

RESOLUTION NO. 2023-10

A RESOLUTION OF THE MARIN COUNTY BOARD OF SUPERVISORS REPEALING THE MARIN COUNTY HOUSING ELEMENT 2015 – 2023, ADOPTING THE 2023 – 2031 MARIN COUNTY HOUSING ELEMENT UPDATE TO THE MARIN COUNTYWIDE PLAN, AND ADOPTING AMENDMENTS TO THE COUNTYWIDE PLAN TO ACHIEVE CONSISTENCY WITH THE HOUSING ELEMENT

WHEREAS, the California Legislature has found that "California has a housing supply and affordability crisis of historic proportions. The consequences of failing to effectively and aggressively confront this crisis are hurting millions of Californians, robbing future generations of the chance to call California home, stifling economic opportunities for workers and businesses, worsening poverty and homelessness, and undermining the state's environmental and climate objectives" (Gov. Code Section 65589.5); and

WHEREAS, State Housing Element Law (Government Code Sections 65580 et seq.) requires that the County of Marin (the County) adopt a housing element for the eight-year period 2023-2031 to accommodate the regional housing need allocation ("RHNA") assigned to the County by the Association of Bay Area Governments of 3,569 housing units, comprised of 1,100 units affordable to very-low income households, 634 units affordable to low-income households, 512 units affordable to moderate-income households, and 1,208 units affordable to above moderate-income households; and

WHEREAS, State Housing Element Law further requires the County to achieve consistency between its housing element and the goals and policies of other elements of the 2007 Marin Countywide Plan ("CWP"); and

WHEREAS, the Marin County Community Development Agency has prepared the proposed Housing Element Update to the CWP for the eight-year planning period 2023 through 2031 (the "Housing Element Update") in compliance with State Housing Element Law and has identified sites that can accommodate housing units meeting the County's RHNA; and

WHEREAS, to maintain consistency between the other elements of the CWP and the Housing Element Update, CDA has further proposed amendments to the Countywide Plan, including amendments to the Introduction to the CWP, the Natural Systems and Agriculture Element, and the Built Environment Element (including amendments to Section 3.4 Community Development, Section 3.5 Community Design, 3.9 Transportation, and 3.12 Planning Areas); and

WHEREAS, during the course of the Housing and Safety Elements update preparation, including preparation of the environmental impact report, the County notified the Native American tribes traditionally and culturally affiliated with the County and provided a description of the Project, the

name of the program points of contact, and the time period for comments as provided for by Statelaw. In doing so, the County satisfied the provisions of both State laws AB 52 and SB 18 and received only one request for consultation from the Federated Indians of Graton Rancheria (FIGR). The County met with FIGR on multiple occasions, and the Tribe's members provided feedback that they wished to have their Tribal Cultural Resource interests represented more robustly as part of the ongoing policy and planning objectives, and the County agreed to continue to work with FIGR to collaborate on broad policy and planning initiatives; and

WHEREAS, the preparation, adoption, and implementation of the Housing Element Update requires a diligent effort to include all economic segments of the community and to take actions to affirmatively further fair housing; and

WHEREAS, the County conducted extensive community outreach over fifteen months, beginning in September 2021, as described in detail in Appendix A to the proposed Housing Element Update; and

WHEREAS, in accordance with Government Code Section 65585 (b), on June 1, 2022, the County posted the draft Housing Element Update and requested public comment for a 30-day review period, and on July 19, 2022, after responding to public comments, submitted the draft Housing Element Update to the State Department of Housing and Community Development ("HCD") for its review; and

WHEREAS, on October 17, 2022 the County received a letter from HCD providing its findings regarding the draft Housing Element Update; and

WHEREAS, on November 14, 2022 the County published a revised draft Housing Element Update responding to HCD's findings and requested public comment on the draft; and

WHEREAS, on December 7, 2021; March 1, 2022; March 15, 2022; April 12, 2022; June 14, 2022; August 9, 2022; September 27, 2022; October 25, 2022, and November 16, 2022 the Planning Commission and Board of Supervisors held duly and properly noticed joint public meetings to take public testimony and review the proposed Housing Element Update, CWP amendments, and Draft Environmental Impact Report; on December 6, 2022, the Board of Supervisors held a duly and properly notice public meeting to take public testimony and review the proposed Housing Element Update; and on December 12, 2022, the Planning Commission held a duly and properly noticed public meeting to take public testimony and review the proposed Housing Element Update and Countywide Plan amendments; and

WHEREAS, on January 5, 2023, the Marin County Planning Commission conducted a duly and properly noticed public hearing to take public testimony and consider this Resolution and the Final Environmental Impact Report ("Final EIR") regarding the proposed Housing Element Update, the proposed Safety Element update, proposed conforming CWP amendments, and proposed conforming amendments to Title 22 of the Marin County Code ("Development Code"), reviewed the proposed Housing Element Update, Safety Element Update, proposed CWP amendments, and proposed conforming amendments to the Countywide Plan, and all pertinent maps,

documents and exhibits, including HCD's findings, the County's response to HCD's findings, the staff report and all attachments, and oral and written public comments ("Project Documents"); WHEREAS, after consideration of the Project Documents, the Marin County Planning Commission provided the recommendation that the Marin County Board of Supervisors not adopt the Housing Element as proposed based on concerns around specific sites identified in the Housing Element Site Inventory, proposed revisions to language in the Countywide Plan addressing application of community plans to development of sites identified in the Site Inventory and proposed revisions relating to the Ridge, Upland, Greenbelt and Baylands corridors, application of the Housing Overlay Designation District and proposed density on the identified sites; and

WHEREAS, on January 24, 2023, the Board of Supervisors conducted a duly and properly noticed public hearing to take public testimony and consider this Resolution and the Final Environmental Impact Report (Final EIR) regarding the proposed Housing Element Update, the proposed Safety Element update, proposed conforming CWP amendments, and proposed conforming amendments to Title 22 of the Marin County Code ("Development Code"), reviewed the proposed Housing Element Update, Safety Element Update, proposed CWP amendments, and proposed conforming amendments to the Countywide Plan, and all pertinent maps, documents and exhibits, including HCD's findings, the County's response to HCD's findings, the staff report and all attachments, and oral and written public comments; and

WHEREAS, the Marin County Board of Supervisors has certified the Final EIR as adequate and complete in compliance with CEQA, the State CEQA Guidelines, and the County Environmental Review Procedures, and as adequate and complete for consideration in making a decision on the merits of the Project, which as defined includes the proposed Housing Element Update and CWP amendments.

NOW, THEREFORE, BE IT RESOLVED, based on substantial evidence in the record:

- 1. The foregoing recitals are true and correct and are incorporated by reference into this action.
- 2. The Housing Element Update substantially complies with State Housing Element Law, as provided in Government Code 65580 et seq., and contains all provisions required by State Housing Element Law, as shown in Exhibit A to this resolution, incorporated by this reference.
- 3. Substantial evidence in the record, as described in detail in Chapter 4 and Appendix C of the Housing Element, and based on seven criteria (developer or property owner interest; vacant sites or minimal improvements; public ownership; existing uses similar to those redeveloped in the past; buildings at least 50 years old; floor area ratio less than 0.4; building to land value 1.54 and under), demonstrates that the existing uses on the non-vacant sites identified in the site inventory to accommodate the County's lower income RHNA are likely to be discontinued during the planning period and or otherwise do not constitute an impediment to planned residential development on the site during the planning period.
- 4. As required by Government Code Section 65585(e), the Board of Supervisors has considered the findings made by the Department of Housing and Community Development included in

the Department's letter to the County dated October 17, 2022 consistent with Government Code Section 65585(f), and as described in Exhibit B to this resolution, incorporated by this reference, the Board of Supervisors has changed the Housing Element in response to the findings of the Department to substantially comply with the requirements of State Housing Element Law as interpreted by HCD.

- 5. The Marin County Housing Element 2015-2023 (Section 3.8 of the Built Environment Element of the Countywide Plan) is hereby repealed in its entirety, and the 2023-2031 Marin County Housing Element, attached hereto as Exhibit C, incorporated by this reference, is adopted as Section 3.8 of the Built Environment Element of the Countywide Plan.
- 6. The amendments to the Countywide Plan attached hereto as Exhibit D, incorporated by this reference, are hereby adopted, amending the following section of the Countywide Plan, as shown in Exhibit D:
 - a. Introduction to the Countywide Plan.
 - b. Natural Systems and Agriculture Element.
 - c. Built Environment Element (including amendments to Section 3.4 Community Development, Section 3.5 Community Design, 3.9 Transportation, and 3.12 Planning Areas)
- 7. This Resolution shall become effective upon adoption by the Board of Supervisors.
- 8. The Community Development Director or designee is hereby directed to file all necessary material with the Department of Housing and Community Development for the Department to find that the Housing Element is in conformance with State Housing Element Law and is further directed and authorized to make all non-substantive changes to the Housing Element to make it internally consistent or to address any non-substantive changes or amendments requested by the Department to achieve a finding of substantial conformance with State Housing Element Law.
- 9. The Community Development Director or designee is hereby directed to distribute copies of the Housing Element in the manner provided in Government Code Sections 65357 and 65589.7

Exhibit A: Compliance with Housing Element Statutory Provisions.

Exhibit B: Findings Responding to Letter from Department of Housing and Community Development Dated October 17, 2022.

Exhibit C: 2023 – 2031 Marin County Housing Element

Exhibit D: Countywide Plan Amendments

PASSED AND ADOPTED at a regular meeting of the Board of Supervisors of the County of Marin held on this 24th day of January 2023 by the following vote:

CHAPTER 1: INTRODUCTION

Housing Element Overview and Purpose

Overview

Marin County offers varied and attractive residential environments due to its unique combination of natural beauty and proximity to San Francisco. However, many low and moderate income households struggle to afford housing and are impacted by low vacancy rates, escalating housing prices and rents and limited availability of affordable housing options. Lack of affordable housing is consistently ranked as a major issue for residents.

State housing and planning laws require all California cities and counties include in their General Plan a housing element that establishes objectives, policies, and programs in response to community housing conditions and needs. The Housing Element is required to be updated periodically according to the statutory deadline set forth in the Government Code (Section 65580). This Housing Element update for the County of Marin represents the 6th update cycle, covering an eight-year planning period from January 31, 2023 through January 31, 2031. This Housing Element has been prepared to satisfy this mandate and local needs by evaluating and addressing housing needs in the unincorporated area of Marin County during the planning period.

The 2007 Marin Countywide Plan (the County's general plan), into which this Housing Element will be incorporated, is based on the principal of sustainability, which is defined as aligning our built environment and socioeconomic activities with the natural systems that support life. The Countywide Plan focuses on the principles of a sustainable community: Environment, Economy, and Equity. Consistent with this focus, the primary objective of the Marin County Housing Element is to plan equitably and environmentally sustainable communities by supplying housing affordable to the full range of our diverse community and workforce. The approach of this Housing Element is to focus on the following areas:

Goal 1: Use Land Efficiently

Use Marin's land efficiently to meet housing needs and implement smart and sustainable development principles.

Goal 2: Meet Housing Needs through a Variety of Housing Choices

Respond to the broad range of housing needs in Marin County by supporting a mix of housing types, densities, designs and affordability levels.

Goal 3: Ensure Leadership and Institutional Capacity

Build and maintain local government institutional capacity and monitor accomplishments to respond to housing needs effectively over time.

Goal 4: Combat Housing Discrimination, Eliminate Racial Bias, Undo Historic Patterns of Segregation

Lift barriers that restrict access in order to foster inclusive communities and achieve racial equity, fair housing choice, and opportunity for all local workers and current and future residents of Marin.

Purpose

The purpose of the Housing Element is to offer an adequate supply of decent, safe, and affordable housing for the unincorporated County residents, special needs populations, and workforce. The Housing Element assesses housing needs for all income groups and lays out a plan of actions to meeting these needs. Housing affordability in Marin County and in the Bay Area as a whole has become increasingly important as climate change issues are addressed. The built environment and commute patterns are major contributors to greenhouse gas emissions. The overall goal of the Housing Element is to present goals, objectives, policies, and actions to facilitate housing for existing and future needs.

The Housing Element is divided into five chapters:

Chapter 1: Introduction contains introductory material and an overview of State law requirements for housing elements

Chapter 2: Housing Needs Analysis contains an analysis of housing needs

Chapter 3: Housing Constraints contains a detailed analysis of governmental and non-governmental constraints to housing development

Chapter 4: Housing Resources summarizes the County resources in addressing housing needs, especially capacity for residential development

Chapter 5: Housing Plan contains housing goals and objectives, policies, and implementation programs.

In addition, several appendices provide technical details that supplement the information contained in the Housing Element:

Appendix A: Community Outreach provides a summary of the extensive community outreach efforts conducted

Appendix B: Review of the 2015 Housing Element

Appendix C: Sites Inventory

Appendix D: Affirmatively Furthering Fair Housing

Housing Element Law

Overview

Enacted in 1969, State housing element law mandates that local governments adequately plan to meet the existing and projected housing needs of all economic segments of the community. The law acknowledges that in order for the private market to adequately address housing needs and demand, local governments must adopt land use plans and regulatory systems that provide opportunities for, and do not unduly constrain, housing development.

Unlike the other State-mandated general plan elements, the housing element is subject to detailed statutory requirements regarding its content, and is subject to mandatory review by the California Department of Housing and Community Development (HCD). The housing element must also be updated every eight years, unlike other general plan elements. According to State law, the statutory due date to update the housing element for the 2023-2031 planning period is January 31, 2023.

State law requires that the housing element contain the following information:

- An analysis of population and employment trends and documentation of projections and a quantification of the existing and projected housing needs for all income levels, including extremely low income households.
- An analysis and documentation of household characteristics, including level of payment compared to ability to pay, housing characteristics, including overcrowding, and housing stock condition.
- An inventory of land suitable and available for residential development, including vacant sites and sites having realistic and demonstrated potential for redevelopment during the planning period.
- The identification of a zone or zones where emergency shelters are allowed as a permitted use without a conditional use or other discretionary permit.
- An analysis of potential and actual governmental and non-governmental constraints upon the maintenance, improvement, or development of housing for all income levels.
- An analysis of any special housing needs, such as those of the elderly; persons with disabilities, including a developmental disability; large families; farmworkers; families with female heads of households; and families and experiencing homelessness.
- An analysis of opportunities for energy conservation.
- An analysis of existing assisted housing developments that are eligible to change

from low-income housing uses during the next 10 years.

 A statement of the community's goals, quantified objectives, and policies relative to affirmatively furthering fair housing and to the maintenance, preservation, improvement, and development of housing.

The housing element establishes an action plan that details the actions, or programs, that will implement the goals and policies. For each program, the action plan must identify the agency responsible and the timeframe for implementation. The County's housing objectives and primary areas of housing need are outlined in the four main goals of this Housing Element.

Preparation of the Housing Element Update

The housing element must identify community involvement and decision-making processes and techniques that constitute affirmative steps for obtaining input from all socioeconomic segments of the community, especially low income persons, as well as those historically excluded from decision making and households with special needs. A summary of the community outreach process and outcomes is provided in Appendix A of this Housing Element. Key findings include:

Housing Supply

- Increased need for affordable units and housing types beside single unit homes.
- Difficulties in finding and retaining housing, particularly for members of populations protected under fair housing laws¹.
- Prospect of leaving the County, for both renters and homeowners, to find housing that is affordable and meets household needs.

Infrastructure

- Limited infrastructure capacity to support more housing development.
- Insufficient clean water and septic infrastructure.
- Insufficient evacuation capacity and ingress/egress for emergency vehicles.
- Insufficient infrastructure for pedestrians and bicyclists.

In response to these comments, this Housing Element introduces programs to expand and preserve the County's affordable housing inventory, to create a diverse range of housing choices, and to mitigate infrastructure constraints.

¹ California fair housing laws prohibit discrimination *because of* race, color, national origin, religion, sex, familial status, disability/medical conditions, source of income, sexual orientation, marital status, age, immigration status, arbitrary characteristics and gender identity and expression.

Relationship of the Housing Element to Other Countywide Plan Elements

The Countywide Plan serves as the constitution for land use in the unincorporated portions of Marin County. This long-range planning document describes goals, policies, and programs to guide land use decision-making. State law requires a community's general plan to be internally consistent. This means that the housing element, although subject to special requirements and a different schedule of updates, must function as an integral part of the overall general plan, with consistency between it and the other general plan elements. Once the general plan is adopted, all development-related decisions in unincorporated areas must be consistent with the plan. If a development proposal is not consistent with the plan, the proposal must be revised or the plan itself must be amended. To maintain internal consistency, any proposed amendments to other elements of the general plan and to the development code are reviewed for consistency with the housing element in advance of adoption by the Board of Supervisors. If a proposed amendment is not consistent with the Housing Element, then the proposed amendment is revised or expanded as needed to maintain consistency.

The updated Countywide Plan is structured around the goal of building sustainable communities. Each of the three other elements in the Plan addresses sustainability: the Natural Systems and Agriculture Element, the Built Environment Element, and the Socioeconomic Element. The Marin Countywide Plan Update Guiding Principles related to housing are excerpted below.

- Supply housing affordable to the full range of our workforce and diverse community. We will provide and maintain well designed, energy efficient, diverse housing close to job centers, shopping, and transportation links. We will pursue innovative opportunities to finance senior, workforce, and special needs housing, promote infill development, and reuse and redevelop underutilized sites.
- Provide efficient and effective transportation. We will expand our public transportation systems to better connect jobs, housing, schools, shopping, and recreational facilities. We will provide affordable and convenient transportation alternatives that reduce our dependence on single occupancy vehicles, conserve resources, improve air quality, and reduce traffic congestion.
- Foster businesses that create economic, environmental, and social benefits. We will retain, expand, and attract a diversity of businesses that meet the needs of our residents and strengthen our economic base. We will partner with local employers to address transportation and housing needs.

There are over 20 community areas in the unincorporated area, all of which have adopted community or special area plans. These plans further detail the policies of the Countywide Plan as they pertain to specific areas. Policies contained in the community and special area plans, including those related to housing, must be consistent with those

in the Countywide Plan, and, by extension, its Housing Element. The following is a list of community and special area plans and the date of their last adopted/amended plan.

Black Point (2016) Paradise Drive (1999)

Bolinas (1978) Paradise Ranch Estates Restoration Plan

(1981)

Bolinas Gridded Mesa (1984) Point Reyes Station (2001)

Dillon Beach (1989) Point San Quentin Village (1985)

East Shore (Tomales Bay) Richardson Bay (1984)

(1997)

Green Point (2016) San Geronimo Valley (1997)

Indian Valley (2003) Santa Venetia (2017)

Inverness Ridge (1983) Strawberry (1973) (1982)

Kentfield/Greenbrae (1987) Stinson Beach (1985)

Kent Woodlands (1995) Tamalpais (1992)

Marin City (1992) Tomales (1997)

Muir Beach (1972)

Many of these existing plans contains goals, policies, and programs that are not consistent with the Countywide Plan (CWP). When inconsistencies exist, the CWP prevails. Concurrent with the Housing Element update, the CWP Land Use and Safety Elements are also being amended to designate additional areas for residential development and to address new State law requirements. In the future, as other elements of the CWP are being updated, the County will review the Housing Element for internal consistency.

Public Participation

The County implemented a comprehensive public participation program to obtain input from all socioeconomic segments of the unincorporated County, with a focus on including people of color and special needs populations. A detailed summary of the public participation program and outcomes is provided in Appendix A. In direct response to public input received during the development of the Draft Housing Element, these new programs have been included in the 2023-2031 Housing Element (see

Section 5: Housing Plan):

- Program 5: SB 9 Mapping Tool
- Program 7: Religious and Institutional Facility Housing Overlay
- Program 17: Housing for Seniors
- Program 18: Short-Term Rentals
- Program 31: Tenant Protection Strategies
- Program 33: Community Engagement

The Draft Housing Element <u>was</u> available for public review <u>on</u> June 2, 2022. On June 14, 2022, a joint session was conducted with the Board of Supervisors and Planning Commission to review the Draft Housing Element and to receive public input.

During the 30-day public review of the Draft Housing Element, the County received comments from residents, property owners, and the following agencies and organizations with an interest in housing:

- Age Forward
- Canal Alliance
- Community Action Marin
- Community Land Trust of West Marin (CLAM)
- Early Care and Education
- Fair Housing Advocates of Northern California
- Habitat for Humanity Greater San Francisco
- Housing Crisis Action
- Legal Aid of Marin
- Marin Conservation League
- Marin Organizing Committee
- North Marin Community Services

A detailed summary of public comments received during the 30-day review of the Draft Housing Element is available on the County's website. Below is a brief summary of comments received and the County's responses.

The Draft Housing Element was submitted to HCD on July 19, 2022, and the County received HCD's comments on October 17, 2022. This Draft Housing Element was revised to address HCD comments.

Marin Countywide Plan 7

Table H-1.1: Summary of Comments and Responses

Comment Theme	Responses	
Concerns relating to the Regional Housing Needs Assessment (RHNA).	RHNA is a State mandate and the County must comply with State law by planning for the full RHNA. Program 33: Community Engagement has been expanded to include a component to educate the public about the need for and benefits of additional housing.	
Concerns relating to environmental and infrastructure constraints such as fire hazards, traffic, schools, recreation, and septic and water use.	Development of the sites inventory for RHNA took into consideration potential environmental and infrastructure constraints. As part of the EIR being prepared for the Housing and Safety Elements, the County has/ addressed these issues and identified mitigation measures as appropriate.	
Additional housing opportunities, especially affordable housing at locations along transit corridors. Stronger emphasis should be placed on extremely low income households, and housing appropriate for families with children.	Development of the sites inventory took into consideration declining retail uses and access to transit. The Housing Element also proposes a number of programs to enhance housing affordability: Program 15: Housing for Farmworkers and Hospitality Workers Program 16: Project Homekey Program 17: Housing for Seniors Program 24: Inclusionary Housing Program 25: Incentives for Affordable Housing Program 26: Below Market Rate (BMR) Homeownership Program Program 27: Community Land Trust Program 28: Affordable Housing Funding Sources Most programs that benefit lower income households include extremely low income households. Program 25: Incentives for Affordable Housing has been revised to encourage housing with child care facilities. Several programs also aim to assist seniors to age in place or age in community. These included: Program 13: Reasonable Accommodation Program 14: Universal Design and Visitability Program 17: Housing for Seniors	

Table H-1.1: Summary of Comments and Responses

Comment Theme	Responses	
	Program 21: Rehabilitation Assistance	
Facilitate the development of housing for the education workforce.	Program 7: Religious and Institutional Facility Housing Overlay address housing on school and hospital properties.	
Specific property owners <u>and</u> <u>members of the public</u> commented on the intention to continue the existing uses.	The County <u>adjusted</u> the sites inventory to reflect comments on specific sites and to provide supplemental information requested, as feasible.	
Strengthen the efforts to enhance affordability by reducing risk and costs of development; using land efficiently; upzoning additional properties; expanding scope of byright approval; and removing discriminatory language in zoning and land use policies, etc.	All these efforts are included in the Draft Housing Element. Specific programs include: Program 1: Adequate Sites for RHNA and Monitoring of No Net Loss Program 2: By Right Approval Program 4: Accessory Dwelling Units Program 5: SB 9 Mapping Tool Program 6: Efficient Use of Multi-Unit Land Program 7: Religious and Institutional Facility Housing Overlay Program 32: Comprehensive Review of Zoning and Planning Policies Program 6: Efficient Use of Multi-Unit Land was revised to specify	
Accessory Dwelling Units represent an important source for affordable housing. Pre-approved plans can save pre-development costs for homeowners. In affluent communities, ADUs are often not occupied as housing units. Affordable homeownership offers unique intergenerational and	Program 4: Accessory Dwelling Units was revised to include an action to develop pre-approved plans. Program 4: Accessory Dwelling Units and Program 19: Vacant Home Tax were revised to include actions related to encouraging the use of ADUs as housing units. Program 25: Incentives for Affordable Housing, which works handin-hand with Program 28: Affordable Housing Funding Sources,	
community benefits and helps bridge the growing racial wealth gap. The County should set a meaningful target for affordable homeownership opportunities.	was revised to a goal of 300 affordable units to lower income households. Program 26: Below Market Rate (BMR) Homeownership was revised to include a component to pursue additional funding to assist with homeownership.	

Table H-1.1: Summary of Comments and Responses

Comment Theme	Responses
Tenant protection policies should be strengthened, and fair housing related actions should be moved up in timeline.	Program 31: Tenant Protection Strategies has been expanded to include specific actions to the extent feasible. Timeline for Program 32: Comprehensive Review of Zoning and Planning Policies has been moved up. Program 33: Community Engagement has been expanded to include a regional collaboration component.
Expand SB 9 to the coastal zone.	Program 5: SB 9 Mapping Tool has been expanded to assess the feasibility of applying SB 9 within the coastal zone. The timing for the program has also been moved up.

CHAPTER 2: HOUSING NEEDS ANALYSIS

Overview of Marin County

Marin County is located immediately north of San Francisco, across the Golden Gate Bridge. The County encompasses 606 square miles and is home to 257,774 residents1. Most of the population lives along the County's urban east side, primarily in the County's 11 incorporated cities and towns. The City of San Rafael is the County seat.

Marin County's population is primarily affluent, educated, and relatively racially homogenous. Data for 2019 (represented 2015-2019 ACS estimates) shows that White residents make up more than three-fourths of the unincorporated County population. The balance of the population is as follows: Hispanics comprise 10%, Asian and Pacific Islanders account for 5.5%, African Americans make up 3% and residents that are another race or two or more races total 5%. The 2021 median household income is \$149,600, 1.7 times the median household income for California as a whole.² Marin County has one of the highest median household incomes among California's 58 counties.³ While Marin is a wealthy county overall, it is also home to populations impacted by the high cost of living. According to the Insight Center, the cost of basic expenses rose by 16% between 2018 and 2021. ^{4,5} The Insight Center also reported that 37% of households in the County did not get paid enough compared to the cost of living, despite recent increases to minimum wage. The high cost of living in Marin County, in conjunction with the continued rising costs of other basic necessities, has resulted in the inability of many working families to meet their basic housing, food, and childcare needs.

Overview of Unincorporated Marin County

This section of the Housing Element evaluates and addresses housing needs in the unincorporated areas of Marin County for the 2023-2031 planning period. Given the large geographic areas covered by the unincorporated County, data is presented for the entire unincorporated County area as well as for 11 communities within the

¹ California Department of Finance, E-5 series, 2021.

² California Department of Housing and Community Development (HCD). Median household income in California is \$90,100 (HCD 2021: https://www.hcd.ca.gov/grants-funding/income-limits/state-and-federal-income-limits/docs/income-limits-2021.pdf)

³ California Department of Housing and Community Development (HCD).

⁴ Insight Center; The Cost of Being California in 2021- Bay Area Key Findings: Marin County. https://insightcced.org/the-cost-of-being-californian-marin-county-fact-sheet/ According to the Insight Center's Family Needs Calculator, "Basic Needs" include the cost of housing, food, childcare, health care, transportation, and taxes—without accounting for public or private assistance.

⁵ For Marin County households with two adults, one school-age child, and a preschooler.

unincorporated areas. Each community is made up of the following Census Designated Places (CDP):

Table H-2.1: Marin Unincorporated County Communities

Community Name	CDPs included
Black Point-Green Point	Black Point – Green Point
Northern Costal West Marin	Dillon Beach, Tomales
Central Coastal West Marin	Point Reyes, Inverness
The San Geronimo Valley	Nicasio, San Geronimo Valley, Woodacre, Lagunitas-Forest Knolls
Southern Coastal West Marin	Stinson Beach, Bolinas, Muir Beach
Marinwood/Lucas Valley	Lucas Valley, Marinwood
Santa Venetia/Los Ranchitos	Santa Venetia
Kentfield/Greenbrae	Kentfield
Strawberry	Strawberry
Tam Valley	Tamalpais-Homestead Valley
Marin City	Marin City

Figure II-1 shows the locations of the unincorporated County's 11 communities. The communities are divided into north, west, central and southern geographical areas.

Figure H-2.1: Marin Communities

Sources of Information

The County used a variety of data sources for the assessment of fair housing at the regional and local level. These include:

- Housing Needs Data Packets prepared by the Association of Bay Area Governments (ABAG), which rely on 2015-2019 American Community Survey (ACS) data by the U.S. Census Bureau for most characteristics
 - Note: The ABAG Data Packets also referenced the U.S. Department of Housing and Urban Development (HUD) Comprehensive Housing Affordability Strategy (CHAS) reports (based on the 2013-2017 ACS)
- U.S. Census Bureau's Decennial Census (referred to as "Census") and American Community Survey (ACS)
- Marin County Analysis of Impediments to Fair Housing Choice in January 2020 (2020 AI)
- Marin County 2020-2024 Consolidated Plan
- California Department of Finance, E-5 Series Population and Housing Estimates.

Some of these sources provide data on the same topic, but because of different methodologies, the resulting data differ. For example, the decennial census and ACS report slightly different estimates for the total population, number of households, number of housing units, and household size. This is in part because ACS provides estimates based on a small survey of the population taken over the course of the whole year. Because of the survey size and seasonal population shifts, some information provided by the ACS is less reliable. For this reason, the readers should keep in mind the potential for data errors when drawing conclusions based on the ACS data used in this chapter. The information is included because it provides an indication of possible trends. The analysis makes comparisons between data from the same source during the same time periods, using the ABAG Data Package as the first source since ABAG has provided data at different geographical levels for the required comparisons. As such, even though more recent ACS data may be available, 2014-2019 ACS reports are cited more frequently, and 2013-2017 CHAS estimates were used.

The County also used findings and data from a variety of locally gathered and available information, such as a surveys, local history and community outreach responses. This information was included as local context throughout this chapter.

Regional Housing Need Allocation

The Regional Housing Needs Allocation (RHNA) is a critical part of State housing element law (Government Code Section 65580). The process for determining the RHNA is briefly described below⁶:

- The State Department of Housing and Community Development uses a California Department of Finance growth projection and other factors to determine the number of housing units that are needed statewide over an eight-year planning period (for Marin County and other Bay Area jurisdictions, this time period is years 2023-2031).
- This statewide housing unit number (called the Regional Housing Needs Determination, or RHND), is divided into regions. Marin County is located within the Association of Bay Area Governments (ABAG) region.
- ABAG is responsible for creating a methodology to distribute the RHND among all of its cities and counties. Each jurisdiction's housing unit number is called the Regional Housing Needs Allocation (RHNA).
- The RHNA is the number of units that a jurisdiction must plan for in the Housing Element update. The units are divided into four different categories based on median income: very low (earn <50% of the area median income), low (earn between 51% and 80% of the area median income), moderate (earn between 81% and 120% of the area median income) and above moderate (earn 121% or more of the area median income). These categories are explained and examined in greater detail later in this section.</p>

Almost all jurisdictions in the Bay Area received a larger RHNA this cycle compared to the last housing element cycle, primarily due to changes in state law that led to a considerably higher RHND compared to previous cycles.

<u>Table H-2.2</u> illustrates the unincorporated area of Marin County's RHNA by income category for the 2023-2031 planning period. Per State law, local jurisdictions are also required to provide an estimate for their projected extremely low income households (those earning 30% or less of the area median income). Jurisdictions can use half of their very low income RHNA allocation to make this projection. Therefore, unincorporated Marin County is dividing the very low income allocation of 1,100 units in half to meet this state requirement.

⁶ ABAG/MTC Staff and Baird + Driskell Community Planning; Housing Needs Data Report: Unincorporated Marin.; April 2, 2021.

<u>Table H-2.2: Housing Need by Income Category, Unincorporated Marin</u>
County

Extremely Low (0-30% AMI)	Very Low (30-50% AMI)	Low (51-80% AMI)	Moderate (81-120% AMI)	Above Moderate (121%+ AMI)	Total RHNA

https://abag.ca.gov/sites/default/files/documents/2021-05/ABAG_2023-2031_Draft_RHNA_Plan.pdf

Population Trends

In 2021, Marin County's total population was 257,774, 66,888 of whom lived within unincorporated areas. The total population of unincorporated Marin County decreased by 539 between 2010 and 2021 (Table H-2.3). While population in both the unincorporated County and the County grew in the first half of the 2010s, since 2017 the population has decreased in both areas, with the most significant drop occurring in the most recent year (Table H-2.4). Between 2020 and 2021, the population in the unincorporated County decreased by 2.6%, over twice as much as in the County as whole (1.2%). The Association Bay Area of Governments (ABAG) projects that the population in the unincorporated County will grow by only 2% in the next two decades. Tam Valley, Kentfield/Greenbrae, and the Marinwood/Lucas Valley communities are the most populous areas within the unincorporated County (Table H-2.5).

Despite these population projections, according to ABAG, housing production has not kept up with demand for several decades in the Bay Area, including Marin, as the total number of units built and available has not yet come close to meeting the population and job growth experienced throughout the region. In unincorporated Marin County, the largest proportion of the housing stock was built from 1960 to 1979, with 10,258 units constructed during this period (see Table H-2.18. Since 2010, 1.2% of the current housing stock was built, which equates to 360 units. In addition, as described later in this chapter, finding housing in the unincorporated County is impacted by: (1) the number of housing units used as vacation homes or short-term rentals, (2) high housing costs and lack of diverse housing typologies. A majority of housing units in Marin County are detached houses. As mentioned above, almost all jurisdictions in the Bay Area received a larger RHNA this cycle compared to the last housing element cycle,

⁷ California Department of Finance, E-5 series, 2021.

primarily due to changes in state law that led to a considerably higher RHND compared to previous cycles.

Source: American Community Survey (ACS), 2015-2019 5 Year Estimates. California Department of Finance, E-5 series.

Note: ACS 2019 data is the most recent data available by Census Designated Place (CDP), which is needed to calculate the population by community.

Age

The distribution of age groups in a community shapes what types of housing the community may need in the near future. An increase in the older population may signal a developing need for more senior housing options, while higher numbers of children and young families can point to the need for more family housing options and related services. Ageing in place or downsizing to stay within a community has become a growing trend, which can illustrate the need for more multi-family and accessible units. In unincorporated Marin County, the median age in 2000 was 41.1; by 2019, this figure had increased to 47 years.

The proportion of population by age group in unincorporated Marin County is similar to the County as a whole, but with a slightly higher percentage of people 45 years old and over (54% in unincorporated Marin County area, 53% in the overall County). According to 2019 American Community Survey (ACS) data, 22% of the unincorporated County's

population is age 65 or older. The data also illustrates disparities in geography by age group. For example, more than a third of the population in Central Coastal West Marin, The San Geronimo Valley, Southern Coastal West Marin is over 65 years old. Additionally, Central Coastal West Marin and Southern Coastal West Marin have the lowest proportion of people under the age of 24, 9% and 11%, respectively. By contrast, in Marinwood/Lucas Valley, Kentfield Greenbrae, Tam Valley, and Marin City, about a third of the population is younger than 24.

Table H-2.6: Population by Age

Community	Under 18	18-24	25-44	45-65	65+	Total	Median Age
Black Point- Green Point	8.0%	12.5%	11.3%	38.3%	29.8%	1,622	56.1

Unincorporated County	19.8%	6.7%	19.5%	31.8%	22.2%	68,252	47.0
Marin County	20.2%	6.5%	20.6%	31.0%	21.6%	259,943	46.8

Median age is calculated as the average of median ages among CDPs that form a community.

Source: American Community Survey (ACS), 2015-2019 5 Year Estimates. Table B01001; Association of Bay Area Governments (ABAG) Housing Needs Data Packet: Marin County, 2021.

Note: Please refer to Table II-1 and Figure II-1 for the census designated places included in the unincorporated communities.

Race/Ethnicity

Understanding the racial makeup of a community and region is important for designing and implementing effective housing policies and programs that respond to specific needs and barriers. Disparities in wealth and housing are shaped by both market factors and historic government actions such as exclusionary zoning, discriminatory lending practices, and displacement of more vulnerable communities, such as communities of color, that continues today. Since 2000, the percentage of residents in unincorporated Marin County identifying as White has decreased and the percentage of residents of all other races and ethnicities has increased—by 5.3 percentage points. In absolute terms, the Other Race, Non-Hispanic population increased the most, while the White, Non-Hispanic population decreased the most.

<u>Table H-2.7:</u> Population by Race, Unincorporated Marin County, 2000-2019

Race	2000	2010	2019
American Indian or Alaska Native	0.4%	0.3%	0.3%
Asian / API	4.2%	5.0%	5.5%
Black or African American	6.3%	5.3%	3.0%
White, Non-Hispanic	81.3%	76.7%	76.0%
Other Race	0.4%	3.3%	5.0%
Hispanic or Latinx	7.5%	9.4%	10.3%
Total Population	67,192	67,427	68,252

Note:

Source: U.S. Census Bureau, Census 2000, Table P004; U.S. Census Bureau, American Community Survey 5-Year Data (2015-2019), Table B03002

⁻ Data for 2019 represents 2015-2019 ACS estimates.

⁻The Census Bureau defines Hispanic/Latinx ethnicity separate from racial categories. For the purposes of this table, the "Hispanic or Latinx" racial/ethnic group represents those who identify as having Hispanic/Latinx ethnicity and may also be members of any racial group. All other racial categories on this graph represent those who identify with that racial category and do not identify with Hispanic/Latinx ethnicity.

[&]quot;Other race" refers to persons that identified as, some other race or two or more races but not Hispanic/Latinx

In the unincorporated area, Marin City has the largest proportion of Hispanic residents, 25%, significantly greater than all the unincorporated County areas (10%) and Marin County as a whole (16%). The communities of Northern Coastal West Marin, the San Geronimo Valley, and Marinwood/Lucas Valley have a Hispanic population representing 10 to 13% of the total population while the percentage of Hispanic residents in all other communities is less than 10% of the total population.

Marin City, a historic African American enclave, is also home to the County's largest Black/African American population, at 22%, and is considerably higher than any other community in Marin County. The community has experienced significant gentrification pressures and displacement of Black/African American residents. Since 2010, Marin City's Black/African American decreased by half, from roughly 40% to 22% (2010 Census, ACS 5-year data). With COVID-19, these trends have been accelerated, and illustrate the communities that are at increasingly at risk- Hispanic/Latinx populations represent about 16% of the County population, but 34% of Rental Assistance requests, while and Black/African American residents represent about 2% of the County population, but 8.5% of Rental Assistance requests. Please refer to the Affirmatively Furthering Fair Housing (AFFH) appendix of this document for additional information.

<u>Table H-2.8:</u> Population by Race, Unincorporated Marin County Communities

Community	American Indian or Alaska Native	Asian / API	Black or African American	White, Non- Hispanic	Other Race	Hispanic or Latinx	Total

Employment Trends

The Marin County resident workforce is predominantly composed of professional workers. Over 93% of the County's residents age 25 or older have at least a high school diploma, compared with about 83% statewide; 60% in this same age group have a bachelor's degree or higher in the County (33% in the State).8 These higher than average educational levels directly correlate with a low poverty rate of 7.2 % in the County compared with 13% statewide.9 The County's largest employers include County government, Kaiser Permanente, BioMarin Pharmaceutical, San Quentin prison, and Marin General Hospital.10 Over 30% of the unincorporated County's working population is employed in Health and Educational Services industries, and the most common occupations of unincorporated Marin residents are in the Management, Business, Science, and Arts professions (Table H-2.9 and Table H-2.10).

Balance of Jobs to Workers

As indicated in the notes for Table II-9 and Table II-10, the data shows the occupations of unincorporated County residents regardless of the location of the job. Between 2010 and 2018, the number of jobs in unincorporated Marin County increased by 16.7% from 15,938 to 18,601 jobs.¹¹

The ABAG Housing Needs Report noted that unincorporated Marin County is considered a net exporter of workers due to a jobs-to-resident workers ratio of 0.71 (22,519 jobs and 31,805 employed residents¹²). This signifies the unincorporated County has a surplus of workers and "exports" workers to other parts of the region.

Comparing jobs to workers, broken down by different wage groups, can offer additional insight into local dynamics. Figure H-2.2 shows that unincorporated Marin County has

¹¹ The data is tabulated by place of work, regardless of where a worker lives. Source: ABAG Housing Data Needs Report 2021; U.S. Census Bureau, Longitudinal Employer-Household Dynamics, Workplace Area Characteristics (WAC) files, 2010-2018.

¹² Employed residents in a jurisdiction is counted by place of residence (they may work elsewhere) while jobs in a jurisdiction are counted by place of work (they may live elsewhere). These data differ from the 18,601 jobs cited in the previous paragraph due to different data sources. Source: U.S. Census Bureau, American Community Survey 5-Year Data 2015-2019, B08119, B08519.

more residents in all wage groups than jobs, with a particularly greater imbalance at the highest wage category; the unincorporated County has more high-wage residents than high-wage jobs (where high-wage refers to jobs paying more than \$75,000). Surpluses of workers in a wage group relative to jobs means the community will export those workers to other jurisdictions. Such flows are not inherently bad, although over time, sub-regional imbalances may appear.

Figure H-2.2:Workers by Earnings, Unincorporated County as Place of Work and Place of Residence

According to ABAG, this measure of the relationship between jobs and workers "may directly influence the housing demand in a community. New jobs may draw new residents, and when there is high demand for housing relative to supply, many workers may be unable to afford to live where they work, particularly where job growth has been in relatively lower wage jobs. This dynamic not only means many workers will need to prepare for long commutes and time spent on the road, but in the aggregate, it contributes to traffic congestion and time lost for all road users." If there are more jobs than employed residents, it means a city or county is relatively jobs-rich, typically also with a high jobs-to-household ratio. Unincorporated Marin County is a jobs-poor area (more residents than jobs) and has a relatively low jobs-to-household ratio (0.7 in 2018) compared to 1.06 in Marin County. However, the jobs-to-household ratio in the unincorporated County has increased similarly as Marin County between 2010 and 2018 (by 0.10).

¹³ This jobs-household ratio serves to compare the number of jobs in a jurisdiction to the number of housing units that are actually occupied. Source: ABAG Housing Needs Report, 2021. U.S. Census Bureau, Longitudinal Employer-Household Dynamics, Workplace Area Characteristics (WAC) files (Jobs), 2002-2018; California Department of Finance, E-5 (Households)

A balance between jobs and employed residents can help reduce greenhouse gas emissions, freeway congestion, and fuel consumption, and can result in improved air quality. A jobs-housing balance can also provide savings in travel time for businesses and individuals. However, a one-to-one ratio between jobs and employed residents does not guarantee a reduction in commute trips. Marin County nearly has a 1:1 ratio, but the disparity between the types of jobs and the cost of housing contributes to this imbalance.

According to the U.S. Bureau of Labor Statistics, the average wage earned at a Marin County-based job as of the first quarter of 2021 was \$90,168 a year, which is considered below the low income threshold for a household of one. Additionally, according to the ACS, the median income of a single person household in Marin of \$62,606. The median home sale price of a single-family detached home of \$1.91 million or of a condominium of \$740,08817 is out-of-reach for a significant portion of the population. Even with a 1:1 ratio of jobs to housing, Marin County will continue to import workers from neighboring counties where more affordable housing is located. Therefore, a focus of this Housing Element is to address the issue of matching housing costs and types to the needs and incomes of the community's workforce.

Unemployment

In unincorporated Marin County, the unemployment rate increased 0.6 percentage points between January 2010 and January 2021, from 5.5% to 6.1%. Jurisdictions throughout the region experienced a sharp rise in unemployment in 2020 due to impacts related to the COVID-19 pandemic, although a general improvement and recovery occurred in the later months of 2020 (Figure H-2.3).

¹⁷ County of Marin Assessor Real Estate Sales Data, August 2021.

Figure H-2.3: Unemployment Rate

Notes:

-Unemployment rates for the jurisdiction level is derived from larger-geography estimates. This method assumes that the rates of change in employment and unemployment are exactly the same in each sub-county area as at the county level. If this assumption is not true for a specific sub-county area, then the estimates for that area may not be representative of the current economic conditions. Since this assumption is untested, caution should be employed when using these data.

-Only not seasonally-adjusted labor force (unemployment rates) data are developed for cities and CDPs.

Household Characteristics

Household Tenure

The U.S. Census Bureau defines a household as all persons who occupy a housing unit, including families, single people, or unrelated persons. Persons living in licensed facilities or dormitories are not considered households. As of 2019, there were 25,850 households in unincorporated Marin County, a decrease of 343 from the 2010 level of 26,193. Of these 25,850 households, 72% own the home they live in and 28% rent (Table H-2.11). This ownership percentage has increased by 3% since 2010 while renter households decreased by 11% during this same time period. Among the communities in

the unincorporated County, Black Point-Green Point, Marinwood/Lucas Valley, Santa Venetia/Los Ranchitos, and Kentfield/Greenbrae have the highest proportion of owner-households (over 80%, <u>Table H-2.11</u>). By contrast, Marin City and Strawberry have the highest proportion of renter-households (73% and 53%, respectively).

Table H-2.11: Households by Tenure

	Owner occupied	Renter occupied	Total
Black Point-Green Point	80.7%	19.3%	617
Northern Costal West Marin	75.5%	24.5%	212

Marin County	63.7%	36.3%	105,432

Source: U.S. Census Bureau, American Community Survey 5-Year Data (2015-2019), Table B25003

Note: Please refer to Table II-1 and Figure II-1 for the census designated places included in the unincorporated communities

Homeownership rates often vary across race and ethnicity. These disparities not only reflect differences in income and wealth but also stem from federal, state, and local policies that limited access to homeownership for communities of color while facilitating homebuying for white residents. While many of these policies, such as redlining, have been formally disbanded, the impacts of race-based policy are still evident across Bay Area communities.¹⁸ According to ACS, in 2019 19.5% of Black households owned

¹⁸ ABAG/MTC Staff and Baird + Driskell Community Planning; Housing Needs Data Report: Unincorporated Marin (page 26).; April 2, 2021.

their homes, while homeownership rates were 66.6% for Asian households, 55.5% for Latinx households, and 75.0% for White households in unincorporated Marin County.¹⁹

Household Types

About 54% of unincorporated Marin County's households consist of married-couple families with or without children (Table H-2.12).

The unincorporated County has a higher share of married-couple family households than the County and the Bay Area (about 51%). Approximately 27% of households are occupied by people living alone in the unincorporated County. This percentage was slightly lower than the Marin County figure of 29.9% but higher than the Bay Area figure of 24. %. Among the communities within the unincorporated County, all but four (Black Point-Green Point, Marin/Lucas Valley, Kentfield/Greenbrae, and Tam Valley) have higher shares of single-person households than the unincorporated County, Marin County, and Bay Area. The remaining households in unincorporated Marin County include: male householder with no spouse present (about 4%), female householder with no spouse present (7.6%) and other non-family households (7%).

Table H-2.12: Household Types

	Married- Couple Family	Male Householder, No Spouse Present	Female Householder, No Spouse Present	Single- Person Households	Other Non- Family Households	Total

Note: Please refer to Table H-2.1 and Figure H22.2 for the census designated places included in the unincorporated communities

As shown in Table H-2.12, more than a quarter of the unincorporated County's population are single-person households. The County needs more housing units to serve this population, as the primary stock of housing in the unincorporated County is single-family homes, almost exclusively affordable to above-moderate income households (see Housing Units by Type and Production). There is a shortage of rental housing, including multi-family, single-family, accessory dwelling units, and Single Room Occupancy (SRO) units. In addition, opportunities for smaller, more moderately priced homeownership units are needed to serve singles, senior citizens, and lower income families.

The housing type best suited to serve the workforce of Marin, those with an income of approximately \$90,168 a year,²⁰ is often multi-family rental housing and smaller units located close to transportation and services. Examples of this type of housing include the Fireside and San Clemente developments, which provide rental housing at a range of affordability levels.²¹ These housing developments are close to transit and services and help to reduce commute costs to the low income residents. Mixed-use

²¹ Fireside Apartments includes 50 units; 18 of which are Supportive Housing (10 for families and 8 for formerly homeless seniors). Source: Eden Housing.

developments, like Strawberry Village, are other examples of housing types that may address the needs of Marin's workforce.

Household Size

According to the 2019 ACS 2019, the average household size in Marin County is 2.40 persons, an increase from 2.34 in 2010 (<u>Table H-2.13</u>).²² While owner-household size has remained almost the same since 2010 (2.42 versus 2.43), the size of renter-households in Marin County has increased in the past decade from 2.20 to 2.33 persons per household. It is possible that high housing prices are forcing people to share living accommodations, thereby increasing household size. Throughout the unincorporated County, and especially in West Marin, people are afraid to speak out about housing conditions due to a fear of retaliation.

Table H-2.13: Household Size by Tenure, Marin County 2010 and 2019

	2010	2019
Average Household Size	2.34	2.40
Renter-Occupied	2.20	2.33
Owner-Occupied	2.42	2.43

Housing Stock Characteristics

Housing Units by Type and Production

Based on 2021 data from the California Department of Finance (DOF), the unincorporated area of Marin has 24,778 single-family homes constituting 83% of the total housing stock, 4,452 multi-family homes comprising 15% of all housing, and 588 mobile homes, for a total of 29,818 homes (<u>Table H-2.14</u>). Single-family homes are slightly less dominant countywide and make up just over 71 % of the County's total housing stock. <u>Table H-2.14</u> and <u>Table H-2.15</u> show the distribution of housing by type for the unincorporated County and the County as a whole. These proportions have not changed significantly in the past Housing Element planning period from 2013 to 2021.

According to ABAG, most housing produced in the region and across the State in recent years consisted of single-family homes and larger multi-unit buildings. However, some households are showing a need for "missing middle housing," including duplexes, triplexes, townhomes, cottage clusters, and accessory dwelling units (ADUs). These

Marin Countywide Plan 31

²² Average household size for unincorporated area is not available.

housing types may open up more options across incomes and tenure, from young households seeking homeownership options to seniors looking to downsize and age-in-place. In unincorporated Marin County, the housing type that experienced the most growth between 2013 and 2021 was single-family housing with an increase of 163 units. Two- to four-unit housing increased by 53 units. Single-family homes also experienced the highest absolute growth in the overall County followed by multi-family housing with five or more units (Table H-2.15).

Table H-2.14: Housing Units by Type, Unincorporated County

Unit Type	2013		2021		Change

Single-unit housing (attached and detached) makes up close to or over 90% of housing stock in all unincorporated communities except Marin City, where only a third of its stock is single-unit, as shown in <u>Table H-2.16</u>. ABAG's 2021 Housing Needs report

concluded that production has not kept up with housing demand for several decades in the Bay Area, as the total number of units built and available has not yet come close to meeting the population and job growth experienced throughout the region.

<u>Table H-2.16:</u> Housing Units by Type, Unincorporated Communities

Community	Single- Family (Detached & Attached)	2-4 Units	5+ Units	Mobile Homes	Total

Note: Please refer to <u>Table H-2.1:</u> and <u>Figure H-2.1</u> for the census designated places included in the unincorporated communities

The median home sales prices of single-family homes across the unincorporated County increased from \$966,000 to \$1.91 million between 2013 and 2021.²³ This represents almost a 100 % increase in prices, while median household income increased by 45%,²⁴ meaning home values increased significantly more than area incomes. While condominiums and townhomes are more affordable with a median home sales price of \$740,088²⁵, they are still unaffordable for low and moderate income households.

²³ County of Marin Assessor, Real Estate Sales Data. Annual 2013, August 2021.

²⁴ Based on 2013 and 2021 HCD State Income Limits. Area Median Incomes for four-person households.

²⁵ County of Marin Assessor, Real Estate Sales Data. August 2021.

Affordable and Assisted Housing

Marin County is served by one housing authority, the Marin Housing Authority (MHA). MHA is a public corporation authorized to provide decent, safe, and sanitary housing for low income people. The Marin Housing Authority operates and administers 496 property units in six locations and receives funding for housing programs from the Department of Housing and Urban Development (HUD).²⁶

Approximately 6,125 existing affordable housing units have received some combination of local, federal, or State assistance, representing approximately 5% of the County's total housing units. However, this represents only 14% of the 42,462 low income households in the County. These units typically target renter-households earning 60% of area median income or below and serve populations including low and very low income families, households with disabilities, formerly homeless adults, and older adults. Affordable homeownership units typically serve moderate income households. Affordable housing developers and developers with nonprofit arms manage approximately 4,100 of these units. Nearly 3,000 of these units are assisted through the Marin Housing Authority's Section 8 and public housing programs. Of the public housing units, 296 units serve families, and 200 units serve senior and disabled households. Table H-2.17 shows the types of affordable housing units by type, the 6,125 units consist of the following types:

Table H-2.17: Affordable Housing Units, 2020

Public Housing	496
Seniors	1,126
Family Housing	2,791
Disabled	207
Home Ownership	832
Permanent Supportive Housing	337
Transitional & Shelter	336
Total	6,125

Source: Marin County 2020-2024 Consolidated Plan

As of October 2021, 793 active applicants were on the Housing Choice Voucher/Section 8 waitlist. MHA has housed 124 applicants from the waiting list between 2019 and 2021; in late 2021, 31 applicants were searching for housing with an issued voucher. Most are

²⁶ County of Marin Analysis of Impediments to Fair Housing Choice, January 2020.

struggling to find rental units with rents that fall within the payment standard and landlords willing to accept Section 8 vouchers, despite both State and local Source of Income Protection laws that prohibit discrimination against Section 8 voucher holders. MHA's Housing Choice Voucher/Section 8 waitlist opened in September 2008, and 11,200 applications were received. More than 6,000 of the applicants were removed from the waiting list due to lack of current mailing address and/or non-eligibility. Additionally, MHA has 734 applicants on the Public Housing waiting list that last opened in early 2013. The need for additional Section 8 housing was identified as an issue, particularly in West Marin, by Housing Element focus group participants.

Age and Condition of Housing Stock

Most of the housing stock in Marin County is more than 30 years old. Approximately 86% of the existing homes throughout the County were built prior to 1990, as demonstrated by <u>Table H-2.18</u>. The housing stock in the unincorporated County is similarly aged, with 88% of housing units built before 1990. Among the unincorporated County communities, the San Geronimo Valley and Tam Valley have the oldest housing stock (over 93% over 30 years old); Black Point-Green Point has the newest housing stock (only 78% of units are older than 30 years) (<u>Table H-2.19</u>).

<u>Table H-2.18:</u> Year Structure Built, Unincorporated County and Marin County

Note: Please refer to <u>Table H-2.1:</u> and <u>Figure H-2.1</u> for the census designated places included in the unincorporated communities

Some ACS data may be less reliable due to small survey sizes. For this reason, readers should keep I mind that the potential for data error and may not be reflective of complete development figures.

The 2019 ACS provides data about the condition of the existing housing stock countywide and in the unincorporated County (<u>Table H-2.20</u>). In general, the condition of the housing stock in Marin County is good, with only 2.6% of occupied housing units having substandard conditions (one or more lacking amenities). In the unincorporated County, 2.3% of the housing stock has one or more potential housing problem, which is slightly lower than the countywide percentage of 2.6%. The most common substandard condition is a lack of telephone service for both owners and renters. However, in today's

digital world, this measure may be outdated as many households have eliminated landline services and opted to rely primarily on mobile devices.

Both countywide and in the unincorporated County, a higher renter-occupied units have substandard conditions than owner-occupied units. As shown in the table below, approximately 5% of renter units have substandard conditions versus approximately 1% of owner units.

Table H-2.20: Substandard Housing Conditions

	Unincorporated County			Marin County			
Amenity	Owner	Renter	All	Owner	Renter	All	
Lacking complete kitchen facilities	0.2%	1.4%	0.5%	0.2%	2.4%	1.0%	
Lacking plumbing facilities	0.3%	0.8%	0.4%	0.3%	0.6%	0.4%	
No telephone service available	0.8%	2.7%	1.4%	0.8%	2.2%	1.3%	
All Units with Problem	1.3%	4.9%	2.3%	1.2%	5.1%	2.6%	
Total Units	18,611	7,239	25,850	67,115	38,317	105,432	

Note:

Survey asked whether telephone service was available in the house, apartment, or mobile home. A telephone must be in working order and service available in the house, apartment, or mobile home that allows the respondent to both make and receive calls.

Source: American Community Survey, 2015-2019. Tables B25053, B25043, and B25049. Note: Please refer to <u>Table H-2.1:</u> and <u>Figure H-2.1</u> for the census designated places included in the unincorporated communities

The Marin County Housing Authority (MHA) conducts housing quality inspections (HQS inspections) on their properties. Below is the annual percentage of units that MHA found to be substandard:

- 2021 31%
- 2020 40%
- 2019 32%
- 2018 28%
- 2017 28%

The County's Code Enforcement division is complaint driven and most complaints related to substandard housing are neighbors complaining about an animal or insect infestation close by. Most of these complaints are not able to be substantiated. In recent informal windshield surveys conducted by code enforcement staff, 1-3% of residences have looked substandard. However, this does not account for properties that are

setback from the street, behind a locked gate, or contain accessory buildings, etc. The Environmental Health Services (EHS) Division inspects all multi-family complexes with three or more units every other year on a biennial schedule. While common areas can be inspected, units are only inspected if authorization is given by the tenant. Normally, about 25-30% of all units are inspected. Of those inspected, EHS has reported that very few units are substandard. Under an enhanced inspection program authorized by the Board of Supervisors in 2018, EHS would inspect all units if the owner fails to correct minor or major environmental health code violations within a timely manner, if authorization is given by the tenant. This is particularly the case in West Marin. According to the Marin Housing Authority's Housing Quality Standards (HQS) inspection program, which is undertake for units using Section 8 vouchers, public housing units, and HUD Mental Health Agency (MHA) units, over the past five years, 26% of units inspected did not meet the definition for decent, safe, and sanitary housing. Examples include missing or inoperable smoke detectors, appliances not working, or windows and doors not operating as designed. The Housing Plan includes Program 22 for the County to consider expanding the inspection services to cover the entire housing stock.

Housing Construction Prices and Trends

Throughout Marin County, new housing construction is increasing the size and already high proportion of single-family units relative to other unit types. In Fiscal Year 2020, 38% the new residential construction permits issued were for single-family homes and none for multi-family developments.²⁷ The average size of these homes was 3.056 square feet, which reflects the predominant development pattern in unincorporated Marin County of large, custom-built, single-family homes. Smaller units, which are usually more affordable, have a higher price per square foot than do larger homes because of land prices.²⁸ This may act as a disincentive to construct smaller, more modest homes, unless developed a higher density.

The existing construction trends contribute to the increasing imbalance between the wages earned in Marin County and the housing costs of new and existing homes. Due to the high cost of land and limited available stock, these trends were not significantly impacted by the economic downturn associated with the COVID-19 pandemic. Housing costs continue to rise in Marin County, making it increasingly difficult for those at lower and moderate income levels to find affordable housing options.

²⁷ From the 2020 Annual Progress Report. Table A2 Building Activity (Entitled, Permitted, and Completed Units). 38 % single-family, 58 % accessory dwelling units, and four % mobile homes.

²⁸ Inclusionary Zoning In-Lieu Fee Analysis, March 2008 by Vernazza Wolf Associates

Vacancy Rate Trends

Data from the 2019 ACS illustrates Marin's homeowner vacancy rate at 0.6% and rental vacancy rate at 2.7%, which are among the lowest in the entire Bay Area region. Table H-2.21 below shows the different types of vacancies with the most common type being For Seasonal, Recreational, Or Occasional Use (vacancy rate of 57.1%). According to ABAG's Housing Needs Report, the Census Bureau classifies a unit as vacant if no one is occupying it when census interviewers are conducting the ACS or Decennial Census. Vacant units classified as "for recreational or occasional use" are those that are held for short-term periods of use throughout the year. Accordingly, vacation rentals and shortterm rentals like AirBnBs or VRBO are likely to fall in this category. Based on the Marin County Department of Finance data, 509 units in the unincorporated County were listed as short-term rental properties in January 2022, which is likely an undercount since a number of short-term rentals do not register with the County. For several unincorporated communities, the number of short-term rentals is a significant percentage of the community's overall residential units. This is the case for Muir Beach (35%), Dillon Beach and Marshall (25%) and Stinson Beach (21%2969). The focus groups held for this Housing Element update emphasized that short-term rentals impact the housing market, particularly in West Marin.

The County will explore options in this housing element cycle to limit short-term rentals in order to preserve housing for permanent residential units. Another program will look at possibly establishing a vacant home tax in the unincorporated County. Details of the programs are included in Section 5 of this element. The Census Bureau classifies units as "other vacant" if they are vacant due to foreclosure, personal/family reasons, legal proceedings, repairs/renovations, abandonment, preparation for being rented or sold, or vacant for an extended absence for reasons such as a work assignment, military duty, or incarceration.³⁰ In a region with a thriving economy and housing market like the Bay Area, units being renovated/repaired and prepared for rental or sale are likely to represent a large portion of the "other vacant" category. Additionally, the need for seismic retrofitting in older housing stock could also influence the proportion of "other vacant" units in some jurisdictions. Table H-2.21 shows that vacant long-term rental properties in unincorporated Marin County. Table H-2.21 also shows that differences in the type of vacant units between the unincorporated County than Marin County. While the unincorporated County has higher overall vacancy rates than Marin County, it has a lower for-rent vacancy rate (6.3%) than the County (14.2%).

Sold, Not Occupied	1.4%	3.3%
Total Vacant out of Total Housing Units	10.8%	6.8%

Source: American Community Survey, 2015-2019. Tables B25002 and B25004.

In general, a higher vacancy rate is considered necessary by housing experts to assure adequate choice in the marketplace and to temper the rise in home prices. A minimum five % rental vacancy rate is considered crucial to permit ordinary rental mobility. In a housing market with a lower vacancy rate, strong market pressure will inflate rents, and tenants will have difficulty locating appropriate units. The 2000s saw a significant tightening in the local housing market due to the recession, a phenomenon that was also experienced in many Bay Area communities. Nationwide, there was a sharp drop in multi-family housing construction during the since the 1990s but especially in the past 20 years, which has also contributed to low vacancy rates and rising rents.

According to Fair Housing Advocates of Northern California (FHANC)³¹, Marin County's low vacancy rate also increases the tendency for landlords to discriminate against potential renters. Between 2020 and 2021, 68 complaints were from unincorporated communities. Overall, Marin City had the highest incidence of reported discrimination complaints, making up about 45.6% of all the complaints in the unincorporated County (please refer to AFFH appendix for additional information). The focus groups for this Housing Element update expressed that discrimination is experienced by people of color and families and that many people do not speak out about housing conditions because of retaliation concerns. FHANC's staff attorney advocates for tenants and negotiates with landlords to find reasonable accommodations for thousands of persons with disabilities, to enable them to live in accessible housing. They also educate landowners on fair housing laws, provides seminars and brochures in English, Spanish,

³¹ The Fair Housing Advocates of Northern California (FHANC) is a civil rights organization that investigates housing discrimination, including discrimination based on race, national origin, disability, gender, and children.

and Vietnamese on how to prepare for a housing search and recognize discrimination, and sponsors school programs aimed at encouraging tolerance.

Housing Costs, Household Income, and Ability to Pay for Housing

Household Income

Income is defined as wages, salaries, pensions, social security benefits, and other forms of cash received by a household. Non-cash items, such as Medicare and other medical insurance benefits, are not included as income. For housing to be considered affordable, housing costs should not exceed 30% of income. Housing costs include rent and utilities for renters, and principal, interest, property taxes, and insurance for homeowners. It is therefore critical to understand the relationship between household incomes and housing costs to determine how affordable or unaffordable housing really is.

An estimated 38% of unincorporated Marin County households fall in the extremely low, very low, and low income categories, earning less than 80% of median income (<u>Table H-2.22</u>). In comparison, approximately 41% of all Marin County households and 39% of Bay Area households earn less than 80% of median income. There is an even greater proportion of extremely low, very low, and low income households among renters. Estimates from 2017 report that 57% of all renters in unincorporated Marin County were in the extremely low, very low, and low income categories.³²

³² Association of Bay Area Governments Metropolitan Transportation Commission, Housing Needs Data Report: Unincorporated Marin, April 2, 2021.

<u>Table H-2.22:</u> Households by Income Level- Unincorporated County and Marin County

	Uincorpora	ted Marin	Marin County

Note: Please refer to <u>Table H-2.1:</u> and <u>Figure H-2.1</u> for the census designated places included in the unincorporated communities

For the unincorporated communities, <u>Table H-2.23</u> illustrates that five communities have a majority (more than 50 %) of above moderate income households. The Kentfield/Greenbrae community has the highest percentage (68.7) of above moderate income households. A significant percentage of lower income households are found in Northern-Coastal West Marin, Central-Coastal West Marin, the San Geronimo Valley, Santa Venetia/Los Ranchitos, Strawberry, and Marin City. The communities of Central-Coastal West Marin and Marin City have the highest percentages of extremely low income households (29% and 39.7%, respectively).

Note: Please refer to <u>Table H-2.1:</u> and <u>Figure H-2.1</u> for the census designated places included in the unincorporated communities

In Marin County, the median income as of 2021 for a family of four is \$149,600, which is a 45% increase from the median income in 2013. A household of four with an income less than \$54,800 is considered extremely low income.³³ As of 2017, more than 15,600 households countywide, or 15% of total households, were extremely low income. In the unincorporated County, an estimated 3,623 households were classified as extremely low income, representing 14% of households.³⁴

Information on household income by household size is maintained by the U.S. Department of Housing and Urban Development (HUD) for each county and is updated annually. The California Department of Housing and Community Development (HCD) adjusts each county's median income to at least equal the state non-metropolitan county

³³ California Department of Housing and Community Development, effective April 26, 2021

³⁴ See footnote 24

median income. The State Income Limits for 2021 were published in April 2021 and are shown below.

Table H-2. 24: FY 2021 Marin County Income Limits (HCD)

Household Size	Extremely Low (<30% AMI)	Very Low (30%-50% AMI)	Low (50%-80% AMI)	Median	Moderate (80\$-120% AMI)
1	38,400	63,950	102,450	104,700	125,650
2	43,850	73,100	117,100	119,700	143,600

5	59,200	98,700	158,100	161,550	193,850
6	63,600	106,000	169,800	173,550	208,200
7	68,000	113,300	181,500	185,500	222,600
8	72,350	120,600	193,200	197,450	236,950

Source: California Department of Housing and Community Development, State Income Limits for 2021, April 26, 2021.

Note: AMI = Area Median Income

The "Median Income" schedule shown above is based on the FY2021 median family income for Marin County, CA of \$149,600 for a four-person household. HCD adjusts each county's area median income to at least equal the state non-metropolitan county median income, as published by HUD.

Home Sales Prices

In December 2020, the typical home value in unincorporated Marin County was estimated at \$1,955,764 per data from Zillow³⁵. The largest proportion of homes were valued between \$1 million to \$1.5 million. By comparison, the typical home value is \$1,288,807 in Marin County and \$1,077,233 the Bay Area, with the largest share of units valued \$750,000 to \$1 million (county) and \$500,000 to \$750,000 (region).³⁶ After securing a 20% down payment, a household would need to be able to afford a monthly house payment of about \$6,620 (plus utilities) to afford a home at the median value. This amount is above affordability for all low and moderate income households in unincorporated Marin.

Figure H-2.4: Home Values in Marin County and the Bay Area

Zillow data is also available by ZIP code, and recent trends are shown for the unincorporated communities in <u>Table H-2.25</u>: In 2020, the range of home values was between \$916,518 to \$3,416,244, and all communities experienced significant increases in home values since 2013 (minimum of 29 % increase in value).

³⁵ Typical home value – Zillow describes the Zillow Home Value Index (ZHVI) as a smoothed, seasonally adjusted measure of the typical home value and market changes across a given region and housing type. The ZHVI reflects the typical value for homes in the 35th to 65th percentile range and includes all owner-occupied housing units, including both single-family homes and condominiums.

Notes: Zillow describes the ZHVI as a smoothed, seasonally adjusted measure of the typical home value and market changes across a given region and housing type. The ZHVI reflects the typical value for homes in the 35th to 65th percentile range. The ZHVI includes all owner-occupied housing units, including both single-family homes and condominiums. More information on the ZHVI is available from Zillow.

Note: Please refer to <u>Table H-2.1:</u> and <u>Figure H-2.1</u> for the census designated places included in the unincorporated communities

Rental Prices

Similar to home values, rents have also increased dramatically across the Bay Area in recent years. The U.S. Census provides information on median contract rents. The following table shows these rents for the unincorporated communities and the unincorporated County in 2010 and 2019. The contract median rents in the unincorporated area increased from \$1,536 a month in 2010 to \$1,774 in 2010, representing a 15% increase. While information was not available for all of the unincorporated communities, the Black Point-Green Point area saw the largest rent increases, from \$679 to \$1,965 in a nine-year period.

Table H-2. 26: Median Contract Rents, Unincorporated Communities

Community/Area	2010	2019
Black Point-Green Point	\$679	\$1,965
Northern Coastal West Marin (Dillon Beach area)	n/a	\$2,605
Central Coastal West Marin	\$967-\$1536	\$1610 - \$1858
The San Geronimo Valley (Woodacre and Lagunitas-Forest Knolls areas)	\$1433-\$2000	\$1349-\$2198
Southern Coastal West Marin	\$1110-\$2000	\$1574-\$1841

Note: Please refer to <u>Table H-2.1:</u> and <u>Figure H-2.1</u> for the census designated places included in the unincorporated communities

Because the ACS data may not fully reflect current rent trends, an online rent survey was conducted in February 2022. The rents for apartments are shown <u>Table H-2.27</u>. The median rent for a one-bedroom apartment was \$2,450 while the median rent for two-bedrooms was \$3,151.

Table H-2.27: Apartment Rent Survey, Unincorporated County

# of Bedrooms	# Units Advertised	Rental Range	Median Rent			
Apartments/Condos/Duplex						
1 Bedroom	9	\$1,750-\$3,800	\$2,450			
2 Bedrooms	8	\$2,600-\$7,000	\$3,151			

Sources: Rentcafe.com, Craigslist.com, Apartments.com; accessed 2/9/22

Only a few houses were listed for rent in February 2022. The prices were as follows:

- One-bedroom home listed at \$2,650/month
- One-bedroom home listed at \$2.800/month
- Two-bedroom home listed at \$4,950/month
- Three-bedroom home listed at \$7,995/month
- Four-bedroom home listed at \$4,890/month

Housing Affordability by Household Income

Housing affordability is dependent upon income and housing costs. Using set income guidelines, current housing affordability can be estimated. According to the HCD income guidelines for 2021, the Area Median Income (AMI) in Marin County was \$149,600 (adjusted for household size). Assuming that the potential homebuyer has sufficient credit and down payment (10%) and spends no greater than 30% of their income on housing expenses (i.e., mortgage, taxes and insurance), the maximum affordable home price and rental price can be determined. The maximum affordable home and rental prices for residents Marin County are shown in Table H-2.28 below.

Table H-2.28: Housing Affordability Matrix Marin County (2021)

		Affordable Housing Cost		Utilities, Taxes and Insurance			Affordable Price	
Annual Income		Rent	Own	Rent	Own	Taxes/ Insurance /HOA	Rent	Purchase
Extremely Low	Income (30	% of AMI)

^{1.} Small family =3-person household.

Source: California Department of Housing and Community Development, 2021 Income limits; and Veronica Tam and Associates.

Assumptions: 2021 HCD income limits; 30% gross household income as affordable housing cost; 35% of monthly affordable cost for taxes and insurance; 10.0% down payment; and 3.0% interest rate for a 30-year fixed-rate mortgage loan. Utilities based on the Marin Housing Authority Utility Allowance, 2021. Utility allowances based on the combined average assuming all electric and all natural gas appliances.

^{2.} Large family= 5-person household.

Comparing the information from <u>Table H-2.28</u> with the rental and purchase prices described earlier in this section, the following assumptions can be made about affordability in Marin County:

- Home Purchases: Based on the home value range between \$916,518 to \$3,416,244 listed in Table II-25, purchasing a home is beyond the reach of all low and moderate income households. The affordability limit for a large moderate income family is \$704,768.
- Home Rentals: The limited home rental information that was found included a range of \$2,650 for a one-bedroom to \$7,995.00 for a three-bedroom home.
 These rents are not affordable for lower income households. While a one-person moderate household can afford a one-bedroom home rental, larger households are not able to afford larger units.
- Apartment Rentals: The rental survey described above showed a median rent of \$2,450 for a one-bedroom apartment and \$3,151 for a two-bedroom unit. These rental prices are affordable for moderate income households.

The Housing Plan (Section 5) includes programs for the County to continue to try and facilitate affordable home ownership and rental housing. This includes the Below Market Rate Homeownership program and the Community Land Trust rental program.

Ability to Pay for Housing/Cost Burden

According to HUD, affordable housing costs should equal 30% or less of a household's income. Because household incomes and sizes vary, the affordable price for each household also varies. For example, a double income household with no children could afford a different level of housing cost than a large family with one lower income wage earner.

The cost of housing, particularly for homeownership, was a consistent theme in the public outreach for this Housing Element. The following is a summary of information from the community survey:

- 59% of respondents selected "Increase the amount of housing that is affordable to moderate, low, and very low income residents" as a top housing priority.
- 47% of respondents selected "Increase homeownership opportunities for moderate, low and very low income residents" as a top housing priority.
- 55% of survey respondents felt there was limited availability of affordable units
- Regarding insufficient housing in their community:
 - 59% selected insufficient housing for low income households
 - 35% selected insufficient housing for families with children
 - 34% selected insufficient housing for older adults.

Per federal criteria, households are considered to be overpaying, or cost burdened, when they pay more than 30% of their income for housing. Severe cost burden is when households spend 50% or more on housing. In 2019, approximately 20% of households in unincorporated Marin, Marin County and the Bay Area all experienced overpayment (<u>Table H-2.29</u>). Severe cost burden impacted 17% unincorporated Marin households, 18% of Marin County households, and 16% in the Bay Area.

Table H-2.29: Cost Burden Severity

	0%-30% of Income Used for Housing		30%-50% of Income Used for Housing		50%+ of Income Used for Housing	
	Units	Percent	Units	Percent	Units	Percent
Unincorporated Marin	15,349	61.5%	5,195	20.8%	4,404	17.7%
Marin County	61,813	60.1%	21,630	21.0%	19,441	18.9%
Bay Area	1,684,831	63.1%	539,135	20.2%	447,802	16.8%

Source: ABAG Housing Needs Data Report, 2021.

Data is from the US Census Bureau, ACS 2015-2019, Tables B25070, B25091

<u>Table H-2.30</u> examines cost burden in the unincorporated communities and illustrates that many communities experience both cost burden and severe cost burden at a greater rate than unincorporated Marin overall. Marin City holds the highest percentages, with approximately 25% of households cost burdened, and 25% severely cost burdened.

Table H-2.30: Cost Burden Severity, Unincorporated Communities

Community	0%-30% Income Used for Housing	Cost Burden 30-50%	Cost Burden 50%+
Black Point-Green Point	68.5%	15.2%	16.3%
Northern Costal West Marin	55.8%	25.6%	18.6%

The San Geronimo Valley	66.2%	17.1%	16.8%
Southern Coastal West Marin	55.5%	22.3%	22.1%
Marinwood/Lucas Valley	62.4%	23.3%	14.4%
Santa Venetia/Los Ranchitos	69.0%	18.8%	12.2%
Kentfield/Greenbrae	72.1%	11.6%	16.2%
Strawberry	61.1%	19.0%	19.9%
Tam Valley	71.9%	15.0%	13.1%
Marin City	49.8%	24.9%	25.3%

Source: U.S. Department of Housing and Urban Development (HUD), Comprehensive Housing Affordability Strategy (CHAS) ACS tabulation, 2013-2017 release Note: Please refer to <u>Table H-2.1:</u> for the census designated places included in the unincorporated communities

The ABAG Housing Needs Data Repot shows that people of color often pay a greater percentage of their income on housing, and in turn, are at a greater risk of housing insecurity. Many factors contribute to this including federal and local housing policies that have historically excluded them from the same opportunities extended to white residents.³⁷ As shown in Figure H-2.5, American Indian or Alaska Native, Non-Hispanic residents are the most cost burdened with half of these residents spending 30% to 50% of their income on housing, and Hispanic or Latin residents are the most severely cost burdened with 22.5% spending more than 50% of their income on housing.

³⁷ Housing Needs Data Report: Unincorporated Marin. AGAG/MTC Staff and Baird+Driskell Community Planning, April 2, 2021.

Figure H-2.5: Cost Burden by Race/Ethnicity

In addition to looking at overall cost burden, it is important to examine disparities between renter- and owner-households. Figure H-2.6 shows that 43% of unincorporated renter- households face cost burden issues compared to 35% of owner-households. Additionally, owner households are given tax breaks for mortgage interest payments, which renter households do not receive. The largest and often least recognized federal housing subsidy include mortgage and property tax deductions. However, recent changes to the federal tax law limit total State tax deductions to \$10,000, which is significantly below the costs associated with mortgage interests and property taxes given the high costs of housing in California.

The AFFH appendix in this Housing Element found that trends of disproportionate housing problems and cost burdens for Black and Hispanic residents persist in the unincorporated County. About two-thirds of all Black and Hispanic households experience housing problems and a similar share also experience housing problems. Like in the County, owner households experience housing problems and cost burdens at lower rates than renter households. Also, owner housing problems and cost burden rates are similar for White, Black, and Asian owners, but higher for Hispanic households.

This means that Hispanic households experience housing problems and cost burdens at the highest rates regardless of tenure.

The income level of households also greatly impacts the ability to pay for housing.

Table H-2.31 illustrates that due to high housing costs in the area, lower income households experience much greater levels of cost burden. As previously demonstrated, housing costs continue to outpace household incomes. The incidence of overpayment for very low, low, and moderate income households is likely to increase in the future.

Source: U.S. Department of Housing and Urban Development (HUD), Comprehensive Housing Affordability Strategy (CHAS) ACS tabulation, 2013-2017 release.

Note: Cost burden is the ratio of housing costs to household income. For renters, housing cost is gross rent (contract rent plus utilities). For owners, housing cost is "select monthly owner costs", which includes mortgage payment, utilities, association fees, insurance, and real estate taxes.

<u>Table H-2. 32</u> below translates occupation incomes into affordable rents, by calculating the rents that households would pay if they were to spend 30 % of their income on housing (33% for owner-occupied housing). These numbers demonstrate that market prices for single-family homes are out of reach for many people who work in Marin County.

Table H-2. 32: Income by Occupation, Unincorporated County

	•	•	•
Occupation	Average Hourly Wage	Average Annual Income**	Affordable Rent and Utilities
Very Low Income: <\$73,100

^{*}Income categories based on State 2021 Income Limits for 2-person household with one wage earner

^{**}Based on full-time employment

The impact of housing cost burden on low income households can be significant regardless of tenure, as illustrated in <u>Table H-2.31</u>. In particular seniors, many large families, and single-parent or female-headed households are struggling with housing costs. The costs of health care, food, and transportation compound the difficulty of finding and maintaining affordable tenancy or homeownership.

As described in the Affirmatively Furthering Fair Housing (AFFH) appendix, The communities of Central Coastal West Marin and Marin City have the highest percentages of low and moderate income households (62 and 71%, respectively. In addition, both Central Coast West Marin and Marin City the highest percent of extremely low income households (29% and 40%, respectively). This makes the likelihood of housing cost burden much greater in these areas.

In addition to the income-restricted affordable housing units in the County, there are a number of resources and programs available to assist households with cost burdens, housing counseling or other housing problems. Many of these organizations were contacted for feedback and input in the outreach process for this Housing Element update (please refer to Appendix A, Public Outreach).

Overcrowding

Overcrowded housing is defined by the U.S. Census as units with more than one inhabitant per room, excluding kitchens and bathrooms. Units with more than 1.5 persons per room are considered severely overcrowded. In 2019, as shown in <u>Table H-2.33</u>, the incidence of overcrowding in unincorporated Marin County was 0.9% for owner-occupied units and 13.4% for rental units. Severe overcrowding impacted 0.4% of owner-occupied units and 5% of rental units. However, it is likely that these Census counts of overcrowding underestimated the actual occurrence, as households living in overcrowded situations were unlikely to provide accurate data on household members who might be living in the unit illegally or in violation of a rental agreement.

Table H-2.33: Overcrowding by Tenure, Unincorporated County

	Number of Occupied Units	Percentage of Units
Owner-Occupied:	'	
0.50 or less occupants per room	53,239	81.5%
0.51 to 1.00 occupants per room	11,454	17.5%
1.01 to 1.50 occupants per room	348	0.5%
1.51 to 2.00 occupants per room	129	0.2%
2.01 or more occupants per room	155	0.2%
Total	65,325	
Renter-Occupied:	·	
0.50 or less occupants per room	20,483	51.2%
0.51 to 1.00 occupants per room	14,096	35.3%
1.01 to 1.50 occupants per room	3,374	8.4%
1.51 to 2.00 occupants per room	1,647	4.1%
2.01 or more occupants per room	373	0.9%
Total	39,973	

Source: US Census Bureau, ACS 2015-19 Table B25014

<u>Table H-2.34</u> shows overcrowding levels in the unincorporated Marin communities. For owner-occupied units, the highest levels of overcrowding are in Southern-Coastal West Marin (five %) and Santa Venetia/Los Ranchitos (<u>4</u>%). Both renter overcrowding and severe overcrowding is seen in the community of Marin City (11 % and nine %, respectively).

<u>Table H-2.34:</u> Overcrowded Households, Unincorporated Communities

Source: U.S. Census American Community Survey, 2015-2019, Table B25014.

Studies³⁸ show that overcrowding results in negative public health indicators, including increased transmission of tuberculosis and hepatitis and, most recently, COVID-19. In addition, studies show increases in domestic violence, sexual assault, mental health problems, and substance abuse related to overcrowded living conditions. Overcrowded conditions are common among large-family, single-parent, and female-headed households that subsist on low incomes. In addition, overcrowded conditions can sometimes occur on ranches that employ agricultural workers, especially during peak harvest times when seasonal or migrant workers are utilized.

Managers of income-restricted affordable units, whether private or through the Marin Housing Authority, must ensure that the unit is an appropriate size for the intended household size. For households participating in the Section 8 program, the Marin Housing Authority provides search assistance for the difficult to house and special needs populations, such as large households or households with a person with disabilities. The rehabilitation and replacement of agricultural units, undertaken by the Marin Workforce Housing Trust and California Human Development and funded by the Marin Community Foundation, USDA, State, and County sources, seek to improve health and safety conditions for agricultural workers. To qualify for the program, participating ranches must ensure quality maintenance and not allow overcrowding.

³⁸ Bashir, Samiya A. 2009. Home Is Where the Harm Is: Inadequate Housing as a Public Health Crisis

Special Needs Housing

Overview

In addition to overall housing needs, the County plans for housing for special needs groups, which includes seniors, people living with disabilities, people with HIV/AIDS and other illnesses, people in need of mental health care, single-parent families, singles with no children, large households, agricultural workers and their families, people experiencing homelessness, and the local workforce. To meet the community's special needs housing, Marin County must look to new ways of increasing the supply, diversity, and affordability of specialized housing stock.

A continuum of housing types addresses special needs, including independent living (owning or renting), supportive housing, assisted living, group home and skilled nursing facilities, transitional housing, residential treatment (licensed facilities), detoxification programs, Safe Haven, and emergency shelters. One of the most effective housing options for special needs housing is supportive housing where services are offered to tenants, often on site, to help achieve and maintain housing security. However, there is an inadequate supply of supportive housing units and affordable units in general to meet the needs of the community. This was a priority issue in the focus groups and community survey for the Housing Element update.

Seniors

The need for senior housing can be determined by age distribution, housing characteristics and demographic projections. On a countywide level, these determinants indicate that Marin County (ACS 5-Year Estimates):

- Has one of the oldest populations in the State, with 22% of the population over 65 years old and a median age of 46.8, compared to 14% of the population over 65 and a median age of 36.5 statewide
- Over one-third of County households have at least one senior present, 26% of households are senior homeowners, and eight % of households are senior renters (<u>Table H-2.35</u>)
- The majority of the existing housing stock are single-family homes (<u>Table H-2.14</u> and <u>Table H-2.15</u>)

The proportion of seniors out of the total population and out of households in unincorporated Marin are similar to those countywide, with 22% of of the unincorporated population over 65 years old and 37% of households with at least one person over 65 years old present (<u>Table H-2.35</u>). Within the unincorporated County, the Central Coastal West Marin, Valley, and Southern Coastal West Marin communities have

the oldest populations; over one-third of their populations are over 65 years old and about 50% of their households have at least one senior present.

Table H-2.35: Senior Population or Households by Tenure

Community	Population	All HHs	Owner HHs	Owner Living Alone	Renter HHs	Renter Living Alone
Black Point- Green Point	29.8%	41.5%	35.7%	11.8%	5.8%	4.4%

HHs = Households

Source: American Community Survey, 2015-2019. Tables B25011 and Table B01001; Association of Bay Area Governments (ABAG) Housing Needs Data Packet: Marin County, 2021

Note: Please refer to <u>Table H-2.1:</u> and <u>Figure H-2.1</u> for the census designated places included in the unincorporated communities.

However, the figures above alone do not account for the types of accommodations necessary to provide for the older population. Given that senior income drops precipitously with age and Marin County is one of the most expensive places for seniors to live, particular needs include smaller and more efficient housing, barrier-free and accessible housing, and a wide variety of housing with health care and/or personal

services provided.³⁹ In addition, a continuum of care is needed as older adult households develop health care needs.

According to the 2013-2017 CHAS data, there were 104,840 households in Marin County, of which 39,980 (38%) had had a householder aged 65 or older. Of these households, 41% had lower incomes (less than 80% AMI). In the unincorporated County, of the 10,398 senior households in the unincorporated County, 4,840 (47%) had lower incomes. The percentage of senior households with lower incomes (47%) is also higher than the unincorporated County's overall share of lower income households (38%).

Understanding how seniors might be cost burdened is of particular importance due to their special housing needs, particularly for low income seniors. According to ABAG's Housing Needs Report for Marin County, 55% of seniors making less than 30% of AMI are spending more than 30% of their income on housing (<u>Table H-2.36</u>). For seniors making more than 100% of AMI, only four percent are cost burdened, spending more than 30% of their income on housing.

Table H-2.36: Cost-Burdened Senior Households by Income Level

Income Group	0%-30% of Income Used for Housing	30%-50% of Income Used for Housing	50%+ of Income Used for Housing	Total Senior Households
0%-30% of AMI	7.1%	15.3%	49.7%	16.4%
31%-50% of AMI	10.3%	20.3%	21.3%	14.2%
51%-80% of AMI	14.2%	19.8%	17.8%	15.9%
81%-100% of AMI	8.3%	17.7%	6.9%	9.9%
Greater than 100% of AMI	60.1%	26.9%	4.3%	43.6%
Totals	6,504	2,008	1,886	10,398

Notes:

-For the purposes of this graph, senior households are those with a householder who is aged 62 or older.

-Cost burden is the ratio of housing costs to household income. For renters, housing cost is gross rent (contract rent plus utilities). For owners, housing cost is "select monthly owner costs", which includes mortgage payment, utilities, association fees, insurance, and real estate taxes. HUD defines cost-burdened households as those whose monthly housing costs exceed 30% of monthly income, while severely cost-burdened households are those whose monthly housing costs exceed 50% of monthly income.

³⁹ Elder Economic Security Standard by County 2007, Center for Community and Economic Development.

-Income groups are based on HUD calculations for Area Median Income (AMI). HUD calculates the AMI for different metropolitan areas, and the nine county Bay Area includes the following metropolitan areas: Napa Metro Area (Napa County), Oakland-Fremont Metro Area (Alameda and Contra Costa Counties), San Francisco Metro Area (Marin, San Francisco, and San Mateo Counties), San Jose-Sunnyvale-Santa Clara Metro Area (Santa Clara County), Santa Rosa Metro Area (Sonoma County), and Vallejo-Fairfield Metro Area (Solano County). The AMI levels in this chart are based on the HUD metro area where this jurisdiction is located.

Source: U.S. Department of Housing and Urban Development (HUD), Comprehensive Housing Affordability Strategy (CHAS) ACS tabulation, 2013-2017 release in the Association of Bay Area Governments (ABAG) Housing Needs Data Packet: Marin County, 2021

In many cases, seniors are living in large, oversized houses. Housing types to meet the needs of seniors include smaller attached or detached housing for independent living (both market rate and below market rate), Accessory Dwelling Units, age-restricted subsidized rental developments, shared housing, congregate care facilities, licensed facilities, Alzheimer's and other specialty facilities, and skilled nursing homes. There is also a need for senior housing where an in-home caregiver can reside.

In addition, the nexus between living arrangements for seniors and senior-oriented services must reinforce the ability for seniors to achieve a high quality of life, with access to local amenities, transportation, choices in housing, health care, and activities, and full integration into the community. A well-balanced community is one in which these elements are implicit and guaranteed for all members of the community, with particular recognition of the needs of specific demographic groups such as seniors. As such, the Older Americans Act provides funding for services that:

- Enable older individuals to secure and maintain independence and dignity in their homes
- Remove barriers to personal and economic independence
- Provide a continuum of care for vulnerable older persons
- Secure the opportunity for older individuals to receive managed in-home care and community- based long-term care services

The County's Division of Aging and Adult Services supports a variety of services that are provided to a network of local nonprofit organizations and governmental agencies throughout Marin County. <u>Table H-2.37 below</u> summarizes available senior services.

Table H-2.37: Countywide Services Offered for Seniors: 2021

Service	Description
Aging and Disability Resource Connection/ One Door	Streamlines access to services though a person- centered interactive network of agencies with coordinated points of entry.
Assisted transportation	Provides assistance and transportation to persons who have difficulties (physical or cognitive) using regular vehicular transportation.
Caregiver registry	Maintains a list of qualified workers to refer to clients and follow-up to assure service was received.
Congregate meals	Serves healthy meals in a group setting, helping to maintain and improve physical, psychological, and social wellbeing. Can also be served as grab-and-go.
Elder abuse prevention	Educates the public and professionals to develop, strengthen and carry out programs that prevent and detect elder abuse.
Employment Services	Assists clients in maintaining or obtaining full-time employment through job development and skill training.
Family Caregiver Support	Provides emotional support, education, training, and respite care for family caregivers.
Health Insurance Counseling and Advocacy Program	Provides formation and counseling on Medicare, Medi-Cal, managed care and long- term care.
Health promotion and disease prevention	Evidence-based health promotion programs that can prevent and mitigate chronic disease.
Home-Delivered Meals	Delivers nutritious meals to home-bound clients while providing personal contact.
Information and Assistance	Links older adults and their family members to appropriate services through information and referrals.
Legal Assistance	Provides seniors with legal services and education on older persons' rights, entitlements, and benefits.
Long-Term Care Ombudsman	Ensures the rights and protection of older persons at risk for abuse, neglect or exploitation while living in long-term care facilities.

Table H-2.37: Countywide Services Offered for Seniors: 2021

Service	Description				
Nutrition Education	Promotes better health by providing accurate and culturally sensitive nutrition information and educational materials.				
Rural Case Management	Assesses client needs and assists in development of care plans and coordination of services among providers.				
Rural visiting	Provides contact and safety checks through visiting and support.				
Senior Center Activities	Provides education and activities, including trips that enhance both health and well-being.

The County's Human and Health Services website also has an online Community Resource Guide residents can browse for information, services, and resources. A direct link to the guide is here: https://www.marinhhs.org/community-resource-guide

Many seniors in Marin County are over-housed, which means living in a home far larger than they need. This phenomenon will become more pronounced in the coming years, as the unincorporated County's population will continue to age. According to the ACS 5-year estimates, approximately 32% of the current population is between the ages of 45 and 65 years old. These residents will become part of the senior population over the next twenty years. During the public outreach for this Housing Element, insufficient housing options for seniors was one of the top concerns. Some may be willing to vacate their home for a smaller unit, thus increasing housing options for families. A program has been included in this Housing Element for the County to pursue a variety of housing options for seniors. The goal is to allow seniors to trade down their current homes for other housing that requires less maintenance, is designed to accommodate the mobility needs of seniors, and is more affordable.

The Age-Friendly County of Marin Action Plan from January 2020 looked at how the County can interact and work together for a community that is experiencing a rapid growth rate among its older generations. Through the public outreach for this plan, which included surveys, interviews and focus groups, the following challenges emerged regarding older adults:

 Lack of affordable housing impacts older adults and their families as well as the local workforce.

- Limited accessible housing stock means older adults must invest more into home modifications and take greater risks in order to age in place.
- Older renters have a greater challenge in homes and units that need age-friendly modifications.

Low and very low income seniors often cannot afford the cost of licensed facilities in Marin County. According to the Marin County Health and Human Services, long-term care in a licensed Residential Care Facility for the Elderly costs anywhere from \$4,500 - \$9,500 a month and higher.⁴⁰ The lower range would be a shared room in a small facility with fewer amenities and the higher range would be for a private apartment with higher levels of care in a facility with a lot of amenities.

Through a 2003 County ordinance, the development of licensed senior facilities, such as assisted living facilities, is subject to the jobs/housing linkage fee, whereby funds are contributed to the County's Affordable Housing Trust Fund based on the number of low and moderate income jobs anticipated for the new development.

Marin County's Aging and Adult Services office acts as the Area Agency on Aging for Marin County, and publishes an Area Plan every four years. The Area Plan involves qualitative and quantitative research on the demographics, experiences and perspectives of older adults in their service area of Marin County.

People Living with Disabilities

People living with disabilities represent a wide range of housing needs, depending on the type and severity of their disability. Special consideration should be given to income and affordability, as many people with disabilities are living on fixed incomes. Some of the considerations and accommodations that are important in serving individuals and families with disabilities are: (1) the design of barrier-free housing, (2) accessibility modifications, (3) proximity to services and transit, (4) on-site services, and (5) mixed income diversity and group living opportunities.

Some people with disabilities can live most successfully in housing that provides a semi-independent living state, such as clustered group housing or other group-living quarters; others are capable of living independently if long-term services and support are available. Different types of housing that can serve these populations include: (1) single-room occupancy (SRO) units, (2) single-family and group homes specifically dedicated to each population and their required supportive services, (3) set-asides in larger, more traditional affordable housing developments, and (4) transitional housing or crisis shelters.

⁴⁰ Information from the County Health and Human Services, Supervisor of the Long-Term Care Ombudsman Program. Example: Villa Martin (\$165/day or \$5,115 per month for Assisted Living or Skilled Nursing. \$330/day or \$10,230/month if medical exclusion/preexisting condition).

Federal sources of financing could include Multi-family Housing/Supportive Housing, Mental Health Services Act, Transitional Age Youth, and Section 8 project-based vouchers, which can be leveraged with local funds.

As the population ages, the need for accessible housing will increase. Consideration can be given to accessible dwelling conversion (or adaptability) and appropriate site design. Incorporating barrier-free design in all new multi-family housing is especially important to provide the widest range of choice and is often required by State and federal fair housing laws. Barriers to applying for building and planning approvals for reasonable accommodation modifications to units could be removed by providing over-the-counter approvals and streamlining the application process.

The unincorporated County's population with a disability is similar to that of the County and Bay Area. According to 2019 ACS data, approximately 9.2% of the unincorporated County's population has a disability of some kind⁴¹, compared to 9.1% and 9.6% of Marin County and the Bay Area's population. Table H-2.38 shows the rates at which different disabilities are present among residents of unincorporated Marin County and its community areas. Among the unincorporated County communities, the San Geronimo Valley, Marinwood/Lucas Valley, Santa Venetia/Los Ranchitos, and Marin City have a higher proportion of persons with a disability than the unincorporated County. However, across all communities, ambulatory difficulties were the most prominent.

⁴¹ These disabilities are counted separately and are not mutually exclusive, as an individual may report more than one disability. These counts should not be summed.

Table H-2.38: Persons with Disabilities by Disability Type

Community	With Disability	With a Hearing Difficulty	With a Vision Difficulty	With a Cognitive Difficulty	With an Ambulatory Difficulty	With a Self- Care Difficulty	With an Independent Living Difficulty

Source: American Community Survey 5-Year Estimates, 2015-2019:

Note: Please refer to Table H-2.1 for the census designated places included in the unincorporated communities

Senate Bill 812, which took effect January 2011, requires housing elements to include an analysis of the special housing needs of the developmentally disabled in accordance with Government Code Section 65583(e). Developmental disabilities are defined as severe, chronic, and attributed to a mental or physical impairment that begins before a person turns 18 years old. This can include Down's Syndrome, autism, epilepsy, cerebral palsy, and mild to severely impaired intellectual and adaptive functioning. Some people with developmental disabilities are unable to work, rely on Supplemental Security Income, and/or live with family members. In addition to their specific housing needs, they are at increased risk of housing insecurity after an aging parent or family member is no longer able to care for them.

The California Department of Developmental Services is responsible for overseeing the coordination and delivery of services to more than 330,000 Californians with developmental disabilities. While there are no estimates of the population with developmental disabilities, according to the ABAG Housing Needs report, as of 2020 the

California Department of Developmental Services served 384 individuals with a developmental disability in the unincorporated County. Of these individuals with a developmental disability, children under the age of 18 made up 29%, while adults accounted for 71%. The Department of Developmental Services estimated that a majority (57%) of individuals with developmental disabilities resided with a parent/guardian, while 21% live in independent/ supportive living facilities and 17% in community care facilities (Table H-2.39Table H-2.39:).

Table H-2.39: Population with Developmental Disabilities by Residence

Residence Type	% of Persons Served
Home of Parent /Family /Guardian	56.7%
Independent /Supported Living	21.2%
Community Care Facility	17.1%
Intermediate Care Facility	2.5%
Other	2.2%
Foster /Family Home	0.3%
Totals	363

Notes:

- -The California Department of Developmental Services provides ZIP code level counts. To get jurisdiction-level estimates, ZIP code counts were cross walked to jurisdictions using census block population counts from Census 2010 SF1 to determine the share of a ZIP code to assign to a given jurisdiction.
- Totals differed at source (i.e. total Population with Developmental Disabilities by age as presented in ABAG's Housing Needs Report was 384).

 Source: California Department of Developmental Services, Consumer Count by California ZIP Code and Residence Type (2020)

The total number of persons served in unincorporated County communities cannot be estimated because the Department of Developmental Services does not give exact number of consumers when fewer than 11 persons are served (<u>Table H-2.40Table H-2.40</u>). However, based on the September 2020 Quarterly Consumer Reports, the communities of Marinwood/Lucas Valley, Santa Venetia/Los Ranchitos, and Black –Point - Green Point have the greater population of persons with developmental disabilities, as evidenced by the higher number of consumers from their ZIP codes.

Table H-2.40: Consumer Count by California ZIP Code and Age Group

Source: California Department of Developmental Services, Consumer Count by California ZIP Code and Residence Type (2020)

Note: Please refer to Table <u>H-2.</u>1 and Figure <u>H-2.</u>1 for the census designated places included in the unincorporated communities

The needs of individuals with developmental disabilities are similar to those with other disabilities, and they face similar challenges in finding affordable housing. Many individuals with developmentally disabilities are on fixed incomes and cannot afford market rate rents. In addition, supportive services are often beneficial to maintain housing stability.

Large Families

Large-family households are defined by the U.S. Census Bureau as households containing five or more persons. The 2019 ACS data reflect that 7% of Marin's households meet the definition of a large family (five or more people) and that over half (55%) of large-family households in the County live in owner-occupied homes (Table H-2.41Table H-2.41). In the unincorporated area of the County, there are about 2,071 large-family households, which make up 8% of all households in the unincorporated County. Of these households, 69% are owner-occupied households and 31% are renters.

Among the community areas, Black Point-Green Point, Marinwood/Lucas Valley, and Kentfield/ Greenbrae have the highest percentages of large family households. In these communities, over 10% of households have five or more persons.

Table H-2.41: Large-Family Households (5 or more persons) by Tenure

	Owner-Occupied Households		Renter-Occupied Households		Total Large Family Households		Total Households

Note: Please refer to <u>Table H-2.1:</u> and <u>Figure H-2.1</u> for the census designated places included in the unincorporated communities

Housing Units Available for Large Families

The unit sizes available in a community affect the household sizes that can access that community. Large families are generally served by housing units with three or more bedrooms, of which there are an estimated 17,363 units in unincorporated Marin County, accounting for 67% of housing stock. Among these large units with three or more bedrooms, 85% are owner-occupied and 15% are renter-occupied (Table H-2.42). The unincorporated County has a higher percentage of housing units with three or more bedrooms than the County as a whole (67% and 58%, respectively). The communities of Central Coast West Marin, The San Geronimo Valley, Southern Coastal West Marin, Strawberry, and Marin City have a significantly lower share of housing units with three or more bedrooms than other communities and the unincorporated County. Table H-2.42 also illustrates the shortage of large units is primarily in the rental category, as the share of the housing stock with three or more bedrooms is less than 21% for all areas but Marin City.

Table H-2.42: Units with Three or More Bedrooms by Tenure

	Owner Units		Renter	Units	Total Units with 3+ Bedrooms	
Community	Number	Percent	Number	Percent	Number	Percent
Black Point-Green Point	410	91.1%	40	8.9%	450	72.9%
Northern Costal West Marin	137	81.5%	31	18.5%	168	79.2%
Central Coastal West Marin	211	79.0%	56	21.0%	267	31.3%
The San Geronimo Valley	694	92.7%	55	7.3%	749	49.9%
Southern Coastal West Marin	324	81.8%	72	18.2%	396	38.6%
Marinwood/Lucas Valley	1,956	91.6%	179	8.4%	2,135	88.5%
Santa Venetia/ Los Ranchitos	1,165	90.6%	121	9.4%	1,286	74.9%

Unincorporated Marin	14,833	85.4%	2,530	14.6%	17,363	67.2%
Marin County	52,576	85.4%	9,012	14.6%	61,588	58.4%

Source: Source: American Community Survey 5-Year Estimates, 2015-2019, Table B25009, Table B25042.

Note: Please refer to <u>Table H-2.1:</u> and <u>Figure H-2.1</u> for the census designated places included in the unincorporated communities

Although enough units appear to be available to meet the demand for large households (i.e., there are 2,071 large family households and 17,363 units with three or more bedrooms), available large units may be unaffordable to large families (see income section/refer to income section), or as is the case in many jurisdictions, large units are not always occupied by large-family households. Due to the limited supply of adequately sized rental units and affordable homeownership opportunities to accommodate large-family households, large families face additional difficulty in locating housing that is adequately sized and affordably priced. As mentioned in the Seniors section above, many older residents are aging in place and are "overhoused", which may further limit the availability of units for larger households. In Marin County, adequate market-rate homeownership opportunities exist, but these homes are out of reach economically for moderate and low income families.

The AFFH Appendix of this Housing Element found that large renter households experience a greater rate of housing problems with physical defects (lacking complete kitchen or bathroom or are living in overcrowded conditions) compared to other renter households.

Female-Headed and Single-Parent Households

Households headed by one person are often at greater risk of housing insecurity, particularly female-headed households, who may be supporting children or a family with only one income. Female-headed households fall into one of three primary groups in Marin County: single professional women, single parents, and seniors. The last two groups in particular may have a need for affordable housing. The housing needs of senior residents are discussed above in the section on Seniors. The needs of female-headed households with children are particularly acute. As stated in the ABAG Housing Needs Data Packet, female-headed households with children may face particular housing challenges, with pervasive gender inequality resulting in lower wages for women. Moreover, the added need for childcare can make finding a home that is affordable more challenging. The need for additional housing options for families with children was a priority identified by community members during the Housing Element public outreach process.

As shown in <u>Table H-2.43</u>, there are a total of 25,850 households in the unincorporated area of the County, of which 6,745_(26%) are female-headed households. Moreover, approximately 800 (3%) of the total households are female-headed households with children under the age of 18. The percent of family households living in poverty that are female headed in the unincorporated County is less than 1% (approximately 150 households), which is lower than the 3% (approximately 480) of all family households overall that are living in poverty. Compared to the County, unincorporated County has a lower percentage of female headed households, female-headed households with children, and lower rates of poverty for all families and for female-headed households.

Table H-2.43: Female-Headed County and Marin County

	Unincorporated	Marin County
Total households	25,850	105,432
Total Female-Headed Households	26.1%	28.2%
With children	3.1%	3.3%
Total Families	17,061	66,052
Total families under the poverty level	2.8%	3.8%
Female-Headed Households under the poverty level	0.9%	1.5%
With children	0.6%	1.1%

Source: American Community Survey, 5-Year Estimates 2015-2019, Tables DP02 and B17012.

Within the unincorporated County, Marin City has the highest percentage of female-headed households (42% of all households are female-headed households) and female-headed households with children (11%). Marin City also has the highest poverty rates compared to all community areas and the unincorporated County; about 16% of all family households are living below the federal poverty line. Female-headed households also have higher rates of poverty (11%) in Marin City compared to other community areas. About 6% of all households in the Marin City are female-headed family household with children living below the poverty line. As discussed earlier in this chapter, Marin City also has one of the highest percentage of non-white residents.

<u>Table H-2.44:</u> Female-Headed Households (FHH) - Unincorporated County Communities

Note: Please refer to <u>Table H-2.1:</u> and <u>Figure H-2.1</u> for the census designated places included in the unincorporated communities

Agricultural Workers

Marin's agricultural history remains a strong value and source of pride, particularly in the Coastal and Inland Rural Corridors of the County. According to the United States Department of Agriculture (USDA), Marin County farms and ranches encompass approximately 140,075 acres, or about 41% of the County's total land area; land in farms decreased by 18% from 2012 to 2017.⁴² Rural West Marin has an economic base of cattle ranches, dairies, organic vegetable farms, poultry, mariculture, and tourism. Of the

⁴² 2017 Census of Agriculture Marin County Profile,

343 agricultural operations in Marin County, the majority are third- to fifth-generation family-owned farms and are not large by California standards, with an average size of 408 acres.

Agricultural workers are significantly impacted by the high cost of living in Marin County, especially housing costs that are influenced by vacation rentals and high-end tourism. To promote a vibrant and economically sound agriculture base as part of Marin County's future, quality affordable housing for agricultural workers is needed. In almost all cases agricultural housing is tied to employment. If a worker is fired or leaves a job, becomes injured or an agricultural facility stops production, that housing is no longer available. This was identified as a concern during the public outreach for the Housing Element.

Almost all agriculturally zoned land in Marin County is located within unincorporated County areas, so presumably the data available on the agricultural worker population in the County is representative of the unincorporated County. The 2017 USDA Census reported that in Marin County, 1,274 persons were hired farmworkers, which accounts for less than 1% of the Marin County workforce. ⁴³

Distinct from other agricultural regions of the State, much of the County's agricultural production primarily requires a year-round, permanent workforce. As a result, the County does not experience a significant influx of seasonal workers during peak harvest times. Agricultural worker housing needs are dictated by the presence of parallel factors:

- The majority of agricultural worker housing units, both for permanent and seasonal workers, are provided on site by the employer-ranchers.
- As a largely permanent workforce, agricultural workers live in multi-person households, often with spouses and children.⁴⁴ Agricultural workers' spouses are often employed in non- agricultural jobs, such as visitor-serving businesses in West Marin.

These factors indicate that the housing needs of agricultural workers are best met through the provision of permanent single- and multi-family affordable housing. Given the existing housing on ranches, two important issues arise:

- Ensuring that the workforce and their families are being housed in safe and healthy conditions is a major priority
- Allowing agricultural worker households to determine the type and location of housing that is most suitable through enhancing housing choices and options
- Additional tenant rights to support agricultural workers

⁴³ Civilian employed population 16 years and over. American Community Survey Five-Year Estimates, 2015-2019. Table S2403.

⁴⁴ Evaluation of the Need for Ranch Worker Housing in Marin County, California, California Human Development Corporation, July 2008

Limited space, septic capacity, and high building costs often make it difficult to house migrant workers, presenting disincentives for employer-ranchers to provide more than basic shelter with minimal amenities. Common challenges faced by agricultural worker households include:

- Limited Income: With a mean annual salary of \$41,321,⁴⁵ most agricultural workers fall within very low income groups (the 2021 HCD income limits are \$38,400 and \$63,950 for a one-person household for extremely low and very low income households).
- Cost Burden/Lack of Affordability: As described above, HUD considers payment of more than 30% of a household's income for direct housing expenses as overpayment or an undue hardship. According to the California Housing Partnership 2021 Affordable Housing Needs Report,⁴⁶ a Marin County household would have to earn a minimum of \$48.46 an hour in full-time employment to afford the average asking rent⁴⁷ in Marin County. Opportunities for affordable rental housing or opportunities for homeownership are considerably constrained for the agricultural worker population.
- Overcrowding: Due to low incomes and lack of inventory, agricultural workers have limited housing choices and are often forced to double up to afford rents.
 Many such units are not monitored for code enforcement on past development and building approvals unless complaints are lodged.
- Substandard Housing Conditions: Many agricultural workers occupy substandard housing, such as informal shacks, illegal garages, barns or storage units, trailers, and other structures generally unsuitable for occupancy. The County's Code Enforcement staff investigates complaints against property owners for code violations but does not actively monitor agricultural worker housing units for code compliance. Few HUD Section 8 vouchers are utilized in West Marin due to the scarcity of affordable units and the inability of these units to pass the required HUD Housing Quality Standards inspection. During the Housing Element public outreach, it was identified that in many cases, existing septic systems cannot accommodate new units on sites in West Marin, including those that house agricultural employees and their families.

⁴⁵ Based on the mean annual wages for Farming, Fishing, and Forestry Occupations in the Marin County (San Rafael MD) as reported in the 2021 First Quarter Occupational Employment and Wage Statistics (OEWS) Survey.

⁴⁶ https://1p08d91kd0c03rlxhmhtydpr-wpengine.netdna-ssl.com/wp-content/uploads/2021/05/Marin_Housing_Report.pdf

⁴⁷ Average asking rent assumed was \$2,520.

The need for the County to facilitate additional housing for agricultural workers was identified as a key priority during preparation of the Housing Element by focus groups, particularly in West Marin.

Currently, the County's provisions for agricultural worker housing is not consistent with State Employee Housing Act. Furthermore, the Development Code does not contain provisions for employee housing. Pursuant to the Employee Housing Act, any housing for six or fewer employees (in any industry) should be permitted as a single-family residential use. The Housing Plan section of the Housing Element contains programs to address these inconsistencies with state law and to help to facilitate more agricultural worker housing in the unincorporated County.

Individuals and Families Experiencing Homelessness

Individuals and families experiencing homelessness have immediate housing needs. Also, many residents lack stable housing but are not considered unhoused, according to the HUD definition⁴⁸. They live doubled up in overcrowded dwellings, often sleeping in shifts or renting closet space or "couch surfing" with family or friends. Although not living on the street, this population often has no means of stable accommodation and may experience periods of being unsheltered. In addition, their living situation affects their ability to access services designated for people experiencing homelessness.

The Marin County 2019 Point in Time Count of people experiencing homelessness was conducted on January 28, 2019 and surveyed 360 unsheltered and sheltered individuals experiencing homelessness to profile their experience and characteristics. This is an onthe-ground survey that is undertaken by a team of County employees and volunteers to determine that number of persons experiencing homeless at a specific point in time (January 28, 2019). According to this survey, in January 2019, 1,034 persons in the County met the Marin County Health and Human Services definition of homeless, of which 172 (17%) resided in the unincorporated County (Table H-2.45). This represented a 7% decrease from the 2017 countywide population, but a 26% increase in the unincorporated County homeless count. All homeless persons surveyed in the unincorporated County in 2019 were considered unsheltered, while countywide, about 68% are unsheltered. Regionally, North Marin and Central Marin had the highest population of people experiencing homelessness, while in the unincorporated County, West Marin had the highest population of people experiencing homelessness.

In 2019, the number of those experiencing unsheltered homelessness continued to decrease in all regions of the County except for West Marin and South Marin. West Marin saw a population increase of 41 people since 2017, which may be in part due to increased outreach efforts and specialized teams familiar with the communities

⁴⁸ (1) Individual or family who lacks a fixed, regular, and adequate nighttime residence, (2) Individual or family who will imminently lose their primary nighttime residence within 14 days.

conducting the count in this region. With the planned closure of a rotating shelter in 2017, the sheltered number decreased by 20% from 2017 to 326 persons in 2019. Although the sheltered number decreased, the unsheltered number did not increase. Information about the 2021 count of persons experiencing homelessness is included later in this section, in Effects of Covid-19.

Characteristics of the Population Experiencing Homelessness

The Needs Assessment in the County's 2020-2024 Consolidated Plan estimated that 543 persons were becoming homeless each year (System Performance Measure 5.2), while 199 persons exited homelessness each year (System Performance Measure 7b.1). In addition, the Consolidated Plan estimated that people experience homelessness for over two years (764 days; System Performance Measure 1.2).

During the 2019 Point in Time Count, 54 households with children aged 18 or under were counted, including 61 adults and 81 kids (147 individuals). This is lower than the 75 households with children counted in 2017. Most families reported the following reasons for homelessness: lack of affordable housing, no income/loss of job, alcohol/drug issues, or end of a relationship. About 90% of Marin County families experiencing homelessness reside in shelters or transitional housing programs (66 households).

The 2019 Point in Time count report showed 38% (360) of all homeless adults counted having at least one type of disabling condition, such as a physical or developmental disability, chronic illness, or a substance use disorder. About 62% of these individuals with disabling conditions are unsheltered, while 38% live in emergency or transitional housing. Health issues and mental health issues are not atypical to the population experiencing homelessness. Homelessness is a traumatic event which can cause both physical and psychological difficulties.

Overall, the 2019 Marin County Homeless Count and Survey revealed a diverse homeless population with many different trends and needs. The data presents valuable insights into the population experiencing homelessness in Marin County for both the general population and subpopulations:

 About 31% of those experiencing homelessness were over the age of 50, and 19% were under age 25.

- Those who are Black or African American were overrepresented in the population: 2% of the general population but 17% of the homeless population identified as Black or African American.
- First-time homelessness decreased from 35% in 2017 to 30% in 2019.
- 70% of survey respondents had experienced homelessness for one year or more.
- Economic issues were the most frequently cited cause of homelessness (49%).
- 73% cited a need for rental assistance to get into permanent housing.
- Veterans: More veterans were being sheltered in 2019, 19% were sheltered up from 13% in 2017 and veterans were more likely to report a physical disability (45% of veteran respondents compared 22% of non-veteran respondents).
- Families with Children: The number of families experiencing homelessness decreased 28% from 2017. This may have changed since the Covid-19 pandemic.
- Unaccompanied Children and Transition-Age Youth: There were eight unaccompanied children and 99 unaccompanied transition-age youth (age 18-24) enumerated, accounting for 10% of the population experiencing homelessness in Marin County. Youth respondents were less likely to receive free meals (17%) than those over age 25.
- Older Adults: Older adults comprised 31% of the population experiencing homelessness and over two thirds were unsheltered.

Effects of COVID-19

Due to the COVID-19 pandemic, the County delayed the 2021 on-the-ground count until 2022. The decision was made with a heavy consideration for public safety, for both the unhoused in Marin County and the teams that count them. However, in the continuing effort to monitor homelessness and progress towards its elimination, the Marin County Continuum of Care decided that it would be safe to conduct a vehicle count versus the in person, on the ground count typically done, to partially help understand the current state of homelessness locally. On February 25, 2021, a special team of 41 people comprising local law enforcement, homeless outreach staff, and persons with lived vehicle experience canvassed Marin County to help determine the current prevalence of people living in vehicles. The count found 486 people living in 381 vehicles, a 91% increase over 2019.⁴⁹ Between 2019 and 2021, the number of people living in vehicles decreased in West Marin, while increasing in North, Central and Sothern Marin.

Because people experiencing homelessness are not evenly distributed between living situations and living in a vehicle is often the first place people go when they become homeless, the 91% increase in people living in vehicles does not equal a 91% increase

⁴⁹ Marin Health and Human Services, 2021 Marin Homelessness Vehicle Count, February 25, 2021.

in homelessness overall. However, it does indicate some level of new homelessness in Marin.

Unmet Needs

According to the data collected during the 2019 Point in Time count and the needs assessment conducted to inform the Marin County 2020-2024 Consolidated Plan, the populations most in need of housing include individuals with mental and physical disabilities, families, individuals in the work force, and older adults in the very low and low income range. Those currently housed but at imminent risk of homelessness include those with disabilities, households with children below the federal poverty level, older adults, and farmworkers.

The needs of the homeless population and an outline of ways to address them are contained in the report A Response to Homelessness in Marin County: Assessing the Need & Taking Action (2019). Ultimately, the report identified the following priorities and goals through a series of stakeholder discussions:

- End Chronic and Veteran Homelessness in Marin County by 2022
- Create Additional Permanent Housing Opportunities to Address Needs of the Most Vulnerable
- Maintain and Enhance Fidelity to the Principles of Housing First
 Improve and Expand Data Sharing Capacity to Provide Comprehensive,
 Coordinated Care to Persons Experiencing Homelessness

To estimate the unmet need for shelter beds and to document the existing resources for homeless families and individuals, the County used information from the 2021 Homeless Housing, Assistance, and Prevention (HHAP) Grant Program funding application submitted to the State of California's Business, Consumer Services, and Housing Agency. Table H-2.46 identifies which areas of the local homelessness response system (e.g., shelter, rental subsidies, supportive housing) have gaps in resources based on the needs of people experiencing homelessness in the County. During the public outreach for the Housing Element, establishing a coordinated entry system for individuals experiencing homeless, particularly in West Marin, was identified as a need. Focus group participants stated that people in West Marin are living in camper vans and isolated from services.

Table H-2.46: Service Gap Analysis

	Total # of Clients Currently Needing This Service	Total # of Clients Currently Receiving This Service	Remaining Needs	
Interim Housing/Shelter Beds	1,034	326	708

Total	204	63	197	1,155	38	1,657

Source: Marin County 2020-2024 Consolidated Plan

Assessment of Unmet Year-Round Need for Emergency Shelter

Marin County estimates that 708 year-round interim housing/emergency shelter beds are needed to meet the needs of the 1,034 unsheltered homeless people in the County. Given the increase in homelessness assumed from the 2021 vehicle county surveys, it is likely that this need is higher due to the COVID-19 pandemic.

Assessment of Unmet Need for Supportive Housing

In Marin County's 2021 HHAP Grant Program Application, the County's Continuum of Care estimates that the County has an unmet need for 551 beds across jurisdictions in permanent housing. There is no breakdown of this unmet need estimate by jurisdiction. However, Marin County has estimated the needed beds based on the percentage of the total number of unsheltered homeless people living in the community. Given that 24% of the total unsheltered homeless people in the County are estimated to reside in unincorporated areas of Marin, the estimated unmet need for supportive housing beds is

133. The program chapter of the Housing Element contains a program to pursue funding for providing permanent supportive housing for the homeless (Project Homekey).

Extremely Low Income Households

Extremely low-income households earn up to 30% of the Area Median Income. This group is considered a special needs groups because of the limited housing options available to them. Extremely low-income households also tend to include a higher proportion of seniors or disabled persons. In unincorporated Marin County, 3,623 households were considered extremely low-income according to the 2013-2017 Comprehensive Housing Affordability Strategy (CHAS) data by HUD, which represents about 14% of the overall households (Table H-2.22). This is similar to the share of ELI households in Marin County overall (14.9%). Approximately 61% of the extremely low income households were renters. Furthermore, 73% of the extremely low-income households were experiencing at least one housing problem (overcrowding, cost burden, or inadequate housing) (Table H-2.48). Specifically, 68% of the extremely low-income renters and 81% of the extremely low-income owners were experiencing at least one housing problem. Cost burdens are also high for extremely low income households. About 70% of all ELI households are cost burdened. About 62% of ELI renters experience cost burdens compared 81% of ELI owner households.

Among the unincorporated county communities, West Marin communities have the highest concentration of ELI households (Table H-2.23). Marin City has the highest proportion of ELI households 40%), followed by Central Coastal West Marin (30%), Northern Coastal West Marin (23%), and Southern Coastal West Marin (18 percent).

<u>Table H-2.48: Housing Problems and Cost Burden for ELI HH by Tenure- Unincorporated County</u>

Data is the sum of the CDPs in Table H-2.1.

The City supports the housing needs of ELI households and lower income households with HUD Community Planning and Development Grants and SB2 Permanent Local Housing Allocation (PLHA). The CDBG can fund a variety of activities such as acquisition and/or disposition of real estate or property, public services, relocation, rehabilitation of housing, and homeownership assistance. HOME funds can be used for activities that provide affordable housing opportunities for low to moderate income households, such as development of new affordable units, owner-occupied housing rehabilitation, homebuyer assistance, and tenant-based rental assistance. The County uses HOME funds to gap-finance affordable housing projects throughout the County. The County anticipates receiving between \$750,000 to \$1,500,000 in PLHA annually that can be used to increase the supply of housing for households at or below 60% of AMI (which includes ELI households) and facilitate housing affordability, particularly for lower and moderate income households.

In addition, the City's Housing Plan includes a program to explore strategies that strengthen tenant protections such as rent stabilization, just cause for eviction, and local relocation assistance (Program 31- Tenant Protection Strategies). Tenant protection strategies benefit the most vulnerable segments of the community such as ELI households. There is also a variety of programs to increase affordable housing supply throughout the County, prioritizing funding to projects that include ELI households.

Units at Risk of Conversion

As of 2022, 24 affordable housing projects totaling 1,148 units (including 877 affordable units) are in unincorporated Marin (Table H-2.49). Government Code Section 65583 requires each city and county to conduct an analysis and identify programs for preserving assisted housing developments. The analysis is required to identify any low income units that are at risk of losing deed-restricted subsidies in the next 10 years. Two projects (Ponderosa Estates and Parnow House) with 128 affordable units are deemed at risk of conversion during the 2023-2033 at-risk analysis period.

Table H-2.49: Publicly Assisted Multi-Family Affordable Rental Housing

According to the 2020-2024 Consolidated Plan, Marin Housing Authority manages 340 Below Market Rate (BMR) homeownership units throughout Marin County that are preserved by deed-restriction, of which 90 units are in the unincorporated County. The Marin Housing Authority processes all sales of new units, resales of existing units, refinances, capital improvement evaluations, down payment assistance, and monitoring of the portfolio for compliance with BMR Program requirements. MHA also works with developers at the initial stage to formulate Developer Agreements determining the affordability range and construction requirements for these BMR units. There are an additional 408 BMR units in the City of Novato that are managed by Hello Housing in a similar manner. As of 2020, MHA does not have any anticipated Section 8 contract expirations.

Conversion Risk

The units considered at-risk of conversion in the unincorporated County are all at risk based on the expiration of restrictions for low income use through various financing sources. However, while the units described in Table H-2.49 may meet the definition of at risk of conversion as described in Government Code Section 65583, the risk of conversion is low because they are all owned by non-profits with a mission of providing long term affordable housing. The existing owners all intend to maintain the affordability of the units. There are limited costs associated with rehabilitation as based on regular monitoring and inspections, all of the complexes are in good condition.

Preservation Resources

In order to retain affordable housing, the County must be able to draw upon two basic types of preservation resources: organizational and financial. Qualified, non-profit entities will be notified of any future possibilities of units becoming at risk. A list of qualified entitles to acquire and manage at-risk units is available through HCD's website and will be relied upon to provide notification of units at risk. However, the majority of these properties are already owned by nonprofit organizations and therefore preservation by transferring ownership to other nonprofits is not necessarily an efficient strategy.

Funding is available to facilitate preservation through the County's Affordable Housing Trust Fund, Permanent Local Housing Allocation (PLHA), HOME and CDBG funds. Preservation is one of the County's priorities for use of these funds.

Costs of Replacement versus Preservation for Units At-Risk During the Planning Period

According to the California Housing Partnership Corporation website, one development is deemed at risk of conversion during the planning period, 56-unit Ponderosa Estates in

Marin City which has 56 units funded through HUD's Section 8 program. However, additional research found that Ponderosa Estates renewed their agreement with HUD in 2004 for an additional 40 years and the current restrictions do not expire until 2044. The property is part of HUD's Property Disposition Program which provides financial assistance for HUD owned housing projects to maintain their affordability. Assistance is provided to existing projects in need of repair as well as projects already in decent, safe, and sanitary conditions. By providing funding for these projects, HUD helps preserve decent, safe, housing affordable for low income families and minimizes displacement.

A second project – 72-unit Parnow Friendship House – is also identified with a potential conversion date of 2024. However, this project is owned and operated by EAH Housing, a nonprofit organization committed to providing permanent affordable housing to low income households. The expiration of deed restriction does not present a risk of conversion.

The high cost of land and construction make affordable housing development in Marin difficult without substantial subsidy. Projects tend to be small in scale due to local zoning which favors lower density development and community opposition to larger housing projects. Small projects are not competitive for many State funding sources and are not able to benefit from economies of scale. This results in higher development costs per unit, and it also results in higher ongoing management costs per rental unit. An example of high development costs is a project currently developing 54 one-bedroom units of affordable housing in Marin with a per unit cost of over \$650,000.⁵⁰ Therefore, the cost to construct 128 new units is estimated at \$83.2 million.

Based on the limited supply of developable land, high cost of construction and lengthy approval process, rehabilitation of existing units instead of new construction is the most economical way of providing housing. The cost of preservation is significantly less. For example, in 2015 the eight-unit Calle del Embarcadero Apartments in Stinson Beach was going to be sold and existing residents, including two tenants using Section 8 housing assistance vouchers, were likely to be displaced because the new owner was expected to raise rents to market rates. A collaboration between the County of Marin, Marin Community Foundation, Community Land Trust Association of West Marin (CLAM) and the Stinson Beach Affordable Housing Committee was formed to enable the creation of the first permanently affordable housing units in Stinson Beach. According to the Marin Community Foundation, mix of grants and loans totaling \$2.85 million was supplied to cover the cost of purchasing the Calle del Embarcadero Apartments by CLAM.⁵¹ Based on the information supplied by the Marin Community Foundation, the per unit cost for the acquisition of the apartments was \$356,250 per

^{50 2020-2024} Consolidated Plan.

⁵¹ https://www.marincf.org/buck-family-fund-grants/mcf-loan-fund/case-studies-stinson-beach-affordable-housing

unit, about half of the costs for new construction. Therefore, the cost of preserve 128 units of high and very high risk units can be estimated at about \$45.6 million.

Disadvantaged Communities

SB 244, codified in Government Code Section 56375, requires cities and counties to identify the infrastructure and service needs of unincorporated legacy communities in their general plans at the time of the next Housing Element update. SB 244 defines an unincorporated legacy community as a place that meets the following criteria:

- Contains 10 or more dwelling units in close proximity to one another;
- Is either within a city Sphere of Influence (SOI), is an island within a city; boundary, or is geographically isolated and has existed for more than 50 years; and
- Has a median household income that is 80% or less than the statewide median household income.

Per this definition, no disadvantaged communities are located within the unincorporated area of the County. The Marin Local Agency Formation Commission's Municipal Services Review (MSR) from October 2019 identified one disadvantaged community in several census tracts covering the Canal neighborhood of San Rafael Region that met the disadvantaged community criteria. However, given this neighborhood is entirely within the San Rafael city limits, it does not qualify as a disadvantaged community in the unincorporated County. The October 2020 reports for the Twin Cities Region, Novato Region, Upper Ross Valley, and Tiburon Peninsula did not identify any disadvantaged communities.

While the community of Marin City does not fall under the definition of SB 244, it still faces many of the same challenges. As discussed in the AFFH appendix, Marin City is defined as a "sensitive community" by the UC Berkeley Urban Displacement project. This means that the share of renters is above 40%, share of people of color is more than 50% as well as a higher share of low income households and severely rent burdened households and proximity to displacement pressures. Displacement pressures were defined based on median rent increases and rent gaps. The Housing Element focus group members were concerned about displacement for residents who cannot find affordable housing.

CHAPTER 3: HOUSING CONSTRAINTS

Nongovernmental Constraints

Many factors contribute to the cost of housing, including land and construction costs, financing, community resistance to new development, and available infrastructure capacity. These factors impact the availability of housing, especially affordable housing, in Marin County.

Land and Construction Costs

Nearly 84% of Marin County consists of lands used for open space, watersheds, tidelands, parks, and agriculture. Only 11% of the land area has been developed, and most of the remaining available land is in incorporated cities and towns. The limited amount of land available for development, combined with the County's location in the Bay Area, makes land costs high. Land appraisals indicate how land costs impact overall development costs in Marin County. Land value varies significantly depending on location and development potential. Two key examples are as follows.

- 1. In November 2020, a 1.23-acre site in San Geronimo was determined to have a market value of \$1,920,000. The land area value was \$352 per square foot, and the unit valuation was \$210,000 per unit.
- 2. In September 2021, a site in Tomales was valued at \$800,000. The land area valuation was \$32 per square foot and the unit valuation was \$55,000 per unit (13 total units assumed on the property).

Construction costs include materials and labor. In general, land costs per unit can be lowered by increasing the number of units built. According to the Association of Bay Area Governments (ABAG), wood frame construction at 20 to 30 units per acre is generally the most cost-efficient method of residential development. However, local circumstances affecting land costs and market demand will impact the economic feasibility of construction types. The North Bay Fires and the COVID-19 pandemic also disrupted the supply chain and impacted the costs of construction materials.

One indicator of construction costs is Building Valuation Data, compiled by the International Code Council (ICC). The unit costs compiled by the ICC include structural, electrical, plumbing, and mechanical work, in addition to interior finish and normal site preparation. The data are national and do not account for regional differences nor

¹ Marin Countywide Plan. Prepared by the Marin County Community Development Agency. Adopted November 6, 2007.

include the price of the land upon which the building is built. The most recent Building Valuation Data, dated February 2021, reports the national average for development costs per square foot for apartments and single-family homes as follows:2

- Type I or II, R-2 Residential Multi-family: \$157.74 to \$179.04 per square foot
- Type V Wood Frame, R-2 Residential Multi-family: \$120.47 to \$125.18 per square
- Type V Wood Frame, R-3 Residential One- and Two-Family Dwelling: \$130.58 to \$138.79 per square foot
- R-4 Residential Care/Assisted Living Facilities generally range between \$152.25 to \$211.58 per square foot

Additionally, labor costs are influenced by the availability of workers and prevailing wages. State law requires payment of prevailing wages for many private projects constructed under an agreement with a public agency that provides assistance. As a result, the prevailing wage requirement substantially increases the cost of affordable housing construction. In addition, a statewide shortage of construction workers can impact the availability and cost of labor to complete housing projects. This shortage may be further exacerbated by limitations and restrictions due to the COVID-19 pandemic. In Marin County, many contractors who cannot afford to live here are not based in the county and travel from outside the area, potentially adding to labor shortages. Although construction costs are a significant factor in the overall cost of development, County of Marin staff has no direct influence over materials and labor costs.

A report in 2020 by the Terner Center for Housing Innovation at UC Berkeley found that materials and labor (also referred to as hard construction costs) accounted for approximately 63% of total development costs for multi-family projects in California between 2010 and 2019.3 The report also found that controlling for project characteristics, compared to the rest of the state, average materials and labor costs were \$81 more expensive per square foot in the Bay Area. The Bay Area has comparatively higher construction wages than elsewhere in California.⁴

In April 2022, the County's Affordable Housing Financial Assessment Study was published. This study looked at the costs of affordable housing production in Marin County, including funding gaps. As part of the analysis, several projects in Marin, Sonoma and Napa Counties were examined for development costs⁵. The following is a summary of the seven projects:

² https://cdn-web.iccsafe.org/wp-content/uploads/BVD-BSJ-FEB21.pdf

³ The Hard Costs of Construction: Recent Trends in Labor and Materials Costs for Apartment Buildings in California, Terner Center for Housing Innovation. March 2020.

⁴ Same as footnote 3.

⁵ Economic & Planning Systems, Inc. Affordable Housing Financial Assessment Study: Marin County Housing Element Technical Support Document. April 5, 2022.

- Average number of units in the project: 85
- Average dwelling units per acre: 63.27
- Average land costs: \$3,174,814; \$37/square foot
- Average construction costs: \$28,383,713; \$345/square foot
- Average project costs: \$47,179,443; \$564/square foot

Identified Densities and Delays in Requesting Building Permits

Requests to develop housing at densities below those anticipated in the Housing Element may be a non-governmental constraint to housing development, when the private sector prefers to develop at lower densities than shown in the housing element. None of the current sites in the 2015-2022 Housing Element have developed. As noted in the June 2021 Memo from Strategic Economics and Vernazza Wolfe Associates to update the County's Inclusionary policies, residential developers participating in this study cited many factors contributing to the complexity of housing development in Marin, including long and unpredictable approval processes, opposition from some community members, lack of available sites, especially those that are zoned for multifamily housing, high land and construction costs, and inadequate or expensive infrastructure. These barriers are addressed in the current Housing Element in a variety of ways, such as Program 1: Adequate Sites for RHNA and Monitoring of No Net Loss and Program 6: Efficient Use of Multi-Unit Land.

As noted above, CWP policies identified as barriers are being deleted and or amended. Specifically, the County, concurrently with adoption of the Housing Element, will:

- Revise the Housing Overlay District as a form-based code to streamline multifamily housing development.
- Provide for ministerial review of projects that meet the requirements of the formbased code and include 20% lower income units.
- Provide for by-right zoning on sites identified in past Housing Elements that are designated for lower income housing.
- Amend the Countywide Plan and Zoning Code to increase densities on opportunity sites identified in the Housing Element and for low income sites have a minimum of 20 units per acre.

In addition, sites are being rezoned to increase densities to 20 to 30 units per acre, and objective design standards will be adopted to facilitate review. The EIR prepared for the housing element evaluated a possible increase in the designated site capacity by 35% to accommodate future density bonuses and ease project environmental review. Together, these changes will address the barriers identified above.

Financing Availability

The availability of financing affects a person's ability to purchase or improve a home. Under the federal Home Mortgage Disclosure Act (HMDA), lending institutions are required to disclose information on the disposition of loan applications. Through analysis of HMDA data, an assessment can be made of the availability of residential financing within Marin County.

Table H-3.1 illustrates the home purchase and improvement loan activity in Marin County in 2020. Data for just the unincorporated areas are not readily available. Of the 23,703 total applications processed in 2020, a majority (80%) were for refinance loans. Overall, the approval rating for all types of loans was 69%, while the denial rate was 10%; 21% were either withdrawn by the applicant or closed for incompleteness. The highest approval ratings were for home purchase loans at 78% for conventional loans and 76% for government-backed loans. Refinance loan approvals were next with a 68% approval rating, while home improvement loans had the lowest approval rating at 56%.

Table H-3.1: Disposition of Home Purchase and Improvement Loan Applications in Marin County (2020)

Loan Type	Total Applications	Approved	Denied	Other
Government-Backed Purchase	93	76.3%	3.2%	20.4%
Conventional Purchase	3,465	78.4%	5.6%	16.0%
Refinance	19,072	68.1%	9.4%	22.5%
Home Improvement	1,073	56.4%	29.6%	14.0%
Total	23,703	69.1%	9.8%	21.1%

Source: 2020 Home Mortgage Disclosure Data. https://ffiec.cfpb.gov/data-publication/aggregate-reports

Note: "Approved" loans include loans originated and applications approved but not accepted. "Other" includes loans withdrawn by the applicant or closed for incompleteness.

Community Resistance to New Development

A significant constraint to housing production in Marin County is community resistance to new housing developments at all income levels. Marin County's infrastructure has been strained, and this creates a number of concerns voiced by County residents, such as: 1) new developments may cause increased traffic; 2) long-term sustainability of the local water supply limits new housing production; 3) potential impacts on schools and other local infrastructure; and 4) open space could be lost. Additionally, issues related to

how affordable housing may impact property values, or how affordable housing should be distributed more evenly throughout the County are raised. Additionally, "community character" is often raised, such as how density may adversely affect the visual cohesiveness of the neighborhood or whether multifamily would fit in with existing uses. This is an unquantifiable term that is often found in County findings to approve or deny a Design Review, Master Plan or other development applications. Subjective terms like "neighborhood character" or "community character" can deny critical housing projects with no measurable reasoning. At times, there is tension between fair housing laws and a desire to provide preferential access to affordable housing for local community members and workers. In many cases, it is not possible to target housing to select groups. These concerns are often expressed during project review processes and can present significant political barriers to development.

The County of Marin seeks to address community opposition in a number of ways, including:

- Housing staff will continue to provide presentations and fact sheets about affordable housing. Concerns to be addressed include studies on property values and affordable housing, information on who lives in affordable housing, and traffic data on affordable developments, such as fewer vehicles owned, and fewer vehicle miles traveled by lower income households.
- This Housing Element includes programs for housing staff to continue to coordinate with local nonprofit developers on how to effectively work with community groups, County staff, and elected officials.
- This Housing Element includes programs intended to encourage and facilitate preliminary community planning of major developments to identify and address opposition at an early stage.

Infrastructure

Public infrastructure is generally sufficient to meet projected growth demands. Electric, gas, and telephone services have capacity to meet additional projected need. Transportation, water, and sewer infrastructure are discussed in greater detail below.

Transportation

The County has two main thoroughfares. Highway 101 transverses the County south to north, extending from the Golden Gate Bridge through the City-Centered Corridor to the Sonoma County border at the north end of Novato. Sir Francis Drake Boulevard is the primary east-to-west thoroughfare, extending from Interstate 580 in the east, crossing under Highway 101 and connecting to Highway 1 in the community of Olema. Highway

1 also connects south Marin to the coastal communities. As is the case throughout the Bay Area, the County is impacted by severe traffic conditions.

Marin County is served by a network of bus service, including Golden Gate Transit, which provides inter-county regional bus service, and Marin Transit Authority (MTA), which operates local service and shuttles. Marin County is also linked to San Francisco via ferry service from Larkspur, Sausalito, and Tiburon. As described in Appendix D of this element, there is a need to connect West Marin to the transportation hubs in North, Central, and South Marin. For this reason, MTA operates the West Marin Stagecoach which consists of two regularly operating bus routes between central and West Marin. Route 61 goes to Marin City, Mill Valley, and Stinson Beach. Route 68 goes to San Rafael, San Anselmo, Point Reyes and Inverness. The Stagecoach also connects with Marin Transit and Golden Gate Transit bus routes. However, the Northern Coastal West Marin area does not have any public transit connection to the south. Bus transit only connects as far north as Inverness. This lack of transit connection affects the minority populations and the persons with disabilities concentrated in the west part of the County. Residents in some communities, such as Santa Venetia and Kentfield, have noted that bus service is not adequate.

In addition to its fixed routes, MTA offers several other transportation options, some of which are available for specific populations:

- Novato Dial-A-Ride designed to fill gaps in Novato's local transit service and connects service with Marin Transit and Golden Gate Transit bus routes
- West Marin Stage provides public bus service from West Marin to Highway 101 corridor, which connects with Marin Transit and Golden Gate Transit bus routes
- ADA Paratransit Service provides transportation for people unable to ride regular bus and trains due to a disability. It serves and operates in the same areas, same days, and same hours as public transit.
- Discount Taxi Program called Marin-Catch-A-Ride, it offers discount rides by taxi and other licensed vehicles for people at least 80 years old, are 60 and unable to drive, or are eligible for ADA paratransit service.⁶

The Sonoma Marin Area Rail Transit (SMART) system started passenger service in August 2017. The current 45-mile corridor runs parallel to Highway 101. In Marin County, stations are located in Novato, San Rafael, and Larkspur. While no stations are located in unincorporated County areas, the commuter train system is expected to affect the County's interwoven urban corridor areas. Other transit connections, including bus service, are located adjacent to SMART stations.

_

⁶ County of Marin Analysis of Impediments to Fair Housing Choice. Prepared by the Marin County Community Development Agency. January 2020.

The Marin County Community Development Agency (CDA) works closely with the Transportation Authority of Marin (TAM) and the ABAG to produce informative local data. Representatives from those agencies attend regular area planning directors' meetings.

The Countywide Plan and Inventory of Sites aims to address these conditions by facilitating development of higher density housing in areas which promote the minimization of vehicle miles traveled. These areas are typically in more urbanized locations with wider streets, close to city arterials and greater access to public transit systems. In addition to minimizing vehicle miles traveled, accommodating higher density housing in the more urban areas helps keep development in areas where emergency access and evacuation routes have greater capacity and Wildland Urban Interface (WUI) requirements for egress are more easily achieved. Lower density housing is promoted in the hillside and remote communities where emergency access is more limited and constrained.

Water

Marin County's water supplies include surface water, groundwater, recycled water, and imported water. Surface water is the main source of urban areas in the eastern portion of the County while groundwater and surface water are the primary sources for rural areas. There are approximately six water districts supplying water to Marin residents. The Marin Municipal Water District (MMWD) and the North Marin Water District (NMWD) are the principal entities managing and delivering water to residential and commercial consumers. The Marin Municipal Water District serves the largest customer base in Marin, providing water to the eastern corridor of Marin County from the Golden Gate Bridge northward up to, but not including, Novato, and encompasses an area covering 147 square miles. The NMWD serves the City of Novato and the Point Reyes and Olema areas of West Marin. Imported water is from the Sonoma County Water Agency (SCWA) which serves over 600,000 residents in Sonoma and Marin counties.

Water delivery in West Marin encompasses a range of scales, from the large water districts to small community water districts and smaller, individual systems. The small community water districts include Bolinas Community Public Utility District (BCPUD), Stinson Beach County Water District (SBCWD), Inverness Public Utility District (IPUD), and Muir Beach Community Services District (MBCSD). The community of Dillon Beach is served by two small independent water companies: the California Water Service Company (CWSC, Cal Water) and the Estero Mutual Water System (EMWS). SBCWD, MBCSD, and the Dillon Beach area primarily use groundwater for their water supplies, while IPUD and BCPUD rely mainly on surface water.

Marin County, along with the rest of the state has continued to face drought conditions over recent years; the water year that ended September 30, 2021 was the second driest

on record, due to extreme heat and lack of rain and snow. As of the end of 2021, all 58 counties in California were under a drought emergency proclamation. Marin water agencies monitor local water storage levels, encourage conservation practices and apply various drought restrictions, water use limits and associated penalties as needed.

Analysis:

The Marin Countywide Plan, adopted in 2007 and most recently updated in 2022, supports a land use pattern intended to keep the majority of future dwelling units from environmentally sensitive lands, which are often on septic and/or use well water, to locations within the City-Centered Corridor and rural communities where public water and sewer systems are provided.

Accordingly, the Sites Inventory consists of properties mostly located in the City-Centered Corridor, where services are available, and it is most feasible to meet the County's current default density of 20 units per acre for sites suitable for lower income housing. This is likely to result in less water use per unit but some increase in overall water usage in the MMWD service area (see below). Housing may be developed in West Marin at lower densities as appropriate and may need to utilize wells and septic systems.

^{*}Existing Units from Figure III-1 in Section III: Constraints and Opportunities for Housing Development of Marin County Housing Element 2015-2023. According to Chapter 2: Housing Needs Analysis of this 2023-2031 Housing Element, "Population Trends" section, the total population of unincorporated Marin County decreased by 539 between 2010 and 2021". Therefore, it is assumed the number of existing units in Unincorporated Marin indicated for each water district remains unchanged from the previous Housing Element update.

^{**}Chapter 4: Resources of this 2023-2031 Housing Element, Table H-4.6 "Sites Inventory by Community"

⁺ Countywide Plan Buildout Units from Figure III-1 in Section III: Constraints and Opportunities for Housing Development of Marin County Housing Element 2015-2023. It is assumed the number of Countywide Plan Buildout units indicated for each water district remains unchanged from the previous Housing Element update.

⁺⁺ Difference between Countywide Plan Buildout column and Existing Units column.

Despite a limited water supply, water districts have historically indicated sufficient projected supply to meet demand, with the exception of Bolinas Community Public Utility District (BCPUD), where there is a moratorium on new water meters that has been in effect since 1971 and Inverness Public Utility District (IPUD), where the system is dependent upon day_to_day flows, has no storage system and is over design capacity. Availability of IPUD water declined below customer demand during the drought year of 2021 and a Water Shortage Emergency was declared. Sites designated for housing development in BCPUD and IPUD are limited to redevelopment projects which can match or decrease demands to below existing usage within parcels that already have a metered water supply.

Other parts of the unincorporated County are served by North Marin Water District (NMWD), the majority of whose supplies are dependent upon water purchased from Sonoma County Water Agency and piped into the County. In NMWD's West Marin service area, the majority of water supplies are dependent upon water drawn from wells. In addition, parts of the unincorporated County are served by Marin Municipal Water District (MMWD), the majority of whose supplies are dependent upon water stored in Marin County reservoirs. When NMWD, in their Novato service area, and MMWD, have access to full annual water entitlements and full reservoir capacity, they are able to accommodate population growth as indicated in their "2020 Urban Water Management Plan for North Marin Water District" and "MMWD Water Resources Plan 2040."

However, due to drought impacts in Sonoma County, NMWD is not able to receive its full annual entitlement from Sonoma County Water Agency and has adopted an ordinance imposing moratoriums on new connections in order to work within its restricted supply. In the West Marin service area, NMWD has enacted emergency water conservation ordinances which include no new water service connections. Additionally, until recently MMWD had imposed restrictions on connections for irrigation for new development due to water shortages in its reservoirs as a result of multiple years of less than average rainfall. MMWD's restriction on irrigation connections was lifted in 2022 because large storm events in the winter of 2021-2022 filled the reservoirs.

Because there is uncertainty in the future about the amount of water that would be available for the Districts to supply to customers during the current, ongoing drought, and the Districts are in the early stages of seeking alternate water sources, possible multiple new connections for sites designated for housing development could result in demands in excess of available supply during dry and multiple dry years.

The Housing Element's Program 11 describes several strategies to mitigate water supply constraints, including implementing a new State requirement for county jurisdictions to take over very small water connections and wells (less than 20

connections); promoting sustainability strategies; and conducting a strategic water supply assessment to increase supply.

The environmental review conducted for the Marin Countywide Plan in 2007, and in 2022 for the Marin County Housing Element Update, determined that development to the point of buildout would have significant and unavoidable impacts with respect to water supply. While the County's RHNA allocation of 3,569 units for this planning cycle and projected development into the future do not approach the 4,476 additional housing units calculated as future buildout for unincorporated Marin, NMWD recently revised their 2020 Urban Water Management Plan to include updates to anticipated future demands, and determined that the provision of water will be dependent upon return to pre-drought supply levels or finding alternate water sources. Additionally, the environmental review in 2022 determined that while four of Marin's water districts, including those that serve the largest customer bases, face capacity concerns given current supplies, alternative measures are being investigated as part of the districts' long-term plans. Alternative measures being investigated include, but are not limited to, expanding recycled water use, winter water from Sonoma County Water Agency, the construction of infrastructure to import water purchased from third parties and water from potential future permanent local or regional desalination facilities. At present, however, the housing sites included in the Bolinas and Inverness Districts have water meters and are able to obtain water for housing development when the water demand for the development is equal to or less than existing demand. The other districts have adequate capacity to serve the County's assigned regional housing needs.

In addition, the Housing Element EIR determined that development to the point of buildout would have less than significant environmental impacts as a result of the construction of water supply infrastructure. It was noted the cost related to the expansion of infrastructure could be prohibitive for the size of developments proposed.

Wells

Locales beyond the current municipal and community water service areas rely on individual groundwater wells, surface water, or small spring-based systems. These areas are subject to larger minimum lot requirements, partially in need to accommodate various setback requirements which exist to protect and operate water wells and septic systems. While the lots are larger, finding adequate locations to site wells and septic systems in addition to the associated setback requirements limits the potential for construction of multi-family units. Sources for water must be perennial. Finding little to no groundwater or poor quality water in a parcel can further result in limited residential capacity. Accordingly, the Sites Inventory consists of properties mostly located in the City-Centered Corridor, where services are available.

Small water systems can be constructed where groups of parcels maintain common infrastructure for supply and draw water from one substantial source or contribute water from multiple sources to common storage. While a small water system will be reviewed in part by the local jurisdiction, approval of the small system ultimately rests with the State Water Resources Control Board. Technical reports must be provided including, but not limited to, analyzing the ability to connect to other public systems within 3 miles, in addition to quality of and the ability of the proposed water system to meet 20-year water demands under a variety of hydrologic conditions (Association of California Water Agencies (ACWA) New Water System Approval Fact Sheet). ACWA cautions that while lower up-front costs for small water systems seem attractive, the long-term maintenance and operating costs can affect housing affordability through potential future assessments. Addressing the stability of the water system in advance is critical.

The permitting process and associated costs for well construction, shown in Table H-3.3, do not constitute a constraint to development, as the costs are relatively minimal in relation to overall development costs.

Table H-3.3: Permit Application Costs for Wells

Permit Application / Task	Cost
Water Well Drilling - initial	\$1,279.00
Water Well Drilling – each additional	\$362.00
Water Well Repairs and Upgrades	\$1,205.00
Domestic Water Supply Permit (up to 5.75 hr)	\$1,256.00
State Small Water Permit (up to 6.5 hr)	\$1,651.00
State Small Water Permit – Annual Fee	\$894.00
Common Water System Permit (up to 6.25 hr)	\$1,309.00
Amended Domestic Water Supply Permit (up to 4 hr)	\$852.00

Source: Wells & Water Systems Permits & Fees effective 7/1/2019, Marin County Environmental Health Services

Sewer

There are thirteen sanitary sewer districts and service areas, and six sewage treatment plants in the City-Centered Corridor. Two sewage treatment plants intercept wastewater from more than one sanitary district or service area. There are two districts in West Marin, each with sewer lines and a treatment facility. One of these districts, the Bolinas Community Public Utility District, has a moratorium on new sewer connections that has been in effect since 1985 (see Table H-3.4, below).

Generally, the sewage treatment plants have adequate capacity to treat wastewater from their service areas. However, during, and for a period of time after rain events, the underground pipe systems collect surface water and groundwater, particularly where the infrastructure is older. In the wastewater industry this is known as inflow and infiltration (I & I). There is typically I & I throughout the year, but when I & I increases during a storm event and is combined with normal wastewater flows, the total amount of effluent in the pipe systems has the potential to overwhelm the capacity of the treatment plants. Various sewage treatment plants in Marin have already or are in the process of completing improvement projects to address potential growth, wet weather capacity issues and more stringent state and federal regulations. For example, the Sausalito-Marin City Sanitary District completed upgrades to their treatment plant in Fall of 2021 and Novato Sanitary District finished construction and put a new treatment plant into service in 2011.

The sewage pipe systems throughout Marin County vary in whether they are under, or are of sufficient capacity. Where pipe systems are under capacity, reasons may include material age, material condition, I & I, and being undersized for the amount of development which ultimately occurred in a general area. Sanitary districts typically develop and periodically update plans for the maintenance and upgrade of their system infrastructure. Part of these plans address mitigating I & I which helps to address capacity issues in the pipeline systems and at the sewage treatment plants in addition to preparing to protect sewer infrastructure from potential below- and above-ground impacts from sea level rise. As properties are developed or redeveloped, analyses may be required to determine whether increases in housing unit density, above the density used for master planning of the districts' systems in that location, would necessitate infrastructure upgrade downstream of the site.

Large areas of the County are served by on-site wastewater (septic) systems. As described in greater detail below, the County Environmental Health Services office regulates septic systems.

Analysis:

As shown in below, Marin wastewater facilities are able to accommodate additional housing development above and beyond the RHNA allocation for this planning cycle. This excludes the Bolinas Community Public Utility District, which, as previously discussed has had a long-term moratorium on new sewer connections. Bolinas has a sewer system (BPUD) which will provide connection to the Mesa and 31 Wharf projects; the others have on-site septic systems. All areas within the Housing Overlay Designation and New Religious and Institutional Facility Housing Overlay and Affordable Housing Combining District (AH) are within a sanitary district or a service district that is responsible for ensuring wastewater effluent is treated.

- g. Novato Sanitary District Wastewater Collection System Master Plan October 2019. NSD projection for 20 years is that base flow will increase to 4.14 mgd
- h. BCPUD Sewer System Management Plan. Difference between Maximum Treatment Capacity and average peak dry weather flow on peak generation day.
- i. The Tomales Village Community Services District Sewer System Management Plan Final 2012
- j. Design flows vary by district. For this analysis [315gpd/unit = (3.5 persons/residence)(90gpd/person) = 315gpd] from Novato Sanitary District Standard Specifications was applied to estimate flows generated in each district.

b. Sewerage Agency of Southern Marin Wastewater Treatment Plant Master Plan: WWTP capacity 3.6mgd average dry weather flow (ADWF). Observed ADWF in 2014 was 2.22 mgd. Remaining Capacity = 3.6 mgd – 2.22 mgd = 1.38 mgd. Anticipated that ADWF will increase to 2.34mgd by 2035 due to population projections used for their Master Plan.

Housing development in areas not served by sanitary sewers generally require more land per dwelling unit to accommodate construction of septic systems within the parcel. Finding adequate locations to install septic systems, combined with septic system setback requirements can limit the potential for construction of multi-family units in the Inland Rural and Coastal Corridors. Properties near streams, baylands, and in the lowlands of the Inland Rural Corridor are heavily constrained by high groundwater, which can result in limited residential capacity. To increase residential density within a property, site specific septic investigation in coordination with planning for improvements, sometimes including wells, would be needed to determine how many units the land could feasibly accommodate. Alternatively, if the property is in proximity to a sewer district service area, and connection to the district's pipeline system is feasible, annexation into the sewer district's service area could be explored.

Septic

Septic systems are utilized on properties throughout the County (see Countywide Plan Map 2-8 for parcels with buildings and septic systems). Septic use is typical in the rural areas of West Marin and low-density residential areas such as the northern side of the Tiburon Peninsula and parts of unincorporated Novato. The County utilizes a permitting procedure for the design of new septic systems that requires review of engineering plans. There are two types of septic systems – standard and alternative – available to address a range of site-specific factors. Both types of septic systems are subject to the County's permitting process for wastewater treatment and disposal. Standard septic system design is based on accepted design principles that are assumed to ensure proper functioning of the system for extended periods. Because standard systems are expected to operate properly with property owner maintenance, there is no County inspection process after the initial inspection. Older septic systems within the County are standard septic systems. Alternative septic systems may be necessary when site conditions do not lend themselves to installation of a standard type of system. However, because these are based on newer technologies, ongoing inspections are required to ensure proper operation. County Environmental Health Services strives to respond to requests for septic system permits within 30 days of submission of the septic system design. The permitting process and associated costs, shown in Table H-3.6, do not constitute a constraint to development, as the costs are relatively minimal in relation to overall development costs and are necessary to protect the health and safety of the community and environment. However, a discretionary permit (Coastal Development Permit, CDP) through the Coastal Commission, is required to install septic systems in Coastal zones. CDP permits can take up to 120 days. The numbers in Table H-3.6 only reflect fees associated with septic system installation and do not account for design and construction costs.

Table H-3.6: Permit Application Costs for Septic Systems

Permit Application Task	Standard Septic System Cost	Alternative Septic System Cost
Site Evaluation (soil profiles) (up to 5.5 hr)	\$1,138.00	\$1,138.00
Percolation Test (pre-soak and test) (up to 7 hr)	\$1,460.00	\$1,460.00
Pre-Application Fee (Septic Permit)	\$1,009.00	\$1,009.00
New System. Upgrade	\$3,326.00	\$4,826.00
Repair (Standard up to 10 hr) (Alternative up to 20 hr)	\$2,084.00	\$4,361.00
Operating Permit (Residential w/Consultant Inspection) (Annual Biennial Monitoring Fee)	\$505.00	\$505.00
Field Review	\$490.00	\$490.00

Source: Septic Systems Permits & Fees effective 7/1/2019, Marin County Environmental Health Services

Development setbacks and the preservation of riparian vegetation can minimize the adverse effects of wastewater discharge. The County maintains information on its website for community members about septic systems and maintains a database to help improve the management of septic systems throughout the County.

Many of the sites in the Housing Element inventory are located in areas with existing services. However, the Housing Plan in this Element includes a program to help explore options for multi-family development that is constrained by septic systems. Actions include developing standards for multi-family development in septic areas and updating the County's methodology for calculating septic capacity. These actions will help resolve potential constraints that may occur with sites being proposed in areas with septic systems.

Environmental Constraints

Remaining vacant lands in the unincorporated County zoned for residential uses tend to have significant environmental constraints which either substantially increase construction costs or preclude development altogether, including sites with steep slopes or wetland habitats. Some of these constraints are described below.

Flood Control and Management

Stream Conservation Areas

The Marin Countywide Plan has established a Stream Conservation Area (SCA) ordinance to protect streams and their adjacent habitats from the impacts of development. The SCA policies are applied to projects that require discretionary entitlements (Planning Permits). The SCA ordinance helps to preserve habitat areas for plants and animals as well as provide areas to absorb and slow waters discharged from development. The SCA ordinance also provides and helps to preserve floodplain and overflow areas to "distribute flood waters and help prevent damage to structures, property, and natural habitat during substantial flood events" (Land Owner Resource Guide for Properties near Streams, County of Marin, May 2016).

In City-Centered corridors, the SCA setback distance varies by the size of the lot (see Table III-7).

Table H-3.7: SCA Distances in City-Centered Corridors

Lot Size	SCA Distance	
Greater than 2 acres	100 feet	
½ acre to 2 acres	50 feet	
Less than ½ acre	20 feet	

Source: Land Owner Resource Guide for Properties near Streams 5/2016, County of Marin

In the Baylands, Inland-Rural Corridors and Coastal Zone, the SCA is delineated as described in Table H-3.8. With the exception of certain limited instances, development is prohibited in the SCA. Development within the SCA may be allowed subject to discretionary review and approval. When merging multiple properties in the City-Centered Corridors which are subject to the lesser SCA distances in their original size, constraints to providing housing could be encountered when the size of the lot increases so that the development within would be subject to larger SCA distances. In the Baylands, Inland-Rural Corridors and Coastal Zones, and generally within any developable parcel near a stream, the footprint of available land outside of the SCA

setback may limit the number of housing units to less than the number allowed by the density assigned to the parcel.

The draft SCA Ordinance for San Geronimo Valley has more restrictive requirements for activities in the SCA than for other areas of Marin. However, the draft Ordinance also includes exceptions to facilitate development on lots which are completely within the SCA and when development on the portion of a parcel outside of the SCA is infeasible. Additionally, the proposed ordinance allows development of Category 1 Accessory Dwelling Units within the SCA with ministerial approval and subject to specific size and siting requirements.

Table H-3.8: SCA Distances in Baylands, Inland-Rural Corridors, Coastal Zone and San Geronimo Valley

Lot Size	SCA Delineation Baylands, Inland-Rural Corridors (excluding San Geronimo Valley) and Coastal Zone	SCA Delineation Draft Stream Conservation Area (SCA) Ordinance for San Geronimo Valley	
Any		100 feet or more	
	The greater of 100 feet from the stream bank or 50 feet from the outer edge of riparian vegetation.	Site Assessment required for all projects.	
		Specific Activities and Development Types allowed in SCA Buffer	
		Permit Review Procedures and Requirements	

Sources: Land Owner Resource Guide for Properties near Streams 5/2016, County of Marin and Marin County Community Development Agency Stream Conservation Ordinance webpage: https://www.marincounty.org/depts/cd/divisions/planning/stream-conservation-area-ordinance

The Countywide Plan also has goals, policies and implementation programs for the protection of wetland buffers and ridge upland greenbelts. While these buffers help to protect environmental features, they do result in constraining development. The Governmental Constraints section below looks at how y CWP policies restrict development.

Flooding During Extreme Precipitation Events

Government Code 65302 requires all cities and counties to assess their flood hazard and to prepare for potential flooding. In particular, it requires all cities and counties:

- to review and update the flood, fire hazard and climate adaptation sections of the Safety Element of the General Plan upon each revision of the housing element or local hazard mitigation plan, and
- to annually review the land use element for those areas subject to flooding identified by flood plain mapping prepared by the Federal Emergency Management Agency (FEMA) or the State Department of Water Resources (DWR), effective January 1, 2008.

Marin County Code 23.09.010 addresses statutory authorization for the enforcement of Government Code Section 65302 (Ord. 3293§1, 1999). Marin County is in compliance with §65302.d.3, §65302.g.2, §65302.g.3, and §65302.g.4 of the California Government Code, and no revisions were found to be necessary for the safety element of the Countywide Plan with respect to flood hazards, as outlined in Appendix J of the Safety Element.

Housing projects, and generally all development projects, are studied during the municipal review process for the potential to be damaged by flooding and the potential for the development to worsen flooding in an area. Development proposed in flood zones identified in the Federal Emergency Management Agency's Flood Insurance Rate Maps (FIRM's) are subject to specific requirements for floor elevations and for the various types of spaces within and under the buildings. These existing procedures will help to limit potential conflicts with any sites in the housing element inventory which are located in flood zones.

One constraint that may be encountered to providing housing in flood zones is the cost of hydraulic analyses, municipal, state and potential federal review and permitting, and construction of the project to meet the required design standards. Affordable housing projects may encounter rigorous processing requirements and restrictions, or prohibitions related to various aspects of construction, especially if receiving federal funds and subject to NEPA. Whether a project develops in a flood zone may affect the project being able to receive federal funds for development assistance.

An additional constraint which may be encountered is that the inundation depicted in the FEMA Flood Insurance Rate Maps may change due to sea level rise or related adaptation improvements. The inundation shown in current FIRMs does not account for sea level rise.

Sea Level Rise

Flooding due to sea level rise is anticipated to be a potential constraint to providing housing in the lower-elevation areas of the County adjacent to the ocean and bays. See Table H-3.9, below for the number housing units within the candidate housing sites which are potentially affected by sea level rise.

Table H-3.9: Number of Housing Units Potentially Affected by Sea Level Rise

Sea Level Rise Height ^a	Number of Potential Housing Units which begin to be affected ^{b, c}
1 foot	799
2 feet	2518 ^d
3 feet	49
4 feet	681
5 feet	142

a. As the parcel is viewed with Sea Level Rise layers in www.marinmap.org.

c. All housing units proposed for a site are included in tally once the Sea Level Rise footprint encroaches within the parcel. Ultimate plans for development may further delay sea level rise encroachment to some or all of housing units affected, depending on the sea level rise encroachment and how housing is sited within the parcel(s).

d. Includes St. Vincent's Candidate Housing Site (2430 units).

The County and some of the rural towns and communities are already planning and implementing projects in response to sea level rise.

Project consideration should include the timeframe for flooding to occur (i.e., near-term, long-term) and whether regional projects have the potential to be completed in the future to protect and preserve existing development in an area. There are many areas in the County along the bays and the coast which are projected to be permanently under water as sea levels rise. It is anticipated that projections will be adjusted as predictive models are updated based upon observed rates of rise. The potential exists for inundation mapping around a parcel to change in response to adjustments in these projections. Additionally, inundation mapping may change as protective and adaptive strategies and improvements are implemented regionally to respond to sea level rise.

Proposed housing in low areas which could be affected by sea level rise are in neighborhoods where housing already exists, and other homes will also be affected. If access is predicted to be cut off in the medium to long-term time frame, and there is time to potentially plan and construct improvements to protect the entire area before

b. Includes Bonus Density

sea levels rise, then housing does have the potential to be viable and could be constructed.

Emergency Access and Evacuation Routes

As described in the Natural Systems and Agricultural Element of the CWP, with most easily buildable land already developed, construction increasingly is being proposed on the remaining marginal lots with difficult access and steep hillsides, which are subject to slope instability and are vulnerable to rapid changes in fire behavior. Bluff erosion is threatening coastal homes built when bluff edges seemed safely distant. Vegetation that can fuel fires has increased because natural fires have been suppressed, and residential development continues to encroach on wildlands. Proliferation of impermeable surfaces, alteration of natural drainage patterns, and the effects of climate change have increased the frequency and severity of flood events (as described above).

Ensuring adequate access for emergency vehicles and evacuation in areas with hazard potential can reduce risks to people and property. Appropriate placement and engineering of foundations can render buildings less prone to ground shaking and liquefaction. Adequate site clearing and construction techniques such as fire sprinklers can help reduce the threat of fire. County zoning and development standards help mitigate flood damage by limiting what can be built in flood-prone areas. Special attention must be paid to land use activities at the urban-wildland interface zone, where people and property may be particularly susceptible to environmental hazards. For the Housing Element sites inventory, evacuation routes were considered as part of the site selection process any many of the larger sites have more than one access point. In addition the County's existing procedures described above and additional actions included in this element will help to minimize constraints between environmental hazards and the sites included in the housing element inventory.

Governmental Constraints

While the unincorporated County covers a large land area, most of the land is not zoned for residential development, as it is publicly owned as parkland, watershed, or open space. Agricultural conservation easements and related zoning also limit the ability to develop vacant lands. The most suitable land for residential development has already been developed.

Regulatory standards provide consistency and foster a high-quality and cohesive built environment. Standards may also present conflicts in land use objectives and pose constraints to the production of multifamily and affordable housing. The following discussion analyzes land use regulations, procedures, and fees to identify possible solutions to policy conflicts. Government Code Section 65583(a)(5) requires that local agencies analyze governmental constraints that hinder the agency from meeting its Regional Housing Needs Allocation.

Transparency in Development Regulations

To increase transparency and certainty in the development application process as required by law (Government Code section 65940.1), the County provides a range of information online for ease of access. Examples of some information that is provided includes:

- Countywide Plan
 https://www.marincounty.org/media/files/departments/cd/planning/currentplanning/publications/county-wide-plan/cwp_2015_update.pdf
- Local Coastal Plan https://www.marincounty.org/depts/cd/divisions/planning/plans-policies-and-regulations/local-coastal-program
- Development Code, including the County's affordable housing requirements https://library.municode.com/ca/marin_county/codes/municipal_code?nodeld=TIT 22DECO
- Community Area Plans
 https://www.marincounty.org/depts/cd/divisions/planning/plans-policies-and-regulations/community-and-area-plans
- Single Family and Multi Family Residential Design Guidelines
 https://www.marincounty.org/depts/cd/divisions/planning/plans-policies-and-regulations
- Planning Application Guidelines, Fee Schedule and Forms
 https://www.marincounty.org/depts/cd/divisions/planning/planning-applications-and-permits

- Building Permit Forms and E-Permit Filing https://www.marincounty.org/depts/cd/divisions/building-and-safety/forms
- The County also posts impact fees and other exactions, the current year and five previous fee and financial reports required by 66000(b) and 66013(d) and Impact and cost of service studies since 1-1-18.

Land Use Controls

Countywide Plan

Adopted in 2007, the Marin Countywide Plan is the guiding land use document for the unincorporated County. The Countywide Plan divides the County into four corridors:

- The Coastal Corridor Adjacent to the Pacific Ocean, this corridor is designated for federal parklands, recreational uses, agriculture, and the preservation of existing small coastal communities.
- The Inland Rural Corridor Located in the central and northwestern part of the county, this corridor is designated for agriculture and compatible uses and for the preservation of existing small communities.
- The City-Centered Corridor This corridor runs along U.S. Highway 101 in the
 eastern part of the county near San Francisco and San Pablo bays and is
 designated for urban development and protection of environmental resources.
 This corridor is divided into six planning areas that correspond with distinct
 watersheds.
- The Baylands Corridor Encompassing tidal and largely undeveloped historic baylands along the shoreline of San Francisco and San Pablo bays, the corridor provides heightened recognition of the unique environmental characteristics of this area and the need to protect its important resources.

As a strategy for dealing with the environmental constraints described above, the County has adopted policies in the Countywide Plan that promote opportunities for reuse of underutilized commercial centers, support mixed-use development, and encourage more dense development along transit routes. Marin County also encourages residential development in more urbanized areas or within villages in the Inland Rural and Coastal Corridors.

Countywide Plan Goals and Policies Regarding Development Densities

Many goals, policies and implementation programs in the CWP that aim to limit development to the lowest end of the permitted range. These include policies to protect streams, Ridge and Upland Greenbelt Areas, wetlands, riparian areas and the Baylands. Limiting development to the lowest end of the permitted range is also encouraged in the CWP for locales beyond the current municipal and community water service areas and rely on individual groundwater wells, surface water, or small spring-based systems.

Only allowing development at the lowest end of the permitted range constrains new housing, including the potential for affordable housing projects to be permitted at a higher density. However, the CWP exempts affordable housing projects from the lowest end of the density range requirements.

In addition, On October 9, 2019, Gov. Gavin Newsom signed the Housing Crisis Act of 2019 (HCA) into law, commonly known as Senate Bill (SB) 330. HCA restricts the adoption of land use or zoning amendments that would result in the reduction of allowed residential density or intensity of land uses than what is allowed under the regulations in effect on January 1, 2018. The law defines "less intensive use" to include, but is not limited to, reductions to height, density, or floor area ratio, new or increased open space or lot size requirements, new or increased setback requirements, minimum frontage requirements, or maximum lot coverage limitations, or anything that would lessen the intensity of housing. SB 330 affects portions of Marin.⁷

Countywide Plan Land Use Categories

The Countywide Plan establishes the land use designations for the unincorporated County (see <u>Table H-3.10</u> below). As described in the County's 2020 Multi-Family Land Use Policy and Zoning Study, while there are a variety of land use designations, 75% of parcels in the unincorporated area have Single-Family Countywide Plan land use designations. In contrast, significantly fewer parcels are designated with other land uses, including eleven percent of parcels designated with multi-family land uses, seven percent of parcels designated with agriculture/conservation land uses, and three percent or less designated with business/institutional, open space/park, Housing Overlay Designation and New Religious and Institutional Facility Housing Overlay, and floating home land uses. The predominance of single-unit land use designations is a constraint for promoting other types of residential uses, including those can serve residents of all income categories.

Table H-3.10: Marin Countywide Plan Land Use Categories

Type of Land Use	Countywide Plan Land Use Designation	Minimum Lot Size/Density Ranges	Notes
Agricultural and	Agricultural and Conservation 1 (AGC 1)	1 du/31 to 60 acres	
Conservation	Agricultural and Conservation 2 (AGC 2)	1 du/10 to 30 acres	

-

⁷ SB 330 sunsets on January 1, 2030.

Type of Land Use	Countywide Plan Land Use Designation	Minimum Lot Size/Density Ranges	Notes	
	Agricultural and Conservation 3 (AGC 3)	1 du/2 to 9 acres		
	Agriculture 1 (AG 1)	1 du/31 to 60 acres		
Agriculture	Agriculture 2 (AG 2)	1 du/10 to 30 acres		
	Agriculture 3 (AG 3)	1 du/1 to 9 acres		
	Single-Family 1 (SF1)	20 to 60 acres	Established for development on large properties in rural areas	
Very Low Density Residential	Single-Family 2 (SF2)	5 to 19 acres	where public services are very limited or nonexistent and where significant physical hazards and/or natural resources significantly restrict development.	
	Single-Family 3 (SF3)	1 to 5 acres	Established in areas where	
	Single-Family 4 (SF4)	1 to 2 du/acre	public services are limited and on properties where physical hazards and/or natural resources restrict development.	
Rural/Residential	Planned Residential (PR)	1 unit per 1 to 10 acres		
	Single-Family 5 (SF5)	10,000 to 20,000 sq ft. lots 2 to 4 du/ac	Established for single- family and multi-family development in areas	
Low Density Residential	Single-Family 6 (SF6)	Less than 10,000 sq. ft. lots 4 to 7 du/ac	where public services and some urban services are available. Properties are not typically limited by	
	Multi-Family 2 (MF-2)	1 to 4 du/ac	physical hazards or natural resources.	
Low to Medium Density Residential	Multi-Family 3 (MF3)	5-to 10 du/ac	Established where moderate density single-family and multi-family residential development	
Density Nestucitial	Multi-Family 3.5 (MF3.5)	5 to 16 du/ac		

Type of Land Use	Countywide Plan Land Use Designation	Minimum Lot Size/Density Ranges	Notes	
			can be accommodated in areas accessible to a range of services including major streets, transit services and neighborhood shopping.	
	Multi-Family 4 (MF4)	11 to 30 du/ac	Established within the City- Centered Corridor and in	
Medium to High Density Residential	Multi-Family 4.5 (MF4.5)	11 to 45 du/ac	communities or villages where multi-family development can be accommodated with easy accessibility to a full range of urban services.

Housing Overlay Designation (and New Religious and Institutional Facility Housing Overlay)

The 2007 Countywide Plan update established a Housing Overlay Designation (HOD) as a mechanism to accommodate a range of housing types, sizes, and prices for special needs populations and workers employed in Marin County. The purpose of the HOD is to encourage affordable housing on sites close to transit and services. Underlying land uses may include Multi-family (MF), General Commercial (GC), Neighborhood Commercial (NC), Office Commercial (OC), Recreational Commercial (RC), and Public Facilities (PF). The HOD policy identifies 11 specific sites that must be developed per HOD specifications should any development occur on the site. Additional projected HOD development may be distributed to other qualifying sites throughout urban areas within the City Centered Corridor, to a maximum of 658 residential units.

In 2018, the Board of Supervisors adopted revisions to parking standards for the Overlay Designation. Refer to the Parking Standards section of this chapter below for further details. No development proposals were received on HOD sites during the 2015-2023 planning period. Due to the lack of results from this overlay designation, this Housing Element includes a program to create a new Religious and Institutional Facility Housing Overlay. The program includes conducting outreach to religious and institutional facilities regarding the Overlay opportunity.

Growth Control Measures

The County has no growth control measures that limit the number of permits issued for housing, act as a cap on the number of housing units that can be approved, or limit the population of the County.

Community Plans

To help implement the Countywide Plan while also recognizing the unique character of the local communities, the County has adopted 22 Community Plans and Area Plans. While many of these plans were adopted in the 1980s and 1990s, three new plans have been adopted since 2015: Black Point Community Plan (2016), Green Point Community Plan (2016), and the Santa Venetia Community Plan (2017). While the community plans help to address the specific characteristics of the respective area, many community plans have policies that are a barrier to multifamily housing. Due to the need of this type of housing in the unincorporated County, the community plan policies should not override or supersede development policies set forth in the CWP. This Housing Element includes a program to amend the CWP to clarify that all development, including that located in community plan areas must comply with density policies in the CWP. This

amendment is anticipated to be completed concurrent with the Housing Element adoption.

Local Coastal Plan

The updated Marin County Local Coastal Program (LCP) Land Use Plan was adopted by the Board of Supervisors in 2018 and certified by the California Coastal Commission in 2019. The LCP is the primary document that governs land development in the Marin County Coastal Zone and may modify the Countywide Plan and Community Plans. This Coastal Zone is a strip of land and water defined by the California Coastal Act of 1976 that extends along the Pacific Ocean coastline and extends seaward from the shore a distance of three miles and a variable distance landward depending on the topography⁸. While there is no growth boundary in effect at a countywide level, there are village limit boundaries (VLBs) in effect in the nine Coastal Zone communities of Muir Beach, Stinson Beach, Bolinas, Olema, Point Reyes Station, Inverness Ridge, Marshall, Tomales, and Dillon Beach. The VLBs were established to preserve agricultural lands for agricultural use while at the same time allowing for reasonable growth within village areas in accordance with the Coastal Act.

The primary tool for implementing the LCP is the coastal development permit. The County Community Development Agency is responsible for implementing the LCP and reviewing coastal permit applications. Some types of projects, such as those that involve work on tidelands around the margin on Tomales Bay, require a permit from the California Coastal Commission.

Housing in the Coastal Zone

California Government Code Section 65588(c) requires each revision of the Housing Element to include the following information relating to housing in the Coastal Zone:

- 1) The number of new housing units approved for construction within the coastal zone since January 1, 1982
- 2) the number of housing units for persons and families of low or moderate income required to be provided in new housing developments either within the coastal zone or within three miles of the coastal zone as a replacement for the conversion or demolition of existing coastal units occupied by low or moderate income persons
- The number of existing residential units occupied by persons and families of low or moderate income that have been authorized to be demolished or converted since January 1, 1982, in the coastal zone
- 4) The number of residential units for persons and families of low or moderate income that have been required for replacement units

⁸ Marin County Local Coastal Program. Prepared by the Marin County Community Development Agency. Certified by the California Coastal Commission on February 6, 2019.

Between 1980 and 2020, a total of 4,559 housing units have been added to unincorporated Marin's housing stock (Table H-3.11). Since the last Housing Element revision (2015), there have been 421 total units (11 very low income units, 17 low income units, 7 moderate income units and 386 above moderate income units) constructed and 113 units demolished for a net increase of 308 units.

Pursuant to Government Code (GC) Section 65590, "the conversion or demolition of existing residential dwelling units occupied by persons and families of low or moderate income...shall not be authorized unless provision has been made for the replacement of those dwelling units with units for persons and families of low or moderate income." However, the GC further stipulates several exemptions to the replacement requirement. Specifically, GC 65590(b)(3) provides the following exemption:

- 1) The conversion or demolition of a residential structure which contains less than three dwelling units, or, in the event that a proposed conversion or demolition involves more than one residential structure, the conversion or demolition of 10 or fewer dwelling units.
- 2) The conversion or demolition of a residential structure for purposes of a nonresidential use which is either "coastal dependent," as defined in Section 30101 of the Public Resources Code, or "coastal related," as defined in Section 30101.3 of the Public Resources Code.
- 3) The conversion or demolition of a residential structure located within the jurisdiction of a local government which is within the area encompassing the coastal zone, and three miles inland therefrom, less than 50 acres, in aggregate, of land which is vacant, privately owned and available for residential use.
- 4) The conversion or demolition of a residential structure located within the jurisdiction of a local government which has established a procedure under which an applicant for conversion or demolition will pay an in-lieu fee into a program, the various provisions of which, in aggregate, will result in the replacement of the number of dwelling units which would otherwise have been required by this subdivision.

The new construction included mostly for-sale housing developments not subject to the replacement requirements. A minimum of 20% of the units developed in the Coastal Zone must also be affordable, in accordance with the Mello Act.

Table H-3.11: Coastal Zone Development (1982-2022)

Year	Units Constructed	Units Demolished	Net Gain
1988-2002	56	0	56
2003-2010	10	3	7
2010-2022	9	1	8
Total	75	4	71

Residential Development Standards

Three primary types of uses are allowed on private properties in unincorporated Marin County: 1) agricultural, 2) commercial, and 3) residential. Zoning regulations for each of these groups are outlined in Title 22 of the Marin County Code (the Development Code), which describes uses, design standards, and requirements.

The Marin County Development Code implements the Countywide Plan and Community Plans for the unincorporated areas outside of the Coastal Zone. Under the State housing density bonus laws, housing development projects with five or more units that provide affordable units can exceed the density of the zoning district as long as the project density falls within the density range established by with the Countywide Plan Community Development Element.

Zoning Districts

Two fundamental types of zoning districts apply in unincorporated Marin: conventional and planned.

Conventional Zoning

Conventional zoning districts have specific numerical subdivision and development standards, including minimum lot area, minimum setbacks, height limits, and floor area ratio limits. Provided a development project conforms to those standards, no discretionary development applications are required. For conventional zoning, a "B" district can be combined with the base zoning. This "B" district is intended to establish lot area, setback, height, and floor area ratio (FAR) requirements for new development that are different from those normally applied by the primary zoning district applicable to a site and to configure new development on existing lots, where desirable because of specific characteristics of the area.

Currently, no conventional zones permit multi-family (MF) housing. This restriction continues the current development pattern single-family housing as the predominant choice in the unincorporated County. According to the County's 2020 Multi-Family Land Use Policy and Zoning Study, only 10% of parcels in the unincorporated County are zoned for multi-family, compared to 72% zoned for single-family uses. This Housing Element addresses this constraint by proposing that the Zoning Code be amended to allow for a multi-family zone under the conventional zoning options. Also, a program has been added for the efficient use of multi-family land, which will establish minimum densities for multi-family and mixed use zones.

Planned Zoning

Planned districts allow more flexible site designs than do conventional districts, but all sites in these districts go through discretionary approval. Flexibility is permitted to enable house design and siting that respect natural site features. Planned districts do not have specific setback requirements or minimum lot areas to encourage clustering. Ultimate development potential is based on the maximum density allowable by the zoning district and Countywide Plan. Contrary to the land use control approach used in conventional zoning districts, planned districts have few specific numerical standards. Instead, they encourage development to be clustered in the areas most suitable for development on a given site to conserve a larger portion of that site in its natural state. No minimum lot areas are established for subdivisions in planned districts, but the number of lots allowed on a property is governed by a density standard specific to that district. As a result, subdivision applications in planned districts are likely to have smaller lot sizes, with a larger percentage of the original lot left as open space, compared to subdivisions in conventional districts where lot sizes are governed by the minimum lot areas applicable to that particular district. The distinction between conventional and planned zoning districts is most important in governing the subdivision and development of properties.

Table H-3.12 below shows a list of zoning designations for the conventional and planned zoning districts by land use type.

Table H-3.12: Marin County Conventional and Planned Zoning Districts

Land Use Category	Conventional Zoning Districts	Planned Zoning Districts
Primary Agriculture	A (Agriculture and Conservation)	C-ARZ (Coastal, Agricultural Production Zone)
Mixed Agriculture/Single	A2 (Agricultural, Limited)	ARP (Agricultural, Residential Planned)
Family		C-ARP (Coastal, Agricultural, Residential Planned)

Source: Marin County Municipal Code Chapter 22.10

Notes: *In RA, RR, RE, R1 and R2 districts, the minimum lot area and setback standards may change when such district is combined with a B district in compliance with the provisions of Section 22.14.050.

Special Purpose and Combining Zoning

The County has several special purpose and combining districts. The special purpose districts are for land uses that are unique in character or applicability. The combining districts are applied to property together with one of the other zoning districts to highlight important characteristics that require attention in project planning.

OA (Open Area) Zoning/Combining District

The OA zoning district is intended for areas of the County committed to open space uses, as well as environmental preservation. The OA zoning district is consistent with the Open Space, and Agriculture and Conservation land use categories of the Marin Countywide Plan.

PF (Public Facilities) Zoning/Combining District

The PF zoning/combining district is applied to land suitable for public facilities and public institutional uses, where a governmental, educational, or other institutional facility is the primary use of the site. The PF zoning district implements with the Public and Quasi-Public land use categories of the Marin Countywide Plan.

The PF district may be applied to property as a primary zoning district where the Board determines that the facility is sufficiently different from surrounding land uses to warrant a separate zoning district, and as a combining district where a publicly owned site accommodates land uses that are similar in scale, character, and activities to surrounding land uses.

B and BFC Combining Districts

The Minimum Lot Size "-B" combining district is intended to establish lot area, setback, height, and FAR requirements for new development that are different from those normally applied by the primary zoning district applicable to a site, and to configure new development on existing lots where desirable because of specific characteristics of the area. The Development Standards subsection below outlines those that specifically apply to properties with the "B" combining district.

As described in the County's Development Code, the Bayfront Conservation (BFC) Combining District is intended to: 1) prevent destruction or deterioration of habitat and environmental quality, 2) prevent further loss of public access to and enjoyment of the bayfront, 3) preserve or establish view corridors to the bayfront, 4) ensure that potential hazards associated with development do not endanger public health and safety, and 5) maintain options for further restoration of former tidal marshlands. The Development Code outlines the requirements for development applications in this district and includes environmental assessments and design guidelines.

Affordable Housing Combining District

The AH combining district allows affordable housing development at a density of 20 units per acre and offers development incentives on sites that are otherwise governed by a lower density zone. This approach allows compact development to occur on portions of parcels and encourages affordable housing over market rate housing on key sites. Table H-3.13 shows the current sites under this designation.

Table H-3.13: Affordable Housing Combining District Sites

Site Name	Acres by Parcel	Acres Total	Countywide Plan 2007	Zoning 2014	AH-Combining District*

Development Standards

The County Development Code includes standards for residential, mixed use, and agriculture residential development. These standards are in the tables below (see Table H-3.14, Table H-3.15, and Table H-3.16). Housing is encouraged in commercial districts in the unincorporated County. The Development Code contains standards for certain commercial districts and mixed-use standards for the Commercial Planned (CP), Retail Business (C1), Administrative Professional (AP), and Limited Roadside Business (H1) commercial districts. For lots larger than two acres, at least 50% of the new floor area must be developed with new housing. For lots smaller than two acres in size, at least 25% of the new floor area must be developed with housing. Residential density in those districts is a maximum of 30 units per acre. Unit sizes are restricted to a minimum of 220 square feet and a maximum of 1,000 square feet per unit to encourage more affordable housing types. However, this unit size limit may be restrictive for families with children. Housing should be accessory to the primary commercial use, except affordable housing. A program is being included in the Housing Element that will, at a minimum allow 100% residential use in mixed use zones and examine the allowable average unit size.

B-5	2 acres	30	20					Community Plan)
B-6	3 acres							i idii)

County of Marin Development Code, Revised Date: March 10, 2021

The current development standards may result in constraints in development, particularly related to density, building height, and the discretionary planning review process. Specifically, a 30-foot height limit may constrain the development of multifamily and mixed-use development at 30 units per acre.

The Objective Development and Design Standards (underway), design guidelines and accessory dwelling units will add additional development opportunities and flexibility in single-unit zones and additional opportunities for multifamily development.

Open Space and Lot Coverage Requirements

No minimum open space or maximum lot coverage standards apply to development projects in Marin County. However, in conformance with the Quimby Act, a parkland dedication of three acres for every 1,000 people in a project area is required for subdivisions or equivalent in-lieu fee is required. See further discussion in the Fees and Exactions section below.

Parking Standards

Marin County's parking standards are based on the type of residence and number of bedrooms. Table H-3.17 below outlines current parking requirements.

In December 2018, the Board of Supervisors adopted amendments to County parking standards to be in alignment with the Housing Element and Countywide Plan. Parking space requirements were reduced for residential uses across the board and reflected state regulations for affordable housing and other developments located near public transit, tandem parking for residential uses, increased requirements for bicycle parking and access, and the allowance for electric vehicle parking to count toward traditional parking space needs⁹.

⁹ Ordinance of the Marin County Board of Supervisors No. 3703, Revising Chapter 24.04, Division III, Parking and Loading to Align with Housing Element and Countywide Plan, December 18, 2018.

Table H-3.17: Parking Standards

Type of Residential Unit	Minimum Parking Spaces Required per Section 24.04.340
Detached Single Family and Duplex	2 spaces per unit
Studio units	1 space per unit plus one guest space per 5 dwelling units
One bedroom units	1.25 spaces per unit plus one guest space per 5 dwelling units
Two bedroom units	1.5 spaces per unit plus one guest space per 5 dwelling units
Three or more bedroom units	2 spaces per unit plus one guest space per 5 dwelling units

Source: Marin County Municipal Code, Section 24.04.340

Reductions in Residential Parking Standards

The standards in the table above may be reduced under the following circumstances:

Senior housing - The amount of parking required for senior housing (senior housing refers to age-restricted housing designated for and occupied by seniors and consistent with definitions in California Civil Code Section 51.2, 51.3, and 51.4) may be reduced by up to 50% of that required as the base standard, where deemed appropriate by the agency and where the applicant can demonstrate that a reduction is warranted based on the type of senior citizen housing proposed.

Housing overlay designation - The amount of parking required for projects in the housing overlay designation, as defined in the 2007 Marin Countywide Plan, may be reduced by up to 50% of that required as the base standard, where deemed appropriate by the agency and where the applicant can demonstrate that a reduction is warranted based on the type of housing proposed.

Since underground parking or mechanical parking can be cost prohibitive, the Development Code Amendment program in this Housing Element will reduce the County's parking requirements to match those allowed by state density bonus law.

Design Guidelines

The County has adopted design guidelines to establish clear and comprehensive guidelines for different types of development.

Single-Family Residential Design Guidelines

Adopted by the Board of Supervisors in July 2005, the Single-Family Design Guidelines apply to individual single-family residences, as well as multiple single-family residences that may be proposed as part of a larger project (e.g., Master Plan or Subdivision). The guidelines cover the following topics: the site design process, building envelopes and relationships between properties and streets, neighborhood compatibility, reduction of visual bulk, and green and universal building designs.

As stated in the document, "the Design Guidelines are particularly relevant to development proposals that are subject to the County's Design Review process by clarifying and reinforcing the public policy objectives articulated in the Design Review findings of the Marin County Development Code. The guidelines provide visual instructions and examples of the development requirements, including grading, site lines, building envelopes, etc. At the same time, the guidelines "should not hinder creative efforts and should be applied in a reasonably flexible manner as circumstances warrant". While the guidelines apply to all single-family homes, they encourage flexible outcomes on case-by-case basis.

Marin County's Single-Family Residential Design Guidelines have had a demonstrable impact in the design review process. They assist applicants in planning site and architectural design, increase design certainty, and help minimize design revisions. These guidelines are flexible and are available on the Community Development Agency's website.

Multi-Family Residential Design Guidelines

Adopted by the Board of Supervisors in December 2013, the Multi-Family Residential Development Guidelines are intended to assist project applicants during the project design phase and County staff and decision makers in the review and approval process. While the guidelines are not objective and cannot be enforced, they do provide design criteria to assist in decision-making.

The document has several "place-based guidelines" to address the various development environments in the County, including rural towns, residential neighborhoods and mixed-use corridor/town centers. These different place-based guidelines provide for flexibility. Design principles in the document include sustainability, livability and providing a mix of housing for the County's workforce, seniors, low-wage earners and disabled residents. The guidelines also aim to "reduce

the potential cost of the County's development review process for projects that provide homes for people from a broad range of socioeconomic backgrounds".

Objective Design and Development Standards

The Objective Design and Development Standards, or Form-Based Code (FBC), which will be adopted by the end of 2022, will implement the Marin County Countywide Plan for ministerial projects and projects permitted by right or that fall under the SB 35 streamlined ministerial approval process. The FBC applies a context-sensitive approach to Marin County utilizing the following context types: Natural, Walkable, and Auto-Oriented Suburban. These contexts are further broken down into three types of areas: areas at or near the core, suburban areas, and areas at the edge of the community. The FBC zones will provide flexibility in design standards in these areas.

For applicable projects, the FBC will be combined with the Municipal Code for a hybrid approach to development. The FBC places an emphasis on form and architectural style and allows a range of uses carefully chosen to maximize compatibility between uses. The FBC provides information on allowable building types in each form-based zone and includes provisions for privacy standards, parking, building materials, a fenestration.

The FBC is intended to remove constraints by providing objective design standards for the streamlined review of housing developments and to provide the objective standards required by the Housing Accountability Act, SB 35, and other state housing laws.

Local Ordinances

The following section examines local ordinances related to housing that have been adopted by the County. The Board of Supervisors adopted Ordinance 3745 in January 2021 that included updates and revisions to the County's Density Bonus provisions. These included changes to achieve consistency with the State's Density Bonus Law, including incentives and concessions, waivers and reductions of development standards, and reduced parking requirements.

Density Bonus

The County Board of Supervisors adopted an ordinance in 2021 that was consistent with state density bonus law at that time. However, since then, there have been some additional statutory changes. This Housing Element includes a program for the County's Density Bonus ordinance to be amended to be consistent with state law.

The current density bonus provisions outlined in Section 22.24.030 of the County Development Code are calculated as follows:

- 1. A housing development project is eligible for a 20% density bonus if the applicant seeks and agrees to construct any one of the following:
 - a. 10% of the units at affordable rent or affordable ownership cost for low income households;
 - b. 5% of the units at affordable rent or affordable ownership cost for very low income households; or
 - c. A senior citizen housing development of 35 units or more as defined in Section 51.3 of the Civil Code.
- 2. The density bonus for which the housing development project is eligible shall increase if the percentage of units affordable to very low, low, and moderate income households exceeds the base percentages established in California Government Code Section 65915(f).
- 3. For an affordable housing development project in which at least 80% of the units are for lower income households with any remainder for moderate income households, the following shall apply:
 - a. The maximum density bonus for which the affordable housing project is eligible shall increase up to 80%, subject to the findings included in Section 22.24.030.E (Review of application).
 - b. If the project is located within one-half mile walking distance of a major transit stop, as defined in subdivision (b) of Section 21155 of the Public Resources Code: (1) The project shall receive a height increase of up to three additional stories, or 33 feet; and (2) The project shall be exempt from any maximum controls on density.
 - If the project is located within a one-half mile walking distance or farther of a major transit stop and receives a waiver from any maximum controls on density, the project shall not be eligible for, and shall not receive, a waiver or reduction of development standards other than density, parking, and height requirements.
- 4. A housing development in which units are for sale where at least 10% of the total dwelling units are reserved for persons and families of moderate income, provided that all units in the development are offered to the public for purchase, shall be eligible for a density bonus based on the percentage of moderate income units shown in the sliding scale provided in Government Code Section 65915(f)(4).
- 5. Density bonuses may also be granted for childcare facilities and land donation in excess of that required by Chapter 22.22 (Affordable Housing Regulations), pursuant to Government Code Sections 65915(g), 65915(h) and 65915(i).

Parking Standards

Pursuant to Government Code Section 65915(p), an applicant for a housing development project that is eligible for a density bonus pursuant to Section 22.24.020may request that on-site vehicular parking ratios, inclusive of accessible and guest parking not exceed the following standards:

- 1. For zero to one bedroom dwelling units: One on-site parking space
- 2. For two to three bedrooms dwelling units: Two on-site parking spaces
- 3. For four or more bedrooms dwelling units: 2.5 on-site parking spaces
- 4. On-site parking may include tandem and uncovered parking

Additional parking provisions for projects located near transit or consisting solely of rental units are outlined in the density bonus provisions of the Development Code.

Inclusionary Housing

Marin County has had an inclusionary housing requirement since 1980. Section 22.22.090 of the Development Code requires that residential subdivisions provide 20% of the total units or lots for Lower income housing. A fee may be required in addition to inclusionary units or lots in cases where the inclusionary requirement includes a decimal fraction or a unit or lot or when a combination of both inclusionary units and in-lieu fees is required. Mixed-use developments proposing residential units are required to pay a Jobs/Housing linkage fee for the non-residential component. All inclusionary units must be income restricted in perpetuity. Units should be provided within the development, although the ordinance allows for flexibility; the review authority may grant a waiver if the alternative proposal demonstrates a better means of serving the County in achieving its affordable housing goals than the requirements. Waiver options may be units constructed off-site, real property may be dedicated, or 125% of the in-lieu fee may be paid. Further information about the in-lieu fee is provided in the Fees and Exactions section of this chapter

In response to the Governor's approval of AB 1505 (2017), which renewed the County's authority to extend its inclusionary zoning policy to rental housing units, the Board adopted an amendment to its Development Code to renew that application of its inclusionary zoning policy to the rental housing development projects.

To address potential constraints of an Inclusion Housing Policy on the development of new housing, the County and six partnering jurisdictions facilitated three developer forums. Two at the beginning of the study process to identify potential challenges to consider in the study process and one following the completion of the study to evaluate potential policy design. Input from the first two forums found that the inclusionary programs have not resulted in significant production of new affordable units in part

because of the complexity of residential development in the county. The policy constraints identified by developers include:

- 1. Policy variation: Each jurisdiction has a different policy, many without.
- 2. **Affordability price targets vs. ranges:** Current policy relies on ranges with discretionary review.
- 3. Breaks by project size: many existing policies apply the same affordability levels and percentages on all projects. Housing development would benefit by tiering affordability by project size.
- 4. **For-sale policy:** Current policies set affordability levels too low and it is very difficult to find buyers who qualify for affordable units.
- 5. Alignment with State Density Bonus: many existing policies do not align with state density bonus, which adds additional challenges to navigate.

To address these constraints, the participating jurisdictions met and developed common policy elements. These elements include:

Homeowner housing -

- Consistent set-aside and in-lieu fee across jurisdictions
- Specific price targets based on AMI category
- Alignment and flexibility to comply with State Density Bonus law
- Varied inclusionary requirements based on project size

Rental housing -

- Consistent set-aside and in-lieu fee across jurisdictions
- Alignment and flexibility to comply with State Density Bonus law
- Developer selected menu of options for affordable rental housing

Commercial Linkage Fees

The Commercial Linkage Fee study includes a section compliant with AB 602 that addresses concerns and constraints around the existing level of service for facilities, proposed new levels of service, and explains why the new level of service is appropriate. The section includes support for an increase to the existing fee and assesses the assumptions of the former study.

Short-Term Rentals

The Marin County Board of Supervisors first adopted short term rental (STR) regulations in 2018, requiring operators to obtain both a Business License and Transient

Occupancy Tax Certificate, and establishing "Good Neighbor" Policies to alleviate the impacts of Short-Term Rentals on surrounding communities. Currently, there are approximately 873 registered residential STRs, with over 70% of those located in West Marin. There are only 5,263 residentially developed properties in this area. Over 11% of the residentially developed properties are used as STRs in West Marin, while less than 1% of residentially developed properties are used as STRs in the eastern portion of the County. In addition, only 2,239 of the approximately 5,263 developed lots in the West Marin area receive the Primary Home Tax Exemption, indicating that over half of the developed properties in West Marin may not be in use as full-time homes. While all are not currently operating as STRs, the flexibility and the income generated by STRs, where nightly rates can range up to over \$1,000/night, in comparison to that earned with a long-term rental is likely an incentive for property owners to seek STR use serving visitors rather than traditional rental housing for a community of residents. This condition has led to growing concerns in West Marin communities about impacts of STRs on the availability of housing for workforce, families, and community members.

With housing supply, community workforce, and public safety as motivators, the Board adopted a two-year moratorium, ending May 23, 2024, on new STRs in the West Marin Area (also known as the Measure W Tax Area). Over the next two years, County staff will work to update the County's Short Term Rental Ordinance to improve the availability of middle- and lower-income housing in the West Marin Area, while maintaining existing coastal access. These programs will not impact the development of residential development, instead they are preventing the conversion of residential uses to commercial uses.

Urban Growth Limits

The County does not have any Urban Growth Limits or growth control policies that place a numerical limit on housing development. Policies in the 2007 Countywide Plan which have been identified as possible barriers to residential development, especially multi-unit, are being deleted and or amended. Specifically, the County will:

- Revise the Housing Overlay District as a form-based code to streamline multifamily housing development.
- Provide for ministerial review of projects that meet the requirements of the form-based code and include 20% lower income.
- Provide for by-right zoning on sites identified in past housing elements that are designated for lower income housing.
- Amend the Countywide Plan and Zoning Code to increase densities on opportunity sites identified in the Housing Element and for low income sites have a minimum of 20 units per acre.

Provision for a Variety of Housing Types

Development opportunities for a variety of housing types promote diversity in housing price, designs, and sizes, and contribute to neighborhood stability. Marin County's Development Code accommodates a variety of housing types, including single-unit, two-units and multi-units, accessory dwelling units, single room occupancy, manufactured housing, supportive housing, housing for agricultural workers, transitional housing, and emergency shelters. Table H-3.18 through Table H-3.20 show which housing types are permitted in the different residential, commercial, and agricultural zones. These uses are all discussed below.

⁽¹⁾ Only dwellings for teachers or custodial staff, or dwellings clearly accessory to the primary use of the site for agricultural purposes are allowed.

(2) Housing is permitted in combined districts that allow housing, such as PF-RSP, PF-RMP, and PF-ARP. Single-family, two-family, and multi-family dwellings are principally permitted only on the Countywide Plan's Housing Overlay Designation sites.

Single-family Dwelling Units

Single-family residential uses are permitted in all residential zones, with the exception of the mobile home park zone (RX). Single-family uses are permitted or conditionally permitted in most of the mixed-use/commercial and agricultural zones. According to the Marin County Community Development Agency's 2020 *Multi-Family Land Use Policy and Zoning Study*, approximately 72% of parcels in the unincorporated County are zoned with a primary single-family zoning type. To promote the development of needed multi-family development in the County, this Element proposes the following program:

Efficient Use of Multi-Family Land: Establish density minimums. This will ensure efficient use of the County's multi-family land and prohibit the construction of new single-family homes on multi-family land. Existing single-family homes on multi-family land can remain (as legal nonconforming use). However, rebuilding or expansion of the existing single-family home would only be permitted if the expansion does not exceed more than 25% of the value of the home or rebuilding due to damage sustained during disasters or fires.

Multi-Family Dwellings

Multi-family dwellings as the primary use are permitted in the RMP and C-RMP zones. Two-family dwellings are also permitted in the R2 and C-R2 zoning categories. As described in the County's Multi-Family Land Use Policy and Zoning Study, "the number of properties zoned to allow duplex (two-family), multi-family, or mixed business/institutional land uses are significantly less than the number of properties that allow for single-family use." The study found that only 10% of parcels in the unincorporated area are zoned for primarily multi-family uses and less than one percent are zoned for two-family dwellings. As part of this Housing Element update, the County has identified areas to rezone for multi-family residential uses. Please refer to the Conventional Zoning section earlier in this chapter regarding programs proposed in this Element regarding multi-family housing.

While increasing residential densities in some locations may be feasible, several environmental and infrastructure constraints may make this a challenge in other areas. The infrastructure section of this chapter looks at potential constraints and potential ways to help continue to permit affordable housing in the unincorporated County.

Commercial/Mixed-Use Development

As shown in Table H-3.19, a variety of mixed-use zoning designations allows for different housing options, including multi-family housing, in the business areas. The residential uses are allowed with a conditional use permit or part of a planned development. Projects allowed by-right included as part of this Housing Element will be subject to the new ODDS.

Accessory Dwelling Units/Junior Accessory Dwelling Units

Accessory Dwelling Units (ADUs) are independent housing units that are either detached or attached to an existing single-family residence. Due to their relatively small size and location on currently developed property, they may be affordable by design. ADUs can provide housing options for family members, seniors, students, and other small household types.

The State legislature has passed a series of bills aimed at encouraging the development of ADUs. These bills have required jurisdictions to adopt regulations to facilitate their production and streamline their approval. Marin County has adopted Development Code amendments to comply with State law, with the most recent ordinance (No. 3745) being adopted by the Board of Supervisors in January 2021. This ordinance established four categories of ADUs, each with different standards. The following provisions apply to all four categories:

- Only one ADU is allowed on a lot restricted to single-family residential development.
- An ADU may be rented but shall not be sold or otherwise conveyed separately form the primary dwelling unit.
- ADUs can only be rented for terms longer than 30 consecutive days.
- Parking standards: 1 space for a studio or one-bedroom unit and 2 spaces for a two- or more bedroom unit.

The Development Code includes provisions for Junior ADUs (JADUs), which are defined as units no larger than 500 square feet. JADUs may have a kitchenette but not a full kitchen, and there must be a separate entrance from the main entrance to the building. No minimum parking spaces are required for JADUs.

ADUs are allowable in any zoning district where primary residences are allowable. No discretionary review of ADUs or JADUs are required outside of the coastal zone. There are four categories of ADUs in unincorporated Marin County, each with different standards that apply. Category 4 ADUs are ADUs that require coastal permits and compliance with all applicable zoning requirements including Master Plan criteria and discretionary review. Categories 2 and 3 do not require discretionary review but do require an ADU permit. When creating an ADU in the coastal zone requires a Coastal Permit, it can usually be issued administratively with no public hearing. However, if the project involves unrelated development that independently requires a Coastal Permit or a change from an agricultural or commercial use to a residential ADU, then a public hearing will be required.

Marin County has seen an increase in ADU development in recent years. Since 2018, the County has issued 119 building permits for ADUs:

- 2018 15 building permits issued
- 2019 37 building permits issued
- 2020 32 building permits issued
- 2021 35 building permits issued

On May 25, 2021, the Board of Supervisors approved an extension to the Accessory Dwelling Unit Fee Waiver Program, which offers property owners fee waivers for the development of ADUs in unincorporated Marin County. This program offers a tiered fee waiver structure to support the development of additional affordable rental housing stock by further incentivizing the development of second units that are rented to low and moderate income households. The waiver program is in place through December 31, 2023. The fees waived may include Community Development Agency fees such as planning, building and safety, and environmental health services, and Department of Public Works fees such as traffic mitigation. Additional information about the waiver program is available on the County's website.

As part of the SB2 grant program, a partnership was established between ten cities and towns and the County called "ADU Marin". This partnership aims to promote the development of ADUs and includes a variety of information sources on the County website (https://adumarin.org), including interactive workbooks and webinars to assist interested property owners through all aspects of the ADU process.

This Housing Element includes a program to facilitate the development of ADUs and monitor the trend of development.

Agricultural Worker and Employee Housing

As discussed in the Needs Assessment chapter of this element, Marin County's agricultural history remains a strong value and source of pride, particularly in the Coastal and Inland Rural Corridors. According to the United States Department of Agriculture (USDA), Marin County farms and ranches encompass approximately 140,075 acres, or about 41% of the County's total land area; land in farms decreased by 18% from 2012 to 2017. Rural west Marin has an economic base of cattle ranches, dairies, organic vegetable farms, poultry, mariculture, and tourism. Of the 343 agricultural operations in Marin County, the majority are third- to fifth-generation family-

¹⁰ 2017 Census of Agriculture Marin County Profile,

owned farms and are not large by California standards, with an average size of 408 acres.

Agricultural workers are significantly impacted by the high cost of living in Marin County, especially housing costs that are influenced by vacation rentals and high-end tourism. To promote a vibrant and economically sound agriculture base as part of Marin County's future, quality affordable housing for agricultural workers and their families is needed.

Almost all agriculturally zoned land in Marin County is located within unincorporated County areas, so presumably the data available on the agricultural worker population in the County are representative of the unincorporated County. The 2017 USDA Census reported that in Marin County, 1,274 persons were hired farmworkers, which accounts for less than one percent of the Marin County workforce.¹¹

Distinct from other agricultural regions of the State, much of the County's agricultural production primarily requires a year-round, permanent workforce. As a result, the County does not experience a significant influx of seasonal workers during peak harvest times.

As stated in the Development Code, agricultural worker housing providing accommodations for 12 or fewer employees is considered a principally permitted agricultural land use in the following zoning districts: A2, A3 to A60, ARP, C-ARP, O-A, and C-OA, and are allowed by Articles II (Zoning Districts and Allowable Land Uses) and V (Coastal Zone Development and Resource Management Standards). Any temporary mobile home not on a permanent foundation and used as living quarters for seven to 12 agricultural workers is permitted subject to the requirements of the State Department of Housing and Community Development. Any temporary mobile home providing living quarters for six or fewer agricultural workers requires Use Permit approval and is counted as one dwelling unit for purposes of compliance with the zoning district's density limitations. These provisions are not consistent with the State Employee Housing Act (Section 17021.6 of the Health and Safety Code), which specifies the following:

"Any employee housing consisting of no more than 36 beds in a group quarter or 12 units or spaces designed for use by a single family or household shall be deemed an agricultural land use for the purposes of this section. For the purpose of all local ordinances, employee housing shall not be deemed a use that implies that the employee housing is an activity that differs in any other way from an agricultural use. No conditional use permit, zoning variance, or other zoning clearance shall be required of this employee housing that is not required of any other agricultural activity in the same zone. The permitted occupancy in employee

¹¹ Civilian employed population 16 years and over. American Community Survey Five-Year Estimates, 2015-2019. Table S2403.

housing in a zone allowing agricultural uses shall include agricultural employees who do not work on the property where the employee housing is located."

The Employee Housing Act also requires that employee housing serving six or fewer workers must be treated like a dwelling serving one family or household and permitted in all zones that permit residences. Zones permitting residences must also permit employee housing serving up to six employees.

This Housing Element Plan chapter includes a program for the County to develop strategies for addressing farmworker housing. The County will amend the Development Code to comply with the State Employee Housing Act for agricultural workers and employees.

The County acquired the U.S. Coast Guard Facility in the fall of 2019. Located in Point Reyes Station, the 32-acre site contains 36 multi-bedroom housing units and other community facilities. The renovation of the site will be accomplished by two nonprofit housing agencies, the Community Land Trust Association of West Marin and Eden Housing. The project will convert the existing housing to affordable housing, including housing for agricultural workers and their families.

In 2020, CDA staff began exploring the possible development of Agricultural Worker Housing on a County-owned site in Nicasio. As of early 2022, a Phase I study and biological assessment had been conducted to help determine suitability for a 16-unit lower income residential development.

CDA staff convenes the Agricultural Worker Housing Collaborative, including the Marin Community Foundation, the Community Land Trust of West Marin, Marin Agricultural Land Trust, UC Cooperative Extension, West Marin Community Services, local ranchers, and ranch workers to address the needs of agricultural worker housing. The Agricultural Worker Housing Collaborate is expanding to include agricultural workers and their families, as well as representatives of the Park Service, the collaborative will continue its work to expand housing choices and quality of, housing for agricultural workers and their families.

See "Housing in the Coastal Zone" for additional information on agricultural worker housing.

Mobile Home Parks and Manufactured Homes

Mobile homes make up approximately 2% of the housing stock in County areas. The Residential, Mobile Home Park (RX) zoning designation permits mobile homes and mobile home parks. Both mobile homes and mobile home parks can be part of a master plan in the C-CP and C-RCR zones. Mobile home parks are conditionally permitted in the R2, RMP, and C-ARP zones. Three mobile home parks exist in unincorporated Marin

County as of 2022: Dillon Beach Resort Trailer Court (25 units)¹², Novato RV Park (82 units) and Forest Knolls Trailer Courts (20 units).

Manufactured homes installed on permanent foundation and meeting State standards are considered single-family homes and permitted as single-family uses.

Group Homes (Six or Fewer and Seven or more residents), Medical Services – Extended Care and Residential Care Facilities

The following definitions are from the Marin County Development Code:

Group Homes:

This land use consists of a dwelling unit licensed or supervised by any Federal, State, or local health/welfare agency which provides 24-hour nonmedical care of unrelated persons who are in need of personal services, supervision, or assistance essential for sustaining the activities of daily living or for the protection of the individual in a family-like environment. Includes: children's homes; rehabilitation centers; self-help group homes. Medical care may be provided in conjunction with group homes that provide alcoholism or drug abuse recovery or treatment services. Convalescent homes, nursing homes and similar facilities providing medical care are included under the definition of "Medical Services - Extended Care."

Medical services – Extended Care:

This land use consists of the provision of nursing and health-related care as a principal use, with in-patient beds. This land use includes: convalescent and rest homes; extended care facilities; and skilled nursing facilities that are licensed or supervised by any Federal, State, or local health/welfare agency. Long-term personal care facilities that do not emphasize medical treatment are included under "Residential Care Facilities," and "Group Homes."

Residential care facility:

This land use consists of a dwelling unit licensed or supervised by any Federal, State, or local health/welfare agency which provides 24-hour nonmedical care of unrelated persons who are disabled and in need of personal services, supervision, or assistance essential for sustaining the activities of daily living or for the protection of the individual in a family-like environment. This land use includes licensed senior care facilities. For purposes of calculating residential densities, a unit that contains a food preparation area is not counted as a separate residential unit if meal service is provided at least twice a day as part of the residential care component.

¹² These units are not permanent housing units. They are used as nightly hotel rooms.

Small group homes (six or fewer residents) and residential care facilities are permitted in all residential zones. Large group homes (seven or more residents) may apply for a conditional use permit in <u>all</u> residential zoning districts including in the coastal area of these zones. The 2023-2031 Housing Element includes a program to evaluate the CUP findings required for large group residential care facilities, and to amend the provisions if found to be a constraint.

According to the California Department of Social Services (CDSS) website, one adult residential facility is licensed in the unincorporated County. Cedars of Marin in Ross provides residential and day programs for people with developmental disabilities. The facility is licensed for 55 beds. In terms of assisted living facilities, the unincorporated County has one small and two large facilities, including Windchime of Marin in Kentfield. This 55-bed facility serves those with dementia or related illnesses. Lastly, the Tamalpais Retirement Community located in Greenbrae is a 341-person continuing care retirement community. It should be noted that the CDSS website has many more licensed residential care and assisted living facilities located in incorporated cities within Marin County.

Single Room Occupancy (SRO)

Single room occupancy units are typically small one-room units that may have shared kitchen or bathroom facilities. In Marin County, SROs are permitted in the RMP residential zone district as well as the following commercial/mixed-use districts: RMPC, AP, OP, and H1. In the C-CP and C-RCR zones, SROs are permitted when part of a master plan. Design review is required for an SRO permit and SROs are also subject to the Multi Family Design Guidelines. Per the Development Code, the density for SROs may be no more than 30 dwelling units per acre, and all rents must be affordable to households with income qualifying as low, very low, or extremely low income (Marin County Development Code Chapter 22.22 and 22.24).

Transitional and Supportive Housing

Transitional housing is a type of supportive housing used to facilitate the movement of individuals and families experiencing homelessness to permanent housing. Typically, supportive housing is permanent housing linked with social services. Marin County treats transitional and supportive housing in the same manner as any other residential use and does not require supportive and transitional housing to obtain any additional types of permits and approvals other than those required of any other residential development. Residential uses, including transitional and supportive housing, are permitted in the following zones: Agricultural and Resource-Related Districts, Single-Family Districts, Multi-Family Districts, Commercial Districts and Planned Office Districts. However, transitional and supportive housing is not specifically identified in the coastal

area of these zones (C-RA, C-R1, C-R2, C-RSP, C-RMP, C-VCR, C-RMPC, C-CP, C-RCR, and C-APR). This Housing Element includes an action to allow transitional and supportive housing in the Coastal Zone.

In accordance with State law (Chapter 633 of Statutes 2007, SB 2), transitional and supportive housing are considered residential uses of property and are subject only to those restrictions that apply to other residential dwellings of the same type in the same zone. In 2018, the State legislature adopted new requirements (AB 2162) which mandate jurisdictions to permit supportive housing developments of 50 units or fewer, meeting certain requirements, by right in zones where mixed-use and multi-family development is permitted. Additionally, parking requirements are prohibited for supportive housing developments within one half mile of a transit stop. The County will comply with state law in reviewing any proposed facility and will amend the Development Code in compliance with these provisions.

Emergency Shelters and Low Barrier Navigation Centers

An emergency shelter is a facility that provides shelter to homeless families and/or individuals on a limited short-term basis. In accordance with SB2 (2007), Marin County amended the Development Code in 2012 to 1) accommodate the permitting of emergency homeless shelters within Planned Commercial (CP) and Retail Business (C1) districts and 2) establish standards in Section 22.32.095 to allow the approval of homeless shelters as a use through a ministerial action by the Agency Director. C1 and CP zones also permit affordable housing, as well as transitional and supportive housing.

Shelters are subject to the same development and management standards as other residential or commercial uses within the zone.

The following are current standards in Section 22.32.095 of the Development Code:

- 1. A homeless shelter shall not provide more than a maximum of 40 beds or serve more than 40 persons total.
- 2. The number of parking spaces required on-site for residents shall be based on 25% of the total beds and staff parking shall be the total number of beds divided by ten.
- Shelters shall provide five square feet of interior waiting and client intake space per bed. Waiting and intake areas may be used for other purposes as needed during operations of the shelter.
- 4. Management. On-site management must be provided during hours of operation.
- 5. Proximity to other emergency shelters. Emergency shelters shall be at least 300 feet apart, but will not be required to be more than 300 feet apart.

6. Maximum length of stay. Maximum of six months.

AB 139, adopted by the State legislature in 2019, limits the standards that local jurisdictions may apply to emergency shelters. Per AB 139, cities and counties may set forth standards regulating: the maximum number of beds; the size and location of onsite waiting and intake areas; the provision of onsite management; proximity to other emergency shelters, provided that shelters are not required to be more than 300 feet apart; length of stay; lighting; and security during hours of operation. Additionally, a city or county may only require off-street parking to accommodate shelter staff, provided that these standards do not require more parking than what is required for other residential or commercial uses in the same zone. The Housing Element Development Code amendment program will review the emergency shelter provisions to ensure they are consistent with these provisions. Parking standards are part of the Municipal Code Title 24 and will need to be amended separately.

The 2019 Point-in-Time Count of the homeless population estimated that 172 unsheltered homeless are residing in the unincorporated areas. Based on the County's maximum shelter size (40 beds), a minimum of five shelters will be required to accommodate the unsheltered homeless population. Overall, 122 parcels in the unincorporated areas comprise about 98 acres of land designated for Planned Commercial (CP) and Retail Business (C1) uses. Within the CP zoning district, the average lot size is 0.80 acre. A land use analysis found that CP is the most feasible district given the adjacent uses, proximity to transit, general location, and status of available land. Specifically, the majority of the CP zoned properties are located along transportation corridors (such as Highway 101 and Tiburon Boulevard) in urbanized areas of the unincorporated county. There is realistic potential for redevelopment or reuse within the C1 and CP zones as there are both vacant and underutilized parcels. There are 20 vacant parcels (three parcels in C1 and 17 parcels in CP zone). The vacant C1 properties total 0.9 acre, ranging in size from 0.18 acre to 0.44 acre. To accommodate 172 unhoused persons, at approximately 200 square feet per person, as established in AB 2339, requires a total of 0.8 acre. The vacant land available totals approximately 4 acres, and, except for the 0.1 acre that may be too small to accommodate a shelter, all vacant properties are of reasonable size for shelter development. They are also located in areas that are suitable for residential use. Specifically, 13 of the vacant parcels are on lots adjoining existing residential areas and six are in commercial areas. In addition, six parcels in the CP zone are developed as single-family residential use that may be considered underutilized. Also adopted in 2019, AB 101 (Government Code Sections 65660 et seg.) requires counties to permit Low Barrier Navigation Centers by right in areas zoned for mixed-use and nonresidential zones that permit multi-family uses if the center meets certain requirements. AB 101 defines a Low Barrier Navigation Center as "a Housing First, low-barrier, serviceenriched shelter focused on moving people into permanent housing that provides temporary living facilities while case managers connect individuals experiencing homelessness to income, public benefits, health services, shelter, and housing." AB 101 is effective through the end of 2026, at which point its provisions may be repealed. This Housing Element includes a program to update the County's Development Code to comply with AB 101. The County has taken several steps to implement a "housing first" approach to homelessness. Marin County has partnered with Homeward Bound of Marin and the Marin Community Foundation to transform the Mill Street Emergency Shelter in San Rafael into a Housing-Focused Shelter. This includes hiring a new housing-focused case manager to help all clients with individual housing plans. The Housing and Federal Grants Division participates as a voting member in bimonthly Homeless Policy Steering Committee (HPSC) meetings. Staff also participate in Opening Doors, an organization with a focus on solving chronic homelessness. In 2020, local match funds of \$2,395,000 were used to leverage \$9,214,948 in State Homekey 1.0 funding to acquire a former motel and commercial building to create 63 units of interim housing which will be converted to permanent supportive housing with wraparound services earmarked for individual who have recently experienced homelessness. The County is partnering with Episcopal Community Services (ECS) for Project Homekey 2.0. The potential site, located at 1251 S. Eliseo in the City of Larkspur, is a former skilled nursing facility that could create 43 to 50 new permanent homes with wraparound supportive services. The Project Homekey 2.0 funds were awarded by the State on February 10, 2022. The Marin Homeless Outreach Team (HOT) is an effort of local public and non-profit entities to assist those in greatest need to access permanent housing. HOT has two parts: case management and case conferencing. Case conferencing is a biweekly meeting of HOT partners to address system barriers preventing clients from accessing permanent housing. The Marin County website has information, resources and contact related to homeless services.

Housing in the Coastal Zone

In August 2021, the County's LCP was updated to include many new and improved policies and code provisions. The following policies were adopted as part of the LCP update to address affordable housing within the coastal zone:

Policy C-HS-1 Protection of Existing Affordable Housing.

Continue to protect and provide affordable housing opportunities for very low, low, and moderate income households. Prohibit demolition of existing deed restricted very low, low, and moderate income housing except when:

1. Demolition is necessary for health and safety reasons; or

- 2. Costs of rehabilitation would be prohibitively expensive and impact affordability of homes for very low, low, and moderate income households; and
- 3. Units to be demolished are replaced on a one-for-one basis with units of comparable rental value on site or within the immediate Coastal Zone area.

Policy C-HS-2 Density for Affordable Housing.

Allow the maximum range of density for deed-restricted housing developments that are affordable to extremely low, very low, or low income households and that have access to adequate water and sewer services.

Policy C-HS-3 Affordable Housing Requirement.

Require residential developments in the Coastal Zone consisting of two or more units to provide 20% of the total number of units to be affordable by households of very low or low income or a proportional "in-lieu" fee to increase affordable housing construction.

Policy C-HS-4 Retention of Small Lot Zoning.

Preserve small lot zoning (6,000 – 10,000 square feet) in Tomales, Point Reyes Station, and Olema for the purposes of providing housing opportunities at less expense than available in large-lot zones.

Policy C-HS-5 Second Units.

Consistent with the requirements of California Government Code Section 65852.2 and this LCP, continue to enable construction of well-designed second units in both new and existing residential neighborhoods as an important way to provide workforce and special needs housing. Ensure that adequate services and resources, such as water supply and sewage disposal, are available consistent with Policy C-PFS-1 Adequate Services.

Policy C-HS-6 Regulate Short-Term Rental of Primary or Second Units.

Regulate the use of residential housing for short term vacation rentals.

Program C-HS-6.a Vacation Rental Ordinance

- 1. Work with community groups to develop an ordinance regulating short-term vacation rentals.
- Research and report to the Board of Supervisors on the feasibility of such an ordinance, options for enforcement, estimated program cost to the County, and the legal framework associated with rental properties.

Policy C-HS-7 Williamson Act Modifications to the Development Code.

Allow farm owners in a designated agricultural preserve to subdivide up to 5 acres of the preserved land for sale or lease to a nonprofit organization, a city, a county, a housing authority, or a state agency in order to facilitate the development and provision of agricultural worker housing. Section 51230.2 of the Williamson Act requires that the parcel to be sold or leased must be contiguous to one or more parcels that allow residential uses and developed with existing residential, commercial, or industrial uses. The parcel to be sold or leased shall be subject to a deed restriction that limits the use of the parcel to agricultural laborer housing facilities for not less than 30 years. That deed restriction shall also require that parcel to be merged with the parcel from which it was subdivided when the parcel ceases to be used for agricultural laborer housing.

Policy C-HS-8 Development of Agricultural Worker Housing Units in Agricultural Zones.

Support policy changes that promote development of agricultural worker units in agricultural zones.

Program C-HS-8.a Administrative Review for Agricultural Worker Housing Units.

Establish an administrative Coastal Permit review process for applications for agricultural worker units in order to expedite the permitting process and facilitate development of legal agricultural worker units.

Policy C-HS-9 Density Bonuses.

Provide density bonuses for affordable housing in the Coastal Zone consistent with Government Code Section 65915 and Coastal Act Section 30604(f), to the extent that such increases in density are consistent with the provisions of the LCP.

Processing and Development Permit Procedures

Types of Planning Applications

Marin County's planning permit review process includes three categories of applications: ministerial projects, projects subject to administrative or quasi-judicial approvals, and projects that require legislative action.

Ministerial Actions

Ministerial actions are taken by planning and building and safety division staff for projects that involve the imposition of predetermined and objective criteria. Ministerial actions taken by planning staff include approvals of accessory dwelling units, daycare facilities, and homeless shelters. Ministerial actions also apply to projects that are eligible for review under SB 35 (Gov't Code Section 65913.4) and SB 9 (Gov't Code §§ 65852.21 and 66411.7) provisions.¹³ Building and safety division staff issue building

¹³ SB 35 - Marin County is subject to e subject to the streamlined ministerial approval process (Chapter 366, Statutes of 2017) streamlining) for proposed developments with at least 50% affordability. The proposed development must be on an infill site and comply with existing residential and mixed use zoning. Source: www.hcd.ca.gov
Senate Bill (SB) 9 (Chapter 162, Statutes of 2021) requires ministerial approval of a housing development with no more than two primary units in a single-family zone, the subdivision of a parcel in a single-family zone into two

permits. Ministerial actions are by far the most common type of decision made by the County and are a routine part of development throughout the State. Ministerial actions are the most cost-effective means for regulating land use and development at the County's disposal and provide developers with high levels of certainty because the standards applied are clear and objective. Ministerial permits are not subject to CEQA or to appeal.

Administrative (Quasi-Judicial) Actions

Administrative, or quasi-judicial, actions are decisions on planning permits that involve the application of preexisting laws and standards to a specific project and may be taken by planning staff, the Planning Commission, or the Board of Supervisors. Discretionary planning permits are far more common than legislative actions and are required for projects that vary considerably in their size and complexity. Permit processing requires an evaluation of an application based on substantial evidence in the record and approvals can only be issued for projects that meet predetermined findings related to the County's policies, regulations, and guidelines. Under the Housing Accountability Act, if a housing development project complies with all objective standards, it may only be denied or the density reduced if the project would cause a "specific, adverse impact," based on adopted health and safety standards, that cannot be mitigated. For certain types of applications, including use permits and tentative maps, public hearings are required by State law. Provided an application is categorically exempt from CEQA, a decision will be issued within three months of the date that a complete application is submitted. If environmental review is required for the project, a negative declaration will normally take an additional six months and an environmental impact report (EIR) will normally take an additional year. Quasi-judicial planning permits may be appealed to the Planning Commission and subsequently to the Board of Supervisors.

Legislative Actions

Legislative actions are actions that involve adoption of generally applicable laws or basic policies. These actions are made by the Board of Supervisors. Legislative actions are usually initiated to achieve long-term planning goals, and the process for their approval is commensurately complex and time consuming. Legislative actions are subject to CEQA. In Marin County, legislative actions include general plan, community plan, and code amendments and adoption of master plans. As part of the implementation of the Housing Element, the County will adopt the zoning required to permit development on designated housing sites, so that no legislative approvals should be required for housing consistent with the Housing Element.

parcels, or both. SB 9 facilitates the creation of up to four housing units in the lot area typically used for one single-family home. SB 9 contains eligibility criteria addressing environmental site constraints (e.g., wetlands, wildfire risk, etc.) *Source:* www.hcd.ca.gov

Coastal Permits

For properties within the Coastal Zone, a Coastal Development Permit is required. This discretionary permit is subject to standards certified by the California Coastal Commission in Marin County's LCP. Coastal permits are unusual in that they regulate both development and use, even when a particular use is principally permitted within a given zoning district. For this reason, very few projects are exempt from discretionary review in the Coastal Zone. Risks, costs, and delays associated with the coastal permit process are further increased because most coastal permit approvals are appealable to the California Coastal Commission, except for principally permitted uses outside of a geographic appeal jurisdiction. Affordable housing projects are not exempt from coastal permit requirements. However, LCP amendments fully certified in February 2019 establish affordable housing as a principally permitted use in coastal residential and commercial/mixed-use districts. This means a coastal permit approval for an affordable housing project in one of these districts would only be subject to appeal to the Coastal Commission if proposed within the Commission's geographic appeal area.

Planning Application Assistance

The County's Planning Division provides a variety of options to help applicants through the process. These steps are highly encouraged and are outlined in the County's Planning Application Guide, which was developed in 2017 and is available on the County's website.

Property Information Packet

A Property Information Packet (PIP) is a summary of a property's permit history. The PIP provides an applicant with copies of all final decisions and exhibits for planning applications that have been submitted for the property in the past. Also included is some basic planning information and an aerial photo of the site.

Planning Consultation

A Planning Consultation application covers two hours of time spent by a planner to answer questions. They are useful for a number of different purposes, including general questions about the planning process or particular policies. The most common reason people apply for consultations is to get an early idea of what planning considerations may affect their project. In these types of consultations, a planner will identify the policy and regulatory documents that will apply to the project, check County maps for background information, and meet with an applicant to go over the project. The planner will let the applicant know what planning documents to review, indicate whether environmental review is likely, and suggest what the path of least resistance may be for the applicant to consider.

Another common reason people request a consultation is because they have obtained a planning permit for development but want to make changes to the design during building permit review. A consultation is an opportunity for applicants to ask a planner whether the changes they want to make would substantially conform to the approved planning permit.

Preapplication

Pre-applications are much more in depth than consultations and are typically reserved for larger-scale projects. While the services provided are to some degree up to the applicant, a Preapplication review would usually include transmitting a proposal to other departments and organizations and collecting their comments, as well as a report on what staff has found in their research. Typically, the report will focus on policies and regulations that may affect the project, application and submittal requirements, and environmental review. This service is useful because it provides direct written feedback to a specific project, and general information about the regulatory process and development standards applicable to the property.

Presubmittal Plan Review

A Presubmittal Plan Review entails a cursory review of the plans for a project before an official planning application is submitted. A planner reviews the application materials to determine if they meet the basic submittal requirements.

Design Review

Design Review applies to all new structures and exterior physical improvements, as well as additions, extensions, and exterior changes of or to existing structures and/or relocation of physical improvements, for either a single or multiple contiguous lots.

Design Review is a discretionary administrative process, and the Agency Director, or designee, makes a discretionary decision, which is appealable to the Planning

Commission, whose discussion in turn is appealable to the Board of Supervisors. The Marin County Code, however, also allows the Agency Director to refer an appeal directly to the Board of Supervisors if necessary to comply with State or Federal law or otherwise consistent with applicable development standards. The findings to approve a project are subjective and require interpretation.

Review Process

Completeness Review: The first step in the formal application process is reviewing the application materials submitted to determine if the submission is adequate to fully review the project. This process is governed by the Permit Streamlining Act (PSA). If the application is not complete, the applicant is informed within 30 days of submittal those items of information that are still necessary. The applicant is given 30 days to resubmit, but may be granted extension upon request to gather all the necessary information.

The completeness review sometimes involves the planner transmitting the project materials to a number of agencies and organizations that have purview over or an interest in development. These usually include: (1) the Department of Public Works; (2) the local fire department; (3) the local water district (or the Environmental Health Services Division, if the property is on well water); (4) the local sanitary district (or the Environmental Health Services Division, if the property is on septic); and, (5) design review boards, if located in an area where a Design Review Board reviews development projects (see more on this below). In some rare instances, a planner may also transmit a project to State agencies, such as the California Coastal Commission, the Department of Fish and Wildlife, or federal agencies such as the Army Corps of Engineers.

Design Review Boards: Design Review Boards are citizen advisory committees and act as liaisons to the Board of Supervisors, the Planning Commission, the Planning Division, and the local community. They are made up of volunteers from the local community who are appointed by the Board of Supervisors. They hold public meetings where applicants for development projects are invited to present their proposals. While Design Review Boards do not issue decisions on projects, they do make recommendations to the County on each proposal they review. There are three design review boards:

- Kentfield Planning Advisory Board: The Kentfield Planning Advisory Board
 reviews projects within the area of Kentfield and Greenbrae covered by the
 Kentfield/Greenbrae Community Plan, with the exception of the Kent Woodlands
 neighborhood.
- Strawberry Design Review Board: The Strawberry Design Review Board reviews
 projects in the area covered by the Strawberry Community Plan, in the
 Strawberry area of Mill Valley.
- Tamalpais Design Review Board: The Tamalpais Design Review Board reviews
 projects in the area covered by the Tamalpais Valley Community Plan, in the
 Tamalpais area of Mill Valley.

<u>Projects outside of these geographical areas are not subject to a publicly held design</u> review hearing, unless an action of the Agency is appealed to the Planning Commission.

Coastal Zones: All development projects are subject to a Coastal Development Permit and a Design Review is often required. There are two types of Coastal Permit.

Administrative Coastal Permits typically involve additions, minor developments etc. A decision to approve or deny is made by Agency Director or designee. A Coastal Development Permit is subject to a public hearing and decision is entered by a Deputy Zoning Administrator. A Coastal Development Permit is a discretionary application and is processed in accordance with the description above.

Decisions made by the Director or Zoning Administrator may be appealed to the Planning Commission, and decisions made by the Planning Commission may be appealed to the Board of Supervisors. However, the Director may refer an appeal directly to the Board of Supervisors. In all instances where a public review process is required, the County insures no more than five public hearings are held, including appeals.

Environmental Review: Once a project is deemed complete, a determination can be made regarding whether the project is categorically exempt from the California Environmental Quality Act (CEQA). Within three business days of determining that an application is complete, the planner will prepare a categorical exemption form and provide it to the environmental planning manager for signature. On the day the appeal period ends, the signed categorical exemption form to the administrative support staff for recording.

In more than 99 percent of cases, a project is categorically exempt, but there are rare instances when an environmental review needs to be conducted. There are essentially two kinds of environmental review: (1) an initial study leading to a Negative Declaration of Environmental Impact; or (2) an Environmental Impact Report (EIR). According to the CEQA Guidelines, an initial study/negative declaration should take no longer than six months to prepare and an EIR should take no longer than a year to prepare.

Merits Review and Decision: After a project is deemed complete and any necessary environmental review has been completed, the review of the merits of an application begins. Public notice, describing the project, is sent out to the surrounding area inviting comments before a decision is made. Most planning permits for development, such as Design Review, are decisions issued "administratively," which means that planning staff issue the decision without a public hearing. Other types of permits, including most Coastal Permits, require a public hearing before a Deputy Zoning Administrator. According to the Permit Streamlining Act, a decision on an application that is categorically exempt from CEQA must be rendered within 60 days of the date on which it is deemed complete. When a project is approved, the approval will contain certain "conditions of approval," or stipulations for measures that must be implemented for the development to proceed. Many conditions of approval are standardized across all discretionary projects. All decisions on discretionary projects can be appealed to the Planning Commission and subsequently the Board of Supervisors for a hearing to reconsider the action taken by the lower decision-making body. Appeals tend to add a considerable amount of time and expense to the review of an application.

Findings for approval: All projects subject to Design Review application must comply with two sets of findings: First, the uniform development standards such as site planning minimum setback requirements, floor area ratio, maximum site coverage, height limits, building location on the site and other development standards. Second, projects subject

to Design Review must also comply with findings related to community character, such as architectural design, massing, materials, and scale that are compatible with the site surroundings and the community, must protect access to sunlight, views, vista points etc. These findings are subjective and require interpretation of by staff based on subjective findings and undefined design guidelines.

Overall Review Timeline and impacts on housing development projects. The minimum public hearings and review timelines are affected by location (coastal and non-coastal), as well as whether a project is subject to a design review board, and whether a project is subject to a community/specific plan.

Currently, Marin relies on subjective design standards codified within the County's Development Code and Design Guidelines, various Community Plans, and its discretionary review processes when considering residential or mixed-use development projects. Administered through staff, Planning Commission, or appointed advisory design review boards, the various community plan and design guidelines interpretation and create uncertainty as project modifications are often required throughout the review process. Additionally, design guidelines are difficult to apply consistently. They offer too much room for subjective interpretation and difficult to enforce. Design Guidelines require oversight by discretionary review bodies, leading to a protracted and politicized planning process that can cost time and money.

As stated above, the Marin County Development Code will be amended on or before the adoption of the Housing Element to establish a new Form Based Code (FBC) residential zoning district. The FBC zoning district would establish objective and precise design standards that offer predictability. Typically, developers borrow money to pursue preconstruction work. For developers, time is money. The biggest incentive that the County can offer is not money, but clear and predictable development standards. Most developers are willing to build to higher standards if the rules are clear and the process is predictable. By offering predictable environment the FBC can reduce risks to developers and offer streamlined process to staff.

Master Plan

The Master Plan review process applies to all existing Master Plans and Precise

Development Plans, to Planned Developments in Planned zoning districts, and to
subdivisions in Planned zoning districts that are subject to Final Maps. The master plan
process is intended to:

- Align with California State Law governing common interest developments;
- Allow for phased developments;
- Establish site specific development criteria;

- Promote clustering of structures to preserve open land areas and avoid environmentally sensitive areas; and
- Protect natural resources, scenic quality, and environmentally sensitive areas.

Affordable housing projects are exempt from the Master Plan requirements.

All Master Plan Reviews require an application and public hearing before the Planning Commission, the Board of Supervisors and, if applicable, by a design review board following the process outlined below:

- Design Review Board: The Design Review Boards hold public hearing for projects located in one of the three geographical areas of the unincorporated Marin County. While Design Review Boards do not issue decisions on master plan projects, they make recommendations to the County staff and planning commission.
- Planning Commission: For Master Plan applications, the Planning Commission holds hearings and makes recommendations to the Board of Supervisors.
- Board of Supervisors: The Board of Supervisors is legislative body that exercises final authority on all master plan applications.

Timing for Permit Processing

Time requirements for review of the merits of a project are contingent on project complexity and environmental impacts. If a house design meets County standards and Uniform Building Code requirements in a conventionally zoned agricultural or urban zoning district, a building permit can be granted without further review. Figure H-3.1 below shows the typical timeline for a discretionary review application that is not subject to CEQA analysis. These include some design reviews, site plan reviews, variance, etc. Once a complete application is submitted, the County will issue a decision within three months. Projects that include more complex applications, such as a rezoning, or require CEQA analysis will have a longer review period.

The County recognizes that a streamlined development review process could moderate the cost of development. Several housing programs in this Housing Element demonstrate the County's commitment to streamlining development review. These include:

- Program 2: By Right Approval
- Program 5: SB 9 Mapping Tool
- Program 8: Development Code Amendments
- Program 10: Objective Standards for Off-Site Improvements

Program 13: Reasonable Accommodation

These programs help streamline the review process for various types of projects. Furthermore, the County offers planning consultation and pre-application conference prior to submitting the Master Plan Review application. County staff will discuss the review procedures, application requirements, application deadlines, and the County's goals, policies, and development standards as they relate to the proposed project.

Figure H-3.1: Typical Discretionary Review Timeline in Marin County (No CEQA Review)

Source: County of Marin Planning Application Guide, Prepared September 2017.

Permit Processing for Affordable Housing

In conjunction with its analysis and preparation of streamlined review procedures pursuant to SB 35, staff initiated an exploration of potential procedures to expedite review for affordable housing projects. The new Objective Design and Development Standards (described earlier in this Constraints section), was developed in collaboration with cities and towns to streamline the development of housing, including affordable housing.

AB 1397 requires that housing to be developed on reuse or rezone sites be provided ministerial review if the project includes 20% lower income units. This is part of the Housing Element's adequate sites program (please see Chapter 5).

Streamlining Building Permit Review

to make the zoning compliance process as efficient as possible, the County's 2021 Development Code amendments included changes to the building permit review. These changes included:

- 1. Community Plan policies and discretionary standards would no longer modify the Design Review exemptions.
- 2. Recent work under separate building permits would no longer prevent Design Review exemptions from applying to new work.
- Second story porches would be exempt from Design Review as long as they meet certain setbacks.
- 4. The installation of power generators would be exempt from Design Review as long as they meet 10-foot side and rear yard setbacks (or the setbacks required in the governing conventional zoning districts.

Fees and Exactions

Planning Fees

The County collects various fees from development to cover the costs of processing permits, including planning review, environmental review, engineering, and plan review and building permits, among others. Table III-21 shows the 2021 Planning Fee Schedule, available on the County's website. Most jurisdictions, the County of Marin among them, establish fees designed to cover the costs of staff time charged on an hourly basis and materials, consistent with California law. The fees noted in the fee schedule are minimum fees to be paid at the time of application filing to cover the average County cost of review. Should actual costs exceed the amount of any fee, the applicant is billed for additional costs and if the initial fees submitted exceed the cost of reviewing the application, then the fees remaining are refunded to the applicant.

Table H-3.21: Planning Fees

Permit Type	Fee Amount (Deposit)		
Accessory Dwelling Unit	\$500		
Coastal			
Regular	\$5,804		
Minor/Amendment	\$3,482		
Exclusion	\$164		
Design Review			
Residential – Regular	\$4,643		
Residential – Minor	\$1,741		
Environmental Review			
Initial Study	\$17,411		
Environmental Review Contract Overhead	30%		
Master Plans			
Regular	\$23,214		
Minor/Amendment	\$11,607		
Plan Amendment	\$35,861		
Property Modification			
Lot Line Adjustment	\$2,321		
Merger	\$361		
Tentative Map – Major	\$23,214		
Tentative Map – Minor	\$11,607		
Rezoning	\$23,214		
Site Plan Review	\$2,086		
Use			
Master Use Permit	\$8,125		
Major	\$8,125		
Regular/CUP Amendments	\$4,643		
Variance			
Regular	\$4,643		
Minor Amendment	\$2,086		

Source: Marin County Community Development Agency, 2019 Fee Schedule

Affordable Housing Impact Fees

Several fees are included as are part of the County's Affordable Housing Program. The County adjusts its Affordable Housing Impact, In-Lieu Housing, and Rental Housing Impact fees annually based on the higher of either the Consumer Price Index (CPI) or Shelter for the Construction Cost Index (CCI) published by the Engineering-News Record. The County's Jobs/Housing Linkage Fees for Residential Care Facilities and Skilled Nursing Facilities are likewise updated. During calendar year 2020, the Marin Housing Trust fund collected \$507,041 in impact, inclusionary, and jobs/housing linkage fees.

Affordable Housing Impact Fee

Because the majority of homes constructed in Marin County consist of custom-built, high-end units, most residential development is not subject to the Inclusionary Housing requirement. The County found it appropriate to establish a fee on single-family home development to address the shortage of low income homes in the community. A nexus study was conducted in 2008 to determine the appropriate amount for an affordable housing impact fee to be charged on new single-family home development that would mitigate the impact of an increase in demand for affordable housing due to employment growth associated with the new single-family development.

The Affordable Housing Impact Fee, adopted in October 2008, applies to all new single-family homes greater than 2,000 square feet. Teardowns and major remodels that would result in over 500 square feet of new space and a floor area of greater than 2,000 square feet are also subject to the Affordable Housing Impact Fee. The fee is either waived or reduced when a second unit is included as part of the proposed project. Fees are assessed as shown in Table H-3.22 below.

Table H-3.22: Affordable Housing Impact Fee

Example Home Size	Fee Per Square Foot	Housing Impact Fee (\$5 and \$10 per sq ft)	If proposed project includes second unit or agricultural worker unit
< 2,000	\$0	\$0	\$0
2,500	\$6.95	\$2,500	\$0
> 3,000	\$10	\$10,000	\$5,000
3,500	\$14.74	\$15,000	\$7,500
4,000	\$10	\$20,000	\$10,000

Source: Marin County Ordinance No. 3500, adopted 10/14/2008

In-Lieu Housing Fee

An in-lieu housing fee is required for the portion of subdivisions or multi-family development that results in a fractional share of less than 0.5 of a unit. This fee is paid at the time the subdivision map is recorded or at the time a building permit is issued (if the project consists of the construction of multiple-family units). The County adjusts its inlieu housing fee annually based on the higher of either CPI for CCI published by the Engineering-News Record.

Jobs/Housing Linkage Fee

Per Section 22.22.100 of the County Development Code, development with no residential component must pay a jobs/housing linkage fee. This fee is based on the development type and floor areas of the development and is collected at the time a Building Permit is issued. Alternatively, an applicant for a non-residential development may propose to provide the number of new affordable units required by the Development Code.

Permit Fees – Outside Agencies

Unincorporated Marin County 's water and sanitary disposal needs are serviced by 20 separate water, sanitation, community service, and public utility districts. Upon adoption of the 6th Cycle Housing Element, the Community Development Agency will inform all districts of the Housing Element update through written correspondence. Per Government Code Section 65589.7, the letter will detail:

- The need to accommodate new residential units per the Regional Housing Needs Allocation at the prescribed income levels.
- The requirement that water and sewer providers must grant priority for service allocations to proposed developments that include housing units affordable to lower- income households.

Upon adoption, the Community Development Agency will provide a copy of the Housing Element to water and sewer providers.

Fees from outside agencies constitute a significant share of the total fees charged to a project. While the County does not control outside agency fee schedules, a program is included to work with these agencies to encourage fee waivers for affordable and special needs housing.

Water Connection and Impact Fees

Water fees are determined by each water district. Unincorporated Marin County is served primarily by two districts: North Marin Water District and Marin Municipal Water District. This fee analysis continues using the two previously described housing scenarios of a 2,400-square-foot house and a 10-unit condo development.

below summarizes typical water fees for new residential developments. It includes installation fee, connection fee, meter charge, and any other initial fees required prior to the commencement of service. Monthly service fees and any other ongoing charges are not included.

Recognizing that water connection fees may serve as a constraint to affordable housing development, the Marin Municipal Water District (MMWD) offers a 50% fee reduction for qualified affordable housing projects (affordable to low and moderate income households for at least 30 years, with at least 50% of the project affordable to low income households), as well as to second units deed-restricted to rents affordable to lower income households for a minimum of 10 years.

Table H-3.23: Average Water Fees

Service Area	Water District	Single-family Home	10-Unit Condo Development		
Belvedere					
Corte Madera					
Fairfax					
Larkspur			\$16,000 plus \$7,720 per meter		
Mill Valley	Marin Municipal Water District	\$23,040			
Ross/Kentfield			ψ ¹ ,120 per meter		
Tiburon					
San Anselmo					
San Rafael			1		
Novato	North Marin Water District*	\$28,600	\$172,000 (\$17,200 per unit)		

Source: Marin Municipal Water District and North Marin Water District, 2022

^{*}Facilities reserve charges

Sewer Connection and Impact Fees

Unincorporated Marin is served by approximately 16 sanitary districts. Each sanitary district categorizes and calculates sewer fees using a different method. A new residential development may be subject to fees for permits, inspections, connection, and impact. Terminology between districts is not standardized. The average fees provided in summarize typical sewer fees for new residential developments. The tables include installation fees, connection fees, inspection fees, and any other initial fees charged prior to the commencement of service. Monthly service fees and any other ongoing charges are not included. Despite the number of sanitary districts and charging methods, sewer fee levels are remarkably consistent across the surveyed jurisdictions.

Table H-3.24: Average Sanitary Fees

Sanitary District	Single-Family	Small Multi-Unit (2-4 units), per project	Large Multi-Unit (5+ units), per project
Almonte	\$4,000	\$4,000	\$4,000
Alto	\$7,414	\$9,268+	\$16,684+
District #1 (Ross Valley)	\$15,773.16+	\$30,738.32+	\$75,753.80+
District #2 (Corte Madera)	\$9,281	\$11,884.42+	\$21,493.42+
District #5 (Tiburon/Belvedere)	~\$6,500	~\$13,000+	~\$32,500+
Homestead Valley	\$4,000	\$4,000+	\$4,000+
Las Gallinas Valley	\$7,166	\$13,832+	\$33,830+
Novato	\$12,990	\$12,990	\$12,990
San Rafael	\$10,482.42	\$20,964.84+	\$52,412.10+
Tamalpais CSD	\$17,231	\$22,796+	\$48,213+
Tomales Village CSD	\$10,000	\$10,000	\$10,000
Richardson Bay	\$12,990.00	\$12,990.00	\$12,990.00
Sausalito/Marin City	\$6,130	\$6,130	\$6,130
Bolinas Community Public Utility District*	N/A	N/A	N/A

^{*}Since 1985, BCPUD has a moratorium on new connections to their sewer system.

Estimated Total Fees

Table H-3.25 illustrates the cost of two development scenarios incurred from fees assessed by Marin County and other impact fees. The first scenario is a 2,400-squarefoot, three-bedroom, single-family home on a 10,000-square-foot lot with a 400-squarefoot garage at a density of four units per acre. The second scenario is a multi-family condominium development with 10 1,200-square-foot, two-bedroom units on 0.5-acre site. Line item fees related to processing, inspections, and installation services are limited by California law to the cost to the agencies of performing these services.

It should be noted that there are different types of design review applications. Assuming regular residential design review, the current fee is \$4,643. For Scenario B, County fees account for \$18,304.30 per unit, or about 1.8% of the sales price. Fees charged by outside agencies vary by location. In general, fees from other agencies (water, sewer, etc.) can add another \$21,862 to the cost of development for Scenario B. Total fees account for about 4% of the sales price.

Overall, on a per-unit basis, the planning and development fees do not unduly constrain multi-family housing development, when compared to single-family development.

Table H-3.25: Estimated Permit and Impact Fees Assessed

Permit Type / Impact Fee	Scenario A: Single-family house, 2400 sq ft, 3 bedrooms. 10,000 sq ft lot, 4 units/acre. Construction \$8500,000/unit. Sale \$1,500,000/unit.	Scenario B: 10-unit condo development, 1,200 sq ft, 2 bedrooms. 0.5 acre lot, 20 units/acre. Construction \$700,000/unit. Sale \$1,000,000/unit.
County Fees		
Design Review		
Building Permit	\$6,100	\$7,052.75
Plan Review	\$16,204.53	\$18,734.24
Title 24 Energy Fee	Included	Included
BSC "Green" Tax	\$60	\$600.00
Seismic Tax	\$195	\$1,950
Affordable Housing Impact Fee	\$16,680	\$0
Technology Fee	\$1,262.69	\$1,459.81
Engineering Plan Check	Included	Included

Permit Type / Impact Fee	Scenario A: Single-family house, 2400 sq ft, 3 bedrooms. 10,000 sq ft lot, 4 units/acre. Construction \$8500,000/unit. Sale \$1,500,000/unit. - 1. The in-lieu park dedication fee applies to subdivisions and is calculated by multiplying the number of dwelling units by the number of acres of parkland required per dwelling unit multiplied by the fair market value per buildable acre by 1.20. This fee is paid at the time a Parcel or Final Map is recorded. Please refer to Section 22.98.040 of the Marin County Development Code* for more information.
- 2. Per square foot school impact fees range from \$2.29 for Lagunitas School District to \$4.79 for Mill Valley School District. However, most school districts set the fee at \$3.48. This analysis uses this typical fee for calculation.
- 3. Ranges from \$7,040 to \$7,720 depending on meter size. An average fee of \$7,380 is used.

Building Code and Enforcement

Marin County adopts the California Building Standards Code (Title 24, CCR) that establishes minimum standards for building construction. The County has amended two specific provisions contained in the State codes which can impose additional costs on residential development: 1) fire sprinklers are required in any residential addition or substantial remodel that exceeds 50% of the area of the original structure, and 2) Class A roofing is required because of potential fire hazard. The standards may add material and labor costs but are felt to be necessary minimum standards for the health and safety of firefighters, those occupying the structures, and the general public.

In February 2020, the Board of Supervisors adopted an ordinance updating building permit fees. These fees had only increased once since 2009. The fee increases were needed to provide the necessary revenue to support ongoing Building Division services including permit issuance and inspections.

The County also enforces local provisions related to energy conservation and green building. While these requirements have been strengthened over time resulting in increased construction costs, greater energy efficiency results in lower operating costs for the resident and lower greenhouse gas production resulting from the construction process. For additional information on the County's energy efficiency efforts, refer to Section IV: Sites Inventory and Analysis.

The County's code enforcement program is complaint driven. The County has four staff dedicated to building and zoning code enforcement while additional staff is dedicated to septic system monitoring and enforcement. Most complaints are resolved voluntarily through corrective action by the property owner, although some require additional actions through hearings and assessment of fines. In instances where work is done without building permits, additional fees and penalties are assessed and the work must meet minimum code standards.

Code enforcement staff have been trained on available resources and make referrals when appropriate. For example, they make referrals to Marin Housing Authority for the rehabilitation loan program, to the Marin Center for Independent Living for accessibility rehabilitation needs, and to the Department of Health and Human Services for support services. The County has adopted policy consistent with Health and Safety Code Section 17980(b)(2), and code enforcement staff use these guidelines in their enforcement activities.

On/Off-Site Improvement Standards and Exactions

Administered by the Department of Public Works and the Community Development Agency, standards for on- and off-site improvements are detailed in the County Code.

Requirements are generally set for street improvements, driveways, landscaping, easements, drainage, parkland dedication and fees, sewage disposal, and water supply.

Overall, the purpose of on- and off-site requirements is to ensure the health and safety of residents. While required on- and off-site improvements may add to the cost of housing on affected properties, it is not evidenced that these requirements and associated costs represent a higher standard than other jurisdictions in the County and beyond. For example, the required width of public utility easements is no less than 10 feet for the unincorporated County, San Rafael, and Novato. Parkland dedications and fees are calculated in an identical fashion to San Rafael and Novato. Additionally, street and driveway widths and grades in the County's Development Code are on par with the requirements set forth in Novato's and San Rafael's codes. On- and off-site improvement requirements do not constitute extraneous requirements, with the exception perhaps of landscaping and parkland dedication requirements.

Technically, all developments are subject to off-site improvements that could include curbs, gutters, sidewalks, street pavement, driveways, parking areas, retaining walls, storm drainage facilities, and related improvements, and dedication of such additional rights-of-way as are necessary. However, developments are not automatically required to provide off-site improvements but are evaluated on a case-by-case basis depending on project location and size, and existing facilities available. The off-site improvement standards required by unincorporated Marin County are typical for most suburban communities and do not pose unusual constraints for housing development.

Several of the parcels zoned for multi-family housing in the sites inventory are considered infill sites, and as such, are not required to complete major infrastructure improvements. Based upon recent proposals submitted by the development community for a variety of housing sites throughout unincorporated Marin County, it is apparent that the off-site improvements required for housing development is not a constraint on housing development.

On-site improvement standards, in most cases, do not pose unusual constraints for housing development. However, some housing sites require infrastructure connections or improvements including for example, onsite wastewater systems, that can increase the cost of development beyond typical suburban development. County staff have recognized this constraint and there are several programs in progress or in place to help facilitate the development of wastewater improvements.

Incentives for Affordable Housing – Providing Incentives and Removing Barriers

Amendments to the Marin County Development Code in 2008 and 2012 clarified incentives for affordable housing development. Chapter 22.24 clearly outlines a range of incentives, such as density bonuses, technical assistance, site development alternative standards, and fee waivers to encourage and facilitate the development of affordable homes. Many of these incentives and programs were described earlier in this Constraints section.

Incentives for inclusionary and 100% affordable housing include:

- Density for affordable housing projects. For affordable housing located in all districts that allow residential uses, allowable density will be established by the maximum Marin Countywide Plan density range, subject to all applicable Countywide Plan policies.
- County density bonus. An increase in density of up to 10% of the number of dwelling units normally allowed by the applicable zoning district in a proposed residential development or subdivision.
- Interior design. The applicant may have the option of reducing the interior amenity level and the square footage of inclusionary units below that of large market-rate units, provided that all of the dwelling units conform to the requirements of County Building and Housing Codes and the Director finds that the reduction in interior amenity level will provide a quality and healthy living environment. The County strongly encourages the use of green building principles, such as the use of environmentally preferable interior finishes and flooring, as well as the installation of water and energy efficient hardware, wherever feasible.
- Unit types. In a residential project that contains single-family detached homes, inclusionary units may be attached living units rather than detached homes or may be constructed on smaller lots.
- On-site inclusionary housing for commercial and industrial development. As an inducement to include on-site inclusionary housing in a commercial or industrial development, the County may grant a reduction in the Development Code's site development standards or in architectural design requirements that exceed the minimum building standards approved by the State Building Standards Commission in compliance with State law (Health and Safety Code Sections 18901 et seq.), including, but not limited to, setbacks, coverage, and parking requirements.
- Affordable housing on mixed-use and industrial sites. In commercial/mixed-use and industrial land use categories, as designated in the Countywide Plan, the floor-

area ratio may be exceeded for income-restricted units that are affordable to very low, low, or moderate income persons, subject to any limitations in the Countywide Plan.

- Impacted roadways. In areas restricted to the low end of the density range due to vehicle Level of Service standards, affordable housing developments may be considered for densities higher than the low-end standard in the Countywide Plan.
- Fee waivers. The County may waive any County fees applicable to the affordable or income-restricted units of a proposed residential, commercial, or industrial development. In addition, for projects developed pursuant to Housing Overlay Designation policies and for income-restricted housing developments that are affordable to very low or low income persons, the Director may waive fees or transfer In-Lieu Housing Trust funds to pay for up to 100% of Community Development Agency fees.
- Projects developed pursuant to Housing Overlay Designation policies. Residential development projects developed in conformance with Housing Overlay Designation policies may be granted adjustments in development standards, such as parking, floor area ratio, and height, as provided in the Countywide Plan.
- Technical assistance. to emphasize the importance of securing affordable housing as a part of the County's affordable housing program, the County may provide assistance to applicants in qualifying for financial subsidy programs.
- Priority processing. The County shall priority process projects developed pursuant to Housing Overlay Designation policies and affordable housing developments that are affordable to very low or low income persons.

The Community Development Agency has also increasingly taken the opportunity to connect applicants for affordable housing projects and community groups in the preapplication process by noticing, facilitating, or funding community engagement and visioning exercises.

Housing for People with Disabilities

As noted in the Special Needs section of the Housing Needs Assessment, persons with disabilities have specific housing needs related to affordability, accessibility, access to transportation and services, and alternative living arrangements (such as Single Room Occupancy units and housing that includes supportive services). The County ensures that new housing developments comply with California building standards (Title 24 of the California Code of Regulations) and Federal requirements for accessibility.

Reasonable Accommodation

A series of Federal and State laws have been enacted to prohibit policies that act as a barrier to individuals with disabilities who are seeking housing. Among such laws are the Federal Fair Housing Amendments Act of 1988, California's Fair Employment and Housing Act, the Lanterman Developmental Disabilities Services Act (§5115 and §5116) of the California Welfare and Institutions Code, California's AB 686 to Affirmatively Further Fair Housing, and additional components of Housing Element law. Additionally, the U.S. Department of Housing and Urban Development (HUD) requires that localities utilizing Community Planning and Development funds such as CDBG and HOME funds administer programs in a manner that affirmatively further fair housing. Taken together, these pieces of legislation require jurisdictions to take affirmative action to eliminate regulations and practices that deny housing opportunities to individuals with disabilities.

Procedures for Ensuring Reasonable Accommodations

Ordinance 3668 establishes a procedure for making requests for reasonable accommodation in land use, zoning and building regulations, and practices and procedures of the County of Marin to comply fully with the intent and purpose of fair housing laws. Requests for reasonable accommodation shall be reviewed by the Director of the Community Development Agency and a written decision shall be issued within 30 business days of the date of the application being deemed complete and may grant, grant with modifications, or deny a request using the following criteria:

- 1. Whether the housing, which is the subject of the request for reasonable accommodation, will be used by an individual with disabilities protected under fair housing laws;
- 2. Whether the requested accommodation is necessary to make use or enjoyment of housing available to an individual with disabilities protected under fair housing laws;
- 3. Whether the requested accommodation would impose an undue financial or administrative burden on the County;
- 4. Whether the requested accommodation would require a fundamental alteration in the nature of the County's land use and zoning or building program; and
- 5. Whether there is an alternative accommodation which may provide an equivalent level of benefit to the Applicant.

Efforts to Remove Regulatory Constraints for Persons with Disabilities

The State has removed any local discretion for review of small group homes for persons with disabilities (six or fewer clients plus the owner's household) which must be treated like one family or household occupying a dwelling unit. The County does not impose additional zoning, building code, or permitting procedures other than those allowed by

State law. There are no County initiated constraints on housing for persons with disabilities caused or controlled by the County. The County also allows residential retrofitting to increase the suitability of homes for persons with disabilities in compliance with accessibility requirements through reasonable accommodation requests. Further, the County works with applicants who need special accommodations in their homes to ensure that application of building code requirements does not create a constraint. Please see Ordinance 3668 provisions above.

County Housing and Federal Grants Division staff actively refer tenants in need of assistance making reasonable accommodation requests in the private housing market to the Marin Center for Independent Living (MCIL) and Fair Housing Advocates of Northern California (FHANC). Both organizations were supported in their work by CDBG funding. MCIL received funding to its home modification program for homes occupied by low income individuals with disabilities. FHANC received funding to support its fair housing monitoring and assistance.

Zoning and Other Land Use Regulations

The County has not identified any zoning or other land-use regulatory practices that could discriminate against persons with disabilities and impede the availability of housing for these individuals. Examples of the ways in which the County facilitates housing for persons with disabilities through its regulatory and permitting processes include:

- The County permits group homes of all sizes in all residential districts. All of the County's commercial zones also allow group homes. The County has no authority to approve or deny group homes of six or fewer people, except for compliance with building code requirements, which are also governed by the State.
- The County does not restrict occupancy of unrelated individuals in group homes and does not define family or enforce a definition in its zoning ordinances.
- The County permits housing for special needs groups, including for individuals with disabilities, without regard to distances between such uses or the number of uses in any part of the County. The Land Use Element of the General Plan does not restrict the siting of special needs housing.

Permitting Procedures

The County does not impose special permit procedures or requirements that could impede the retrofitting of homes for accessibility. Requirements for building permits and inspections are the same as for other residential projects. Staff is not aware of any instances in which an applicant experienced delays or rejection of a retrofitting proposal for accessibility to persons with disabilities. As discussed above, County Code allows group homes of six or fewer persons by right, as required by State law. No use permit or

other special permitting requirements apply to such homes. The County does require a use permit for group homes of more than six persons in all residential and commercial zones that allow for residential uses. The County does not impose special occupancy permit requirements or business licenses for the establishment or retrofitting of structures for residential use by persons with disabilities. If structural improvements are necessary for an existing group home, a building permit would be required. If a new structure were proposed for a group home use, design review would be required as for other new residential structures. The permit process has not been used to deny or substantially modify a housing project for persons with disabilities to the point where the project became no longer feasible.

CHAPTER 4: RESOURCES

Land Characteristics of Marin County: Development Policy and Objectives

Marin County includes a total area of approximately 606 square miles of land and water. Nearly 84% of the County consists of open space, watersheds, tidelands, parks, and agricultural lands. Significant public amenities include the Federally protected Golden Gate National Recreation Area, the Marin Islands National Wildlife Refuge, the Muir Woods National Monument, the Point Reyes National Seashore, and the San Pablo Bay National Wildlife Refuge. About 11% of Marin County's area has been developed, primarily within cities and towns, near services, and along major transportation corridors. Much of the additional land potentially available for development (approximately 5% of the County) is in incorporated cities and towns.

As discussed in Section Three of the Housing Element (Constraints), the Marin Countywide Plan (2007) recognizes four separate environmental corridors present in the County, based on specific geographic and environmental characteristics and natural boundaries formed by north-south running ridges.

- The Baylands Corridor, encompassing lands along the shoreline of San Francisco, San Pablo, and Richardson Bays, provides heightened recognition of the unique environmental characteristics of this area and the need to protect its important resources. The area generally contains marshes, tidelands, and diked lands that were once wetlands or part of the bays, and adjacent, largely undeveloped uplands. Less than 1% of the County's residents live in the Baylands Corridor.
- The City-Centered Corridor, along Highway 101 in the eastern part of the County near San Francisco and San Pablo bays, is designated primarily for urban development and for the protection of environmental resources. This corridor is divided into six planning areas, generally based on watersheds, and is intertwined with Marin's 11 cities and towns. Nearly 96% of Marin County's population lives in the City Centered Corridor, where the majority of development is concentrated.
- The Inland Rural Corridor in the central and northwestern part of the County is designated primarily for agriculture and compatible uses, as well as for the preservation of existing small communities. Less than 2% of Marin County's population lives in the Inland Rural Corridor.
- The Coastal Corridor is adjacent to the Pacific Ocean and is designated primarily for agriculture, Federal parklands, recreational uses, and the preservation of

¹ Marin Countywide Plan, Built Environment Element, pages 3-10.

existing small coastal communities. Approximately 2% of Marin County residents live in the Coastal Corridor.²

As a result of policies in the Countywide Plan, community plans, and the Local Coastal Program, residential development in Marin County is primarily directed to the City-Centered Corridor and limited to the Inland Rural and Coastal Corridors. Development of moderate densities is most compatible with the City-Centered Corridor, close to transit, services, and Marin's cities and towns.

The Inland Rural and Coastal communities recognize the need and advocate for housing affordable to visitor-serving employees, agricultural workers, and other local workers in their communities. Multi-family or moderately dense development permitted in the coastal areas is directed as infill within the various villages.

196 Marin Countywide Plan

² General Demographic Characteristics for Marin County California Cities and Places, Marin County Community Development Agency

Figure H-4.1: Marin County and its Unincorporated Communities

Affordable Housing in Marin County

As of March 2020, there were approximately 6,125 households benefiting from deed restricted affordable housing throughout Marin County's 12 jurisdictions.³ These units typically target renter-households earning 60% of area median income or below and serve populations including low and very low income families, households with disabilities, formerly homeless adults, and older adults.⁴ Affordable homeownership units typically serve moderate income and below. Affordable housing developers and developers with nonprofit arms manage approximately 4,100 of these units. Nearly 3,000 of these units are assisted through the Marin Housing Authority's Section 8 and public housing programs. Of the public housing units, 296 units serve families, and 200 units serve senior and disabled households. The 6,125 units consist of the following types:

- 496 Public Housing Units
- 1,126 Senior Units
- 2,771 Family Housing Units
- 207 units for Persons with Disabilities
- 832 Home Ownership Units⁵
- 337 Permanent Supportive Housing Units
- 336 Transitional and Shelter Units

Of these 6,125 units restricted to moderate, low, very low, and extremely low income households, 761 are located in the unincorporated County, not including Section 8 vouchers. The Marin Housing Authority manages 340 Below Market Rate (BMR) home ownership units throughout Marin County that are preserved by deed-restriction, of which 90 units are in the unincorporated County. The Marin Housing Authority processes all sales of new units, resales of existing units, refinances, capital improvement evaluations, down payment assistance, and monitoring of the portfolio for compliance with BMR Program requirements. MHA also works with developers at the initial stage to formulate Developer Agreements determining the affordability range and construction requirements for these BMR units. The majority of affordable housing is in the City-Centered Corridor, although there are several deed restricted rental and ownership properties in the villages of West Marin and the Inland Rural Corridor. These developments demonstrate the future potential for affordable housing in a range of communities and geographic locations throughout the diverse environs of unincorporated Marin.

³ Marin County 2020-2024 Consolidated Plan

⁴ Some communities have deed-restricted moderate income households, While tax credit projects are aimed at 60% of median or below, inclusionary ordinances are often aimed at 80% and below.

⁵ These affordable homeownership units typically serve moderate income households

Regional Housing Needs Allocation

The Regional Housing Needs Allocation (RHNA) is a key part of State housing element law (Government Code Section 65580) and is a central factor in satisfying periodic required updates of the housing element. Every city and county in the State of California has a legal obligation to respond to its fair share of the existing and projected future housing needs in the region in which it is located. Housing element law requires local governments to update land use plans, policies, and zoning to accommodate projected housing growth. The RHNA figure is not a projection of residential building permit activities, but of housing need based on regional growth projections and regional policies for accommodating that growth. On December 16, 2021, the Association of Bay Area Governments (ABAG) Executive Board adopted the Final RHNA Plan: San Francisco Bay Area, 2023-2031. Table H-4.1 summarizes the Regional Housing Needs Allocation for all jurisdictions in Marin County. All Marin jurisdictions saw a significant increase in the 2023-2031 RHNA allocation from the 2014-2022 allocation.

Table H-4.1: Regional Needs Housing Allocation, 2023-2031 Planning Period

	RI	INA Units Need	ded By Income Cat	egory		
Jurisdiction	Very Low (0- 50% AMI)†	Low (51- 80% AMI)	Moderate (81- 120% AMI)	Above Moderate (120%+ AMI)	2023- 2031	2015- 2023

Unincorporated	1,100	634	512	1,323	3,569	185
TOTAL	4,171	2,400	2,182	5,652	14,405	2,298

Source: https://abag.ca.gov/sites/default/files/documents/2022-04/Final_RHNA_Methodology_Report_2023-2031_March2022_Update.pdf

† Extremely Low Income (ELI) units are assumed to be 50% of the Very Low (VL) income RHNA figure, or 27 units, for the unincorporated County.

Every housing element must demonstrate that the local jurisdiction has made adequate provisions to support the development of housing at various income levels (extremely low, very low, low, moderate, and above moderate) to meet its 'fair share' of the existing and projected regional housing need. However, because local jurisdictions rarely, if ever, develop and construct housing units, the RHNA numbers establish goals that are used to guide planning, zoning, and development decision- making. Specifically, the numbers establish a gauge for determining whether the County is allocating adequate sites at a range of densities to accommodate the development of housing– meeting the County's RHNA. In particular, the County must identify adequate sites for lower income households i that will allow residential uses at least 20 units per acre. Appendix B includes an evaluation of the County's progress toward its 2015-2023 Regional Housing Needs Allocation.

Strategies for Meeting RHNA

This section of the Housing Element addresses the requirements of Government Code Sections 65583 and 65583.2, which require the County to provide an inventory of sites suitable for housing development that can accommodate Marin County's short-term housing development objectives, as determined by the Regional Housing Needs Assessment (RHNA) for the Housing Element planning period of June 30, 2022, and ending December 31, 2030.

Methodology to Satisfy the Regional Housing Needs Allocation

Marin County's housing needs will be met through the implementation of a variety of strategies. The primary method for addressing the adequate sites requirement is the identification of available vacant and underutilized sites that are appropriately zoned and likely to develop within this planning period.

The analysis includes a parcel-specific inventory of appropriately zoned, available, and suitable sites that can provide realistic opportunities for the provision of housing to all income segments within the community as well as potential rezone sites.

The RHNA projection period began on June 30, 2022. Therefore, projects that have been approved or entitled but have not received permits as of June 30, 2022, can be credited against the RHNA. Furthermore, jurisdictions are allowed to project the number of Accessory Dwelling Units (ADUs) that might be developed over eight years based on development trends during the current planning cycle to help satisfy the RHNA requirements.

<u>Table H-4.2</u> shows that there were not enough appropriately zoned sites, units being developed, and ADUs to meet RHNA needs, with a shortfall of 2,864 units. The County has identified <u>1,349.3 acres (129 parcels)</u> that have the capacity for <u>3,210</u> units to meet the RHNA. Rezoning of these sites to meet the RHNA is being conducted concurrent with the Housing Element update and is expected to be completed by the end of <u>January 2023</u>. Therefore, before the statutory deadline of the Housing Element update

(January 31, 2023) and by the time of the 6th cycle Housing Element adoption, the County will have provided an adequate inventory of sites to fully meet the County's RHNA by all income categories.

Table H-4.2: Strategies to Meet RHNA

	Housing	Housing Units by RHNA Income Categories					
	Lov	ver	Mod	Above			
RHNA and Strategies	Very Low (0-50% AMI)	Low (50-80% AMI)	(80-100% AMI)	Mod (>100% AMI)	Total		
RHNA	1,100	634	512	1,323	3,569		
Approved/Entitled	39	<u>164</u>	115	<u>10</u> 7	425		
Accessory Dwelling Units	84	84	84	28	280		
Sites not Requiring Rezoning	=		1.1	<u>25</u>	<u>25</u>		
Surplus/(Shortfall)	(<u>1,363</u>)		(<u>313</u>)	(1, <u>188</u>)	(2, <u>864</u>)		
Sites Requiring Rezoning		<u>1,637</u>	<u>400</u>	<u>1,173</u>	<u>3,210</u>		

Approved or Entitled Projects

A jurisdiction may credit units from entitled projects, approved projects, or projects under construction and not expected to be finaled prior to June 30, 2022, toward its RHNA. These units can be credited against the RHNA to determine the balance of site capacity that must be identified. The list of approved projects is included in Table H-4.3. In total, the County has approved 425 units (39 very low, 164 low, and 115 moderate, and 107 above moderate). Many of these projects are nearing the construction phase and are expected to be completed during the 6th Cycle planning period. The affordability of the units was determined based on the affordability specified on the project proposal as approved by the County.

Table H-4.3: Credits toward RHNA - Approved or Entitled Projects

	RH	NA Unit C	redits by	Income Lo	evel	
	Very Low (0-50% AMI)	Low (50- 80% AMI)	Mod (80- 100% AMI)	Above Mod (>100 % AMI)	Total	Description of affordability
Entitled/Approved Pro	jects					•
150 Shoreline	0	<u>0</u>	0	10	10	2 units at 60% based on County's inclusionary requirement
825 Drake	37	37	0	0	74	100% affordable SB 35 project w/ tax exempt bonds, Section 8 PBV and County Housing Trust funds, and Regulatory Agreement
Albion Monolith	0	1	0	8	9	1 unit at 60% based on County's inclusionary requirement
Aspen Lots	0	2	0	0	2	Local community land trust, County funds, and Regulatory Agreement restrict at 80% AMI
Downtown Project	2	7	0	0	9	Local community land trust, County funds, and Regulatory Agreement restrict 2 at 30% AMI, 7 at 50% AMI.
North Coast Seminary	0	<u>0</u>	0	<u>89</u>	89	18 units at 60% based on County's inclusionary requirement
Overlook Lots	0	2	0	0	2	Local community land trust, County funds and Regulatory Agreement restrict at 80% AMI
San Quentin Adjacent Vacant Property	0	115	115	0	230	State excess sites program County funds, 50% of units at or below 60% AMI, remaining units at low to moderate
Total Credits	39	<u>164</u>	115	<u>107</u>	425

Accessory Dwelling Units

In addition, pursuant to State law, the County may credit potential ADUs to the RHNA requirements by using the trends in ADU construction to estimate new production. According to ABAG's "Using ADUs to Satisfy RHNA" Technical Memo,6 the estimate should be based on the average number of ADU building permits issued each year, multiplied by eight (because there are eight years in a housing element cycle). Most cities base their determination of annual ADU permits by averaging the building permits approved each year since 2019 when state law made it easier to construct the units.

There is a small amount of flexibility in the calculations. If numbers were low in 2019 but were high in 2020, 2021, and 2022, a jurisdiction could potentially use 2020-2022 as the baseline. This rationale would be bolstered if there was a logical explanation for the change, e.g., the jurisdiction further loosened regulations in 2020. Since 2019, the County has issued an average of 35 building permits for ADUs:

- 2019 37 building permits issued
- 2020 32 building permits issued
- 2021 35 building permits issued

Assuming the annual average of 35 ADU permits per year since 2019, the County is projecting 280 ADUs being permitted over the eight-year planning period and is using ABAG's survey data to distribute the projected units by income category as shown in Table H-4.4.

Table H-4.4: Projected ADUs during 6th Cycle Planning Period

	RHNA Unit Credits by Income Level					
	Very Low	Low	Moderate	Above Moderate	Total	
Assumed Affordability	30%	30%	30%	10%		
Projected ADUs	84	84	84	28	280	

Based on these calculations, the County is able to meet approximately 705 of its RHNA through credit units and ADUs, and must accommodate another 2,864 units on the sites detailed in the sites inventory (Table H-4.5).

⁶ https://abag.ca.gov/sites/default/files/documents/2022-03/ADUs-Projections-Memo-final.pdf

Table H-4.5: Remaining Need After Credit and ADU Units

Sites Inventory

Government Code Section 65583.2(c) requires that local jurisdictions determine their realistic capacity for new housing growth by means of a parcel-level analysis of land resources with the potential to accommodate residential uses. The analysis of potential to accommodate new housing growth considered physical and regulatory constraints, including: lot area and configuration, environmental factors (e.g. slope, sensitive habitat, flood risk), allowable density, and other development standards such as parking requirements and building height limits.

The following summarizes the methodology to identify available sites with near-term development potential pursuant to State adequate sites standards and to the calculate the potential housing units for the Marin County 6th Cycle Housing Element is found in Appendix C. The County identified six types of sites and assessed their suitability for development as described below. <u>Figure H-4.2</u> illustrates the general location of these sites. Detailed sites information is included in Appendix C: Sites Inventory.

Figure H-4.2: Sites Inventory by RHNA Income Category

Realistic Capacity

Consistent with HCD Guidelines, the methodology for determining realistic capacity on each identified site must account for land use controls and site improvements. The Residential Multiple Planned (RMP) and Residential Commercial Multiple Planned (RCMP) designations allow residential development at a density of 20 to 45 units per acre. Based on the intensity of designations and the potential for the development of non-residential uses, the realistic capacity assumptions are set forth as follows:

- Residential, Multi-Family Planned (RMP). The RMP designation provides locations for multi-family residential development at densities from 20 to 30 units per acre. To account for land use controls, infrastructure capacity environmental constraints, and site improvements, realistic capacity is calculated based on a 20% reduction on the maximum allowable density, 16 units per acre for maximum density at 20 units per acre, or 24 units per acre for maximum density at 30 units per acre. This is a conservative estimate; more recent multi-family, affordable developments in Marin County have exceeded this density estimate. On a site-bysite basis, this realistic capacity may even be lower due to slope, wildfire, sealevel rise, and natural resource constraints. Sites with no access to sewer infrastructure but require septic systems with leach field, are applied densities at 20 units per acres. The Walnut Place affordable housing project, located in Point Reyes Station, includes 24 units built on 1.5-acre property (built density is 17 dwelling units per acre). . A portion of the property land area is devoted to the septic leach field. The use of 20% reduction of the maximum density, plus additional reductions based on physical constraints establishes conservative density estimate for projects within the County.
- Residential/Commercial Multiple, Planned (RMPC). The RMPC designation provides for a mix of residential and non-residential uses on a single development site, with an emphasis on high-density residential uses. All-residential developments are allowed, and non-residential uses are allowed in a subordinate capacity. The RMPC designation has a density of 20 of 45 dwelling units per acre. Because RMPC allows for combined residential/non-commercial uses in a manner that protects the maximum density and facilitates development of affordable units at higher densities, a 24-unit per acre realistic capacity is feasible. In larger commercial center under the RMPC, realistic capacity was calculated by identifying a portion of the center that could accommodate residential units. In many cases, the analysis included identifying parking areas, vacant lots, vacant buildings, or underutilized buildings that could be redeveloped into residential units.

Vacant Sites

Vacant sites are sites with no buildings, structures, or improvements (e.g., parking lots or storage facilities). Vacant sites include parcels that were identified as unimproved properties by the County Assessor data. To identify vacant sites that could be developed for housing development, a constraints analysis was conducted to yield realistic sites that could be developed into housing by either removing sites entirely or reducing a portion of the site that cannot be developed.

Vacant sites that were excluded as potential housing sites include sites with agricultural zoning designations or that are under Williamson Act contracts within rural areas, are under habitat conservation easements or ownership to protect natural resources or recreational access, include extensive environmental constraints, are sites not located near community services, or very small infeasible sites.

Many vacant sites include steep terrain and natural resource constraints to development, including wetlands, wildfire areas, susceptibility to sea-level rise, ridge and upland greenbelt, and stream conservation areas. Sites with significant constraints were reduced in development capacity by removing constrained areas and identifying the developable portions of the site that could accommodate clustering of housing units. Based on existing environmental context and constraints, and to produce a realistic housing count, these sites were reduced in capacity by 25% to 75%. Each site capacity percentage varies based on the extent of the constraint.

Sites identified in rural or inland areas that do not have access to sanitary sewer facilities were reduced in density to accommodate on-site wastewater treatment. These sites do not have densities that exceed 20 dwelling units per acre.

Overall, <u>24</u> vacant sites are included in the sites inventory. However, only <u>25</u> lower income units can be accommodated on vacant sites. The total number of lower income units that can be accommodated by vacant sites, ADU construction, and credit units is <u>332</u> units, or <u>19.1</u>% of the County's 1,734 lower income RHNA. Therefore, approximately <u>80</u>% of the County's lower income RHNA must be accommodated on non-vacant sites.

Underutilized Residential Sites

Underutilized residential sites are residential properties that are considered underutilized (e.g., older buildings that have not been improved in many years based on Marin County Assessor building and land assessed values) or have the zoning potential for additional residential units. The analysis does not consider potential SB9 units or ADUs beyond those projected above.

All sites selected for Underutilized Residential Sites include only one existing unit, have a building-to-land value ratio less than 2.00, include lots one acre in size or larger, and have existing residential main buildings built prior to 1980. Sites with residential buildings older than 1940 or structures 80 years or older were also removed for historical considerations. This threshold was applied under the assumption to remove

the oldest structures that could be replaced or developed by new housing development. In some cases, buildings that could be rehabilitated or adaptively reused for housing were considered.

Underutilized sites within the Baylands and City Center areas were designated as multifamily or mixed-use designation with a density of 30 dwelling units per acre. If the sites fall within the 0.5- to 10-acre range, they were designated as a Lower income site. Underutilized sites within Coastal and Inland areas were designated between 7.3 to 15 dwelling units per acre. These sites were designated for Moderate to Above Moderate income categories.

Environmental constraints were factored into the sites. If there were sea-level rise, steep terrain, natural resources, or wildfire constraints, a lower realistic development percentage was applied. Sites with wildfire constraints averaged 52% reduction of the development capacity. Housing sites that included sea-level rise constraints averaged a 60% reduction of the housing capacity. Sites with natural resources constraints, such as wetlands or adjacent to natural streams, typically averaged a 53% reduction of development capacity. Sites with steep terrain constraints, with slopes greater than 10 percent, typically averaged a 65 reduction of development capacity.

Underutilized Nonresidential Sites

Underutilized nonresidential sites are sites with commercial, office, or similar uses that are considered underutilized (e.g., older buildings that have not been improved in many years based on Marin County Assessor building and land assessed values) and are not meeting their full economic or land use potential.

For large commercial shopping centers, sites have been identified by selecting areas that have the potential for housing development. Large parking areas or commercial buildings with vacancies were identified for redevelopment. Based on the developable areas, these sites were reduced in capacity by 15% to 85%. This reduction allows for commercial uses to remain under mixed use development. The reductions vary by each commercial center.

County or Public Site

County or public sites are publicly owned sites that are currently underutilized or vacant and could accommodate residential development. Sites with public ownership were identified, including properties owned by Marin County and the State of California. Both sites (052-041-27 Shoreline Highway and 018-152-12 Sir Francis Drake Boulevard) owned by the State of California are identified as excess state-owned property that could be potentially suitable for affordable housing development. Sites with development opportunities were selected and counted for housing sites. Vacant site capacities were calculated with a 20% to 50% reduction based on constraints (e.g., terrain). Some sites were identified as underutilized and have a portion of the property available for housing development and only those areas were counted.

Religious Institution

Religious institutions sites are sites with churches or other religious institutions, with excess vacant property or large parking lots, that could accommodate residential development. Only the portion of the vacant or parking area is used as a candidate housing site. All religious properties in the unincorporated county were reviewed. Sites with the largest parking areas or surrounding vacant areas were selected or that could yield at least a half an acre when half of the property was calculated. In rural and inland areas, vacant lots appear to be used as parking areas. Half of the parking lot or vacant area (50 percent) was calculated toward housing units. Vacant areas with terrain constraints were either excluded or not selected from the analysis.

School Site

School sites are properties with schools, with underutilized or unused areas, or sites considered surplus by the school district that could accommodate residential development. Only the portion of the site considered underutilized or unused, or the entire "surplus" site, is considered a candidate housing site. Additionally, some school sites include buildings or recreational amenities that could or are currently being used as neighborhood amenities. These buildings and facilities were removed from the housing calculation analysis. Some school sites have development potential limited by environmental constraints such as flooding, sea-level rise, and terrain. Based on existing environmental context and constraints, and to produce a realistic housing count, these sites were reduced in capacity by 15% to 75% and vary by each site.

Sites Summary

The County has identified a total of 3,235 units through a combination of vacant, underutilized residential sites, underutilized nonresidential sites, County and public sites, religious institution sites, and school sites. In combination with the 425 credit units (approved/entitled projects), the County's total sites inventory has 3,660 units, including 1,840 lower income, 515 moderate income, and 1,305 above moderate income. A detailed parcel by parcel summary is in Appendix C.

The County has a RHNA shortfall of 2,864 units, as shown in Table H-4.2. Table H-4.7 shows the breakdown of the RHNA sites requiring rezone and not requiring rezone by income level. To accommodate the City's remaining shortfall RHNA, the County needs to rezone 1,349.3 acres (129 parcels) that could allow for potentially 3,210 units. Table H-4.8 shows a breakdown of the rezone RHNA units by existing zoning, acreage, number of sites, and RHNA units.

Table H-4.7: Sites Requiring Rezone by Income Level

	Lower	Moderate	Above Moderate	Total

Local Funding Opportunities

Affordable Housing Trust Fund

The County's Affordable Housing Trust Fund was established in 1980 by Resolution 88-53, along with the inclusionary housing program. Projects throughout Marin County, which serve low, very low and extremely low income households, are eligible for funding, but priority is given to rental projects located in the unincorporated County that serve the lowest income levels. Funding is to be used for land and property acquisition, development, construction, or preservation of affordable units. Applications are submitted to the Community Development Agency, and staff makes funding recommendations to the Board of Supervisors as grant requests are received. The Affordable Housing Trust Fund is primarily funded through residential in-lieu fees. commercial linkage fees, and, since 2009, the Affordable Housing Impact Fee (discussed later in this Chapter). In recent years, the Board of Supervisors has allocated \$250,000 annually from the general fund to the Affordable Housing Trust Fund. In the last twenty years, the Housing Trust has been a major funder of every affordable housing development in the unincorporated County. During the Fifth Cycle Housing Element period (2013-2021), \$13,545,980 from the Housing Trust Fund was dispersed and helped develop 120 units and rehabilitate 83 units. As of April 30, 2022, the Fund's balance is \$10,822,352.60

Restricted Affordable Housing Fund

The Community Development agency also oversees this fund, which resulted from the excess funds of mortgage revenue bonds. The Restricted Affordable Housing Fund may be used solely for the purposes of residential development or preservation for low and moderate income households. Eligible projects shall include ones that create new affordable units through new construction, or through acquisition and/or rehabilitation of existing structures, or that preserve existing affordable housing units threatened by expiration of affordability restrictions, or market forces. As of April 30, the Funds balance is \$2,241,808.47.

Priority Development Areas

Marin County is participating in the FOCUS regional planning initiative facilitated by the Association of Bay Area Governments (ABAG) and the Metropolitan Transportation Authority (MTC). Two areas within the unincorporated county, within one-half mile of Highway 101, have been designated as Priority Development Areas (PDAs): Cal Park and Marin City. The objectives of the program are to foster the valuable relationship between land use and transportation and to promote compact land use patterns. Funding is available periodically through regional sources for housing projects or planning activities within PDAs.

HUD Community Planning and Development Grants

The County is the lead agency for purposes of receiving HUD Community Planning and Development entitlement grants on behalf of all jurisdictions within the County. Annually the County receives approximately \$1.6 million in Community Development Block Grants (CDBG) and \$800,000 in HOME Investment Partnership (HOME) funds for a variety of housing and community development activities.

The CDBG program provides funds for a range of community development projects that benefit low- to moderate-income people. The program can fund a variety of activities such as: acquisition and/or disposition of real estate or property, public facilities and improvements, public services, relocation, rehabilitation of housing, and homeownership assistance.

HOME funds can be used for activities that provide affordable housing opportunities for low to moderate income households, such as development of new affordable units, owner-occupied housing rehabilitation, homebuyer assistance, and tenant-based rental assistance. The County uses HOME funds to gap-finance affordable housing projects throughout the County. However, the County has signed a voluntary agreement to avoid an overconcentration of affordable units in areas of minority concentration, including Marin City and the Canal neighborhood.

Permanent Local Housing Allocation (PLHA)

In 2017, Governor Brown signed a 15-bill housing package aimed at addressing the State's housing shortage and high housing costs. Specifically, it included the Building Homes and Jobs Act (SB 2, 2017), which establishes a \$75 recording fee on real estate documents to increase the supply of affordable homes in California. Because the number of real estate transactions recorded in each county will vary from year to year, the revenues collected will fluctuate.

The first year of SB 2 funds are available as planning grants to local jurisdictions. For the second year and onward, 70% of the funding will be allocated to local governments for affordable housing purposes. A large portion of year two allocations will be distributed using the same formula used to allocate federal Community Development Block Grants (CDBG). SB2 PLHA funds can be used to:

- Increase the supply of housing for households at or below 60% of AMI
- Increase assistance to affordable owner-occupied workforce housing
- Assist persons experiencing or at risk of homelessness
- Facilitate housing affordability, particularly for lower and moderate income households
- Promote projects and programs to meet the local government's unmet share of regional housing needs allocation

The County anticipates receiving between \$750,000 to \$1,500,000 in PLHA annually and has committed funds to projects for allocations received to date.

Opportunities for Energy Conservation

Housing elements are required to identify opportunities for energy conservation. Since the deregulation of energy companies in 1998, the price of energy has skyrocketed. With such an increase in prices, energy costs can account for a substantial portion of housing costs. There are a number of programs offered locally, through the local energy distributor (PG&E), Marin's own clean energy provider (MCE Clean Energy), the Bay Area Regional Energy Network (BayREN), and through the State of California that provide cost-effective energy savings. The County makes information regarding energy conservation available to the public on its website.^[1]

Effective energy conservation measures built into or added to existing housing can help residents manage their housing costs over time and keep lower income households' operating costs affordable. There are several significant areas in which the County of Marin is encouraging energy conservation in new and existing housing:

- All residential projects requiring discretionary planning review must comply with the County's green building ordinance which includes additional energy efficiency measures.
- The Housing Rehabilitation Loan Program assists low income owners in the rehabilitation of older housing units, which can include energy efficiency improvements.
- The County has sponsored various incentives, such as free solar and green building technical assistance programs that assist owners in converting to green energy technologies and green building techniques.
- Land use policies in the 2007 Countywide Plan promote more compact neighborhoods, encourage in-fill development, and promote cluster development.
- MCE Clean Energy and the BayREN offers tenants of multi-family properties. Homeowners, and renters of single-family units no-cost walk-through energy assessments to identify potential energy and cost savings opportunities and incentives to assist with energy upgrades to the common area and units. Additionally, both programs offer no-cost energy savings kits for residents that include LED lamps, smart power strips, faucet aerators, and more.
- The County-led Electrify Marin program offers free technical assistance and rebates to encourage homeowners to replace natural gas burning appliances such as space and water heating and cooking appliances with high efficiency electric units. The replacement units use less energy and improve the indoor air quality of the home. The Electrify Marin rebates can also be combined with

^[1] https://www.marincounty.org/residents/environment/conservation-and-energy

incentives provided by BayREN and the state.

- The BayREN Home+ program provides single family homeowners no-cost technical assistance and rebates for energy efficiency and electrification projects. Measures eligible for rebates include insulation, air sealing, duct sealing/replacement, and HVAC and water heater upgrades.
- MCE Clean Energy offers an income-qualified single family energy efficiency program. MCE Home Energy Savings program provides income-qualifying residents with free in-person or virtual home energy assessments, free upgrade projects including attic insulation, gas furnace replacement, and water heater replacement, and a complimentary energy-saving toolkit. Income guidelines are set at 200% to 400% above federal poverty line.
- Peninsula Energy Services is the current provider in Marin for the federally funded Low-Income Heating and Energy Assistance Program (LIHEAP). LIHEAP provides no-cost weatherization and other energy efficiency home improvements to income-qualified residents. LIHEAP income guidelines are up to 200% federal poverty line.
- MarinCAN is a community-driven campaign to dramatically reduce greenhouse gas (GHG) emissions, prepare for climate change impacts, and meaningfully address and integrate equity. MarinCAN works with Marin County residents, businesses, organizations, agencies, and local governments to design and implement local climate change solutions in 6 Focus Areas: Renewable Energy, Transportation. Buildings and Infrastructure, Local Food and Waste, Carbon Sequestration. Climate Resilient Communities.
- Energy Efficiency Programs for Renters: People who rent their homes face challenging barriers when it comes to making energy efficiency improvements. Most projects that require a building permit (furnace, water heater, or window replacement, insulation upgrades, and more) also require property owner approval. Additionally, most renters do not want to pay for property improvements to a home they do not own. The County encourages renters to have discussions about equipment upgrades and share resources with their property owners. For these types of upgrades, the County recommends renters inform their property owners of rebate program opportunities when discussions are being held around replacing old equipment. The MCE Clean Energy and BayREN energy savings kits programs are open to renters in single family homes.

Through these and other conservation measures, the County seeks to help minimize the proportion of household income that must be dedicated to energy costs, as well as to minimize the use of nonrenewable resources.

CHAPTER 5: GOALS, POLICIES, AND PROGRAMS

Overview

State law requires each jurisdiction to address how it will satisfy the objectives for new residential units as represented by the Regional Housing Needs Allocation (RHNA). Means of achieving the development of these units should be outlined through policies and programs in the Housing Element.

Marin County's housing policies and programs have been revised to reflect the major themes identified through the County's community outreach process and a critical evaluation of the programs and policies from the 2015 Housing Element (found in Appendix B: Evaluation of 2015 Housing Element Programs). Implementing programs are grouped by the housing goals described below. Additionally, under State law to Affirmatively Furthering Fair Housing (AFFH), policies and programs must be examined under the lens of affirmatively furthering fair housing and a commitment to specific meaningful actions (Appendix D: Affirmatively Furthering Fair Housing).

Goal 1: Use Land Efficiently

Use Marin's land efficiently to meet housing needs and implement smart and sustainable development principles.

Goal 2: Meet Housing Needs through a Variety of Housing Choices

Respond to the broad range of housing needs in Marin County by supporting a mix of housing types, densities, affordability levels, and designs.

Goal 3: Ensure Leadership and Institutional Capacity

Build and maintain local government institutional capacity and monitor accomplishments to respond to housing needs effectively over time.

Goal 4: Combat Housing Discrimination, Eliminate Racial Bias, Undo Historic Patterns of Segregation

Lift barriers that restrict access in order to foster inclusive communities and achieve racial equity, fair housing choice, and opportunity for all Californians.

Policies are organized around these four central goals, with an emphasis on facilitating development of housing affordable to lower and moderate income households in Marin. Strategies to aid in achieving these goals include:

- Provide clear standards and incentives for affordable and special needs housing developments to minimize risk and costs to funders and developers.
- Minimize discretionary review; streamline the permitting process.
- Establish programs appropriate to various Marin locations (urban vs. rural) and be responsive to the needs of communities.

These ideas have been carried through in the Housing Element update to be implemented with a series of programs.

Upon adoption, the County will provide the Housing Element to all water and sewer service districts and notify all districts of the requirement to prioritize water and sewer service allocation for new affordable housing development (Government Code Section 65589.7).

Goals and Policies

Housing Goal 1: Use Land Efficiently

Use Marin's land efficiently to meet housing needs and to implement smart and sustainable development principles.

Policy 1.1: Land Use

Enact policies that encourage efficient use of land to foster a range of housing types in our community.

Policy 1.2: Regional Housing Needs Assessment

Maintain an adequate inventory of residential and mixed-use sites to fully accommodate the County's RHNA by income category throughout the planning period.

Policy 1.3: Housing Sites

Recognize developable land as a scarce community resource. Protect and expand the supply and residential capacity of housing sites, particularly for lower income households.

Policy 1.4: Development Certainty

Promote development certainty and minimize discretionary review for affordable and special needs housing through amendments to the Development Code.

Policy 1.5: Design, Sustainability, and Flexibility

Enact programs that facilitate well designed, energy efficient development and

flexibility of standards to encourage outstanding projects.

Housing Goal 2: Meet Housing Needs through a Variety of Housing Choices

Respond to the broad range of housing needs in Marin County by supporting a mix of housing types, densities, affordability levels, and designs.

Policy 2.1: Special Needs Groups

Expand housing opportunities for special needs groups, including seniors, people living with disabilities (including mental, physical, and developmental disabilities), agricultural workers and their families, individuals and families experiencing homelessness, single-parent families, large households, lower income (including extremely low-income) households, and other persons identified as having special housing needs in Marin County.

Policy 2.2: Supportive Services

Link housing to Department of Health and Human Services programs in order to coordinate assistance to people with special needs.

Policy 2.3: Workforce Housing

Implement policies that facilitate housing opportunities to meet the needs of Marin County's workforce, especially those earning lower incomes.

Policy 2.4: Incentives for Affordable Housing

Continue to provide a range of incentives and tools to ensure development certainty and cost savings for affordable housing providers.

Policy 2.5: Preserve Existing Housing

Protect and enhance the housing we have and ensure that existing affordable housing remains affordable and residents are not displaced.

Policy 2.6: Preserve Permanent Housing Inventory

Preserve our housing inventory for permanent residential uses. Discourage or mitigate the impact of short-term rentals and units unoccupied for extended periods of time.

Housing Goal 3: Ensure Leadership and Institutional Capacity

Educate the community regarding the need for a diverse and balanced inventory of housing to further equal access to housing opportunities. Build and maintain local government institutional capacity and monitor accomplishments to respond to housing needs effectively over time.

Policy 3.1: Community Participation

Maintain an open channel of communications among the community, County staff, and decision makers. Ensure inclusive and meaningful efforts are undertaken to obtain input from diverse groups in the community. When needed, employ additional efforts to include those that are typically excluded or under-represented.

Policy 3.2: Coordination

Take a proactive approach in local housing coordination, policy development, and communication. Share resources with cities and towns and other agencies to effectively create and respond to opportunities for achieving housing goals.

Policy 3.3: Research, Monitoring, and Evaluation

Perform effective management of housing data relating to Marin County housing programs, production, and achievements. Monitor and evaluate housing policies on an ongoing basis and respond expeditiously to changing housing conditions and needs of the population over time.

Policy 3.4: Funding

Actively and creatively seek ways to increase funding resources for affordable and special needs housing.

Housing Goal 4: Combat Housing Discrimination, Eliminate Racial Bias, Undo Historic Patterns of Segregation

Lift barriers that restrict access in order to foster inclusive communities and achieve racial equity, fair housing choice, and opportunity for all local workers and current and future residents of Marin.

Policy 4.1: Tenant Protection

Implement policies and actions to protect tenants from unlawful evictions as well as direct and indirect (economic) displacement, and to promote greater education around tenants' rights.

Policy 4.2: Fair Housing Outreach and Education

Proactively conduct outreach and educate the community about fair housing rights and responsibilities.

Policy 4.3: Affirmatively Further Fair Housing

Ensure that the County's land use, development, and housing policies further the goal of equal access to housing opportunities.

Implementing Programs

A housing program can implement more than one goal and multiple policies. Furthermore, some programs and actions may target specific areas of implementation in order to bridge existing service gaps, access to resources, and disproportionate housing needs.

Housing Supply

Program 1: Adequate Sites for RHNA and Monitoring of No Net Loss

The County of Marin has been allocated a need of 3,569 units (1,100 very low income, 634 low income, 512 moderate income, and 1,323 above moderate income units). Based on projected ADUs and entitled projects, the County has met <u>705</u> of its RHNA, with a remaining RHNA of <u>2,864</u> units (1,<u>343</u> lower income, <u>313</u> moderate income, and 1,208 above moderate income units).

To accommodate this remaining RHNA, the County has identified an inventory of sites with potential for redevelopment over the eight-year planning period. The inventory includes sites that can accommodate only 25 additional units under current Countywide Plan (CWP) and Development Code. The inventory also includes sites that will be rezoned/upzoned concurrent with this Housing Element update. Sites identified for rezoning/upzoning can accommodate 3,210 units (see Table H-5.1). The County is committed to redesignating and rezoning accordingly by January 31, 2023. Appendix C contains a detailed parcel listing of properties in the inventory, including those that will be redesignated/rezoned concurrent with the Housing Element update.

