

Attachment 11 - Development Team Flowchart

Marin County’s Project Homekey housing acquisition effort is being led by a working group that includes the County of Marin’s Community Development Agency, the County of Marin’s Department of Health and Human Services, the County of Marin’s Real Estate Division in the Public Works Department, the City of San Rafael, Eden Housing, Homeward Bound of Marin, the Marin Community Foundation. This team has been meeting monthly for over four years to identify, fund, and acquire affordable housing opportunities, and since first learning about Project Homekey, the group has shifted to meeting weekly.

For the purposes of Project Homekey, the County of Marin, through the Community Development Agency (CDA), will be the main contact for the State of California (HCD). CDA is co-leading the Marin County Project Homekey Acquisition Team with Opening Doors Marin. Because of Opening Doors, this team of roughly a dozen local real estate and homeless service experts is backed by a much broader coalition of supporters who can assist with the Homekey process.

In January of 2019, local Marin County stakeholders officially launched “Opening Doors Marin” as a 501(C)3 nonprofit that is fiscally-sponsored by the Center for Volunteer and Nonprofit Leadership. Opening Doors Marin is a public-private coalition of leaders in Marin County who have committed to creating the housing necessary to end chronic and veteran homelessness in Marin. Opening Doors Marin

has a broader advisory group of leaders, who will be instrumental in building public support, funding, and political will for this project. The Opening Doors Marin Advisory group includes the following leaders:
