertained by an inspection of the Land or that may be asserted by persons in possession of the Land.

3. Easements, liens or encumbrances, or claims thereof, not shown by the Public Records.

4. Any encroachment, encumbrance, violation, variation, or adverse circumstance affecting the Title that would be disclosed by an accurate and complete land survey of the Land and not shown by the Public Records.

5. (a) Unpatented mining claims; (b) reservations or exceptions in patents or in Acts authorizing the issuance thereof; (c) water rights, claims or title to water, whether or not the matters excepted under (a), (b), or (c) are shown by the Public Records.

6. Any lien or right to a lien for services, labor or material not shown by the Public Records.

2006 ALTA OWNER’S POLICY (06-17-06)
EXCLUSIONS FROM COVERAGE

The following matters are expressly excluded from the coverage of this policy, and the Company will not pay loss or damage, costs, attorneys' fees, or expenses that arise by reason of:

1. (a) Any law, ordinance, permit, or governmental regulation (including those relating to building and zoning) restricting, regulating, prohibiting, or relating to
   (i) the occupancy, use, or enjoyment of the Land;
   (ii) the character, dimensions, or location of any improvement erected on the Land;
   (iii) the subdivision of land; or
   (iv) environmental protection;
or the effect of any violation of these laws, ordinances, or governmental regulations. This Exclusion 1(a) does not modify or limit the coverage provided under Covered Risk 5.

(b) Any governmental police power. This Exclusion 1(b) does not modify or limit the coverage provided under Covered Risk 6.

2. Rights of eminent domain. This Exclusion does not modify or limit the coverage provided under Covered Risk 7 or 8.

3. Defects, liens, encumbrances, adverse claims, or other matters
   (a) created, suffered, assumed, or agreed to by the Insured Claimant;
   (b) not Known to the Company, not recorded in the Public Records at Date of Policy, but Known to the Insured Claimant and not disclosed in writing to the Company by the Insured Claimant prior to the date the Insured Claimant became an Insured under this policy;
   (c) resulting in no loss or damage to the Insured Claimant;
   (d) attaching or created subsequent to Date of Policy (however, this does not modify or limit the coverage provided under Covered Risk 9 and 10); or
   (e) resulting in loss or damage that would not have been sustained if the Insured Claimant had paid value for the Title.

4. Any claim, by reason of the operation of federal bankruptcy, state insolvency, or similar creditors’ rights laws, that the transaction vesting the Title as shown in Schedule A, is
   (a) a fraudulent conveyance or fraudulent transfer; or
   (b) a preferential transfer for any reason not stated in Covered Risk 9 of this policy.

5. Any lien on the Title for real estate taxes or assessments imposed by governmental authority and created or attaching between Date of Policy and the date of recording of the deed or other instrument of transfer in the Public Records that vests Title as shown in Schedule A.

The above policy form may be issued to afford either Standard Coverage or Extended Coverage. In addition to the above Exclusions from Coverage, the Exceptions from Coverage in a Standard Coverage policy will also include the following Exceptions from Coverage:

EXCEPTIONS FROM COVERAGE

This policy does not insure against loss or damage (and the Company will not pay costs, attorneys’ fees or expenses) that arise by reason of:

1. (a) Taxes or assessments that are not shown as existing liens by the records of any taxing authority that levies taxes or assessments on real property or by the Public Records; (b) proceedings by a public agency that may result in taxes or assessments, or notices of such proceedings, whether or not shown by the records of such agency or by the Public Records.

2. Any facts, rights, interests, or claims that are not shown in the Public Records but that could be ascertained by an inspection of the Land or that may be asserted by persons in possession of the Land.

3. Easements, liens or encumbrances, or claims thereof, not shown by the Public Records.

4. Any encroachment, encumbrance, violation, variation, or adverse circumstance affecting the Title that would be disclosed by an accurate and complete land survey of the Land and that are not shown by the Public Records.

5. (a) Unpatented mining claims; (b) reservations or exceptions in patents or in Acts authorizing the issuance thereof; (c) water rights, claims or title to water, whether or not the matters excepted under (a), (b), or (c) are shown by the Public Records.

6. Any lien or right to a lien for services, labor or material not shown by the Public Records.

ALTA EXPANDED COVERAGE RESIDENTIAL LOAN POLICY (07-26-10)

EXCLUSIONS FROM COVERAGE

The following matters are expressly excluded from the coverage of this policy and the Company will not pay loss or damage, costs, attorneys’ fees or expenses which arise by reason of:

1. (a) Any law, ordinance, permit, or governmental regulation (including those relating to building and zoning) restricting, regulating, prohibiting, or relating to

   (i) the occupancy, use, or enjoyment of the Land;
   (ii) the character, dimensions, or location of any improvement erected on the Land;
   (iii) the subdivision of land; or
   (iv) environmental protection;

   or the effect of any violation of these laws, ordinances, or governmental regulations. This Exclusion 1(a) does not modify or limit the coverage provided under Covered Risk 5, 6, 13(c), 13(d), 14 or 16.

   (b) Any governmental police power. This Exclusion 1(b) does not modify or limit the coverage provided under Covered Risk 5, 6, 13(c), 13(d), 14 or 16.

2. Rights of eminent domain. This Exclusion does not modify or limit the coverage provided under Covered Risk 7 or 8.

3. Defects, liens, encumbrances, adverse claims, or other matters
   (a) created, suffered, assumed, or agreed to by the Insured Claimant;
   (b) not Known to the Company, not recorded in the Public Records at Date of Policy, but Known to the Insured Claimant and not disclosed in writing to the Company by the Insured Claimant prior to the date the Insured Claimant became an Insured under this policy;
   (c) resulting in no loss or damage to the Insured Claimant;
   (d) attaching or created subsequent to Date of Policy (however, this does not modify or limit the coverage provided under Covered Risk 11, 16, 17, 18, 19, 20, 21, 22, 23, 24, 27 or 28); or
   (e) resulting in loss or damage that would not have been sustained if the Insured Claimant had paid value for the Insured Mortgage.

4. Unenforceability of the lien of the Insured Mortgage because of the inability or failure of an Insured to comply with applicable doing business laws of the state where the Land is situated.

5. Invalidity or unenforceability in whole or in part of the lien of the Insured Mortgage that arises out of the transaction evidenced by the Insured Mortgage and is based upon usury, or any consumer credit protection or truth-in-lending law. This Exclusion does not modify or limit the coverage provided in Covered Risk 26.
6. Any claim of invalidity, unenforceability or lack of priority of the lien of the Insured Mortgage as to Advances or modifications made after the Insured has Knowledge that the vestee shown in Schedule A is no longer the owner of the estate or interest covered by this policy. This Exclusion does not modify or limit the coverage provided in Covered Risk 11.

7. Any lien on the Title for real estate taxes or assessments imposed by governmental authority and created or attaching subsequent to Date of Policy. This Exclusion does not modify or limit the coverage provided in Covered Risk 11(b) or 25.

8. The failure of the residential structure, or any portion of it, to have been constructed before, on or after Date of Policy in accordance with applicable building codes. This Exclusion does not modify or limit the coverage provided in Covered Risk 5 or 6.

9. Any claim, by reason of the operation of federal bankruptcy, state insolvency, or similar creditors’ rights laws, that the transaction creating the lien of the Insured Mortgage, is
   (a) a fraudulent conveyance or fraudulent transfer, or
   (b) a preferential transfer for any reason not stated in Covered Risk 27(b) of this policy.