Table H-5.1: Summary of Areas to be Rezoned

Existing Zoning	Acreage	Parcels	RHNA Units
Admin and Professional	<u>1.7</u>	<u>1</u>	<u>13</u>
Agriculture and Conservation	200.0	<u>2</u>	<u>275</u>
Agriculture Limited	<u>290.8</u>	<u>11</u>	904
Agriculture Residential Planned	<u>93.3</u>	<u>4</u>	<u>140</u>
Limited Roadside Business	<u>3.3</u>	<u>5</u>	<u>76</u>
Open Area	<u>31.4</u>	<u>1</u>	<u>50</u>
Planned Commercial	30.9	<u>9</u>	<u>365</u>
Public Facilities	<u>45.6</u>	<u>7</u>	224
Residential Agriculture	<u>11.2</u>	<u>3</u>	<u>31</u>
Residential Commercial Multiple Planned	<u>19.4</u>	<u>19</u>	<u>237</u>
Residential Multiple Planned	<u>564.4</u>	<u>13</u>	<u>221</u>
Residential Single Family	<u>12.1</u>	<u>15</u>	<u>175</u>
Residential Single Family Planned	<u>24.1</u>	<u>16</u>	<u>255</u>
Resort and Commercial Recreation	<u>2.2</u>	1	<u>36</u>
Retail Business	<u>1.6</u>	<u>2</u>	<u>36</u>
Village Commercial Residential	<u>17.3</u>	<u>20</u>	<u>172</u>
<u>Total</u>	<u>1,349.3</u>	<u>129</u>	<u>3,210</u>

To ensure that the County complies with Government Code Section 65863 (No Net Loss), the County will monitor the use of residential and mixed-use acreage included in the sites inventory to ensure an adequate inventory is available to meet the County's RHNA obligations throughout the planning period. To ensure sufficient residential capacity is maintained to accommodate the RHNA, the County will develop and implement a formal, ongoing, project-by-project evaluation procedure pursuant to Government Code Section 65863. Should an approval of development result in a reduction of residential capacity below what is needed to accommodate the remaining need for households at an income level, the County will identify replacement sites as part of the findings for project approval, or if necessary, rezone sufficient sites to accommodate the shortfall and ensure "no net loss" in capacity to accommodate the RHNA within six months.

	■ Complete redesignation/rezoning of 1,352.5 acres as outlined in Table H-5.1 to fully accommodate the RHNA. Redesignation and rezoning for adequate sites is being taken concurrently with the Housing Element update and to be completed concurrent with or prior to Housing Element adoption before January 31, 2023. Specifically, the County will completely revamp the Housing Opportunity sites (HOD) policy language in the CWP to outline:			
	 Allowable density 			
	Maximum and minimum number of units			
	 Site constraints if any 			
On a sifin A ations	Objective Design Standards category			
Specific Actions and Timeline	By <u>January 31, 2023</u> , amend the CWP to adjust the Inland Rural/City-Center corridor boundary and to ensure consistency between CWP and zoning districts.			
	 Ongoing, maintain an inventory of the available sites for residential development and make it available on County website. Update sites inventory annually to reflect status of individual sites. 			
	By January 2024, implement a formal evaluation procedure pursuant to Government Code Section 65863 to monitor the development of vacant and nonvacant sites in the sites inventory and ensure that adequate sites are available to meet the remaining RHNA by income category.			
	 By the end of 2024, update the Local Coastal Plan to be consistent with the CWP. 			
Primary Responsible Departments	Housing			
Funding Sources	General Fund			
Relevant Housing Policies	1.1, 1.2, and 1.3			

Program 2: By Right Approval

Pursuant to Government Code Section 65583.2, reusing the following types of sites in the County's sites inventory for lower income RHNA are subject to by-right approval exempt from CEQA and subject only to design review based on objective standards, when a project includes 20 percent of the units affordable to lower income households and no subdivision is proposed:

- Vacant sites that were identified in the County's 4th and 5th cycles Housing Element as sites for lower income RHNA; and
- Nonvacant sites that were identified in the County's 5th cycle Housing Element as sites for lower income RHNA.

Parcels that are subject to by-right approval pursuant to State law are identified in Appendix C.

In addition, the County may consider expanding the scope of streamlining:

- For sites not subject to Section 65583.2 projects that include 20 percent of the units affordable to homeowners at 60 percent AMI or to renters at 50 percent AMI; and/or
- 100 percent affordable projects on any Housing Element sites.

Specific Actions and Timeline	 By <u>January 31, 2023</u>, concurrent with the Development Code and CWP update to provide adequate sites for RHNA (see Program 1), update the Development Code to address the by-right approval requirements.
Primary Responsible Departments	Planning
Funding Sources	General Fund
Relevant Housing Policies	1.3 and 1.4

Program 3: Replacement Housing

Development on all nonvacant sites designated in the Housing Element, at all income levels, that contain existing residential units, or units that were rented in the past five years, is subject to the replacement housing requirements specified in Government Code sections 65583.2 and 65915.

Specific Actions and Timeline	■ By January 31, 2023, as part of the redesignation and rezoning being undertaken concurrently with the Housing Element update (see Program 1, update the Development Code to address the replacement requirements).
Primary Responsible Departments	Planning
Funding Sources	General Fund
Relevant Housing Policies	1.1, 1.3, and 2.5

Program 4: Accessory Dwelling Units

Accessory Dwelling Units (ADUs) are an important resource to provide lower and moderate income housing in the unincorporated County. To facilitate ADU production, the County will:

- Dedicate a specific page on the County website to provide information and resources for ADU construction.
- Dedicate an ombudsperson position to help applicants navigate the predevelopment phase of ADU construction.
- Develop an ADU construction guide to clarify the permit application process and requirements. The guide will outline the required review by various departments and fees required.
- Provide financial assistance to income-qualified property owners to build ADUs using State funds (such as Cal HOME funds).
- Develop incentives or strategies to encourage the use of ADUs as housing units (as opposed to pool houses, for example).
- Develop pre-approved plans for different unit sizes to facilitate the permitting process.

	 Permit on average 35 ADUs or JADUs per year (280 ADUs or JADUs over eight years). 	
	 Update ADU webpage semi-annually, or more frequently as needed, to ensure information addresses questions raised by applicants. 	
	 By December 2023, create an ombudsperson position to help property owners navigate the ADU pre-development process. 	
	 By December 2023, develop pre-approved plans for different ADU unit sizes. 	
Specific Actions and Timeline	 Annually, pursue and allocate financial incentives to support ADU construction with the annual goal of assisting 5 lower income households with ADU construction or deed restricting 5 ADUs as affordable housing. 	
	 By the end of 2025, develop incentives or strategies to encourage the use of ADUs as housing units. 	
	■ By January 31, 202 <u>5</u> and every other year thereafter, review the production of ADUs to verify that Housing Element projections are accurate, including production level and affordability. If production estimates are below the estimates in the Housing Element, within six months of the review, revise the County's ADU strategies to help achieve overall goal of at least 280 ADUs during the planning period. Revised strategies may include alternative actions such as increased outreach, reduced fees, streamlined process, and/or rezone additional properties if a RHNA shortfall is resulted (see also Program 1 monitoring of no net loss requirements).	
Primary Responsible Departments	Housing; Planning; Building; Environmental Health Services; Public Works	
Funding Sources	General Fund; CalHome; Marin County Collaborative REAP	
Relevant Housing Policies	1.3, 1.4, 2.4, and 3.4	

Program 5: SB 9 Mapping Tool

SB 9 (Government Code Section 65852.21) is a new regulation that allows property owners to build additional units on their properties. In the unincorporated County, properties eligible to utilize SB 9 are limited to those in urbanized areas and in urban clusters, in addition to other exclusions included in the statute. However, opportunities may also exist in the coastal area. The County will facilitate the SB 9 process by developing a mapping tool to help property owners within the urbanized areas determine if their properties may be eligible to utilize SB 9 to add new units onsite. Furthermore, the mapping tool will be used to conduct feasibility of applying SB 9 within the coastal zone.

Charifia Astiona	 By December 2023, develop and implement an online mapping tool that will identify areas in the unincorporated area that are eligible to use SB 9. 	
Specific Actions and Timeline	 By mid-2024, conduct feasibility of applying SB 9 within the coastal zone. If feasible, consistent with the Coastal Act, amend SB 9 ordinance to include the coastal zone (or portions of). 	
Primary Responsible Departments	Housing; Planning; Public Works	
Funding Sources	Marin County Collaborative REAP Funds	
Relevant Housing Policies	1.1, 3.1, 3.2, and 3.3	

Program 6: Efficient Use of Multi-Unit Land

The County permits single-unit homes in all residential zones and nonresidential zones that permit housing, potentially reducing the achievable density in multi-unit development. Establishing minimum densities will ensure efficient use of the County's multi-unit land and prohibit the construction of new detached single-unit homes on multi-unit zoned property. Existing single-unit homes on multi-unit zoned property can remain and limited expansion or improvement, or reconstruction to replace units damaged due to accidents or disasters would be permitted.

To facilitate efficient use of land, some jurisdictions have also established target densities (tied to the calculation of RHNA potential, for example) to ensure no net loss of capacity as development occurs.

Also, currently no conventional zones in the County permit multi-unit housing, and only ten percent of the parcels are zoned to permit multi-unit residential use. This limited land available solely for multi-unit use is a potential constraint to housing development.

-	
By December 2023, amend the Development Code to:	
 Establish minimum densities for multi-unit and mixed- use zones. 	
 Specify the rounding up to the whole number in calculating density. 	
■ By December 2023:	
 Explore and, if appropriate, develop target density for each zone. 	
 Create a residential combining district that allows for form-based objective development standards rather than discretionary review. 	
Planning	
General Fund	
1.1, 2.4, and 2.5	

Program 7: Religious and Institutional Facility Housing Overlay

Government Code Section 65913.6 allows a religious institution to develop an affordable housing project at a place of worship owned by the religious institution even if the development requires the religious institution to reduce the number of religious-use parking spaces available. This bill applies only to religious facilities located in zones that allow residential uses.

The County will establish a Religious and Institutional Facility Housing Overlay with the following potential provisions:

- Expanding the provisions of Section 65913.6 to other institutional uses, such as schools and hospitals, as well as religious facilities located in zones that currently do not allow residential uses.
- Allowing religious and institutional uses to construct up to four ADUs and

JADUs onsite when a	n affordable housing	development m	av not be feasible.
0. 12 0 0 0 110 110 11 01		,	.,

Specific Actions and Timeline	 Beginning in 2023, conduct outreach to religious and institutional facilities regarding the Overlay opportunity. By December 2024, establish a Religious and Institutional Facility Housing Overlay to extend the provisions of Section 65913.6 to other institutional and religious uses. 	
Primary Responsible Departments	Planning, Housing	
Funding Sources	General Fund	
Relevant Housing Policies	1.3 and 2.4	

Program 8: Development Code Amendments

The County will amend the Development Code to address the following to facilitate development of a variety of housing types:

- Residential Use in Mixed-Use Development: The County allows residential uses on the upper floors and residential units are limited between 25 and 29 percent of the floor area. Amend the Development Code to allow at least 50 percent of the floor area as residential use.
- Height Limit: The 30-foot height limit is potentially constraining to achieving a density of 30 units per acre. Amend the Development Code to increase the height limit to 45 feet.
- Accessory Dwelling Units: Currently, the County's ordinance does not allow an ADU to be sold or otherwise conveyed separately from the primary dwelling unit. However, State law makes an exception if the property is owned by a nonprofit organization. The County will amend the ADU regulations to be consistent with State law.
- Agricultural Worker and Employee Housing: The County's provisions for agricultural worker housing is not consistent with the State Employee Housing Act. Furthermore, the Development Code does not contain provisions for employee housing. Pursuant to the Employee Housing Act, any housing for six or fewer employees (in any industry) should be permitted as single-unit residential use. The County will amend agricultural worker provisions in the Development Code to be consistent with State law.

- Residential Care Facilities: The County permits residential care facilities for six or fewer persons in all residential zones. For residential care facilities for seven or more persons, a conditional use permit is required. The County will revise the Development Code to permit or conditionally permit large residential care facilities in all zones that permit residential uses, as similar uses in the same zone, and to ensure the required conditions for large facilities are objective and provide certainty in outcomes.
- Transitional and Supportive Housing: Pursuant to State law, transitional and supportive housing is to be considered a residential use to be similarly permitted as similar uses in the same zone. Currently, transitional and supportive housing is not specifically identified in the Coastal Zone in areas where residential uses are permitted or conditionally permitted. The Development Code will be amended to address the provision of transitional and supportive housing in the Coastal Zone.

Pursuant to State law (Government Code Section 65650 et seq.), supportive housing developments of 50 units or fewer that meet certain requirements must be permitted by right in zones where mixed-use and multi-unit development is permitted. Additionally, parking requirements are prohibited for supportive housing developments within one half mile of a transit stop. The County will amend Title 24 of the Municipal Code to address the parking requirements to comply with State law (see Program 9).

- Emergency Shelters: Government Code Section 65583 requires that parking standards for emergency shelters be established based on the number of employees only and that the separation requirement between two shelters be a maximum of 300 feet. The County Development Code and Title 24 will be revised to comply with this provision.
- Low Barrier Navigation Center (LBNC): Government Code section 65660 et seq. requires that LBNCs be permitted by right in mixed-use and nonresidential zones that permit multi-unit housing. The Development Code will be amended to include provisions for LBNC.
- Density Bonus: The County adopted an ordinance in 2021 that was consistent with state density bonus law at that time. However, since then, there have been some additional statutory changes. The Development Code will be amended to address all recent changes to the State Density Bonus law.

Specific Action	S
and Timeline	

 By December 2023, amend the Development Code and Title 24 as outlined above to facilitate a variety of housing types, especially for special needs populations.

Primary Responsible Departments	Planning, Department of Public Works
Funding Sources	General Fund
Relevant Housing Policies	1.1, 2.1, 2.3, and 2.4

Program 9: Parking Standards

The County's current parking standards are codified in Title 24 of the Municipal Code. The parking standards will be updated to address the following:

- Parking for Multi-Unit Housing: The County current standards are slightly
 higher than the standards established for the State density bonus program. The
 County will reduce the parking requirements to match the State density bonus
 requirements.
- Supportive Housing: Pursuant to State law (Government Code Section 65650 et seq.), parking requirements are prohibited for supportive housing developments of 50 units or fewer meeting certain requirements and located within one-half mile of a transit stop.
- Emergency Shelters: Government Code Section 65583 requires that parking standards for emergency shelters be established based on the number of employees only, not based on shelter capacity (such as number of beds).

Specific Actions and Timeline	 By December 2023, amend Title 24 of the Municipal Code to reduce parking requirements for multi-unit housing, and to revise parking requirements for supportive housing meeting certain criteria and emergency shelters.
Primary Responsible Departments	Public Works
Funding Sources	General Fund
Relevant Housing Policies	1.1 and 2.1

Program 10: Objective Development Standards for Off-Site Improvements

Development projects in the County are required to make on- and off-site improvements. The Objective Design Standards that the County has been working on impact only on-site improvements and cover a property up to the right of way. Many rural communities in the unincorporated areas do not have standardized requirements for off-site improvements (such as streetscape improvements), which can make development uncertain and add costs.

Specific Actions and Timeline	By December 2025, establish objective development standards for off-site improvements.
Primary Responsible Departments	Housing; Planning; Public Works
Funding Sources	General Fund
Relevant Housing Policies	1.1 and 1.5

Program 11: Water Availability

Availability of water is a significant constraint to housing development in the County and beyond. The County will pursue several strategies to mitigate this constraint to the extent feasible.

The State has a new requirement for county jurisdictions to take over very small water connections and wells (less than 20 connections). DPW has requested proposals for a development of a Marin County Drought and Water Shortage Risk Mitigation Plan that would include the small water districts and coordination with all other Marin Water districts. The Housing Division will work with DPW with the goal of issuing the RFP for the mitigation plan in 2025.

	•	Continue to promote sustainability strategies (such as water conservation and recycling).
Specific Actions and Timeline	•	Beginning in 2023, collaborate with water service providers to conduct a strategic water supply assessment in 2023 to evaluate increased supply within Marin (e.g., increased reservoir capacity, new reservoir(s), increase use of recycled water, desalinization plant) and external to Marin (e.g., EBMUD, Russian River water).

	 Upon adoption of the Housing Element, submit it to all water districts and notify all water districts of the requirement to prioritize water allocation for new affordable housing development (Government Code Section 65589.7). Issue RFP for the Drought and Water Storage Risk Mitigation Plan in 2025.
Primary Responsible Departments	Housing, MMWD, NMWD
Funding Sources	General Fund, State infrastructure funds
Relevant Housing Policies	1.5

Program 12: Septic for Multi-Unit Housing

Parts of the County have no sewer services, with properties relying on individual onsite septic systems. The County will pursue strategies to address this constraint to multi-unit development.

Specific Actions and Timeline	 In 2023 initiate a study to identify alternative approaches to sewage disposal (e.g., package plants, community systems, incinerator toilets, etc.). Upon completion of the study, update by 2024 the County's methodology for calculating septic capacity. In 2024, develop standards for multi-unit development in septic areas. 	
Primary Responsible Departments	Housing; Environmental Health Services	
Funding Sources	General Fund	
Relevant Housing Policies	1.5	

Special Needs Housing

Program 13: Reasonable Accommodation

Reasonable Accommodation provides flexibility in the implementation of land use and development regulations in order to address the special housing needs of persons with disabilities. The review and approval process of Reasonable Accommodation requests may delay a person's ability to access adequate housing. The County will expedite Reasonable Accommodation requests. (See also Program 21: Rehabilitation Assistance for funding available to assist lower income households in making accessibility improvements.)

Specific Actions and Timeline	 Beginning in 2023, offer expedited review and approval of Reasonable Accommodation requests.
Primary Responsible Departments	Planning, Building and Environmental Health Services
Funding Sources	General Fund
Relevant Housing Policies	2.1 and 4.3

Program 14: Universal Design and Visitability

Universal design is the design of buildings or environments to make them accessible to all people, regardless of age, disability, or other factors. Universal design goes beyond ADA requirements but may add to the cost of construction. Typically, local governments incentivize the use of universal design principles.

Currently, visitability is a requirement for HUD-funded single-unit or owned-occupied housing. Visitability refers to housing designed in such a way that it can be lived in or visited by people who have trouble with steps or who use wheelchairs or walkers. The County may consider expanding the visitability requirement to multi-unit housing.

Specific Actions and Timeline	 In 2024, study policies and/or incentives to encourage requirements for universal design and visitability, and develop them by 2025 for implementation.
Primary Responsible Departments	Housing, Planning and Building

Funding Sources	General Fund
Relevant Housing Policies	2.1 and 4.3

Program 15: Housing for Farmworkers and Hospitality Workers

Agricultural operations represent an important component of the County's economic base. Most farming operations are small dairies, individually employing a small number of farmworkers. These farms often do not have the ability to provide housing for all their workers. Year-round fishery operations also employ a significant number of workers collectively. In addition, Marin County is a popular tourist destination. Farmworkers, fishery workers, and hospitality employees typically earn lower incomes and have limited affordable housing options. The County will explore policies that facilitate the provision of affordable housing for these workers. Potential considerations include:

- Setting aside a specific percentage of affordable housing units for farmworkers within larger affordable housing developments.
- Partnering with other jurisdictions, farm operators, hotels, and other hospitality employers in the region to contribute to an affordable housing fund or a community land trust. Funding collected can be used to acquire, develop, and/or rehabilitate housing for farmworkers.
- Requiring hospitality employers to provide housing to temporary employees during peak seasons.

Specific Actions and Timeline	 By December 2025, develop strategies for addressing farmworker and hospitality worker housing, with the goal of increasing housing for these employees by 20 percent. Annually convene with interested employers and 	
	 affordable housing developers to pursue implementation of strategies for affordable housing and pursue funding at state and federal levels. In 2028, assess the effectiveness of strategies and modify the approach if necessary, by 2029. 	
Primary Responsible Departments	Housing	

Funding Sources	General Fund	
Relevant Housing Policies	2.1 and 2.3	

Program 16: Project Homekey

The County is actively pursuing Project Homekey opportunities in order to provide permanent supportive housing for people experiencing homelessness. Homekey is an opportunity for the County to pursue funding for the development of a broad range of housing types, including but not limited to hotels, motels, hostels, single-family homes, multi-unit apartments, adult residential facilities, and manufactured housing, and to convert commercial properties and other existing buildings to permanent or interim housing for the homeless.

Specific Actions and Timeline	 In 2023, identify locations that may be appropriate as Project Homekey sites and conduct outreach to interested nonprofit developers to pursue funding from HCD. Pursue Project Homekey funding annually and if Project Homekey funds become unavailable, pursue other funding sources. Develop 20 units using Project Homekey over eight years. 	
Primary Responsible Departments	Housing; Health and Human Services	
Funding Sources	HCD Project Homekey Funds; HOME; other affordable housing funds	
Relevant Housing Policies	2.1, 2.2, and 4.3	

Program 17: Housing for Seniors

The County has a high proportion of aging residents. Many have expressed the need for additional senior housing options, specifically allowing seniors to trade their current homes for other housing that requires less maintenance, is designed to accommodate the mobility needs of seniors, and is more affordable. The County will pursue a variety of housing options for seniors.

Specific Actions and Timeline	In 2023, explore expansion of home match services to help match over-housed seniors with potential lower income tenants or other seniors to save on housing costs.	
	In 2024, develop incentives and development standards to facilitate various senior housing options (such as senior apartments/homes, co-housing, assisted living, residential care, memory care, and board and care, etc.).	
Primary Responsible Departments	Housing	
Funding Sources	General Fund	
Relevant Housing Policies	2.1 and 4.3	

Preservation of Housing

Program 18: Short-Term Rentals

The County may explore options for limiting short-term rentals in all areas of the unincorporated County including West Marin that currently has a moratorium that is set to expire in 2024 in order to preserve housing units for permanent residential use. Strategies may include:

- Prohibiting short-term rentals (no less than 30 days allowed)
- Limiting the number of days the unit can be used for short-term rentals
- Prohibiting short-term rentals in all multi-unit dwellings
- Allowing for short-term rentals if the property is the owner's primary residence
- Benchmarking the number of short-term rentals allowed to no more than a specific percentage of the community's rental housing stock

Specific Actions and Timeline	 In 2024, evaluate and adopt strategies for regulating short- term rentals. 	
Primary Responsible Departments	Planning	
Funding Sources	General Fund	
Relevant Housing Policies	2.6 and 3.3	

Program 19: Vacant Home Tax

The vacancy rate in the unincorporated County is about 10 percent with close to 60 percent of vacant units used for recreational, seasonal, and occasional purposes. Accessory Dwelling Units in more affluent portions of the unincorporated County are often not occupied as housing units. A vacant home tax is an emerging strategy for discouraging leaving homes unoccupied for extended periods of time.

Specific Actions and Timeline	In 2024, study the feasibility of a vacant home tax as a strategy to discourage unoccupied housing units and increase revenue for affordable housing. If appropriate, pursue ballot measures in 2025 to establish tax.	
Primary Responsible Departments	Housing	
Funding Sources	General Fund	
Relevant Housing Policies	2.6	

Program 20: Monitoring of Rental Housing

The Marin County Landlord Registry was established in 2019 and requires landlords to report rents and general occupancy information for all rental properties subject to the Just Cause for Eviction ordinance. While the registry is designed to collect data on the rental market, the data provides an incomplete picture since a large portion of rental units are exempt from the Just Cause for Eviction ordinance.

Also, the County Development Code prohibits conversion of multi-unit rental units into

condominiums unless the vacancy rate exceeds five percent and the change does not reduce the ratio of multi-unit rental units to less than 25 percent of the total number of dwelling units in the County.

Specific Actions and Timeline	 Continue to implement the Landlord Registry and Condominium Conversion ordinance. In 2024, expand Landlord Registry requirements to cover all rental units in the unincorporated County. 	
Primary Responsible Departments	Housing	
Funding Sources	General Fund	
Relevant Housing Policies	3.3 and 4.1	

Program 21: Rehabilitation Assistance

The County supports the housing rehabilitation needs of lower income households through:

- Residential Rehabilitation Loan Program: provides low-interest property improvement loans and technical assistance to qualified, very low income homeowners to make basic repairs and improvements, accessibility improvements, correct substandard conditions, and eliminate health and safety hazards.
- Funding assistance to Marin Center for Independent Living (MCIL) home modification program to increase independence and accessibility for renters and homeowners.

Specific Actions and Timeline	 Provide rehabilitation loans to 10 households annually (80 households over eight years). 	
	 Provide support for 6 households to make accessibility improvements annually (48 households over eight years). 	
	 Continue to support nonprofit organizations in providing rehabilitation assistance to lower income renters and homeowners. 	
Primary	Housing and Federal Grants	

Responsible Departments	
Funding Sources	CDBG
Relevant Housing Policies	2.1, 2.5, 2.6, and 3.4

Program 22: Habitability

The County Department of Environmental Health's Housing Services conducts inspections on residential structures of three or more units only. Single-unit homes and duplexes are not covered by inspection services.

Specific Actions and Timeline	 In 2025, expand the inspection services to cover the entire housing stock. 	
Primary Responsible Departments	Environmental Health Services	
Funding Sources	General Fund	
Relevant Housing Policies	2.5 and 2.6	

Program 23: Preservation of At-Risk Housing

The County has an inventory of publicly assisted housing projects that offer affordable housing opportunities for lower income households. Most of these projects are deed restricted for affordable housing use long-term. However, 128 units are considered at risk of converting to market-rate housing. The County will work to preserve these atrisk units. Furthermore, two mobile home parks (totaling 102 units) are located in the unincorporated County. A third mobile home park is used as nightly hotel rooms. Mobile homes represent an affordable housing options. The County will monitor the status of these parks.

Specific Actions and Timeline	•	Annually monitor status of at-risk rental housing projects with the goal of preserving 100 percent of at-risk units.
	•	Ensure tenants are properly noticed by the property owners should a Notice of Intent to opt out of low income
		use is filed. Notices must be filed three years, one year,

	 and six months in advance of conversion. In the event of a potential conversion, conduct outreach to other nonprofit housing providers to acquire projects opting out of low income use. As funding permits, assist in funding the acquisition or support funding applications by nonprofit providers. Annually monitor the status of the mobile home parks. In the event of a potential conversion, ensure the owners adhere to relocation requirements mandated by State law. Consider a Community Opportunity to Purchase
	Act/Tenant Opportunity to Purchase Act (COPA/TOPA) program (see also Program 30: Tenant Protection Strategies).
Primary Responsible Departments	Housing
Funding Sources	Housing Trust Fund
Relevant Housing Policies	2.5, 2.6, 3.3, and 3.4

Housing Affordability

Program 24: Inclusionary Housing

The County implements an Inclusionary Housing program requiring a 20 percent set aside of new units or lots in a development for affordable housing. Ownership developments must have inclusionary units affordable for low to moderate income households. Rental developments must provide inclusionary units for very low to moderate income households. For both rental and homeownership developments, the larger the project, the deeper the affordability requirements. All inclusionary units must be income-restricted in perpetuity. To enhance housing development feasibility while complying with the inclusionary requirements, the County plans to:

- Modify the inclusionary housing program to expand affordability ranges based on the type and size of projects and to be in compliance with AB 1505.
- Work with Marin County cities and towns to achieve consistency across jurisdictions and to ensure that the policies are aligned with best practices and reflect current market conditions.

Specific Actions and Timeline	 By 2023, modify the Inclusionary Housing program to expand affordability ranges and to comply with State law. In 2023, coordinate with other County jurisdictions to align inclusionary housing requirements for consistency. 	
Primary Responsible Departments	Housing, Planning	
Funding Sources	General Fund	
Relevant Housing Policies	1.1, 1.4, and 2.4	

Program 25: Incentives for Affordable Housing

The County will continue to facilitate the development of affordable housing, especially for lower income households (including extremely low income) and those with special housing needs (including persons with disabilities/developmental disabilities, older adults, large households, farmworkers, educators, and people experiencing homelessness). Incentives may also be offered to encourage the inclusion of amenities in affordable housing development, such as childcare facilities and universal design/vistability. Incentives available for affordable housing projects include:

- County density bonus of 10 percent (above State density bonus)
- Potential fee waivers, especially for special needs housing
- Priority processing
- Technical assistance
- Financial participation by the County, subject to funding availability
- Support and assistance in project developer's applications for other local,
 State, and federal funds

	-	Continue to offer incentives to facilitate affordable housing.
Specific Actions and Timeline	•	Annually conduct outreach to affordable housing developers to evaluate the effectiveness of incentives and make appropriate adjustments, and to identify and pursue development opportunities.
	•	Provide support (incentives, technical assistance) to

	school districts to develop district-owned parcels in unincorporated Marin as affordable educator housing. Facilitate the development of 300 affordable units over eight years.
Primary Responsible Departments	Housing, Planning
Funding Sources	General Fund; Housing Trust Fund
Relevant Housing Policies	2.4

Program 26: Below Market Rate (BMR) Homeownership Program

The BMR Homeownership program offers low and moderate income, first-time homebuyers the opportunity to purchase specified condominium units in Marin County at less than market value. If the owner of a BMR unit sells, the unit is resold to another income-eligible homeowner.

Homeownership is an important strategy for wealth-building. Due to a history of policies and programs that prevented people of color from accessing homeownership for generations, providing affordable homeownership can help address the growing racial wealth gap.

	 Maintain 90 BMR units for continued affordable housing for lower and moderate income households.
Specific Actions and Timeline	 Successor Agency funds will be exhausted within the eight-year timeframe of the Housing Element. Beginning in 2024 and annually thereafter, pursue additional funding from local, State, and federal programs to expand affordable homeownership opportunities for first-time buyers.
Primary Responsible Departments	Housing, Marin Housing Authority
Funding Sources	Successor Agency to the Marin County Redevelopment Agency; other funding sources (such as in-lieu fees)

Relevant Housing Policies	2.1, 2.4, and 3.4
---------------------------	-------------------

Program 27: Community Land Trust

Currently, the County has two Community Land Trusts in the unincorporated areas <u>—</u> Community Land Trust Association of West Marin (CLAM) and Bolinas Community Land Trust (BCLT). The County provides financial, administrative, and technical support to the CLTs. The County may facilitate the establishment of additional Community Land Trusts in different Community Planning Areas (CPAs).

Specific Actions and Timeline	 Continue supporting the operation of CLTs. Subject to funding availability, establish additional CLTs in other CPAs.
Primary Responsible Departments	Housing
Funding Sources	General Fund
Relevant Housing Policies	3.4, 4.1, and 4.2

Program 28: Affordable Housing Funding Sources

The County's Affordable Housing is funded with a variety of sources:

- Affordable Housing Impact Fee
- Inclusionary Housing In-Lieu fee
- Rental Housing Impact Fee
- Jobs/Housing Linkage Fee
- CDBG
- HOME
- Permanent Local Housing Allocation
- General Fund

In addition, the County continues to pursue additional funding from State and Federal housing programs. Other potential sources may include vacant home tax (see Program 19).

Specific Actions and Timeline	 Annually pursue additional funding from State and Federal housing programs. Facilitate the development of 300 affordable housing units (excluding 200 units projected from the Inclusionary Housing program).
Primary Responsible Departments	Housing
Funding Sources	Affordable Housing Trust Fund
Relevant Housing Policies	3.4

Program 29: Community Plans

Existing community plans contain goals, policies, and programs that are inconsistent with the Countywide Plan. Where such conflicts exist, the Countywide Plan prevails. The County will pursue neighborhood improvement strategies through community plans <u>-</u> specifically for Marin City, which already has a high concentration of affordable housing.

Specific Actions and Timeline	 In 2023, initiate Marin City Community Plan, with the goal of adopting the plan by 2025.
Primary Responsible Departments	Housing; Planning
Funding Sources	General Fund
Relevant Housing Policies	1.1 and 4.3

Affirmatively Furthering Fair Housing

Program 30: Fair Housing Outreach and Enforcement

The County refers fair housing complaints to Fair Housing Advocates of Northern California (FHANC) for legal services. The County will assist in fair housing outreach and education, and reasonable accommodations through funding FHANC.

	 Assist an average of 50 residents annually with tenant/landlord dispute resolution, and fair housing inquiries and investigations.
	 Annually update, or more frequently as needed, the County's Landlord and Tenant Resources webpage.
Specific Actions and Timeline	■ Beginning in 2023, increase fair housing outreach to Homeowners Associations, realtors, property managers, and brokers, as well as individual property owners (such as single-unit homes, duplex/triplex units, and ADUs used as rentals). Specifically, promote the State's Source of Income Protection bills (SB 329 and SB 222) that prohibit discrimination based on the use of public assistance for housing payments (such as Housing Choice Vouchers).
Primary Responsible Departments	Fair Housing Advocates of Norther California; Housing Authority; Housing
Funding Sources	CDBG; General Fund
Relevant Housing Policies	4.1, 4.2, and 4.3

Program 31: Tenant Protection Strategies

Throughout the region, tenants are facing rising rents and increasing risk of eviction due to the economic impact of COVID, as well as displacement from the economic pressure of new development. The County will explore a variety of strategies that strengthen tenant protection. These may include:

Rent stabilization: While AB 1482, the California Tenant Protection Act of 2019, imposes rent caps on some residential rental properties through 2030, it exempts most single-unit homes and condominiums for rent, and multi-unit housing units built within the previous 15 years. Additionally, AB 1482 sets an allowable rent increase in a year to 5% plus the regional cost-of-living index or 10%, whichever is less. Strategies to strengthen rent stabilization include adopting a permanent policy, expanding applicability to units not covered by AB 1482, and/or considering a lower rent increase threshold. However, at this time, compliance with the 1995 Multi-unit Housing Act (Costa Hawkins) is required.

Just cause for eviction: AB 1482 also establishes a specific set of reasons for which a tenancy can be terminated. These include: 1) default in rent payment; 2) breach of lease term; 3) nuisance activity or waste; 4) criminal activity; 5) subletting without permission; 6) refusal to provide access; 7) failure to vacate; 8) refusal to sign lease; and 9) unlawful purpose.

The County passed an ordinance to require a just cause for eviction that applies to properties of three or more dwelling units in January 2019, before the adoption of AB 1482. To strengthen this ordinance, the County will consider expanding "just cause" to all units, and/or including relocation assistance.

No-fault causes, such as substantial remodels, owner move-ins, and withdrawal from the rental market, are the leading cause of evictions and displacement. These no-fault just causes are often used by owners to remove tenants so that rents can be increased to market rate, further eroding naturally occurring affordable housing stock. Strengthening no-fault just causes for evictions through higher relocation payments, longer eviction notice periods, and a right for a tenant to return can be effective anti-displacement strategies. An expanded just cause ordinance may also include evictions due to substantial repairs and withdrawal from the rental market.

- Local relocation assistance: Given both limited rental options and high housing costs in Marin County, many displaced residents are forced to move out of the County entirely. To address this, the County can adopt a local relocation assistance provision that would require owners to provide financial assistance to tenants if pursuing a no-fault termination. The County can also consider requiring greater relocation assistance to special needs groups (e.g., seniors, disabled, female-headed households) and reasonable accommodation for persons with disabilities.
- Tenant commission: Typically, most land use policies and planning decisions are made from the perspective of property owners and tenants lack a voice in the planning process. A tenant commission or advisory committee may be an avenue to bring policy discussions that highlight tenant interests to the County. While the proportion of renter-occupied units in the County is growing, there is currently no body within the County where their unique concerns can be raised.
- Right to Purchase: When tenants are being evicted due to condominium conversion or redevelopment, offer first right to purchase to displaced tenants to purchase the units.
- Right to Return: When tenants are being evicted due to

- rehabilitation/renovation of the property, offer first right to displaced tenants to return to the improved property.
- Tenant Bill of Rights: Adopt a Tenant Bill of Rights (TBR) that serves to establish the standard that all Marin residents have the right to clean, safe and secure housing. The TBR can include an extension of tenant protections to subletters and family members, and mechanisms to address severe habitability issues and market pressures, such as stronger protections for tenants from eviction if they deduct repairs from rent. This provision would also provide anti-retaliation protection for tenants that assert their rights.
- Community or Tenant Right to Purchase (COPA/TOPA): Pursue COPA/TOPA as a means to preserve affordability and mitigate potential displacement impacts by offering community organizations or tenants the first opportunity to purchase a residential building if the owner is selling. COPA/TOPA policies offer community organizations or tenants the right to negotiate and collectively bargain.

Specific Actions and Timeline	Continue to implement the County's Landlord Registry requirement.	
	In 2023, begin community outreach to discuss various tenant protection strategies as outlined above. Study the administrative and financial feasibility and relative efficiency of each strategy.	
	 In 2024, based on the outcome of the community outreach and also assessment of feasibility, adopt appropriate tenant protection strategies. 	
	 Continue to work with Marin cities and towns to consider similar policies. 	
Primary Responsible Departments	Housing	
Funding Sources	General Fund	
Relevant Housing Policies	4.1	

Program 32: Comprehensive Review of Zoning and Planning Policies

The County's Development Code and planning policies have been incrementally developed over time and may have inherited language rooted in segregation. The County will conduct a comprehensive review of its zoning and planning policies to remove discriminatory language or policies that may directly or indirectly perpetuate segregation. This includes reviewing the use of the terms "single-family" residential use, "protecting the character of the neighborhood," and findings of conditional approval in different regulatory documents.

Specific Actions and Timeline	 In 2024, conduct a comprehensive review of zoning and planning policies and make appropriate revisions to remove discriminatory language and policies.
Primary Responsible Departments	Housing, Planning, Building
Funding Sources	General Fund
Relevant Housing Policies	1.1 and 4.3

Program 33: Community Engagement and Regional Collaboration

Community Development Agency (CDA) outreach working group work with local communities to obtain input on housing and community development issues, especially to highlight areas that have historically been underserved or underrepresented in these conversations.

The County will also conduct outreach and education to promote the need for and benefits of additional housing in the unincorporated County, especially housing that meets the diverse needs of all socioeconomic segments of the County residents.

In 2019, County staff reconvened a countywide working group of Planning Directors and planning staff to encourage interjurisdictional collaboration on housing issues and solutions, with a specific focus on responding to new state legislation to streamline housing developments. The working group established common goals and coordinated on housing legislation, planning, production, and preservation of existing affordability. The working group meets once monthly and has evolved from briefings and discussions regarding state housing legislation into collaboration on projects to facilitate the development of more housing in Marin County. The working group applied jointly for SB2 planning grants in the summer and fall of 2019 and has started

to collaborate on these grant projects, including Objective Design and Development Standards, an ADU Workbook and Website, and inclusionary housing program updates. The group received funds from ABAG to work collaboratively on shared Housing Element deliverables including translation dollars, Affirmatively Furthering Fair Housing products, visualizations, and a countywide website.

The County will continue to have a leadership role to coordinate with other jurisdictions within the County to expand housing opportunities throughout the County, achieve consistency in policies, and collaborate on affordable housing projects through the Housing Working Group. Specifically, the County has committed to the following:

- Implementation of Housing Element programs: During implementation of the 2023-2031 Housing Element, the County, cities and towns will collaborate on program implementation, especially those related to Affirmatively Furthering Fair Housing and tenant protections, such as:
 - Model ordinances: developing model ordinances to be considered by the Board of Supervisors and City Councils.
 - Outreach and community engagement: Conducting shared outreach and community engagement.
- Housing Element Collaboration: Develop a deeper and more formalized collaboration on the Housing Element in the future. This could include:
 - One Housing Element: Develop one document with shared background, outreach, programs and policies. This would provide consistency, save funds and improve accessibility for stakeholders and housing developers.
 - Consider a Subregional approach: The County and cities and towns will consider developing a subregional approach to meeting the Regional Housing Need Allocation in the next housing element cycle.
 - Shared consultants to conserve resources and develop more consistent policies and programs, the County, cities and towns will seek to hire the same consultants to prepare parts of the housing element, conduct regional outreach and conduct any needed environmental review.
- Funding collaboration: explore ways to more effectively collaborate on shared funding for affordable housing. This could include:
 - Inclusionary policies: Developing more consistent policies and fees to encourage and facilitate more affordable housing as part of new market rate developments and increase funding for affordable housing.

- Regional housing trust fund: Consider the establishment of a regional housing trust fund which would make state applications more competitive and lower the administrative burden for cities and towns.
- Community Development Block Funds: Continue to collaborate as an entitlement community on using CDBG funds to fund affordable housing and leverage other State and Federal Sources.
- Permanent Local Housing Allocation (PLHA): Continue to collaborate as an entitlement community to use PLHA funds on housing-related projects and programs that assist in addressing the unmet housing needs of our local communities.
- The Bay Area Housing Finance Authority (BAHFA): Actively participate and support the efforts of BAHFA to raise funds to help address affordable housing and housing stability.
- Shared staffing: With the exceptions noted above, the County, and cities and towns address most housing issues individually, and often with limited staff and financial resources. Programs and policies in the Housing Element require concrete goals and deliverables which will be difficult for smaller jurisdictions to achieve with all of the other obligations associated with their work. Shared staffing initiatives would encourage coordination and working together to tackle the housing crisis on a larger scale through shared housing staff to provide expertise and local knowledge to support affordable housing developers. This would also result in consistency throughout the county and adoption of best practices.

Specific Actions and Timeline	 By December 2023, develop a work plan and present to the BOS to identify new geographic areas/populations for outreach and establish a protocol for conducting outreach, with coordinated efforts with County CDA. In 2023 and annually thereafter, continue working with the regional working group on housing to coordinate and collaborate on regional solutions to housing issues as outlined above.
Primary Responsible Departments	Housing, Planning
Funding Sources	General Fund

Relevant Housing Policies

Affirmatively Furthering Fair Housing Action Matrix

The following table summarizes the County's implementation actions to further fair housing. Individual housing programs may have different impacts on furthering housing choices. Fair housing actions are grouped into the five themes:

- Fair housing outreach and enforcement
- Housing mobility through expanded choices in housing types and locations
- New opportunities in high resource areas
- Place-based strategies for neighborhood improvements
- Tenant protection and anti-displacement

Housing programs are often implemented throughout the unincorporated areas. However, individual programs may have targeted locations for specific actions, increased outreach efforts, and/or priority for allocation of resources.

Table H-5.2: AFFH Action Matrix

Program	Specific Commitment	Timeline	Geographic Targeting	Eight-Year Metrics
Housing Mobility				
Program 4: Accessory Dwelling Units	Dedicate an ombudsperson position to help applicants navigate the pre-development phase of ADU construction.	2023-2031	Throughout unincorporated County	280 ADUs or JADUs
Program 7: Religious and Institutional Facility Housing Overlay	L DIOVISIONS OF SECTION 039 F3 0 TO OTHER		Throughout unincorporated County	Create 100 affordable units within the Overlay
Program 8: Development Code Amendments			Throughout unincorporated County	Achieve 25 percent of affordable housing for special needs populations
Program 13: Reasonable Accommodation	Offer expedited review and approval of Reasonable Accommodation requests.		Throughout unincorporated County	Not applicable
Program 14: Universal Design and Visitability	Study policies and/or incentives to encourage requirements for universal design and visitability, and develop them by 2025 for implementation.	Study in 2024 Develop policies/ incentives by 2025	Throughout unincorporated County	Increase accessible units by 10 percent

Table H-5.2: AFFH Action Matrix

Program	Specific Commitment	Timeline	Timeline Geographic Targeting	
Program 15: Housing for Farmworkers and Hospitality Workers	Develop strategies for addressing farmworker and hospitality worker housing.			Increase housing for these employees by 20 percent
Program 16: Project Homekey	Identify locations that may be appropriate as Project Homekey sites and conduct outreach to interested nonprofit developers to pursue funding from HCD.	<u>In 2023</u>	Throughout unincorporated County	Develop 20 units
Program 17:	Explore expansion of home match services to help match over-housed seniors with potential lower income tenants.	In 2023	Throughout unincorporated County	Increase home matches by 20 percent
Housing for Seniors	Develop incentives and development standards to facilitate various senior housing options (such as senior apartments/homes, co-housing, assisted living, etc.).	In 2024	Throughout unincorporated County	Increase senior housing units by 20 percent
Program 21: Rehabilitation Assistance	Provide support for households to make accessibility improvements.	Annually	Throughout unincorporated County	Assist 48 households
Program 26: Below Market Rate (BMR) Homeownership Program	Provide support for first-time low and moderate income homebuyers to purchase a home at below-market value.	Annually	Throughout unincorporated County	Maintain 90 BMR units but pursue to increase affordable homeownership

Table H-5.2: AFFH Action Matrix

Program	Specific Commitment	Timeline	Geographic Targeting	Eight-Year Metrics
Program 33: Community Outreach and Regional Collaboration	Develop model ordinances to facilitate affordable housing development and tenant protection to be considered by the Board of Supervisors and City Councils. Conduct shared outreach and community engagement.	Annually Annually Annually Annually Communities		Increase affordable housing construction throughout the County, especially in High Resource communities
New Opportunities in High	Resource Areas			
Program 4: Accessory Dwelling Units	Pursue and allocate financial incentives to support ADU construction with the annual goal of assisting 5 lower income households with ADU construction or deed restricting 5 ADUs as affordable housing.	Annually	Throughout unincorporated County, particularly in High Resource areas	40 ADUs as affordable housing
Program 5: SB 9 Mapping Tool	Develop and implement an online mapping tool that will identify areas in the unincorporated area that are eligible to use SB 9.	By December 2024	Throughout unincorporated County, with emphasis in Los Ranchitos (Opportunity Area)	Online tool created
Program 7: Religious and Institutional Facility Housing Overlay	Establish a Religious and Institutional Facility Housing Overlay to extend the provisions of Section 65913.6 to other institutional and religious uses.	By December 2024	Throughout unincorporated County, with emphasis in High Resource areas	Create 100 affordable units within the Overlay, including 50 units in High Resource areas

Table H-5.2: AFFH Action Matrix

Program	Specific Commitment	Timeline	Geographic Targeting	Eight-Year Metrics
Program 24: Inclusionary Housing	Modify the Inclusionary Housing program to expand affordability ranges and to comply with State law	By 2023	Throughout unincorporated County	Increase affordable housing by 500 units
Program 33: Community Outreach and Regional Collaboration	Funding collaboration: explore ways to more effectively collaborate on shared funding for affordable housing. This could include: Inclusionary policies Regional housing trust fund Community Development Block Funds Permanent Local Housing Allocation Bay Area Housing Finance Authority	By 2024	Throughout the County	Increase affordable housing construction throughout the County, especially in High Resource communities

Activities listed in chronological order

Activity	Time Period	Target Audience	Summary	Translation / Interpretation Provided	Results / Feedback	Participation Metrics
Dedicated webpage	Ongoing	All	Serves as significant outreach tool to publicize activities and host supporting documents	Spanish translation of key activities	Low-cost efficient way to communicate and host documents and on-line tools	
County email notification service	Ongoing	All	Participants can sign-up to receive automatic notification when new materials are posted on website and when outreach activities are happening	Spanish translation of outreach activities	Participants received regular notifications through out process	
Email and telephone communications with County staff	Ongoing	All	Throughout the process, County staff received comments and responded to questions through phone and email		Provided customized assistance to any requestor. Also, it provided an opportunity for those to comment without using any of the tools or participating in a workshop or hearing.	355 emails received related to sites
Social Media	Ongoing	All	County used Facebook, Next Door and related platforms to promote outreach activities	Spanish	Actively promoted workshops, hearings and digital surveys	
Outreach Flyers	Before outreach activities	All	Flyers were posted at neighborhood hubs and bulletin boards	Spanish	Flyers helped to reached those who don't use or don't have access to technology	
Focus Groups with following groups: -CBOs (2 sessions) -Homeowners (1 session) -Low-income residents (1 sessions) -West Marin Collaborative -County of Marin Employee Affinity Groups	Aug - Sept 2021	AFFH audiences: - Low-income - Minorities - People with disabilities	Engaged CBOs who represent AFFH populations Recruited and screened residents who represented specific demographic groups that input was needed from		Qualitative information about housing needs, barriers and challenges. Participants also responded to questions related to emergency preparedness and concerns regarding natural hazards to inform the Safety Element.	- 17 CBO's Invited - 14 CBO's Attended Participating CBO's provide service to seniors, people with disabilities, low-income, and minority adults and families -14 Resident Participants Recruitment Results: 8 were renters 6 were owners 4 said they speak a second language at home (3 Spanish, 1 Cantonese) Total household income before taxes 2 selected Less than \$25,000 2 Prefered not to say County of Marin Employee Affinity Groups included: -MCOLE (Marin County Organization of Latino Employees) -COMAEA (County of Marin African-American Employees Association) -MAPLE (Marin Asian American Public Local Employees)
Community Workshop #1	Sept 22, 2021	All	Focused on introducing the Housing Element. Also introduced the Safety Element	Spanish & Vietnamese -Spanish speakers were present but Zoom does not provide a count by language, We added the Language request question in registration as a result.	Initial feedback about issues and concerns	176 registrants 82 participants Polling results: 30 were owners 16 were renters
Marin County Housing and Safety Elements	Monthly	Represent All areas of unincorporate				

Activity	Time Period	Target Audience	Summary	Translation / Interpretation Provided	Results / Feedback	Participation Metrics
Stakeholder Committee		d County. Members also include: -Young adult under 24 -Older adults non-White groups, including Black/African American and American Indian/Native American -Without permanent housing				
Postcard mailing	Nov 2021	All	Postcard mailed to 22,000 households to introduce the HE and promote outreach activities	Spanish & Vietnamese (included QR code and directions in Spanish & Vietnamese so recipient could get complete information in their preferred language.	The mailing served to reach households in a manner that didn't require technology and catch the attention of those who are on-line but were not aware of the process. The mailer also provided a phone contact for those who do not have access to or don't use online tools.	22,000 mailed
Community Workshop #2	Nov 22, 2021	All	Workshop focused on Safety Element and explained how the County would respond to natural hazards. These issues were prominent in comments received related to and informed the housing element.	Spanish & Vietnamese -4 registrants requested Spanish	County received substantial input on participant issues and concerns.	84 registrants 31 participants Polling: 10 were homeowners 5 were renters
Joint Session / Board of Supervisors & Planning Commission	Dec 7, 2021	All	Presented HE, RHNA numbers and initial outreach findings	Spanish	BOS/PC input yielded guiding principles that were used to inform the identification of potential sites.	
Consider-it Forum	Nov - Dec 2021	All	Collected input about people's safety concerns and preparedness for responding to natural hazards and extreme weather.	Included translation option through Google translate	Many concerns about limited housing were linked to safety issues such as emergency evacuations. Input validated and further described the concerns people expressed during HE events	
Digital Housing Needs Survey	Oct - Dec 2021	All	Collected input about housing needs	Spanish translation and outreach	Brief survey was designed to collect input on housing needs and collect input with those with limited time to participate.	626 responses in English 22 responses in Spanish
Print version of Housing Needs Survey	Oct - Dec 2021	-Seniors -People with disabilities -Paratransit users -Low-income & without digital access	Collected input about housing needs. Surveys were distributed through community groups with the largest distribution achieved by a paratransit provider. County staff also attended several in-person events to share and discuss the survey.	Spanish translation and outreach. Paper surveys were distributed by a paratransit provider which helped reach people with disabilities	Brief survey was designed to collect input on housing needs and collect input with those with limited time to participate and no access to technology.	102 responses in English 68 responses in Spanish
Public Hearing - CEQA Scoping Meeting	Jan 11, 2022	All	Provided opportunity to comment on scope of environmental document.		Received comments to inform scoping	16 participants
Sites Road Shows	Jan - Feb 2022	All Minority residents Low- income Farmworker s Seniors People with disabilities	Presented "roadshow" of Housing Element information and sites to multiple neighborhoods, including: - Kentfield (Kentfield Planning Advisory Board meeting) - Tamalpais Valley (Tamalpais Valley Design Review Board) - Strawberry (Strawberry Design Review Board) - Lucas Valley and Marinwood	Spanish Interpretation provides at West Marin, Santa Venetia/Los Ranchito, Unincorporated Novato and Marin City Road Shows	Along with introducing BA as a tool, participants were given multiple options to provide comments. The Road Shows allowed participants to ask questions and comment on sites in their specific geographic area.	460 participants

Activity	Time Period	Target Audience	Summary	Translation / Interpretation Provided	Results / Feedback	Participation Metrics
			 Santa Venetia and Los Ranchitos Marin City (Community Conversations meeting) West Marin Unincorporated Novato Follow-up meeting in San Geronimo Valley (West Marin) and Atherton (unincorporated Novato) Follow-up meeting in Tomales and another in San Geronimo Valley (In May) 			
Community Workshop #3	Jan 20, 2022	All	-Informed the community about the planning process for achieving County housing goals and the Site Selection Process -Provided an opportunity for participants to share their input on the site selection processIntroduced digital tool used to receive input on specific sites.	Spanish, Streamed to Youtube -5 Registrants requested Spanish	Introduced potential housing sites and described the process that would be used to narrow the sites to achieve the RHNA goal.	209 registrants 103 participants Polling: 60 were homeowners 8 were renters
Joint Session / Board of Supervisors & Planning Commission	Mar 1, 2022	All	Presented initial sites and scenarios based on guiding principles, technical analysis and public input.	Spanish	Process started with the identification of sites that would far exceed the RHNA to allow for substantial community input.	
Joint Session / Board of Supervisors & Planning Commission	Mar 15, 2022	All	Presented revised scenarios for BOS/PC consideration and public input	Spanish	BOS/PC provided input on preferred BOS/PC members and public provided additional feedback to inform refinements	More than 40 people made public comments
Balancing Act (BA)	Feb-March 2022	All	BA Platform Open for Input	Spanish	Receive input on preferred housing sites to meet the RHNA	2,925 page views 143 completed submittals
Balancing Act Office Hours	Mar 2022	All	Staff provided on-line evening office hours to assist people who needed help with BA, Office hours were promoted during the Road Shows along with the channels used to promote BA		Provided assistance to anyone needing help with the BA platform	
Digital Atlas	March 2022	All	County produced a digital mapping tool, the Atlas, that provided information about community demographics and natural hazards - which were key concerns identified in many of the comments received.	Included translation option through Google translate	Provided more detailed information for people to consider as they comment on potential housing sites. Participants could also submit site comments using the Atlas.	
Community Workshop #4	Mar 29, 2022	All	Described the role that policies and programs play in the HE. Solicited input on policy topics including tenant protections and programs to serve special populations including farmworkers, seniors and people with disabilities	Spanish		181 registrants 112 participants Polling: 58 were homeowners 13 were renters
Community Workshop #5	April 5, 2022	All	Provide an overview of the Safety Element update process. Discuss new climate change and resiliency planning goals and policies Present key issues and policies for discussion	Spanish		55 registrants 32 participants Polling: 16 were homeowners 2 were renters
Joint Session / Board of Supervisors & Planning Commission	April 12, 2022	All	Part 1: Received direction on sites included in HE. Part 2: Received direction on policies and programs	Spanish	Input informed list of sites for use in the environmental impact analysis.

Candidate Housing Sites

The Candidate Housing Sites map identifies potential sites to accommodate new housing units across all income levels for the eight-year planning period of 2023 to 2031. Most candidate housing sites are vacant or sparsely developed, and are zoned for residential, commercial, or mixed-use development. The zoning on select parcels may be changed to allow for higher development densities necessary to accommodate affordable housing. The selection of the approximately 150 candidate housing sites was based on existing uses and site and environmental constraints (e.g., slopes, access, hazards, infrastructure, biological resources).

Marin County Government

October 26, 2021 · 🚱

Where should #MarinCounty plan for more housing in the future? We need to plan for the unincorporated sections of the county over the next decade or so. Planners will seek guidance from a joint session of the Planning Commissioners and Board of Supervisors on December 7 about the guiding principles for the site selection process coming up next year. https://www.marincounty.org/.../cda-housingprinciples-112921

Marin County Housing & Safety Elements Community Workshop #1 Summary of Workshop Discussion

September 22, 2021

Introduction

In mid- 2021, the County of Marin began efforts to draft updates for the Housing and Safety Elements. State law requires the Housing Element be updated every 8 years. Through the Housing Element, the County must identify and plan for how the unincorporated County can accommodate at least 3569 units of housing, with a specific number of units for low and very low income, moderate income, and above moderate-income residents. State law also requires that the Safety Element be updated when the Housing Element is updated. The Safety Element is a plan that looks at geologic hazards, flooding, wildlands, and urban fires.

This was the first workshop held to engage the community in this project. The website, https://www.marincounty.org/depts/cd/divisions/planning/housing-and-safety-elements, contains more information about the project and its upcoming activities.

Workshop Purpose and Format

On Wednesday, September 22, 2021, the County of Marin and its consultants, MIG, hosted a public workshop to inform the community about the planning process for updating the Housing and Safety Elements and collect initial input on their issues, concerns and potential solutions. Following guidance from public health agencies regarding gatherings during the COVID-19 pandemic, the workshop was held virtually using online video conferencing. City staff conducted robust community outreach to publicize the event. This included social media posts on Facebook, NextDoor, and Twitter. In addition, the workshop was promoted through the County's email notifications from the website. One hundred and seventy-six (176) people registered for the event and eighty-two (82) people participated.

MIG planner Joan Chaplick served as the moderator and facilitated the meeting. Leelee Thomas, Marin County Planning Manager, provided remarks to set the context and introduced the County's project team. The workshop was highly interactive and included live polls, language interpretation in two other languages (Spanish and Vietnamese), small group discussions documented in real-time using a google sheet, and a larger discussion documented in real-time using a digital whiteboard tool. Participants could submit comments and questions throughout the meeting using the "Chat" feature. The Project Team answered questions throughout the meeting.

Agenda Topics and Engagement Activities included:

 Introduction of the Housing Element: Participants received a brief overview of the housing element's purpose and requirements. Participants were also asked to share a word in the chat that described Marin County and respond to six demographic questions. Following the presentations, participants were randomly assigned to seven small groups. Each group had a facilitator and note taker, six groups were facilitated in English and the seventh group was facilitated in Spanish. Participants were invited to share issues and concerns, strategies and solutions, and questions. At the end of the discussion, all participants returned to the larger group where the facilitator from each group shared some of the highlights of the discussions.

- Introduction of the Safety Element: Participants received a brief overview of the safety element's purpose and requirements. In a large group discussion, participants were invited to share their issues and concerns, strategies and solutions, and questions using the chat feature. The presenters responded to questions and participant feedback was noted on a digital whiteboard that was shared with the larger group.
- Public Comment: Participants were provided an opportunity to verbally share any comments near the end of the meeting during the public comment period.
- Next Steps and Upcoming Outreach Opportunities: Participants received a brief review and a preview of upcoming outreach opportunities.

Results from the Engagement Activities

The workshop opened with an open-end question and six polling questions intended to collect basic information about the participants. For polling questions, a number "n" is provided for the number of respondents for the question. Not all participants responded to each question. This number is the basis of percentages shown unless otherwise described.

Question 1 - Where do you live? N:40

- o 37.5% Unincorporated Marin County
- o 50.0% City within Marin County (includes Belvedere, Corte Madera, Fairfax, Larkspur, Novato, Ross, San Anselmo, San Rafael, Sausalito and Tiburon)
- o 12.5% I do not live in Marin County

Question 2 - For those who responded they live in unincorporated Marin County, please tell us what part of the county you live in. N:34

- o 17.6% West Marin
- 14.7% Unincorporated San Rafael (Marinwood, Santa Venetia, Los Ranchitos, Lucas Valley)
- o 2.9% Unincorporated Novato (Black Point, Green Point, Atherton, Indian Valley)
- o 17.6% Unincorporated Southern Marin (Tam Junction, Marin City, Strawberry)
- 5.9% Unincorporated Central Marin (Sleepy Hollow, Kentfield, Greenbrae, San Quentin Village)
- o 41.2% I do not live within unincorporated Marin County
- o 0.0% I don't know

Question 3 - Do you work in Marin County? N:48

o 31.3% - Yes

- o 16.7% No
- o 52.1% I do not work (retired, unemployed, other)

Question 4 - How long have you lived in Marin County? N:46

- o 0.0% Less than 1 year
- o 6.5% 1-5 years
- o 2.2% 5-10 years
- o 82.6% 10 + years
- o 8.7% I do not live in Marin County

Question 5 - What is your housing situation? N:50

- o 60.0% I own my home
- o 32.0% I rent my home
- o 4.0% I live with family/friends (I do not own nor rent)
- o 4.0% Do not currently have permanent housing

Question 6 - What is your age? N:47

- o 0.0% Under 18
- 10.6% 18-29
- 19.1% 30-49
- 36.2% 50-64
- 0 34% 65+

Question 7 - Provide one word you use to describe living in Marin County. Participants were asked to test the chat by providing one word to describe living in Marin County. Openend responses are in alphabetical order with number of mentions noted in parens.

 Beautiful o Expensive (6) Bendecida (Blessed) o Family Blessed Grateful Cara (Expensive)/ Muy Inequity cara (Very Expensive) Lovely o Community (2) Majestic o Nature (4) Daunting Desigualdades Neoliberal

(Inequitable) o Nice

 Entitled Not diverse

- o Peaceful (3)
- o Privileged
- o Racist (2)
- o Relaxed
- o Stressful
- Traffic
- Unique
- o White

Summary of Comments Received For The Housing Elements

Participants were encouraged to share their comments and ask questions using the chat feature. These responses are organized by topic and as a response to a specific question asked by the presenter or facilitator. This made for a very dynamic meeting and yielded valuable input for the project team. The following is a high-level summary of the key themes for the seven

break out groups that surfaced during the discussion. A full transcription of the breakout notes from each group is attached.

Issues & Concerns

- Housing being too expensive:
 - Wages are too low / jobs don't pay enough.
 - Rent goes up but wages don't
 - Expensive for those living in designated affordable housing units.
 - Many need multiple jobs to pay rent.
 - Single parents, seniors, people with extraneous circumstances need more support.
 - There are sometimes up to seven people living in one unit or multiple families in one unit.
 - There is over crowdedness and units' conditions are not great not well maintained.
- Many have also experienced discrimination
 - o How is the county preparing to meet the needs of Latinos?
 - They are a growing population group, and we need to consider how we support undocumented / immigrant residents who have additional barriers to accessing housing.
 - Racial and income equity.
 - Denied housing for resolved issues
 - Long process to apply then get denied
 - Stigma to terminology: Affordable housing
 - Nimbyism and lack of political will
- Capacity
 - Housing and affordable housing is in short supply
 - Access to evacuation routes and resources
 - Infrastructure:
 - Access to water, public transportation, power and cell service
 - Limitations with septic systems, traffic, displacement,
 - The quality of the housing conditions aren't good
 - o Hazard risk: earthquake, flooding, fires, sea level rise, etc.

Ideas & Solutions

- Build housing
 - Identify sites that are strategic (walkable, smart siting for the different categories, senior, low-income, work-force, and at different income levels.)
 - More guidance and support for a faster development/ design review process for all housing projects
 - o Allow more tiny homes, ADUs, mixed use, and more creative solutions
 - Gives priority to essential workers.
 - Establish funding channel
- Work more closely with BIPOC/Latino communities.

- o Develop home ownership programs, rent to own programs, housing lottery, etc.
- Home matching
- Work with developers so they are encouraged to build in Marin.
 - Work with BIPOC, non-profit, and community organizations.
 - Develop multi-family, affordable and sustainable housing options.
 - o Increase the capacity for affordable housing within multifamily projects.
- More education and awareness so more people understand why we need to build more housing, there is a lot of push back on new affordable housing developments and programs like Homekey.

Summary of Comments Received for the Safety Elements

Participants were encouraged to share their comments and ask questions using the chat feature. These responses are organized by topic and as a response to a specific question asked by the presenter or facilitator. This made for a very dynamic meeting and yielded valuable input for the project team. The following is a high level summary of the key themes from the large group discussion. The notes from the digital white board are attached at the end of the document.

Issues & Concerns

- Earthquakes, sea level rise, drought, flooding, wildfires, power outages, and reliable cell service
- Update emergency materials and resources, marsh restoration
- Considerations for evacuation routes and procedures, access and safety to food during emergencies, alert systems, homeless population, accessible permitting and LEED.
- Area of concern is Canal Area

Ideas & Solutions

- Emergency Planning: emergency go bags, plan for the sick and at risk population, creative alert systems (sirens, text message, Comcast wire based), use hotels for shelters, and identify alternative evacuation routes.
- High tech and low tech solutions: fire resistant materials, building updates, solar power.
- Map where there is cell service
- Multilingual resources and meeting
- Integrating higher densities, tiny homes, more EV Charging, climate change adaption and changes for equity.

Next Steps

The City and MIG will share workshop results with the public and incorporate input into the development of the Marin County Housing Element. Participants were encouraged to share their responses to the survey on the website. The next workshop is scheduled for early spring.

Issues and Concerns	Strategies and solutions	Questions & Additional Comments
Adu permitting process is arduous	County provide equity dollars to make rent more feasible in interim as County works to make more housing units available	how will we find a way to follow original County Plan?
Issue of addressing septic for ADUs in West Marin	go forward with changing minds about creating housing: social issue, justice issue, economic issue. Something we all need to step up to tackle.	SB 35 not written up for communities like Marin City, which has done its part for providing low income housing.
Rental property managers seek to procure high rents, often asking renters to demonstrate they make twice the rent amount in order to qualify for the rental unit	need to talk about these issues and come to a place of embracing development and transit	
City of Sausalito and neighboring communities appealing RHNA numbers. Very problematic saying "no" early in process	Need high density to pay for open space assets we value in Marin (x2)	
intersection of environmental justice, environmentalism, and social justice: development seen as negative by environmental leftists who then push against development	County plan could transparently highlight areas that could be developed highlight open spaces that could be turned into developments	
Concern over County's RHNA appeal letter citing agricultural lands as reason County couldn't meet housing goals. Sense that County is subsidizing ranchers	County could work out agreements with ranchers to set aside acres for housing on ranch properties.	

and placing value on ranches over people/ housing needs. (x2)		
	If County is really serious about	
	creating more housing, County	
	needs to identify acreages of	
	possible sites and carry through	
	a public process.	
	County should work hard to	
	identify areas outside of Marin	
	City to do their part, areas that	
	SB 35 is directed toward who	
	have not provided affordable	
	housing	
	Need safeguards to ensure	
	housing stock does not shift	
	from affordable unit (by intent)	
	to non-affoprdable (in practice)	
	Build mulit-family units. Build	
	higher. Embrace density.	
	Consider Petaluma Tomales	
	Road for more housing, while	
	recognizing that other	
	deveklopment comes with	
	housing and requires careful	
	balance	

Issues and Concerns	Strategies and solutions	Questions & Additional Comments
Bad Experiences: Search for housing, encountered discrimination and were unable to live in their own community. Had to report to fair housing. Need to do something to stop discrimination. 10 year waiting period. Completed affordable housing paperwork, a five hour process. Then denied for past accounts that had been resolved. Needs: education, cultural shift, and less red tape.	Cultural shift needed. Must change political climate. Elect people that make it a priority. Allow in lieu fees. Former 20% inclusionary percentage when large unit built 20% set aside for affordable units. Now 10%?	Why is it that liberals become very conservative around affordable housing. Property value fear.
Stigma: The term "affordable	If we are never going to get	
housing" conjurs negative	housing built on areas	
	designated in CWP then let's do	

response. Terminology problem	something meanigful to ensure	
that should be changed.	housing is built. More	
	actionable programs.	
Political Will: Lack of political	Rezoning	
will to get affordable housing		
done.		
Racism: noted by realtor,		
resident, CLAM rep. Land use		
and zoning, NIMBYism, large		
parcel in Pt Reyes Station that's		
difficult to subdivide to allow		
additional units.		
COVID has made housing		
situation worse and also helped		
many realize just how much		
space they do or don't need.		
Without affordable housing you		
won't have workers in Marin.		
825 Drake was supposed to be		
for affordable housing: 74		
housing units with only 20		
parking spaces. Apartments		
need external entrances rather		
than entrance by interior		
hallways? From 74 units only 7		
required affordable housing.		
Negative impacts to nearby		
residences.		
Red Tape: Developers don't		
want to work in Marin bc it		
takes too much time to get		
entitled. High housing costs.		

Issues and Concerns	Strategies and solutions	Questions & Additional Comments
3600 units is not meaningful - need to parse out to georgarphic areas. few parcels in San Geronimo Valley; would need to and should revist issues that have already been decided on in the past (streams, fish habitat, parking, errosion, septic systems, etc.); ADUs could work	home matching, so folks can rent out rooms - provides affordable housing	Any provisions for accommodating mobile homes, rv/s, etc folks living in vehicles?

Marin Housing & Safety Element 9/22 Workshop

Safety and Natural Disaster Preparedness

Issues & Concerns

EARTHQUAKES	Updated materials and resources - Mapping	Equacuation route considerations in vulenerability	Drought Considerations	Alert systems : Tubs fire, Negative experience	Unhoused numbers too low. Not all are in Novato, San Rafael and the Bay Model in Sausalito
Building on shorelines	Sea level rise	County coordinattion: LEED	Power outages	When will we face that we may have to retreat from WUI and Shorelines	is there a safe number of people for an area, in terms of evacuations and water
Countywide efforts - events don't stop at jurisdiction lines	Impacts of disasters on the unhoused community	Maintenance of statewide emergency response system, including county, and municipal response.	Go bags and Evacuation bag/ prep	Cell service - Working with Carrires	Low income residents have harder time getting food in disaster
Building updates : Fire Resistent materials	County should have a well-publicized directory of emergency shelters when disaster strikes.	access to resources in multiple languages	emergencies go bags for underrepresented groups	Contamination of our dwindling reservoir water supply if a fire	Renters access to emergency services and damages
Canal Area - Sea level rise	High tech / low tech solutions	Flooding	Marsh restoration	GHG Emissions	Difficult to get permitting
concerned about the high tech solutions provides that	Low income people				

Ideas & Solutions

Power needed during PGE outoges. How about neighborhood solar installations where a sunry home could provide solar generated effectively to bis neighbors during an outage?	Access to solar power	increase density for emergency gathering areas	Building updates/ Efflecency	There should be a plan in place for the sick and shut in when disaster hits	Increased use of small form EV vehicles to reduce pollution and traffic. Electric bikes and very small autos. Providing a lane for these vehicles on roads.
Emergency planning	Find where there is/ is not cell service - Map dead areas	People can lose their medication or forget it in a disaster. Have pop-up pharmacles available for people who desperately need their meds.	What can the county do in terms of, if water levels affect us in the Canal area?	Low tech solutions - digital service divide	Explore planning for more distributive energy sites so when PG& E goes down it is less disruptive
Create community trust to protect the belongings of low income residents	Sirens for emergencies	Hotels for Emergency shelters	Thy hereo could become gut on floats to become future floating terms like the floating Hereo. Community on Geto 5 and 6 fload and Commodove, they could extend to share floating of least floating of at fifther on love lying reach and US 201.	Use those new maps of no-cell- service to figure out if the county owns any nearby parcels of land, which did not have to the very- large at all, to work with a cernist to install a new cell tower.	Restore our marshes
I am a bit concern on the low income people are always affected in terms if there was a disaster.	non-road evacuation routes	Food safety / Preservation in the event of an emergency	Use Comcast's wire based network to broadcast alerts	Pet friendly evacuation locations and shelters	Map non-road evacuation routes. Fire roads and trails.
A second exit for Marin City	Multilingual Resources / meetings	We wish the County leadership was less affold of upsetting the NIMBY residents who no matter what will be upset with denser development.	Thanks for offering spanish	Another resource Mill Volley has the "Steps, Lanes, and Paths" map, for cleaned small validing trails (not usually seen on online maps) that can be used for execution. Other towns may have similar projects.	Address climate change and equity
identify elterante evecuation routes when main corridors are blocked or underwater.	Could hotels in safe area be used as shelters in a disaster funded by special funds.	Some bases relate to large systems justify systems) werean inches that models. Work with existing arganizations on the ground who are connected to communities to ensure personal needs are met (Marin County Cooperation Televinia.			

Questions

Updating maps? Yes, big components	What is the relationship with the HE/SE? Safety considered when researching vulnerability in sites	And how about legalizing tiny homes as they have in Sonoma County?	What will Marin County do to ensure that residents are updated in real time when a disaster strikes?	Zone haven app/ emergency network - Public outreach
Does the Safety Element include earthquakes too?	What plans are in place to reach the unhoused during a disaster?	on the website through the Sheriff	is BCDC working with County on sea-level rise issues for coastal residents?	BCDC Collaboration - published a report recently
Would drought be a part of this? IE ways that we need to amend water provision and radically make easier re-use and recycled water?	What happens to renters when their units are damaged?	is the Marin community foundation involved in helping the county on those issues with grants?		

Marin County Housing and Safety Elements

Virtual Workshop #1 September 22, 2021 Whiteboard

Chat

The Chat comments attached have been modified to remove the names of participants.

- beautiful
- can you share the slides after the meeting?
- Materials will be posted on the website
- can you share the URL?
- https://www.marincounty.org/housingsafetyelements
- thank you
- is this data for county as whole or the unincorporated areas?
- charts say data is for unincorporated areas
- AIRBNB RENTERS OR regular renters??
- are houseboats and floating homes included in the mobile homes number?
- Renters include short-term AirBnb?
- Why are we only talking about unincorporated areas? Looks like I missed something
- Each city and town has their own Housing Element process
- The County's jurisdiction only includes unincorporated areas of Marin County
- @Jim Nunally & Hilary Perkins the figures for renters do not include short-term rentals
- @Aline it would be great to know how much of long-term rentals have been lost to AirBnB
- Jim and Hilary- We will see if we can get this information for you, if so we will post it to our website: https://www.marincounty.org/depts/cd/divisions/planning/housing-and-safetyelements

- what is HCD?
- The State's Housing and Community Development Department
- @sybil Boutilier yes, they are included in this figure
- Use this website: http://gis.marinpublic.com/lookup/JurisdictionLookup/
- if you don't know if you live in unincorporated or incorporated
- Please break down the target number of units into a smaller target area by area in Unincorporated Marin. I live in San Geronimo Valley. What is the target number of units for SGV? This is the starting point for any conversation. Targeting 25 units would be one conversation. Targeting 200 units would be a different conversation. Thanks.
- Hi Alan- we do not have target numbers yet in the process. At this time, we are doing our needs assessment and doing a search of all sites in the County.
- thank you! how is this different from Make Room Marin?
- How does SB 9 & 10 affect the Housing Element?
- Will Marin County consider rezoning/subdividingin west marin?
- Is it correct, that the county only needs to "plan" and not build? Why is that so?
- https://adumarin.org/
- ADU (Accessory Dwelling Units)= Second units
- In SGV, I believe, most of the opportunity would be ADUs (backyard cottages) on existing properties that currently have one single family home. This conversation would bring in every development topic that has been discussed in the past years... water, fish habitat, parking, septic, etc. Is the intention to have this conversation in the context of the Housing Element?
- What happens if the county does not meet the RHNA goals?
- who should you contact if you want to explore doing ADUs? is there help for homeowners to do this?
- Give the fact that RHNA does not require that units be built, isn't it possible that the County could simply identify potential sites but never deliver on actually building affordable housing units? Is it true the Marin is challenging their RHNA numbers? If yes, why?
- For successful affordable housing development, the County needs to allow developers to build 70+ units on a site. The numbers don't work otherwise.
- The Marin Water District is putting restrictions on building new units. How will this affect the House Elements plans?
- Is agricultural acreage considered available or underutilized for housing? If so, why is the County appealing the target? If not, why not if the rancher is willing to develop or sell for development?
- @Jannick We just built one, affordable rent, teacher renter, contact us if you want what happened for us hilary@hilaryperkins.net
- A follow up question to that is what is we meet the goal of planning but there is no building/implementation?
- Is unincorpo
- County website with incentives for ADU development in unincorporated Marin: https://www.marincounty.org/depts/cd/divisions/housing/accessory-dwelling-units
- If you build an adu now, iwill it qualify for RHNA numbers for next housing element cycle?
- FYI our experience building a TINY ADU for a local teacher was a NIGHTMARE due to neighbors and the County Government obstacles

- What kind of financing assistance does the county have for affordable housing developers in terms of capital subsidy?
- Are there any incentives to individuals who would like to build an ADU for the ADUs to be offered to low or low income
- But why are the RHNA numbers being challenged?
- Black in Marin City have gone from more 90% after WWII due to restrictive zoning and denial of mortgage to @ 23% due to gentrification. Their children can not afford to live there. Why doesn't RHNA block SB 35, etc from over riding community interest. Example 825 Drake Ave
- I can help rent the ADU. Im director of Home Match Marin. Call me 707-837-6511
- @Maureen here is info on the Board's RHNA appeal https://www.marincounty.org/depts/cd/divisions/housing/housing-element/regional-housing-needs
- Email with questions: affordablehousing@marincounty.org
- How does Marin justify allotting 20% of Measure A funds to paying ranchers to not allow development?
- Para Español Si quiere participar en un grupo pequeño en Español, por favor levante la mano.
- "Seleccione el icono del globo del mundo para elegir el idioma que desea escuchar para esta reunión.
- Nhan vao dau hieu qua dia cau de chon ngon ngu cho buoi hop."
- Wishing that politicians would focus on Extremely and Very Low Income Households when permitting development.
- Income-----2017
- Categories-----Number-of-persons-in-Household
- Extremely-Low-30%-----27,650---31,600---35,550----39,500
- Very-Low-Income-50%---46,100---52,650---59,250----65,800
- Low-Income-80%-----73,750---84,300---94,850---105,350
- Median-Income------80,700---92,250--103,750--115,300
- Moderate-Income-120%--96,850--110,700--124,500--138,350
- Agree we need to focus on extremely low and very low mixed with low so we can house our essential personnel
- Are earthquakes included?
- Yes, earthquakes are included
- Lauea Did I hear you right that your group suggested that city's and/or urban areas should take
 up more of the housing load? Meaning that less developed or rural communities do not need to
 accommodate more housing? That is a controversial position that should be discussed further everyone should take on their fair share, it is not appropriate to delegate it to populous areas
 that are already accommodating substantial housing.
- I'd like to suggest a radical improvement to this Meeting Process with an example:-
- So I go to this huge "Plan Bay Area" meeting. Dozens of people want to speak which they do, but close to the very end of the meeting and they only get 2 minutes each.
- This is a classic example of what's wrong with the process. So let me recommend an improvement at this time when so many more people can now contribute.
- More than half of the public speakers ask questions or make comments that:-

- ---- already have been answered in the documentation,
- --- repeat previous questions/comments or 2 are off topic.
- And then, when I get up to ask my important and unique question I get no reply!
- Then its the turn of the Experts to make their comments, some of which should instead have been documented prior to the meeting and would have answered some of the questions that were asked by the public earlier.
- And none of them fully answer my question !!
- Also those Expert's comments should not be suddenly revealing NEW informatio
- I was a member of Sausalito's Landslide Task Force after our 2/13/2019 landslide. We found we have terribly outdated mapping. How is the county helping update them?
- Hi Micky,
- Hi Micky, African American 24.8%
- White (only) 29%
- Asian 8.4%
- Multiracial 7.4%
- Hispanic 12.4%
- American Indian/Native Alaskan .441%
- Other Hispanic 15.1%
- Multiracial Hispanic .882%
- Multiracial (Non-Hispanic) 7.47%
- Black (Hispanic) N/A
- Other (Non-Hispanic) 1.32%
- NEW information either.
- Instead of one-way hype that can invariably be the content of any Meeting, there should be a Facebook-like Page which gives constant 2-way feedback 24/7 365.
- Not just the 2 minutes the public gets to speak at a meeting with zero feedback.
- But Councilors, Planners, Experts and Staff etc.. need to actively participate in this Facebook-like Page. Answering and RANKING ALL questions. With Links added to the relevant documentation.
- A " Facebook-like Page" should be MANDATORY as it records the knowledge exchanged.
- Enable the Facebook-like page and Agenda DAYS BEFORE any meeting.
- Any incorrect public opinions need to be speedily and factually corrected by an expert and LIKED/UNLIKED upward/downward in ranking (by the public) so only the highest voted comments and questions appear at the top. (else irrelevancies totally dilute the whole discussion and bury the important information).
- Questions or comments do NOT NEED TO BE REPEATED as, instead, an existing comment can simply be v
- Marin City Demographic percentages
- Opps our landslide was 2/14. We were working with 50 year old topo maps.
- How specifically does the Housing element integrate the vulnerability assessment and Safety Element?
- will you be studying the adequacy of evacuation routes for wildfire? I think often of Paradise fire.
- can simply be voted up/down by others.

- And now we also have a complete record of what happened and not some précis of MINUTES that invariably miss half of what REALLY went on!
- By relying solely on the BOG STANDARD Community Meeting you are asking to be continually accused by the public of NOT LISTENING and IGNORING them. Think about how much easier it would be to reply to those comments with -- "But I did answer that it's on this Facebook-like page, here. And then you put the link into ZOOM CHAT!"
- Requiring anything that is WRITTEN to be submitted 36 hours in advance by email is NOT a 2-way communication.
- And 2-way communication immediacy is what we now need!
- We need Politicians, Staff and Experts to make a commitment to finally put themselves out there and put themselves on the record by replying to the public on this Facebook-like Forum.
- Would drought be a part of this? IE ways that we need to amend water provision and radically make easier re-use and recycled water?
- My parents lost their home in the Tubbs Fire, and they evacuated only because neighbors helped neighbors. The alert system was non-existent. What will Marin County do to ensure that residents are updated in real time when a disaster strikes?
- is BDCD working with County on sea-level rise issues for coastal residents?
- *BCDC
- Will we be receiving a copy of the slides that have been presented tonight? I am so appreciative of County staff who participated in tonight's meeting. It was informative and you have now received valuable feedback, a number of us who are on the front lines of working to create more affordable homes. There are many areas where the County could adjust existing policies, update septic requirements that today significantly restrict our ability to create new housing units. And how about legalizing tiny homes as they have in Sonoma County? So many opportunities to create more affordable homes if only the County would make a serious commitment to change policies. Again, thanks for tonight's session.
- "Resources for more information: https://www.marincounty.org/depts/cd/divisions/planning/housing-and-safety-elements
- Para obtener información adicional y recursos, consulte:
 https://www.marincounty.org/depts/cd/divisions/planning/housing-and-safety-elements"
- BCDC just covers SF Bay, not ocean. They are working on it. Cal Coastal Commission handles Pacific coast.
- What plans are in place to reach the unhoused during a disaster?
- If the county is determined to still put a 20 unit short term and long term resident hotel at 150 Shoreline, Manzanita on a platform that raises the building 3' above the FEMA flood zone, it makes no raise the building if resident's cars and all other buildings are flooded in heavy rainhigh tide events that are the same height as the Manzanita Park and Rice
- Building on shorelines
- Sea Level Rise
- lead coordinated Countyi efforts
- Power needed during PGE outages. How about neighborhood solar installations where a sunny home could provide solar generated electricity to its neighbors during an outage?
- countywide efforts events don't stop at jurisdiction lines
- Please include impacts of disasters on the unhoused community

- Maintenance of statewide emergency response system, including county, and municipal response.
- When will we face that we may have to retreat from WUI and Shorelines
- Everyone ought to have grab & go bags ready for evacuation. Pre-planning is so important to not have regrets (lost documents, photos, etc.). The public needs more reminders.
- Cell phone service is still completely non-existent in large parts of the unincorporated county! My home in Tam Valley has never had reception, on any carrier. What can the county do to proactively enable cellphone service, by working with at least one phone carrier, so that we are not completely cut off in an emergency?
- Fire prevention starts with building upgrades (fire resistant materials, gutter guards, etc.), but no funding to assist homeowners. Instead, all the money seems to be going to tearing out trees and vegetation without regard to wildlife
- Unhoused numbers too low. Not all are in Novato, San Rafael and the Bay Model in Sausalito
- in general, is there a safe number of people for an area, in terms of evacuations and water etc... can we keep growing in general due to the various safety factors?
- Low-income residents have a harder time replacing lost food during a disaster. Can we include an acknowledgment that they should receive the resources needed to replace lost food?
- County should have a well-publicized directory of emergency shelters when disaster strikes. Will specific emergency shelters be included in Safety element?
- Una preocupación es que la comunidad Hispana no tiene la información necesaria para un caso de desastre, ni los recursos.
- En él área de canal no tienen un botiquín de primeros auxilios o de emergencia no están preparados para un desastre natural
- Contamination of our dwindling reservoir water supply if a fire
- What happens to renters when their units are damaged?
- There should be a plan in place for the sick and shut in when disaster hits
- Suggested solution: have the county figure out which parts of the unincorporated county has no cell service whatsoever (Tam Valley and Highway 1 / Shoreline is particularly bad, despite having huge numbers of tourist traffic). Can we map the dead areas, along with the topography?
- People can lose their medication or forget it in a disaster. Have pop-up pharmacies available for people who desperately need their meds.
- What can the county do in terms of, if water levels affect us in the Canal area?
- Crear un seguro comunitario para proteger las pertenencias de personas con bajos ingresos
- Increased use of small form EV vehicles to reduce pollution and traffic. Electric bikes and very small autos. Providing a lane for these vehicles on roads.
- I am concerned about the high tech solutions provides that exclude low tech elders ... for ex, alerts on cells, when in Hawaii, they have sirens.
- Explore planning for more distributive energy sites so when PG& E goes down it is less disruptive
- identify alternate evacuation routes when main corridors are blocked or underwater.
- Tiny homes could become put on floats to become future floating homes like the Floating Homes Community on Gate 5 and 6 Road and Commodore. /they could attach to shore lines later. Also flooding of utilities on low lying roads and US 101
- And then solution #2: use those new maps of no-cell-service to figure out if the county owns any nearby parcels of land, which do not have to be very large at all, to work with a carrier to install

a new cell tower. These do not have to be very large; 5G can be installed on existing power poles. But the county needs to reach out to carriers to make that happen.

- Restore our marshes
- didn't the BCDC say no more marinas could go into Richardson Bay?
- could hotels in safe area be used as shelters in a disaster funded by special funds.
- Increased use of small form EV vehicles to reduce pollution and traffic. Electric bikes and very small autos. Providing a lane for these vehicles on roads.
- Some issues relate to large systems (utility systems) versus individual needs. Work with existing organizations on the ground who are connected to communities to ensure personal needs are met (Marin County Cooperation Teams, for example).
- I am a bit concern on the low income people are always affected in terms if there was a disaster.
- Regarding marinas in Richardson Bay, it would be very difficult to get permits for a new marina. I'm not aware of any outright ban on marinas.
- Use Comcast's wire based network to broadcast alerts
- Map non-road evacuation routes. Fire roads and trails.
- Thank you for your presentation and allowing for participation. We are all in this together. ©
- Debemos almacenar comida qy bióticos
- Suggestion: if/when you eventually make a list of shelters for future disasters, make sure to
 clearly include for each location whether or not pets can be included at that shelter. One of the
 main reasons people don't evacuate is that they don't know where to go with their pets; even
 hotels will often not allow them in.
- A second exit for Marin City
- Helping low income folks to acquire go-bags.
- is the Marin community foundation involved in helping the county on those issues with grants?
- Marin Bike Coalition has that map of trails
- The County has received several grants from Marin Community Foundation to address climate change and equity.
- Thank you to all yall, this was very helpful and interesting and well-done. We appreciate the
 hardworking County staff. We wish the County leadership was less afraid of upsetting the
 NIMBY residents who no matter what will be upset with denser development.
- thanks for offering spanish
- Where's the Facebook-like Tool?
- Another resource: Mill Valley has the "Steps, Lanes, and Paths" map, for cleared small walking trails (not usually seen on online maps) that can be used for evacuation. Other towns may have similar projects. https://www.cityofmillvalley.org/civicax/filebank/blobdload.aspx?blobid=27475
- Resources for more information:

- Para obtener información adicional y recursos, consulte: https://www.marincounty.org/depts/cd/divisions/planning/housing-and-safety-elements
- Thank you so much!
- One last Stop allowing one house to be build ton 2 lots
- Gracias
- Thanks!

Marin County Housing & Safety Elements Community Workshop #1 Summary of Workshop Discussion

November 15, 2021

Introduction

In mid- 2021, the County of Marin began efforts to draft updates for the Housing and Safety Elements. State law requires the Housing Element be updated every 8 years. Through the Housing Element, the County must identify and plan for how the unincorporated County can accommodate at least 3569 units of housing, with a specific number of units for low and very low income, moderate income, and above moderate-income residents. State law also requires that the Safety Element be updated when the Housing Element is updated. The Safety Element is a plan that looks at geologic hazards, flooding, wildlands, and urban fires.

This was the second workshop held to engage the community in this project. The website, https://www.marincounty.org/depts/cd/divisions/planning/housing-and-safety-elements, contains more information about the project and its upcoming activities.

Workshop Purpose and Format

On Monday, November 15, 2021, the County of Marin and its consultants, MIG, hosted a public workshop to inform the community about the planning process for updating the Housing and Safety Elements and collect input on their issues, concerns and potential solutions. Following guidance from public health agencies regarding gatherings during the COVID-19 pandemic, the workshop was held virtually using online video conferencing. City staff conducted robust community outreach to publicize the event. This included social media posts on Facebook, NextDoor, and Twitter. In addition, the workshop was promoted through the County's email notifications from the website. Eighty –four (84) people registered for the event and thirty one (31) people participated.

MIG planner Joan Chaplick served as the moderator and facilitated the meeting. Leelee Thomas, Marin County Planning Manager, provided remarks to set the context and introduced the County's project team. The workshop was highly interactive and included live polls, language interpretation in two other languages (Spanish and Vietnamese), and a larger discussion documented in real-time using a digital whiteboard tool. Participants could submit comments and questions throughout the meeting using the "Chat" feature. The Project Team answered questions throughout the meeting.

Agenda Topics and Engagement Activities included:

Safety Element and the County's response to Climate Change: Participants were first asked respond to six demographic questions. Participants received a brief overview of the safety element's purpose. They were informed about the Marin County's current and future role in responding to climate change. Participants were asked respond to two

- questions regarding hazardous events in their neighborhood. The presenters responded to questions and participant feedback was noted on a digital whiteboard that was shared with the larger group.
- Environmental Hazards: Presenters described the eight types of hazards and how Marin County is impacted by the hazard. In a large group discussion, participants were invited to share their issues and concerns, strategies and solutions, and questions using the chat feature. The presenters responded to questions and participant feedback was noted on a digital whiteboard that was shared with the larger group.
- Vulnerability Assessment: Presenters described the process for assessing risks for certain populations, groups and areas. Presenters shared that they are developing responsive policies for the various hazards.
- Atlas: Presenters demonstrated a mapping tool for the housing and safety elements to access information about area properties.
- Housing Element Update: Participants received a brief update of the housing element's outreach activities, and the ideas have been shared. Participants were also asked to share a word in the chat that described Marin County. Participants were invited to share issues and concerns, strategies and solutions, and questions.
- **Public Comment:** Participants were provided an opportunity to verbally share any comments near the end of the meeting during the public comment period.
- Next Steps and Upcoming Outreach Opportunities: Participants received a brief review and a preview of upcoming outreach opportunities.

Results from the Engagement Activities

The workshop opened with six polling questions intended to collect basic information about the participants. For polling questions, a number "n" is provided for the number of respondents for the question. Not all participants responded to each question. This number is the basis of percentages shown unless otherwise described.

Question 1 - Where do you live? N:17

- o 35.5% Unincorporated Marin County
- 52.9% City within Marin County (includes Belvedere, Corte Madera, Fairfax, Larkspur, Novato, Ross, San Anselmo, San Rafael, Sausalito and Tiburon)
- o 5.9% I do not live in Marin County
- o 5.9% I work in Marin but live outside of Marin County

Question 2 - For those who responded they live in unincorporated Marin County, please tell us what part of the county you live in. N:14

- o 21.4% West Marin
- 7.1%% Unincorporated San Rafael (Marinwood, Santa Venetia, Los Ranchitos, Lucas Valley)
- o 0.0% Unincorporated Novato (Black Point, Green Point, Atherton, Indian Valley)
- o 14.3% Unincorporated Southern Marin (Tam Junction, Marin City, Strawberry)

- 7.1% Unincorporated Central Marin (Sleepy Hollow, Kentfield, Greenbrae, San Quentin Village)
- o 50.0% I do not live within unincorporated Marin County
- o 0.0% I don't know

Question 3 - Do you work in Marin County? N:18

- o 38.9% Yes
- o 22.2% No
- o 38.9% I do not work (retired, unemployed, other)

Question 4 - How long have you lived in Marin County? N:18

- o 0.0% Less than 1 year
- o 0.0% 1-5 years
- o 0.0% 5-10 years
- 94.4% 10 + years
- o 5.56% I do not live in Marin County

Question 5 - What is your housing situation? N:18

- o 55.6% I own my home
- o 27.8% I rent my home
- o 16.7% I live with family/friends (I do not own nor rent)
- o 0.0% Do not currently have permanent housing

Question 6 - What is your age? N:20

- o 0.0% Under 18
- 0 10.0% 18-29
- 0 10.0% 30-49
- 0 25.0% 50-64
- 0 55.0% 65+

Question 7 - What's one word that comes to mind when you think about Climate Change and Marin County. Participants were asked to test the chat by providing one word to describe living in Marin County. Open-end responses are in alphabetical order with number of mentions noted in parens.

- Air quality
- Consumption
- o Drought
- o Emission
- o Fire
- Fire cycle

- Fireplace wood smoke
- o Flooding (3)
- Inaction
- Multi-hazard

- Not enough has been done
- o Smoke
- Vulnerability
- o Water
- o Wildfire (2)

o Worry

Question 8 - In the past 5 years, which of the following hazards have you experienced at your home or neighborhood? N:20

- o 25.0% Flooding
- o 0.0% Landslide or subsidence
- o 5.0% Storm damage to your residence
- 20.0% Damage or loss of trees due to high winds or storms
- o 35.0% Threat of wildfire
- o 15.0% None of the above
- o 0.0% Other

Question 9 - What has been your experience during extreme heat events in the last five years? N:21

- o 66.67% My home keeps me reasonably comfortable
- o 28.57% My home provides little relief for extreme heat
- o 0.0% I am forced to be outside (due to my job or lack of housing)
- o 0.0% The cooling centers provided by the County have offered some relief
- o 0.0% I'm able to temporarily re-locate during extreme heat
- o 4.76% None of the above

Summary of Comments Received for the Safety Elements

Participants were encouraged to share their comments and ask questions using the chat feature. These responses are organized by topic and as a response to a specific question asked by the presenter or facilitator. This made for a very dynamic meeting and yielded valuable input for the project team. The following is a high level summary of the key themes from the large group discussion. The notes from the digital white board are attached at the end of the document.

Hazard

Drought

- Drought is an endemic part of the historic climate of Marin.
- Use native plants that survive dry summers
- Point Reyes: The water table is low & sea water from the bay has increased the saline in the water to very unhealthy levels
- Point Reyes: Having to get water from a delivery program

Flooding

- Need more ways to capture water during rainfall and store in local cisterns
- Local ordinances could look at balancing the need to capture water with the need to provide for healthy streams.
- Hwy 1 (Shoreline Hwy)
- o MMWD has a rain barrel and cistern rebate program
- Inundation of septic systems
- Marin City cut off dangerously by flooding

- Keep storm drain clear
- Study successful methods for building in flood planes
- May need to do more building on flood planes to reach RHNA numbers
- Providing floating housing to deter flooding

Extreme Heat

- Western Marin stays a little cooler and it is manageable without A/C
- Provide more assistance to get people off wood burning home heating
- Multi-unit projects design guidelines should include AC
- Could look at other means of controlling indoor temperatures
- o Using insulation, air flow and building orientation
- New housing design needs to include HVAC systems that can address that.
- Use electric-based heat.

Sea Level Rise

- Take into account areas subject to sea level rise
- Avoid building in areas that are subject to increasing risk in coming decades
- Dispersion of toxic chemicals in soil
- o How does wildfire risk/sea level rise factor into the identification of suitable sites, while keeping affirmatively furthering fair housing at the forefront of this work?
- o The most exclusive communities are where there is the highest risk in our county

Severe Weather

- Mitigate wind impacts by under grounding utilities
- o Consider providing air purifiers to clean indoor air to vulnerable populations

Wildfire

- Stop building in the WUI
- Wildland fire is not a risk, building fires are a risk
- Prescribed burns
- A program that prevent and mitigate the indirect impact of wildfires on residents, primarily regarding the air quality.
- Indirect impact of the bad air quality during wildfire seasons
- o Affect at home businesses and the health & safety of children / teachers.

Landslides - None

Subsidence - None

Summary of Comments Received For The Housing Elements

Participants were encouraged to share their comments and ask questions using the chat feature. These responses are organized by topic and as a response to a specific question asked by the presenter or facilitator. This made for a very dynamic meeting and yielded valuable input for the project team. The following is a high-level summary of the comments and questions that were made.

Ideas

- o Is there a map of suitable sites available for public review that the county has identified?
- Consider allowing backyard cottages to utilize electric or composting toilets and gray water systems that do not impact existing septic systems in West Marin.

- Consider utilizing new innovations in modular construction, solar panels, air flow, insulation and space utilization
- Make comfortable housing, reduces cost and impact on utilities.
- Possible homekey acquisitions, would those units count towards our RHNA goals?
- Re-visit building codes and other ordinances
- Has the county identified how many possible units of housing can be added as a result of SB 9 & 10?
- o How will the county be meeting AFFH requirements?
- Consider expanding the effort to identify sources of funding to fund community land trusts and the use of innovative modular construction methods to reduce construction costs.
- Consider using some of the new infrastructure funds just signed into law
- Consider using some of the south facing slopes in Marin Open Space for substantial solar panel installations.

Issues & Concerns

- o Existing conditions: risks, vulnerability before completion
- Answer various question on how to provide housing to various income levels with a equity lens
- o How do plan to incentivize developers to build low truly affordable housing?
- o Does unincorporated Marin County have any affordable housing overlay zones?
- o Is land cost a factor for affordable housing development?
- o What two projects are happening in Marin City?
- Marin City has only one road as the entrance & exit for residents is a major obstacle to the construction of additional housing units there.
- Will it also include Racially Concentrated Areas of Affluence, as defined by HCD?
- o How will the county prepare people for the upcoming Climate changes?
- Reducing dependence on carbon-based energy versus some sacrifice of the beauty and natural values in the open space? A careful assessment could be made to see if there might be an appropriate use of solar-generated electricity.

Public Comment

There were three people who participated in public comment, below is a high level summary of their comments and question for the city's consideration.

- o Multi-unit guideline incorporate child care infrastructure
- To supply child care with mixed use/ creative uses
- What are examples of actions that the county takes, once potential sites are approved for affordable housing?
- Have funding available to match the dollars, County has a housing trust fund, funds are transferred for the board, variety of sources
- County staff there to support to support the work, specifically the HE
- Need the sites from the HE to have the development
- o HE is for ALL income level , low income is the most difficult to plan

- Seem that there is a lot to juggle open space/ building codes/ ordinance/ legacies/
 Disaster preparedness
- Wondering about how it is being prioritized?
- o How to balance while also incorporating low income housing?
- o Is Golden gate village family public housing included in the HE, Preservation?
- Focused on adding unit but evaluates any potential lose of affordable units: ex expire beat restricts
- Marin City evaluation for safety and housing?
- o A lot of projects in the works

Next Steps

The City and MIG will share workshop results with the public and incorporate input into the development of the Marin County Safety and Housing Element. Participants were encouraged to share their responses to the survey on the website. The next workshop is scheduled for early spring.

- https://emergency.marincounty.org/pages/evacuation
- Relatively speaking, western Marin stays a little cooler and it is manageable without A/C
- Need more ways to capture water during rainfall and store in local cisterns and the local ordinances could look at balancing the need to capture water with the need to provide for healthy streams.
- Thank you Alan. We will keep this chat and refer back to good recommendations like this one as we start thinking about updates to our Safety policies.
- Hwy 1 also f;oods
- Hwy 1 Shoreline Hwy also floods
- MMWD has a rain barrel and cistern rebate program:

https://www.marinwater.org/sites/default/files/2020-

09/Rain%20Barrel%20and%20Cistern%20Rebate%20Form.pdf

- smoke
- air quality
- Marin City cut off dangerously by flooding
- Inundation of septic systems
- Can we access the whiteboard, or are comments just getting recorded through chat?
- Stop building in the WUI. Wildland fire is not a risk, building fires are a risk
- keep storm drain clear
- Provide more assistance to get people off wood burning home heating and migrated to electric-based heat.
- Drought is an endemic part of the historic climate of Marin. Use native plants that survive dry summers

- In Point Reyes because of the drought our water table is so low and sea water from the bay has
 increased the saline in the water to very unhealthy levels and we are having to get water from a
 delivery program,
- prescribed burns please
- study successful methods for building in flood planes..as we may need to do more of that to reach RHNA numbers
- To draw down greenhouse gases, reduce the number of cows (methane producers)
- As we consider more housing, take into account areas subject to sea level rise and avoid building in areas that are subject to increasing risk in coming decades.
- For more on GHG reduction and moving to electric see https://www.marincounty.org/depts/cd/divisions/sustainability
- Increase the use of e-bikes and other low impact electric vehicles to reduce traffic and exhaust fumes. Would require a significant capital investment and a challenge to the status-quo priority given to cars and trucks.
- Consider using some of the new infrastructure funds just signed into law to open the old train tunnels Woodacre to Fairfax and Corde Madera to Mill Valley. Provide a flat bike/pedestrian route from Point Reyes Station to Sausalito.
- Mitigate severe weather (wind) impacts by under grounding utilities
- SLR concern: dispersion of toxic chemicals in soil
- Government programs to help everyone convert to electric or hybrid vehicles.
- Will the housing element also be discussed tonight, or just the safety element?
- It is important to include in the housing element a program that prevent and mitigate the indirect impact of wildfires on residents, primarily regarding the air quality. For example, new housing design needs to include HVAC systems that can address that. Additionally, family child care providers, for example, have their businesses at their own homes. The indirect impact of the bad air quality during wildfire seasons affect their businesses and the healthy and safety of children and teachers. It is important that the program address this need.
- We will be discussing the housing element after our safety discussion
- Great, thanks!
- Additionally, heatwaves are becoming more common. Therefore, multi unit projects design guidelines should include air conditioning, for example.
- Some of the physically isolated populations are some of the wealthiest—beachfronts and mountains. They have the means to repair or move elsewhere.
- As an alternative to air conditioning, we could look at other means of controlling indoor temperatures using insulation, air flow and building orientation.
- With Marin City being in an high fire and now a flood zone. How will the county prepare people for the upcoming Climate changes?
- Consider providing air purifiers to clean indoor air to vulnerable populations. They do require electricity but far less that air conditioning.
- +1 Anne
- Is the zoning the same as the PSPS outage zoning?
- Think about providing floating housing that can also deter flooding...
- This looks like a great tool. I don't see it in the demo, but will it also include Racially Concentrated Areas of Affluence, as defined by HCD?
- Hi Taiwana. There are several projects being planned in Marin City in the coming months. Two are
 County sponsored and one is an Army Corp project. We have staff that are coordinating now to ensure
 we are not being redundant, but providing the information and outreach to involve Marin City residents.
 Additionally, our Department of Public Works is planning a second engineering project to improve
 draining near the bay shoreline.

- Awesome. I haven't seen many other jurisdictions get down to making this fine level of data available to the public. Keep up the good work!
- Consider using some of the south facing slopes in Marin Open Space for substantial solar panel
 installations. It's a tough choice to sacrifice some of the open space, but what is the greater good...
 reducing dependence on carbon-based energy versus some sacrifice of the beauty and natural values
 in the open space? A careful assessment could be made to see if there might be an appropriate use of
 solar-generated electricity.
- Is there a map of suitable sites available for public review that the county has identified?
- English: https://www.surveymonkey.com/r/MarinCoHousingSurvey
- Español: https://www.surveymonkey.com/r/marincohousingencuesta
- Tiếng Việt: https://forms.gle/SzALWFaoxLMvFgge7
- Consider-it: https://marinsafetyelement.consider.it/
- In Western Marin, consider allowing backyard cottages to utilize electric or composting toilets and gray water systems that do not impact existing septic systems. Consider utilizing new innovations in modular construction, solar panels, air flow, insulation and space utilization to make comfortable housing that reduces cost and impact on utilities. Would require a re-visit to building codes and other ordinances, but perhaps it is time to take another look at these constraints.
- Re: possible homekey acquisitions, would those units count towards our RHNA goals?
- Can we provide public comment through email? If so, what is the best email address to direct our comments?
- Housing: housingelement@marincounty.org
- Safety: safetyelement@marincounty.org
- Has the county identified how many possible units of housing can be added as a result of SB 9 & 10?
- www.marincounty.org/housingsafetyelements
- https://www.marincounty.org/depts/cd/divisions/planning/housing-and-safety-elements
- Awesome. Sorry for all the questions, but how will the county be meeting AFFH requirements?
- Terner Center Study: https://ternercenter.berkeley.edu/wp-content/uploads/2021/07/SB-9-Brief-July-2021-Final.pdf
- Thanks!
- I would like to speak if I can
- How do plan to incentivize developers to build low truly affordable housing
- Does unincorporated Marin County have any affordable housing overlay zones? That might make it easier for developers
- How does wildfire risk/sea level rise factor into the identification of suitable sites, all the while keeping
 affirmatively furthering fair housing at the forefront of this work? Recognizing that the most exclusive
 communities are where there is the highest risk in our county
- Consider expanding the effort to identify sources of funding to fund community land trusts and the use
 of innovative modular construction methods to reduce construction costs.
- What two projects are happening in Marin City?
- The fact that Marin City has only one road that serve as the entrance and exit for residents should be considered a major obstacle to the construction of additional housing units there.
- https://www.marincounty.org/depts/cd/divisions/planning/housing-and-safety-elements

Marin County Housing & Safety Elements Community Workshop #3 Summary of Workshop Discussion

January 20, 2022

Introduction

In mid- 2021, the County of Marin began efforts to draft updates for the Housing and Safety Elements. State law requires the Housing Element be updated every 8 years. Through the Housing Element, the County must identify and plan for how the unincorporated County can accommodate at least 3569 units of housing, with a specific number of units for low and very low income, moderate income, and above moderate-income residents. State law also requires that the Safety Element be updated when the Housing Element is updated. The Safety Element is a plan that looks at geologic hazards, flooding, wildlands, and urban fires.

This was the third workshop held to engage the community in this project. The website, https://www.marincounty.org/depts/cd/divisions/planning/housing-and-safety-elements, contains more information about the project and its upcoming activities.

Workshop Purpose and Format

On Thursday, January 20, 2022, the County of Marin and its consultants, MIG and VTA, hosted a public workshop to inform the community about the planning process for updating the Housing and Safety Elements, collect input on the site selection process and introduce a digital tool that will receive input on specific sites. Following guidance from public health agencies regarding gatherings during the COVID-19 pandemic, the workshop was held virtually using online video conferencing. City staff conducted robust community outreach to publicize the event. This included social media posts on Facebook, NextDoor, and Twitter. In addition, the workshop was promoted through the County's email notifications from the website. Two hundred and nine (209) people registered for the event and one hundred and ten (110) people participated. The meeting was also live streamed to YouTube.

MIG planner Joan Chaplick served as the moderator and facilitated the meeting. Leelee Thomas, Marin County Planning Manager, provided remarks to set the context and introduced the County's project team. The workshop was highly interactive and included live polls, language interpretation in one other language, Spanish, small group discussions documented in real-time using a google sheet, and a live demonstration of a digital tool that will receive input on specific housing sites. Participants could submit comments and questions throughout the meeting using the "Chat" feature. The Project Team answered questions throughout the meeting.

Agenda Topics and Engagement Activities included:

 Housing Element Process Update: Participants received a brief update of the housing element's purpose and requirements. Participants were also asked to share a word in the chat that described Marin County and respond to six demographic questions.

- Candidate Housing Site Selection Process: The Project Team walked through the guiding principles, strategies, and scenarios used in the preliminary site selection process. Following the presentations, participants were randomly assigned to ten small groups. Each group had a facilitator and note-taker, nine groups were facilitated in English and the last group was facilitated in Spanish. The Spanish group was influx due to deficient Spanish-speaking participants. Participants were invited to share their priorities in scenarios for housing site selection, any issues and ideas regarding site selection, and questions for future housing site selection.
- Balancing Act-Public Engagement Tool: Participants received a brief introduction and demonstration of a tool called Balancing Act that will receive input on specific sites. The tool would be posted on to the website and would help users create their own housing plan out of the list of potential housing sites for the Housing Element.
- Next Steps and Upcoming Outreach Opportunities: Participants received a brief review and a preview of upcoming outreach opportunities including office hours for Balancing Act.

Results from the Engagement Activities

The workshop opened with an open-end question and six polling questions intended to collect basic information about the participants. For polling questions, a number "n" is provided for the number of respondents for the question. Not all participants responded to each question. This number is the basis of percentages shown unless otherwise described.

Question 1 - Provide one word you use to describe living in Marin County. Participants were asked to test the chat by providing one word to describe living in Marin County. Open-end responses are in alphabetical order with the number of mentions noted in parenthesis.

 Building Very full privileged Community killing Fluffy Racist Complicated o Hot o ridiculous Congested (2) Inaccessible Strawberry o Crisis (2) Inadequate (2) Strawberry Inequitable o Terra Linda Critical o limited o Difficult (2) o Tight (2) Expensive (7) o Old Unfair For seniors overpriced Unsustainable

Question 2 - Where do you live? N:65

- 61.5% Unincorporated Marin County
- 35.4% City within Marin County (includes Belvedere, Corte Madera, Fairfax, Larkspur, Novato, Ross, San Anselmo, San Rafael, Sausalito, and Tiburon)
- 3.1% I do not live in Marin County

Question 3 - For those who responded they live in unincorporated Marin County, please tell us what part of the county you live in. N:59

- o 35.6% Unincorporated Southern Marin (Tam Junction, Marin City, Strawberry)
- o 23.7% I do not live within unincorporated Marin County
- o 15.3% West Marin
- o 13.6% Unincorporated Novato (Black Point, Green Point, Atherton, Indian Valley)
- 10.2% Unincorporated San Rafael (Marinwood, Santa Venetia, Los Ranchitos, Lucas Valley)
- 1.7% Unincorporated Central Marin (Sleepy Hollow, Kentfield, Greenbrae, San Quentin Village)
- o 0.0% I don't know

Question 4 - Do you work in Marin County? N:72

- o 54.2% Yes
- o 27.8% I do not work (retired, unemployed, other)
- o 18.1% No

Question 5 - How long have you lived in Marin County? N:72

- o 83.3% 10 + years
- o 2.8% I do not live in Marin County
- 9.7% 5-10 years
- 4.2% 1-5 years
- o 0.0% Less than 1 year

Question 6 - What is your housing situation? N:73

- o 82.2% I own my home
- o 11.0% I rent my home
- 4.1% I live with family/friends (I do not own nor rent)
- o 2.7% Do not currently have permanent housing

Question 7 - What is your age? N: 71

- o 0.0% Under 18
- 0 2.8% 18-29
- 0 15.5% 30-49
- 0 32.4% 50-64
- 0 49.3% 65+

Summary of Comments Received For The Housing Elements

Participants were encouraged to share their comments and ask questions using the chat feature. These responses are organized by favored scenarios, comments, and questions. This made for a very dynamic meeting and yielded valuable input for the project team. The following is a high-level summary of the key themes from the nine break-out groups that surfaced during the discussion. A full transcription of the breakout notes from each group is attached.

Scenarios

There were comments about having a balance of all the scenarios because all topics are important and should be implemented with respect to all stakeholders, residents and future residents.

1. Ensure Countywide Distribution

- Accessible transportation and transit
 - Encourage collocating housing with public transit stops and major corridors
 - o Concerns with increased traffic due to increased population because of housing
 - Create walkable and bikeable communities
 - Does the unincorporated area include any SMART train stops?
 - Has anyone contacted Caltrans for an assessment of the maximum capacity of the roadway?
- Want more education around development and requirements
 - O What is the budget for building in existing property?
 - o How does SB 9 (Urban Lot split) fit into the housing planning?
 - Where do you apply for housing programs (ADUs, JADUs, etc.)? Responsibility for development falls on the homeowner.
 - Do developers decide the kind of housing that gets built (Low-income, moderate, workforce, etc.)?
 - o Isn't the true measure of success is getting additional affordable housing built?
 - o Are there any requirements for ADA or senior housing?
 - o What are the characteristics and constraints of the potential sites?
 - o Do current projects or those approved show up as numbers in Balancing Act?
 - What are the AMI income levels for each level of affordability as part of this process?
 - What is the relationship between approved housing in the Housing Element v. actual construction of housing?
 - What is the budget for building on an existing property?
 - O Where do you apply for this program?
 - o Is there a way to limit the development of above moderate housing prior to meeting certain construction metrics for affordable housing?
 - Who gets to decide what type of housing is developed? i.e. moderate, workforce, etc.?

2. Address Racial Equity and Historic Patterns of Segregation

- Be creative and protect equitable opportunities
- Provide more affordable housing
 - Provide homeownership opportunities
 - Address concerns of corporate ownership of a unit
 - Consider non-profit and for-profit developers processes to ensure a diversity of housing types
 - o Continue to fund/support different types of development
 - Provide various housing types

- o Cost for development is high, fees, land costs, etc.
- o Consider "gifting" land through easements to let adjoining owners to add ADUs
- Address segregation and make the county more equitable and diverse
 - Concern about existing restrictive covenants
 - o Rezone areas that are historically segregated
- Create accessibly housing for mixed level of income, racial, cultural, and ages
 - o Ensure housing is safe for both residents and the environment
 - Provide adequate resources
 - Distribute a diversity of housing and people throughout the county
- Other underserved groups
 - Provide accessible and affordable housing for the workforce, seniors, people with disabilities (ADA), and low-income families
 - Has there been consideration of children of current residents that feel pressure to leave because of costs? How can we alleviate the pressure?
 - Consider Social and human health

3. Encourage Infill and Redevelopment Opportunities

- Increase density and infill
 - o Concern about the increase in the number of people
 - Consider San Geronimo, Inverness, Fire House on Frontage Road in Terra Linda, St. Vincent's, Silveira Ranch, Marinwood shopping centers, Golden Gate Village, and Sacred Heart Church in Olema as potential sites
 - Consider moving San Quentin prison and redeveloping
 - How do the unoccupied homes play into the process? (Vacation rentals & Airbnb, West Marin)
 - Consider rezoning (agricultural land), building code amendments, convert commercial buildings, and amending regulation for services (Waste, septic, stream, etc.) as a component of this process
 - Consider affordable housing in potential infill sites
 - o Develop Tiny Homes, ADUs, JADUs, mixed-use, mobile home developments, boat communities, Habitat for Humanity development, etc.
 - Develop on undeveloped land, parking lots, public golf courses, and church property
 - Develop community land trusts
 - o Has the county surveyed large landowners about the options under discussion?

Infrastructure

- Locate services with housing
- Increase infrastructure (water, waste, power, sewage, parking, schools, hospitals, police, firefighters, etc.) demand due to increased population because of housing is a concern
- O How will the infrastructure be improved?
- o What efforts is the County making to update septic policies/regulations?
- o How will the improvements be paid for?

4. Consider Environmental Hazards

- Protect the environment
 - o Mitigate flooding, sea-level rise, air pollution, and wildlife
 - Ensure environmental justice communities/ underserved communities are safe from hazards
 - Preserve and protect open spaces
 - Create more accurate fire hazard maps
- Concerned about evacuation route access
- Concerned about developing around Tam Junction, Marin Mill Street, Marinwood Plaza,
 Drake, and St Vincent / Silveira

5. Process Concerns and Ideas

- Feel the County will move forward with whatever decision without resident consent.
- Think that the law is counterproductive; requiring a certain number of units whilst
 making construction more difficult and expensive, then the county will be reprimanded
 for not reaching the housing unit goal.
- Consider resident retention and preserve the quality of life
- What are the next steps in the process?
- Will the tools and materials be in multiple languages?
- How will the public be involved moving forward?

Next Steps

The City and MIG will share workshop results with the public and incorporate input into the development of the Marin County Housing Element. Participants were encouraged to share their responses to the survey on the website. The next workshop is scheduled for early spring.

Marin County Housing & Safety Elements Community Workshop #3 Summary of Workshop Discussion

March 29, 2022

Introduction

In mid- 2021, the County of Marin began efforts to draft updates for the Housing and Safety Elements. State law requires the Housing Element to be updated every 8 years. Through the Housing Element, the County must identify and plan for how the unincorporated County can accommodate at least 3,569 units of housing, with a specific number of units for low and very low income, moderate-income, and above moderate-income residents. State law also requires that the Safety Element be updated when the Housing Element is updated. The Safety Element is a plan that looks at geologic hazards, flooding, wildlands, and urban fires.

This was the fourth workshop held to engage the community. The website, https://www.marincounty.org/depts/cd/divisions/planning/housing-and-safety-elements, contains more information about the project and its upcoming activities. This workshop focused on the Housing Element.

Workshop Purpose and Format

On Tuesday, March 29, 2022, the County of Marin and its consultants, MIG and VTA, hosted a public workshop to inform the community about the planning process for updating the Housing Element. The focus of the meeting was to share information about potentials programs and policies for inclusion in the plan. The workshop was held virtually using online video conferencing. City staff conducted robust community outreach to publicize the event. This included social media posts on Facebook, NextDoor, and Twitter. In addition, the workshop was promoted through the County's email notifications from the website. One hundred and eightyone (181) people registered for the event and one hundred and twelve (112) people participated.

MIG planner Joan Chaplick served as the moderator and facilitated the meeting. Leelee Thomas, Marin County Planning Manager, provided remarks to set the context and introduced the County's project team. The workshop was highly interactive and included Zoom polling, language interpretation in one other language, Spanish, Mentimeter polls, and real-time documentation on a digital whiteboard. Participants could submit comments and questions using the "Chat" feature throughout the meeting. The Project Team answered questions throughout the meeting.

Agenda Topics and Engagement Activities included:

 Housing Element Process Update: Participants received a brief update of the housing element's purpose and requirements. There was a presentation on the role and purpose of the Policies and Programs

- Solicit Input on the Program Ideas and Priorities: Participants received a presentation on potential policies and programs for the Housing Element. Throughout the presentation, participants were asked to share their ideas and comments in the chat and used the Mentimeter poll to rate potential policies or programs on a five-point scale, 1 being "No Do not further develop" and 5 "Yes-Further develop this idea."
- Next Steps and Upcoming Outreach Opportunities: Participants received a brief preview of upcoming events.

Results from the Engagement Activities

The workshop opened with an open-end question and five polling questions intended to collect basic information about the participants. For polling questions, a number "n" is provided for the number of respondents for the question. Not all participants responded to each question. This number is the basis of percentages shown unless otherwise described.

Question 1: Where do you live? N:60

- 0% I do not live in Marin County
- 28% City within Marin County (includes Belvedere, Corte Madera, Fairfax, Larkspur, Novato, Ross, San Anselmo, San Rafael, Sausalito, and Tiburon)
- 72% Unincorporated Marin County

Question 2: For those who responded they live in unincorporated Marin County, please tell us what part of the county you live in. N:54

- 2% Unincorporated Central Marin (Sleepy Hollow, Kentfield, Greenbrae, San Quentin Village)
- 2% I don't know
- 4% Unincorporated Novato (Black Point, Green Point, Atherton, Indian Valley)
- 9% Unincorporated San Rafael (Marinwood, Santa Venetia, Los Ranchitos, Lucas Valley)
- 9% Unincorporated Southern Marin (Tam Junction, Marin City, Strawberry)
- 13% I do not live within unincorporated Marin County
- 61% West Marin

Question 3: Do you work in Marin County? N: 67

- 9% No
- 42% I do not work (retired, unemployed, other)
- 49% Yes

Question 4: How long have you lived in Marin County? N:69

- 0% I do not live in Marin County
- 3% Less than 1 year
- 4% 5-10 years
- 6% 1-5 years
- 87% 10 + years

Question 5: What is your housing situation? N:72

- 0% Do not currently have permanent housing
- 1% I live with family/friends (I do not own nor rent)
- 18% I rent my home
- 81% I own my home

Question 6: What is your age? N:70

- 0% Under 18 years old
- 3% 18-29 years old
- 9% 30-49 years old
- 34% 50-64 years old
- 54% 65+ years old

Summary of Comments Received for The Housing Elements

Participants were encouraged to share their comments and ask questions using the chat feature. These responses are organized by favored scenarios, comments, and questions. This made for a very dynamic meeting and yielded valuable input for the project team A full transcription of the breakout notes from each group is attached in the appendix.

Questions:

- What methodology was used to allocate the 14,210 units within Marin?
- With the population declining why are the numbers believed to be accurate and meaningful?
- Will the link for the recording be emailed to everyone who registered for the live event?
- How do low-cost rentals get figured in and included in affordable housing?
- Can employees of local businesses have preferences?

Summary of Input on the Program Ideas and Priorities

The workshop opened with a description of potential programs, an open chat period for comments and questions, and nineteen (19) scaling questions to rate whether the programs should or should not be further developed for the housing element. For Mentimeter polling questions, not all participants responded to each question; a number "n" is provided for the number of respondents for the question. The visuals represent the Weighted Average of the scaling questions. In the comments below, an asterisk (*) is used to indicate the number of times the comments were repeated.

A. Increase Availability of Existing Units

- Short term rentals
 - Units include VRBO, Air BnB, etc.
 - Many voiced the desire to eliminate and or limit the number of short-term rentals******
 - A comment stated that "Corporations/ Conglobates have purchased vast amounts of short-term rentals housing in West Marin. The county needs to enforce residential zoning."
 - Question: Is the county looking at regulating STR, identifying abandoned houses to be salvaged as well as new housing?

Vacant Home tax

- Many voiced the desire to have a tax on vacant homes******
- Case Study: Oakland has a vacancy tax for any empty homes. The city earned
 \$7M last year. SF is considering it.
- O How is the vacancy tax enforced?
- How do you know that a property is vacant? Penalizing people who can't live there all the time seems tricky.
- Can employees of local businesses have preferences?

Other Ideas:

- Look at underutilized industrial and commercial spaces to adapt into residential or mixed-use housing.
- Use government super fund to clean Brownfields.
- o Consider each program independently.
- Make tiny homes/ remodeling kits
- o Concerns about traffic congestion, limited infrastructure, and resources.
- o Build along the 101, near transportation, and existing development.
- Accessory Dwelling Unit (ADU): sometimes called a granny flat, junior accessory dwelling unit (JADU), or second unit.
 - Make it easier to create ADUs and JADUs*
 - Amnesty for legalizing existing units
 - Waive all fees
 - Incentive to come forward, bringing units to code
 - Guide people through the amnesty process
 - Need affordable rentals
 - See if we can add 500 or even more units without building a single home.

N: 63

B. Tenant Protection

• Rent Stabilization Ordinance

- No Rent control ***
- Yes Rent control**
- "Owner and tenant have to be protected. Tenants weaponizing rent control to extort owners or owners who abuse their tenants."
- Expand the Just Cause for Eviction Program
 - Support Expand the Just Cause Ordinance*
 - "Provide longer notice periods when tenants are displaced when units are demolished.
 Allow tenants to return to rebuilt units at the rent they were paying when displaced."
 - o What does expanding the "just cause ordinance" mean?
 - o How is it currently inadequate?
- Create a Tenant Commission
 - O Why not a tenant-landlord commission? Discourage polarization?
 - Yes Tenant commission **
 - It should be both tenant and landlord rights commission.
 - "Require landlords to be educated on their responsibilities as landlords so tenants are not taken advantage of."

N: 64

C. Special Needs Population - Seniors

- Promote participation in Home Match Program
 - Do the outreach through non-profits
 - Support the home match program
 - "I love the home match program. I know a young woman who lives in a home with a senior citizen. It was through Whistlestop."
- Increase assisted living opportunities
 - Support Senior housing subsidies for low income **
 - Support Seniors aging in place by modifying their homes
 - Support Senior communities
 - "Point Reyes and Mill Valley Redwoods have Successfully created lovely senior communities."
 - "Senior communities with activities for owners such as Robson in Texas or Arizona would be welcome."
 - Provide more Intergenerational Housing (shared/co-housing/co-living opportunities for senior and younger single adults)***
 - "Some seniors don't want to be around only other seniors, some like being in multigenerational communities."
- Create small lot/townhomes for seniors
 - o Yes Smaller lots *
 - Could small lots (1,200sf) with small homes for 800sf homes be available for purchase - similar to AB 803 starter home reg?
 - Yes Tiny homes **
 - o Fund specific programs using state grant funding.
 - Support caregiver cottages/ housing **
 - Create more senior housing and tiny homes***
 - For purchase and or renting

- In West Marin
- ADUs on family members' property
 - Are there subsidies for ADUs?
- Difficult with septic systems in West Marin
- Build single-level housing and provide elevators for seniors.
- "Could regulations similar to SB 9 provide for lots splits so seniors can provide another family space for a home but not have to take on the debt from building a second unit."
- "Could a low-cost loan, streamlined permitting and pre-approved plans for ADUs be made available for seniors?"

N: 69

C. Special Needs Population - Farm Workers

- Develop a program for County to work with farm employers to contribute to an affordable housing fund or land trust***
 - Talk with the employer, farmworkers, and their families regarding needs **
 - Consider the duration of the stay and employment
 - Can we allow non-profits to manage the units so that there is decent and safe housing and provide AFFH?
 - o How would you police that the farmworker housing is farmworkers?
 - "Dairy farms supply free housing for employees and their families. Need to help upgrade housing on farms"
 - Explore opportunities for renters to purchase with funding for land trusts, co-ops, to purchase and preference for "essential workers"
- Develop a set aside of percentage units at new affordable housing developments for farmworkers*
 - o Are these seasonal workers?
 - Short-term rental?

- Other
 - Change 60-acre zoning
 - Commute Less
 - House caregivers and health support workers
 - o Expedited review is important
 - Amend the Williamson act to create housing for non-farmworkers
 - o "Farmworkers are the most essential workers"
 - o Create a village out of groups of farmworker housing

N:62

C. Special Needs Population - People with Disabilities

- Assistance with accessibility improvements
 - Aging people may be temporarily disabled.
 - Old buildings are problematic.
 - o What about housing for people with developmental disabilities?
 - o Are there plans for independent and supported living options?
- Expedited review for reasonable accommodation
 - o Is there a deadline to decide?
- Incentives for universal design
 - o ADA is a necessary regulation but can be weaponized.
 - All new construction has to be built with ADA and accessibility regulations.
 - o Single-story housing units are both rentals and for purchase.
 - Regulations would be difficult to legalize many ADUs.
- Visitability requirements for multi-family housing
 - o could you further define multi-family?
 - O How many occupants or units?
 - Multifamily is governed by ADA and Universal Design Guidelines.

Unsure it's a good idea to push multi-family housing in rural areas

N:56

N:57

C. Special Needs Population - Persons Experiencing Homelessness

- Provide housing through Project Home Key
 - How does the county plan on preventing Project HomeKey from being turned down by the neighborhoods they're found in?
 - o Use Lee Garner Park in Novato as a model for transition housing
- Support rapid re-housing options
 - o Help alternative-housed individuals remain in their communities

- Make the permits temporary
- Need partnership support
- Provide Alternative housing types tiny homes, etc.
 - Job trading and work placement program.
 - Offered permanent housing for people in hospitals
 - Can tiny homes be allowed in campgrounds or backyards?
 - o Do not overpopulate and create health hazards in tent cities
 - Ask Homeless questions
 - Decriminalize "compostable toilets."
 - Treatment and substance abuse services (Mental & Health) as an adjunct to housing are essential***
 - Considerations for resources (water, sustainability, and drainage)

N: 59

D. Other Program Ideas & Comments

- Affordable housing
 - Incentives for ADU production for Low-income populations?
 - Low-cost lending pool to produce units for low-income homeowners
 - Shallow rent subsidies for low-income residents
 - "Can the county increase the percentage of required affordable housing for projects?"
- Environmental concerns
 - o Allow for a prescriptive septic design for set geographic areas to save money
 - Allows for shared septic systems for permanently deed-restricted unit development
 - Change flows to be reflective of 65g per day per bedroom now that we have low flow fixtures.
 - "How will traffic concerns be addressed given the risk of fire?"
 - o Concerns with additional air pollution from added housing

Homeless

Join housing and social services

Infill

- "How about infill housing over shopping centers that are already in transportation hubs?"
- "Facilitate communities building septic systems to allow for infill"
- "Need small sewer or package plants for infill projects instead of septic"
- Keep West Marin Rural tourism and recreation

• Local Preference

Clarify why Marin is not submitting local preferences

Small Lots/Tiny homes

- o "Can the county buy some lots and put tiny homes on these?"
- Build a sense of community using community bathrooms, and kitchens could in Tiny Home and Tent communities.
- Legalize Tiny Houses countywide

Streamlining

- "Can by-right or streamlined permitting and increased density for all affordable projects be considered?"
- Offer project management and approved ADU building plans
- Support self-help housing so families can build their own homes using set plans and streamlined permit process
- Streamline development applications should be applied to all forms of residential housing.
- o "Is there a county of how many ADUs are in code enforcement at this time?"
- Potential "transaction tax on home sales to provide County funds for additional affordable housing?"
- "County should take a more active role in creating flexibility in building housing."
- o Need a flexible/ affordable housing market.

Vacant home and short-term rentals

- o Stop/limit 2nd and 3rd homes, single homes, apartments, etc. rentals.
- Raises the cost and left vacant
- o Does the county have a count on the number of abandoned houses?
- Levy a tax on rentals and funding goes to housing ideas

Other

- Programs to transition people into different housing types --> meet housing needs throughout steps in life
- How are things allocated? Fire risks, evacuation concerns, infrastructure, congestion, etc.
- "County's role in financing?"

Next Steps

County staff will make a presentation on the Housing Element Proposed Policies and Programs at a Joint Session of the Board of Supervisors and the Planning Commission on April 12. The draft Housing Element will be available for public review during Summer 2022.

Marin Housing & Safety Element Workshop April 4, 2021 - 6pm-8pm

What's one word that comes to mind when you think about safety and Marin County.

Safety Element

Do the safety issues the Housing Element. element occurs?

need to be resolved before the housing

Goals & Programs

Equity

Residents (Homeowners, etc.) were included in some focus groups

Wildfire

Disaster Preparedness, Response & Recovery

A plan to staff Stop lights & signs What infrastructure is Evacuation routes are intersections and possible given fire would quickly back override the stop Congested important up traffic for miles. lights is important Out pouring of cars would require alternate routes

Resiliency Planning

How does EV disaster and

Who gets the West Marin developers should agree to strict concerns need to be a environmental

component of any plans for new housing

Sea Level Rise

Have they heard about Measure C- MWPA, all that is happening re. sea level rise

Do people know what the real risks are and what is actually being done?

Severe Weather, Extreme Heat & Drought

What's the best way to get you information about emergency conditions?

Additional Issues, Concerns, Questions?

When and how were citizens informed about the resources and directed how to sign

deadline to put in the

Better publicity & notifications of this process sent out.

Public Comments

What is the county going to do next? Homes are going at market rate but very expensive	Collaborate with incorporated cities and towns	Work closely with the Mwpa, and with ecologically sound practices	What is the timeline?
If there is going to have more housing therefore more people which is a bigger risk.	Communicate with the cities since they are going through similar process'	Make sure that all the efforts being made for fire prevention and safety taken into account	About what the affordable housing is going to planned
Are we going to be able to do this affordably and safely	And they have to adhere to county rules as well	How does environmental interests and ecological concerns fit?

Marin HE-SE Focus Groups Top Level Findings

September 9th, 2021

Homeowners

- Living about 10-20 years in the current housing
- Found housing through real estate agents
- Somewhat satisfied would like more options, the climate is changing
- Affordability is an issue, moving in fees, has to make multiple offers
- Limited access to public transit in Marin County
 - o Reverse commute from SF is still bad, super commuters from outside Bay Area
- Would not move or be able to buy again in Marin now
- COVID: working from home more now, internet access/call reception (spotty)
- Feeling "stuck" in current home, unable to consider buying something else right now
 - Decided to invest in renovations since they feel unable to move/purchase something else
- Maintenance: poor street infrastructure, clogged water pipes causing flood issues
 - Whose responsibility is it for tree maintenance: HOA vs County?
- Wildfire and flooding are constant fears, house would not survive (older houses)
- No AC in older homes / single-family homes, homes get hot inside after 80 degrees
- Power outages issue for boat homes
- Air Quality: residents are adapting, closing windows, getting air filters
 - Not getting notified, had to find information daily through apps/weather channels
 - Using masks, but hard to access/find, health concerns
- Insurance has gone up / concerns about this
- Programs from County few were aware
- Suggestions for getting information to residents
 - Mailers, working with local businesses, emails, nextdoor, neighborhood associations (formal/informal), schools
- Suggestions for making housing more affordable
 - Transparency on purchasers (concerns of LLCs / Foreign buyers/speculators)
 - Limiting short-term rentals (AirBnB, etc)
 - Removing barriers to building in-law units (limited city/county staff to help with these processes - San Rafael as an example)
 - o Increase property taxes on higher (millions) income homeowners/residents
 - Lower / subsidence property taxes for lower-income residents

Renters

- Wide range of length of time living in Marin (6 months 50 yrs)
- Not able to buy a home / afford to buy a house
- Limited space (studios / small units / in-law units) limit family growth
- Found housing through Craigslist and online searches and referrals

- Long-term renters had moved a lot around the County
- Barriers: affordability, strange rules, and added requirements from landlords (not feeling comfortable being home all day, not being able to have guests)
 - o Most of their paycheck goes to housing, transportation, utilities, and not much left
 - Discrimination based on race/ethnicity by landlords
 - Limited transportation
 - Would rather live in East Bay (would feel more comfortable there)
- Some POC expressed they feel unwelcome or watched when they go shopping- prefer the East Bay where they people more welcome
- Improving housing:
 - Moving expenses are high
 - People would leave Marin County
 - Lose medical support system (resident on disability)
- Isolation, feeling secluded
- Residents don't know where to access programs
- Suggestions for getting information
 - o Billboards, community boards, flyers
 - Seniors centers
 - Grocery stores
 - o Schools
 - o Craigslist, Next Door
- Suggestions for affordable housing
 - Developing co-op
 - Repurposing public spaces: church parking lots, other vacant spaces
 - Increase taxes on the rich
- COVID: feeling a lot more isolation, disconnected from community
- Air Quality: smoke impacting health concerns
 - Not getting notified using apps, Google
 - Using masks, staying indoors (exercise, not walking dog)
 - o Changing air filters, air purifiers
 - Impacting mental health/isolation
- Extreme heat events
 - Want cooling centers
 - Don't have a central cooling system in units
- Neighborhoods not organized, don't know their neighbors
 - Not much coordination or alarms for emergencies
- Limited cell reception, especially in case of emergencies

Similar Themes (Renters + Homeowners)

- Lack of affordability (rents, buying homes, living expenses in general)
- Lack of resources / information: not knowing who to go to for access, or where to get information
- A general feeling of dissatisfaction / just dealing with what they have / settle for what they can afford

- Residents would have to leave Marin if they have to move from current housing or in event of natural disaster, can't afford to rebuild/stay/find a new place within Marin
- Most neighborhoods are not coordinated or organized in case of natural disasters

CBO

- To some degree, they all work with Low-income residents; People of Color; Families with children; Adults and youth with special needs; Seniors; Other groups
- Finding housing
 - Long waitlists (up to 200 households)
 - Word of mouth/referrals are used
- Length of a search varies, case by case (could be a few weeks to a couple of months)
- CBOs providing support
 - Security deposits
 - Working with landlords
- Barriers
 - Lack of affordability
 - Undocumented residents have a had time securing housing
 - Substandard/unsafe housing
 - Lack of public transportation
 - o Landlords trying to evict people, not keeping homes up to codes/repair needs
 - Challenges for sub-leaders
 - Farmworker housing is tied to work/employment
 - Homeowners often do not qualify for "low-income" programs/services
 - Changing housing is a challenge
 - Many workers are commuting from other counties, including CBO staff and clients
 - Limited housing stock: due to short term rentals and secondary homes
 - Other issues: waste systems, education for homeownership, renters rights
- Obstacles due to Covid
 - Rise in domestic violence / sexual violence
 - Poor performance in school (online)
- Opposition for affordable housing projects
 - Lack of sites for new housing
 - Concerns that increase diversity would make drought challenges worst
- Discrimination:
 - Against undocumented people
 - General unwelcomeness
 - NYMBYism
 - Racist / discriminatory comments/ covenants
 - Against disabilities (design of the housing is not helpful)
 - Seniors are unable to downsize because of limited affordable options
 - Need to have better relationships with landlords
 - Landlords discriminate against housing vouchers
 - Concerns about new residents disrupting the neighborhood

- County programs Support awareness
 - ADU/JADU programs are good, need to be expanded
 - Need inclusionary housing
 - People don't know they qualify for certain services
 - Zoning for camp groups
- Challenges to adding ADUs
 - Cost of construction/permits, staying up to code
 - Property taxes- tax relief if you have affordable rentals (incentives to rent affordable units, maybe have lower property taxes)
 - Land use policy limiting Increase density
 - Design/ infrastructure considerations for seniors (Ex: ramps, counter height)
 - ADUs being used for short term rentals
- Suggestions for making it easier to get information
 - Increase case management at CBO level (would like funding to support this)
 - Cultural considerations of staff supporting clients Vietnamese communities,
 Spanish speaking communities,
 - Go where the people are
 - Closing digital divide: using WhatsUp and text to get information out
 - Increase staff to assist with application to services
 - Education awareness to people/public on ways they could retain their homes and stay in Marin
- Suggestions for making it more affordable
 - Universal basic income
 - One-stop shop to find resources (Events, public health information, etc.)
 - Intergenerational housing
 - Pathways to affordable homeownership with a racial equity lens, addressing decades of unequal access/racism
 - Innovative housing Innovative ways to build things, 3D printed little homes / little neighborhoods, set a new image of what is acceptable housing
 - Fair Chance ordinance
- Safety/ Disaster Preparedness
 - Flooding and fire hazards
 - o Bridge closures, earthquakes
 - o Displacement due to natural disasters (people would not be able to stay in Marin)
 - Unable to afford hotels for evacuations / unable to stay in friends' home (limited space)
 - o Generally unprepared and don't know who to ask for help
 - Can't afford AC, limited transportation to cooling centers
 - Seniors unable to care for themselves, more health risks, more isolation
 - Aging in place is difficult, people lose their support systems
 - Support
 - Grassroots project by and for low-income residents created emergency
 Go Buckets (75 buckets with supplies, masks, etc)
 - Organizations Directly working with communities

Community Survey – Housing Needs in Unincorporated Marin County

Marin County is in the process of preparing a housing plan, called the Housing Element, to address housing needs for people living in the County's unincorporated areas (not within the cities or towns). This survey is designed to have you share your ideas about housing needs today and in the future.

Your input will inform the Housing Element. The	e survey will take about 10 minutes to complete.
Please tell us about your current housing circumstances.	4. Do you work in Marin County?
1. What is your housing situation?	O Yes
O I rent my home	O No
O I own my home	 I do not work (retired, unemployed, unable to work,
I live with family/friends, do not own or pay rent	or other)
O Do not currently have permanent housing	5. How long have you lived in Marin County (city and

C	Aumentar las oportunidades para convertirse en propietario de vivienda para los residentes de ingresos	

moderados, bajos y muy bajos.

Mejorar las condiciones de vivienda deficientes.

Marin Housing Element: Housing Survey Results Summary

Prepared by:

800 Hearst Avenue Berkeley, CA 94710

January 2022

Introduction

The County of Marin is updating their Housing Element, as required by law, to establish the conditions for more housing at all income levels to be developed across the unincorporated areas of the county with the goal of meeting the RHNA number assigned to Marin County by the state of 3,569 units.

The County has provided multiple opportunities for resident to weigh in on the update process for the Housing Element. The survey described in this summary was just one of the ways residents were able to share their experiences and needs for housing in Marin. The project website: https://www.marincounty.org/housingsafetyelements contains more information about upcoming activities.

Methodology

The County of Marin is conducting a variety of outreach activities to solicit community input. This survey was focused on the housing needs and desires for the county, and it was publicized in English and Spanish.

The County used the Survey Monkey platform for this survey, which was promoted extensively through County communication channels including post-card mail-outs, multiple email communications, and social media. Using both an online and paper format, the survey was shared with County residents via multiple Community-Based Organizations (CBOs) and publicized through online workshops.

The CBOs who supported the outreach effort included:

- Community Action Marin
- Community Land Trust Association of West Marin
- Lifehouse
- Marin Community Foundation / West Marin Community Services
- Marin Environmental Housing Collaborative (MEHC)
- San Geronimo Valley Affordable Housing Association
- Vivalon (serves people that need paratransit)
- West Marin Senior Services

The survey period ran from October through December 20th, 2021. There were 728 responses completed in English and 90 responses in Spanish, for a total of 818 responses.

Key Findings

Highlights of the survey results include:

Top housing choices for Unincorporated Marin County

Participants were asked to identify their top three housing priorities (out of seven choices).

- 59% of respondents selected "Increase the amount of housing that is affordable to moderate, low, and very low- income residents"
- 47% of respondents selected "Increase homeownership opportunities for moderate, low- and very-low-income residents"
- 33% identified "Create programs to help existing homeowners stay in their homes"
- The remaining 4 choices were selected by 23% to 28% of the respondents

There is insufficient housing in my community for:

Participants were asked to select all that apply from seven choices. The top three choices were:

- Low-income households (59%)
- Families with children (35%)
- Older adults: seniors, elderly (34%)

Top barrier to affordable housing

Participants were asked to identify the top barrier to affordable housing of out five choices.

- 55% identified "Limited availability of affordable units"
- The remaining choices received between 5% and 18% of the responses.

The survey included 12 questions that were multiple choice. Where appropriate, the responses also included "other" as a choice where participants could write in their response. There was also a thirteenth question that provided the opportunity for participants to add any additional comments.

The following sections present the survey results for each question based on responses received in English, Spanish, and the combined total. There is also a summary of the key themes from the open-ended comments received for each question. A full compilation of the comments is available as an appendix to this document.

Survey Results

The complete survey results are summarized below.

The English survey had 728 respondents:

- 626 responses online
- 102 responses through paper surveys

The Spanish survey had 90 Spanish respondents:

- 22 responses online
- 68 responses through paper surveys

The following charts show both the English and Spanish responses, as well as the combined results. Percentages are rounded to the nearest whole number. Not all participants responded to each question.

Question 1. What is your housing situation?

About 67% of respondents are homeowners, while 25% are renters. Most English respondents (75%) are homeowner while the majority of Spanish respondents (68%) are renters.

Responses	English	Spanish	Combined
I rent my home	144 (20%)	59 (68%)	203 (25%)

I prefer not to say	52 (8%)	1 (1%)	53 (7%)
I prefer to self-identify	17 (3%)	1 (1%)	18 (2%)
Total	660 English	85 Spanish	745 combined
	respondents	respondents	respondents

Question 7. What is your age?

Most respondents (56%) are between the ages of 30 and 64 years old and 38% are over the age of 65.

Responses	English	Spanish	Combined
17 or under	1 (0%)	1 (1%)	2 (0%)
18-29	25 (4%)	16 (19%)	41 (5%)
30-49	142 (21%)	52 (63%)	194 (26%)
50-64	210 (32%)	14 (17%)	224 (30%)
65 or older	287 (43%)	0 (0%)	287 (38%)
Total	665 English	83 Spanish	748 combined
	respondents	respondents	respondents

Question 8. What percentage of your income is spent on housing costs (including rent and utilities or mortgage, property tax, and homeowner's insurance)?

One third of respondents (37%) spend between 30% and 50% of their income on housing costs, while another 19% of respondents spend over 50% of their income. In total, 56% of respondents stated that they spend over 30% of their income on housing costs. From the Spanish respondents alone, almost 60% of those who responded to the survey spend more than 50% of their income on housing costs.

Responses	English	Spanish	Combined
Less than 30% of	260 (40%)	11 (13%)	271 (37%)
income			
Between 30-50% of	254 (39%)	18 (22%)	272 (37%)
income			
More than 50% of	95 (14%)	48 (59%)	143 (19%)
income			
Does not apply	48 (7%)	5 (6%)	53 (7%)
Total	657 English	82 Spanish	739 combined
	respondents	respondents	respondents

Question 9. How well does your current housing meet your needs?

While 69% of the combined respondents stated they were satisfied with their housing, about 18% of the Spanish respondent selected that their unit is "substandard or in bad condition and need [their] landlord to respond."

Responses	English	Spanish	Combined
I am satisfied with my housing	478 (73%)	26 (34%)	504 (69%)
I would like to downsize but am unable to find a smaller unit	25 (4%)	6 (8%)	31 (4%)
I am unable to house additional family members	35 (5%)	13 (17%)	48 (7%)
My unit is substandard or in bad condition and I need my landlord to respond	9 (1%)	14 (18%)	23 (3%)
My unit is in bad condition, and I cannot afford to make needed repairs	18 (3%)	3 (4%)	21 (3%)
My unit needs improvements to make it easier to live with a disability	21 (3%)	6 (8%)	27 (4%)
None of the above	72 (11%)	9 (12%)	81 (11%)
Total	658 English respondents	77 Spanish respondents	735 combined respondents

Question 10. Select the top 3 housing priorities for unincorporated Marin County.

Of the combined respondents, 59% agreed that increasing "the amount of housing that is affordable to moderate, low, and very low-income residents" was among their top housing priorities. The second highest selected option was to "increase homeownership opportunities for moderate, low- and very low-income residents," which was selected by 47% of the combined respondents. The third highest option selected among the English respondents was "Create programs to help existing homeowners stay in their homes" with 36% of English respondents selecting this option. Among the Spanish respondents, the third highest selected option, with 33% of Spanish results, was "Make it easier to build new housing in unincorporated Marin County."

Responses	English	Spanish	Combined
Increase the amount of housing that is affordable to moderate, low, and very low- income residents	382 (57%)	63 (73%)	445 (59%)
Make it easier to build new housing in unincorporated Marin County	180 (27%)	28 (33%)	208 (28%)
Create programs to help existing homeowners stay in their homes	238 (36%)	11 (13%)	249 (33%)
Target efforts to address inequities in the housing market, including discrimination in renting	213 (32%)	15 (17%)	228 (30%)
Increase homeownership opportunities for moderate, low- and very-low-income residents	313 (47%)	40 (47%)	353 (47%)
Improve substandard housing conditions	176 (26%)	24 (28%)	200 (27%)
Other (please specify)	170 (25%)	7 (8%)	177 (23%)
Total	668 English respondents	86 Spanish respondents	754 combined respondents

Summary of additional comments included:

- A desire to build more moderate and low-income housing
- Desire for more programs that support affordable homeownership
- Support for current residents to be able to stay in Marin
- Suggestions to keep higher density developments near transportation, in city centers, and where infrastructure for utilities already exists
- Desire to preserve the open space, parks, and agricultural land within the County
- Concerns about how the character of towns and neighborhoods might change with higher density
- Concerns for limited water due to drought
- Concerns for increased traffic due to more housing
- Hesitancy for increased density and more development

Question 11. There is insufficient housing in my community for (please select all that apply).

The top three choices by the combined responses were:

- Low-income households (59%)
- Families with children (35%)
- Older adults: seniors, elderly (34%)

Responses	English	Spanish	Combined
Families with children	202 (32%)	49 (62%)	251 (35%)
Low-income households	369 (58%)	53 (67%)	422 (59%)
Older adults (Seniors, Elderly)	235 (37%)	8 (10%)	243 (34%)
Single individuals	189 (29%)	10 (13%)	199 (28%)
Persons with disabilities	156 (24%)	7 (9%)	163 (23%)
I don't know	129 (20%)	4 (5%)	133 (18%)
Other (please specify)	108 (17%)	3 (4%)	111 (15%)
Total	641 English	79 Spanish	720 combined
	respondents	respondents	respondents

Note: Percentages will total over 100% since respondents were allowed to select multiple options.

Summary of additional comments included:

- Desire for more rental options
- Insufficient housing for local workers resulting in workers having to live outside of Marin County
- Lack of options for those experiencing and/or are at risk of homelessness
- Insufficient housing for middle-income families, single individuals, and older adults
- Support for more moderate- to low-income housing
- Concerns about how diversity has decreased over the years
- Desire to preserve open land space and parks within the county
- Concerns of expansion due to climate change impacts
- Sentiment that there was already sufficient housing in Marin County

Question 12. Please identify the top barrier to affordable housing.

The top barrier to affordable housing according to the respondents is the limited available of affordable units (55% of combined results, and 60% of English-only responses). Spanish respondents selected the lack of resources to help find affordable housing as their top barrier (64% of Spanish-only results).

Responses	English	Spanish	Combined
Lack of resources to help find affordable housing	64 (10%)	50 (64%)	114 (16%)
Limited availability of affordable units	376 (60%)	8 (10%)	384 (55%)
Long waitlists	32 (5%)	13 (17%)	45 (6%)
Quality of affordable housing does not meet my standards	30 (5%)	3 (4%)	33 (5%)
Other (please specify)	123 (20%)	4 (5%)	127 (18%)
Total	625 English respondents	78 Spanish respondents	703 combined respondents

Summary of additional existing barriers included:

- NIMBY ("not in my back yard") housing policies
- Insufficient water supply
- Lack of rental opportunities
- · General lack of affordable housing
- Limited homeownership opportunities or inundated waitlists for homeownership
- Lack of affordable housing due to city regulations such as zoning, permit fees, etc.
- Low paying jobs and lack of living wages is a barrier of entry to living in Marin
- Desire to keep Marin County population small and build more densely in other places outside of Marin County such as San Francisco
- Pushback against building affordable housing
- Some respondents believe there are no barriers or that this is a marketplace issue

Question 13. Please share any other comments you have related to housing in Marin County

	English	Spanish	Combined
Total	380 English	50 Spanish	430 combined
	respondents	respondents	respondents

The following summarizes the key themes mentioned in the 430 comments:

- Support for more low-income to middle-income housing
- Support for affordable units for seniors
- Support for additional workforce housing
- Frustration with housing barriers such as limited availability and long waitlists
- Concern for how additional units may affect the strained local water supply
- A desire for infrastructure issues such as limited water supply, transportation (increased traffic and road damage), and flooding concerns, to be addressed before building additional units
- Respondents shared that regulatory burdens slow down development
- Desire to keep existing open land space preserved
- A desire to keep Marin population less dense
- Concern for short term rentals and/or vacation rentals that take homes off the market for long term renters
- Concern over existing inequitable housing practices and discrimination

Appendix

Attached are additional documents, including:

- Charts summarizing English and Spanish results (in PowerPoint File)
- Summarized data for English and Spanish results, with list of additional comments (in Excel File)
- Full raw data from survey results (in Excel File)

Marin County Housing Element Candidate Housing Sites and Selection Process Comments

Summary

Marin County conducted a robust process to share information and to solicit feedback on the process used to identify housing sites for inclusion in the Marin County Housing Element. The County is required by state law to prepare a plan which identifies sites where its assigned Regional Housing Needs Allocation (RHNA) of 3,956 housing units at different income levels can be built. While the County does not build the planned housing, they must, along with the specific sites, provide the zoning and policies and programs to ensure these sites can be developed.

At a December 7th meeting, the Board of Supervisors provided direction on a set of guiding principles to guide the process. One of the principles directed for substantive public engagement. Between late January 2022 and mid-March 2022, the County provided a variety of opportunities and formats for the public to use to share their feedback through written and verbals comments and use of digital tools. They included:

Outreach Opportunity	Comment Methods
On-line community workshop	Participants could ask questions and submit comments in
January 20	the chat.
County-wide Roads Shows	Ten virtual meetings were conducted at Design Review
	Board, Community and neighborhood specific locations
	throughout the County. Depending on the meeting,
	participants could comment verbally and/or in writing using
	the chat feature.
Balancing Act Digital Tool*	On-line digital tool that allowed participants to balance the sites to meet a desired number of units. It also allowed for site specific comments.
	*County staff held 4 sessions of office hours to assist anyone
	who had questions about how to use the tool.
Marin County Atlas	On-line map that showed natural hazards and constraints to
	be considered. Users could consult the details of a specific
	property and make site specific comments.

To make it easier for the team to review the comments, the attached tables were created to organize the written comments submitted using various tools. They are attached to this document as an appendix.

Marin County Housing Element: Candidate Housing Sites and Selection Process Comments Received via Email or Balancing Act Submissions – Key Themes

PCL—Incorrect or Inconsistent Categorization of Parcels: Parcels have been incorrectly or arbitrarily categorized in the Draft Candidate Housing Sites List.

INF—Limited Infrastructure: Sites have limited infrastructure and/or limited capacity to support sufficient infrastructure for more development.

SER—Insufficient / Limited Access to Schools, Services, etc. Sites lack sufficient access to or resources to support schools, proximity to jobs, shopping, and amenities, and other required services.

TRF—Traffic Congestion: Site unsuitable due to traffic congestion

PRK—Lack of Parking: Site unsuitable due to lack of parking

PTR—Lack of Public Transportation: Site lacks access to public transportation

ACT—Lack of Active Transportation Infrastructure: Lack of safe access for pedestrians and bicyclists

NMR—No More Room for Additional Development or Too Much Additional Development Proposed:

Site has no more room/infrastructure capacity etc. for development or is already overdeveloped, or the amount of additional development proposed is too much for the site.

SEA—Threat of Sea Level Rise / Current Flooding: Area is prone to sea level rise and/or current flooding. Makes the entire site unsuitable, or development should be limited to levels above the sea rise/flood zone.

NAT—Impacts Natural / Agricultural Resources: development on site will impact natural and/or agricultural resources; located in rural area which is not appropriate for development

CUL—Impacts Cultural Resources: Impacts tribal site or other cultural resources

FIR—**Fire Risk / Limited Access for Emergency Services:** site unsuitable due to fire risk / limited access for exit or egress in case of fire / limited access for emergency vehicles

WAT—Lack of Water / Septic Water Issues: Not enough water currently or for more development; insufficient clean water and septic issues

HLT—Air Quality / Chemicals / Other Health Impacts: Additional development will impact air quality, add toxins to the environment, or otherwise create negative impacts on community health.

EQT—Inequitable Development / Need for Equitable Development: Affects equitable housing; either it will improve housing equity OR site already has a majority of public housing/low income units in area; or will not assist in providing equitable housing / improving housing equity.

GDL—Good location: Identified as good location for housing; may be some caveats

1009 Idleberry (Lucas Valley/Marinwood)	I am concerned since I never received this notice. I learned about it from one neighbor on Thursday 2/24. How were property owners in this area notified? How many homeowners have you contacted. I don't know any who has been notified except the neighbor that told me. Please give me the courtesy of a response. This is a lovely area but with many limitations & constraints for development – infrastructure limited ingress & egress on Lucas Valley Road schools etc. Additionally this is a WUI wildfire area. A recent minor fire caused limited area evacuations. I was evacuated and this small event caused alarming road congestion. In case of a more extensive fire it would be a disaster. 223 Shoreline HIghway (Tam Junction)	(Comment edited for length) Sustainable TamAlmonte has the following comments and recommendations regarding the merits of the above referenced Tam Valley, Almonte, and Manzanita Candidate Housing Sites listed in the 2023-2031 Housing Element DRAFT Candidate Housing Sites List. Due to the uniquee characteristics of the area, encouraging residential development, especially high-density development, at the above referenced Sites would increase the risk of undue harm to the environment and undue hardship, illness, injury and/or death to the current and future residents. The Tam Valley, Almonte, and Manzanita commercial lowlands, in which the above referenced sites are located, experience the most number of environmental constraints and hazards of any area in Unincorporated Marin. Both the Marin Countywide Plan's ElR and the 2012 Housing Element's SEIR demonstrate that development at these sites would exacerbate the existing dangerous conditions and add new significant adverse environmental impacts (which) magnifies the probability that a tragedy would ensue and the multiple mitigations that a developer would need to fulfill would cause development costs to soar. These factors make the sites unsuitable for affordable housing. The only acceptable course of action is to eliminate the sites from the innertory. Below is a list of the unique natural features, hazards, and limited resources in the Tam Valley, Almonte, and Manzanita lowlands that constrain development and population growth and substantiate our argument. For a quick overview of these constraints, please view the attached table. I. Dangerous Traffic with Unacceptable Level Of Service – LOS "F" Of Local Roadways:. II. Flooding, 100 Year Floodplain, Impending Sea Level Rise III. Filled Marsh Areas With High Seismic Activity, Liquefaction, Subsidence and Mud Displacement. IV. Air Quality & Noise: Increased Risk of Residents Developing Serious Illness Due to Living Near Major Roadways. V. Hazardous Materials: For additional information regarding potential health	Email (See Email Comments Received.PDF, pp. 123-151)	x	X	х	х		x		x	x	x	x	x	x	x

254 Lucas Valley Road near Terra Linda Ridge	I am writing to urge you NOT to approve the Marinwood/Lucas Valley sites under consideration to satisfy the Association of Bay Area Governments Regional Housing Needs Allocation Plan. Developments at these six sites (St. Vincent's School, Marinwood Market, 530 Blackstone Drive, 7 Mt. Lassen, 2 Jeannette Prandi Way, and Lucas Valley Road near Terra Linda Ridge) would result in more than 2300 housing units. While I know that some of the proposed housing is intended for teachers and other critical workers and for low income housing, both of which are important and necessary, it seems like too much development for the infrastructure of this small area. Additionally, all of these proposed development sites are within the Miller Creek School District boundaries and the unfunded impact of these developments on the District would be disastrous. Since the District is currently funded using a Basic Aid Model, it gets no per pupil funding. This means that all the additional students these developments generate will not result in additional funding for the District.	Email		x	x					×							×	
254 Lucas Valley Road near Terra Linda Ridge	I found the online tools for commenting cumbersome and inscrutable, and much too time consuming to use. So, the following are my comments about specific housing allotment recommendations in Marinwood Lucas Valley. Lucas Valley Rd/near terra Linda Ridge: 26 Where is this? Where the stable is now located?	Email

254 Lucas Valley Road Near Terra Linda Ridge	I'm taking this opportunity as a resident of Upper Lucas Valley in Marin to voice my views/concerns about the housing sites under consideration in my area: In general: I don't know what constitutes median vs low income, but in general I support add't housing strategically placed and sensitively designed (to minimize negative impact on the environment and established communities) for essential workers such as school teachers, sheriff, police & fire dept and hospital staffers, many of whom currently commute long distances to work in the areas they serve. I'd like to see new homeowning opportunities (at below market rates) made available to these workers, as building more high-priced rental units serves no one but property owners. Sites under consideration in the Marinwood/Lucas Valley areas: St Vincent's School – 1800; Marinwood Market – 136. These are both logical, less problematic sites for development, as they are walkable to the GG bus stop at/near Miller Creek & Marinwood Aves, with quick, easy access to the 101 fwy. I really hope to see sensitive urban planning on the St. Vincents site, so the beautiful open space currently grazed by cows does not become yet another soulless jungle of buildings standing shoulder to shoulder facing the freeway. Speaking as someone who's actually rooting for the Smart Train to not only survive, but thrive: part of any development of these sites should include a bike path/paths to connect either or both to the Civic Center Smart station. And/or a shuttle bus (it's too long to walk for commuters),530 Blackstone Drive (site of religious house) – 32. I've no knowledge/opinion re: this site. 7 Mt Lassen (site of office park) – 58. 2 Jeannette Prandi Way (site of Juvenile Hall) – 254. My husband & I currently rent an office at 7 Mt. Lassen, so it's news to us that this site's under consideration. It's a beautiful, unique office setting that serves both the Upper and Lower Lucas Valley communities as a place of business to walk to! I'd hate to see that disappear!!! However, I wouldn	Email	X		x	×		X	x			х		х			х	×
254 Lucas Valley Road near Terra Linda Ridge	This letter is in regards to the proposed site and distribution of housing in the Lucas Valley/Marinwood area. While I feel this area can support some expansion, the amount proposed by the county is overwhelming. Per the board of supervisors principles, please note my feedback below. 1: Ensure Countywide Distribution: The majority of housing in unincorporated Marin County is being distributed to Marinwood/LUCAS VALLEY. This does not appear to be an equitable distribution and will potentially double the population of this area, affecting all services- sheriff, fire, schools, traffic, etc. Marinwood/LUCAS VALLEY area is being considered for a majority of this housing in unincorporated Marin: St Vincents: 1800 Marinwood Market: 136 Blackstone (site of religious house): 32 Mt Lassen/deli: 58 Jeanette Prandi/Juvi: 254 Lucas Valley Rd/near terra Linda flogic; 26 Total: 2306. (This could be up to 60% of the total housing for unincorporated Marin) Households in Marinwood/LUCAS VALLEY currently 2412. (This could potentially double our size)	Email		х	x	x				x				x

254 Lucas Valley Road near Terra Linda Ridge	We have seen the preliminary list of potential housing sites for Marin County, including in unincorporated areas such as Marinwood/Lucas Valley, as developed by the ABAG (Regional Housing Needs Allocation Plan), and approved by the California Department of Housing and Community Development. The plan includes 2,412 units within the Lucas Valley / Marinwood area (accounting for 68% of the 3,569 units within unincorporated Marin County). Sites under consideration in the Marinwood / Lucas Valley areas: St Vincent's School - 1,800; Marinwood Market - 136; 530 Blackstone Drive (site of religious house) - 32 7; Mt Lassen (site of office park) - 58; 2 Jeannette Prandi Way (site of Juvenile Hall); 254 LucasValley Rd/near terra Linda Ridge: 26. We are not opposed to some moderate increase of housing units in the area. However, we have some serious concerns regarding these potential sites: (1) The Lucas Valley / Marinwood area currently has less than roughly 1,750 homes, spread across a roughly 3.5 mile valley corridor, almost all of which are single family dwellings, and the overwhelming majority of which are one or two story homes. There are no large multi-unit apartment buildings in this area. The overall magnitude of the increase in units in this area (2,412 units) is disproportionately large compared to the current housing density of the area. The proposed increase would more than double the overall number of housing units in the area. (2) The area to the south and west of St. Vincent's School (east of HWY 101) has been discussed as a potential development site for some time. Although multi-unit housing could easily be developed there, adding 1,800 units would completely overwhelm the property and this very large number of additional units represents an enormous growth for the area, on the same order of units as currently exist in all of Lucas Valley / Marinwood. To fit this large number of additional inuits represents an enormous growth for the area, on the same order of units as currently exist in all of Lucas Vall	Email			x	x				×		×			x			
2800 West Novato Blvd., Novato	If you need MORE " VERY LOW AND LOW INCOME" and " MODERATE INCOME " sites closer to Novato, our property at 2800 West Novato Blvd has plenty of room and space. Thank you. We appreciate all your hard work here	Email																Х

4260 Sir Francis Drake Boulevard, Woodacre	Hello Supervisor Rodoni, This message is regarding the Housing Element site proposals. Like yourself, I was born and raised in West Marin County. My family has been ranching in Marin for 5 generations, and our love for the land and community runs deep. We understand that there is a need for more affordable housing in Marin, however; We oppose any development at 4260 Sir Francis Drake Boulevard (TUHS). Development on said property would be a detriment to the Valley consider how the lack of public transportation, water access, septic/sewage and the increase of traffic would impact the surrounding area - community, environment and wildlife as a whole. There are many other places in Marin where housing can be developed and integrated into the surrounding area to the benefit of the community. We are asking you to conserve the land at 4260 Sir Francis Drake Boulevard. Thank you for your time.	Email				х		x				X		х	x			
530 Blackstone Drive (Marinwood / Lucas Valley)	(Comment edited for length) The Lucas Valley Homeowner's Association represents 538 homes in the special R-1:B-LV zoning track in Upper Lucas Valley. We, the Board of Directors of the LVHA, would like to give our support for the efforts to increase housing in Marin County, and offer the following input. To begin with, our State Governor's Housing Plan incentives housing in urban centers near transportation and services, to reduce reliance on vehicles and their carbon footprint. If the County chooses a path contrary to the State Plan, and not utilize State funding incentives for urban development, then we ask for a reevaluation of the housing sites identified for our Lucas Valley/Marinwood area. As outlined below, areas 1 - 3 are both contrary to the RHNA requirements and pose a danger for emergency evacuations. There are several sites identified as potential home building sites in our area. 1. Lucas Valley Road / Mt Muir Court 2. Juvenile Detention Center/Jeanette Prandi Way 3 - 7 Mt Lassen 4, 530 Blackstone Dr 5. Marinwood Market area. We agree that the Marinwood Market area is a suitable site. It is close to freeway access and has sufficient infrastructure in place, including amenities like food and gas, and can easily absorb new development. Ironically, the relative quantity proposed/identified at this site is comparably less than the quantity for site #2 above, which is a much less suitable site as shown in following comments. There are several factors that make areas 1 - 3 only marginally suitable for new building sites, and therefore should, at best, be only allowed limited building. Factors includer. High Wildfire Risk - Single Limited Evacuation Route. Water Shortages. Lack of Infill Infrastructure. Building Atop Unmarked Graves. Zoning Restrictions: The special zoning district for Upper Lucas Valley (R-1:B-LV) limits most buildings to a single story. The district was created in order to adhere to the architectural vision and design aeathetto of Joseph Eichler, a renowned architect highly influential in	Email (See Email Comments Received.PDF, pp. 173-178)		x		x				x		×	x	x	x		x

6900 Sir Francis Drive Boulevard (San Geronino)	I could not access the Balancing Site work area so I am submitting these comments here. SGV is am amazing place to be due to low development. I have had the benefit of living here 25 years. What is being proposed in both of the areas of the School property and at the Gold Course are for higher end homes. Higher end homes are not a help for our community. We need homes for families with kids, We need Senior housing. We don't need another 127 above moderate income homes. Have some vision. Create a place with a grocery store, deli, and place for people to meet. Create Senior housing. Have ability to share vehicles. This area could become a hub for our community to use and support. It is also a sensitive environmental area. It used to be where water would spread out when it rained and slowly sink into the ground providing water all year round for the fish. More concrete and asphalt = more runoff. This vision of 98 separate high end homes here is not fitting to the rural area of our valley. It is just going to bring in more people who want a rural lifestyle from other areas and NOT give our locals homes. Every day, people, and families are looking for homes. Renters are being pushed out. It is unaffordable to live here. Solve the problem we have now, housing for our locals. Not bring more people here. Also, the place being considered at 6900 Sir Francis Drake is a privately owned place. Owned by a family that owns quite a bit of property in the Valley as it is. I certainly hope public monies are not going to rehab this property.									x		X					X

High Wildfirer Risk - Single Limited Evacuation Route. Water Shortages. Lack of Infill Infrastructure. Building Atop Unmarked Graves. Zoning Restrictions: The special zoning district for Upper Lucas Valley (R-1:B-LV) limits most buildings to a single story. The district was created in order to adhere to the architectural vision and design aesthetic of Joseph Eichler, a renowned architect highly influential in	Email (See Email Comments Received.PDF, pp. 173-178)		X		x				x		x	x	x	x		x	
7 Mt. Lassen (Marinwood / Lucas Valley)	I am concerned since I never received this notice. I learned about it from one neighbor on Thursday 2/24. How were property owners in this area notified? How many homeowners have you contacted. I don't know any who has been notified except the neighbor that told me. Please give me the courtesy of a response. This is a lovely area but with many limitations & constraints for development – infrastructure limited ingress & egress on Lucas Valley Road schools etc. Additionally this is a WUI wildfire area. A recent minor fire caused limited area evacuations. I was evacuated and this small event caused alarming road congestion. In case of a more extensive fire it would be a disaster.	Email		х	х	х								Х				
7 Mt. Lassen (Marinwood / Lucas Valley)	I am writing to urge you NOT to approve the Marinwood/Lucas Valley sites under consideration to satisfy the Association of Bay Area Governments Regional Housing Needs Allocation Plan. Developments at these six sites (St. Vincent's School, Marinwood Market, 530 Blackstone Drive, 7 Mt. Lassen, 2 Jeannette Prandi Way, and Lucas Valley Road near Terra Linda Ridge) would result in more than 2300 housing units. While I know that some of the proposed housing is intended for teachers and other critical workers and for low income housing, both of which are important and necessary, it seems like too much development for the infrastructure of this small area. Additionally, all of these proposed development is the sare within the Miller Creek School District boundaries and the unfunded impact of these developments on the District would be disastrous. Since the District is currently funded using a Basic Aid Model, it gets no per pupil funding. This means that all the additional students these developments generate will not result in additional funding for the District.	Email		x	x					x							×	
7 Mt. Lassen (Marinwood / Lucas Valley)	I found the online tools for commenting cumbersome and inscrutable, and much too time consuming to use. So, the following are my comments about specific housing allotment recommendations in Marinwood Lucas Valley. 7 Mt Lassen (site of office park) - 58: Would this replace office park? If so 58 apartments or condos seems reasonable. No market rate	Email															Х	х
7 Mt. Lassen (Marinwood / Lucas Valley)	I'm taking this opportunity as a resident of Upper Lucas Valley in Marin to voice my views/concerns about the housing sites under consideration in my area: In general: I don't know what constitutes median vs low income, but in general I support add'l housing strategically placed and sensitively designed (to minimize negative impact on the environment and established communities) for essential workers such as school teachers, sheriff, police & fire dept and hospital staffers, many of whom currently commute long distances to work in the areas they serve. I'd like to see new homeowning opportunities (at below market rates) made available to these workers, as building more high-priced rental units serves no one but property owners. Sites under consideration in the Marinwood/Lucas Valley areas: St Vincent's School – 1800; Marinwood Market – 136. These are both logical, less problematic sites for development, as they are walkable to the GG bus stop at/near Miller Creek & Marinwood Aves, with quick, easy access to the 101 fwy. I really hope to see sensitive urban planning on the St. Vincents site, so the beautiful open space currently grazed by cows does not become yet another soulless jungle of buildings standing shoulder to shoulder facing the freeway. Speaking as someone who's actually rooting for the Smart Train to not only survive, but thrive: part of any development of these sites should include a bike path/paths to connect either or both to the Civic Center Smart Train to not only survive, but thrive: part of any development of these sites should include a bike path/paths to connect either or both to the Civic Center Smart Train to not only survive, but thrive: part of any development of these sites should include a bike path/paths to connect either or both to the Civic Center Smart Train to not only survive, but thrive: part of any development of these sites of religious house) – 32. I've no knowledge/opinion re: this site, 7 Mt Lassen (site of office park) – 58. 2 Jeannette Prandi Way (site of Juvenile Hall)	Email	×		х	x		x	x			x		x			x	x
7 Mt. Lassen (Marinwood / Lucas Valley)	Thank you for taking time to read over my thoughts on the new housing developments proposed for Jeanette Prandi Way, Mount Muir Court, Marinwood Plaza and 7 Lassen. As a Marin County native of 58 years and a Lucas valley resident of 26 years, I am surprised that these projects are so close to approval without adequate community outreach and input. There are many items of concern that I don't feel have been adequately answered for me to support these developments. At this time I am strongly opposed to these developments. I am respectfully requesting more time for our community to better understand these proposals and how we can collaboratively help the County solve its low income housing challenges. 7 Mt. Lassen (Marinwood / Lucas Valley)	This letter is in regards to the proposed site and distribution of housing in the Lucas Valley/Marinwood area. While I feel this area can support some expansion, the amount proposed by the county is overwhelming. Per the board of supervisors principles, please note my feedback below. 1: Ensure Countywide Distribution: The majority of housing in unincorporated Marin County is being distributed to Marinwood/LUCAS VALLEY. This does not appear to be an equitable distribution and will potentially double the population of this area, affecting all services- sheriff, fire, schools, traffic, etc. Marinwood/LUCAS VALLEY area is being considered for a majority of this housing in unincorporated Marin: St Vincents: 1800 Marinwood Market: 136 Blackstone (site of religious house): 32 Mt Lassen/deli: 58 Jeanette Prandi/Juvi: 254 Lucas Valley Rd/near terra Linda Ridge: 26 Total: 2306. (This could be up to 60% of the total housing for unincorporated Marin) Households in Marinwood/LUCAS VALLEY currently 2412. (This could potentially double our size)	Email		х	х	x				х				х

7 Mt. Lassen (Marinwood / Lucas Valley)	We have seen the preliminary list of potential housing sites for Marin County, including in unincorporated areas such as Marinwood/Lucas Valley, as developed by the ABAG (Regional Housing Needs Allocation Plan), and approved by the California Department of Housing and Community Development. The plan includes 2,412 units within the Lucas Valley / Marinwood area (accounting for 68% of the 3,569 units within unincorporated Marin County). Sites under consideration in the Marinwood / Lucas Valley areas: St Vincent's School - 1,800; Marinwood Market - 136; 530 Blackstone Drive (site of religious house) - 32 7; Mt Lassen (site of office park) - 58; 2 Jeannette Prandi Way (site of Juvenile Hall); 254 LucasValley Rdhear terra Linda Ridge: 28. We are not opposed to some moderate increase of housing units in the area. However, we have some serious concern garding these potential sites: (1) The Lucas Valley / Marinwood area currently has less than roughly 1,750 homes, spread across a roughly 3.5 mile valley corridor, almost all of which are single family dwellings, and the overwhelming majority of which are one or two story homes. There are no large multi-unit apartment buildings in this area. The overall magnitude of the increase in units in this area (2,412 units) is disproportionately large compared to the current buildings in this area. The proposed increase would more than double the overall number of housing units in the area. (2) The area to the south and west of St Vincent's School (east of HWY 101) has been discussed as a potential development site for some time. Although multi-unit housing could easily be developed there, adding 1,800 units would completely overwhelm the property and this very large number of additional units represents an enormous growth for the area, on the same order of units as currently exist in all of Lucas Valley / Marinwood. To fit this large number of units, the development would likely include large three (or more) story structures which are currently exist anywhere in this area. (3) Th	Email			x	x				x		×			×			
7 Mt. Lassen (Marinwood / Lucas Valley)	With respect to the Lucas Valley sites being considered as potential housing sites, I submit the following comments: Sites located at 7 Mt. Lassen Drive and at Lucas Valley Road/Mt Muir near Terra Linda Ridge fail to comply with stated criteria for site selection. These sites present environmental hazards, including high fire danger as exhibited last August when a wildire approached housing and traffic became a hazard. These areas also fail to provide access to transportation, jobs, services, and amentities. Lucas Valley is an inappropriate choice. In addition, all of the Lucas Valley sites are in the wildland urban interface (WUI) zones that contradict Governor Newson's priorities to shift housing away from rural wildfire-prone areas and closer to urban centers. 70 Oxford Drive, Santa Venetia	RE: APN 180-261-10 Address: 70 Oxford Drive. The undersigned is owner of this large (27.8 acres, or approx. 1,211,000 sf) parcel. As currently zoned A2B2 (minimum lot size of 10,000 sf), it is extraordinarily and technically suitable for numerous residences. To help the County and the State to meet their Housing target, we agree with and welcome the proposed suggestion of multiple possible residences on this acreage, but suggest the number be reduced to a maximum of five (5). This necessarily lower number would result in (A) lot sizes more consistent with the surrounding neighborhood, as specifically recommended in the Santa Venetia Community Plan; (B) smaller homes consistent with the affordability targets; (C) lot configurations more accessible (requiring less ground disturbance) and least likely to conflict with numerous environmental and cultural constraints extant on the site; and (D) a density nearly ten times less than the initial proposal, thus significantly less negative impact on the current traffic congestion on NSPR which is the sole access/egress to Santa Venetia. B - 160 Shoreline Highway (Almonte)	(Comment edited for length) Sustainable TamAlmonte has the following comments and recommendations regarding the merits of the above referenced Tam Valley, Almonte, and Manzanita Candidate Housing Sites listed in the 2023-2031 Housing Element DRAFT Candidate Housing Sites List. Due to the unique characteristics of the area, encouraging residential development, especially high-density development, at the above referenced Sites would increase the risk of undue harm to the environment and undue hardship, illness, injury and/or death to the current and future residents. The Tam Valley, Almonte, and Manzanita commercial lowlands, in which the above referenced sites are located, experience the most number of environmental constraints and hazards of any area in Unincorporated Marin. Both the Marin Countywide Plan's EIR and the 2012 Housing Element's SEIR demonstrate that development at these sites would ensure and the multiple mitigations that a developer would need to fulfill would cause development costs to soar. These factors make the sites unsuitable for affordable housing. The only acceptable course of action is to eliminate the sites from the inventory. Below is a list of the unique natural features, hazards, and limited resources in the Tam Valley, Almonte, and Manzanita lowlands that constrain development and population growth and substantiate our argument. For a quick overview of these constraints, please view the attached table. I. Dangerous Traffic with Unacceptable Level Of Service – LOS "F" Of Local Roadways.: II. Flooding, 100 Year Floodplain, Impending Sea Level Rise III. Filled Marsh Areas With High Seismic Activity, Liquefaction, Subsidence and Mud Displacement. IV. Air Quality & Noise: Increased Risk of Residents Developing Serious Illness Due to Living Near Major Roadways. V. Hazardous Materials: For additional information regarding potential health impacts to workers and future residents who may be exposed to hazardous soil conditions, related to past uses, in Tam Junction and Manzanita, please foll	Email (See Email Comments Received.PDF pp. 123-151)	×			х					x	x		x			x

B - 160 Shoreline Highway (Almonte)	As a concerned Mill Valley resident, I am writing to endorse TamAlmonte's letter to you re. the merits of Tam Valley, Almonte, & Manzanita Draft Candidate Housing Sites. Please think very carefully about sites, due to concerns about flooding, traffic and at times extreme fore danger with needed evacuation routes.	Email				х					х			х				
B - 160 Shoreline Highway (Almonte)	ATTACHMENT from Tam Design Review Board: Suggested Additional Policies to be Included in the Housing Element: 1. Wildfire Risk: Use mathematical modeling to investigate and predict wildfire risk. Prohibit the building of housing (even ADUs) in fire critical areas. 2. Flood Risk: Prohibit new housing in areas at risk of flooding from storm surge or sea level rise. 3. Bothin Marsh: Require all new development adjacent to Bothin Marsh to supplement and follow the policies that are designed to preserve the marsh. (if when the County's recent efforts to restore and preserve the marsh, it makes no sense to select a site adjacent to the marsh for any form of dense development. 4. Evacuations: Require that new housing development along Shoreline Highway trigger a study and redesign of the traffic patterns to ensure that any new housing development at his advancent of traffic impacts of emergency evacuation should include new housing developments in the City of Mill Valley, as Shoreline Highway is the only exit should East Bilthedale become blocked. 5. Short Term Rentals: Eliminate short-term rentals completely, or allow only on-site, owner-locupied properties to have short-term rentals. If someone does not live on-site, then the property is arguably an investment property only, and any claim of the need for that short-term rental income can be disregarded. This would enable ADUs to be counted toward the Housing Element numbers (see item #10). 6. Vacancies: Create a County mandated vacancy tax (as San Francisco is presently considering) to create disincentives for leaving housing units empty. Exemptions could be made for work from home or wellings under a certain square footage if the homeowner works from home or needs the space for their own dwellings use. This has been documented to establish new housing units and therefore could be counted toward the housing numbers. 7. Speculative investment: Eliminate corporate ownership of housing of up to 4 units. This will stop speculative over-bidding of properties (which drive	e Email																
B - 160 Shoreline Highway (Almonte)	I am writing to endorse the attached letter from Sustainable TamAlmonte to the Marin County Board of Supervisors and Planning Commission regarding the merits of the proposed Tam Valley, Almonte, and Manzanita Candidate Housing Sites listed in the 2023-2031 Marin County Housing Element DRAFT Candidate Housing Sites List. The need for housing our homeless is desperate but building residential space at Tam Junction is just NOT logical. The idea of building along Shoreling/ Highway 1 is very questionable. It is already a populated area with minimal sidewalks and access to needed resources. Thank you for your consideration of the attached letter	Email	х	х	х	х		х		х	х	х	х	х	х	х

B - 160 Shoreline Highway (Almonte)	We are writing in regard to the sites chosen for possible inclusion into county plans for housing in the Almonte/Tam Valley area of the county. Of the eight sites mentioned in your Balancing Act scenario, five are in a serious flood zone and one is located, not on, but in Richardson's Bay. Your commentary regarding the avoidance of environmental hazards has been completely ignored by whatever staff was used to choose these sites. The properties in the flood zone are 160 Shoreline, assessor's parcel # 052-041-27, 217 Shoreline, 223 Shoreline, and 204 Flamingo Rd. he site which is actually in the bay is 260 Redwood Hwy. Oddly enough, there is one property across the road from 160 Shoreline which is on solid ground. That would be the Muir Woods Lodge, a motel which actually has some open space which could be used for more housing. Why was this property ignored when lesser properties were chosen? Considering that we are familiar with the sites in the Almonte/Tam Valley area but not the rest of the county, it seems very strange that your staff has chosen properties which flood now and will continue to flood even more in the future. We wonder about your motivation in focusing on dangerous and inappropriate land. We also wonder why your staff has chosen properties which are pretty much lumped together in the same area which will further exacerbate the level F traffic problems which occur for us every day. If these sites were chosen to be close to public transportation, we would remind you that there is no viable public transportation in our area. So we would be looking forward to much more daily auto traffic. We are extremely disappointed in the Balancing Act which appears to be a distraction and of no practical value. We wonder how much time and money was wasted on promoting this ridiculous game. We also wonder how many sites in the rest of the county are totally inappropriate but are being promoted as a way to choose our fate which, as you know, is not the case. Surely, the Board of Supervisors can do better than pr	Email				x		×			×							
B - 160 Shoreline Highway (Almonte)	We oppose new housing in the areas mentioned in Tam Junction due to flooding and traffic and possible fires, can't get out of here now. Tell Scott Wiener and his friends to move on.	Email				Х					Х			Х				
B - 160 Shoreline Highway (Almonte)	Yesterday afternoon, I had the pleasure of speaking with Ms. Clark about the wisdom (actually, the lack of it) in the choice of potential sites around Tam Junction. Last night, I participated in the "roadshow" and, as a result, I am asking for your help in following up on one matter. During the presentation by Jose Rodriguez, he mentioned that one of the "Guiding Principles" for the BOS is the consideration of "environmental hazards". It doesn't take long to recognize the hazards of sea level rise, a long history of flooding and traffic in our neighborhood, among others. But, in addition, Mr. Rodriguez made an interesting rejoinder to a question about whether certain sites can be included in this study if such sites have been previously reviewed and rejected. He was not too clear but he suggested that the State of California has some "requirements" if a previously rejected site is again brought up for analysis. I asked him to specify (1) which of the four Tam Valley sites have already been considered and rejected, and (2) what are the state's requirements (if any)-that are different or additional—that would apply to such sites. He did not have the information available to answer either question and it didn't appear to me that there would be much of an effort to research those questions and disseminate the answers. Hence, this email. Do you know the answers? If not, would you please put in motion an effort to discover the answers? It may not be dispositive, but then again, it may be important.	Email				x					х	х						
Bon Air Shopping Center (Greenbrae)	you should add this is your list of housing element sites. This land could accommodate many units, it is very close to public transportation and have plenty of available parking.	Email																х
D - Los Ranchitos Road (Los Ranchitos)	(Comment edited for length) The homeowners and residents of Los Ranchitos (LR) strongly believe that re-zoning LR for denser housing in inappropriate and short-sighted and strongly oppose this change. As you prepare the Housing Element for 2023-30, please take the following into consideration: 1. Incorrect categorization of parcels as "underutilized residential." As a neighborhood, and in terms of its past and current deeds, land use and zoning designations, LR is fully built out. LR was founded and developed on the basis of one (1) single family dwelling per parcel, with the minimum parcel size of 1 acre. For this reason alone, rezoning is undesirable to the property owners. There are few if any unbuilt lots, and the few that may exist are highly sloped properties up steep, one-lane streets, likely private roads maintained by the property owners themselves, not by the County. These are wholly inappropriate for multi-family development. 2. Arbitrary categorization of parcels as "underutilized residential." Not all the properties in LR are highlighted in the map. The assignment of properties as "underutilized residential" on the basis of property improvements is inconsistent and incorrect. Many properties that have been extensively remodeled are incorrectly designated as "underutilized." Many properties that have not been remodeled are not designated as "underutilized." Many properties hat have not been remodeled are not designated as "underutilized." Many properties hat have not been remodeled are not designated as "underutilized." Many properties hat have not been remodeled are not designated as "underutilized." Many properties have not been remodeled are not designated as "underutilized." Many properties have not seen maintained and are being lived in and enjoyed mainly by owners in residence. The high land to improvements ratio most likely results less from remodeling than from continuous, long-term property ownership under Proposition 13. Since many properties have not changed hands in recent years or even	Email (See Email Comments Received.PDF, pp. 64-74)	x	x		x				x		x		х	X

D - Los Ranchitos Road (Los Ranchitos)	l am writing in response to the 2023-2030 Housing Element Proposals for the Los Ranchitos area of Marin County. The current proposal for approximately 139 additional units in Los Ranchitos does not consider the safety of residents and the impact on the natural environment. 1. Los Ranchitos is made up of lots on narrow hillside streets, without sidewalks and street lights. Adding more units will increase the difficulty of fighting fires on the upper streets or safely evacuating residents when earthquakes occur. 2. The only way in and out of Los Ranchitos is on Los Ranchitos Road. Traffic on Los Ranchitos Road becomes gridlock today when there is the slightest slowdown on Highway 101. I expect traffic will increase as the proposed housing units in the Northgate Mall are built. Adding more units in Los Ranchitos will make that even worse. 3. Where will the water come from for all of these proposed additional housing units, including the ones outside of Los Ranchitos? We are all reducing water usage to meet current water restrictions. I would think new sources of water should be identified and funded before large scale housing increases are proposed. 4. Los Ranchitos lots were created and deeded to be 1 acre minimum parcels. We are zoned light agricultural, resulting in many barnyard animals and backyard vegetable gardens. The rural nature of this area is what attracted me to this area and I am sure that is true for most of my neighbors. As I noted above, many of our streets are on steep hills. So to get 139 additional units in Los Ranchitos zoning will be changed to allow apartment-like buildings on the flatter streets. This will destroy the rural/wildlife feel to this neighborhood.	: Email		х		х			х	х		Х		х	х			
D - Los Ranchitos Road (Los Ranchitos)	I find it hard to believe that this many new housing units is even being considered! For the last three years we've been told that we can use only 60 gallons of water a day. And you want to add 1000 more houses in Los Ranchitos? Where does the water come from? Traffic is already insane, and this will add nothing but more gridlock. What about the fire hazards in densely populated areas? I find it absolutely insane that this could even be in anybody's minds. The people that live in this area chose it because of the zoning and the lot sizes. How can you just swoop in and say the "hell with you we're going to do what we want"? What happened to private property rights?	Email				х				х				х	x			
D - Los Ranchitos Road (Los Ranchitos)	I write to express my great objections to the proposed housing element to rezone Los Ranchitos in unincorporated Marin County. It is not well thought out and will have many negative consequences. First, the infrastructure of water, fire protection, education do not support this proposal. Due to the hilly properties and limited egress/ingress greater density will create a major fire liability and risk. Already, only one insurer will write policies for this neighborhood. Second, Los Ranchitos lots were created and deeded to be 1 acre minimum parcels for single family housing. Increasing density here will destroy the rural nature of our neighborhood. Third, Los Ranchitos is a Wildland Urban Interface (WUI). In addition to increased fire heazerd, it will greatly affect the native animal habitats of turkeys, owls, deer, foxes and other animals. Fourth, The only way into and out of Los Ranchitos Road. That road is already gridlocked during morning rush hours. The addition of more new housing units in Northgate and Terra Linda will greatly exacerbate traffic and gridlock under normal circumstances, and create a huge potential for loss of life in the event of major emergencies like fires and earthquakes. Adding housing to Los Ranchitos will only make a bad situation worse. Fifth, Los Ranchitos is currently zoned agricultural with numerous barnyard animals kept here. Increased density will adversely affect them as well. This housing element is not well thought out and will be detrimental to health and safety as outlined above. I urge that this plan not be adopted.	Email				х				х		х		х

D - Los Ranchitos Road (Los Ranchitos)	I write to express my objections to proposals in the County's Housing Element to rezone the Los Ranchitos area of unincorporated Marin County. While I acknowledge the need for additional housing, and generally support efforts to equitably provide for the good of the greater community, I believe that the proposal to rezone this particular area of the County is misquided. For one thing, the only way into and out of Los Ranchitos is Los Anchitos foad. As things currently stand, Los Ranchitos is already a very congested road, used as the primary corridor through which people access the Northgate malls, Terra Linda High, Mark Day School and other points west of Highway 101 and in the valley between Central San Rafael and Lucas Valley. Los Ranchitos Road is already becoming a dangerous thoroughfare, particularly at the two Los Ranchitos Road/Circle Road intersections. The planned redevelopment of the Northgate Mall (up to 1,443 residential units, I understand?) is going to put even more pressure pressure on Los Ranchitos Road. The addition of another 80-139 more units in the Los Ranchitos neighbor is going to push things over the edge. Heavy traffic and gridlock will be normal circumstances - a nuisance on a daily basis, but a real safety hazard in the event of a significant emergency or disaster, such as an earthquader fire. Further, as a Wildland Urban Interface (WUI) area, the Los Ranchitos area already poses a significant risk (so much so that at least one insurer that I'm aware of already refuses to provide coverage to residents of the area). With greater density between them and the only road out, all residents of Los Ranchitos, but particularly this in the hilly portions of the neighborhood (the area). With greater density between them and the only road out, all residents of Los Ranchitos, but particularly this in the hilly portions of the neighborhood interface will make an adverse, if not existential, impact on turkey, owh, deer, fox and other animal populations that call the area home. The plan to rezone Lo	Email		x	x	x			x			x		x	x			
D - Los Ranchitos Road (Los Ranchitos)	Like many Los Ranchitos residents my wife and I both feel very strongly that we do not think additional development in our agricultural neighborhood is wise. Denser housing will destroy the area, cause additional traffic, eliminate much of the animal friendly atmosphere and potentially be significantly difficult for fire engines and other ingress and egress. Please reconsider and hopefully leave our area the beautiful place that we love.	Email				х				х		х		х				
D - Los Ranchitos Road (Los Ranchitos)	Los Ranchitos Housing Element Sites: I would like to comment about the upcoming Housing Element environmental review. I do not believe that there is infrastructure regarding Safety Elements and Water supply. Our driveways is 8 feet wide up a steep knoll. It is not conducive to adding density housing. The past two years drought, is an indication that we do not have enough rain to sustain our community. If we are to add more housing it will increase water usage. What will happen to the community if the water is not available. Regarding the infrastructure, the roads will need to be addressed. The safety will be more dangerous for emergency vehicles if the roads are full of traffic on two lane roads. Thank you for considering my comments to the environmental review	Email		х		х								Х	х			
E - 2 Jeannette Prandi Way (Lucas Valley)	(Comment edited for length) The Lucas Valley Homeowner's Association represents 538 homes in the special R-1:B-LV zoning track in Upper Lucas Valley. We, the Board of Directors of the LVHA, would like to give our support for the efforts to increase housing in Marin County, and offer the following input. To begin with, our State Governor's Housing Plan incentivizes housing in urban centers near transportation and services, to reduce reliance on vehicles and their carbon footprint. If the County chooses a path contrary to the State Plan, and not utilize State funding incentives for urban development, then we ask for a reevaluation of the housing sites identified for our Lucas Valley/Marinwood area. As outlined below, areas 1 - 3 are both contrary to the RHNA requirements and pose a danger for emergency evacuations. There are several sites identified as potential home building sites in our area. 1. Lucas Valley Road / Mt Muir Court 2. Juvenile Detention Center/Jeanette Prandi Way 3. 7 Mt Lassen 4. 530 Blackstone Dr 5. Marinwood Market area. We agree that the Marinwood Market area is a suitable site. It is close to freeway access and has sufficient infrastructure in place, including amenities like food and gas, and can easily absorb new development. Ironically, the relative quantity proposed/identified at this site is comparably less than the quantity for site #2 above, which is a much less suitable site as shown in following comments. There are several factors that make areas 1 - 3 only marginally suitable for new building sites, and therefore should, at best, be only allowed limited building. Factors include: High Wildfire Risk - Single Limited Evacuation Route. Water Shortages. Lack of Infill Infrastructure. Building Atop Unmarked Graves. Zoning Restrictions: The special zoning district for Upper Lucas Valley (R-1:B-LV) limits most buildings to a single story. The district was created in order to adhere to the architectural vision and design aesthetic of Joseph Eichler, a renowned architect highly influential in	Email (See Email Comments Received.PDF, pp. 173-178)		×		x				x		×	×	×	×		×	
E - 2 Jeannette Prandi Way (Lucas Valley)	I am concerned since I never received this notice. I learned about it from one neighbor on Thursday 2/24. How were property owners in this area notified? How many homeowners have you contacted. I don't know any who has been notified except the neighbor that told me. Please give me the courtesy of a response. This is a lovely area but with many limitations & constraints for development – infrastructure limited ingress & egress on Lucas Valley Road schools etc. Additionally this is a WUI wildfire area. A recent minor fire caused limited area evacuations. I was evacuated and this small event caused alarming road congestion. In case of a more extensive fire it would be a disaster. E - 2 Jeannette Prandi Way (Lucas Valley)	I am writing to urge you NOT to approve the Marinwood/Lucas Valley sites under consideration to satisfy the Association of Bay Area Governments Regional Housing Needs Allocation Plan. Developments at these six sites (St. Vincent's School, Marinwood Market, 530 Blackstone Drive, 7 Mt. Lassen, 2 Jeannette Prandi Way, and Lucas Valley Road near Terra Linda Ridge) would result in more than 2300 housing units. While I know that some of the proposed housing is intended for teachers and other critical workers and for low income housing, both of which are important and necessary, it seems like too much development for the infrastructure of this small area. Additionally, all of these proposed development sites are within the Miller Creek School District boundaries and the unfunded impact of these developments on the District would be disastrous. Since the District is currently funded using a Basic Aid Model, it gets no per pupil funding. This means that all the additional students these developments generate will not result in additional funding for the District.	Email	PUL	X	X	IKF	PKK	PIK	ACI	X	SEA	INAI	COL	FIK	vvAI	nL1	X	GDL
E - 2 Jeannette Prandi Way (Lucas Valley)	I found the online tools for commenting cumbersome and inscrutable, and much too time consuming to use. So, the following are my comments about specific housing allotment recommendations in Marinwood Lucas Valley.2 Jeannette Prandi Way (site of Juvenile Hall) - 254 100 or less Good location but too many units, must be affordable. Rotary Senior Housing is excellent. Perhaps expand affordable housing for seniors there with larger 2 BR units	Email															х	х
E - 2 Jeannette Prandi Way (Lucas Valley)	I see the maps and have concerns that things aren't matching. I'm not opposed to additional housing, but it should be done gradually and incrementally. I'm concerned about the number of units planned for Jeanette Prandi/Juvi of 254 units. That, I, believe, is WAY more than Rotary Village. It is one thing if it is planned as beautifully as Rotary Village with one-story facilities and have trees and landscaping. It is another thing if you build a 4 story building in the center of the meadow of Marin County Parks.	Email								х		х						
E - 2 Jeannette Prandi Way (Lucas Valley)	I'm taking this opportunity as a resident of Upper Lucas Valley in Marin to voice my views/concerns about the housing sites under consideration in my area: In general: I don't know what constitutes median vs low income, but in general I support add'l housing strategically placed and sensitively designed (to minimize negative impact on the environment and established communities) for essential workers such as school teachers, sheriff, police & fire dept and hospital staffers, many of whom currently commute long distances to work in the areas they serve. I'd like to see new homeowning opportunities (at below market rates) made available to these workers, as building more high-priced rental units serves no one but property owners. Sites under consideration in the Marinwood/Lucas Valley areas: St Vincent's School – 1800; Marinwood Market – 136. These are both logical, less problematic sites for development, as they are walkable to the GG bus stop at/near Miller Creek & Marinwood Aves, with quick, easy access to the 101 fwy. I really hope to see sensitive urban planning on the St. Vincents site, so the beautiful open space currently grazed by cows does not become yet another soulless jungle of buildings standing shoulder to shoulder facing the freeway. Speaking as someone who's actually rooting for the Smart Train to not only survive, but thrive; part of any development of these sites should include a bike path/paths to connect either or both to the Civic Center Smart station. And/or a shuttle bus (it's too long to walk for commuters).530 Blackstone Drive (site of religious house) – 32. I've no knowledge/opinion re: this site. 7 Mt Lassen (site of office park) – 58. 2 Jeannette Prandi Way (site of Juvenile Hall) – 254. My husband & I currently rent an office at 7 Mt. Lassen, so it's news to us that this site's under consideration. It's a beautiful, unique office setting that serves both the Upper and Lower Lucas Valley communities as a place of business to walk to! I'd hate to see that disappear!!! However, I wouldn	Email			x	х		x	x			×		x			x	×
E - 2 Jeannette Prandi Way (Lucas Valley)	my wife and I are long time residents of Lucas Valley and most every day we visit and walk in the delightful redwood lined area in front of Juvi. It is with shock and utter disappointment that I see that this site is being considered for additional apartment housing. In case u have not noticed the traffic on Lucas Valley road is already quite bad especially when inevitably get stopped at the new light on Los Gamos. If this new housing is approved the addI vehicles on the road will be intolerable Each new resident will need a car as there is NO reliable public transportation. E - 2 Jeannette Prandi Way (Lucas Valley)	Thank you for taking time to read over my thoughts on the new housing developments proposed for Jeanette Prandi Way, Mount Muir Court, Marinwood Plaza and 7 Lassen. As a Marin County native of 58 years and a Lucas valley resident of 26 years, I am surprised that these projects are so close to approval without adequate community outreach and input. There are many items of concern that I don't feel have been adequately answered for me to support these developments. At this time I am strongly opposed to these developments. I am respectfully requesting more time for our community to better understand these proposals and how we can collaboratively help the County solve its low income housing challenges.	Email																
E - 2 Jeannette Prandi Way (Lucas Valley)	This letter is in regards to the proposed site and distribution of housing in the Lucas Valley/Marinwood area. While I feel this area can support some expansion, the amount proposed by the county is overwhelming. Per the board of supervisors principles, please note my feedback below. 1: Ensure Countywide Distribution: The majority of housing in unincorporated Marin County is being distributed to Marinwood/LUCAS VALLEY. This does not appear to be an equitable distribution and will potentially double the population of this area, affecting all services- sheriff, fire, schools, traffic, etc. Marinwood/LUCAS VALLEY area is being considered for a majority of this housing in unincorporated Marin: St Vincents: 1800 Marinwood Market: 136 Blackstone (site of religious house); 32 Mt Lassen/deli: 58 Jeanette Prandi/Juvi: 254 Lucas Valley Rd/Inear terra Linda Ridge: 26 Total: 2306. E - 2 Jeannette Prandi Way (Lucas Valley)	We have seen the preliminary list of potential housing sites for Marin County, including in unincorporated areas such as Marinwood/Lucas Valley, as developed by the ABAG (Regional Housing Needs Allocation Plan), and approved by the California Department of Housing and Community Development. The plan includes 2,412 units within the Lucas Valley / Marinwood area (accounting for 68% of the 3,569 units within unincorporated Marin County). Sites under consideration in the Marinwood / Lucas Valley areas: St Vincent's School - 1,800; Marinwood Market - 136; 530 Blackstone Drive (site of religious house) - 32 7; Mt Lassen (site of office park) - 58; 2 Jeannette Prandi Way (site of Juvenile Hall); 254 LucasValley Rd/near terra Linda Ridge; 26. We are not opposed to some moderate increase of housing units in the area. However, we have some serious concerns regarding these potential sites: (1) The Lucas Valley / Marinwood area currently has less than roughly 1,750 homes, spread across a roughly 3.5 mile valley corridor, almost all of which are single family dwellings, and the overwhelming majority of which are one or two story homes. There are no large multi-unit apartment buildings in this area. The overall magnitude of the increase in units in this area (2,412 units) is disproportionately large compared to the current housing density of the area. The proposed increase would more than double the overall number of housing units in the area. (2) The area to the south and west of St. Vincent's School (east of HWY 101) has been discussed as a potential development site for some time. Although multi-unit housing could easily be developed there, adding 1,800 units would completely overwhelm the property and this very large number of additional units represents an enormous growth for the area, on the same order of units as currently exist in all of Lucas Valley / Marinwood. To fit this large number of units, the development would likely include large three (or more) story structures, which do not currently exist anywhere in thi				×	×				x		X			x			
E - 2 Jeannette Prandi Way (Lucas Valley)	With respect to the Lucas Valley sites being considered as potential housing sites, I submit the following comments: Juvenile Hall Site Master Plan (A copy of the Master Plan and Appendix will be presented to the Board of Supervisors at the March 2, 2021 meeting.): A Master Plan was developed through collaboration of Marin County Supervisor Bob Rouniguiere, Planning Director Mark Reisenfeld, and Lucas Valley Community members. The Master Plan was submitted to the Board of Supervisors and adopted in 1994. The Plan encompasses the Jeanette Prandi and Juvenile Hall sites being considered as housing sites. The Master Plan provides: a. Upper Idylberry Corridor - The plan stipulates the area north of the Idylberry is transferred to the Open Space District, and there shall be no structures or other improvements north of the Idylberry Corridor. b. Lower SE portion of the Juvenile Hall Site - the lower grass area is preserved for recreational uses. c. SW corner of the site (Jeanette Prandi Way) - shall remain as County Administrative and Storage Facilities only. d. Rotary Senior Housing (Jeanette Prandi Way) - shall be limited to 55 units, single story only. e. Juvenile Hall and County Parks Offices - area shall remain as County facilities. No additional development is permitted. The restrictions of the Master Plan prohibit consideration of this entire area for possible housing sites. In addition, all of the Lucas Valley sites are in the wildland urban interface (WUI) zones that contradict Governor Newson's priorities to shift housing away from rural wildfire-prone areas and closer to urban centers. So, the following are my comments about specific housing allotment recommendations in Marinwood Lucas Valley. Marinwood Market - 136 100 or less: Best and necessary site for redevelopment, but it should be a mixed use development as was proposed by Bridge Housing some years ago. Housing number should be reduced to under 100	Email								х								
G - 155 Marinwood Avenue (Marinwood)	I hope that the Marinwood Plaza/market site is again under consideration for housing. As you most likely know, some 15 years or so ago, the community shot down an excellent proposal from Bridge Housing. Except for the market, the property remains a derellet eyesore. Many of us in Marinwood would like to see the property improved, including a modest amount of housing development, along with community amenities such as a coffee shop, brew pub, or other gathering place, and other shops such as hair salon, co-working space, etc. It is close to public transportation, schools, and major employers most notably Kaiser. It's a far superior site for development than the St Vincents property which has myriad sea level rise and other environmental challenges, and very little other infrastructure. I hope the property will be on be on tomorrow's meeting agenda.	Email																х
G - 155 Marinwood Avenue (Marinwood)	I see the maps and have concerns that things aren't matching. Then two of the sites are still contaminated from the former cleaners at Marinwood Market Plaza - St. Vincent's and Marinwood Market Plaza. G - 155 Marinwood Avenue (Marinwood)	The 2022 Marin County Candidates site for Unincorporated Marin and especially Marinwood/ Lucas Valley/Silveria Ranch is absurd. It targets just 5 square miles with 80% of the housing allocation for affordable housing in one community WITHOUT essential planning for schools, roads, government services, water, sewer and other essential services. Why "plan to fail"? Shouldn't a good faith effort to build affordable housing in our community also include a comprehensive plan for accommodating growth? It doesn't. This is why it should be rejected today. Instead, let's address the core questions for growth AND the financial impact of adding massive amount of largely non profit housing to a single community WITHOUT ADDITIONAL TAX BASE. Marinwood/Lucas Valley currently has approximately 2700 housing units for 6000 residents. The proposed housing sites could add 2300 apartments and 5500 residents who ALL WILL NEED schools, water, government services, transportation, access to shopping, etc. Shouldn't a proper plan for growth precede approval for housing? One of the sites listed is Marinwood Plaza, our communities ONLY commercial plaza within walking distance for thousands of residents. If the plan for 160 units is approved, this would squeeze out a vital community center to the detriment of all. This is not including the problem of TOXIC WASTE contamination clean up suitable for residential dwelling is a long way off despite community pressure on the Regional Water Quality Control Board who will not enforce its own clean up orders on the current owners. Despite the harsh criticism of the RHNA process, I believe there is a real community desire for more affordable housing in a community that will be planned appropriately, won't redevelop our neighborhoods and utilize open spaces like Silveira Ranch, St Vincents and other sites. While everyone I know supports the idea of more housing, not a single one wants a poorly conceived plan that forces large housing projects without considering the impacts. Reject the current RHNA pl	Email		x	×					х		x				x

G - 155 Marinwood Avenue (Marinwood)	We have seen the preliminary list of potential housing sites for Marin County, including in unincorporated areas such as Marinwood/Lucas Valley, as developed by the ABAG (Regional Housing Needs Allocation Plan), and approved by the California Department of Housing and Community Development. The plan includes 2,412 units within the Lucas Valley / Marinwood area (accounting for 68% of the 3,569 units within unincorporated Marin County). Sites under consideration in the Marinwood / Lucas Valley areas: St Vincent's School - 1,800; Marinwood Market - 136; 530 Blackstone Drive (site of religious house) - 32 7; Mt Lassen (site of office park) - 58; 2 Jeannette Prandi Way (site of Juvenile Hall); 254 LucasValley Rd/near terra Linda Ridge: 26. We are not opposed to some moderate increase of housing units in the area. However, we have some serious concerns regarding these potential sites: (1) The Lucas Valley / Marinwood area currently has less than roughly 1,750 homes, spread across a roughly 3.5 mile valley corridor, almost all of which are single family dwellings, and the overwhelming majority of which are one or two story homes. There are no large multi-unit apartment buildings in this area. The overall magnitude of the increase in units in this area (2,412 units) is disproportionately large compared to the current housing density of the area. The proposed increase would more than double the overall number of housing units in the area. (2) The area to the south and west of St. Vincent's School (east of HWY 101) has been discussed as a potential development site for some time. Although multi-unit housing could easily be developed there, adding 1,800 units would completely overwhelm the property and this very large number of additional units represents an enormous growth for the area, on the same order of units as currently exist in all of Lucas Valley / Marinwood. To fit this large number of units, the development would likely include large three (or more) story structures, which do not currently exist anywhere in thi	Email			×	x				x		х			x

G - 155 Marinwood Avenue (Marinwood)	While I am generally in favor of additional low-income housing in Marin, it appears that the proposals for development of Marinwood Avenue turn that are of our neighborhoods (I live across the street) into an area that exclusively low-income housing. Experiments with consolidating low-income housing in the 1960-80's proved to us that this does not work well. These areas become neglected bygovernment and residents alike. Is it possible to make these development more diverse?	Email															х	
H - 1565 Vendola Drive (Santa Venetia)	Hello and thank you for the opportunity to comment regarding Future Housing Sites in Marin County. I attended the local Housing meeting regarding Santa Venetia and Los Ranchitos on February 15th and live in the Santa Venetia area. Here are my comments from a Santa Venetia resident perspective: 1. The process, while advised by the Marin County Planning Department, is being run by a consulting agency that is not familiar with Marin County and the local areas & neighborhoods. 2. The number of assigned housing units to Santa Venetia, 422, ignores the following. Before housing site numbers are assigned and accepted, a "CEQA-lite" analysis should be performed to determine if the numbers and locations are practical from a CEQA perspective. We heard these concerns brushed off with the response that if any development is going to be done, a full CEQA would be completed before development could/would proceed. This would be an "after-the-fact" process, with the fact that the housing numbers and sites have already been assigned and accepted, and would be too late to be influential in the development process. a. There is only one practical vehicle road out of Santa Venetia to the freeway that is already heavily impacted by three schools, the one at the JCC, the Marin School, and Venetia Valley school, and a large pre-school. Traffic in & out of Santa Venetia is also already heavily impacted by the JCC, the Civic Center traffic, the Marin Lagoon traffic, the Veterans Memorial traffic, the Marin Lagoon Housing and the commercial enterprises along McInnis Parkway. b. Some of the sites selected are in wetlands areas, such as the McPhail school site next to North San Pedro Road. c. some of the sites selected are next to the Bay and subject to special development restrictions, such as the McPhail school site. d. The total number of housing units assigned to Marin County, and not just to the unincorporated areas, does not take into account the water needs. And we, Marin County as serviced by MMWD, are in the middle of a water shor					x				×				×	x			
H - 1565 Vendola Drive (Santa Venetia)	Here in Santa Venetia, we are living with water shortages, traffic congestion, and our community's evacuation route was named the most dangerous in Marin and yet huge additional numbers of housing are proposed for this flood prone neighborhood. That's insanel We are not fooled by claims that these new residents won't drive everywhere. They will. We already know that every person of driving age in our neighborhood not only drives but owns a car, or truck. They line our streets, further restricting access routes. There are sites where housing can happen like at Northgate Mall, but not in our overcrowded flood zone.	Email				х				х	x			х				
H - 1565 Vendola Drive (Santa Venetia)	Hi, I would like to object to 251 N San Pedro as a site to build housing. There is a Child Center there serving many families. The ball field on the property is used by the children at the school and people in the neighborhood. There are very few ball fields for Little League. This ball field should not be taken away from ball players. I live in the condo complex next door. Parking is already limited for residents and guests. We can't absorb all the people people who would live there who have more cars then the give spots for them and their guests. If housing needs to be built in Santa Venetia why not 1565 Vendola Dr? The school property there has not been used for decades.	Email																х
H - 1565 Vendola Drive (Santa Venetia)	I am a longtime resident of Santa Venetia in unincorporated Marin County, and a member of the Santa Venetia Neighborhood Association (SVNA). I, along with many of my neighbors, attended the February 15 Zoom meeting on the Housing Element initiative, which seems detached from the reality of worsening climate change. Much of Santa Venetia exists in a flood plain; other parts are in the WUI. With only a single one-lane route in and out of the neighborhood — North San Pedro Road — our existing infrastructure is already stretched to the breaking point with daily traffic congestion restricting both egress and ingress. We currently have fewer than 1800 residences in Santa Venetia, yet the Housing Element recommends 422 additional units, representing an increase of approximately 25%. Adding a fraction of 422 units to Santa Venetia would greatly compromise the safety of its residents, in addition to degrading quality of life. Many of our homes were built in the WUI. We are at constant risk of wildfire, with unstable hillsides that in recent years have collapsed onto North San Pedro Road. Like all of our Marin neighbors, we are constrained by drought. Here in Santa Venetia, our water supply comes from tanks that are sited in the WUI. Supplanting CEQA review in the drive to create multi-million-dollar homes puts our cultural swell as our natural environment at risk. For example, Oxford Valley, a known site of native tribal artifacts such as shell mounds, has been designated for 45 "above moderate income" units. Bypassing CEQA would eliminate the protection of cultural resources here and in other areas of Santa Venetia and Marin that have not yet been surveyed and would be lost forever. Our neighborhood is known to be at severe risk of flooding. The SVNA is currently participating in a collaboration between the California Dept of Parks and Rec, The County of Marin, and The SF Bay NERR to "Identify and Evaluate Sea Level Rise Adaptation Options to Solve Road Flooding in China Camp State Park." The project recently received	Email				×				x	x			x	x		x

H - 1565 Vendola Drive (Santa Venetia)	I am against the proposed units on North San Pedro Road. This proposed project is completely unsustainable and not researched for undesirable living situations. There are many factors that indicate this would not be a good site to build. Factors such as flood control, sea rising at a rate we can expect in the coming years, congestion, removal of a ball park and mostly there are no services to support this project. Well thought out projects include parks, services, bike paths, sidewalks and a reasonable egress in case of fire. North San Pedro Road is all ready congested due to a large school and many churches on this road. Another road to San Rafael is available to Point San Pedro Road however this road is failing due to floods in the winter and very evident sink holes that are not being addressed. More traffic would of course erode the roads further and in the past have had slides on this road particularly after recent tree removal has increased the likely occurance.	Email		х	х	x				х	х	х		х				
H - 1565 Vendola Drive (Santa Venetia)	I attended the zoom meeting a few nights ago. I share the concern of some of my neighbors, well articulated by Gina Hagen. While I totally support affordable housing (so question if this will be "affordable" for working class people), I think we already have too many high density buildings on San Pedro Road, Jcc, school, rest homes, elder affordable housing, civic center etc So I would support maybe 25 more units or something manageable, but hundreds seems like asking for trouble in an emergency. I live on Labrea way and I am glad we have housing for families, down the street, but a common problem is the amount of cars and high occupancy of some of the apartments. The overflow of cars goes all the way to Rosal, and currently I have had cars parked in front of my house for a month and more. It is not a significant problem in my case, but my neighbor who has teenagers with cars, is having to struggle to park their own cars, while the overflow is from housing two blocks away. Obviously San Rafael is a good place for more housing and i would think a place closer to the freeway like Marin Square could be used for extra units of housing. I also would personally like to build an accessory unit in my front yard for a student, teacher, medical professional, at affordable rate. It would be nice to have a department in Marin county who could help seniors like myself design,, get permits, and loans to afford to create such units. I myself was a renter in Marin for 36 years and lived in in-law apartments. I found it much more private and a win/win solution for the owner, typically older retired person, and myself as young professional. I was excited about an organization called Lily Pads and attended a meeting but found out later the owner was no longer providing services. So this would be a great thing to promote. Thank you for including us in your work. Hope we can have more affordable housing, while preserving the safety of our neighborhoods.	Email					×			х							x	
H - 1565 Vendola Drive (Santa Venetia)	I served on the Santa Venetia Community Plan (SVCP) Committee for almost 10 years, including working with County Staff the last 4 years, until its final adoption in 2017. This process included a thorough survey of our neighbors who commented on every empty parcel and open space for future development (and in fact Godbe told us the response was overwhelming with a higher than normal percentage of participation). Our SVCP Committee Members represented every corner of Santa Venetia. We held community meetings (that were well-attended) so I residents had a chance to voice their opinions and ideas. No one knows Santa Venetia better than Santa Venetians. The plan was supposed to cover everything of interest to ensure a diverse, family-oriented, and happy community for years to come. Adding 442 units is simply untenable for a small, working-class hamlet such as Santa Venetia. The last two open spaces (two ball fields) are slated for high density housing. This is totally uncharacteristic of the surrounding neighbors who live in small, single-family housing. In the February 15th Housing Element Zoom call, with County Staff and Contractors from who knows where?, we were informed that our Community Plan would need to be updated. Who would do this work? When and how soon would these updates happen? How can the County randomly update our Community Plans that we spent so many resources on. SB-9 and SB-10 are a complete contradiction to our Community Plan that we dedicated years of work and volunteer hours to finally see its adoption. These past summers, we've stayed inside due to smoke and/or triple-digit weather. We used a bucket from our shower to water our indoor and deck plants while our yard withered and died due to restrictions and requirements in place from Marin Water. We worked out evacuation routes to alert residents to escape danger due to our one road in and out of Santa Venetia. I heard chain saws, chippers, and weed whackers almost every day, regardless of the high, fire-danger days. This is due to San Rafae	Email									×			×	x			
H - 1565 Vendola Drive (Santa Venetia)	I will reiterate the comments I made at the February 15 Housing Element meeting I've lived in SV for over 30 years. I've served on the Santa Venetia Neighborhood Association Board of Directors for almost 30 years. Through our neighborhood association, The Santa Venetia Neighborhood Association (SVNA), we try to get the word out so that our residents are aware of upcoming projects and opportunity to comment. We've heard from Santa Venetia residents that they want to protect our quality of life. We are already concerned about the constant fire danger, flooding, Sea Level Rise, ingress and egress, and unsafe evacuation routes. Climate change is a huge concern for us and as well, we have run out of water in Marin County and are under strict mandates, so I can't understand how adding more and more housing units will help. And to restate, 422 units in SV is an increase of almost 25% of the 1,700-1,800 units we currently had, at last count. It's a very shocking number of additional units for us. I grew up in San Rafael. I hate what they've done to the City and have been constantly disappointed with the building choices and what they have given up. I don't want to see that happening in Santa Venetia — more congestion and loss of our green spaces. Affordable housing sounds great on paper, but we never seem to get that promise fulfilled. I've followed projects in San Rafael and for almost every project, the promise is a huge amount of housing with a small portion designated affordable and then after the project passes through the hurdles, the affordable-housing number is adjusted always downward. I remember previously rules were passed to keep up with the demand of affordable housing, but the goalposts seem to constantly change and that number is lowered. What is the promise that won't happen with this process? Also, I heard them say at that meeting, they were giving schools and churches more flexibility by allowing them to build on parking lots? If that is the case, where will people park? They've already lowered	Email								×	×	х		×	×		x

I - 251 N San Pedro Road (Santa Venetia)	(Comment edited for length) As the directors of Marin Cove Homeowner's Association, and on behalf of the Association, we register our strong objections to plans to turn the Old Gallinas school site into a housing complex. The Marin Cove subdivision is in the Santa Venetia neighborhood. It has 75 units, on single lane streets, and has limited parking areas. The owners are generally single families; some of which have children. The owners, in part due to the limited public transportation, generally use cars to get to and from work. Marin Cove HOA, not the school district, owns the strip of land on the west side of Schmidt Lane separating the field at the Old Gallinas School District from Schmidt Lane. The HOA does not consent to the use of its property to provide access for proposed housing. To the extent the driveway on Schmidt Lane, which crosses the strip of property owned by the Marin Cove HOA, is claimed to be an easement to permit access to the field, if the proposed housing development contemplates the use of such driveway, such is a dramatically increased use of the easement. We do not consent to the use of the driveway to serve a 180-unit development. For the reasons discussed below, we request the removal of the Old Gallinas property from the list of sites proposed for affordable housing. We make these objections based on Government Code section 65589.21 of the Housing Crisis Act ("HCA"), which provides for denial of a proposed housing development project if such project would have a "specific, adverse environmental and social impact," as defined and determined in paragraph (2) of subdivision (d) of Government Code section 65589.5. A significant adverse environmental and social impact mass a "significant, quantifiable, direct, and unavoidable impact" (emphasis added), based on objective, identified written public health or safety standards, policies, or conditions. (Govt. Code, § 65580.5d()(2).) Preliminarily, we object to the lack of notice of consideration of the Old Gallinas school site as a location	Email (See Email Comments Received.PDF, pp. 75-79)			×	x	x							x				
I - 251 N San Pedro Road (Santa Venetia)	[Comment edited for length) The Northbridge Homeowners Association ("NHA") respectfully submits these initial comments regarding 251 North San Pedro Rd. (herein, "Old Gallinas School and Ball Field")—and also regarding the identified potential sites in Santa Venetia more generally. We very much appreciate the County's consideration of the below comments. Northbridge is a residential neighborhood in Santa Venetia more generally. We very much appreciate the County's consideration of the below comments. Northbridge is a residential neighborhood on and privately-cowned tennis courts. Given our close proximity to Old Gallinas School and Ball Field, any proposed development of that property is obviously of critical interest (and concern) to our residents. The County's draft candidate site list identifies Old Gallinas School and Ball Field as a candidate site for adding an extremely large number of what would have to be high-density housing units in a relatively small space. The NHA has received feedback from some of the residents in our neighborhood. The scope, size, and would-be density of this, alone, are shocking and of great concern to our neighborhood. Old Gallinas School and Ball Field would be a very poor choice/candidate for any significant housing development for multiple reasons: Please Don't Get Rid of Santa Venetia's Only Ball Field. To accommodate a project anywhere near the scope suggested in the draft list would require not only getting did of the school buildings (which themselves are currently being used for essential child day care services), but also would require getting rid of (i.e., building on top of) the baseball field which currently comprises the majority of the property. This is the only ball field that Santa Venetia formation of existing recreational assets in the community such as theexisting ball and play fields." This item was included in the Community Plan because numerous residents identified this specifically (including the Old Gallinas Ball Field, in particular) as a critical ne	Email (See Email Comments Received.PDF, pp. 87-89)			×	x				х		х	x	X

This process included a thorough survey of our neighbors who commented on every empty parcel and open space for future development (and in fact Godbe told us the response was overwhelming with a higher than normal percentage of participation). Our SVCP Committee Members represented every corner of Santa Venetia. We held community meetings (that were well-attended) so all residents had a chance to voice their opinions and ideas. No one knows Santa Venetia better than Santa Venetia. The plan was supposed to cover everything of interest to ensure a diverse, family-oriented, and happy community for years to come. Adding 442 units is simply untenable for a small, working-class hamlet such as Santa Venetia. The last two open spaces (two ball fields) are slated for high density housing. This is totally uncharacteristic of the surrounding neighbors who live in small, single- family housing. In the February 15th Housing Element Zoom call, with County Staff and Contractors from who knows where?, we were informed that our Community Plan would need to be updated. Who would do this work? When and how soon would these updates happen? How can the County randomly update our Community Plans that we spent so many resources on. SB-9 and SB-10 are a complete contradiction to our Community Plan that we dedicated years of work and volunteer hours to finally see its adoption. These past summers, we've stayed inside due to smoke and/or triple-digit weather. We used a bucket from our shower to water our indoor and deck plants while our yard withered and died due to restrictions and requirements in place from Marin Water. We worked out evacuation routes to alert residents to escape danger due to our one road in and out of Santa Venetia. I heard chain saws, chippers, and weed whackers almost every day, regardless of the high, fire-danger days. This is due to San Rafa	Email									×			×	×			
I - 251 N San Pedro Road (Santa Venetia)	I will reiterate the comments I made at the February 15 Housing Element meeting I've lived in SV for over 30 years. I've served on the Santa Venetia Neighborhood Association Board of Directors for almost 30 years. Through our neighborhood association, The Santa Venetia Neighborhood Association (SVNA), we try to get the word out so that our residents are aware of upcoming projects and opportunity to comment. We've heard from Santa Venetia residents that they want to protect our quality of life. We are already concerned about the constant fire danger, flooding, Sea Level Rise, ingress and egress, and unsafe evacuation routes. Climate change is a huge concern for us and as well, we have run out of water in Marin County and are under strict mandates, so I can't understand how adding more and more housing units will help. And to restate, 422 units in SV is an increase of almost 25% of the 1,700-1,800 units we currently had, at last count. It's a very shocking number of additional units for us. I grew up in San Rafael. I hate what they've done to the City and have been constantly disappointed with the building choices and what they have given up. I don't want to see that happening in Santa Venetia — more congestion and loss of our green spaces. Affordable housing sounds great on paper, but we never seem to get that promise fulfilled. I've followed projects in San Rafael and for almost every project, the promise is a huge amount of housing with a small portion designated affordable and then after the project passes through the hurdles, the affordable-housing number is adjusted always downward. I remember previously rules were passed to keep up with the demand of affordable housing, but the goalposts seem to constantly change and that number is lowered. What is the promise that won't happen with this process? Also, I heard them say at that meeting, they were giving schools and churches more flexibility by allowing them to build on parking lots? If that is the case, where will people park? They've already lowered	Email								×	×	х		x	x		x	
I - 251 N San Pedro Road (Santa Venetia)	Re: Marin County Housing and Safety Elements Update, 2023 – 2031. The Santa Venetia Neighborhood Association (SVNA) is an organization representing the interests of 1,700 – 1,800 households (4,474 residents per the 2019 census figures) who live in Santa Venetia. As an organization, we are dedicated to the enhancement and preservation of the character and quality of life of the Santa Venetia neighborhood. We do our best to represent our community and have an established reputation to be a voice for proper development. And in accordance with our mission statement, we, the Board Members of the SVNA, feel compelled to comment on this issue. We want to ensure that the Marin County Board of Supervisors receives an accurate impression from our community regarding the updated Housing Element and are writing today to summarize feedback we have heard from many of our members. Many residents of Santa Venetia, including members of the SVNA, attended the February 15 Zoom meeting where consultants representing the interests of the housing element initiative presented online tools for community feedback. We find these tools inadequate; rather nevrings an open platform for the BOS to receive realistic community input, they seem designed to provide information to housing element staff as to where to add more housing. The Housing Element recommends 422 additional units for Santa Venetia. There are currently fewer than 1,800 residences in Santa Venetia, so this represents an increase of approximately 25%— far more growth than the neighborhood has seen for at least two decades. This mandate seems utterly siloed from the worsening reality of global warming and climate change, (the existence of which was recognized both in the Countywide Plan and by the Marin County Civil Grand Jury) which is leading to catastrophic weather events such as fires and flooding. The upland parts of Santa Venetia not directly threatened by flooding are part of the Wildland Urban Interface (WUI) and are subject to year-round fire danger. Like all of Marin	Email				x				х	x			х	х		х

Inverness, Balmoral Way	(Comment edited for length) I am a resident of Old Inverness, specifically Balmoral Way. Please consider the following comments as you finalize your recommendations: The entire approach of this planning effort is misguided. The consultant seems to have arbitrarily lopped new housing onto a map of West Marin without considering County planning history, constraints on the land, or natural resources, let alone community input. This top-down and lil-informed approach is unlikely to succeed, certainly not without damaging community good will, neighborhood cohesion, natural resources and other values of importance. The sites to be developed should be chosen only after a thorough inventory of geology, water supply, slope and other relevant factors. The 2007 Countywide Plan conceived of the entirety of West Marin as a rural, agricultural and low-density region, serving the Bay Area's recreational needs. This reflects the large proportion of the undeveloped lands that are protected as national, state and county parks. Further it carried forward the zoning decisions of the Board of Supervisors in the 1970's, which put a high priority on agricultural and natural resource reservation. If not implemented with great care, this plan risks contravening the supervisors' vision for West Marin. It should not be carried out until the County as a whole considers the larger planning goals for the area. An "elephant-in-the-room" with the housing shortage is the effect of AirBnB. If the County clud reign in this business, the housing supply would quickly rebound, with numerous benefits to the community. Additionally, any new regulations for implementing the current planning process must avoid the ironic outcome that the newly constructed residential sites will also be converted to vacation rentals. Indeed, I suggest the County begin its effort to increase housing supply by tackling this behemoth before undertaking the kind of process it is currently enaged in. Assuming willing sellers of residential properties can be found in a smalle	Email (See Email Comments Received.PDF, pp. 16-19)	x	x		x		x		x		x		x	x	x	x	
Inverness, Balmoral Way	I am writing about the draft list of "underutilized residential housing" in Inverness, specifically those listed on Balmoral Way in Inverness. I am the property owner of 5 Balmoral Way. Imagine my surprise to see my own property (and my house which was fully rebuilt in 2015 with full permits from the county) included on this list as "underutilized residential housing." I was even more surprised to see all of my neighbors' homes on Balmoral Way (in which my neighbors live) to be similarly listed. Obviously the folks who came up with these addresses on Balmoral Way made a significant factual error that needs to be corrected by deleting the Balmoral Way addresses from the list. This isn't about NIMBY — this is simply a factual matter that the listed addresses are not underutilized housing sites. Balmoral Way is a small, one-lane, private, dirt road with no empty lots. Each lot is already built on and fully-utilized. Each lot has a steep incline. All lots are near the water of Tomales Bay and highly constrained in terms of septic system expansion. While perhaps we residents of Balmoral Way should consider it an honor to be listed as the epicenter of underutilized residential units in Inverness, alas, it is an error by those who compiled the list and is divorced from reality. In summary, as a simple factual matter, the housing stock on Balmoral Way in Inverness is fully-built-up and fully-utilized and should not be listed as "underutilized"; all the Balmoral Way addresses on the "underutilized" list should be removed. Thank you for your kind consideration of this request to correct clear and obvious factual errors in the county's data.	Email	х							x					X			
Inverness, Cottages at Point Reyes Parcel	1982 storms, which unleashed large amounts of mud and rock, and woody detritus, into the bottomlands, and it is unstable as far as landslide danger (take note of the problems on Sir Francis Drake Blvd. above). Without any doubt, these events will be repeated in the future. For these reasons alone, this is one of the least appropriate areas for future housing. Douglas (Dewey) Livingston	Email									х	х		х				
J - 9840 State Route 1 (Olema)	I think that the proposed low cost housing sites and sizes and the solution is not thought out! For instance, the 98 homes in Woodacre would create a huge traffic problem and also be inappropriate. The Olema location and proposal would ruin the nature of Olema! And Dennis Rodoni lives in Olema! The west Marin area has been protected for a reason! The nature and small town is the reason that we are all here! I've lived here for 46 years and believe that it would be more appropriate to absorb the housing on properties that are all ready developed and make it attractive for homeowners to build ADUs Please revise the thinking around this important topic of affordable housing! K - 1500 Butterfield Road (Sleepy Hollow)	and an 85 foot width, the length would be +/-265 feet, far larger than any current commercial building in Fairfax or San Anselmo with the exception of Safeway and Rite Aid in Red Hill Shopping Center. Onsite parking would certainly be required because the location is 100% auto-dependent. A minimum of 5-7 acres abutting County Open Space would be permanently lost. 3. A development of this size would likely require a significant sewer upgrade. Other infrastructure upgrades might also be necessary to handle an additional 90 households. There are +/-785 existing homes in Sleepy Hollow, so 90 units is a 10% increase in households overnight. A cost benefit analysis should be conducted to see if the project even pencilis out. And certainly, an EIR will be necessary. 4. The proposed location is in the wildlife urban interface (WUI) with elevated wildfire risk. Butterfield Road is only road in and out of Sleepy Hollow, and evacuation of residents in case of wildfire has been a major safety concern of the Sleepy Hollow Board for many years. The "Achilles Heel" of Sleepy Hollow is single point of ingress/egress. 5. There is inadequate public transportation to support a 90-unit development, particularly if 56 are "very low" and "low" income units. These households may lack a car, and the location is 100% auto-dependent. 6. The Sleepy Hollow location is over 5 miles to the nearest employment center in San Rafael, and is three miles from the nearest supermarket which is "upscale" (Good Earth) and expensive. It is over one mile to the nearest school, which is currently operating at near full capacity. 7. Of the proposed 90 units, 56 are "very low" and "low" income households, or over 50%. The median HH income is Sleepy Hollow is \$255,000, and the average housing price is around \$2 million. What formula is used to determine the number of "low" and "very-low" income households that go into a location?		х		x		х	x		x		x		x		x	x	
K - 1500 Butterfield Road (Sleepy Hollow)	I live in Sleepy Hollow. I am concerned about the San Dominico site (which proposes adding 90 housing units to a community with ~800 households) for two main reasons. 1) Safety. Butterfield is a one way in one way out road. In case of evacuation, increasing the households by over 10% is troubling. Cars at the far end of Butterfield tend to speed. Adding more cars at the very end of the road significantly increases the risk of cars speeding. 2) Traffic. There is almost no public transportation on Butterfield. San Dominico already has a strict traffic commitment with the community because traffic is so bad. This would make it worse. There are three schools which adds to the traffic on Butterfield. Best practices for increasing housing is to do infill in urban areas. This is the opposite. It's building far away from public transportation and freeway access. What makes the most sense is to build as close to highway 101, bus terminals, Smart, etc.	Email				х		х						х				
L - 26500 Main Street (Tomales)	Your proposal to place 186 low-income units on this site is not fair nor does it make sense for the following reasons: You will take away a little league ball field currently used by the nearby communities. It may displace the early development center on the site. he immediate area already supports a section 8 housing community at the corner of North San Pedro and Schmidt Lane. This development will put an unfair burden on the surrounding neighborhood, here is a site at McPhail School down the road on North San Pedro that accommodate the same number of units without removing the little league field and have less visibility to the nearby neighborhood. As stated in another comment, Bon Air shopping center could accommodate most if not all of these units.	Email			x					х								
Lucas Valley	I do not support the proposed quantity of housing proposed for Lucas Valley. I am concerned about water resources, evacuation congestion in a fire, lack of services for new people in the area, increased road congestion and increased wildfire risk. This is not a NIMBY response. The Rotary Village is a great example of affordable housing for seniors that is near our community which is lovely. Expanding this type of housing would be welcome. Highrises are not welcome as they do not fit-in with our area. greatly reduced quantity of one or two story homes would be welcome. Why are we targeted with such a large percentage of the proposed housing? This is not an equitable plan. thought the Governor wanted housing in urban centers where services were available. Your plan does not meet this key criteria.	Email			x	х				х		х		Х	х		х	
Lucas Valley	I have resided in Upper Lucas Valley since 1986. Part of the appeal when I purchased here was the rural setting. Although I understand the need for housing, high density housing is inappropriate for Marin, i.e. large multi-unit structures. I welcome the addition of single family residences as many younger people need homes here desperately. I'm not sure where they would be situated in this area, but am open to suggestions. When George Lucas proposed affordable housing further down Lucas Valley Road, the main concern was the lack of transportation, grocery stores, and the other necessities. It made no sense. Another suggestion would be to make it possible for seniors to give (not sell) their larger homes to their children, purchase smaller homes and retain their property tax base. Most people in that position don't/can't move because buying a smaller home for \$1+ million brings with it property taxes they would find unaffordable. The only way it is currently possible is to sell your existing home and buy a cheaper one. When thinking of housing, perhaps the smart thing to do is build an area of affordable homes in the 1100-1500 square foot range for seniors. That would free up many, many existing homes for growing families.	Email			x			X									х	
Lucas Valley	I just want to officially voice my opposition to the development of additional homes in the Lucas Valley area. While I support the development of affordable housing in Marin County, protecting our undeveloped green spaces is an even higher priority. Instead, I believe areas that have already been developed (green space replaced with concrete) such as towns in southern Marin or places like Northgate Mall would be better options for new housing. Our undeveloped green spaces are priceless and irreplaceable!	Email								х		х						
Lucas Valley	It's come to my attention the HOA to which I belong is objecting to proposed increased housing in Lucas Valley. I would like to inform you that the Lucas Valley HOA is not uniform in this opinion. There are members, such as myself, that would welcome additional housing in Lucas Valley. While I found some of the HOA's arguments moderately persuasive (especially with regard to access to public transportation), I believe the need for more affordable housing in Marin trumps all of their points. I encourage you to keep Lucas Valley on your radar for proposed housing sites, and to find ways to encourage and incentivize more public transportation in our community.	Email						Х									х	х

Lucas Valley / Marinwood	(Comment edited for length) The Lucas Valley Homeowner's Association represents 538 homes in the special R-1:B-LV zoning track in Upper Lucas Valley. We, the Board of Directors of the LVHA, would like to give our support for the efforts to increase housing in Marin County, and offer the following input. To begin with, our State Governor's Housing Plan incentivizes housing in urban centers near transportation and services, to reduce reliance on vehicles and their carbon footprint. If the County chooses a path contrary to the State Plan, and not utilize State funding incentives for urban development, then we ask for a reevaluation of the housing sites identified for our Lucas Valley/Marinwood area. As outlined below, areas 1 - 3 are both contrary to the RHNA requirements and pose a danger for emergency evacuations. There are several sites identified as potential housing building sites in our area, 1. Lucas Valley Road / Mt Muir Court 2. Juvenile Detention Center/Jeanette Prandi Way 3. 7 Mt Lassen 4. 530 Blackstone Dr 5. Marinwood Market area. We agree that the Marinwood Market area is a suitable site. It is close to freeway access and has sufficient infrastructure in place, including amenities like food and gas, and can easily absorb new development. Inonically, the relative quantity proposed/identified at this site is comparably less than the quantity for site #2 above, which is a much less suitable site as shown in following comments. There are several factors that make areas 1 - 3 only marginally suitable for new buildings sites, and therefore should, at best, be only allowed limited building. Factors include: High Wildfire Risk - Single Limited Evacuation Route. Water Shortages. Lack of Infill Infrastructure. Building Atop Unmarked Graves. Zoning Restrictions: The special zoning district for Upper Lucas Valley (R-1:B-IV) limits most buildings to a single story. The district was created in order to adhere to the architectural vision and design aesthetic of Joseph Eichler, a renowned architect highly influentia			×		×				x		×	x	×	x		×	
Lucas Valley / Marinwood	All of the Lucas Valley sites are in the wildland urban interface (WUI) zones that contradict Governor Newson's priorities to shift housing away from rural wildfire-prone areas and closer to urban centers.	Email										Х		Х				
Lucas Valley / Marinwood	Due to FIRE danger and Drought please stop more construction in Mount Marin and Lucas Valley.	Email	\vdash						<u> </u>	1				Х	Х			
Lucas Valley / Marinwood	I am against housing development down Lucas valley and Marinwood. The weather here gets windy starting in spring and ends in the late fall. The surrounding mountains can catch on fire as we had a small one last year. With the drought we are already under rationing. A spark can create a fire and the wind will carry it all over the place. There are no exits except Lucas Valley road and in case of a fire it will be difficult for all to evacuate. Most locations you are considering are in heavily populated areas. Where would we go in case of a fire? 101 will be impacted. Yes we need affordable housing, not more multi million dollar homes. If the water department would consider building a desalination plant off the bay of San Francisco it would help us out. We are in global warming and more cars on the road and more pollution will set us back. What about the empty land space between Novato and Petaluma?	Email				х				x				х	x	х	х	
Lucas Valley / Marinwood	I am extremely concerned about the proposed new developments in the Lucas Valley Marinwood area, especially when taken together with other large new development projects in the nearby vicinity. I realize California has a housing issue. However, destroying existing communities is not the solution. The number of added housing units in the LVM area alone will utterly destroy our school system. The Miller Creek School district currently serves about 2000 students. Just one proposal would add 1800 homes and possibly triple our student needs. Where will these children go to school? Similarly, almost 250 homes in the Prandi location would increase the Lucas Valley Elementary school population by a similar 200%. This will overwhelm our schools, and other community services. If there is another huge build at the Northgate site, also in the Miller Creek School district, it malso worried about many environmental considerations that seem to be ignored. One has only to look at the debacle of the Talus development to see that these plans are not in the interest of the community or environment. These were not affordable homes for teachers and firefighters, but large expensive homes with big lots. Now we have a razed hillside, threats to our creek, destruction of few remaining heritage trees and wildlife habitar and one giant fire hazard with an enormous pile of dead trees and brush. This is what happens when projects are rammed through without proper review and oversight. Traffic increases will be a nightmare. In an emergency, how do we escape with the gridlocks that will occur? Lucas Valley Road and 101 are already jammed with cars especially at commute times. We are in continuing drought, unlikely to ever improve thanks to climate change. Where does the water come from for this new population? A few of the proposed sites make sense but this large scale unbalanced load into our small community does not. Any development should be tailored to fit the need (ie truly affordable housing, not a token 5%) and address community conc	Email			×					x		х		×			x	
Lucas Valley / Marinwood	I am writing in regards to the proposed multi unit housing in Unincorporated Marin County. I'm against using open space to build housing. The site in the open space on Lucas Valley Road should be used for a community park or sports center for the community. Kids need a place to go that could include Basketball, Swimming, Playstructure and lawn for families. I understand the need for additional affordable and Multi-Family housing in Marin, but why Open Space? The County should be looking to improve areas that need improvement, not use open space to pour concrete and build multi level boxes. What about repurposing and improving small strip mall areas all along the freeways? These building have small space and often times run down retail shops and turning those in to thriving shops with housing above. Several responsible counties and cities have successfully done this. Why can't Marin think this way? I don't understand it. Open space should remain open space or for public park use. Dilapidated buildings should should be improved to include affordable housing for the better of the community.	Email										x						
Lucas Valley / Marinwood	I moved to San Rafael specifically to get out of the city and to avoid over congestion, traffic and over development. The proposed additional housing in Marinwood and Lucas Valley will detract from the exact reason I moved here. Over development of north bay is an issue - and just because there is land does not mean it should be developed, which will permanently change the character of the community and landscape. I was unable to sign the petition against the new development, so sending this email instead. Thanks.	Email				х				х		х

Lucas Valley / Marinwood	I see the maps and have concerns that things aren't matching. The Housing Distribution Scenario says: Ensure Countywide Distribution - really? It looks like a disproportionate amount of it is in unincorporated Marinwood/Lucas Valley - 3,569 units to be exact. And some things to remember: We are a fire danger area now that we have had a fire evacuation this last summer. And what happens to road traffic during an evacuation? And it they don't drive, what happens to them? And what about the Water Shortage in Marin County with conservation being the ONLY SOLUTION so far? It is my understanding that the builders of these units won't have to pay property tax. So what does THAT do to our schools? Fire Department? EMT? And who picks up the tabMarinwood/Lucas Valley homeowners? And do we pick up the tax tab for ALL THE UNINCORPORATED AREA of 3,569 units? Encourage Infill and Redevelopment Opportunities: Can the residents of these residents drive? Are they close to services, jobs, transportation and amenities? I don't think so, especially if they can't drive.	Email			x	x		х						х				
Lucas Valley / Marinwood	The 2022 Marin County Candidates site for Unincorporated Marin and especially Marinwood/ Lucas Valley/Silveria Ranch is absurd. It targets just 5 square miles with 80% of the housing allocation for affordable housing in one community WITHOUT essential planning for schools, roads, government services, water, sewer and other essential services. Why "plan to fail"? Shouldn't a good faith effort to build affordable housing in our community also include a comprehensive plan for accommodating growth? It doesn't. This is why it should be rejected today. Instead, let's address the core questions for growth AND the financial impact of adding massive amount of largely non profit housing to a single community WITHOUT ADDITIONAL TAX BASE. Marinwood/Lucas Valley currently has approximately 2700 housing units for 6000 residents. The proposed housing sites could add 2300 apartments and 5500 residents who ALL WILL NEED schools, water, government services, transportation, access to shopping, etc. Shouldn't a proper plan for growth precede approval for housing? One of the sites listed is Marinwood Plaza, our communities ONLY commercial plaza within walking distance for thousands of residents. If the plan for 160 units is approved, this would squeeze out a vital community center to the detriment of all. This is not including the problem of TOXIC WASTE contamination clean up suitable for residential dwelling is a long way off despite community pressure on the Regional Water Quality Control Board who will not enforce its own clean up orders on the current owners. Despite the harsh criticism of the RHNA process, I believe there is a real community desire for more affordable housing in a community that will be planned appropriately, won't redevelop our neighborhoods and utilize open spaces like Silveira Ranch, St Vincents and other sites. While everyone I know supports the idea of more housing, not a single one wants a poorly conceived plan that forces large housing projects without considering the impacts. Reject the current RHNA pl	Email		×	x					x		x				x		
Lucas Valley / Marinwood	This letter is in regards to the proposed site and distribution of housing in the Lucas Valley/Marinwood area. While I feel this area can support some expansion, the amount proposed by the county is overwhelming. Per the board of supervisors principles, please note my feedback below. 1: Ensure Countywide Distribution: The majority of housing in unincorporated Marin County is being distributed to Marinwood/LUCAS VALLEY. This does not appear to be an equitable distribution and will potentially double the population of this area, affecting all services-sheriff, fire, schools, traffic, etc. Marinwood/LUCAS VALLEY area is being considered for a majority of this housing in unincorporated Marin: St Vincents: 1800 Marinwood Market: 136 Blackstone (site of religious house): 32 Mt Lassen/deli: 58 Jeanette Prandi/Juvi: 254 Lucas Valley Rd/near terra Linda Ridge: 26 Total: 2306. (This could be up to 60% of the total housing for unincorporated Marin) Households in Marinwood/LUCAS VALLEY currently 2412. (This could potentially double our size)	Email		x	x	x				х				х				
Lucas Valley / Marinwood	This letter is in regards to the proposed site and distribution of housing in the Lucas Valley/Marinwood area. While I feel this area can support some expansion, the amount proposed by the county is overwhelming. Per the board of supervisors principles, please note my feedback below.4: Consider Environmental Hazards: WATER AND WILDFIRE This pertains to most of Marin County. We have a limited supply of resources to accommodate doubling of the population of marinwood/Lucas valley.	Email								х		х						
Lucas Valley / Marinwood	We have seen the preliminary list of potential housing sites for Marin County, including in unincorporated areas such as Marinwood/Lucas Valley, as developed by the ABAG (Regional Housing Needs Allocation Plan), and approved by the California Department of Housing and Community Development. The plan includes 2,412 units within the Lucas Valley of Marinwood area (accounting for 68% of the 3,569 units within unincorporated Marin County). Sites under consideration in the Marinwood / Lucas Valley areas: St Vincent's School - 1,800; Marinwood Aarket - 136; 530 Blackstone Drive (site of religious house) - 32 7; Mt Lassen (site of office park) - 58; 2 Jeannette Prandi Way (site of Juvenile Hall); 254 Lucas Valley Rd/near terra Linda Ridge; 26. We are not opposed to some moderate increase of housing units in the area. However, we have some serious concerns regarding these potential sites: (1) The Lucas Valley / Marinwood area currently has less than roughly 1,750 homes, spread across a roughly 3.5 mile valley corridor, almost all of which are single family dwellings, and the overwhelming majority of which are one or two story homes. There are no large multi-unit apartment buildings in this area. The overall magnitude of the increase in unitis in this area (2,412 units) is disproportionately large compared to the current housing density of the area. The proposed increase would more than double the overall number of housing units in the area. (2) The area to the south and west of St. Vincent's School (east of HWY 101) has been discussed as a potential development site for some time. Although multi-unit housing could easily be developed there, adding 1,800 units would completely overwhelm the property and this very large number of additional units represents an enormous growth for the area, on the same order of units as currently exist in all of Lucas Valley / Marinwood. To fit this large number of additional units represents an enormous growth for the area, on the same order of units as currently exist in all of Lucas Va	Email			x	х				x		х			x

Lucas Valley, Grady Ranch Development	Addendum to LVHA Housing Statement: EIR Traffic Impact Report Needed For Emergency Evacuations on Lucas Valley Road. The recent wildfire emergency evacuation of Upper Lucas Valley in 10/12/21 caused a logiam of traffic on the only road out, the 2-lane Lucas Valley Road. It has belatedly been brought to our attention that the Grady Ranch development, currently in works (224 housing units), also has Lucas Valley Road as their only exit in a wildfire emergency. When the units are complete, they could add another 300 - 500 cars in an emergency (footnote 1 below). Adding even hundreds of more vehicles onto Lucas Valley Road from the 338 new potential housing units projected, could prove disastrous (footnote 2 below). In addition, any traffic study in an EIR report would also have to take into consideration the potential for a significant number of ADU housing units within the corridor. Lucas Valley Road already seems to have all the traffic it can handle during an emergency evacuation. The LVHA would therefore request that a traffic study be done in advance of earmarking any significant number of additional housing units along the Lucas Valley Road corridor. Lucas Valley, Mt. Muir Court	Thank you for taking time to read over my thoughts on the new housing developments proposed for Jeanette Prandi Way, Mount Muir Court, Marinwood Plaza and 7 Lassen. As a Marin County native of 58 years and a Lucas valley resident of 26 years, I am surprised that these projects are so close to approval without adequate community outreach and input. There are many items of concern that I don't feel have been adequately answered for me to support these developments. At this time I am strongly opposed to these developments. I am respectfully requesting more time for our community to better understand these proposals and how we can collaboratively help the County solve its low income housing challenges.	Email																
M - 1 St Vincents Drive(St. Vincents)	I am extremely perturbed that plans are being made to build housing in within the wetlands and flood zone contained in the old Silveira ranch and St Vincent's properties. This wetlands will become increasingly important as the sea level rises and flood zones will be even less inhabitable year round. This will leave any housing there soon uninhabitable but some builder richer and some county officials who only went through the motions of actually providing affordable housing. This issue was already explored and sanity prevailed in leaving the wetlands to be wetlands. Any housing, affordable or otherwise, should be built on appropriate land, not a flood zone which will damage any housing built on it.	Email									х						х	
M - 1 St Vincents Drive(St. Vincents)	for the infrastructure of this small area. Additionally, all of these proposed development sites are within the Miller Creek School District boundaries and the unfunded impact of these developments on the District would be disastrous. Since the District is currently funded using a Basic Aid Model, it gets no per pupil funding. This means that all the additional students these developments generate will not result in additional funding for the District.	Email		×	x					x							x	
M - 1 St Vincents Drive(St. Vincents)	I found the online tools for commenting cumbersome and inscrutable, and much too time consuming to use. So, the following are my comments about specific housing allotment recommendations in Marinwood Lucas Valley. St Vincent's School - 1800: NO Because there is little infrastructure at St. Vincents, including access to schools and public transportation, this is a poor site for development. Certainly not 1800 units which is an entire community. The only housing at St. Vincents should be limited to students (dorms) and staff.	Email		х	х			х		х								
M - 1 St Vincents Drive(St. Vincents)	I hope that the Marinwood Plaza/market site is again under consideration for housing. As you most likely know, some 15 years or so ago, the community shot down an excellent proposal from Bridge Housing. Except for the market, the property remains a derelict eyesore. Many of us in Marinwood would like to see the property improved, including a modest amount of housing development, along with community amenities such as a coffee shop, brew pub, or other gathering place, and other shops such as hair salon, co-working space, etc. It is close to public transportation, schools, and major employers most notably Kaiser. It's a far superior site for development than the St Vincents property which has myriad sea level rise and other environmental challenges, and very little other infrastructure. I hope the property will be on be on tomorrow's meeting agenda.	Email		х							х	х						
M - 1 St Vincents Drive(St. Vincents)	I oppose 98 houses on the 50 acre High School property facing Drake Blvd. in the San Geronimo Valley. West Marin is maxed out on development because of fire concerns, small roads, septic. The proposed development at the west side of whites hill is the headwaters of the Lagunitas creek which is our coho salmon nursery. It's a floodplain and is unsuitable for development. The infrastructure needed for a development would harm our fragile ecosystem. If Marin County decides to do what the State is demanding, then why not put the entire buildout on the St. Vincents property which is right next to the freeway and could handle the increase in population. We would like to see all the building be for homeless and low income people - like all the people who commute from Vallejo and Richmond to serve us daily because they can not afford to live in our county. Many other properties in Marin would be more suitable.	Email															х	х

M - 1 St Vincents Drive(St. Vincents)	I oppose a housing development the 50 acre High School property facing Drake Blvd. in the San Geronimo Valley. 1. West Marin is maxed out on development because of fire concerns, small roads, septic. 2. The proposed development at the west side of whites hill is the headwaters of the Lagunitas creek which is our coho salmon nursery. It's a floodplain and is unsuitable for development. 3. The infrastructure needed for a development would harm our fragile ecosystem. 4.Building would ruin agricultural, rural beauty which is so precious to the San Geronimo Valley, 5. If Marin County decides to do what the State is demanding, then why not put the entire buildout on the St. Vincents property which is right next to the freeway and could handle the increase in population. We would like to see all the building be for homeless and low income people - like all the people who commute from Vallejo and Richmond to serve us daily because they can not afford to live in our county. Or work with the state to move San Quentin out to a more appropriate place for a prison such as barren land in the dessert, and make a beautiful development on the waterfront right next to shops and the ferry and the Richmond Bridge which would be easy access to transportation and would not overburden Sir Francis Drake which is already far too congested. Many other properties in Marin would be more suitable.	Email										х					х	х
M - 1 St Vincents Drive(St. Vincents)	I see the maps and have concerns that things aren't matching. Then two of the sites are still contaminated from the former cleaners at Marinwood Market Plaza - St. Vincent's and Marinwood Market Plaza. So what happens with the housing planned in these locations?1936 units?	Email														Х		
M - 1 St Vincents Drive(St. Vincents)	I think we should spend our time, energy and money on housing the homeless and low income people at the property near St. Vincents just south of Novato. As you may have noticed, people who work in our communities, but can not live here because of the cost, commute from Richmond and Vallejo and we see the traffic jams every day at commute times. I have heard of a toll coming for Hwy 37, making it even more costly for people who can not afford to live here.	Email																х
M - 1 St Vincents Drive(St. Vincents)	Juvenile Hall) – 254. My husband & I currently rent an office at 7 Mt. Lassen, so it's news to us that this site's under consideration. It's a beautiful, unique office setting that serves both the Upper and Lower Lucas Valley communities as a place of business to walk to! I'd hate to see that disappear!!! However, I wouldn't be adverse to seeing a portion of the current 7 Mt. Lassen structures converted to workflive spaces, if sensitively planned, Maybe 30%. My comments re: St. Vincents also apply to Jeannette Prandi Way. As long as new development is against the hills with access via Idylberry Rd, away from Lucas Valley Rd, and sensitively planned, I'm not totally adverse to new development. However the # of units proposed is too high!** Lucas Valley Rd/near terra Linda Ridge: 26. I don't know exactly where this is, but in principle I'm against it. "The problem with all new development close to Lucas Valley Rd is not merely degradation of the scenic route of LVR — but more importantly, adding traffic congestion to a wildfire interface area with a single ingress/egress. I'm an LVHA block captain, and was present and part of the fire evacuation on Sept 1st 2021 a learning experience. It's for this reason that I signed the petition against development in Lucas Valley. I believe that the current Northgate Mall could and should be a site for mixed-use development including low-to median income housing, yet is not on this list of proposed sites. It ticks all the boxes for access to transportation, schools, shopping, etc.	Email			x	х		X	х			x		X			×	х
M - 1 St Vincents Drive(St. Vincents)	I'm writing to express concern about the proposal to put 1800 units of new housing at St Vincents in Lucas Valley. This number is incredibly high - it would overwhelm the Miller Creek School district. There are many other sites proposed in Lucas Valley. I'm not saying no to all of them, but this has got to get more reasonable. Please don't destroy what is now a beautiful community. Marinwood is a special place. We can't absorb all this housing - some please, but nowhere close to the number of units proposed.	Email			х					х								
M - 1 St Vincents Drive(St. Vincents)	Public Feedback - Marinwood/St Vincents housing proposal: I was only recently made aware of the current preliminary proposal for housing allocation to the unincorporated areas of marin county. As a current resident who grew up in Marinwood Lucas Valley - left the county - and returned to raise my family here - I cannot more strongly oppose the sheer volume of proposed housing for the Marinwood/Lucas Valley areas. This location (Marinwood/Lucas Valley) is already underserved by commercial services and has a lack of job opportunities. It is a small bedroom community sandwiched between the commercial hubs of San Rafael and Novato. Any significant shopping or professional services require a vehicle trip to either the city of San Rafael or to the city of Novato. The added burden of the new development proposals would grossly increase the negative environmental impacts that the lack of nearby commercial services already causes. Furthermore the 101 interchanges both North and South already can barely handle the traffic that exists. More housing in this area without addressing current school campus, sport field, open space, park and community center availability and other critical services would have a significant negative impact on the community and not balance the Supervisors stated goal of 'equitable distribution' throught the county. The schools within the Miller Creek School District are also nearly at capacity. Many of the campuses operate with nearly a third of classrooms being in 'portable' classrooms and have had to take over outdoor recreation areas for portable classroom locations. Our youth sports also already operate at a deficit of field/court availability relative to the active youth that participate. I urge the planning department and the board of supervisors to re-evaluate the Marinwood/Lucas Valley area and not look to force nearly 60% of the county's unincorporated housing allotment into our small bedroom community.	Email			x	x				x		×						
M - 1 St Vincents Drive(St. Vincents)	This letter is in regards to the proposed site and distribution of housing in the Lucas Valley/Marinwood area. While I feel this area can support some expansion, the amount proposed by the county is overwhelming. Per the board of supervisors principles, please note my feedback below. 1: Ensure Countywide Distribution: The majority of housing in unincorporated Marin County is being distributed to Marinwood/LUCAS VALLEY. This does not appear to be an equitable distribution and will potentially double the population of this area, affecting all services-sheriff, fire, schools, traffic, etc. Marinwood/LUCAS VALLEY area is being considered for a majority of this housing in unincorporated Marin: St Vincents: 1800 Marinwood Market: 136 Blackstone (site of religious house): 32 Mt Lassen/deli: 58 Jeanette Prandi/Juvi: 254 Lucas Valley Rd/near terra Linda Ridge: 26 Total: 2306. (This could be up to 60% of the total housing for unincorporated Marin) Households in Marinwood/LUCAS VALLEY currently 2412. (This could potentially double our size)	Email		x	x	x				x				x

M - 1 St Vincents Drive(St. Vincents)	We have seen the preliminary list of potential housing sites for Marin County, including in unincorporated areas such as Marinwood/Lucas Valley, as developed by the ABAG (Regional Housing Needs Allocation Plan), and approved by the California Department of Housing and Community Development. The plan includes 2,412 units within the Lucas Valley / Marinwood area (accounting for 68% of the 3,569 units within unincorporated Marin County). Sites under consideration in the Marinwood / Lucas Valley areas: St Vincent's School - 1,800; Marinwood Market - 136; 530 Blackstone Drive (site of religious house) - 32 7; Mt Lassen (site of office park) - 58; 2 Jeannette Prandi Way (site of Juvenile Hall); 254 Lucas Valley Rd/near terra Linda Ridge: 26. We are not opposed to some moderate increase of housing units in the area. However, we have some serious concern regarding these potential sites: (1) The Lucas Valley / Marinwood area currently has less than roughly 1,750 homes, spread across a roughly 3.5 mile valley corridor, almost all of which are single family dwellings, and the overwhelming majority of which are one or two story homes. There are no large multi-unit apartment buildings in this area. The overall magnitude of the increase in units in this area (2,141 units) is disproportionately large compared to the current housing density of the area. The proposed increase would more than double the overall number of housing units in the area. (2) The area to the south and west of St. Vincent's School (east of HWY 101) has been discussed as a potential development site for some time. Although multi-unit housing could easily be developed there, adding 1,800 units would completely overwhelm the property and this very large number of auditional units represents an enormous growth for the area, on the same order of units as currently exist in all of Lucas Valley / Marinwood. To fit this large number of units, the development would likely include large three (or more) story structures, which do not currently exist anywhere in thi				x	x				x		x			×			
Muir Woods Lodge (Tam Valley)	After much thought and consultation with some neighbors, I'd like to submit the motel that is across from the Holiday Inn – the Muir Woods Lodge – as a possible housing site. You may know that the previous motel next door – with the big sign that says "Fireside" was converted to housing some years ago. If the Muir Woods Lodge is similarly converted, it would not create much additional traffic, as the patterns are already established.	Email																х
Nazareth House (San Rafael)	Additionally, there are also at least two other projects (the 670-unit Northgate and 100-unit Nazareth House developments) which are within our school district but not in unincorporated Marin. Likewise, neither of these developments, both within the Miller Creek School District, will generate per pupil funding for either the Miller Creek K-8 schools or the San Rafael High School district. That means that even though there will be many more students to serve, there will be no additional funding with which to do so. Additionally, these developments generate little to no parcel tax money and some are even exempt from the meager development fees which means the District would receive no money at all to build additional classrooms or to hire additional teachers to serve all the additional students that would be generated.	Email			х													
No Location Specified (Countywide)	All should be near public transportation and shopping. Walking is good for all of us	Email						Х	Х									
No Location Specified (Countywide)	Any & all housing proposed in Marin county should be near public transportation and shopping. Adding additional cars to the area doesn't make environmental sense so low cost housing should be in convenient locations	Email			х			Х										
No Location Specified (Countywide)	Any and all housing sites should consider availability of public transportation and availability of services, ie, grocery stores and pharmacies. It makes no sense to put any housing in out of the way sites where more cars are put on the road. Housing closer to hwy 101 is appropriate.	Email			Х			Х										
No Location Specified (Countywide)	As I am sure, many of our concerns may have already been asked but there is a need better communicate the information to the community. The follow are questions/ concerns: Who performed the study to identify potential areas for the housing sites? What determines the income used for each Housing category (ie local income, county income, housing prices)? How will residence commute from there new homes? Mass/public transportation? Where will retail commerce be located? Will the county exercise Eminent Domain Power? Effect to local taxes, for local bond issues created as a result increased population (Schools, roads, sewers, law enforcement, fire protection other county servicers)?	Email		Х	x			х						x	×		х	
No Location Specified (Countywide)	homes when there are not enough resources for those that are already here? Also, with the State allowing easy addition of ADUs on existing properties, it appears that some housing needs will be unwittingly filled that way (along with additional strain on resources)	Email				x									х			
No Location Specified (Countywide)	l am urging you to not proceed with the presently proposed Housing Element plans in incorporated Marin County. While affordable housing is a concern, so is sustainability. I do not believe the current plan balances these needs adequately. Please allow time for a more thoughtful discussion with more public engagement before proceeding.	Email										х						
No Location Specified (Countywide)	I am very concerned about the large number of homes that the state is requiring Marin to build, with no local control. We are already short of water. Where do they think we will the supply for more homes. As a minimum any new building should only be done with companion infrastructure improvements to handle it such as water, traffic, local schools, etc. I believe there should be push back to the state legislature regarding push to urbanize many parts of our county without thought or planning for the effects of such building.	Email		х	х	х				х					х			
No Location Specified (Countywide)	I do not think there should be housing put into rural meadows but should concentrate on areas that are near existing commercial or developed areas that are not being used. Why change Marin to be like other congested counties that have houses Everywhere willy-nilly and people have to have cars and use gas to get anywhere they need to go? Marin County has a beautiful and peacefulness in the open meadows and hillsides. Please don't jeopardize the county by putting the housing along open space meadowlands and hillsides.	Email										х						
No Location Specified (Countywide)	I find your proposals rushed and not well thought out. I am in favor of taking a more thoughtful and balanced approach.	Email																1

No Location Specified (Countywide)	I fully support measures to increase housing in Marin County, especially those targeted for low income housing. I reject the disguised racism and NIMBY attitude present among naysayers, even if it were to depress my own home's value. I support both racial and economic diversity as a strength of our community. It's unconscionable that wealthy Marin residents want the best schools, but don't want low paid teachers to be able to afford to also live here. This goes double for housecleaners, yard workers, and other very low wage workers who have to spend a significant portion of their income commuting. Let's stand up to the madness of a vocal few and do the right thing.	Email															х	
No Location Specified (Countywide)	I like how an unelected board (ABAG) comes up with this huge number and threatens the county with a big stick. Never mind the additional water resources that would be needed for all these new residents in a drought prone area.	Email													х			
No Location Specified (Countywide)	Marin Housing authority, It seems like the enthusiasm to push this through the County is ignoring a grievous situation. Already, even with water limitations, the County is poorly prepared to grow without greater water resources. This is truly the 'elephant in the middle of the room'. No expansion on this scale can possible be discussed without responsible delivery of adequate water. Thank you for considering my voice.	Email													х			
No Location Specified (Countywide)	My primary concern is the same one I always have: how will increasing housing affect the environment? A number of sites would require cutting down trees or building close to streams. We need MORE trees, preferably native oaks, to protect soil, reduce moisture loss, & provide shade. Open space is NOT wasted space. Talking about affordable housing sounds good, but I keep seeing huge vanity houses being built. There's a 4,000 ft2 just down the road from me that stands empty most of the time. All that construction required scarce building materials and created lots of air & noise pollution. Is slapping an affordable-housing tag on these projects just another sneaky way for people to invest in real estate? How does packing people into fire-prone areas make sense? What about drought and the impact of more construction & people? Why not buy back or forbid the ownership of 2nd & 3rd homes? Why not build housing in strip malls? Disrespecting the environment is how we got into this mess.	Email										Х		X		х	х	
No Location Specified (Countywide)	My view is that the changes proposed will change the character of this lovely region	Email										х						
No Location Specified (Countywide)	The county of Marin has reached peak density due to water and transportation constraints. Minimal new housing should be constructed in Marin County. The housing problem is a statewide problem and it should be addressed at the state level. New cities should be constructed along the Hwy. 5 and 99 corridors near the planned high speed rail lines. The state also needs to build treatment centers for the mentally ill and the drug addicted individuals that are currently living on the streets. These centers can also be placed where land and resources are less expensive. The current uncoordinated county by county plans will only decrease the quality of life and increase expenses for all.	Email			x	x		х		х					х		х	
No Location Specified (Countywide)	We are being asked to find housing numbers 19k what we were asked in the last planning cycle. Why? If this is because ABAG is, once again trying to the Marin housing numbers to SF through their "sphere of influence" concept, this has already been disproven, since Marin is not a bedroom community to SF. ABAG needs to understand that they cannot just wave their magic wand, and buildable lots appear! Affordable Housing needs are real, and Marin has been a very expensive place to live, both in housing costs and in cost of food, gas and everything else, so we are not a very affordable place to live, even once housed, ites with sea level rise issues should not be considered for new housing. Period. Building housing for the disadvantaged in these areas is not social justice, or even good planning. Parking on site is a must in Marin, regardless of any loopholes in SB9. Especially on the hills, where the streets are substandard, parking on the streets has already created impossible access for fire and other emergency vehicles, or even 2-way traffic. This has been caused by the County neglecting to demand the roads be improved before development went in. These are death traps in the event of the fire we know will come some day! Planning has allowed development to continue on substandard roads, particularly on hills. This poor planning has created fire traps throughout the county that people will not be able to evacuate from. These sites should also not be further developed, especially for those in need, without adding the infrastructure that will insure the safety of the residents, is adequate roads that can handle an evacuation. Other infrastructure needs to be updated to handle increased demands, such as sewers, to meet the unplanned expansions mandated by SB (How will we meet these sea level rise impacting existing housing and major roads, and fire. While we are redesigning these we may have opportunities to find new housing sites. I hear the Strawberry Seminary has sold its property. There is a vast opportunity for a	Email		×		×	x				x	×		x	x		x

No Location Specified (East Marin)	Please keep the housing developments in east Marin as our beloved former politicians planned in the early 1960's as detailed in the documentary "Rebels with a Cause".	Email										Х						
No Location Specified (San Geronimo and Nicasio)	Dear Board of Supervisors, I am writing to thank you and the County staff for the outstanding work you have been doing on the new Housing Element for Marin County. I especially appreciate the community education and outreach by the County to actively engage residents during these past few months. The workshops on the Housing Element and the Balancing Act tool offered important information on the unmet need for affordable housing and also the criteria that could to be used as guides in the decision-making process. I also want to thank Leelee Thomas and the entire Community Development Agency staff for the virtual workshop on February 16th for unincorporated West Marin. More than 100 people attended, many with purposeful, well-informed questions. Leelee and staff responded to all of the questions in a knowledgeable, meaningful and insightful manner. In addition to housing sites, It was good to hear that County staff are working to try and find solutions to some of the most vexing issues that impede and discourage the creation of affordable homes: septic issues, waste treatment and grey water systems, and building code and zoning restrictions. I very much appreciate your dedication and support of affordable housing in Marin. We all have a lot of work to do. Attached are my ideas about possible sites for affordable housing sites in the San Geronimo Valley and Nicasio. (Note: attachment apparently not included)	Email															х

No Location Specified (San Geronimo Valley?)	Increasing the potential for 200+ more cars getting through the SFD corridor during rush hour? Traffic is already a nightmare morning and night. Adding houses to a community struggling to maintain homeowners insurance due to wildfire vulnerability? This is really poor thinking and poor planning. I support seeking SOME alternative Valley sites to meet our affordable housing obligations but there are possibilities along the 101 corridor that make much more sense. Please think forward instead of short sightedly.	Email				х								х				
No Location Specified (West Marin)	I agree with and adopt as my own the comments submitted by the Environmental Action Committee of West Marin (EAC), and request that you add my name in support of EAC's position. And additionally, and by all means, Marin County MUST maintain the zoning (A-60) and all other policies designed to protect and enhance agriculture in West Marin. (Note: unable to identify EAC comments which are referred to.)	Email										х						
No Location Specified (West Marin)	I am extremely concerned about more housing going up in West Marin due to fire danger and the already impossible likelihood of getting out of Marin from West Marin due to the lack of roads to get out. How can more housing be considered when there are only a couple ways out and if traffic in Fairfax is bottled up and the ONLY way out is going east then valley residents are screwed. Housing should only be considered in areas nearest the freeways. The golf course should only be for open space and recreation. Fire danger is a serious threat.	Email				х						х		x				
No Location Specified (West Marin)	In West Marin we are on septic systems. It is horrendously expensive to get anything done here., costing up to \$ 100,000 easily for a simple system. Then the County is imposing annual extra fees for people who have non standard systems of any kind. It makes this unfeasible for all but the most wealthy. I and many of my neighbors would be amenable to putting an ADU on our property BUT for the septic issues. There are alternatives - electric toilets, or other things that could be researched. Also, the County must come up with an affordable septic pricing. Plus, the contractors have no incentive to keep their costs in line, even with their proposals. I have heard time and again, how Questa got a bid, must have been the lowest bid, then they went over budget, (by \$15,000 or \$ 20,000) and to get the house signed off, approved, and be able to move in, the homewomer paid the extortion, I mean, bill. The County could at least provide a service where homeowners could put their comments in about septic contractors for prospective septic owners to see. Thanks for listening.	Email													x			
No Location Specified (West Marin)	The consideration of this site (275 Olive Avenue) raises a concern that other similarly inappropriate sites may also be up for consideration in other parts of Marin. Would it be possible to get a list of any sites that are within 500 feet of a wetland? I studied wetland habitat restoration planning in graduate school, and was under the impression that CEQA/CWA sect 404 prevented projects from being built on top of or close to wetlands.	Email										х						
Northgate Development (San Rafael)	Additionally, there are also at least two other projects (the 670-unit Northgate and 100-unit Nazareth House developments) which are within our school district but not in unincorporated Marin. Likewise, neither of these developments, both within the Miller Creek School District, will generate per pupil funding for either the Miller Creek K-8 schools or the San Rafael High School district. That means that even though there will be many more students to serve, there will be no additional funding with which to do so. Additionally, these developments generate little to no parcel tax money and some are even exempt from the meager development fees which means the District would receive no money at all to build additional classrooms or to hire additional teachers to serve all the additional students that would be generated. Novato, Atherton Corridor	Hello. Thank you for the information and materials regarding the Housing Element on the website. I have reviewed all of the materials and have the following questions the answers to which will help me and others comment and provide input in a more informed way. Because of the 1,000 character limit, this is the 1st of 3 emails with 9 total questions. The Draft Candidate Sites Inventory charts you have provided do not break-out extremely low-, very low-, and low-income units. The Housing Element Site Inventory Guidebook under Government Code Section 65583.2 (the "Guidebook") seems to require this, and Marin County's FAQ 15 breaks down the 3,569 total into those 3 categories plus moderate and above moderate. Can you please provide that more defined breakdown of all 5 categories by site? 1. It would be very helpful to have a chart for the Draft Candidate Sites Inventory that lists the units under each of the four scenarios. Is that something you have? Can you please provide it? 2. Under Part A. Step 3 please provide the availability or plans for the Atherton Corridor sites. 3. Under Part A, Step 6 please provide the factors considered to accommodate low and very low-income housing for all of the sites. 4. Under Part B, for the Atherton Corridor sites, please provide the evidence that the site is realistic and feasible for lower income housing. 5. Is there a master plan for all of the low-income housing, up to 516 units, for the Atherton Corridor? Does any plan consider sidewalks, traffic lights, parking spaces and public transit? How many buildings and floors on each site are envisioned? 6. Under Part C, the capacity analysis, and in particular Step 2, what were the factors to calculate the realistic capacity of the Atherton Corridor sites including redevelopment of the non-vacant sites? 7. Under Part D, why are the non-vacant sites in the Atherton Corridor considered "obsolete" or "substandard" or otherwise meet the required criteria? 8. Under Part D, Step 3A, what is the basis for finding that the current residen	Email	×	×													x	
Novato, Atherton Corridor	How would you feel if the County identified your home as the possible site for rezoning to accommodate high-density housing but neglected to notify you??? And then justified its inaction as inconsequential because the properties are only under preliminary consideration. That's what happened in the Community Development Agency's Feb. 17 presentation. I call it arrogant, insensitive, high-handed and totally inappropriate. Furthermore, the process of identifying these properties is opaque at best. It is irresponsible to proceed while disregarding the infrastructure necessary to support new homes, particularly in our drought-stressed, fire-endangered landscape. It's not the kind of government that respects its citizens. I am particularly troubled that the planning for the Atherton unincorporated areas ignores the Fireman's Fund 1000-home development in Novato less than a mile away. Dumping 1400 homes into this concentrated area spells disaster and will overwhelm the San Marin-Atherton interchange.* The "Guiding Principles" you adopted in December include "environmental hazards," but they recklessly disregard the practicalities of building on these sites and the adverse impact on the local environment, it's time to go back to the drawing boards and this time develop a reality-based plan that honors your constituents. "Construction of 101 in the Novato Narrows has taken 20+ years! Nothing should proceed until CalTrans is on board with a plan and dollars committed!	Email	х	х						х		х		x				
Novato, Unincorporated	We live in unincorporated Novato and the consensus of my neighborhood is that we do not wish to have our area re-zoned to accommodate low-income housing. What's unique about our area is that we still have some room to support the local wildlife and insects. Since moving here in 2014, we've witnessed a decline in the bee, bumblebee, and butterfly populations. The Monarchs will soon be gone do due to dwindling food resources. They are key to the health of our ecosystem, and every time a property is developed for housing, the plants needed to support these creatures are destroyed. Fencing also hurts the trails and pathways necessary for the animals to get much-needed food and water. We do not want you re-zoning anything. We want to keep our neighborhoods as they are. We already struggle with water issues. Please do not make our areas more accessible for development. We do not want what little beauty is left here destroyed.	Email										X			x

O - 217 Shoreline Highway (Tamalpais)	(Comment edited for length) Sustainable TamAlmonte has the following comments and recommendations regarding the merits of the above referenced Tam Valley, Almonte, and Manzanita Candidate Housing Sites listed in the 2023-2031 Housing Element DRAFT Candidate Housing Sites List. Due to the unique characteristics of the area, encouraging residential development, especially high-density development, at the above referenced Sites would increase the risk of undue harm to the environment and undue hardship, illness, injury and/or death to the current and future residents. The Tam Valley, Almonte, and Manzanita commercial lowlands, in which the above referenced sites are located, experience the most number of environmental constraints and hazards of any area in Unincorporated Marin. Both the Marin Countywide Plan's ElR and the 2012 Housing Element's SEIR demonstrate that development at these sites would exacerbate the existing dangerous conditions and add new significant adverse environmental impacts (which) magnifies the probability that a tragedy would ensue and the multiple mitigations that a developer would need to fulfill would cause development costs to soar. These factors make the sites unsuitable for affordable housing. The only acceptable course of action is to eliminate the sites from the inventory. Below is a list of the unique natural features, hazards, and limited resources in the Tam Valley, Almonte, and Manzanita lowlands that constrain development and population growth and substantiate our argument. For a quick overview of these constraints, please view the attached table. I. Dangerous Traffic with Unacceptable Level Of Service – LOS "F" Of Local Roadways:. II. Flooding, 100 Year Floodplain, Impending Sea Level Rise III. Filled Marsh Areas With High Seismic Activity, Liquefaction, subsidence and Mud Displacement. IV. Air Quality & Noise: Increased Risk of Residents Developing Serious lilness Due to Living Near Major Roadways. V. O - 217 Shoreline Highway (Tamalpais)	As a concerned Mill Valley resident, I am writing to endorse TamAlmonte's letter to you re. the merits of Tam Valley, Almonte, & Manzanita Draft Candidate Housing Sites. Please think very carefully about sites, due to concerns about flooding, traffic and at times extreme fore danger with needed evacuation routes.	Email				х					х			х				, L
O - 217 Shoreline Highway (Tamalpais)	ATTACHMENT from Tam Design Review Board: Suggested Additional Policies to be Included in the Housing Element: 1. Wildfire Risk: Use mathematical modeling to investigate and predict wildfire risk. Prohibit the building of housing (even ADUs) in fire critical areas. 2. Flood Risk: Prohibit new housing in areas at risk of flooding from storm surge or sea level rise. 3. Bothin Marsh: Require all new development adjacent to Bothin Marsh to supplement and follow the policies that are designed to preserve the marsh. Given the County's recent efforts to restore and preserve the marsh, it makes no sense to select a site adjacent to the marsh for any form of dense development. 4. Evacuations: Require that new housing development along Shoreline Highway trigger a study and redesign of the traffic patterns to ensure that any new housing development in that area will not worsen traffic or increase the threat to life safety during an evacuation. Any assessment of traffic impacts of emergency evacuation should include new housing developments in the City of Mill Valley, as Shoreline Highway is the only exit should East Blithedale become blocked. 5. Short Term Rentals: Eliminate short-term rentals is completely, or allow only on-site, owner-occupied properties to have short-term rentals. If someone does not live on-site, then the property is arguably an investment property only, and any claim of the need for that short-term rental income can be disregarded. This would enable ADUs to be counted toward the Housing Element numbers (see item #10), 6. Vacancies: Create a County mandated vacancy tax (as San Francisco is presently considering) to create disincentives for leaving housing units empty. Exemptions could be made for work from home or dwellings under a certain square footage if the homeowner works from home or needs the space for their own dwelling use. This has been documented to establish new housing units and therefore could be counted toward the housing numbers. 7. Speculative investment: Eliminate corporate ownership	Email																
O - 217 Shoreline Highway (Tamalpais)	I am in complete support of all the points made in Sustainable Tam Almonte letter of 2/24/22. Building in the proposed area is ill advised, and appears to be illegal. O - 217 Shoreline Highway (Tamalpais)	We are writing in regard to the sites chosen for possible inclusion into county plans for housing in the Almonte/Tam Valley area of the county. Of the eight sites mentioned in your Balancing Act scenario, five are in a serious flood zone and one is located, not on, but in Richardson's Bay. Your commentary regarding the avoidance of environmental hazards has been completely ignored by whatever staff was used to choose these sites. The properties in the flood zone are 160 Shoreline, assessor's parcel # 052-041-27, 217 Shoreline, 223 Shoreline, and 204 Flamingo Rd. he site which is actually in the bay is 260 Redwood Hwy. Oddly enough, there is one property across the road from 160 Shoreline which is on solid ground. That would be the Muir Woods Lodge, a motel which actually has some open space which could be used for more housing. Why was this property ignored when lesser properties were chosen? Considering that we are familiar with the sites in the Almonte/Tam Valley area but not the rest of the county, it seems very strange that your staff has chosen properties which flood now and will continue to flood even more in the future. We wonder about your motivation in focusing on dangerous and inappropriate land. We also wonder why your staff has chosen properties which are pretty much lumped together in the same area which will further exacerbate the level F traffic problems which occur for us every day. If these sites were chosen to be close to public transportation, we would remind you that there is no viable public transportation in our area. So we would be looking forward to much more daily auto traffic. We are extremely disappointed in the Balancing Act which appears to be a distraction and of no practical value. We wonder how much time and money was wasted on promoting this ridiculous game. We also wonder how many sites in the rest of the county are totally inappropriate but are being promoted as a way to choose our fate which, as you know, is not the case. Surely, the Board of Supervisors can do better than pr	Email				x		×			x							
O - 217 Shoreline Highway (Tamalpais)	We oppose new housing in the areas mentioned in Tam Junction due to flooding and traffic and possible fires, can't get out of here now. Tell Scott Wiener and his friends to move on.	Email				х					Х			Х				
O - 217 Shoreline Highway (Tamalpais)	Vesterday afternoon, I had the pleasure of speaking with Ms. Clark about the wisdom (actually, the lack of it) in the choice of potential sites around Tam Junction. Last night, I participated in the "roadshow" and, as a result, I am asking for your help in following up on one matter. During the presentation by Jose Rodriguez, he mentioned that one of the "Guiding Principles" for the BOS is the consideration of "environmental hazards". It doesn't take long to recognize the hazards of sea level rise, a long history of flooding and traffic in our neighborhood, among others. But, in addition, Mr. Rodriguez made an interesting rejoinder to a question about whether certain sites can be included in this study if such sites have been previously reviewed and rejected. He was not too clear but he suggested that the State of California has some "requirements" if a previously rejected site is again brought up for analysis. I asked him to specify (1) which of the four Tam Valley sites have already been considered and rejected, and (2) what are the state's requirements (if any)-that are different or additional—that would apply to such sites. He did not have the information available to answer either question and it didn't appear to me that there would be much of an effort to research those questions and disseminate the answers. Hence, this email. Do you know the answers? If not, would you please put in motion an effort to discover the answers? It may not be dispositive, but then again, it may be important. P - 4900 Sir Francis Drake Boulevard (San Geronimo Valley)	(Comment edited for length) Please find attached the San Geronimo Valley Planning Group's response to the proposed Housing Element update. Background: The San Geronimo Valley Planning Group was formed in 1972 to help elect Gary Giacomini to the Board of Supervisors in order to gain the critical third vote necessary to kill the 1961 Countywide Master Plan, which had envisioned 5,000 new homes and 20,000 additional residents for the San Geronimo Valley alone. While the plan was updated in 1982 and 1997, its central premise has never changed; preserving our Valley's rural character and protecting our natural environment. This commitment - along with that of many other community members - also helped permanently preserve more than 2,300 acres of open space in our beloved Valley. We have been trying to apprehend the efforts of Marin County to meet the state- mandated "housing elements" through the rezoning of existing parcels. We are very concerned that few Valley residents are aware of the potential impact of this housing mandate on our community and that the Planning Group was not included in the process from the beginning. Apparently, pressure from the State has made it a top- down County effort. The Planning Group adamantly opposes the proposed, potential locations within our community identified below. High school property - We are alarmed by Candidate Housing Site P, the proposal to build 98 above-moderate-income units through rezoning the high school property next to the Ottolini/Flanders' Ranch at the bottom of White's Hill on Sir Francis Drake Blwd. Our Community Plan clearly spells out that the use of this property should remain as agriculture or open space; the high school district agreed. Our reasons are numerous. 1. It would be a dangerous location, creating a separate enclave with an entrance off a very busy highway, and removing one of the few places where traffic can safely pass slower traffic. 3 Because this property is not within the boundaries of any of our four villages, it would beatory the esse	Email (See Email Comments Received.PDF, pp. 234-236)			×	x	x			x		х					x	
P - 4900 Sir Francis Drake Boulevard (San Geronimo Valley)	1: can we use the Lagunitas school parcel that is before the Spirit Rock parcel? 2: If Spirit Rock is built on can it be hidden from road? 3: The visual view when you enter the Valley is gorgeous and should be maintained. 4: Lagunitas school campus has lots of unused space. P - 4900 Sir Francis Drake Boulevard (San Geronimo Valley)	Already leaving here is problematic early in the morning and many folks work and go to school over the hill and have to go then. You would be adding probably 200 or so cars to the problem for starters. As it is I no longer go to Point Reyes on the weekends because its an extremely busy place full of tourists and the locals cant park and get to services. Dennis, I have written to you before regarding the San Geronimo Valley Golf Course and you can see now that what was once a beautiful sward of land full of animals and birds and yes golfers is now a sea of weeds and fallen trees. And yes, people walk there on the paths and I guess through the tick invested grasses as well. And now you want to put up 98 (!) houses and destroy another piece of the Valley? And what about fire and earthquake considerations. If that corridor gets blocked in an emergency we would all try to get out through Lucas Valley or perhaps Highway One but regardless its scary to think of those situations. And I was here when we fought to keep that all all the other developments a NO GO. Successfully might I add and I believe the plan states that land was to stay agricultural. And how are you going to get all those folks home insurance? I already know people who have been denied coverage here and several of those companies I believe want to leave California altogether. Surely you can find another spot to meet whatever criteria is mandated some place else. I dont know if you even bother to read these letters but I do want to go on record objecting wholeheartedly to this.	Email				х						х		х				
P - 4900 Sir Francis Drake Boulevard (San Geronimo Valley)	Dear Mr. Rodini please do your best to represent the better interest of all Valley residents and don't let 98 new houses be Built-in the area East of Woodacre along San Francisco Drake. The San Geronimo Valley has one road in-and-out and Our septic systems and fire protection issues are at stake! Please say no!	Email				х								х	Х			
P - 4900 Sir Francis Drake Boulevard (San Geronimo Valley)	Hello Dennis, I am writing as a long term resident in Woodacre with some concern regarding the 50 acre parcel alongside SFD Blvd and the Flanders ranch property. Please include all San Geronimo residents in any planning that might go forward on this horrendous possibility for 98 homes. We are already struggling with water issues, fire issues, septic issues, road access in emergencies, current Fairfax traffic jams. We already have a valley floor jammed with County infrastructure - water dept, fire dept, PGE substation, noise and lights all times of day and night. I certainly hope this possibility will become part of many public forums on your agenda for this small and fragile valley. Since the last fire on White's Hill, nothing has been done to remove the battery box from the long-broken highway sign which may have sparked that fire. I think, in speaking to my neighbors, the SGV feels a bit neglected by your office and I sincerely hope that can be rectified.	Email				х				х				x	x			
P - 4900 Sir Francis Drake Boulevard (San Geronimo Valley)	I am a homeowner in Woodacre since 1972. I am of the opinion that there are some places that shouldn't be developed. I include all of western Marin in that category, but for the moment I will comment on the proposed development of 98 homes just west of White Hill on Sir Francis Drake Blvd. Entering the valley, one's first impression is the beautiful rural landscape that is becoming rare in California. That experience would be negatively impacted by any development in that area. 98 Homes would mean around 200 automobiles adding to the congestion in Fairfax and San Anselmo and create a great deal more air pollution than already exists. That area is not only a seasonal wetland, but is in the headwaters of the Lagunitas Creek Watershed. Construction and habitation of that area would cause irreparable harm to wildlife, including endangered salmonids and many other species. I support development along the 101 corridor.	Email				х				х		X		х	Х			
P - 4900 Sir Francis Drake Boulevard (San Geronimo Valley)	I am a resident and homeowner in Forest Knolls, where I live with my husband and 5 year old. I'm responding to signs I saw posted today along SFD near Dickson Ranch, in regard to the building of 98 homes on that property. I have searched online and cannot find any more information about this proposal. I would like to add my comment that you please proceed very cautiously—while I really recognize the need for more housing and more affordable housing in Marin, I have a couple of big concerns—environmental impact (including air quality, native species habitat preservation and restoration, and light pollution. I also have some concern about SFD as the only way into and out of the valley, in case of emergency (and, just in terms of general traffic congestion, and air pollution). So my comment is to please very carefully consider these matters before proceeding. Thank you!	Email				х						x		х		X		
P - 4900 Sir Francis Drake Boulevard (San Geronimo Valley)	I am dead set against the proposal to develop 98 new houses on the 50 acre High School property. Such a large development is exactly the kind of change the valley has fought against for decades. Such a large development would change the Valley's pastoral character enormously and negatively. I believe the Valley's population stands around 3,500. If 4 people were to live in each house of such a new village, the valley's population would increase over 10% overnight. I would support fewer than half such units of low-income housing if they were located in dispersed fashion, and wouldn't have such a negative aesthetic consequences.	Email								х		х					х	
P - 4900 Sir Francis Drake Boulevard (San Geronimo Valley)	I believe West Marin has reached its carrying capacity for new homes, especially in regards to water, roads, septic and fire safety. Are we going for maximum buildout? What happens after we add 3500 homes the State of California tells we have to do? What happens in 2031 when they say we have to do it again? I watched the zoom meeting with Leelee Thomas on February 16, and she said it's either the carrot or the stick. I did not see any carrots in the equation, only threats. The proposed 98 houses in the heart of the San Geronimo Valley is an ill conceived proposal. It does not take into consideration that the plot of land is the headwaters of the Lagunitas Creek which is a coho salmon nursery. It's a flood plain when we get substantial rain - if you have ever driven by in a downpour, the entire area is a web of small streams before it gets to the main stream channel about 500 feet from there. I believe the infrastructure needed for those houses would not only be an eyesore, but also a detriment to our fragile ecosystem.	Email		x		х				х	х	х		x	х			
P - 4900 Sir Francis Drake Boulevard (San Geronimo Valley)	I could not access the Balancing Site work area so I am submitting these comments here. SGV is am amazing place to be due to low development. I have had the benefit of living here 25 years. What is being proposed in both of the areas of the School property and at the Gold Course are for higher end homes. Higher end homes are not a help for our community. We need homes for families with kids, We need Senior housing. We don't need another 127 above moderate income homes. Have some vision. Create a place with a grocery store, deli, and place for people to meet. Create Senior housing. Have ability to share vehicles. This area could become a hub for our community to use and support. It is also a sensitive environmental area. It used to be where water would spread out when it rained and slowly sink into the ground providing water all year round for the fish. More concrete and asphalt = more runoff. This vision of 98 separate high end homes here is not fitting to the rural area of our valley. It is just going to bring in more people who want a rural lifestyle from other areas and NOT give our locals homes. Every day, people, and families are looking for homes. Renters are being pushed out. It is unaffordable to live here. Solve the problem we have now, housing for our locals. Not bring more people here. Also, the place being considered at 6900 Sir Francis Drake is a privately owned place. Owned by a family that owns quite a bit of property in the Valley as it is. I certainly hope public monies are not going to rehab this property.									х		X					х	
P - 4900 Sir Francis Drake Boulevard (San Geronimo Valley)	I do not support 98 houses on the 50 acre High School property facing Drake Blvd in the San Geronimo Valley. It would destroy our Valley's rural character and the beauty we prize in that view shed. I support seeking alternative Valley sites not visible from Sir Francis Drake Blvd to meet our affordable housing obligations.	Email								х		х						
P - 4900 Sir Francis Drake Boulevard (San Geronimo Valley)	I do not support 98 houses on the 50 acre High School property facing Drake Blvd. in the San Geronimo Valley. It would destroy our Valley's rural character, the beauty we prize in that view shed and create a new, unnecessary and unwanted village. I believe many of these West Marin sites are not strategic due to environmental concerns, lack of local jobs, and inadequate infrastructure to sustain such a population increase. I support seeking alternative Marin sites to meet our affordable housing obligations.	Email		х	х					х		x

It would destroy our Valley's rural character, the beauty we prize in that view shed and create a new, unnecessary and unwanted village. Not to mention the massive increase in traffic and fire hazard/danger such a development would create. I support seeking alternative Valley sites to meet our affordable housing obligations.	Email				Х				X		Х						
P - 4900 Sir Francis Drake Boulevard (San Geronimo Valley)	I do not support new housing on the 50-acre High School property facing Drake Blvd. in the San Geronimo Valley. This important rural gateway property to the valley and nearby Pt Reyes National Seashore should remain in agricultural use as part of the historical Flanders Ranch. I support seeking alternative Valley sites to meet our affordable housing obligations. Our community will vigorously oppose such inappropriate development.	Email								х		х						
P - 4900 Sir Francis Drake Boulevard (San Geronimo Valley)	I hate to hear that 98 houses are going to be built on the 50 acre High School property facing Drake Blvd. in the San Geronimo Valley. I do support seeking alternative Valley sites to meet our affordable housing obligations, and hope that some compromise can be reached that won't destroy the beautiful approach to West Marrin or further stress our limited resources. I know we are lucky to have remained untouched by "progress" for so long but oh boy I hope our luck holds a bit longer. Anything you can do to stop this unwelcome and depressing development will be much appreciated.	Email								Х		Х			х			
P - 4900 Sir Francis Drake Boulevard (San Geronimo Valley)	I have lived in Woodacre for over 40 years. I love the contry feel and woodsy environment. I highly object to the proposed low income housing development on Flanders property. I am your constituent, and voted for you when you were running for office. Please stop any expansion, re-zoning or building projects that will bring more residences to the Valley. I travel down San Geronimo Valley drive every day as, I work in San Rafael. When I get to the corner of Sir Francis Drake, I would be looking at the very piece of land across SFD, that the houses will be built on A. I understand the proposal, 100 houses will be built on 50 acres. The new development will also add to traffic on SFD by quite a bit. Please, let's keep the beautiful rural nature of the Valley as it is now.					х				х		х						
P - 4900 Sir Francis Drake Boulevard (San Geronimo Valley)	I hope you're well and please allow me to begin by thanking you for your leadership on a range of issues important to San Geronimo Valley residents. While I know the recent report about possible locations for additional housing in the county is quite preliminary (and conducted by a third party that does not speak for Marin County residents), it makes sense that concerned citizens speak loudly and early on this topic. Please know that I do not support 98 houses on the 50 acre high school property facing Sir Francis Drake Blvd. in the San Geronimo Valley. It would destroy our Valley's rural character. It would destroy the beauty we prize in coming over White's Hill. It would create a new, unnecessary and unwanted village. Most important, it would add a possible 200 additional vehicles and possibly up to one thousand daily vehicle trips in and out of the valley to an already congested road. Anyone trying to get to Highway 101 at 8:00 am already knows that the traffic is horrible as you enter Fairfax. This would add to that exponentially. Anyone living on or near SFD Blvd. knows that the weekends are equally tough with many tourists heading to and from the coast. While I support affordable housing I believe there are better ways and better locations to accomplish this.	Email				х				Х		Х

P - 4900 Sir Francis Drake Boulevard (San Geronimo Valley)	I just want to add my voice to ask you not to support the new San Geronimo housing being considered. The environmental and infrastructure impact will be horrible!	Email		Х								х						
P - 4900 Sir Francis Drake Boulevard (San Geronimo Valley)	I oppose 98 houses on the 50 acre High School property facing Drake Blvd. in the San Geronimo ValleyWest Marin is maxed out on development because of fire concerns, small roads, septic. The proposed development at the west side of whites hill is the headwaters of the Lagunitas creek which is our coho salmon nursery. It's a floodplain and is unsuitable for development. The infrastructure needed for a development would harm our fragile ecosystem. If Marin County decides to do what the State is demanding, then why not put the entire buildout on the St. Vincents property which is right next to the freeway and could handle the increase in population. We would like to see all the building be for homeless and low income people - like all the people who commute from Vallejo and Richmond to serve us daily because they can not afford to live in our county. Many other properties in Marin would be more suitable.	Email				x				x		х		х	х		х	
P - 4900 Sir Francis Drake Boulevard (San Geronimo Valley)	I oppose a housing development the 50 acre High School property facing Drake Blvd. in the San Geronimo Valley. 1. West Marin is maxed out on development because of fire concerns, small roads, septic. 2. The proposed development at the west side of whites hill is the headwaters of the Lagunitas creek which is our coho salmon nursery. It's a floodplain and is unsuitable for development. 3. The infrastructure needed for a development would harm our fragile ecosystem. 4.Building would ruin agricultural, rural beauty which is so precious to the San Geronimo Valley. 5. If Marin County decides to do what the State is demanding, then why not put the entire buildout on the St. Vincents property which is right next to the freeway and could handle the increase in population. We would like to see all the building be for homeless and low income people - like all the people who commute from Vallejo and Richmond to serve us daily because they can not afford to live in our county. Or work with the state to move San Quentin out to a more appropriate place for a prison such as barren land in the dessert, and make a beautiful development on the waterfront right next to shops and the ferry and the Richmond Bridge which would be easy access to transportation and would not overburden Sir Francis Drake which is already far too congested. Many other properties in Marin would be more suitable.					х				х	х	х		x	х			
P - 4900 Sir Francis Drake Boulevard (San Geronimo Valley)	I support adding housing in appropriate locations. I do not believe the west side of White's Hill, on Tamalpais School property is appropriate. The area is prone to flooding and is vital for supporting the flow of water in the creeks that are used by salmon. Also, the county plan has been to add housing on the 101 corridor, leaving west Marin rural. As a member of the Valley Emergency Response Team, I am concerned about adding so many more cars on the road, ensuring a bottleneck in the event of an emergency evacuation.	Email									х	х		Х				
P - 4900 Sir Francis Drake Boulevard (San Geronimo Valley)	I support adding housing in appropriate locations. P - 4900 Sir Francis Drake Boulevard (San Geronimo Valley)	I think that the proposed low cost housing sites and sizes and the solution is not thought out! For instance, the 98 homes in Woodacre would create a huge traffic problem and also be inappropriate. The Olema location and proposal would ruin the nature of Olema! And Dennis Rodoni lives in Olema! The west Marin area has been protected for a reason! The nature and small town is the reason that we are all here! I've lived here for 46 years and believe that it would be more appropriate to absorb the housing on properties that are all ready developed and make it attractive for homeowners to build ADUs Please revise the thinking around this important topic of affordable housing!	Email				X				x		х						
P - 4900 Sir Francis Drake Boulevard (San Geronimo Valley)	I'm not sure if this is accurate, but we have heard a site for 98 new homes is being proposed at the base of Whites Hill. We can only hope this is not true as that would be disastrous for the area and environment, and truly spoil the natural surroundings	Email										Х						
P - 4900 Sir Francis Drake Boulevard (San Geronimo Valley)	It has come to my attention, either from neighborly chats or from other sources, there is a potential plan taking shape to add housing to the San Geronimo Valley. Specifically close to 100 houses on the land we refer to as "Flander's Field", where there was once a plan for a high school. That plan didn't materialize, as this valley began to be more declarative and assertive in stating the vision for this area, and guidelines for what is / is not acceptable development. When I moved to the valley 25 years ago, I thought it might be a place to stay for a couple of years. But after understanding this community better, and listening to our elders, I came to understand and appreciate what our environmental advocates have been fighting for and diligently guarding. This is the reason I still live here today. In my home town, I watched as the cherry trees toppied, the apple orchards fell, and the planting fields gave way to urbanization and development. It still breaks my heart whenever I drive through and see the Police Station, Post Office, County Buildings and parking lots where I once played with my friends and frolicked with my dog. I am filled with such gratitude to live here in the San Geronimo Valley, comforted in knowing this place is truly special. Magical. I now take up the fight to preserve our natural beauty and the ecosystems that depend on limits to growth. My neighbor refers to entering the valley as the "Chitty Bang Bang effect", where the wheels of the car roll up under you and you start to float along in the last part of your journey home. Please help us keep this natural beauty as opposed to a Shitty Shitty first impression entering this sacred place. Also, this would impact and devastate what little is left of our natural habitat for spawning salmonI've witnessed and taken part in many debates and county board meetings to force the stoppage of building homes due to this deleterious impact. 98 homes will be a huge battle, but taking a cue from our long term residents, environmental groups, and ou	Email										x						
P - 4900 Sir Francis Drake Boulevard (San Geronimo Valley)	Please don't approve this development! It is way too big and is in a terrible location. It will destroy the beautiful view that every Valley resident welcomes on their return home to the SG Valley. Yes we need some affordable housing, but not on this parcel, and not at market rate. The Sir Francis Drake corridor in San Geronimo should remain rural. This huge development would create a new, unnecessary and unwanted village.	Email								х		х					х	
P - 4900 Sir Francis Drake Boulevard (San Geronimo Valley)	Please don't support the development of 98 units on former Flanders Ranch land in the San Geronimo Valley. This site stands at the gateway to the SGV and the headwaters of the watershed which houses our endangered salmonids. It is an especially sensitive location, both aesthetically and ecologically, and should be protected from all development. Just a couple of years ago, you and the BOS attempted to do a very good thing for Marin County and the SGV by purchasing the golf course, in order to protect it permanently from development and to give endangered salmonid populations a place to recover. Probably, in a few years' time, some public entity—possibly Marin County—will resume the pursuit of these goals when TPL sells the land. If the County allows a new village of several hundred people to be built, with all the ecological disturbance that entails, just a short distance upstream from the salmonid sanctuary, it will jeopardize this important environmental restoration project. I believe the 98 units are envisioned to be targeted to buyers of "above moderate" income. If so, then this suggests that the homes will be too expensive to count as the sort of affordable housing that the voting public sympathizes with. We don't want a SGV that is even more exclusive (economically speaking) than it already is—especially not at the expense of the ecology, aesthetics, etc. Please do all you can to keep the old Flanders Ranch area completely open and agricultural. Thank you very much.	Email										х					х	
P - 4900 Sir Francis Drake Boulevard (San Geronimo Valley)	Please understand that our history and values are not supportive of mass development in the San Geronimo Valley. We value our rural character for aesthetic reasons but equally for safety. We must protect egress for fire primarily. In addition we do not have the infrastructure and resources to support 98 new homes. This ideal would be better served along the 101 corridor. Thank you for consideration of supporting no development of the open fields adjacent to Flander's property.	Email		х						Х		х		Х

P - 4900 Sir Francis Drake Boulevard (San Geronimo Valley)	Remove the high school site from any consideration for housing. It is not supported in our Community Plan (see excerpts below). In addition, this is the critical view shed that every Valley resident experiences and "welcomes" on their return "home" to the San Geronimo Valley as they negotiate the curve, going west, at the bottom of White's Hill leaving the eastern urbanized corridor (where over 90% of Marin residents live), behind. This priceless Valley view encompasses the entire Ottolini/Flanders ranch and the Spirit Rock Meditation Center property from the meadows on the flats, to the uplands and ridge that seems to disappear going west towards the Nicasio pass. High School Site Issues: The development currently proposed would create the equivalent of a "new" village and its location next to SF Drake Blvd. would destroy the Valley's rural character. Increased traffic would overwhelm Drake Blvd. in route to and from the eastern urbanized corridor and 101. The north east section of San Geronimo Creek, which is home to coho salmon and steelhead trout, appears to be in this area. If confirmed, protection of this area could impact proposed development. FYI - Historically, this 50 acre school site was originally owned by the Ottolin/Flanders Ranch family. It was condemned for use of a planned High School part of the '61 Master Plan calling for 20,000 residents and 5000 homes. This '61 Master Plan was scuttled in 1972/73 after the newly elected Board of Supervisors voted to adopt the new County Wide Plan. Subsequently, the BOS began the development of highly successful Community Plans for designated areas in West Marin. At one point, (the '80's I think) the Tamalpais school board considered selling it's 3 unused school sites. Two were in the eastern corridor and one was in the Valley. The board appointed a committee to study the situation and make a recommendation. It was composed of Kate Blickhahn (Drake High School Superintendent), Dale Elliott of Forest Knolls and me. They implemented our recommendation to se	Email				×				×		x						
P - 4900 Sir Francis Drake Boulevard (San Geronimo Valley)	The proposed 98 new houses on the 50 acre parcel in the San Geronimo Valley was just brought to my attention. I am not opposed to more housing, but I am opposed to how and where they will be built i(n a cluster creating a new community as well as changing the landscape as you enter The Valley). There have been other projects in the past that are woven into the existing communities. The low cost neghborhood next to the Trailer park is a fine example. I am assuming that this Federal money is to be used for our lower income population? I have lived in the Valley for 50 years at which time we voted against sewer lines and natural gas in order to keep housing developments from taking place. Will a project this large take that into consideration? I will be sure to be adding my input as this project moves forward. Dennis, as old acquaintance I'm hoping that we can find time to discuss this more, I am no longer 'asleep at the wheel'Thank you for taking my opinion into consideration.	Email		х						х		х			х		х	
P - 4900 Sir Francis Drake Boulevard (San Geronimo Valley)	This is a terrible idea! I can tell you that it will become another problem like Victory Village. You can't just plunk down a totally different community (with different needs and mind-sets) inside another unique community. And what about water !??!?!?!! I do not support 98 houses on the 50 acre High School property facing Drake Blvd. in the San Geronimo Valley. It would destroy our Valley's rural character, the beauty we prize in that view shed and create a new, unnecessary and unwanted village. I support seeking alternative Valley sites to meet our affordable housing obligations	Email								х		х						ĺ
P - 4900 Sir Francis Drake Boulevard (San Geronimo Valley)	This proposal make no sense for multiple valid reasons. Please do what you can to reject it.	Email								х								
P - 4900 Sir Francis Drake Boulevard (San Geronimo Valley)	While I support adding housing in WMarin, I believe the White Hill location is not appropriate for the reasons below: This clearly goes against our Community Plan. It is an area prone to flooding As a result of the above, it interferes with the watershed that provides the creeks that support the endangers steelhead. It will place untold stress on an already precarious road evacuation during wildfire season. the Valley is already under major stress with failing septics, with no help on the horizon as has been blocked by the Planning Group. The Valley and it's homeowners are about to be handcuffed by the new stream side ordinances, making repairs and maintenance near impossible, so the added burden of 68 homes is such a double standard. The rural character of the Valley will be visually destroyed. I am curious why this information has been held from the public and the very short window of public comment which further punctuates your desertion, the same way you mid-handled the Golf Course debacle. Please respond with a confirmation of my very strong objection to this location.	Email								x	x	x						
R1 - 5800 Sir Francis Drake Boulevard (San Geronimo Valley)	(Comment edited for length) Please find attached the San Geronimo Valley Planning Group's response to the proposed Housing Element update. Background: The San Geronimo Valley Planning Group was formed in 1972 to help elect Gary Giacomini to the Board of Supervisors in order to gain the critical third vote necessary to kill the 1981 Countywide Master Plan, which had envisioned 5,000 new homes and 20,000 additional residents for the San Geronimo Valley alone. While the plan was updated in 1982 and 1997, its central premise has never changed: preserving our Valley's rural character and protecting our natural environment. This commitment - along with that of many other community members - also helped permanenently preserve more than 2,300 acres of open space in our beloved Valley. We have been trying to apprehend the efforts of Marin County to meet the state- mandated "housing elements" through the rezoning of existing parcels. We are very concerned that few Valley residents are aware of the potential impact of this housing mandate on our community and that the Planning Group adamantly opposes the proposed, potential locations within our community identified below. High school property - We are alarmed by Candidate Housing Site P, the proposal to build 98 above-moderate-income units through rezoning the high school property next to the Ottolini/Flanders' Ranch at the bottom of White's Hill on Sir Francis Drake Blvd. Our Community Plan clearly spells out that the use of this property should remain as agriculture or open space; the high school district agreed. Our reasons are numerous. 1. It would be a visual blight, destroying not only the aesthetics of the entrance to our Valley but also jamming suburbia into the inland rural corridor. 2. It would be a dangerous location, creating a separate enclave with an entrance of a very busy highway, and removing one of the few places where traffic can safely pass slower traffic. 3. Because this property is not within the boundaries of any of our four villages, it would destr				×	x	х			х		х					x	
R1 - 5800 Sir Francis Drake Boulevard (San Geronimo Valley)	1: can we use the Lagunitas school parcel that is before the Spirit Rock parcel? 2: If Spirit Rock is built on can it be hidden from road? 3: The visual view when you enter the Valley is gorgeous and should be maintained. 4: Lagunitas school campus has lots of unused space. R1 - 5800 Sir Francis Drake Boulevard (San Geronimo Valley)	I could not access the Balancing Site work area so I am submitting these comments here. SGV is am amazing place to be due to low development. I have had the benefit of living here 25 years. What is being proposed in both of the areas of the School property and at the Gold Course are for higher end homes. Higher end homes are not a help for our community. We need homes for families with kids, We need Senior housing. We don't need another 127 above moderate income homes. Have some vision. Create a place with a grocery store, deli, and place for people to meet. Create Senior housing. Have ability to share vehicles. This area could become a hub for our community to use and support. It is also a sensitive environmental area. It used to be where water would spread out when it rained and slowly sink into the ground providing water all year round for the fish. More concrete and asphalt = more runoff. This vision of 98 separate high end homes here is not fitting to the rural area of our valley. It is just going to bring in more people who want a rural lifestyle from other areas and NOT give our locals homes. Every day, people, and families are looking for homes. Renters are being pushed out. It is unaffordable to live here. Solve the problem we have now, housing for our locals. Not bring more people here. Also, the place being considered at 6900 Sir Francis Drake is a privately owned place. Owned by a family that owns quite a bit of property in the Valley as it is. I certainly hope public monies are not going to rehab this property.	Email								х		x					х	
R1 - 5800 Sir Francis Drake Boulevard (San Geronimo Valley)	I just want to add my voice to ask you not to support the new San Geronimo housing being considered. The environmental and infrastructure impact will be horrible!	Email		х								х						
R10 - 200 San Pedro Road (Santa Venetia)	Hello and thank you for the opportunity to comment regarding Future Housing Sites in Marin County. I attended the local Housing meeting regarding Santa Venetia and Los Ranchitos on February 15th and live in the Santa Venetia area. Here are my comments from a Santa Venetia resident perspective: 1. The process, while advised by the Marin County Planning Department, is being run by a consulting agency that is not familiar with Marin County and the local areas & neighborhoods. 2. The number of assigned housing units to Santa Venetia, 422, ignores the following. Before housing site numbers are assigned and accepted, a "CEQA-lite" analysis should be performed to determine if the numbers and locations are practical from a CEQA perspective. We heard these concerns brushed off with the response that if any development is going to be done, a full CEQA would be completed before development could/would proceed. This would be an "after-the-fact" process, with the fact that the housing numbers and sites have already been assigned and accepted, and would be too late to be influential in the development process. a. There is only one practical vehicle road out of Santa Venetia to the freeway that is already heavily impacted by three schools, the one at the JCC, the Marin School, and Venetia Valley school, and a large pre-school. Traffic in & out of Santa Venetia is also already heavily impacted by the JCC, the Civic Center traffic, the Marin Lagoon traffic, the Veterans Memorial traffic, the Marin Lagoon Housing and the commercial enterprises along McInnis Parkway. b. Some of the sites selected are in wetlands areas, such as the McPhail school site next to North San Pedro Road. c. some of the sites selected are next to the Bay and subject to special development restrictions, such as the McPhail school site. d. The total number of housing units assigned to Marin County, and not just to the unincorporated areas, does not take into account the water needs. And we, Marin County as serviced by MMWD, are in the middle of a water shor	Email				x				x				x	х			
R10 - 200 San Pedro Road (Santa Venetia)	Here in Santa Venetia, we are living with water shortages, traffic congestion, and our community's evacuation route was named the most dangerous in Marin and yet huge additional numbers of housing are proposed for this flood prone neighborhood. That's insane! We are not fooled by claims that these new residents won't drive everywhere. They will. We already know that every person of driving age in our neighborhood not only drives but owns a car, or truck. They line our streets, further restricting access routes. There are sites where housing can happen like at Northgate Mall, but not in our overcrowded flood zone.	Email				х				x	х			x				
R10 - 200 San Pedro Road (Santa Venetia)	lam a longtime resident of Santa Venetia in unincorporated Marin County, and a member of the Santa Venetia Neighborhood Association (SVNA). I, along with many of my neighbors, attended the February 15 Zoom meeting on the Housing Element initiative, which seems detached from the reality of worsening climate change. Much of Santa Venetia exists in a flood plain; other parts are in the WUI. With only a single one-lane route in and out of the neighborhood — North San Pedro Road — our existing infrastructure is already stretched to the breaking point with daily traffic congestion restricting both egress and ingress. We currently have fewer than 1800 residences in Santa Venetia eventually experiments of approximately 25%. Adding a fraction of 422 units to Santa Venetia would greatly compromise the safety of its residents, in addition to degrading quality of life. Many of our homes were built in the WUI. We are at constant risk of wildfire, with unstable hillsides that in recent years have collapsed onto North San Pedro Road. Like all of our Marin neighbors, we are constrained by drought. Here in Santa Venetia, our water supply comes from tanks that are sited in the WUI. Supplanting CEQA review in the drive to create multi-million-dollar homes puts our cultural as well as our natural environment at risk. For example, Oxford Valley, a known site of native tribal artifacts such as shell mounds, has been designated for 45 "above moderate income" units. Bypassing CEQA would eliminate the protection of cultural resources here and in other areas of Santa Venetia and Marin that have not yet been surveyed and would be lost forever. Our neighborhood is known to be at sever risk of flooding. The SVNA is currently participating in a collaboration between the California Dept of Parks and Rec, The County of Marin, and The SF Bay NERR to "Identify and Evaluate Sea Level Rise Adaptation Options to Solve Road Flooding in China Camp State Park." The project recently received a \$525k grant to address the critical issue of flooding in t	Email		×		×				x	×	×	x	×	x			
R10 - 200 San Pedro Road (Santa Venetia)	I am against the proposed units on North San Pedro Road. This proposed project is completely unsustainable and not researched for undesirable living situations. There are many factors that indicate this would not be a good site to build. Factors such as flood control, sea rising at a rate we can expect in the coming years, congestion, removal of a ball park and mostly there are no services to support this project. Well thought out projects include parks, services, bike paths, sidewalks and a reasonable egress in case of fire. North San Pedro Road is all ready congested due to a large school and many churches on this road. Another road to San Rafael is available to Point San Pedro Road however this road is falling due to floods in the winter and very evident sink holes that are not being addressed. More traffic would of course erode the roads further and in the past have had slides on this road particularly after recent tree removal has increased the likely occurance. R10 - 200 San Pedro Road (Santa Venetia)	I attended the zoom meeting a few nights ago. I share the concern of some of my neighbors, well articulated by Gina Hagen. While I totally support affordable housing (so question if this will be "affordable" for working class people), I think we already have too many high density buildings on San Pedro Road, Joc, school, rest homes, elder affordable housing, civic center etc So I would support maybe 25 more units or something manageable, but hundreds seems like asking for trouble in an emergency. I live on Labrea way and I am glad we have housing for families, down the street, but a common problem is the amount of cars and high occupancy of some of the apartments. The overflow of cars goes all the way to Rosal, and currently I have had cars parked in front of my house for a month and more. It is not a significant problem in my case, but my neighbor who has teenagers with cars, is having to struggle to park their own cars, while the overflow is from housing two blocks away. Obviously San Rafael is a good place for more housing and i would think a place closer to the freeway like Marin Square could be used for extra units of housing. I also would personally like to build an accessory unit in my front yard for a student, teacher, medical professional, at affordable rate. It would be nice to have a department in Marin county who could help seniors like myself design, get permits, and loans to afford to create such units. I myself was a renter in Marin for 36 years and lived in in-law apartments. I found it much more private and a win/win solution for the owner, typically older retired person, and myself as young professional. I was excited about an organization called Lily Pads and attended a meeting but found out later the owner was no longer providing services. So this would be a great thing to promote. Thank you for including us in your work. Hope we can have more affordable housing, while preserving the safety of our neighborhoods.	Email					x			x							x	
R10 - 200 San Pedro Road (Santa Venetia)	I served on the Santa Venetia Community Plan (SVCP) Committee for almost 10 years, including working with County Staff the last 4 years, until its final adoption in 2017. This process included a thorough survey of our neighbors who commented on every empty parcel and open space for future development (and in fact Godbe told us the response was overwhelming with a higher than normal percentage of participation). Our SVCP Committee Members represented every comer of Santa Venetia. We held community meetings (that were well-attended) so all residents had a chance to voice their opinions and ideas. No one knows Santa Venetia better than Santa Venetians. The plan was supposed to cover everything of interest to ensure a diverse, family-oriented, and happy community for years to come. Adding 442 units is simply untenable for a small, working-class hamlet such as Santa Venetia. The last two open spaces (two ball fields) are slated for high density housing. This is totally uncharacteristic of the surrounding neighbors who live in small, single-family housing. In the February 15th Housing Element Zoom call, with County Staff and Contractors from who knows where?, we were informed that our Community Plan would need to be updated. Who would do this work? When and how soon would these updates happen? How can the County randomly update our Community Plans that we spent so many resources on. SB-9 and SB-10 are a complete contradiction to our Community Plan that we dedicated years of work and volunteer hours to finally see its adoption. These past summers, we've stayed inside due to smoke and/or triple-digit weather. We used a bucket from our shower to water our indoor and deck plants while our yard withered and died due to restrictions and requirements in place from Marin Water. We worked out evacuation routes to lader residents to becaye danger due to our one road in and out of Santa Venetia. I heard chain saws, chippers, and weed whackers almost every day, regardless of the high, fire-danger days. This is due to San Rafa	Email									×			x	×			
R10 - 200 San Pedro Road (Santa Venetia)	I will reiterate the comments I made at the February 15 Housing Element meeting I've lived in SV for over 30 years. I've served on the Santa Venetia Neighborhood Association Board of Directors for almost 30 years. Through our neighborhood association, The Santa Venetia Neighborhood Association (SVNA), we try to get the word out so that our residents are aware of upcoming projects and opportunity to comment. We've heard from Santa Venetia residents that they want to protect our quality of life. We are already concerned about the constant fire danger, flooding, Sea Level Rise, ingress and egress, and unsafe evacuation routes. Climate change is a huge concern for us and as well, we have run out of water in Marin County and are under strict mandates, so I can't understand how adding more and more housing units will help. And to restate, 422 units in SV is an increase of almost 25% of the 1,700-1,800 units we currently had, at last count. It's a very shocking number of additional units for us. I grew up in San Rafael. I hate what they've done to the City and have been constantly disappointed with the building choices and what they have given up. I don't want to see that happening in Santa Venetia — more congestion and loss of our green spaces. Affordable housing sounds great on paper, but we never seem to get that promise fulfilled. I've followed projects in San Rafael and for almost every project, the promise is a huge amount of housing with a small portion designated affordable and then after the project passes through the hurdles, the affordable-housing number is adjusted always downward. I remember previously rules were passed to keep up with the demand of affordable housing, but the goalposts seem to constantly change and that number is lowered. What is the promise that won't happen with this process? Also, I heard them say at that meeting, they were giving schools and churches more flexibility by allowing them to build on parking lots? If that is the case, where will people park? They've already lowered	Email								x	×	x		x	×		x

R10 - 200 San Pedro Road (Santa Venetia)	Re: Marin County Housing and Safety Elements Update, 2023 – 2031. The Santa Venetia Neighborhood Association (SVNA) is an organization representing the interests of 1,700 – 1,800 households (4,474 residents per the 2019 census figures) who live in Santa Venetia. As an organization, we are dedicated to the enhancement and preservation of the character and quality of life of the Santa Venetia neighborhood. We do our best to represent our community and have an established reputation to be a voice for proper development. And in accordance with our mission statement, we, the Board Members of the SVNA, feel compelled to comment on this issue. We want to ensure that the Marin County Board of Supervisors receives an accurate impression from our community regarding the updated Housing Element and are writing today to summarize feedback we have heard from many of our members. Many residents of Santa Venetia, including members of the SVNA, attended the February 15 Zoom meeting where consultants representing the interests of the housing element initiative presented online tools for community feedback. We find these tools inadequate; rather nacerving an open platform for the BOS to receive realistic community input, they seem designed to provide information to housing element staff as to where to add more housing. The Housing Element recommends 422 additional units for Santa Venetia. There are currently fewer than 1,800 residences in Santa Venetia, so this represents an increase of approximately 25%— far more growth than the neighborhood has seen for at least two decades. This mandate seems utterly siloed from the worsening reality of global warming and climate change, (the existence of which was recognized both in the Countywide Plan and by the Marin County Civil Grand Jury) which is leading to catastrophic weather events such as fires and flooding. The upland parts of Santa Venetia and tirrectly threatened by flooding are part of the Wildland Urban Interface (WUI) and are subject to year-round fire danger. Like all of Mar	Email				x				x	х			x	x		x	
R13 - 26600 State Route 1 (Tomales)	I would like to suggest an alternative site to the one listed on the east side of Hwy 1 and 1st Street in Tomales. After living in Tomales very close to 30 years, I feel the intersection there is already quite impacted due to school traffic approaching both elementary and high school, the district office traffic, our downtown businesses including bakery, deli, and general store and much weekend tourist traffic mistaking their way to Dillon Beach. I feel one or more of the sites at old high school, or further north of "hub" of town would be more suitable and would not add to the current congestion.	Email				х												
R15 -12785 Sir Francis Drake Boulevard (Inverness)	The proposed development and locations designated for housing in unincorporated West Marin is ill-conceived and inappropriate. This appears to be a numbers game on the part of the County and outside, contracted MIG development agency. The plan lacks consideration for or understanding of natural resources, environmental hazards and the existing community. Communities around Tomales Bay are watershed areas with drainage into the vulnerable bay, creeks and streams, the salt marshes and wildlife habitats. The site near Vladimir's restaurant, across from Dixon Marine, is directly across from Tomales Bay and almost at sea level. This area and the road can flood during a high tide or heavy rain, draining pollution into the bay. Also the proposed building would affect the small downtown of Inverness. West Marin is served by narrow, curving, two lane access roads. For Inverness there is only one road, in or out, a problem during flooding, fires, landslides and general overcrowding on weekends and holidays. These roads frequently need repair when lanes crumble into a creek, hillside or the bay. No freeways please, as was proposed in the 60s. I have lived in Inverness since the 70s. As a single working mother, a teacher, I raised my daughter in Inverness. Over the years I have seen families and friends move away as rentals, cottages and small units were converted to more lucrative Airbnbs and second homes. There are 4 houses around me with 2 units in each. Two are completely unoccupied. Two are rarely used by their absentee owners, leaving each second unit vacant. There are many houses like this in Inverness and far too many BnBs and other short term rentals. An absentee owner might purchase a house, spend an exorbitant amount of money improving it for short term rental or investment. Possible housing is currently available. West Marin already has serious problems related to climate change, as well as overcrowding, road congestion air and noise pollution from cars, sewage and, most obviously, water. Inverness is served by	Email				x					×	×		×	x

R18 - 375 Shoreline Highway (Tamalpais)	(Comment edited for length) Sustainable TamAlmonte has the following comments and recommendations regarding the merits of the above referenced Tam Valley, Almonte, and Manzanita Candidate Housing Sites listed in the 2023-2031 Housing Element DRAFT Candidate Housing Sites List. Due to the unique characteristics of the area, encouraging residential development, especially high-density development, at the above referenced Sites would increase the risk of undue harm to the environment and undue hardship, illness, injury and/or death to the current and future residents. The Tam Valley, Almonte, and Manzanita commercial lowlands, in which the above referenced sites are located, experience the most number of environmental constraints and hazards of any area in Unincorporated Marin. Both the Marin Countywide Plan's EIR and the 2012 Housing Element's SEIR demonstrate that development at these sites would exacerbate the existing dangerous conditions and add new significant adverse environmental impacts (which) magnifies the probability that a tragedy would ensue and the multiple mitigations that a developer would need to fulfill would cause development costs to soar. These factors make the sites unsuitable for affordable housing. The only acceptable course of action is to eliminate the sites from the inventory. Below is a list of the unique natural features, hazards, and limited resources in the Tam Valley, Almonte, and Manzanita lowlands that constrain development and population growth and substantiate our argument. For a quick overview of these constraints, please view the attached table. I. Dangerous Traffic with Unacceptable Level Of Service – LOS "F" Of Local Roadways:. II. Flooding, 100 Year Floodplain, Impending Sea Level Rise III. Filled Marsh Areas With High Seismic Activity, Liquefaction, Subsidence and Mud Displacement. IV. Air Quality & Noise: Increased Risk of Residents Developing Serious lilness Due to Living Near Major Roadways. V. Hazardous Materials: For additional information regarding potential health	Email (See Email Comments Received.PDF, pp. 123-151)	x	x	x	x		x		x	x	x	x	x	x	×

R18 - 375 Shoreline Highway (Tamalpais)	(Comment edited for length) The Tam Design Review Board is charged with focusing on and supporting the provisions of the Tamalpais Area Community Plan (TACP). In addition to laying out a description of the appropriate character of the community, this plan clearly sets forth constraints specifying that environmental hazards must be taken into account in the site selection process. Indeed, this is also crucial for the viability of the adoption of the Housing Element itself. According to step #7 of the Housing Element's Site Identification Process: "Provide in the analysis a general description of any known environmental or other features (e.g., presence of floodplains, protected weltands, oak tree preserves, very high fire hazard severity zones) that have the potential to impact the development viability of the identified sites" p. 10. The TACP "places a strong emphasis on protecting the public safety and preserving the natural resources of the community, while still permitting individual property owners to realize reasonable development potentials" (pg. 1-3). This balance is more critical today than it was in 1992 when the plan was written, with the risk of chronic flooding, impending sea level rise, and fire in the wildland-urban interface presenting an ever-greater peril to our neighborhoods. Tam Valley, Almonte, Homestead Valley, and Muir Woods Park are already viable and diverse neighborhoods, containing a range of housing from high-end single family residences to affordable apartments. Maintaining this diversity has long been a goal of the community, as expressed in Section I-C of the TACP. Added mixed use development in the Tam Junction area could, with proper planning and infrastructure update, provide needed housing which would have a minimal negative impact and enhance the community. The Housing Element should take a closer look at the potential for rezoning to achieve its goals. For those of lesser week and enhances the community. The Housing blement should take a closer look at the potential for re	Email (See Email Comments Received PDF, pp. 228-231)				x					x	x		×			x	
R18 - 375 Shoreline Highway (Tamalpais)	ATTACHMENT from Tam Design Review Board: Suggested Additional Policies to be Included in the Housing Element: 1. Wildfire Risk: Use mathematical modeling to investigate and predict wildfire risk. Prohibit the building of housing (even ADUs) in fire critical areas. 2. Flood Risk: Prohibit new housing in areas at risk of flooding from storm surge or sea level rise. 3. Bothin Marsh: Require all new development adjacent to Bothin Marsh to supplement and follow the policies that are designed to preserve the marsh. Given the County's recent efforts to restore and preserve the marsh, it makes no sense to select a site adjacent to the marsh for any form of dense development. 4. Evacuations: Require that new housing development along Shoreline Highway trigger a study and redesign of the traffic patherns to ensure that any new housing development in that area will not worsen traffic or increase the threat to life safety during an evacuation. Any assessment of traffic impacts of emergency evacuation should include new housing developments in the City of Mill Valley, as Shoreline Highway is the only exit should East Blithedale become blocked. 5. Short Term Rentals: Eliminate short-term rentals completely, or allow only on-site, owner-occupied properties to have short-term rentals. If someone does not live on-site, then the property is arguably an investment property only, and any claim of the need for that short-term rental income can be disregarded. This would enable ADUs to be counted toward the Housing Element numbers (see item #10). 6 Vacancies: Create a County mandated vacancy tax (as San Francisco is presently considering to create disincentives for leaving housing units empty. Exemptions could be made for work from home or dwellings under a certain square footage if the homeowner works from home or needs the space for their own dwelling use. This has been documented to establish new housing units any particular to even the foreign properties (which drives up housing costs) and land banking (which is performed to dri	Email				x					x	х		x			x	
R18 - 375 Shoreline Highway (Tamalpais)	I am writing to endorse the attached letter from Sustainable TamAlmonte to the Marin County Board of Supervisors and Planning Commission regarding the merits of the proposed Tam Valley, Almonte, and Manzanita Candidate Housing Sites listed in the 2023-2031 Marin County Housing Element DRAFT Candidate Housing Sites List. The need for housing our homeless is desperate but building residential space at Tam Junction is just NOT logical. The idea of building along Shoreling/ Highway 1 is very questionable. It is already a populated area with minimal sidewalks and access to needed resources. Thank you for your consideration of the attached letter	Email	х	х	х	х		х		х	х	х	х	х	х	х

R18 - 375 Shoreline Highway (Tamalpais)	We are writing in regard to the sites chosen for possible inclusion into county plans for housing in the Almonte/Tam Valley area of the county. Of the eight sites mentioned in your Balancing Act scenario, five are in a serious flood zone and one is located, not on, but in Richardson's Bay. Your commentary regarding the avoidance of environmental hazards has been completely ignored by whatever staff was used to choose these sites. The properties in the flood zone are 160 Shoreline, ascenser's parcel # 052-041-27, 217 Shoreline, 223 Shoreline, and 204 Flamingod. He site which is actually in the bay is 260 Redwood Hwy. Oddly enough, there is one property across the road from 160 Shoreline which is on solid ground. That would be the Muir Woods Lodge, a motel which actually has some open space which could be used for more housing. Why was this property ignored when lesser properties were chosen? Considering that we are familiar with the sites in the Almonte/Tam Valley area but not the rest of the county, it seems very strange that your staff has chosen properties which flood now and will continue to flood even more in the future. We wonder about your motivation in focusing on dangerous and inappropriate land. We also wonder why your staff has chosen properties which are pretty much lumped together in the same area which will further exacerbate the level F traffic problems which occur for us every day. If these sites were chosen to be close to public transportation, we would remind you that there is no viable public transportation in our area. So we would be looking forward to much more daily auto traffic. We are extremely disappointed in the Balancing Act which appears to be a distraction and of no practical value. We wonder how much time and money was wasted on promoting this ridiculous game. We also wonder how many sites in the rest of the county are totally inappropriate but are being promoted as a way to choose our fate which, as you know, is not the case. Surely, the Board of Supervisors can do better than prom	Email				x		×			x							
R18 - 375 Shoreline Highway (Tamalpais)	We oppose new housing in the areas mentioned in Tam Junction due to flooding and traffic and possible fires, can't get out of here now. Tell Scott Wiener and his friends to move on.	Email				х					х			х				
R18 - 375 Shoreline Highway (Tamalpais)	Yesterday afternoon, I had the pleasure of speaking with Ms. Clark about the wisdom (actually, the lack of it) in the choice of potential sites around Tam Junction. Last night, I participated in the "roadshow" and, as a result, I am asking for your help in following up on one matter. During the presentation by Jose Rodríguez, he mentioned that one of the "Guiding Principles" for the BOS is the consideration of "environmental hazards". It doesn't take long to recognize the hazards of sea level rise, a long history of flooding and traffic in our neighborhood, among others. But, in addition, Mr. Rodriguez made an interesting rejoinder to a question about whether certain sites can be included in this study if such sites have been previously reviewed and rejected. He was not too clear but he suggested that the State of California has some "requirements" if a previously rejected site is again brought up for analysis. I asked him to specify (1) which of the four Tam Valley sites have already been considered and rejected, and (2) what are the state's requirements (if any)-that are different or additional—that would apply to such sites. He did not have the information available to answer either question and it didn't appear to me that there would be much of an effort to research those questions and disseminate the answers. Hence, this email. Do you know the answers? If not, would you please put in motion an effort to discover the answers? It may not be dispositive, but then again, it may be important. R2 - North Knoll Road and St. Thomas Drive (Strawberry)	I am writing to request that Strawberry site R2 be removed from potential sites for high density housing. This site is not appropriate for high density housing. The Eagle Rock neighborhood already has traffic problems, and adding units will exacerbate those issues. This particular site is in an inaccessible extreme slope. Adding high density housing to this site will also destroy the family neighborhood surrounded by open space. Please consider repurposing more urban locations instead of paving over natural landscape.	Email				х						х						
R2 - North Knoll Road and St. Thomas Drive (Strawberry)	I live on Eagle Rock Rd. It is already congested. Traffic conditions on Tiburon Blvd at most times make it difficult to enter the Eagle Rock area. At the proposed location there is a 4 way intersection, providing access to a gas station, a multi tenant commercial building, access to N. Knoll with section 8 housing (which is very busy) and the residents and providers to my neighbors and me. The proposed site is on a steep inlistide making it difficult to build. There is a bus stop at the base where N. Knoll empties onto Tiburon Blvd. This may be good for your concerns, but every day there are cars parked on lower Eagle Rock Rd. using free parking to access the bus service, many use it for longer term parking when traveling out of the area. Building more units on your proposed site will increase street parking. It always does. Your proposal will increase foot traffic crossing 4 lane Tiburon Blvd. We see pedestrians, daily, risking their lives crossing to go to Strawberry Shopping Center. Sure, there is a pedestrian crossing lane, but with the traffic they are not always visible to drivers. It's a scary operation trying to cross. The traffic entering onto Tiburon Blvd. from Hwy 101 is already congested. Then add the traffic coming up from Strawberry Shopping Center. Certain times of the day you already have to wait for more than one light to get through. It seems that California fire seasons are getting longer and more intense. We could have a real discussion on that, but that is the reality today. We are located down hill from large open spaces. Our evacuation points are in Strawberry and with massive traffic also evacuating from points toward Tiburon, it could be a real disaster. Development on this plot is not a good idea. R2 - North Knoll Road and St. Thomas Drive (Strawberry)	The access to the Eagle Rock Road area is already very difficult. The narrow street, especially on the lower exit side, is concerning should there be more development in the area. All it takes is one truck to completely block the exit path from this area. I am already concerned about getting out safely should a fire happen in this area which has high fire potential. With the steep hill median strip (that is constantly slipping in rain storms) there is nowhere to widen the road. These steep hillsides are not a good location for additional housing, especially multi-tenant housing. The current traffic backing up at the Tiburon Blvd/Blithedale exit is already a problem. Additional traffic at this location is not a good idea. Please remove sites R2 and R7.	Email				х				х				Х

R20 - 260 Redwood Highway Frontage Road (Almonte)	(Comment edited for length) Sustainable TamAlmonte has the following comments and recommendations regarding the merits of the above referenced Tam Valley, Almonte, and Manzanita Candidate Housing Sites listed in the 2023-2031 Housing Element DRAFT Candidate Housing Sites List. Due to the unique characteristics of the area, encouraging residential development, especially high-density development, at the above referenced Sites would increase the risk of undue harm to the environment and undue hardship, illness, injury and/or death to the current and future residents. The Tam Valley, Almonte, and Manzanita commercial lowlands, in which the above referenced sites are located, experience the most number of environmental constraints and hazards of any area in Unincorporated Marin. Both the Marin Countywide Plan's EIR and the 2012 Housing Element's SEIR demonstrate that development at these sites would ensue and the multiple mitigations that a developer would need to fulfill would cause development costs to soar. These factors make the sites unsuitable for affordable housing. The only acceptable course of action is to eliminate the sites from the inventory. Below is a list of the unique natural features, hazards, and limited resources in the Tam Valley, Almonte, and Manzanita lowlands that constrain development and population growth and substantiate our argument. For a quick overview of these constraints, please view the attached table. I. Dangerous Traffic with Unacceptable Level Of Service – LOS "F" Of Local Roadways.: II. N. ir Quality & Noise: Increased Risk of Residents Developing Serious Illness Due to Living Near Major Roadways. V. Hazardous Materials: For additional information regarding potential health impacts to workers and future residents who may be exposed to hazardous soil conditions, related to past uses, in Tam Junction and Manzanita, please follow the below link to read the comment letter by Technical Expert Matt Hagemann. R20 - 260 Redwood Highway Frontage Road (Almonte)	[Comment edited for length) The Tam Design Review Board is charged with focusing on and supporting the provisions of the Tamalpais Area Community (TACP). In addition to laying out a description of the appropriate character of the community, this plan clearly sets forth constraints specifying that environmental hazards must be taken into account in the site selection process. Indeed, this is also crucial for the viability of the adoption of the Housing Element itself. According to step #7 of the Housing Element's Site Identification Process: "Provide in the analysis a general description of any known environmental or other features (e.g., presence of floodplains, protected wetlands, oak tree preserves, very high fire hazard severity zones) that have the potential to impact the development viability of the identified sites" p. 10. The TACP "places a strong emphasis on protecting the public safety and preserving the natural resources of the community, while still permitting individual property owners to realize reasonable development potentials" (pg. 1-3). This balance is more critical today than it was in 1992 when the plan was written, with the risk of chronic flooding, impending sea level rise, and fire in the wildland-urban interface presenting an ever- greater peril to our neighborhoods. Tam Valley, Almonte, Homestead Valley, and Muir Woods Park are already viable and diverse neighborhoods, containing a range of housing from high-end single family residences to affordable apartments. Maintaining this diversity has long been a goal of the community, as expressed in Section I-C of the TACP. Added mixed use development in the Tam Junction area could, with proper planning and infrastructure update, provide needed housing which would have a minimal negative impact and enhance the community. The Housing Element should take a closer look at the potential for rezoning to achieve its goals. For those of lesser wealth to have access to the amenties available in the Tam Area, in particular good schools and proximity	Email (See Email Comments Received.PDF pp. 228-231)				x					x	x		x			x

R20 - 260 Redwood Highway Frontage Road (Almonte)	ATTACHMENT from Tam Design Review Board: Suggested Additional Policies to be Included in the Housing Element: 1. Wildfire Risk: Use mathematical modeling to investigate and predict wildfire risk. Prohibit the building of housing (even ADUs) in fire critical areas. 2. Flood Risk: Prohibit new housing in areas at risk of flooding from storm surge or sea level rise. 3. Bothin Marsh: Require all new development adjacent to Bothin Marsh to supplement and follow the policies that are designed to preserve the marsh. (if when the Country's recent efforts to restore and preserve the marsh, it makes no sense to select a site adjacent to the marsh for any form of dense development. 4. Evacuations: Require that new housing development along Shoreline Highway trigger a study and redesign of the traffic patterns to ensure that any new housing development in that area will not worsen traffic or increase the threat to life safety during an evacuation. Any assessment of traffic impacts of emergency evacuation should include new housing developments in the City of Mill Valley, as Shoreline Highway is the only exit should East Blithedale become blocked. 5. Short Term Rentals: Eliminate short-term rentals completely, or allow only on-site, owner-occupied properties to have short-term rentals. If someone does not live on-site, then the properties to have short-term rentals income can be disregarded. This would enable ADUs to be counted toward the Housing Element numbers (see item #10). 6. Vacancies: Create a County mandated vacancy tax (as San Francisco is presently considering) to create disincentives for leaving housing units empty. Exemptions could be made for work from home or dwellings under a certain square footage if the homeowner works from home or needs the space for their own dwelling use. This has been documented to establish new housing units and therefore could be counted toward the housing numbers. 7. Speculative Investment: Eliminate corporate ownership of housing of up to 4 units. This will stop speculative vore-bid	Email				x					×	х		x			x

R21 - 204 Flamingo Road (Tamalpais)	such emergencies. Softenine riginway in 1 and valley is where most or in the propose nousing sites to our area area to a complete standstill and result in property damage and human fatalities. We further note that steadily increasing traffic impacts on Shoreline Highway from tourism continue to aggravate all these challenging conditions. While we appliand the careful consideration of available sites by MIG, as community volunteers appointed to research and uphold the values of the Tam Plan, we cannot in good conscience support the choice of the sites within our area without: 1) A detailed study of future traffic and its impacts on evacuation through Tam Junction and the Highway 101 on-ramp; 2) A careful analysis of the impact of new, medium or high-density housing on the Bothin Marsh and the risks of chronic flooding; 3) Development of a plan for Highway 1 at Manzanita and along Shoreline Highway to accommodate imminent sea level rise; and 4) Assurances that, if there is no way to avoid selecting housing sites in the Tam Plan area for development, the resulting housing will be protected from speculative investors and the potential to remove these future developments from the long-term rental market. The Tamalpais Area is so vulnerable to climate change disasters that, frankly, unless the housing built has a direct impact on resolving the housing crisis and addressing those most in need, new development will only intensify the crises of both climate risks and affordability. We understand the mandates from the State require you to make some challenging choices in selecting housing sites. In addition to placing questions of safety and environmental stewardship at the top of your agenda, we would like to suggest that you include in the current update of the Countywide Plan some further policies that will help guide County planning in the face of both State mandates and, if and when these mandates are modified, the undesirable results that might emerge. Please see the attached detailed list of policies	Email (See Email Comments Received.PDF, pp. 228-231)				x					×	×		x			×

R21 - 204 Flamingo Road (Tamalpais)	We are writing in regard to the sites chosen for possible inclusion into county plans for housing in the Almonte/Tam Valley area of the county. Of the eight sites mentioned in your Balancing Act scenario, five are in a serious flood zone and one is located, not on, but in Richardson's Bay. Your commentary regarding the avoidance of environmental hazards has been completely ignored by whatever staff was used to choose these sites. The properties in the flood zone are 160 Shoreline, assessor's parcel # 052-041-27, 217 Shoreline, 223 Shoreline, and 204 Flamingo Rd. he site which is actually in the bay is 260 Redwood Hwy. Oddly enough, there is one property across the road from 160 Shoreline which is on solid ground. That would be the Muir Woods Lodge, a motel which actually has some open space which could be used for more housing. Why was this property ignored when lesser properties were chosen? Considering that we are familiar with the sites in the Almonte/Tam Valley area but not the rest of the county, it seems very strange that your staff has chosen properties which flood now and will continue to flood even more in the future. We wonder about your motivation in focusing on dangerous and inappropriate land. We also wonder why your staff has chosen properties which are pretty much lumped together in the same area which will further exacerbate the level F traffic problems which occur for us every day. If these sites were chosen to be close to public transportation, we would remind you that there is no viable public transportation in our area. So we would be looking forward to much more daily auto traffic. We are extremely disappointed in the Balancing Act which appears to be a distraction and of no practical value. We wonder how much time and money was wasted on promoting this ridiculous game. We also wonder how many sites in the rest of the county are totally inappropriate but are being promoted as a way to choose our fate which, as you know, is not the case. Surely, the Board of Supervisors can do better than pr	Email				x		×			×

R21 - 204 Flamingo Road (Tamalpais)	Yesterday afternoon, I had the pleasure of speaking with Ms. Clark about the wisdom (actually, the lack of it) in the choice of potential sites around Tam Junction. Last night, I participated in the "roadshow" and, as a result, I am asking for your help in following up on one matter. During the presentation by Jose Rodriguez, he mentioned that one of the "Guiding Principles" for the BOS is the consideration of "environmental hazards". It doesn't take long to recognize the hazards of sea level rise, a long history of flooding and traffic in our neighborhood, among others. But, in addition, Mr. Rodriguez made an interesting rejoinder to a question about whether certain sites can be included in this study if such sites have been previously reviewed and rejected. He was not too clear but he suggested that the State of California has some "requirements" if a previously rejected site is again brought up for analysis. I asked him to specify (1) which of the four Tam Valley sites have already been considered and rejected, and (2) what are the state's requirements (if any)—that are different or additional—that would apply to such sites. He did not have the information available to answer either question and it didn't appear to me that there would be much of an effort to research those questions and disseminate the answers. Hence, this email. Do you know the answers? If not, would you please put in motion an effort to discover the answers? It may not be dispositive, but then again, it may be important.	Email				х					x	x						
R3 - 275 Olive Avenue (Blackpoint)	I wanted to share concerns about a proposed housing element on the corner of Olive avenue and Atherton (275 Olive Ave, currently a nursery). That site is a wet meadow and not an appropriate building location for a development of 50 homes. It is already subject to frequent flooding, is essentially sitting on top of a wetland nature preserve, and is basically at sea level. If you walk out there today, it is mostly under water. The inevitable sea level rise that will impact that spot makes it, and any other sites at that elevation, inappropriate for further development. Is it alright to ask why this parcel is being considered when these conditions are well known?	Email	x							х	Х	Х						
R3 - 275 Olive Avenue (Blackpoint)	The consideration of this site (275 Olive Avenue) raises a concern that other similarly inappropriate sites may also be up for consideration in other parts of Marin. Would it be possible to get a list of any sites that are within 500 feet of a wetland? I studied wetland habitat restoration planning in graduate school, and was under the impression that CEOA/CWA sect 404 prevented projects from being built on top of or close to wetlands. R5 - 299 Olive Avenue (Blackpoint)	I am just finding out about the rezoning proposal along the Atherton corridor in Novato, and since I missed the meeting, I am writing to express my deepest concern as well as how much I am against this proposal. I live at the end of Olive Avenue, close to Atherton Ave, and have for almost 40 years. I have watched the impact just a few additional homes have had in this area. I am tremendously concerned about the wildlife, and how this proposal would jeopardize their well being. It would greatly impact their ability to access food and water. More homes means more traffic, which means more animals in danger of being struck by cars. There is already too much traffic for this corridor, and I am referring to Olive Avenue as well as Atherton Avenue. These areas cannot handle more housing! Please reconsider this proposal and keep the wildlife and our open spaces preserved.	Email				х				х		х						
R5 - 299 Olive Avenue (Blackpoint)	I am writing to express my opinion on the potential construction of hundreds of new housing units along the Atherton Avenue corridor to meet the county's state-mandated housing quotas. I urge you to redirect new high-density housing to more appropriate areas with better access and infrastructure and with less adverse impacts on wildlife and existing residents: It is not sensible to add large new sources of traffic congestion directly onto Atherton Avenue, the only conduit for evacuation from surrounding neighborhoods during fire emergencies. The proposed development will impact a rich and diverse wildlife population in the area, beyond just the destruction of habitat in the footprints of new construction. Increases in road traffic, noise, and other human activity will invariably take a toll. Foxes, opossums, and raccoons regularly transit my yard at night (I live off of Atherton Ave) and the semi-rural neighborhood environment also supports deer, wild turkeys, hawks, quail, squirrels, owls, turkey vultures and other animals. These populations are assets to the natural environment of Marin County and are all sensitive to human encroachment. The potential housing development is grossly uncharacteristic of the adjacent neighborhoods in terms of density and appearance. The proposed housing locations do not have walk-to shopping and other services, which I believe should be a top priority for siting new high-density housing. The Atherton corridor is a narrow strip with very limited road access: One way in from the west; one way in from the east, and one secondary access (Olive Ave) from the south. This situation is a natural consequence of the geographic boundaries along the corridor. Loading up this narrow space with more traffic, more parking needs, more water requirements, and more sewer infrastructure – when other options exist – does not make sense.	Email		×	×	x				х		X		x	x			
R7 - Eagle Rock Road (Strawberry)	I live on Eagle Rock Rd. It is already congested. Traffic conditions on Tiburon Blvd at most times make it difficult to enter the Eagle Rock area. At the proposed location there is a 4 way intersection, providing access to a gas station, a multi tenant commercial building, access to N. Knoll with section 8 housing (which is very busy) and the residents and providers to my neighbors and me. The proposed site is on a steep hillside making it difficult to build. There is a bus stop at the base where N. Knoll empties onto Tiburon Blvd. This may be good for your concerns, but every day there are cars parked on lower Eagle Rock Rd. using free parking to access the bus service, many use it for longer term parking when traveling out of the area. Building more units on your proposed site will increase street parking. It always does. Your proposal will increase foot traffic crossing 4 lane Tiburon Blvd. We see pedestrians, daily, risking their lives crossing to go to Strawberry Shopping Center. Sure, there is a pedestrian crossing lane, but with the traffic they are not always visible to drivers. It's a scary operation trying to cross. The traffic entering onto Tiburon Blvd. from Hwy 101 is already congested. Then add the traffic coming up from Strawberry Shopping Center. Certain times of the day you already have to wait for more than one light to get through. It seems that California fire seasons are getting longer and more intense. We could have a real discussion on that, but that is the reality today. We are lessens that California fire seasons cour evacuation points are in Strawberry and with massive traffic also evacuating from points toward Tiburon, it could be a real disaster. Development on this plot is not a good idea.	Email				x	x		х			х		х				
R7 - Eagle Rock Road (Strawberry)	The access to the Eagle Rock Road area is already very difficult. The narrow street, especially on the lower exit side, is concerning should there be more development in the area. All it takes is one truck to completely block the exit path from this area. I am already concerned about getting out safely should a fire happen in this area which has high fire potential. With the steep hill median strip (that is constantly slipping in rain storms) there is nowhere to widen the road. These steep hillsides are not a good location for additional housing, especially multi-tenant housing. The current traffic backing up at the Tiburon Blvd/Blithedale exit is already a problem. Additional traffic at this location is not a good idea. Please remove sites R2 and R7.	Email				х				х				х

San Geronimo	(Comment edited for length)l attended the Wednesday evening presentation last week dealing with the State mandate for increasing housing in Marin. Clearly, you have been given a difficult task. Your introduction of the Guiding Principles and "explore strategies" was well done and appreciated. You answered most questions very well. Regretfully, time constraints didn't allow for in-depth responses and discussion. In every case, yours was the final comment and you, of necessity, moved on I also wish there had been more time for comments. It was kind of you to stay later. That was appreciated and beneficial but some of us couldn't stay because we had another meeting to attend following your scheduled presentation. I have lived in the San Geronimo Valley (Lagunitas) for 60+ years. I was one of the leaders in the five year effort (1972 -77) to create a Community Plan that would preserve the Valley's rural character and natural resources and continue to be active. I was disappointed that so few homeowners from the Valley attended your presentation. Despite the country's efforts, I'm convinced that many Valley residents simply don't know about the current Plan and would be shocked to learn about it and its impact. We can rectify this problem. I request that you hold a meeting at the Lagunitas School multi-purpose room and make a presentation, with maps, and get one on one feedback from San Geronimo Valley residents and groups regarding recommendations and alternative. In addition: I support the need for affordable housing in the San Geronimo Valley particularly for those with less than a moderate income. I support community involvement studying the issue of what, where, why and how (with the Community Plan as our guide) to deal with affordable housing in our valley, before providing any sites listing. Presbyterian Church - I cannot support the numbers proposed until I learn how much and where their property is located. Leelee and Staff: - The SGV Community Plan (CP) was developed by the Valley community over a fi	Email (See Email Comments Received.PDF, pp. 45-47)			x							x					x	
	Considering putting any housing on the site of the once San Geronimo golf course is wrong. It's too far out, creating more congestion on an already congested	Email	1		1	Х	1	ĺ	1	1	1			Х				1

Tam Valley / Almonte: Unknown-049-231-09-Marin Drive (3 Units)	(Comment edited for length) Sustainable TamAlmonte has the following comments and recommendations regarding the merits of the above referenced Tam Valley, Almonte, and Manzanita Candidate Housing Sites listed in the 2023-2031 Housing Element DRAFT Candidate Housing Sites List. Due to the unique characteristics of the area, encouraging residential development, especially high-density development, at the above referenced Sites would increase the risk of undue harm to the environment and undue hardship, illness, injury and/or death to the current and future residents. The Tam Valley, Almonte, and Manzanita commercial lowlands, in which the above referenced sites are located, experience the most number of environmental constraints and hazards of any area in Unincorporated Marin. Both the Marin Countywide Plan's EIR and the 2012 Housing Element's SEIR demonstrate that development at these sites would exacerbate the existing dangerous conditions and add new significant adverse environmental impacts (which) magnifies the probability that a tragedy would ensue and the multiple mitigations that a developer would need to fulfill would cause development costs to soar. These factors make the sites unsuitable for affordable housing. The only acceptable course of action is to eliminate the sites from the inventory. Below is a list of the unique natural features, hazards, and limited resources in the Tam Valley, Almonte, and Manzanita lowlands that constrain development and population growth and substantiate our argument. For a quick overview of these constraints, please view the attached table. I. Dangerous Traffic with Unacceptable Level Of Service – LOS "F" Of Local Roadways:. II. Flooding, 100 Year Floodpiain, Impending Sea Level Rise III. Filled Marsh Areas With High Seismic Activity, Liquefaction, Subsidence and Mud Displacement. IV. Air Quality & Noise: Increased Risk of Residents Developing Serious lilness Due to Living Near Major Roadways. V. Hazardous Materials: For additional information regarding potential health	Email (See Email Comments Received.PDF, pp. 123-151)	x	x	x	x		x		x	x	x	x	x	x	х

West Marin Coastal Area	The deadline for input is unrealistic and the tool is exceedingly difficult to use. I understand the County is under pressure to meet the State mandate, however this plan is like throwing darts at a map. It fails to address critical disaster planning in advance of determining even potential site selection. Responding to the coastal zone: I find it extremely distressing that with the impact of climate related severe fire risk, drought, resource depletion, traffic, parking, lack of sewer, emergency ingress/egress, etc., that we are considering adding increased density. The tool does not allow for pinpointing houses that sit empty, or the 600 plus vacation rentals in West Marin. I support accessibility to community based housing. If there were a severe limit placed on vacation rentals in the Coast Region, clawing back on permits/allowances, a number of livable units equal to the numbers proposed would be freed up. I have lived here for 40 plus years and have seen housing go the way of increased tourism, housing stock becoming vacation/business stock and 2nd home owners with frequently vacant homes. Until the Coastal Commission understands the risks involved to increased density and supports strict limitations to vacation units/business, the problem will persist no matter how many new units are introduced. It is unfortunate that it will likely take a fire storm / evacuation disaster to illustrate the hazards compounded by sheer numbers. My cottage on the Inverness Ridge burned in 95 and the risk then was a fraction of what it is today. Driving Sir Francis Drake on a usual busy weekend, or most days during the summer, is the equivalent of coastal gridlock. Adding more units at the bottom of White's Hill, Nicasio, Point Reyes, Olema, and Inverness is placing more people in vulnerable locations. Imagine residents trying, along with thousands of visitors, to flee during an inevitable disaster on a narrow artery. Stop vacation rentals; create incentives to convert empty living units to housing stock.	Email		×		x	×			×		x		х	x		х	
West Marin Coastal Area	The housing candidate sites for our Marin coastal villages are not suitable as these sites do not have jobs, public transit or community services please consider what doubling the population of these villages would mean to public safety when electricity is out our wells cannot pump water and the many propane tanks result in a hazardous mixture. Our aquifers are undoubtedly low after these droughts it will be a strain on our coastal communities to entertain a larger population many in our village are already renting their small units let's just let SB 9 do its job. West Marin Coastal Area	The proposed development and locations designated for housing in unincorporated West Marin is ill-conceived and inappropriate. This appears to be a numbers game on the part of the County and outside, contracted MIG development agency. The plan lacks consideration for or understanding of natural resources, environmental hazards and the existing community. Communities around Tomales Bay are watershed areas with drainage into the vulnerable bay, creeks and streams, the salt marshes and wildlife habitats. The proposed Cottages building site is an environmental hazard to an already contaminated salt marsh and channel leading to Chicken Ranch Beach, Tomales Bay. As a result of previous inappropriate building and filling in a salt marsh, this has been an ongoing problem for many years. The site near Valdmint's restaurant, across from Dixon firm, e, is directly across from Tomales Bay and almost at sea level. This area and the road can flood during a high tide or heavy rain, draining pollution into the bay. Also the proposed building would affect the small downtown of Inverness. West Marin is served by narrow, curving, two lane access roads. For Inverness there is only one road, in or out, a problem during flooding, fires, landslides and general overcrowding on weekends and holidays. These roads frequently need repair when lanes crumble into a creek, hilliside or the bay. No freeways please, as was proposed in the 60s. I have lived in Inverness since the 70s. As a single working mother, a teacher, I raised my daughter in Inverness. Over the years I have seen families and friends move away as rentals, cottages and small units were converted to more lucrative Airbnbs and second homes. There are 4 houses around me with 2 units in each. Two are completely unoccupied. Two are rarely used by their absentee owners, leaving each second unit vacant. There are many houses like this in Inverness and far too many BnBs and other short term rentals. An absentee owner might purchase a house, spend an exorbitant amount of money improv	Email				x					×	×		×	×			
Woodacre	There is a lot for sale as you enter Woodacre at the intersection of Park and Railroad (and an adjacent lot that is not for sale) that would be ideal for seniors with close access to post office and grocery store and bus stop.	Email															х	Х

A - 2754 Novato Boulevard (North Novato)	Fire risk and lack of water.	Countywide												Х	Χ	<u> </u>		
A - 2754 Novato Boulevard (North Novato)	The traffic on the streets between this parcel and the freeway are a congested mess already. Building in this fire zone will make inflow and outflow as well as access to emergency services so highly compacted that it will result in tragedy.	Countywide				х								Х				
A - 2754 Novato Boulevard (North Novato)	This allows people to stay in Marin County whereas they are moving into Sonoma County now so I prefer this site to keep families living in Marin — but the road needs to be widened to absorb the extra traffic and people pulling out to make left and right turns, etc. This needs nice frontage roads too for slower traffic to be able to get out onto the 101 and off safely.	Countywide																х
A - 2754 Novato Boulevard (North Novato)	Near Novato schools and infrastructure. Near freeway.	Infill																Х
B - 160 Shoreline Highway (Almonte)	Another horrendous place for such a massive building. Seal level rise, Manzanita already floods almost monthly - way too much traffic on hwy 1. Stinson, muir woods, Mt. Tam and muir beach get millions of visitors. Need to build a highway to serve all that traffic, completely redesing Tam junction. And many of MV residents go through the area. Bad, bad, bad place to ram housing in.	Countywide				х					х							
B - 160 Shoreline Highway (Almonte)	As long as this area is raised so that the units are not subject to flooding and same with their cars parking and housing need to be built above king tides and flood levels and then that would be fine.	Countywide									Х					<u> </u>		X
B - 160 Shoreline Highway B - 160 Shoreline Highway	Density closer to the city like this location is preferred. Along the highway/commuter corridor is a plus as well. Storymaps.arcgis.com Richardson bay resilience SLR projections and interactive map	Countywide Enviro Hazard	1								Х						\longmapsto	X
C - 935 Sir Francis Drake	workforce housing, college student housing, family housing as long as there is parking for all their cars. Parking is key		 	-			†				_^					$\overline{}$	${ ightarrow}$	
Boulevard (Kentfield) D - Los Ranchitos Road (Los	to the success of this as they need their cars to get to work and take younger kids to their schools too. Closer to the city (than Novato) so a little less commute time. Close to bus lines. Wish it was closer to more amenities	Countywide														<u> </u>	Х	Х
Ranchitos)	though there are a few grocery stores/markets nearby.	Countywide			Х											<u> </u>		Х
D - Los Ranchitos Road (Los Ranchitos)	Higher density as close to Hwy 101 makes the most sense.	Countywide														<u> </u>		Х
D - Los Ranchitos Road (Los Ranchitos)	Is any thought given to the planning for family needs,heritage trees, drainage and creeks, earthquake and slides.? What about quality of life?Reduce the numbers and come up with healthful considerations	Countywide		Х	Х					Х		Х				<u></u>		
D - Los Ranchitos Road (Los Ranchitos)	There is no spare land in this neighborhood. All parcels are occupied. Streets don't have sidewalks and are narrow. Already hard to get out if there was a fire. And it is on open space. We don't have enough water for more residents at these sites. Not a good candidate for this plan.	Countywide							х	х		х		х	Х			
D - Los Ranchitos Road (Los Ranchitos)	This area could handle 4 plex apartment units and this would be good for families, workforce, seniors too.	Countywide														<u> </u>		Х
D - Los Ranchitos Road (Los Ranchitos)	Why can't I adjust the number of units at this site?	Countywide																
E - 2 Jeannette Prandi Way (Lucas Valley)	Building in the southeast section of this parcel on the open fields would likely upset a lot of people in the neighborhood. The area is essentially a public park and the paths around the fields are are heavily trafficked by walkers and families. I think people would be more supportive of filling in areas in the southwest and north of the property, or replacing existing buildings/facilities with housing.	Countywide								х		х						х
E - 2 Jeannette Prandi Way (Lucas Valley)	No public transit (one road in and out) and fire risk.	Countywide						Х						Х				
E - 2 Jeannette Prandi Way (Lucas Valley)	This area is now Lucas Valley Park and has been since the late 1990s. Inappropriate.	Countywide										Х						
E - 2 Jeannette Prandi Way (Lucas Valley)	This is already pretty far out and it would be fine for both workforce and senior housing and the seniors need to have access to good public transportation options so they can get food, to the bank, to the doctor, etc.	Countywide																Х
E - 2 Jeannette Prandi Way (Lucas Valley)	this website is not a reliable way to seek community feedback. It assumes that each participant is familiar with all the sites in Marin County in order to move the housing around. Specifically on Jeannette Prandi housing, my opinion would be to expand on the low income senior housing that is already there- 50 units would likely double the existing senior housing and be plenty for the heavily trafficked LUCAS VALLEY Road and surrounding community.	Countywide															х	х
E - 2 Jeannette Prandi Way (Lucas Valley)	Unlike 55 Marinwood Avenue, the areas further West within this section of Lucas Valley would be a dangerous area for new housing. The narrow valley with strong Western Wind shares similarities with the town of Paradise and its fatal experience with Fire. The green space at Jeannette Prandi Way is the only fire break within a dense construction of highly inflammable houses (resembling the Boulder, CO, neighborhood that burned this winder). For this valley to takes its fair share of county-wide new housing, the most intelligent solution would be to redevelop 55 Marinwood.	Countywide												Х				
E - 2 Jeannette Prandi Way (Lucas Valley)	the road and size of land is really good for dense suburban homes	Enviro Hazard																Х
E - 2 Jeannette Prandi Way (Lucas Valley)	This area is already developed:Lucas ValleyPark. See Marin County Parks.	Enviro Hazard										Х						
E - 2 Jeannette Prandi Way (Lucas Valley)	This area is now Lucas Valley Park.	Equity										Х						
E - 2 Jeannette Prandi Way (Lucas Valley)	There should be, no development at this site, It's now a park-Lucas Valley Park and has been since the late 1990s. It was developed such as part of the development of the 80-unit Rotary Valley Vilage development.	Infill										Х				1		
F - 190 A Donahue Street (Marin City)	Density closer to the city like this location is preferred. Along the highway/commuter corridor is a plus as well.	Countywide														1		Х
F - 190 A Donahue Street (Marin City)	Ideal location close to shopping and jobs.	Countywide														1		Х
	Placing additional units here wouldn't be in line with the "Address Racial Equity and Historic Patterns of Segregation" Scenario because there is already a majority of publis housing and low income units in Marin City	Equity															х	

G - 155 Marinwood Avenue (Marinwood)	I would like to see the housing that should have been built by Bridge Housing years ago for seniors and families finally get built—it will be a great addition to the neighborhood and is very much needed.	Countywide													Х
G - 155 Marinwood Avenue (Marinwood)	The redevelopment is a good idea. The blighted area will benefit from redevelopment, and I hear from neighbors that they are welcoming this idea. In the case of a fire there is a close exit to Hwy 101. I reduced the number of houses, because even with 110 units this small community is already taking a large share of the country-wide burden for new housing, and other intelligent options are available.	Countywide													х
G - 155 Marinwood Avenue (Marinwood)	this website is not a reliable way to seek community feedback. It assumes that each participant is familiar with all the sites in Marin County in order to move the housing around. Specifically on Marinwood Market housing, my opinion would be to develop this property as previously discussed many time before. I'm not sure on the details of how much housing this site can hold, but it has close freeway access and a market nearby and would be a good site for housing.	Countywide													х
G - 155 Marinwood Avenue (Marinwood)	Housing that matches the homes in the neighborhood. The market must stay	Enviro Hazard													Х
H - 1565 Vendola Drive (Santa Venetia)	Senior Housing would have the least amount of impact on the traffic so this would be a nice size senior community and go along with Venetia Oaks which is there already. Food bank and Extra Food and Meals on Wheels already goes to Venetia Oaks and this is a nice area for Seniors to reside in.	Countywide													х
H - 1565 Vendola Drive (Santa Venetia)	Traffic already terrible. Close to open space. Hard to get out if there was a fire as only one road in and out. No water for more residents. Not a good candidate for this plan.	Countywide			Х						Х	Х	Х		
H - 1565 Vendola Drive (Santa Venetia)	I live in Santa Venetia and this is too many housing units for this area (North San Pedro and Vendola drive). There is already a parking problem and it is sometimes difficult to find parking in front of your own home. Also, there is traffic congestion in front of the school in the morning and afternoon. You also have to take into account that Terra Linda Northgate wants to build over 1000 units in a small area. I realize they are not part of unincorporated Marin but the quality of life will definitely decline in Santa Venetia and surrounding areas with all these additional units when you take into account the traffic and increase in population. Per the housing meeting last week it stated that Santa Venetia along with Marin City already have a high number of low income residents. Is the additional housing going to be above market housing or are you just going to continue to place all low income residents in Santa Venetia?				x	x			x					×	
H - 1565 Vendola Drive (Santa Venetia)	Should be avoided - is within 5 ft. sea level rise projection zone by 2100	Enviro Hazard								Х					
I - 251 N San Pedro Road (Santa Venetia)	I object to 251 N. San Pedro as a building site for housing. There is a school and ball field. The children and their families need the child center. The ball field is used by little league and other children playing. The neighborhood can't absorb more cars parking in it. We don't have enough parking for the people who live here or there guests. If housing need to be build in Santa Venetia why not 1565 Vendola? The old school has been vacant for years. The property is not being used at all.	Countywide		х		х									
I - 251 N San Pedro Road (Santa Venetia)	Senior housing would be the least amount of traffic congestion impact and they could take public transit to get to where they needed to go for bank, grocery, doctor, etc.	Countywide													Х
I - 251 N San Pedro Road (Santa Venetia)	Traffic is already terrible in this neighborhood. Bordered by open space. Fire risk is high and it's already hard to get out with only one road in. There is not enough water for more residents. Not a good candidate for this plan.	Countywide			х						х	х	х		
I - 251 N San Pedro Road (Santa Venetia)	This site does not fit this criteria. Public transportation is limited. These units will bring 2-4 cars per unit with no ample parking which would impact NSP road and nearby neighborhoods. NSP road is only 2 lanes with many schools along the way. Adding more cars would not only add to an already congested road it would be dangerous for those walking and riding bikes	Equity			х	х	х	х							
I - 251 N San Pedro Road (Santa Venetia)	This proposed site is on a baseball field that is used by many for recreational purposes. This is a much needed baseball field. Field use is hard to come by. This field is also home to a variety of wildlife. Generations of quail. Night heron, egrets, owls hawks and many other bird species. As well as frogs coyote raccoon opossum squirrel fox deer. This site is not suitable for such a large housing project. This would significantly impact our environment	Infill		x							x				
J - 9840 State Route 1 (Olema)	Excellent location to build more housing and could support some commercial as well.	Countywide													Х
J - 9840 State Route 1 (Olema)	For those who like the outdoor rural life—seniors and workforce housing for West Marin Employees to have a place to live that is affordable, this would be very nice.	Countywide													Х
J - 9840 State Route 1 (Olema)	This is a tiny rural village with very few services available including fire, medical, etc. Development must be kept to a miniumum for safety concerns.	Countywide		Х							Х	Х			
J - 9840 State Route 1 (Olema)	Should occur on north/west side of Rt. 1 / SFD Blvd. to avoid sea level rise zones.	Enviro Hazard								Х					Х
J - 9840 State Route 1 (Olema)	This area is already developed. Drinking water concerns, septic concerns, fire safety and evacuation concerns. Sea level rise and climate change will exacerbate these issues at this site.	Infill							Х	Х		Х	Х		
K - 1500 Butterfield Road (Sleepy Hollow)	Housing should only be added in the valley and low hillsides. Mid to upper hillsides and ridgelines should be open space. If the housing can be kept in the valley, it would be reasonable to increase to 36 total houses. Another consideration is that traffic on Butterfield is congested. If more housing is added, then traffic lights and pedestrian crossings with warning lights should be added.	Countywide			х						х				х
K - 1500 Butterfield Road (Sleepy Hollow)	I would like to see MORE housing units here. This is the end of the line, at the end of Butterfield Road out in the country and it would be good or workforce housing and seniors as long as there was a bus line that went that far to take them to doctor appointments and shopping. It would be fine for schoolsfamilies also.	Countywide													Х
K - 1500 Butterfield Road (Sleepy Hollow)	Near open space. High fire risk. Lack of water for additional residents. Traffic already terrible in and out of this area.	Countywide			Х						Х	Х	Х		
L - 26500 Main Street (Tomales)	Senior housing would do well here for those who want country rural living with access to transportation for getting food , to the bank, to the doctor maybe a medical clinic bus could make the rounds to these rural areas where seniors would be residing so they could get checked out and get prescriptions, check ups, shots, blood draw, etc.	Countywide													х

	COMMENTS RECEIVED VIA BALANCING		 		_	 	 		 	 	$\overline{}$		
L - 26500 Main Street (Tomales)	Tomales does not have enough water or jobs to add this many units.	Countywide		Х						Х			
M - 1 St Vincents Drive(St. Vincents)	Along the 101 corridor; room for more than this number; included in Marin Housing Pan.	Countywide											Χ
M - 1 St Vincents Drive(St. Vincents)	I would love to see this developed for families, seniors, workforce housing all kinds of housing built on this site as it is perfect and beautiful and much preferable to living further out Lucas Valley road.	Countywide										Х	Х
M - 1 St Vincents Drive(St. Vincents)	St. Vincents consists of nearly 800 acres of land situated in the US 101 corridor. Its proximity to transportation and services makes it ideal for development of housing of all types and at all levels of affordability. The most developable portion of the St. Vincents property is that land located west of Holy Rosary Chapel-between US 101 and the Chapel. This land is on higher ground and not subject to sea level rise. Further, existing terrain provides a natural buffer such that housing can be located on the site without affecting the visual corridor; development would not be visible from US 101. This property should be further studied to determine just how many units can be accommodated here. It is the ideal site.	Countywide										х	х
M - 1 St Vincents Drive(St. Vincents)	This seems like a more economically realistic area, good access to 101 and infrastructure	Countywide											Х
M - 1 St Vincents Drive(St. Vincents)	this website is not a reliable way to seek community feedback. It assumes that each participant is familiar with all the sites in Marin County in order to move the housing around. Some confusion at this site about 1800 vs 221 units- big difference. My opinion is that some development could happen at this site, but 1800 would be a huge burden to the traffic on the 101 in this area and could not be supported by the existing marinwood infrastucture	Countywide					х						х
M - 1 St Vincents Drive(St. Vincents)	Traffic is going to be a problem. Lack of water.	Countywide			Х					Х			
M - 1 St Vincents Drive(St. Vincents)	403 units is much less than the capacity at St Vincent's. This is an area that could absorb a mix of housing types, and is close to highway 101.	Enviro Hazard										Х	Х
M - 1 St Vincents Drive(St. Vincents)	Should be placed on this parcel but above 5 ft rise zone.	Enviro Hazard						Х					Χ
M - 1 St Vincents Drive(St. Vincents)	St. Vincents consists of nearly 800 acres of land situated in the US 101 corridor. Its proximity to transportation and services makes it ideal for development of housing of all types and at all levels of affordability. The most developable portion of the St. Vincents property is that land located west of Holy Rosary Chapel—between US 101 and the Chapel. This land is on higher ground and not subject to sea level rise. Further, existing terrain provides a natural buffer such that housing can be located on the site without affecting the visual corridor; development would not be visible from US 101. This property should be further studied to determine just how many units can be accommodated here. It is the ideal site.	Enviro Hazard										х	х

N - 690 Redwood Hwy Frontage Road (Strawberry)	Strongly prefer more housing in locations like this closer to the city - where jobs are - to shorten commutes and decrease traffic sprawl. This site is also close to the highway/commuting corridor which is a plus. Density closer to the city is preferred.	Countywide											х

1	COMMENTS RECEIVED VIA BALANCING	וושטט ו טא נ	IIOOI	714				 				 	 		
N - 690 Redwood Hwy Frontage Road (Strawberry)	The area marked on the frontage road is extremely narrow for any type of building. It would severely impact the stability of the established housing on the hillside above. In addition, you would have housing on a narrow strip where there isn't even room for a sidewalk. There is no ability to expand the frontage road where traffic and intersections already receive a failing grade. Looking at the geography, you are basically trying to cram housing into the already crowded bottom of the funnel. It makes no sense. There is no room for parking - and please do not feed us a line that people who live here will use public transportation and not own cars as that is never the case.	Countywide				х	х		х						
N - 690 Redwood Hwy Frontage Road (Strawberry)	The property would be fine for housing, but the increased traffic to the nearby intersections would be untenable. Specifically, the intersections of Redwood Highway Frontage Road with Seminary Drive (at the 7-Eleven) and Tiburon Blvd to the north are both overloaded, and will be several fold worse already with the planned Seminary development within Strawberry. Adding additional housing here would further overload these intersections which have no alternative routes for traffic coming to/from the area.	Countywide				Х									
N - 690 Redwood Hwy Frontage Road (Strawberry)	This would be great for seniors as it is nearby public transportation and shopping. It would be good wo	Countywide													Х
O - 217 Shoreline Highway (Tamalpais)	Density closer to the city like this location is preferred. Along the highway/commuter corridor is a plus as well.	Countywide													Х
O - 217 Shoreline Highway (Tamalpais)	Senior housing as long as it is raised up high enough not to be in a flood zone and ruin their cars— The area is congested so they couldn't build much more due to the traffic congestion.	Countywide													Χ

P - 4900 Sir Francis Drake Boulevard (San Geronimo Valley)	4900 SFD Blvd. is an inappropriate site for housing or any kind for several reasons: It is cross crossed by streams, it is a historically agricultural property with active ag use, and it is a beloved view corridor right at the gateway of the Valley. IIThis proposal would be extremely controversial. Please consider maximizing housing at the current Woodacre fire station. From a housing advocate.	Countywide									Х				
P - 4900 Sir Francis Drake Boulevard (San Geronimo Valley)	I don't think this will be feasible due to lack of infrastructure and job opportunity	Countywide		х	х										
P - 4900 Sir Francis Drake Boulevard (San Geronimo Valley)	If school property yes on number of units. Limit single family. Cluster housing preferred. Senior and low income.	Countywide													Х
P - 4900 Sir Francis Drake Boulevard (San Geronimo Valley)	No development on Sir Francis Drake in West Marin. It's already impossible to evacuate on this road.	Countywide				х						х			
P - 4900 Sir Francis Drake Boulevard (San Geronimo Valley)	No one wants to see the entrance to our Valley sullied by an enclave of homes for people earning over \$132,000 a year. This location is not inside any village boundary. And this survey will not let us show zero units at this site. It allows eight units no matter what. This survey is extremely flawed!	Countywide												х	
P - 4900 Sir Francis Drake Boulevard (San Geronimo Valley)	This is a terrible place to put a bunch of housing units since there is no buffer between Sir Francis Drake and the homes. Other homes in the area are not directly visible from Sir Frances Drake as these would be and would be an unwelcome eye-sore. Most homes are at least one street off of Sir Francis Drake.	Countywide									х				
P - 4900 Sir Francis Drake Boulevard (San Geronimo Valley)	This is agricultural land and not suitable for housing. It will destroy the entrance to the Valley. Only put new housing within the village boundaries.	Countywide									х				
P - 4900 Sir Francis Drake Boulevard (San Geronimo Valley)	This is out in the middle of nowhere and so this would be good for seniors if they have good public transportation to get them to shopping, banks, doctor appointments, entertainment and if there is good internet access for them to be able to stream shows and movies and do email etc Transportation is key to this remote location being a success.	Countywide													Х
P - 4900 Sir Francis Drake Boulevard (San Geronimo Valley)	This site is completely inappropriate for development in the valley. There should be 0 units in this location, I repeat zero. This site would not be "infill". It would forever mar the open space gateway to one of the most beautiful rural valleys in the world and the Point Reyes National Park. It is not within the village boundaries as required. There would be massive community protest, legal action, and resistence to developing this site.	Countywide							x		x				
P - 4900 Sir Francis Drake Boulevard (San Geronimo Valley)	Preservation of open space/ag easement here is important to SGV community.	Enviro Hazard									х				
Q - 800 Atherton Avenue (North Novato)	Encourage more building closer to the city or Richmond Bridge, where most people commute to daily. There aren't the jobs in Novato so this will lead to increased commutes and traffic. Build closer to the city and job centers.	Countywide			х	Х									
Q - 800 Atherton Avenue (North Novato)	Fire danger, sensitive and endangered species in this area. Wildlife corridor.	Countywide									Х	Х			
Q - 800 Atherton Avenue (North Novato)	Put them all here.	Countywide													Х
Q - 800 Atherton Avenue (North Novato)	Atherton Avenue is severely affected when Route 37 floods, with several hundred additional cars travelling this route. This is an area where the county has mandated minimum lot sizes and has retained the "rural, agrarian" nature of the area. As a result there are no stop signs or street lights. Developing highly dense housing in the Atherton corridor is risky until the Hwy 37 flooding problems are fixed, and once they are the housing that is built should not be at a density above 10 units per acre given the lack of infrastructure.	Enviro Hazard		x		Х				x	x				
R1 - 5800 Sir Francis Drake Boulevard (San Geronimo Valley)	Don't even think about it.	Countywide							Х						

	COMMENTS RECEIVED VIA BALANCING	J ACT OUDIN	IIOOIN	714								 		 	
R1 - 5800 Sir Francis Drake Boulevard (San Geronimo Valley)	No public transit and fire risk.	Countywide					х					х			
R1 - 5800 Sir Francis Drake Boulevard (San Geronimo Vallev)	Point Reyes is a great place to build more housing. Lovely community, local businesses would greatly benefit from more weekday patrons.	Countywide													х
R1 - 5800 Sir Francis Drake Boulevard (San Geronimo Valley)	This site should only be used for the fire dept. or for other public community services with the currently existing building. It's part of a large open space property that needs to continue to be preserved as open space in perpetuity.	Countywide									Х				
R10 - 200 San Pedro Road (Santa Venetia)	Traffic already terrible here.	Countywide			Х										
R11 - 110 Strawberry Drive (Strawberry)	Family Housing and workforce housing would be nice hereas long as there is plenty of parking for the new residents as parking is key	Countywide													Х
R11 - 110 Strawberry Drive (Strawberry)	Strawberry Drive is already impacted with very little ingress or egress. 28 is FAR TOO MUCH. All intersections here have a failing grade and there is no room to expand. Do not feed us a line that people living in these units will use public transportation as it has been proven time and time again that is not the case.	Countywide			х				Х						
R11 - 110 Strawberry Drive (Strawberry)	Strongly prefer more housing in locations like this closer to the city - where jobs are - to shorten commutes and decrease traffic sprawl. Also like that this site is also close to the highway/commuter corridor. Density closer to the city like this location is preferred.	Countywide													х

That never turns out to be the case.	Countywide		x	х								
R7 - Eagle Rock Road (Strawberry)	Incredibly steep terrain; no room for 32 units; no water hook-up, access or other infrastructure, which could lead to neighborhood evacuation problems in a fire-prone area; already bad traffic on tiburon boulevard; abundant wildlife with nowhere to go if you destroy their habitat	,	х	Х			х	Х		x	х		
R7 - Eagle Rock Road (Strawberry)	Prefer more housing in locations like this closer to the city - where jobs are - to shorten commutes and decrease traffic sprawl. Also like that this site is closer to the highway/commuting corridor.	Countywide											X
R7 - Eagle Rock Road (Strawberry)	This is pristine natural land with an abundance of local species of wildlife.	Countywide						Х					
R7 - Eagle Rock Road (Strawberry)	This is the next street over from me as I live in Kruger Pines 47 N Knoll Road- we would need a traffic light put at N Knoll Rd & Tiburon Blvd redo that intersection and make N Knoll Road a county maintained road too as it is just pot holes now and getting worse. The traffic has to be very aggressive leaving the neighborhood to make a right turn to get on the 101. There is no way to make left turns at all onto Tiburon Blvd. so that whole intersection needs to be redone. It could be family and workforce up on Eagle Rock and put the seniors on N. Knoll Road.	Countywide		Х								х	х
R7 - Eagle Rock Road (Strawberry)	This site is not appropriate for high density housing. The Eagle Rock neighborhood already has traffic problems, and adding units will exacerbate those issues. This particular site is on extreme slope - likely a 30% grade. Adding high density housing to this site will also destroy the family neighborhood surrounded by open space. Please consider repurposing more urban locations.	Countywide		Х			Х	Х					
R7 - Eagle Rock Road (Strawberry)	Traffic is horrible in this area. Also there is a lot of street parking on Eagle Rock. Adding additional housing will only cause worse conditions. The open space on ring mountain is home to many wildlife (owls, coyotes, turkey, deer and bobcats not to mention smaller animals as well.)	Countywide		Х	х		х	х					
R8 - 8901 Redwood Boulevard (North Novato)	Fire risk and lack of water for more residents. This appears to be over a state park. No development on a state park.	Countywide						Х		Х	Х		
R8 - 8901 Redwood Boulevard (North Novato)	Prefer more building down south near the city/jobs, for shorter commutes, less traffic, and less sprawl.	Countywide		Х				Х					
R8 - 8901 Redwood Boulevard (North Novato)	Too close to important Miwok site.	Enviro Hazard		Х					Х				
R9 - Sir Francis Drake Boulevard (San Quentin)	l raffic to get to the bridge is already terrible. Reroute the road going to the bridge and this would be a good location.	Countywide		Х									
Total RHNA Allocation	This is far too much that is being shoved down into the funnel where there is little land available (Strawberry, Marin City). The County needs to be aggressive and pushing back on ABAG and the state. San Francisco has over 40,000 vacant properties so let Weiner deal with getting San Francisco vacancies down and stop shoving the issue onto Marin.	Countywide

(North Novato)	Fire risk and lack of water.	Countywide												Х	Χ	<u> </u>	└	<u> </u>
A - 2754 Novato Boulevard (North Novato)	The traffic on the streets between this parcel and the freeway are a congested mess already. Building in this fire zone will make inflow and outflow as well as access to emergency services so highly compacted that it will result in tragedy.	Countywide				х								Х				
A - 2754 Novato Boulevard (North Novato)	This allows people to stay in Marin County whereas they are moving into Sonoma County now so I prefer this site to keep families living in Marin — but the road needs to be widened to absorb the extra traffic and people pulling out to make left and right turns, etc. This needs nice frontage roads too for slower traffic to be able to get out onto the 101 and off safely.	Countywide																х
A - 2754 Novato Boulevard (North Novato)	Near Novato schools and infrastructure. Near freeway.	Infill																Х
B - 160 Shoreline Highway (Almonte)	Another horrendous place for such a massive building. Seal level rise, Manzanita already floods almost monthly - way too much traffic on hwy 1. Stinson, muir woods, Mt. Tam and muir beach get millions of visitors. Need to build a highway to serve all that traffic, completely redesing Tam junction. And many of MV residents go through the area. Bad, bad place to ram housing in.	Countywide				х					x							
B - 160 Shoreline Highway (Almonte)	As long as this area is raised so that the units are not subject to flooding and same with their cars parking and housing need to be built above king tides and flood levels and then that would be fine.	Countywide									Х							Х
B - 160 Shoreline Highway	Density closer to the city like this location is preferred. Along the highway/commuter corridor is a plus as well.	Countywide															Ь	Χ
B - 160 Shoreline Highway	Storymaps.arcgis.com Richardson bay resilience SLR projections and interactive map	Enviro Hazard									Χ						↓	
C - 935 Sir Francis Drake Boulevard (Kentfield)	workforce housing, college student housing, family housing as long as there is parking for all their cars. Parking is key to the success of this as they need their cars to get to work and take younger kids to their schools too.	Countywide														l	Х	Х
D - Los Ranchitos Road (Los Ranchitos)	Closer to the city (than Novato) so a little less commute time. Close to bus lines. Wish it was closer to more amenities though there are a few grocery stores/markets nearby.	Countywide			Х													Х
D - Los Ranchitos Road (Los Ranchitos)	Higher density as close to Hwy 101 makes the most sense.	Countywide																Х
D - Los Ranchitos Road (Los Ranchitos)	Is any thought given to the planning for family needs,heritage trees, drainage and creeks, earthquake and slides.? What about quality of life?Reduce the numbers and come up with healthful considerations	Countywide		Х	Х					Х		Х						
D - Los Ranchitos Road (Los Ranchitos)	There is no spare land in this neighborhood. All parcels are occupied. Streets don't have sidewalks and are narrow.	Countywide							х	х		х		х	Х			
D - Los Ranchitos Road (Los Ranchitos)	This area could handle 4 plex apartment units and this would be good for families, workforce, seniors too.	Countywide																Х
D - Los Ranchitos Road (Los Ranchitos)	Why can't I adjust the number of units at this site?	Countywide																
E - 2 Jeannette Prandi Way (Lucas Valley)	Building in the southeast section of this parcel on the open fields would likely upset a lot of people in the neighborhood. The area is essentially a public park and the paths around the fields are are heavily trafficked by walkers and families. I think people would be more supportive of filling in areas in the southwest and north of the property, or replacing existing buildings/facilities with housing.	Countywide								х		х						х
E - 2 Jeannette Prandi Way (Lucas Valley)	No public transit (one road in and out) and fire risk.	Countywide						Х						Х				
E - 2 Jeannette Prandi Way (Lucas Vallev)	This area is now Lucas Valley Park and has been since the late 1990s. Inappropriate.	Countywide										Х						
E - 2 Jeannette Prandi Way (Lucas Valley)	This is already pretty far out and it would be fine for both workforce and senior housing and the seniors need to have access to good public transportation options so they can get food, to the bank, to the doctor, etc.	Countywide																Х
E - 2 Jeannette Prandi Way (Lucas Valley)	this website is not a reliable way to seek community feedback. It assumes that each participant is familiar with all the sites in Marin County in order to move the housing around. Specifically on Jeannette Prandi housing, my opinion would be to expand on the low income senior housing that is already there- 50 units would likely double the existing senior housing and be plenty for the heavily trafficked LUCAS VALLEY Road and surrounding community.	Countywide															х	х
E - 2 Jeannette Prandi Way (Lucas Valley)	Unlike 55 Marinwood Avenue, the areas further West within this section of Lucas Valley would be a dangerous area for new housing. The narrow valley with strong Western Wind shares similarities with the town of Paradise and its fatal experience with Fire. The green space at Jeannette Prandi Way is the only fire break within a dense construction of highly inflammable houses (resembling the Boulder, CO, neighborhood that burned this winder). For this valley to takes its fair share of county-wide new housing, the most intelligent solution would be to redevelop 55 Marinwood.	Countywide												Х				
E - 2 Jeannette Prandi Way (Lucas Valley)	the road and size of land is really good for dense suburban homes	Enviro Hazard																Х
E - 2 Jeannette Prandi Way (Lucas Valley)	This area is already developed:Lucas ValleyPark. See Marin County Parks.	Enviro Hazard										Х						
E - 2 Jeannette Prandi Way (Lucas Valley)	This area is now Lucas Valley Park.	Equity										Х						
E - 2 Jeannette Prandi Way (Lucas Valley)	There should be, no development at this site, It's now a park-Lucas Valley Park and has been since the late 1990s, It was developed such as part of the development of the 80-unit Rotary Valley Vilage development.	Infill										Х						
F - 190 A Donahue Street (Marin City)	Density closer to the city like this location is preferred. Along the highway/commuter corridor is a plus as well.	Countywide																Х
F - 190 A Donahue Street (Marin City)	Ideal location close to shopping and jobs.	Countywide																Х
	Placing additional units here wouldn't be in line with the "Address Racial Equity and Historic Patterns of Segregation" Scenario because there is already a majority of publis housing and low income units in Marin City	Equity															х

G - 155 Marinwood Avenue (Marinwood)	I would like to see the housing that should have been built by Bridge Housing years ago for seniors and families finally get built— it will be a great addition to the neighborhood and is very much needed.	Countywide															Χ
G - 155 Marinwood Avenue (Marinwood)	The redevelopment is a good idea. The blighted area will benefit from redevelopment, and I hear from neighbors that they are welcoming this idea. In the case of a fire there is a close exit to Hwy 101. I reduced the number of houses, because even with 110 units this small community is already taking a large share of the country-wide burden for new housing, and other intelligent options are available.	Countywide															х
G - 155 Marinwood Avenue (Marinwood)	this website is not a reliable way to seek community feedback. It assumes that each participant is familiar with all the sites in Marin County in order to move the housing around. Specifically on Marinwood Market housing, my opinion would be to develop this property as previously discussed many time before. I'm not sure on the details of how much housing this site can hold, but it has close freeway access and a market nearby and would be a good site for housing.	Countywide															х
G - 155 Marinwood Avenue (Marinwood)	Housing that matches the homes in the neighborhood. The market must stay	Enviro Hazard															Х
H - 1565 Vendola Drive (Santa Venetia)	Senior Housing would have the least amount of impact on the traffic so this would be a nice size senior community and go along with Venetia Oaks which is there already. Food bank and Extra Food and Meals on Wheels already goes to Venetia Oaks and this is a nice area for Seniors to reside in.	Countywide															х
H - 1565 Vendola Drive (Santa Venetia)	Traffic already terrible. Close to open space. Hard to get out if there was a fire as only one road in and out. No water for more residents. Not a good candidate for this plan.	Countywide				Х						Х	Х	Х			
H - 1565 Vendola Drive (Santa Venetia)	I live in Santa Venetia and this is too many housing units for this area (North San Pedro and Vendola drive). There is already a parking problem and it is sometimes difficult to find parking in front of your own home. Also, there is traffic congestion in front of the school in the morning and afternoon. You also have to take into account that Terra Linda Northgate wants to build over 1000 units in a small area. I realize they are not part of unincorporated Marin but the quality of life will definitely decline in Santa Venetia and surrounding areas with all these additional units when you take into account the traffic and increase in population. Per the housing meeting last week it stated that Santa Venetia along with Marin City already have a high number of low income residents. Is the additional housing going to be above market housing or are you just going to continue to place all low income residents in Santa Venetia?					x	x			x						X	
H - 1565 Vendola Drive (Santa Venetia)	Should be avoided - is within 5 ft. sea level rise projection zone by 2100	Enviro Hazard									Х						
I - 251 N San Pedro Road (Santa Venetia)	I object to 251 N. San Pedro as a building site for housing. There is a school and ball field. The children and their families need the child center. The ball field is used by little league and other children playing. The neighborhood can't absorb more cars parking in it. We don't have enough parking for the people who live here or there guests. If housing need to be build in Santa Venetia why not 1565 Vendola? The old school has been vacant for years. The property is not being used at all.	Countywide			х		х										
I - 251 N San Pedro Road (Santa Venetia)	Senior housing would be the least amount of traffic congestion impact and they could take public transit to get to where they needed to go for bank, grocery, doctor, etc.	Countywide															Х
I - 251 N San Pedro Road (Santa Venetia)	Traffic is already terrible in this neighborhood. Bordered by open space. Fire risk is high and it's already hard to get out with only one road in. There is not enough water for more residents. Not a good candidate for this plan.	Countywide				х						х	Х	х			
I - 251 N San Pedro Road (Santa Venetia)	This site does not fit this criteria. Public transportation is limited. These units will bring 2-4 cars per unit with no ample parking which would impact NSP road and nearby neighborhoods. NSP road is only 2 lanes with many schools along the way. Adding more cars would not only add to an already congested road it would be dangerous for those walking and riding bikes	Equity				х	х	х	х								
I - 251 N San Pedro Road (Santa Venetia)	This proposed site is on a baseball field that is used by many for recreational purposes. This is a much needed baseball field. Field use is hard to come by. This field is also home to a variety of wildlife. Generations of quail. Night heron, egrets, owls hawks and many other bird species. As well as frogs coyote raccoon opossum squirrel fox deer. This site is not suitable for such a large housing project. This would significantly impact our environment	Infill			X							х					
J - 9840 State Route 1 (Olema)	Excellent location to build more housing and could support some commercial as well.	Countywide															Х
J - 9840 State Route 1 (Olema)	For those who like the outdoor rural life- seniors and workforce housing for West Marin Employees to have a place to live that is affordable, this would be very nice.	Countywide															Х
J - 9840 State Route 1 (Olema)	This is a tiny rural village with very few services available including fire, medical, etc. Development must be kept to a miniumum for safety concerns.	Countywide			Х							Х	Х				
J - 9840 State Route 1 (Olema)	Should occur on north/west side of Rt. 1 / SFD Blvd. to avoid sea level rise zones.	Enviro Hazard									Х						Х
J - 9840 State Route 1 (Olema)	This area is already developed. Drinking water concerns, septic concerns, fire safety and evacuation concerns. Sea level rise and climate change will exacerbate these issues at this site.	Infill								Х	Х		Х	Х			
K - 1500 Butterfield Road (Sleepy Hollow)	Housing should only be added in the valley and low hillsides. Mid to upper hillsides and ridgelines should be open space. If the housing can be kept in the valley, it would be reasonable to increase to 36 total houses. Another consideration is that traffic on Butterfield is congested. If more housing is added, then traffic lights and pedestrian crossings with warning lights should be added.	Countywide				х						х					х
K - 1500 Butterfield Road (Sleepy Hollow)	I would like to see MORE housing units here. This is the end of the line, at the end of Butterfield Road out in the country and it would be good or workforce housing and seniors as long as there was a bus line that went that far to take them to doctor appointments and shopping. It would be fine for schoolsfamilies also.	Countywide															х
K - 1500 Butterfield Road (Sleepy Hollow)	Near open space. High fire risk. Lack of water for additional residents. Traffic already terrible in and out of this area.	Countywide				Х						Х	Х	Х			
L - 26500 Main Street (Tomales)	Senior housing would do well here for those who want country rural living with access to transportation for getting food , to the bank, to the doctor maybe a medical clinic bus could make the rounds to these rural areas where seniors would be residing so they could get checked out and get prescriptions, check ups, shots, blood draw, etc.	Countywide															х

	COMMENTS RECEIVED VIA BALANCING	O AO I GODII	iiooit	<i>/</i> /19				 				 	 		
N - 690 Redwood Hwy Frontage Road (Strawberry)	The area marked on the frontage road is extremely narrow for any type of building. It would severely impact the stability of the established housing on the hillside above. In addition, you would have housing on a narrow strip where there isn't even room for a sidewalk. There is no ability to expand the frontage road where traffic and intersections already receive a failing grade. Looking at the geography, you are basically trying to cram housing into the already crowded bottom of the funnel. It makes no sense. There is no room for parking - and please do not feed us a line that people who live here will use public transportation and not own cars as that is never the case.	Countywide				х	х		Х						
N - 690 Redwood Hwy Frontage Road (Strawberry)	The property would be fine for housing, but the increased traffic to the nearby intersections would be untenable. Specifically, the intersections of Redwood Highway Frontage Road with Seminary Drive (at the 7-Eleven) and Tiburon Blvd to the north are both overloaded, and will be several fold worse already with the planned Seminary development within Strawberry. Adding additional housing here would further overload these intersections which have no alternative routes for traffic coming toffrom the area.	Countywide				х									
N - 690 Redwood Hwy Frontage Road (Strawberry)	This would be great for seniors as it is nearby public transportation and shopping. It would be good wo	Countywide													Х
O - 217 Shoreline Highway (Tamalpais)	Density closer to the city like this location is preferred. Along the highway/commuter corridor is a plus as well.	Countywide													Х
O - 217 Shoreline Highway (Tamalpais)	Senior housing as long as it is raised up high enough not to be in a flood zone and ruin their cars The area is congested so they couldn't build much more due to the traffic congestion.	Countywide													Х
O - 217 Shoreline Highway (Tamalpais)	Traffic is a problem.	Countywide				Х									
O - 217 Shoreline Highway (Tamalpais)	Storymaps.arcgis.com Richardson bay resilience SLR projections and interactive map	Enviro Hazard								Х					
P - 4900 Sir Francis Drake Boulevard (San Geronimo Valley)	4900 SFD Blvd. is an inappropriate site for housing or any kind for several reasons: It is cross crossed by streams, it is a historically agricultural property with active ag use, and it is a beloved view corridor right at the gateway of the Valley. IlThis proposal would be extremely controversial. Please consider maximizing housing at the current Woodacre fire station. From a housing advocate.	Countywide									Х				
P - 4900 Sir Francis Drake Boulevard (San Geronimo Valley)	I don't think this will be feasible due to lack of infrastructure and job opportunity	Countywide		X	х										
P - 4900 Sir Francis Drake Boulevard (San Geronimo Valley)	If school property yes on number of units. Limit single family. Cluster housing preferred. Senior and low income.	Countywide													х
P - 4900 Sir Francis Drake Boulevard (San Geronimo Valley)	No development on Sir Francis Drake in West Marin. It's already impossible to evacuate on this road.	Countywide				х						х			
P - 4900 Sir Francis Drake Boulevard (San Geronimo Valley)	No one wants to see the entrance to our Valley sullied by an enclave of homes for people earning over \$132,000 a year. This location is not inside any village boundary. And this survey will not let us show zero units at this site. It allows eight units no matter what. This survey is extremely flawed!	Countywide												х	
P - 4900 Sir Francis Drake Boulevard (San Geronimo Valley)	This is a terrible place to put a bunch of housing units since there is no buffer between Sir Francis Drake and the homes. Other homes in the area are not directly visible from Sir Frances Drake as these would be and would be an unwelcome eye-sore. Most homes are at least one street off of Sir Francis Drake.	Countywide									х				
P - 4900 Sir Francis Drake Boulevard (San Geronimo Valley)	This is agricultural land and not suitable for housing. It will destroy the entrance to the Valley. Only put new housing within the village boundaries.	Countywide									Х				
P - 4900 Sir Francis Drake Boulevard (San Geronimo Valley)	This is out in the middle of nowhere and so this would be good for seniors if they have good public transportation to get them to shopping, banks, doctor appointments, entertainment and if there is good internet access for them to be able to stream shows and movies and do email etc Transportation is key to this remote location being a success.	Countywide													Х
P - 4900 Sir Francis Drake Boulevard (San Geronimo Valley)	This site is completely inappropriate for development in the valley. There should be 0 units in this location, I repeat zero. This site would not be "infill". It would forever mar the open space gateway to one of the most beautiful rural valleys in the world and the Point Reyes National Park. It is not within the village boundaries as required. There would be massive community protest, legal action, and resistence to developing this site.	Countywide							х		x				
P - 4900 Sir Francis Drake Boulevard (San Geronimo Valley)	Preservation of open space/ag easement here is important to SGV community.	Enviro Hazard									х				
Q - 800 Atherton Avenue (North Novato)	Encourage more building closer to the city or Richmond Bridge, where most people commute to daily. There aren't the jobs in Novato so this will lead to increased commutes and traffic. Build closer to the city and job centers.	Countywide			х	х									
Q - 800 Atherton Avenue (North Novato)	Fire danger, sensitive and endangered species in this area. Wildlife corridor.	Countywide									Х	Х			
Q - 800 Atherton Avenue (North Novato)	Put them all here.	Countywide													Х
Q - 800 Atherton Avenue (North Novato)	Atherton Avenue is severely affected when Route 37 floods, with several hundred additional cars travelling this route. This is an area where the county has mandated minimum lot sizes and has retained the "rural, agrarian" nature of the area. As a result there are no stop signs or street lights. Developing highly dense housing in the Atherton corridor is risky until the Hwy 37 flooding problems are fixed, and once they are the housing that is built should not be at a density above 10 units per acre given the lack of infrastructure.	Enviro Hazard		Х		х				Х	Х				
R1 - 5800 Sir Francis Drake Boulevard (San Geronimo Valley)	Don't even think about it.	Countywide							Х						
															_

R1 - 5800 Sir Francis Drake Boulevard (San Geronimo Valley)	No public transit and fire risk.	Countywide					х					х			
R1 - 5800 Sir Francis Drake Boulevard (San Geronimo Vallev)	Point Reyes is a great place to build more housing. Lovely community, local businesses would greatly benefit from more weekday patrons.	Countywide													Х
R1 - 5800 Sir Francis Drake Boulevard (San Geronimo Valley)	This site should only be used for the fire dept. or for other public community services with the currently existing building. It's part of a large open space property that needs to continue to be preserved as open space in perpetuity.	Countywide									Х				
R10 - 200 San Pedro Road (Santa Venetia)	Traffic already terrible here.	Countywide			Х										
R11 - 110 Strawberry Drive (Strawberry)	Family Housing and workforce housing would be nice hereas long as there is plenty of parking for the new residents as parking is key	Countywide													Х
R11 - 110 Strawberry Drive (Strawberry)	Strawberry Drive is already impacted with very little ingress or egress. 28 is FAR TOO MUCH. All intersections here have a failing grade and there is no room to expand. Do not feed us a line that people living in these units will use public transportation as it has been proven time and time again that is not the case.	Countywide			х				х						
R11 - 110 Strawberry Drive (Strawberry)	Strongly prefer more housing in locations like this closer to the city - where jobs are - to shorten commutes and decrease traffic sprawl. Also like that this site is also close to the highway/commuter corridor. Density closer to the city like this location is preferred.	Countywide													Х
R11 - 110 Strawberry Drive (Strawberry)	The property would be fine for housing, but the increased traffic to the nearby intersections would be untenable. Specifically, the intersections of Redwood Highway Frontage Road with Seminary Drive (at the 7-Eleven) and Tiburon Blvd to the north are both overloaded, and will be several fold worse already with the planned Seminary development within Strawberry. Adding additional housing here would further overload these intersections which have no alternative routes for traffic coming to/from the area.	Countywide			Х										
R12 - Mesa Road (Bolinas)	Lack of public transportation.	Countywide					Χ								
R13 - 26600 State Route 1 (Tomales)	Lack of public transportation.	Countywide					Х								
R14 - 13270 Sir Francis Drake Boulevard (Inverness)	sites on Tomales Bay are not suitable due to sea level rise	Enviro Hazard								Х					
R14 - 13270 Sir Francis Drake Boulevard (Inverness)	This is downtown Inverness. Sea level rise, water rationing, septic concerns all point to this as a bad choice.	Infill							Х	Х		Х	Х		
R15 -12785 Sir Francis Drake Boulevard (Inverness)	Rural area with serious water availability and fire safety issues. Transportation is non-existent. Use sub/urban sites where infrastructure and infilling can be maximized.	Infill					Х				Х	Х	Х		
R16 - 60 Fifth Street (Pt. Reyes Station)	Lack of public transportation.	Countywide					Х								
R16 - 60 Fifth Street (Pt. Reyes Station)	This is half of the developed commercial area in a small town, already overtaxed by tourism. Water availability is a serious question for the residents now. Septic issues exist due to a high water table. Sea level rise will impact this area. Traffic and parking problems exist today.	Infill			Х	Х				Х			Х		
R17 - 11598 State Route 1 (Pt. Reyes Station)	Lack of public transportation.	Countywide					Х								
R17 - 11598 State Route 1 (Pt. Reyes Station)	no septic. no safe egress/ingress for 60 units (#100+/- cars 2 x daily). hilly topography. on watershed	Enviro Hazard			Χ						Х	Х	Х		
R17 - 11598 State Route 1 (Pt. Reyes Station)	This is a rural area with serious infrastructure considerations and restrictions. Water availability is questionable, waste water concerns above a fragile creek side ecosystem. Fire danger exists. Climate change will only exacerbate these issues. Infilling urban/suburban areas is preferable.	Infill						Х		Х	Х		х		
R18 - 375 Shoreline Highway (Tamalpais)	There is way too much traffic in Tam Junction. It is the worst place imaginable to add more housing. Everyone forgets about all the tourist traffic that has to go through Tam Junction. Muir Woods get's a million visitors a year, Muir Beach, Stinson, and Mt. Tam and MMWD all get millions of visitors and probably all of that traffic goes through Tam Junction	Countywide			X										
R18 - 375 Shoreline Highway (Tamalpais)	Traffic and fire risk are a problem.	Countywide			Х							Х			
R19 - Tennessee Valley Road (Tamalpais)	Density closer to the city like this location is preferred. Along the highway/commuter corridor is a plus as well.	Countywide													Χ
R19 - Tennessee Valley Road (Tamalpais)	Same thing, Tam junction is already slammed with traffic.	Countywide			Х										
R19 - Tennessee Valley Road (Tamalpais)	Traffic is a problem.	Countywide			Х

R2 - North Knoll Road and St. Thomas Drive (Strawberry)	"The access to the Eagle Rock Road area is already very difficult. The narrow street, especially on the lower exit side, is concerning should there be more development in the area. All it takes is one truck to completely block the exit path from this area. I am already concerned about getting out safely should a fire happen in this area which has high fire potential. With the steep hill median strip (that is constantly slipping in rain storms) there is nowhere to widen the road. These steep hillsides are not a good location for additional housing, especially multi-tenant housing. The current traffic backing up at the Tiburon Blvd/Blithedale exit is already a problem. Additional traffic at this location is not a good idea. Please remove sites R2 and R7."	Countywide			х				х			х			
R2 - North Knoll Road and St. Thomas Drive (Strawberry)	Access to this location is horrible. There are NO sidewalks already to and from the location. People are almost hit daily walking on North Knoll Road. There is NO ability to add sidewalks due to the topography. The streets here are narrow and you are simply adding 50+ new cars (please do not try and say this is transportation friendly and that people here won't own cars).	Countywide			Х	Х		Х				Х			

	COMMENTS RECEIVED VIA BALANCING	G ACT SUBIN	liooid	אכ			 	 						
R2 - North Knoll Road and St. Thomas Drive (Strawberry)	No infrastructure including water hook-up, endangered plant species and wildlife habitats threatened. No easy traffic access including for fire evacuation. That hillside just caught fire in 2021; noisy right next to freeway at hill due to cars and trucks revving engines to get over hill	Countywide		х		Х				Х	Х	Х		
R2 - North Knoll Road and St. Thomas Drive (Strawberry)	Strongly prefer more housing in locations like this closer to the city - where jobs are - to shorten commutes and decrease traffic sprawl. This site is also right along the highway/commuting corridor which is a plus. Density closer to the city like this location is preferred.	Countywide												х
R2 - North Knoll Road and St. Thomas Drive (Strawberry)	There is already multi unit housing in the area. Traffic is a problem.	Countywide				Х		Х						
R2 - North Knoll Road and St. Thomas Drive (Strawberry)	This is around the corner from where I live in Kruger Pines Retirement Home at 47 N Knoll Road and this would be a fine location for more Senior housing which is much needed for boomers born 1946-1964 who are falling into homelessness with more and more frequency. Marin Food Bank could deliver food and Extra Food too since they already come here. This would be a welcome, much needed addition to the neighborhood.	Countywide											х	х
R2 - North Knoll Road and St. Thomas Drive (Strawberry)	This is pristine natural land with an abundance of local species of wildlife.	Countywide								Х				
R2 - North Knoll Road and St. Thomas Drive (Strawberry)	This site is not appropriate for high density housing. The Eagle Rock neighborhood already has traffic problems, and adding units will exacerbate those issues. This particular site is in an inaccessible extreme slope. Adding high density housing to this site will also destroy the family neighborhood surrounded by open space. Please consider repurposing more urban locations.	Countywide				х		х		х				
R20 - 260 Redwood Highway Frontage Road (Almonte)	Density closer to the city like this location is preferred. Along the highway/commuter corridor is a plus as well.	Countywide												Х
R20 - 260 Redwood Highway Frontage Road (Almonte)	prone to flooding, seal level rise and traffic on 101 horrible and traffic through Tam junction horrible. Wrong place to add more housing	Countywide				Х			Х					
R20 - 260 Redwood Highway Frontage Road (Almonte)	Storymaps.arcgis.com Richardson bay resilience SLR projections and interactive map	Enviro Hazard							Х					
R20 - 260 Redwood Highway Frontage Road (Almonte)	This Infill site that was in a Redevelopment area decades ago, is presently zoned for a Hotel, with a garage built under the building, adjacent to Richardson Bay, a 100,000 S.F. Office building on the North and a houseboat community with an Office building on the South side. A distinctively designed building with state-of-the-art innovative elements addressing Climate change, Sea level rise and other changing environmental conditions in crisis mode, such as flooding, fire, power outages, etc. could provide very convenient work force, senior and affordable Housing, together with a Hotel, consisting of several stories of coexisting living- featuring materials and components that would demonstrate how imaginative and solution oriented goals can be attained, while getting cars off the road and facilitating the use of bicycles, buses, walking and jogging to nearby destinations - while also providing jobs and educating prospective workers in the construction, maintenance and service in the hospitality Industry. The substantial fees received by the county of Marin and monies spent with the nearby merchants and businesses would be of great value to the countywide community!	Infill												х
R21 - 204 Flamingo Road (Tamalpais)	Again, Tam junction - already beyond carrying capacity. Why doesn't anyone do a traffic study? We're getting all of West Marin's traffic and MV's traffic. The entire Tam junction needs total rebuild and redesign before any additional housing is put there. This should be obvious.	Countywide				х								
R21 - 204 Flamingo Road (Tamalpais)	This looks like a good site to put 21 housing units in for seniors we need more senior housing and they do not go far very often and so this would not add to much traffic congestion if they were given senior housing there.	Countywide												Х
R21 - 204 Flamingo Road (Tamalpais)	Storymaps.arcgis.com Richardson bay resilience SLR projections and interactive map	Enviro Hazard							Х					
R22 - 2400 Sir Francis Drake Drive (Unincorporated Fairfax)	Fairfax is a terrible place to do massive development. SFD blvd is slammed with all kinds of traffic. Local and tourist traffic. Pt. Reyes, Olema, Stinson, MMWD all get millions of visitors a year- all of which travel on SFD.	Countywide				х								
R22 - 2400 Sir Francis Drake Drive (Unincorporated Fairfax)	More senior housing is needed and they would not add to the traffic congestion on Sir Francis Drake in the AM & PM peak traffic times.	Countywide												Х
R22 - 2400 Sir Francis Drake Drive (Unincorporated Fairfax)	Prefer other housing closer to the highway/commuting corridor and closer to the city for shorter commute to jobs.	Countywide			Х									
R3 - 275 Olive Avenue (Blackpoint)	This location is not within walking distance or near any public transit including bus stops, grocery store, gas station, or any amenities. Recommend to instead build more housing near those amenities and public transit. It is also farthest away from most of the jobs people commute to in the city or East Bay, so will increase commute times and congestion due to lack of being near any public transit. Prefer more density in other locations that are closer to the city.	Countywide			х	х	х							
R4 - 5600 Nicasio Valley Road (Nicasio)	There are lots of agricultural workers in West Marin who would benefit from affordable housing in Nicasio.	Countywide												Х
R5 - 299 Olive Avenue (Blackpoint)	This location is not within walking distance or near any public transit including bus stops, grocery store, gas station, or any amenities. Recommend to instead build more housing near those amenities and public transit. It is also farthest away from most of the jobs people commute to in the city or East Bay, so will increase commute times and congestion due to lack of being near any public transit. Density in other locations closer to the city is preferred.	Countywide			Х	х	х							
R6 - Donahue Street (Marin City)	Density closer to the city as in this location is preferred. Along the highway/commuter corridor is a plus as well.	Countywide												Х
R6 - Donahue Street (Marin City)	Placing additional units here wouldn't be in line with the "Address Racial Equity and Historic Patterns of Segregation" Scenario because there is already a majority of publis housing and low income units in Marin City	Equity											х

R7 - Eagle Rock Road (Strawberry)	"The access to the Eagle Rock Road area is already very difficult. The narrow street, especially on the lower exit side, is concerning should there be more development in the area. All it takes is one truck to completely block the exit path from this area. I am already concerned about getting out safely should a fire happen in this area which has high fire potential. With the steep hill median strip (that is constantly slipping in rain storms) there is nowhere to widen the road. These steep hillsides are not a good location for additional housing, especially multi-tenant housing. The current traffic backing up at the Tiburon Blvd/Blithedale exit is already a problem. Additional traffic at this location is not a good idea. Please remove sites R2 and R7."	Countywide		x			Х			х			
R7 - Eagle Rock Road (Strawberry)	Eagle Rock is already pretty well built-out. The ability to turn off of the main intersection here is already hotly contested. This would be more cars with the inability to turn to go home. Do not feed us all the line that people who live here will not have cars and will only use public transportation. That never turns out to be the case.	Countywide		x	х								
R7 - Eagle Rock Road (Strawberry)	Incredibly steep terrain; no room for 32 units; no water hook-up, access or other infrastructure, which could lead to neighborhood evacuation problems in a fire-prone area; already bad traffic on tiburon boulevard; abundant wildlife with nowhere to go if you destroy their habitat	,	х	Х			х	Х		x	х		
R7 - Eagle Rock Road (Strawberry)	Prefer more housing in locations like this closer to the city - where jobs are - to shorten commutes and decrease traffic sprawl. Also like that this site is closer to the highway/commuting corridor.	Countywide											X
R7 - Eagle Rock Road (Strawberry)	This is pristine natural land with an abundance of local species of wildlife.	Countywide						Х					
R7 - Eagle Rock Road (Strawberry)	This is the next street over from me as I live in Kruger Pines 47 N Knoll Road- we would need a traffic light put at N Knoll Rd & Tiburon Blvd redo that intersection and make N Knoll Road a county maintained road too as it is just pot holes now and getting worse. The traffic has to be very aggressive leaving the neighborhood to make a right turn to get on the 101. There is no way to make left turns at all onto Tiburon Blvd. so that whole intersection needs to be redone. It could be family and workforce up on Eagle Rock and put the seniors on N. Knoll Road.	Countywide		Х								x	х
R7 - Eagle Rock Road (Strawberry)	This site is not appropriate for high density housing. The Eagle Rock neighborhood already has traffic problems, and adding units will exacerbate those issues. This particular site is on extreme slope - likely a 30% grade. Adding high density housing to this site will also destroy the family neighborhood surrounded by open space. Please consider repurposing more urban locations.	Countywide		Х			Х	Х					
R7 - Eagle Rock Road (Strawberry)	Traffic is horrible in this area. Also there is a lot of street parking on Eagle Rock. Adding additional housing will only cause worse conditions. The open space on ring mountain is home to many wildlife (owls, coyotes, turkey, deer and bobcats not to mention smaller animals as well.)	Countywide		Х	х		х	х					
R8 - 8901 Redwood Boulevard (North Novato)	Fire risk and lack of water for more residents. This appears to be over a state park. No development on a state park.	Countywide						Х		Х	Х		
R8 - 8901 Redwood Boulevard (North Novato)	Prefer more building down south near the city/jobs, for shorter commutes, less traffic, and less sprawl.	Countywide		Х				Х					
R8 - 8901 Redwood Boulevard (North Novato)	Too close to important Miwok site.	Enviro Hazard		Х					Х				
R9 - Sir Francis Drake Boulevard (San Quentin)	l raffic to get to the bridge is already terrible. Reroute the road going to the bridge and this would be a good location.	Countywide		Х									
Total RHNA Allocation	This is far too much that is being shoved down into the funnel where there is little land available (Strawberry, Marin City). The County needs to be aggressive and pushing back on ABAG and the state. San Francisco has over 40,000 vacant properties so let Weiner deal with getting San Francisco vacancies down and stop shoving the issue onto Marin.	Countywide

1009 Idleberry (Lucas Valley/Marinwood)	I am concerned since I never received this notice. I learned about it from one neighbor on Thursday 2/24. How were property owners in this area notified? How many homeowners have you contacted. I don't know any who has been notified except the neighbor that told me. Please give me the courtesy of a response. This is a lovely area but with many limitations & constraints for development – infrastructure limited ingress & egress on Lucas Valley Road schools etc. Additionally this is a WUI wildfire area. A recent minor fire caused limited area evacuations. I was evacuated and this small event caused alarming road congestion. In case of a more extensive fire it would be a disaster. 223 Shoreline HIghway (Tam Junction)	(Comment edited for length) Sustainable TamAlmonte has the following comments and recommendations regarding the merits of the above referenced Tam Valley, Almonte, and Manzanita Candidate Housing Sites listed in the 2023-2031 Housing Element DRAFT Candidate Housing Sites List. Due to the uniquee characteristics of the area, encouraging residential development, especially high-density development, at the above referenced Sites would increase the risk of undue harm to the environment and undue hardship, illness, injury and/or death to the current and future residents. The Tam Valley, Almonte, and Manzanita commercial lowlands, in which the above referenced sites are located, experience the most number of environmental constraints and hazards of any area in Unincorporated Marin. Both the Marin Countywide Plan's ElR and the 2012 Housing Element's SEIR demonstrate that development at these sites would exacerbate the existing dangerous conditions and add new significant adverse environmental impacts (which) magnifies the probability that a tragedy would ensue and the multiple mitigations that a developer would need to fulfill would cause development costs to soar. These factors make the sites unsuitable for affordable housing. The only acceptable course of action is to eliminate the sites from the innertory. Below is a list of the unique natural features, hazards, and limited resources in the Tam Valley, Almonte, and Manzanita lowlands that constrain development and population growth and substantiate our argument. For a quick overview of these constraints, please view the attached table. I. Dangerous Traffic with Unacceptable Level Of Service – LOS "F" Of Local Roadways:. II. Flooding, 100 Year Floodplain, Impending Sea Level Rise III. Filled Marsh Areas With High Seismic Activity, Liquefaction, Subsidence and Mud Displacement. IV. Air Quality & Noise: Increased Risk of Residents Developing Serious Illness Due to Living Near Major Roadways. V. Hazardous Materials: For additional information regarding potential health	Email (See Email Comments Received.PDF, pp. 123-151)	x	X	x	х		x		x	x	x	x	x	x	x

254 Lucas Valley Road near Terra Linda Ridge	I am writing to urge you NOT to approve the Marinwood/Lucas Valley sites under consideration to satisfy the Association of Bay Area Governments Regional Housing Needs Allocation Plan. Developments at these six sites (St. Vincent's School, Marinwood Market, 530 Blackstone Drive, 7 Mt. Lassen, 2 Jeannette Prandi Way, and Lucas Valley Road near Terra Linda Ridge) would result in more than 2300 housing units. While I know that some of the proposed housing is intended for teachers and other critical workers and for low income housing, both of which are important and necessary, it seems like too much development for the infrastructure of this small area. Additionally, all of these proposed development sites are within the Miller Creek School District boundaries and the unfunded impact of these developments on the District would be disastrous. Since the District is currently funded using a Basic Aid Model, it gets no per pupil funding. This means that all the additional students these developments generate will not result in additional funding for the District.	Email		x	x					×							×	
254 Lucas Valley Road near Terra Linda Ridge	I found the online tools for commenting cumbersome and inscrutable, and much too time consuming to use. So, the following are my comments about specific housing allotment recommendations in Marinwood Lucas Valley. Lucas Valley Rd/near terra Linda Ridge: 26 Where is this? Where the stable is now located?	Email

expansion, the amount proposed by the county is overwhelming. Per the board of supervisors principles, please note my feetback below. 1: Ensure Terra Linda Ridge 254 Lucas Valley Road near Terra Linda Ridge This letter is in regards to the proposed site and distribution of housing in unincorporated Marin St Uncertainally double to the population of this area, affecting all services -sheriff, fire, schools, traffic, etc. Marinwood/LUCAS VALLEY area is being considered for a majority of this housing in unincorporated Marins St Uncertainally double out in the proposed site and distribution of housing in the Lucas Valley Marinwood area. While I feel this area can support some expansion, the amount proposed by the county is overwhelming. Per the board of supervisors principles, please note my feedback below. 1: Ensure 254 Lucas Valley Road near Terra Linda Ridge This letter is in regards to the proposed site and distribution of housing in the Lucas Valley/Marinwood area. While I feel this area can support some expansion, the amount proposed by the county is overwhelming. Per the board of supervisors principles, please note my feedback below. 1: Ensure 254 Lucas Valley Road near Terra Linda Ridge This letter is in regards to the proposed site and distribution of housing in the Lucas Valley/Marinwood area. While I feel this area can support some expansion, the amount proposed by the Color board of the proposed of the support of the supervisors principles, please note my feedback below. 1: Ensure 254 Lucas Valley Road near Terra Linda Ridge This letter is in regards to the proposed site and distribution of housing in the Lucas Valley/Marinwood Area to a support to the proposed to the proposed of the proposed to some moderate increase of housing united and part over the Vite Lacas Valley V Marinwood Area currently has less than rough	,	general: I don't know what constitutes median vs low income, but in general I support add'I housing strategically placed and sensitively designed (to minimize negative impact on the environment and established communities) for essential workers such as school teachers, sheriff, police & fire dept and hospital staffers, many of whom currently commute long distances to work in the areas they serve. I'd like to see new homeowning opportunities (at below market rates) made available to these workers, as building more high-priced rental units serves no one but property owners. Sites under consideration in the Marinwood/Lucas Valley areas: St Vincent's School – 1800; Marinwood Market – 136. These are both logical, less problematic sites for development, as they are walkable to the GG bus stop at/near Miller Creek & Marinwood Aves, with quick, easy scess to the 101 fwy. I really hope to see sensitive urban planning on the St. Vincents site, so the beautiful open space currently grazed by cows does not become yet another soulless jungle of buildings standing shoulder to shoulder facing the freeway. Speaking as someone who's actually rooting for the Smart Train to not only survive, but thrive: part of any development of these sites should include a bike path/paths to connect either or both to the Civic Center Smart station. And/or a shuttle bus (it's too long to walk for commuters),530 Blackstone Drive (site of religious house) – 32. I've no knowledge/opinion re: this site. 7 Mt Lassen (site of office park) – 58. 2 Jeannette Prandi Way (site of Juvenile Hall) – 254. My husband & I currently rent an office at 7 Mt. Lassen, so it's news to us that this site's under consideration. It's a beautiful, unique office setting that serves both the Upper and Lower Lucas Valley communities as a place of business to walk to I'd hate to see that disappear!!! However, I wouldn't be adverse to seeing a portion of the current 7 Mt. Lassen structures converted to workfilive spaces, if sensitively planned. Maybe 30%. My comments re: St. V	Email	х		х	х		x	x			х		x			x	x
expansion, the amount proposed by the county is o werwhelming. Per the board of supervisors principles, please note my feedback below 1: Ensure Countywide Distribution: The majority of housing in unincorporated Marin County is being distributed to Marinwood/LLCAS Nature 1 and a requitable distribution and will potentially double the population of this area, affecting all services- sheriff, fire, schools, traffic, etc. Marinwood/LLCAS VALLEY rate is being considered for a majority of this housing in unincorporated Marin: St Vincents: 1800 Marinwood Market: 136 Blackstone (site of religious house): 32 Mt Lasssen/deli: 58 Jeanette Prandi/Juvi: 254 Lucas Valley Adhrear terra Linda Ridge; 26 Total: 2306. (This could be up to 60% of the total housing for unincorporated Marin) Households in Marinwood/LUCAS VALLEY currently 2412. (This could potentially double our size) We have seen the preliminary list of potential housing sites for Marin County, including in unincorporated areas such as Marinwood/Lucas Valley, as developed by the ABAG (Regional Housing Needs Allocation Plan), and approved by the California Department of Housing and Community Development. The plan includes 2,412 units within the Lucas Valley areas: St Vincent's School - 1,800; Marinwood Market - 136,503 Blackstone Drive (site of religious house) - 32 7, Mt Lassen (site of office park) - 56, 23 Jeannette Prand Way (site of Juvenivood Market - 136,503 Blackstone Drive (site of religious house) - 32 National Community of Marinwood Allocas Valley Administration of the Association of the		expansion, the amount proposed by the county is overwhelming. Per the board of supervisors principles, please note my feedback below. 1: Ensure Countywide Distribution: The majority of housing in unincorporated Marin County is being distributed to Marinwood/LUCAS VALLEY. This does not appear to be an equitable distribution and will potentially double the population of this area, affecting all services- sheriff, fire, schools, traffic, etc. Marinwood/LUCAS VALLEY area is being considered for a majority of this housing in unincorporated Marin: St Vincents: 1800 Marinwood Market: 136 Blackstone (site of religious house): 32 Mt Lassen/deli: 58 Jeanette Prandi/Juvi: 254 Lucas Valley Rd/near terra Linda Ridge: 26 Total: 2306. (This could be up to 60% of the total housing	Email		x	x	x				x				X				
by the ABAG (Regional Housing Needs Allocation Plan), and approved by the California Department of Housing and Community Development. The plan includes 2,412 units within the Lucas Valley / Marinwood area (accounting for 86% of the 3,569 units within unincorporated Marin County). Sites under consideration in the Marinwood / Lucas Valley areas: St Voicent's School - 1,800; Marinwood Market – 136; 530 Blackstone Drive (site of religious house) - 32 7; Mt Lassen (site of office park) – 58; 2 Jeannette Prandi Way (site of Juvenile Hall); 254 LucasValley Rd/near terra Linda Ridge: 26. We are not opposed to some moderate increase of housing units in the area. However, we have some serious concerns regarding these potential sites: (1) The Lucas Valley / Marinwood area currently has less than roughly 1,750 homes, spread across a roughly 3,5 mile valley corridor, almost all of which are single family dwellings, and the overwhelming majority of which are one or two story homes. There are no large multi-unit apartment buildings in this area. The overall magnitude of the increase in units in this area (2,412 units) is disproportionately large compared to the current housing density of the area. The proposed increase would more than double the overall number of housing units in the area. (2) The area to the south and west of St. Vincent's School (east of HWY 101) has been discussed as a potential development site for some time. Although multi-unit housing could easily be developed there, adding 1,800 units would completely overwhelm the property and this very large number of additional units represents an enormous growth for the area, on the same order of units as currently exist in all of Lucas Valley / Marinwood. To fit this large number of units, the development would likely include large three (or more) story structures, which do not currently exist anywhere in this area. (3) The site at 530 Blackstone Drive (current site of religious house) could easily fit a multi-unit development, however 32 to the other of the area	•	expansion, the amount proposed by the county is overwhelming. Per the board of supervisors principles, please note my feedback below. 1: Ensure Countywide Distribution: The majority of housing in unincorporated Marin County is being distributed to Marinwood/LUCAS VALLEY. This does not appear to be an equitable distribution and will potentially double the population of this area, affecting all services- sheriff, fire, schools, traffic, etc. Marinwood/LUCAS VALLEY area is being considered for a majority of this housing in unincorporated Marin: St Vincents: 1800 Marinwood Market: 136 Blackstone (site of religious house): 32 Mt Lassen/deli: 58 Jeanette Prandi/Juvi: 254 Lucas Valley Rd/near terra Linda Ridge: 26 Total: 2306. Terra Linda Ridge housing units. (4) The site at 7 Mt. Lassen Drive (currently two relatively small two-story office buildings) is far too small to fit 58 housing units without the new structure extending to three or more stories. (5) The site at 2 Jeannette Prandi Way (south of the Juvenile Hall) is currently an open space area with a loop path that is regularly used by nearby residents (including residents of the nearby senior housing development) as a recreational walking, bike riding, etc. area (and dog walking area). This open space area has been in existence for well over thirty years and is a very popular area regularly used by many residents of the adjoining neighborhoods. A potential development consisting of 254 units on this site would completely eliminate a treasured and much-used open space area and would likely require a multi-story (three or more stories) structure. Very few of the homes in this area of Lucas Valley / Marinwood are more than one story (almost all are one-story Eichler homes). Such a large development is completely out of character with the current land use in this area and should absolutely not be allowed to be developed on this site. (6) These potential new housing units would overwhelm the current capacity at our three elementary schools and one middle school. (8) These potential new housing units would create a very large additional burden to be developed on the current land use in this area and should should be a very large and would rereate a very large additional demand for water resources in the Lucas Valley / Marinwood area which are currently very limited. The simple number (2,412) of potential additional housing units in the Lucas Valley / Marinwood area is much too large and would represent an approximate doubling of the current housing density in the area. Each of the proposed developments presents issues regarding the size of new structures (including traffic, schools, and water). Thank you for your consideration of these issues when making decisions regarding poten	Terra Linda Ridge	by the ABAG (Regional Housing Needs Allocation Plan), and approved by the California Department of Housing and Community Development. The plan includes 2,412 units within the Lucas Valley/ Marinwood area (accounting for 68% of the 3,569 units within unincorporated Marin County). Sites under consideration in the Marinwood / Lucas Valley areas: St Vincent's School -1,800; Marinwood Market - 136; 530 Blackstone Drive (site of religious house) - 32 7; Mt Lassen (site of office park) - 58; 2 Jeannette Prandi Way (site of Juvenile Hall); 254 Lucas Valley Rd/near terra Linda Ridge: 26. We are not opposed to some moderate increase of housing units in the area. However, we have some serious concerns regarding these potential sites: (1) The Lucas Valley / Marinwood area currently has less than roughly 1,750 homes, spread across a roughly 3.5 mile valley corridor, almost all of which are single family dwellings, and the overwhelming majority of which are one or two story homes. There are no large multi-unit apartment buildings in this area. The proposed increase would more than double the overall number of housing units in the area. (2) The area to the south and west of St. Vincent's School (east of HWY 101) has been discussed as a potential development site for some time. Although multi-unit housing could easily be developed there, adding 1,800 units would completely overwhelm the property and this very large number of additional units represents an enormous growth for the area, on the same order of units as currently exist in all of Lucas Valley / Marinwood. To fit this large number of units, the development would likely include large three (or more) story structures, which do not currently exist anywhere in this area. (3) The site at 530 Blackstone Drive (current site of religious house) could easily be for more stories units as currently exist anywhere in this area. (5) The site at 2 Jeannette Prandi Way (south of the Juvenile Hall) is currently has less than 50 total housing units. (4) The site at 7 Mt. Lassen Drive	Email			х	х				x		x			x

4260 Sir Francis Drake Boulevard, Woodacre	Hello Supervisor Rodoni, This message is regarding the Housing Element site proposals. Like yourself, I was born and raised in West Marin County. My family has been ranching in Marin for 5 generations, and our love for the land and community runs deep. We understand that there is a need for more affordable housing in Marin, however; We oppose any development at 4260 Sir Francis Drake Boulevard (TUHS). Development on said property would be a detriment to the Valley consider how the lack of public transportation, water access, septic/sewage and the increase of traffic would impact the surrounding area - community, environment and wildlife as a whole. There are many other places in Marin where housing can be developed and integrated into the surrounding area to the benefit of the community. We are asking you to conserve the land at 4260 Sir Francis Drake Boulevard. Thank you for your time.	Email				x		x				x		X	X			
530 Blackstone Drive (Marinwood / Lucas Valley)	(Comment edited for length) The Lucas Valley Homeowner's Association represents 538 homes in the special R-1:B-LV zoning track in Upper Lucas Valley. We, the Board of Directors of the LVHA, would like to give our support for the efforts to increase housing in Marin County, and offer the following input. To begin with, our State Governor's Housing Plan incentivizes housing in urban centers near transpation and services, to reduce reliance on vehicles and their carbon footprint. If the County chooses a path contrary to the State Plan, and not utilize State funding incentives for urban development, then we ask for a reevaluation of the housing sites identified for our Lucas Valley/Marinwood area. As outlined below, areas 1 - 3 are both contrary to the RHNA requirements and pose a danger for emergency evacuations. There are several sites identified as potential home building sites in our area. 1. Lucas Valley Road /M thuir Court 2. Juvenile Detention Center/Jeanette Prandi Way 3. 7 Mt Lassen 4. 530 Blackstone Dr 5. Marinwood Market area. We agree that the Marinwood Market area is a suitable site. It is close to freeway access and has sufficient infrastructure in place, including amenities like food and gas, and can easily absorb new development. Ironically, the relative quantity proposed/identified at this site is comparably less than the quantity for site #2 above, which is a much less suitable site as shown in following comments. There are several factors that make areas 1 - 3 only marginally suitable for new building sites, and therefore should, at best, be only allowed limited building. Factors includer. High Wildfire Risk - Single Limited Evacuation Route. Water Shortages. Lack of Infill Infrastructure. Building Atop Unmarked Graves. Zoning Restrictions: The special zoning district for Upper Lucas Valley (R-1:B-LV) limits most buildings to a single story. The district was created in order to adhere to the architectural vision and design aeathetic of Joseph Eichler, a renowned architect highly influential in mo	Email (See Email Comments Received.PDF, pp. 173-178)		×		x				x		×	×	×	×		x	
530 Blackstone Drive (Marinwood / Lucas Valley)	I am writing to urge you NOT to approve the Marinwood/Lucas Valley sites under consideration to satisfy the Association of Bay Area Governments Regional Housing Needs Allocation Plan. Developments at these six sites (St. Vincent's School, Marinwood Market, 530 Blackstone Drive, 7 Mt. Lassen, 2 Jeannette Prandi Way, and Lucas Valley Road near Terra Linda Ridge) would result in more than 2300 housing units. While I know that some of the proposed housing is intended for teachers and other critical workers and for low income housing, both of which are important and necessary, it seems like too much development for the infrastructure of this small area. Additionally, all of these proposed development sites are within the Miller Creek School District boundaries and the unfunded impact of these developments on the District would be disastrous. Since the District is currently funded using a Basic Aid Model, it gets no per pupil funding. This means that all the additional students these developments generate will not result in additional funding for the District.	Email		X	x					х							x	
530 Blackstone Drive (Marinwood / Lucas Valley)	I found the online tools for commenting cumbersome and inscrutable, and much too time consuming to use. So, the following are my comments about specific housing allotment recommendations in Marinwood Lucas Valley: 530 Blackstone Drive (site of religious house) - 32 ???	Email																
530 Blackstone Drive (Marinwood / Lucas Valley)	This letter is in regards to the proposed site and distribution of housing in the Lucas Valley/Marinwood area. While I feel this area can support some expansion, the amount proposed by the county is overwhelming. Per the board of supervisors principles, please note my feedback below. 1: Ensure Countywide Distribution: The majority of housing in unincorporated Marin County is being distributed to Marinwood/LUCAS VALLEY. This does not appear to be an equitable distribution and will potentially double the population of this area, affecting all services- sheriff, fire, schools, traffic, etc. Marinwood/LUCAS VALLEY area is being considered for a majority of this housing in unincorporated Marin: St Vincents: 1800 Marinwood Market: 136 Blackstone (site of religious house): 32 Mt Lassen/deli: 58 Jeanette Prandi/Juvi: 254 Lucas Valley Rd/near terra Linda Ridge: 26 Total: 2306. (This could be up to 60% of the total housing for unincorporated Marin) Households in Marinwood/LUCAS VALLEY currently 2412. (This could potentially double our size)	Email		x	х	х				х				x

6 Jeanette Prandi Way (Lucas Valley)	I am concerned since I never received this notice. I learned about it from one neighbor on Thursday 2/24. How were property owners in this area notified? How many homeowners have you contacted. I don't know any who has been notified except the neighbor that told me. Please give me the courtesy of a response. This is a lovely area but with many limitations & constraints for development – infrastructure limited ingress & egress on Lucas Valley Road schools etc. Additionally this is a WUI wildfire area. A recent minor fire caused limited area evacuations. I was evacuated and this small event caused alarming road congestion. In case of a more extensive fire it would be a disaster.	Email		x	x	x								х				
6900 Sir Francis Drive Boulevard (San Geronino)	I could not access the Balancing Site work area so I am submitting these comments here. SGV is am amazing place to be due to low development. I have had the benefit of living here 25 years. What is being proposed in both of the areas of the School property and at the Gold Course are for higher end homes. Higher end homes are not a help for our community. We need homes for families with kids, We need Senior housing. We don't need another 127 above moderate income homes. Have some vision. Create a place with a grocery store, deli, and place for people to meet. Create Senior housing. Have ability to share vehicles. This area could become a hub for our community to use and support. It is also a sensitive environmental area. It used to be where water would spread out when it rained and slowly sink into the ground providing water all year round for the fish. More concrete and asphalt = more runoff. This vision of 98 separate high end homes here is not fitting to the rural area of our valley. It is just going to bring in more people who want a rural lifestyle from other areas and NOT give our locals homes. Every day, people, and familites are looking for homes. Renters are being pushed out. It is unaffordable to live here. Solve the problem we have now, housing for our locals. Not bring more people here. Also, the place being considered at 6900 Sir Francis Drake is a privately owned place. Owned by a family that owns quite a bit of property in the Valley as it is. I certainly hope public monies are not going to rehab this property.	Email								х		X					х

7 Mt. Lassen (Marinwood / Lucas Valley)	I'm taking this opportunity as a resident of Upper Lucas Valley in Marin to voice my views/concerns about the housing sites under consideration in my area: In general: I don't know what constitutes median vs low income, but in general I support add'l housing strategically placed and sensitively designed (to minimize negative impact on the environment and established communities) for essential workers such as school teachers, sheriff, police & fire dept and hospital staffers, many of whom currently commute long distances to work in the areas they serve. I'd like to see new homeowning opportunities (at below market rates) made available to these workers, as building more high-priced rental units serves no one but property owners. Sites under consideration in the Marinwood/Lucas Valley areas: St Vincent's School – 1800; Marinwood Market – 136. These are both logical, less problematic sites for development, as they are walkable to the GG bus stop at/near Miller Creek & Marinwood Aves, with quick, easy access to the 101 fwy. I really hope to see sensitive urban planning on the St. Vincents site, so the beautiful open space currently grazed by cows does not become yet another soulless jungle of buildings standing shoulder to shoulder facing the freeway. Speaking as someone who's actually rooting for the Smart Train to not only survive, but thrive: part of any development of these sites should include a bike path/paths to connect either or both to the Civic Center Smart Train to not only survive, but thrive: part of any development of these sites should include a bike path/paths to connect either or both to the Civic Center Smart Train to not only survive, but thrive: part of any development of these sites should include a bike path/paths to connect either or both to the Civic Center Smart Train to not only survive, but thrive: part of any development of these sites of religious house) – 32. I've no knowledge/opinion re: this site, 7 Mt Lassen (site of office park) – 58. 2 Jeannette Prandi Way (site of Juvenile Hall)	Email	×		х	x		x	x			x		x			x	x
7 Mt. Lassen (Marinwood / Lucas Valley)	Thank you for taking time to read over my thoughts on the new housing developments proposed for Jeanette Prandi Way, Mount Muir Court, Marinwood Plaza and 7 Lassen. As a Marin County native of 58 years and a Lucas valley resident of 26 years, I am surprised that these projects are so close to approval without adequate community outreach and input. There are many items of concern that I don't feel have been adequately answered for me to support these developments. At this time I am strongly opposed to these developments. I am respectfully requesting more time for our community to better understand these proposals and how we can collaboratively help the County solve its low income housing challenges. 7 Mt. Lassen (Marinwood / Lucas Valley)	With respect to the Lucas Valley sites being considered as potential housing sites, I submit the following comments: Sites located at 7 Mt. Lassen Drive and at Lucas Valley Road/Mt Muir near Terra Linda Ridge fail to comply with stated criteria for site selection. These sites present environmental hazards, including high fire danger as exhibited last August when a wildire approached housing and traffic became a hazard. These areas also fail to provide access to transportation, jobs, services, and amentities. Lucas Valley is an inappropriate choice. In addition, all of the Lucas Valley sites are in the wildland urban interface (WUI) zones that contradict Governor Newson's priorities to shift housing away from rural wildfire-prone areas and closer to urban centers. 70 Oxford Drive, Santa Venetia	RE: APN 180-261-10 Address: 70 Oxford Drive. The undersigned is owner of this large (27.8 acres, or approx. 1,211,000 sf) parcel. As currently zoned A2B2 (minimum lot size of 10,000 sf), it is extraordinarily and technically suitable for numerous residences. To help the County and the State to meet their Housing target, we agree with and welcome the proposed suggestion of multiple possible residences on this acreage, but suggest the number be reduced to a maximum of five (5). This necessarily lower number would result in (A) lot sizes more consistent with the surrounding neighborhood, as specifically recommended in the Santa Venetia Community Plan; (B) smaller homes consistent with the affordability targets; (C) lot configurations more accessible (requiring less ground disturbance) and least likely to conflict with numerous environmental and cultural constraints extant on the site; and (D) a density nearly ten times less than the initial proposal, thus significantly less negative impact on the current traffic congestion on NSPR which is the sole access/egress to Santa Venetia. B - 160 Shoreline Highway (Almonte)	(Comment edited for length) Sustainable TamAlmonte has the following comments and recommendations regarding the merits of the above referenced Tam Valley, Almonte, and Manzanita Candidate Housing Sites listed in the 2023-2031 Housing Element DRAFT Candidate Housing Sites List. Due to the unique characteristics of the area, encouraging residential development, especially high-density development, at the above referenced Sites would increase the risk of undue harm to the environment and undue hardship, illness, injury and/or death to the current and future residents. The Tam Valley, Almonte, and Manzanita commercial lowlands, in which the above referenced sites are located, experience the most number of environmental constraints and hazards of any area in Unincorporated Marin. Both the Marin Countywide Plan's ElR and the 2012 Housing Element's SeIR demonstrate that development at these sites would exacerbate the existing dangerous conditions and add new significant adverse environmental impacts (which) magnifies the probability that a tragedy would ensue and the multiple mitigations that a developer would need to fulfill would cause development costs to soar. These factors make the sites unsuitable for affordable housing. The only acceptable course of action is to eliminate the sites from the inventory. Below is a list of the unique natural features, hazards, and limited resources in the Tam Valley, Almonte, and Manzanita lowlands that constrain development and population growth and substantiate our argument. For a quick overview of these constraints, please view the attached table. I. Dangerous Traffic with Unacceptable Level Of Service – LOS "F" Of Local Roadways:. II. Flooding, 100 Year Floodplain, Impending Sea Level Rise III. Filled Marsh Areas With High Seismic Activity, Liquefaction, Subsidence and Mud Displacement. IV. Air Quality & Noise: Increased Risk of Residents Developing Serious lilness Due to Living Near Major Roadways. V. Hazardous Materials: For additional information regarding potential health	Email (See Email Comments Received.PDF, pp. 123-151)	x			x					x	×		x			x	
B - 160 Shoreline Highway (Almonte)	(Comment edited for length) Sustainable TamAlmonte has the following comments and recommendations regarding the merits of the above referenced Tam Valley, Almonte, and Manzanita Candidate Housing Sites listed in the 2023-2031 Housing Element DRAFT Candidate Housing Sites List. Due to the unique characteristics of the area, encouraging residential development, especially high-density development, at the above referenced Sites would increase the risk of undue harm to the environment and undue hardship, illness, injury and/or death to the current and future residents. The Tam Valley, Almonte, and Manzanita commercial lowlands, in which the above referenced sites are located, experience the most number of environmental constraints and hazards of any area in Unincorporated Marin. Both the Marin Countywide Plan's EIR and the 2012 Housing Element's SEIR demonstrate that development at these sites would exacerbate the existing dangerous conditions and add new significant adverse environmental impacts (which) magnifies the probability that a tragedy would ensue and the multiple mitigations that a developer would need to fulfill would cause development costs to soar. These factors make the sites unsuitable for affordable housing. The only acceptable course of action is to eliminate the sites from the inventory. Below is a list of the unique natural features, hazards, and limited resources in the Tam Valley, Almonte, and Manzanita lowlands that constrain development and population growth and substantiate our argument. For a quick overview of these constraints, please view the attached table. I. Dangerous Traffic with Unacceptable Level of Service – LOS "Fo of Local Roadways: II. Flooding, 100 Year Floodplain, Impending Sea Level Rise III. Filled Marsh Areas With High Seismic Activity, Liquefaction, Subsidence and Mud Displacement. IV. Air Quality & Noise: Increased Risk of Residents Developing Serious Illness Due to Living Near Major Roadways. V. Hazardous Materials: For additional information regarding potential health i	Email (See Email Comments Received.PDF, pp. 123-151)	x	x	x	x		х		x	x	x	x	X	x	x

B - 160 Shoreline Highway (Almonte)	As a concerned Mill Valley resident, I am writing to endorse TamAlmonte's letter to you re. the merits of Tam Valley, Almonte, & Manzanita Draft Candidate Housing Sites. Please think very carefully about sites, due to concerns about flooding, traffic and at times extreme fore danger with needed evacuation routes.	Email				х					х			х				
B - 160 Shoreline Highway (Almonte)	ATTACHMENT from Tam Design Review Board: Suggested Additional Policies to be Included in the Housing Element: 1. Wildfire Risk: Use mathematical modeling to investigate and predict wildfire risk. Prohibit the building of housing (even ADUs) in fire critical areas. 2. Flood Risk: Prohibit new housing in areas at risk of flooding from storm surge or sea level rise. 3. Bothin Mars'h to supplement and follow the policies that are designed to preserve the marsh. Given the County's recent efforts to restore and preserve the marsh, it makes no sense to select a site adjacent to the marsh for any form of dense development. 4. Evacuations: Require that new housing development along Shoreline Highway trigger a study and redesign of the traffic patterns to ensure that any new housing development in that are will not worsen traffic or increase the threat to life safety during an evacuation. Any assessment of traffic impacts of emergency evacuation should include new housing developments in the City of Mill Valley, as Shoreline Highway is the only exit should East Blithedale become blocked. 5. Short Term Rentals: Eliminate short-term rentals completely, or allow only on-site, owner-occupied properties to have short-term rentals. If someone does not live on-site, then the property is arguably an investment property only, and any claim of the need for that short-term rental income can be disregarded. This would enable ADUs to be counted toward the Housing Element numbers (see item #10), 6. Vacancies: Create a County mandated vacancy tax (as San Francisco is presently considering) to create disincentives for leaving housing units empty. Exemptions could be made for work from home or dwellings under a certain square footage if the homeowner works from home or needs the space for their own dwelling use. This has been documented to establish new housing units and therefore could be counted toward the housing numbers. 7. Speculative Investment: Eliminate corporate ownership of housing of up to 4 units. This will stop speculative o	Email																
B - 160 Shoreline Highway (Almonte)	I am writing to endorse the attached letter from Sustainable TamAlmonte to the Marin County Board of Supervisors and Planning Commission regarding the merits of the proposed Tam Valley, Almonte, and Manzanita Candidate Housing Sites listed in the 2023-2031 Marin County Housing Element DRAFT Candidate Housing Sites List. The need for housing our homeless is desperate but building residential space at Tam Junction is just NOT logical. The idea of building along Shoreling/ Highway 1 is very questionable. It is already a populated area with minimal sidewalks and access to needed resources. Thank you for your consideration of the attached letter	Email	х	х	х	х		х		х	х	х	х	х	х	х

B - 160 Shoreline Highway (Almonte)	We are writing in regard to the sites chosen for possible inclusion into county plans for housing in the Almonte/Tam Valley area of the county. Of the eight sites mentioned in your Balancing Act scenario, five are in a serious flood zone and one is located, not on, but in Richardson's Bay. Your commentary regarding the avoidance of environmental hazards has been completely ignored by whatever staff was used to choose these sites. The properties in the flood zone are 160 Shoreline, assessor's parcel # 052-041-27, 217 Shoreline, 223 Shoreline, and 204 Flamingo Rd. he site which is actually in the bay is 260 Redwood Hwy. Oddly enough, there is one property across the road from 160 Shoreline which is on solid ground. That would be the Muir Woods Lodge, a motel which actually has some open space which could be used for more housing. Why was this property ignored when lesser properties were chosen? Considering that we are familiar with the sites in the Almonte/Tam Valley area but not the rest of the county, it seems very strange that your staff has chosen properties which flood now and will continue to flood even more in the future. We wonder about your motivation in focusing on dangerous and inappropriate land. We also wonder why your staff has chosen properties which are pretty much lumped together in the same area which will further exacerbate the level F traffic problems which occur for us every day. If these sites were chosen to be close to public transportation, we would remind you that there is no viable public transportation in our area. So we would be looking forward to much more daily auto traffic. We are extremely disappointed in the Balancing Act which appears to be a distraction and of no practical value. We wonder how much time and money was wasted on promoting this ridiculous game. We also wonder how many sites in the rest of the county are totally inappropriate but are being promoted as a way to choose our fate which, as you know, is not the case. Surely, the Board of Supervisors can do better than pr	Email				x		×			×							
B - 160 Shoreline Highway (Almonte)	We oppose new housing in the areas mentioned in Tam Junction due to flooding and traffic and possible fires, can't get out of here now. Tell Scott Wiener and his friends to move on.	Email				Х					Х			Х				
B - 160 Shoreline Highway (Almonte)	Yesterday afternoon, I had the pleasure of speaking with Ms. Clark about the wisdom (actually, the lack of it) in the choice of potential sites around Tam Junction. Last night, I participated in the "roadshow" and, as a result, I am asking for your help in following up on one matter. During the presentation by Jose Rodriguez, he mentioned that one of the "Guiding Principles" for the BOS is the consideration of "environmental hazards". It doesn't take long to recognize the hazards of sea level rise, a long history of flooding and traffic in our neighborhood, among others. But, in addition, Mr. Rodriguez made an interesting rejoinder to a question about whether certain sites can be included in this study if such sites have been previously reviewed and rejected. He was not too clear but he suggested that the State of California has some "requirements" if a previously rejected site is again brought up for analysis. I asked him to specify (1) which of the four Tam Valley sites have already been considered and rejected, and (2) what are the state's requirements (if any)-that are different or additional—that would apply to such sites. He did not have the information available to answer either question and it didn't appear to me that there would be much of an effort to research those questions and disseminate the answers. Hence, this email. Do you know the answers? If not, would you please put in motion an effort to discover the answers? It may not be dispositive, but then again, it may be important. Bon Air Shopping Center (Greenbrae)	you should add this is your list of housing element sites. This land could accommodate many units, it is very close to public transportation and have plenty of available parking.	Email																х
D - Los Ranchitos Road (Los Ranchitos)	(Comment edited for length) The homeowners and residents of Los Ranchitos (LR) strongly believe that re-zoning LR for denser housing in inappropriate and short-sighted and strongly oppose this change. As you prepare the Housing Element for 2023-30, please take the following into consideration: 1. Incorrect categorization of parcels as "underutilized residential." As a neighborhood, and in terms of its past and current deeds, land use and zoning designations, LR is fully built out. LR was founded and developed on the basis of one (1) single family dwelling per parcel, with the minimum parcel size of 1 acre. For this reason alone, rezoning is undesirable to the property owners. There are few if any unbuilt lots, and the few that may exist are highly sloped properties up steep, one-lane streets, likely private roads maintained by the property owners themselves, not by the County. These are wholly inappropriate for multi-family development. 2. Arbitrary categorization of parcels as "underutilized residential." Not all the properties in LR are highlighted in the map. The assignment of properties as "underutilized residential" on the basis of property improvements is inconsistent and incorrect. Many properties that have been extensively remodeled are incorrectly designated as "underutilized." Many properties that have not been remodeled are not designated as "underutilized." Many properties hat have not been remodeled are not designated as "underutilized." Many properties hat have not been remodeled are not designated as "underutilized." Many properties hat have not been remodeled are not designated as "underutilized." Many properties have not been remodeled are not designated as "underutilized." Many properties have not seen maintained and are being lived in and enjoyed mainly by owners in residence. The high land to improvements ratio most likely results less from remodeling than from continuous, long-term property ownership under Proposition 13. Since many properties have not changed hands in recent years or even	Email (See Email Comments Received.PDF, pp. 64-74)	x	x		x				x		x		х	X

D - Los Ranchitos Road (Los Ranchitos)	I am writing in response to the 2023-2030 Housing Element Proposals for the Los Ranchitos area of Marin County. The current proposal for approximately 139 additional units in Los Ranchitos does not consider the safety of residents and the impact on the natural environment. 1. Los Ranchitos is made up of lots on narrow hillside streets, without sidewalks and street lights. Adding more units will increase the difficulty of fighting fires on the upper streets or safely evacuating residents when earthquakes occur. 2. The only way in and out of Los Ranchitos is on Los Ranchitos Road. Traffic on Los Ranchitos Road becomes gridlock today when there is the slightest slowdown on Highway 101. I expect traffic will increase as the proposed housing units in the Northgate Mall are built. Adding more units in Los Ranchitos will make that even worse. 3. Where will the water come from for all of these proposed additional housing units, including the ones outside of Los Ranchitos? We are all reducing water usage to meet current water restrictions. I would think new sources of water should be identified and funded before large scale housing increases are proposed. 4. Los Ranchitos lots were created and deeded to be 1 acre minimum parcels. We are zoned light agricultural, resulting in many barnyard animals and backyard vegetable gardens. The rural nature of this area is what attracted me to this area and I am sure that is true for most of my neighbors. As I noted above, many of our streets are on steep hills. So to get 139 additional units in Los Ranchitos zoning will be changed to allow apartment-like buildings on the flatter streets. This will destroy the rural/wildlife feel to this neighborhood.	Email		x		x			х	x		х		х	х			
D - Los Ranchitos Road (Los Ranchitos)	I find it hard to believe that this many new housing units is even being considered! For the last three years we've been told that we can use only 60 gallons of water a day. And you want to add 1000 more houses in Los Ranchitos? Where does the water come from? Traffic is already insane, and this will add nothing but more gridlock. What about the fire hazards in densely populated areas? I find it absolutely insane that this could even be in anybody's minds. The people that live in this area chose it because of the zoning and the lot sizes. How can you just swoop in and say the "hell with you we're going to do what we want"? What happened to private property rights?	Email				×				x				х	x			
D - Los Ranchitos Road (Los Ranchitos)	I write to express my great objections to the proposed housing element to rezone Los Ranchitos in unincorporated Marin County. It is not well thought out and will have many negative consequences. First, the infrastructure of water, fire protection, education do not support this proposal. Due to the hilly properties and limited egress/ingress greater density will create a major fire liability and risk. Already, only one insurer will write policies for this neighborhood. Second, Los Ranchitos lots were created and deeded to be 1 acre minimum parcels for single family housing. Increasing density here will destroy the rural nature of our neighborhood. Third, Los Ranchitos is a Wildland Urban Interface (WUI). In addition to increased fire hazard, it will greatly affect the native animal habitats of turkeys, owls, deer, foxes and other animals. Fourth, The only way into and out of Los Ranchitos is Los Ranchitos Road. That road is already gridlocked during morning rush hours. The addition of more new housing units in Northgate and Terra Linda will greatly exacerbate traffic and gridlock under normal circumstances, and create a huge potential for loss of life in the event of major emergencies like fires and earthquakes. Adding housing to Los Ranchitos will only make a bad situation worse. Fifth, Los Ranchitos is currently zoned agricultural with numerous barnyard animals kept here. Increased density will adversely affect them as well. This housing element is not well thought out and will be detrimental to health and safety as outlined above. I urge that this plan not be adopted.	Email				х				х		х		х

D - Los Ranchitos Road (Los Ranchitos)	I write to express my objections to proposals in the County's Housing Element to rezone the Los Ranchitos area of unincorporated Marin County. While I acknowledge the need for additional housing, and generally support efforts to equitably provide for the good of the greater community, I believe that the proposal to rezone this particular area of the County is misquided. For one thing, the only way into and out of Los Ranchitos is Los Anchitos foad. As things currently stand, Los Ranchitos is already a very congested road, used as the primary corridor through which people access the Northgate malls, Terra Linda High, Mark Day School and other points west of Highway 101 and in the valley between Central San Rafael and Lucas Valley. Los Ranchitos Road is already becoming a dangerous thoroughfare, particularly at the two Los Ranchitos Road/Circle Road intersections. The planned redevelopment of the Northgate Mall (up to 1,443 residential units, I understand?) is going to put even more pressure pressure on Los Ranchitos Road. The addition of another 80-139 more units in the Los Ranchitos neighbor is going to push things over the edge. Heavy traffic and gridlock will be normal circumstances - a nuisance on a daily basis, but a real safety hazard in the event of a significant emergency or disaster, such as an earthquader fire. Further, as a Wildland Urban Interface (WUI) area, the Los Ranchitos area already poses a significant risk (so much so that at least one insurer that I'm aware of already refuses to provide coverage to residents of the area). With greater density between them and the only road out, all residents of Los Ranchitos, but particularly this in the hilly portions of the neighborhood (the area). With greater density between them and the only road out, all residents of Los Ranchitos, but particularly this in the hilly portions of the neighborhood interface will make an adverse, if not existential, impact on turkey, owh, deer, fox and other animal populations that call the area home. The plan to rezone Lo	Email		x	x	x			x			x		x	x			
D - Los Ranchitos Road (Los Ranchitos)	Like many Los Ranchitos residents my wife and I both feel very strongly that we do not think additional development in our agricultural neighborhood is wise. Denser housing will destroy the area, cause additional traffic, eliminate much of the animal friendly atmosphere and potentially be significantly difficult for fire engines and other ingress and egress. Please reconsider and hopefully leave our area the beautiful place that we love.	Email				х				х		х		х				
D - Los Ranchitos Road (Los Ranchitos)	Los Ranchitos Housing Element Sites: I would like to comment about the upcoming Housing Element environmental review. I do not believe that there is infrastructure regarding Safety Elements and Water supply. Our driveways is 8 feet wide up a steep knoll. It is not conducive to adding density housing. The past two years drought, is an indication that we do not have enough rain to sustain our community. If we are to add more housing it will increase water usage. What will happen to the community if the water is not available. Regarding the infrastructure, the roads will need to be addressed. The safety will be more dangerous for emergency vehicles if the roads are full of traffic on two lane roads. Thank you for considering my comments to the environmental review	Email		х		х								Х	х			
E - 2 Jeannette Prandi Way (Lucas Valley)	(Comment edited for length) The Lucas Valley Homeowner's Association represents 538 homes in the special R-1:B-LV zoning track in Upper Lucas Valley. We, the Board of Directors of the LVHA, would like to give our support for the efforts to increase housing in Marin County, and offer the following input. To begin with, our State Governor's Housing Plan incentivizes housing in urban centers near transportation and services, to reduce reliance on vehicles and their carbon footprint. If the County chooses a path contrary to the State Plan, and not utilize State funding incentives for urban development, then we ask for a reevaluation of the housing sites identified for our Lucas Valley/Marinwood area. As outlined below, areas 1 - 3 are both contrary to the RHNA requirements and pose a danger for emergency evacuations. There are several sites identified as potential home building sites in our area. 1. Lucas Valley Road / Mt Muir Court 2. Juvenile Detention Center/Jeanette Prandi Way 3. 7 Mt Lassen 4. 530 Blackstone Dr 5. Marinwood Market area. We agree that the Marinwood Market area is a suitable site. It is close to freeway access and has sufficient infrastructure in place, including amenities like food and gas, and can easily absorb new development. Ironically, the relative quantity proposed/identified at this site is comparably less than the quantity for site #2 above, which is a much less suitable site as shown in following comments. There are several factors that make areas 1 - 3 only marginally suitable for new building sites, and therefore should, at best, be only allowed limited building. Factors include: High Wildfire Risk - Single Limited Evacuation Route. Water Shortages. Lack of Infill Infrastructure. Building Atop Unmarked Graves. Zoning Restrictions: The special zoning district for Upper Lucas Valley (R-1:B-LV) limits most buildings to a single story. The district was created in order to adhere to the architectural vision and design aesthetic of Joseph Eichler, a renowned architect highly influential in	Email (See Email Comments Received.PDF, pp. 173-178)		×		x				x		×	×	×	×		×	
E - 2 Jeannette Prandi Way (Lucas Valley)	I am concerned since I never received this notice. I learned about it from one neighbor on Thursday 2/24. How were property owners in this area notified? How many homeowners have you contacted. I don't know any who has been notified except the neighbor that told me. Please give me the courtesy of a response. This is a lovely area but with many limitations & constraints for development – infrastructure limited ingress & egress on Lucas Valley Road schools etc. Additionally this is a WUI wildfire area. A recent minor fire caused limited area evacuations. I was evacuated and this small event caused alarming road congestion. In case of a more extensive fire it would be a disaster. E - 2 Jeannette Prandi Way (Lucas Valley)	I am writing to urge you NOT to approve the Marinwood/Lucas Valley sites under consideration to satisfy the Association of Bay Area Governments Regional Housing Needs Allocation Plan. Developments at these six sites (St. Vincent's School, Marinwood Market, 530 Blackstone Drive, 7 Mt. Lassen, 2 Jeannette Prandi Way, and Lucas Valley Road near Terra Linda Ridge) would result in more than 2300 housing units. While I know that some of the proposed housing is intended for teachers and other critical workers and for low income housing, both of which are important and necessary, it seems like too much development for the infrastructure of this small area. Additionally, all of these proposed development sites are within the Miller Creek School District boundaries and the unfunded impact of these developments on the District would be disastrous. Since the District is currently funded using a Basic Aid Model, it gets no per pupil funding. This means that all the additional students these developments generate will not result in additional funding for the District.	Email	PUL	X	X	IKF	PKK	PIK	ACI	X	SEA	INAI	COL	FIK	vvA1	nL1	X	GDL
E - 2 Jeannette Prandi Way (Lucas Valley)	I found the online tools for commenting cumbersome and inscrutable, and much too time consuming to use. So, the following are my comments about specific housing allotment recommendations in Marinwood Lucas Valley.2 Jeannette Prandi Way (site of Juvenile Hall) - 254 100 or less Good location but too many units, must be affordable. Rotary Senior Housing is excellent. Perhaps expand affordable housing for seniors there with larger 2 BR units	Email															х	х
E - 2 Jeannette Prandi Way (Lucas Valley)	I see the maps and have concerns that things aren't matching. I'm not opposed to additional housing, but it should be done gradually and incrementally. I'm concerned about the number of units planned for Jeanette Prandi/Juvi of 254 units. That, I, believe, is WAY more than Rotary Village. It is one thing if it is planned as beautifully as Rotary Village with one-story facilities and have trees and landscaping. It is another thing if you build a 4 story building in the center of the meadow of Marin County Parks.	Email								х		х						
E - 2 Jeannette Prandi Way (Lucas Valley)	I'm taking this opportunity as a resident of Upper Lucas Valley in Marin to voice my views/concerns about the housing sites under consideration in my area: In general: I don't know what constitutes median vs low income, but in general I support add'l housing strategically placed and sensitively designed (to minimize negative impact on the environment and established communities) for essential workers such as school teachers, sheriff, police & fire dept and hospital staffers, many of whom currently commute long distances to work in the areas they serve. I'd like to see new homeowning opportunities (at below market rates) made available to these workers, as building more high-priced rental units serves no one but property owners. Sites under consideration in the Marinwood/Lucas Valley areas: St Vincent's School – 1800; Marinwood Market – 136. These are both logical, less problematic sites for development, as they are walkable to the GG bus stop at/near Miller Creek & Marinwood Aves, with quick, easy access to the 101 fwy. I really hope to see sensitive urban planning on the St. Vincents site, so the beautiful open space currently grazed by cows does not become yet another soulless jungle of buildings standing shoulder to shoulder facing the freeway. Speaking as someone who's actually rooting for the Smart Train to not only survive, but thrive; part of any development of these sites should include a bike path/paths to connect either or both to the Civic Center Smart station. And/or a shuttle bus (it's too long to walk for commuters).530 Blackstone Drive (site of religious house) – 32. I've no knowledge/opinion re: this site. 7 Mt Lassen (site of office park) – 58. 2 Jeannette Prandi Way (site of Juvenile Hall) – 254. My husband & I currently rent an office at 7 Mt. Lassen, so it's news to us that this site's under consideration. It's a beautiful, unique office setting that serves both the Upper and Lower Lucas Valley communities as a place of business to walk to! I'd hate to see that disappear!!! However, I wouldn	Email			x	х		x	x			×		x			x	×
E - 2 Jeannette Prandi Way (Lucas Valley)	my wife and I are long time residents of Lucas Valley and most every day we visit and walk in the delightful redwood lined area in front of Juvi. It is with shock and utter disappointment that I see that this site is being considered for additional apartment housing. In case u have not noticed the traffic on Lucas Valley road is already quite bad especially when inevitably get stopped at the new light on Los Gamos. If this new housing is approved the addI vehicles on the road will be intolerable Each new resident will need a car as there is NO reliable public transportation. Would make more sense to be built much closer to hwy 101 Please do NOT approve this thoughtless proposal	Email				х		х				х

E - 2 Jeannette Prandi Way (Lucas Valley)	Thank you for taking time to read over my thoughts on the new housing developments proposed for Jeanette Prandi Way, Mount Muir Court, Marinwood Plaza and 7 Lassen. As a Marin County native of 58 years and a Lucas valley resident of 26 years, I am surprised that these projects are so close to approval without adequate community outreach and input. There are many items of concern that I don't feel have been adequately answered for me to support these developments. At this time I am strongly opposed to these developments. I am respectfully requesting more time for our community to better understand these proposals and how we can collaboratively help the County solve its low income housing challenges.	Email																
E - 2 Jeannette Prandi Way (Lucas Valley)	This letter is in regards to the proposed site and distribution of housing in the Lucas Valley/Marinwood area. While I feel this area can support some expansion, the amount proposed by the county is overwhelming. Per the board of supervisors principles, please note my feedback below. 1: Ensure Countywide Distribution: The majority of housing in unincorporated Marin County is being distributed to Marinwood/LUCAS VALLEY. This does not appear to be an equitable distribution and will potentially double the population of this area, affecting all services- sheriff, fire, schools, traffic, etc. Marinwood/LUCAS VALLEY area is being considered for a majority of this housing in unincorporated Marin: St Vincents: 1800 Marinwood Market: 136 Blackstone (site of religious house); 32 Mt Lassen/deli: 58 Jeanette Prandi/Juvi: 254 Lucas Valley Rd/Inear terra Linda Ridge: 26 Total: 2306. (This could be up to 60% of the total housing for unincorporated Marin) Households in Marinwood/LUCAS VALLEY currently 2412. (This could potentially double our size)	Email ;		х	x	x				x				х

E - 2 Jeannette Prandi Way (Lucas Valley)	We have seen the preliminary list of potential housing sites for Marin County, including in unincorporated areas such as Marinwood/Lucas Valley, as developed by the ABAG (Regional Housing Needs Allocation Plan), and approved by the California Department of Housing and Community Development. The plan includes 2,412 units within the Lucas Valley / Marinwood area (accounting for 68% of the 3,569 units within unincorporated Marin County). Sites under consideration in the Marinwood / Lucas Valley areas: St Vincent's School - 1,800; Marinwood Market - 136; 530 Blackstone Drive (site of religious house) - 32 7; Mt Lassen (site of office park) - 58; 2 Jeannette Prandi Way (site of Juvenile Hall); 254 LucasValley Rd/near terra Linda Ridge; 26. We are not opposed to some moderate increase of housing units in the area. However, we have some serious concerns regarding these potential sites: (1) The Lucas Valley / Marinwood area currently has less than roughly 1,750 homes, spread across a roughly 3.5 mile valley corridor, almost all of which are single family dwellings, and the overwhelming majority of which are one or two story homes. There are no large multi-unit apartment buildings in this area. The overall magnitude of the increase in units in this area (2,412 units) is disproportionately large compared to the current housing density of the area. The proposed increase would more than double the overall number of housing units in the area. (2) The area to the south and west of St. Vincent's School (east of HWY 101) has been discussed as a potential development site for some time. Although multi-unit housing could easily be developed there, adding 1,800 units would completely overwhelm the property and this very large number of additional units represents an enormous growth for the area, on the same order of units as currently exist in all of Lucas Valley / Marinwood. To fit this large number of additional units represents an enormous growth for the area, on the same order of units as currently exist in all of Lucas Valle				×	×				×		X			x			
E - 2 Jeannette Prandi Way (Lucas Valley)	With respect to the Lucas Valley sites being considered as potential housing sites, I submit the following comments: Juvenile Hall Site Master Plan (A copy of the Master Plan and Appendix will be presented to the Board of Supervisors at the March 2, 2021 meeting.): A Master Plan was developed through collaboration of Marin County Supervisor Bob Roumiguiere, Planning Director Mark Reisenfeld, and Lucas Valley Community members. The Master Plan was submitted to the Board of Supervisors and adopted in 1994. The Plan encompasses the Jeanette Prandi and Juvenile Hall sites being considered as housing sites. The Master Plan provides: a. Upper Idylberry Corridor - The plan stipulates the area north of the Idylberry is transferred to the Open Space District, and there shall be no structures or other improvements north of the Idylberry Corridor. b. Lower SE portion of the Juvenile Hall Site - the lower grass area is preserved for recreational uses. c. SW corner of the site (Jeanette Prandi Way) - shall remain as County Administrative and Storage Facilities only. d. Rotary Senior Housing (Jeanette Prandi Way) - shall be limited to 55 units, single story only. e. Juvenile Hall and County Parks Offices - area shall remain as County facilities. No additional development is permitted. The restrictions of the Master Plan prohibit consideration of this entire area for possible housing sites. In addition, all of the Lucas Valley sites are in the wildland urban interface (WUI) zones that contradict Governor Newson's priorities to shift housing away from rural wildlfre-prone areas and closer to urban centers. G - 155 Marinwood Avenue (Marinwood)	(Comment edited for length) The Lucas Valley Homeowner's Association represents 538 homes in the special R-1:B-LV zoning track in Upper Lucas Valley. We, the Board of Directors of the LVHA, would like to give our support for the efforts to increase housing in Marin County, and offer the following input. To begin with, our State Governor's Housing Plan incentivizes housing in urban centers near transportation and services, to reduce reliance on vehicles and their carbon footprint. If the County chooses a path contrary to the State Plan, and not utilize State funding incentives for urban development, then we ask for a reevaluation of the housing sites identified for our Lucas Valley(Marinwood area. As outlined below, areas 1 - 3 are both contrary to the RHNA requirements and pose a danger for emergency evacuations. There are several sites identified as potential housing sites in our area. 1. Lucas Valley Road / Mt Muir Court 2. Juvenile Detention Center/Jeanette Prandi Way 3. 7 Mt Lassen 4. 530 Blackstone Dr 5. Marinwood Market area. We agree that the Marinwood Market area is a suitable site. It is close to freeway access and has sufficient infrastructure in place, including amenities like food and gas, and can easily absorb new development. Ironically, the relative quantity proposed/identified at this site is comparably less than the quantity for site #2 above, which is a much less suitable site as shown in following comments. There are several factors that make areas 1 - 3 only marginally suitable for new building sites, and therefore should, at best, be only allowed limited building. Factors includer: High Wildfire Risk - Single Limited Evacuation Route. Water Shortages. Lack of Infill Infrastructure. Building Atop Unmarked Graves. Zoning Restrictions: The special zoning district for Upper Lucas Valley (R-1:B-LV) limits most buildings to a single story. The district was created in order to adhere to the architectural vision and design aesthetic of Joseph Eichler, a renowned architect highly influential in mode	Email (See Email Comments Received.PDF, pp. 173-178)											×					×
G - 155 Marinwood Avenue (Marinwood)	I am writing to urge you NOT to approve the Marinwood/Lucas Valley sites under consideration to satisfy the Association of Bay Area Governments Regional Housing Needs Allocation Plan. Developments at these six sites (St. Vincent's School, Marinwood Market, 530 Blackstone Drive, 7 Mt. Lassen, 2 Jeannette Prandi Way, and Lucas Valley Road near Terra Linda Ridge) would result in more than 2300 housing units. While I know that some of the proposed housing is intended for teachers and other critical workers and for low income housing, both of which are important and necessary, it seems like too much development for the infrastructure of this small area. Additionally, all of these proposed development sites are within the Miller Creek School District boundaries and the unfunded impact of these developments on the District would be disastrous. Since the District is currently funded using a Basic Aid Model, it gets no per pupil funding. This means that all the additional students these developments generate will not result in additional funding for the District.	Email		×	х					x							х	
G - 155 Marinwood Avenue (Marinwood)	I found the online tools for commenting cumbersome and inscrutable, and much too time consuming to use. So, the following are my comments about specific housing allotment recommendations in Marinwood Lucas Valley. Marinwood Market - 136 100 or less: Best and necessary site for redevelopment, but it should be a mixed use development as was proposed by Bridge Housing some years ago. Housing number should be reduced to under 100	Email								х								
G - 155 Marinwood Avenue (Marinwood)	I hope that the Marinwood Plaza/market site is again under consideration for housing. As you most likely know, some 15 years or so ago, the community shot down an excellent proposal from Bridge Housing. Except for the market, the property remains a derelict eyesore. Many of us in Marinwood would like to see the property improved, including a modest amount of housing development, along with community amenities such as a coffee shop, brew pub, or other gathering place, and other shops such as hair salon, co-working space, etc. It is close to public transportation, schools, and major employers most notably Kaiser. It's a far superior site for development than the St Vincents property which has myriad sea level rise and other environmental challenges, and very little other infrastructure. I hope the property will be on be on tomorrow's meeting agenda.	Email																х
G - 155 Marinwood Avenue (Marinwood)	I see the maps and have concerns that things aren't matching. Then two of the sites are still contaminated from the former cleaners at Marinwood Market Plaza - St. Vincent's and Marinwood Market Plaza. So what happens with the housing planned in these locations?1936 units?	Email														Х		
G - 155 Marinwood Avenue (Marinwood)	I'm taking this opportunity as a resident of Upper Lucas Valley in Marin to voice my views/concerns about the housing sites under consideration in my area: In general: I don't know what constitutes median vs low income, but in general! support add't housing strategically placed and sensitively designed (to minimize negative impact on the environment and established communities) for essential workers such as school teachers, sheriff, police & fire dept and hospital staffers, many of whom currently commute long distances to work in the areas they serve. I'd like to see new homeowning opportunities (at below market rates) made available to these workers, as building more high-priced rental units serves no one but property owners. Sites under consideration in the Marinwood/Lucas Valley areas: St Vincent's School – 1800; Marinwood Market – 136. These are both logical, less problematic sites for development, as they are walkable to the GG bus stop at/near Miller Creek & Marinwood Aves, with quick, easy access to the 101 fwy. I really hope to see sensitive urban planning on the St. Vincents site, so the beautiful open space currently grazed by cows does not become yet another soulless jungle of buildings standing shoulder to shoulder facing the freeway. Speaking as someone who's actually rooting for the Smart Trai tation. And/or shuttle bus (it's too long to walk for commuters).530 Blackstone Drive (site of religious house) – 32. I've no knowledge/opinion re: this site. 7 Mt Lassen (site of office park) – 58. 2 Jeannette Prandi Way (site of Juvenile Hall) – 254. My husband & I currently rent an office at 7 Mt. Lassen, so it's news to us that this site's under consideration. It's a beautiful, unique office setting that serves both the Upper and Lower Lucas Valley communities as a place of business to walk to! I'd hate to see that disappear!!! However, I wouldn't be adverse to seeing a portion of the current 7 Mt. Lassen structures converted to work/live spaces, if sensitively planned. May bay 30%. My comments re: St. V	Email			×	×		х	×			×		×			x	×

G - 155 Marinwood Avenue (Marinwood)	Thank you for taking time to read over my thoughts on the new housing developments proposed for Jeanette Prandi Way, Mount Muir Court, Marinwood Plaza and 7 Lassen. As a Marin County native of 58 years and a Lucas valley resident of 26 years, I am surprised that these projects are so close to approval without adequate community outreach and input. There are many items of concern that I don't feel have been adequately answered for me to support these developments. At this time I am strongly opposed to these developments. I am respectfully requesting more time for our community to better understand these proposals and how we can collaboratively help the County solve its low income housing challenges.	Email																
G - 155 Marinwood Avenue (Marinwood)	The 2022 Marin County Candidates site for Unincorporated Marin and especially Marinwood/ Lucas Valley/Silveria Ranch is absurd. It targets just 5 square miles with 80% of the housing allocation for affordable housing in one community WITHOUT essential planning for schools, roads, government services, water, sewer and other essential services. Why "plan to fail"? Shouldn't a good faith effort to build affordable housing in our community laso include a comprehensive plan for accommodating growth? It doesn't. This is why it should be rejected today. Instead, let's address the core questions for growth AND the financial impact of adding massive amount of largely non profit housing to a single community WITHOUT ADDITIONAL TAX BASE. Marinwood/Lucas Valley currently has approximately 2700 housing units for 6000 residents. The proposed housing sites could add 2300 apartments and 5500 residents who ALL WILL NEED schools, water, government services, transportation, access to shopping, etc. Shouldn't a proper plan for growth precede approval for housing? One of the sites listed is Marinwood Plaza, our communities ONLY commercial plaza within walking distance for thousands of residents. If the plan for 160 units is approved, this would squeeze out a vital community center to the detriment of all. This is not including the problem of TOXIC WASTE contamination clean up suitable for residential dwelling is a long way off despite community pressure on the Regional Water Quality Control Board who will not enforce its own clean up orders on the current owners. Despite the harsh criticism of the RHNA process, I believe there is a real community desire for more affordable housing in a community that will be planned appropriately, won't redevelop our neighborhoods and utilize open spaces like Silveira Ranch, St Vincents and other sites. While everyone I know supports the idea of more housing, not a single one wants a poorly conceived plant that forces large housing projects without considering the impacts. Reject the current RHNA p	Email		×	×					x		х				x		
G - 155 Marinwood Avenue (Marinwood)	This letter is in regards to the proposed site and distribution of housing in the Lucas Valley/Marinwood area. While I feel this area can support some expansion, the amount proposed by the county is overwhelming. Per the board of supervisors principles, please note my feedback below. 1: Ensure Countywide Distribution: The majority of housing in unincorporated Marin County is being distributed to Marinwood/LUCAS VALLEY. This does not appear to be an equitable distribution and will potentially double the population of this area, affecting all services- sheriff, fire, schools, traffic, etc. Marinwood/LUCAS VALLEY area is being considered for a majority of this housing in unincorporated Marin: St Vincents: 1800 Marinwood Market: 136 Blackstone (site of religious house); 32 Mt Lassen/delic 58 Jeanette Prandi/Juvi 254 Lucas Vallep Rd/near terra Linda (290: 26 Total: 2306. G - 155 Marinwood Avenue (Marinwood)	While I am generally in favor of additional low-income housing in Marin, it appears that the proposals for development of Marinwood Avenue turn that are of our neighborhoods (I live across the street) into an area that exclusively low-income housing. Experiments with consolidating low-income housing in the 1960-80's proved to us that this does not work well. These areas become neglected bygovernment and residents alike. Is it possible to make these development more diverse?	Email															х	
	Hello and thank you for the opportunity to comment regarding Future Housing Sites in Marin County. I attended the local Housing meeting regarding Santa Venetia and Los Ranchitos on February 15th and live in the Santa Venetia area. Here are my comments from a Santa Venetia resident perspective: 1. The process, while advised by the Marin County Planning Department, is being run by a consulting agency that is not familiar with Marin County and the local areas & neighborhoods. 2. The number of assigned housing units to Santa Venetia, 422, ignores the following. Before housing site numbers are assigned and accepted, a "CEQA-lite" analysis should be performed to determine if the numbers and locations are practical from a CEQA perspective. We heard these concerns brushed off with the response that if any development is going to be done, a full CEQA would be completed before development could/would proceed. This would be an "after-the-fact" process, with the fact that the housing numbers and sites have already been assigned and accepted, and would be too late to be influential in the development process. a. There is only one practical vehicle road out of Santa Venetia to the freeway that is already heavily impacted by three schools, the one at the JCC, the Marin School, and Venetia Valley school, and a large pre-school. Traffic in & out of Santa Venetia is also already heavily impacted by the JCC, the Civic Center traffic, the Marin Lagoon traffic, the Veterans Memorial traffic, the Marin Lagoon Housing and the commercial enterprises along McInnis Parkway. b. Some of the sites selected are in wetlands areas, such as the McPhail school site next to North San Pedro Road, c. some of the sites selected are next to the Bay and subject to special development restrictions, such as the McPhail school site next to North San Pedro Road, c. some of the sites selected are next to the Bay and subject to special development restrictions, such as the McPhail school site, d. The total number of housing units assigned to Marin County,					х				x				x	×			
H - 1565 Vendola Drive (Santa Venetia)	Here in Santa Venetia, we are living with water shortages, traffic congestion, and our community's evacuation route was named the most dangerous in Marin and yet huge additional numbers of housing are proposed for this flood prone neighborhood. That's insanel We are not fooled by claims that these new residents won't drive everywhere. They will. We already know that every person of driving age in our neighborhood not only drives but owns a car, or truck. They line our streets, further restricting access routes. There are sites where housing can happen like at Northgate Mall, but not in our overcrowded flood zone.	Email				x				x	х			х				
H - 1565 Vendola Drive (Santa	Hi, I would like to object to 251 N San Pedro as a site to build housing. There is a Child Center there serving many families. The ball field on the property is used by the children at the school and people in the neighborhood. There are very few ball fields for Little League. This ball field should not be taken away from ball players. I live in the condo complex next door. Parking is already limited for residents and guests. We can't absorb all the people people who would live there who have more cars then the give spots for them and their guests. If housing needs to be built in Santa Venetia why not 1565 Vendola Dr? The school property there has not been used for decades.	Email																х
H - 1565 Vendola Drive (Santa Venetia)	I am a longtime resident of Santa Venetia in unincorporated Marin County, and a member of the Santa Venetia Neighborhood Association (SVNA). I, along with many of my neighbors, attended the February 15 Zoom meeting on the Housing Element initiative, which seems detached from the reality of worsening climate change. Much of Santa Venetia exists in a flood plain; other parts are in the WUI. With only single one-lane route in and out of the neighborhood — North San Pedro Road — our existing infrastructure is already stretched to the breaking point with daily traffic congestion restricting both egress and ingress. We currently have fewer than 1800 residences in Santa Venetia, yet the Housing Element recommends 422 additional units, representing an increase of approximately 25%. Adding a fraction of 422 units to Santa Venetia would greatly compromise the safety of its residents, in addition to degrading quality of life. Many of our homes were built in the WUI. We are at constant risk of wildfire, with unstable hillsides that in recent years have collapsed onto North San Pedro Road. Like all of our Marin neighbors, we are constrained by drought. Here in Santa Venetia, our water supply comes from tanks that are sited in the WUI. Supplanting CEQA review in the drive to create multi-million-dollar homes puts our cultural well as our natural environment at risk. For example, Oxford Valley, a known site of native tribal artifacts such as shell mounds, has been designated for 45 "above moderate income" units. Bypassing CEQA would eliminate the protection of cultural resources here and in other areas of Santa Venetia and Marin that have not yet been surveyed and would be lost forever. Our neighborhood is known to be at severe risk of flooding. The SVNA is currently participating in a collaboration between the California Dept of Parks and Rec, The County of Marin, and The SF Bay NERR to "Identify and Evaluate Sea Level Rise Adaptation Options to Solve Road Flooding in China Camp State Park." The project recently received a \$	Email				×				x	x			x	x		x

H - 1565 Vendola Drive (Santa Venetia)	I am against the proposed units on North San Pedro Road. This proposed project is completely unsustainable and not researched for undesirable living situations. There are many factors that indicate this would not be a good site to build. Factors such as flood control, sea rising at a rate we can expect in the coming years, congestion, removal of a ball park and mostly there are no services to support this project. Well thought out projects include parks, services, bike paths, sidewalks and a reasonable egress in case of fire. North San Pedro Road is all ready congested due to a large school and many churches on this road. Another road to San Rafael is available to Point San Pedro Road however this road is failing due to floods in the winter and very evident sink holes that are not being addressed. More traffic would of course erode the roads further and in the past have had slides on this road particularly after recent tree removal has increased the likely occurance.	Email		х	х	x				х	х	х		х				
H - 1565 Vendola Drive (Santa Venetia)	I attended the zoom meeting a few nights ago. I share the concern of some of my neighbors, well articulated by Gina Hagen. While I totally support affordable housing (so question if this will be "affordable" for working class people), I think we already have too many high density buildings on San Pedro Road, Jcc, school, rest homes, elder affordable housing, civic center etc So I would support maybe 25 more units or something manageable, but hundreds seems like asking for trouble in an emergency. I live on Labrea way and I am glad we have housing for families, down the street, but a common problem is the amount of cars and high occupancy of some of the apartments. The overflow of cars goes all the way to Rosal, and currently I have had cars parked in front of my house for a month and more. It is not a significant problem in my case, but my neighbor who has teenagers with cars, is having to struggle to park their own cars, while the overflow is from housing two blocks away. Obviously San Rafael is a good place for more housing and i would think a place closer to the freeway like Marin Square could be used for extra units of housing. I also would personally like to build an accessory unit in my front yard for a student, teacher, medical professional, at affordable rate. It would be nice to have a department in Marin county who could help seniors like myself design,, get permits, and loans to afford to create such units. I myself was a renter in Marin for 36 years and lived in in-law apartments. I found it much more private and a win/win solution for the owner, typically older retired person, and myself as young professional. I was excited about an organization called Lily Pads and attended a meeting but found out later the owner was no longer providing services. So this would be a great thing to promote. Thank you for including us in your work. Hope we can have more affordable housing, while preserving the safety of our neighborhoods.	Email					×			x							x	
H - 1565 Vendola Drive (Santa Venetia)	I served on the Santa Venetia Community Plan (SVCP) Committee for almost 10 years, including working with County Staff the last 4 years, until its final adoption in 2017. This process included a thorough survey of our neighbors who commented on every empty parcel and open space for future development (and in fact Godbe told us the response was overwhelming with a higher than normal percentage of participation). Our SVCP Committee Members represented every corner of Santa Venetia. We held community meetings (that were well-attended) so I residents had a chance to voice their opinions and ideas. No one knows Santa Venetia better than Santa Venetians. The plan was supposed to cover everything of interest to ensure a diverse, family-oriented, and happy community for years to come. Adding 442 units is simply untenable for a small, working-class hamlet such as Santa Venetia. The last two open spaces (two ball fields) are slated for high density housing. This is totally uncharacteristic of the surrounding neighbors who live in small, single-family housing. In the February 15th Housing Element Zoom call, with County Staff and Contractors from who knows where?, we were informed that our Community Plan would need to be updated. Who would do this work? When and how soon would these updates happen? How can the County randomly update our Community Plans that we spent so many resources on. SB-9 and SB-10 are a complete contradiction to our Community Plan that we dedicated years of work and volunteer hours to finally see its adoption. These past summers, we've stayed inside due to smoke and/or triple-digit weather. We used a bucket from our shower to water our indoor and deck plants while our yard withered and died due to restrictions and requirements in place from Marin Water. We worked out evacuation routes to alert residents to escape danger due to our one road in and out of Santa Venetia. I heard chain saws, chippers, and weed whackers almost every day, regardless of the high, fire-danger days. This is due to San Rafae	Email									×			×	x			
H - 1565 Vendola Drive (Santa Venetia)	I will reiterate the comments I made at the February 15 Housing Element meeting I've lived in SV for over 30 years. I've served on the Santa Venetia Neighborhood Association Board of Directors for almost 30 years. Through our neighborhood association, The Santa Venetia Neighborhood Association (SVNA), we try to get the word out so that our residents are aware of upcoming projects and opportunity to comment. We've heard from Santa Venetia residents that they want to protect our quality of life. We are already concerned about the constant fire danger, flooding, Sea Level Rise, ingress and egress, and unsafe evacuation routes. Climate change is a huge concern for us and as well, we have run out of water in Marin County and are under strict mandates, so I can't understand how adding more and more housing units will help. And to restate, 422 units in SV is an increase of almost 25% of the 1,700-1,800 units we currently had, at last count. It's a very shocking number of additional units for us. I grew up in San Rafael. I hate what they've done to the City and have been constantly disappointed with the building choices and what they have given up. I don't want to see that happening in Santa Venetia — more congestion and loss of our green spaces. Affordable housing sounds great on paper, but we never seem to get that promise fulfilled. I've followed projects in San Rafael and for almost every project, the promise is a huge amount of housing with a small portion designated affordable and then after the project passes through the hurdles, the affordable-housing number is adjusted always downward. I remember previously rules were passed to keep up with the demand of affordable housing, but the goalposts seem to constantly change and that number is lowered. What is the promise that won't happen with this process? Also, I heard them say at that meeting, they were giving schools and churches more flexibility by allowing them to build on parking lots? If that is the case, where will people park? They've already lowered	Email								×	×	х		×	×		x

I - 251 N San Pedro Road (Santa Venetia)	(Comment edited for length) As the directors of Marin Cove Homeowner's Association, and on behalf of the Association, we register our strong objections to plans to turn the Old Gallinas school site into a housing complex. The Marin Cove subdivision is in the Santa Venetia neighborhood. It has 75 units, on single lane streets, and has limited parking areas. The owners are generally single families; some of which have children. The owners, in part due to the limited public transportation, generally use cars to get to and from work. Marin Cove HOA, not the school district, owns the strip of land on the west side of Schmidt Lane separating the field at the Old Gallinas School District from Schmidt Lane. The HOA does not consent to the use of its property to provide access for proposed housing. To the extent the driveway on Schmidt Lane, which crosses the strip of property owned by the Marin Cove HOA, is claimed to be an easement to permit access to the field, if the proposed housing development contemplates the use of such driveway, such is a dramatically increased use of the easement. We do not consent to the use of the driveway to serve a 180-unit development. For the reasons discussed below, we request the removal of the Old Gallinas property from the list of sites proposed for affordable housing. We make these objections based on Government Code section 65589.21 of the Housing Crisis Act ("HCA"), which provides for denial of a proposed housing development project if such project would have a "specific, adverse environmental and social impact," as defined and determined in paragraph (2) of subdivision (d) of Government Code section 65589.5. A significant adverse environmental and social impact mass a "significant, quantifiable, direct, and unavoidable impact" (emphasis added), based on objective, identified written public health or safety standards, policies, or conditions. (Govt. Code, § 65580.5d()(2).) Preliminarily, we object to the lack of notice of consideration of the Old Gallinas school site as a location	Email (See Email Comments Received.PDF, pp. 75-79)			×	x	x							x				
I - 251 N San Pedro Road (Santa Venetia)	[Comment edited for length) The Northbridge Homeowners Association ("NHA") respectfully submits these initial comments regarding 251 North San Pedro Rd. (herein, "Old Gallinas School and Ball Field")—and also regarding the identified potential sites in Santa Venetia more generally. We very much appreciate the County's consideration of the below comments. Northbridge is a residential neighborhood in Santa Venetia more generally. We very much appreciate the County's consideration of the below comments. Northbridge is a residential neighborhood on and privately-cowned tennis courts. Given our close proximity to Old Gallinas School and Ball Field, any proposed development of that property is obviously of critical interest (and concern) to our residents. The County's draft candidate site list identifies Old Gallinas School and Ball Field as a candidate site for adding an extremely large number of what would have to be high-density housing units in a relatively small space. The NHA has received feedback from some of the residents in our neighborhood. The scope, size, and would-be density of this, alone, are shocking and of great concern to our neighborhood. Old Gallinas School and Ball Field would be a very poor choice/candidate for any significant housing development for multiple reasons: Please Don't Get Rid of Santa Venetia's Only Ball Field. To accommodate a project anywhere near the scope suggested in the draft list would require not only getting did of the school buildings (which themselves are currently being used for essential child day care services), but also would require getting rid of (i.e., building on top of) the baseball field which currently comprises the majority of the property. This is the only ball field that Santa Venetia formation of existing recreational assets in the community such as theexisting ball and play fields." This item was included in the Community Plan because numerous residents identified this specifically (including the Old Gallinas Ball Field, in particular) as a critical ne	Email (See Email Comments Received.PDF, pp. 87-89)			×	x				х		х	x	X

I - 251 N San Pedro Road (Santa Venetia)	Hello and thank you for the opportunity to comment regarding Future Housing Sites in Marin County. I attended the local Housing meeting regarding Santa Venetia and Los Ranchitos on February 15th and live in the Santa Venetia area. Here are my comments from a Santa Venetia resident perspective: 1. The process, while advised by the Marin County Planning Department, is being run by a consulting agency that is not familiar with Marin County and the local areas & neighborhoods. 2. The number of assigned housing units to Santa Venetia, 422, ignores the following. Before housing site numbers are assigned and accepted, a "CEQA-lite" analysis should be performed to determine if the numbers and locations are practical from a CEQA perspective. We heard these concerns brushed off with the response that if any development is going to be done, a full CEQA would be completed before development could/would proceed. This would be an "after-the-fact" process, with the fact that the housing numbers and sites have already been assigned and accepted, and would be too late to be influential in the development process. a. There is only one practical vehicle road out of Santa Venetia to the freeway that is already heavily impacted by three schools, the one at the JCC, the Marin School, and Venetia Valley school, and a large pre-school. Traffic in & out of Santa Venetia to the freeway that is already heavily impacted by the JCC, the Civic Center traffic, the Marin Lagoon traffic, the Veterans Memorial traffic, the Marin Lagoon Housing and the commercial enterprises along McInnis Parkway. b. Some of the sites selected are in wetlands areas, such as the McPhail school site next to North San Pedro Road. c. some of the sites selected are next to the Bay and subject to special development restrictions, such as the McPhail school site next to North San Pedro Road. c. Some of the sites selected are next to the Bay and subject to special development restrictions, such as the McPhail school site next to North San Pedro Road by MMWD, are in the	Email				X				X				X	x			
I - 251 N San Pedro Road (Santa Venetia)	Here in Santa Venetia, we are living with water shortages, traffic congestion, and our community's evacuation route was named the most dangerous in Marin and yet huge additional numbers of housing are proposed for this flood prone neighborhood. That's insane! We are not fooled by claims that these new residents won't drive everywhere. They will. We already know that every person of driving age in our neighborhood not only drives but owns a car, or truck. They line our streets, further restricting access routes. There are sites where housing can happen like at Northgate Mall, but not in our overcrowded flood zone.	Email				х				×	×			X				
I - 251 N San Pedro Road (Santa Venetia)	Hi, I would like to object to 251 N San Pedro as a site to build housing. There is a Child Center there serving many families. The ball field on the property is used by the children at the school and people in the neighborhood. There are very few ball fields for Little League. This ball field should not be taken away from ball players. I live in the condo complex next door. Parking is already limited for residents and guests. We can't absorb all the people people who would live there who have more cars then the give spots for them and their guests. If housing needs to be built in Santa Venetia why not 1565 Vendola Dr? The school property there has not been used for decades.	Email			х		х											
I - 251 N San Pedro Road (Santa Venetia)	I am a longtime resident of Santa Venetia in unincorporated Marin County, and a member of the Santa Venetia Neighborhood Association (SVNA). I, along with many of my neighbors, attended the February 15 Zoom meeting on the Housing Element initiative, which seems detached from the reality of worsening climate change. Much of Santa Venetia exists in a flood plain; other parts are in the WUI. With only a single one-lane route in and out of the neighborhood — North San Pedro Road — our existing infrastructure is already stretched to the breaking point with daily traffic congestion restricting both egress and ingress. We currently have fewer than 1800 residences in Santa Venetia, yet the Housing Element recommends 422 additional units, representing an increase of approximately 25%. Adding a fraction of 422 units to Santa Venetia would greatly compromise the safety of its residents, in addition to degrading quality of life. Many of our homes were built in the WUI. We are at constant risk of wildfire, with unstable hillsides that in recent years have collapsed onto North San Pedro Road. Like all of our Marin neighbors, we are constrained by drought. Here in Santa Venetia, our water supply comes from tanks that are sited in the WUI. Supplanting CEQA review in the drive to create multi-million-dollar homes puts our cultural swell as our natural environment at risk. For example, Oxford Valley, a known site of native tribal artifacts such as shell mounds, has been designated for 45 "above moderate income" units. Bypassing CEQA would eliminate the protection of cultural resources here and in other areas of Santa Venetia and Marin that have not yet been surveyed and would be lost forever. Our neighborhood is known to be at severe risk of flooding. The SVNA is currently participating in a collaboration between the California Dept of Parks and Rec, The County of Marin, and The SF Bay NERR to "Identify and Evaluate Sea Level Rise Adaptation Options to Solve Road Flooding in China Camp State Park." The project recently received	Email		×		×				×	×	×	×	×	×			
I - 251 N San Pedro Road (Santa Venetia)	I am against the proposed units on North San Pedro Road. This proposed project is completely unsustainable and not researched for undesirable living situations. There are many factors that indicate this would not be a good site to build. Factors such as flood control, sea rising at a rate we can expect in the coming years, congestion, removal of a ball park and mostly there are no services to support this project. Well thought out projects include parks, services, bike paths, sidewalks and a reasonable egress in case of fire. North San Pedro Road is all ready congested due to a large school and many churches on this road. Another road to San Rafael is available to Point San Pedro Road however this road is failing due to floods in the winter and very evident sink holes that are not being addressed. More traffic would of course erode the roads further and in the past have had slides on this road particularly after recent tree removal has increased the likely occurance.	Email		x	х	x				X	х	х		х				
I - 251 N San Pedro Road (Santa Venetia)	I attended the zoom meeting a few nights ago. I share the concern of some of my neighbors, well articulated by Gina Hagen. While I totally support affordable housing (so question if this will be "affordable" for working class people), I think we already have too many high density buildings on San Pedro Road, Jcc, school, rest homes, elder affordable housing, civic center etc So I would support maybe 25 more units or something manageable, but hundreds seems like asking for trouble in an emergency. I live on Labrea way and I am glad we have housing for families, down the street, but a common problem is the amount of cars and high occupancy of some of the apartments. The overflow of cars goes all the way to Rosal, and currently I have had cars parked in front of my house for a month and more. It is not a significant problem in my case, but my neighbor who has tenagers with cars, is having to struggle to park their own cars, while the overflow is from housing two blocks away. Obviously San Rafael is a good place for more housing and i would think a place closer to the freeway like Marin Square could be used for extra units of housing. I also would personally like to build an accessory unit in my front yard for a student, teacher, medical professional, at affordable rate. It would be nice to have a department in Marin county who could help seniors like myself design, get permits, and loans to afford to create such units. I myself was a renter in Marin for 36 years and lived in in-law apartments. I found it much more private and a win/win solution for the owner, typically older retired person, and myself as young professional. I was excited about an organization called Lily Pads and attended a meeting but found out later the owner was no longer providing services. So this would be a great thing to promote. I - 251 N San Pedro Road (Santa Venetia)	Re: Marin County Housing and Safety Elements Update, 2023 – 2031. The Santa Venetia Neighborhood Association (SVNA) is an organization representing the interests of 1,700 – 1,800 households (4,474 residents per the 2019 census figures) who live in Santa Venetia. As an organization, we are dedicated to the enhancement and preservation of the character and quality of life of the Santa Venetia neighborhood. We do our best to represent our community and have an established reputation to be a voice for proper development. And in accordance with our mission statement, we, the Board Members of the SVNA, feel compelled to comment on this issue. We want to ensure that the Marin County Board of Supervisors receives an accurate impression from our community regarding the updated Housing Element and are writing today to summarize feedback we have heard from many of our members. Many residents of Santa Venetia, including members of the SVNA, attended the February 15 Zoom meeting where consultants representing the interests of the housing element initiative presented online tools for community feedback. We find these tools inadequate; rather nevroying members of the SVNA, attended the February 15 Zoom meeting where consultants representing the interests of the housing element recommends 422 additional units for Santa Venetia. There are currently fewer than 1,800 residences in Santa Venetia, so this represents an increase of approximately 25%— far more growth than the neighborhood has seen for at least two decades. This mandate seems utterly siloed from the worsening reality of global warming and climate change, (the existence of which was recognized both in the Countywide Plan and by the Marin County Civil Grand Jury) which is leading to catastrophic weather events such as fires and flooding. The upland parts of Santa Venetia not directly threatened by flooding are part of the Wildland Urban Interface (WUI) and are subject to year-round fire danger. Like all of Marin, we are constrained by drought, and our water supply comes	Email				x				x	x			x	х		х

Inverness, Balmoral Way	(Comment edited for length) I am a resident of Old Inverness, specifically Balmoral Way. Please consider the following comments as you finalize your recommendations: The entire approach of this planning effort is misguided. The consultant seems to have arbitrarily lopped new housing onto a map of West Marin without considering County planning history, constraints on the land, or natural resources, let alone community input. This top-down and lil-informed approach is unlikely to succeed, certainly not without damaging community good will, neighborhood cohesion, natural resources and other values of importance. The sites to be developed should be chosen only after a thorough inventory of geology, water supply, slope and other relevant factors. The 2007 Countywide Plan conceived of the entirety of West Marin as a rural, agricultural and low-density region, serving the Bay Area's recreational needs. This reflects the large proportion of the undeveloped lands that are protected as national, state and county parks. Further it carried forward the zoning decisions of the Board of Supervisors in the 1970's, which put a high priority on agricultural and natural resource reservation. If not implemented with great care, this plan risks contravening the supervisors' vision for West Marin. It should not be carried out until the County as a whole considers the larger planning goals for the area. An "elephant-in-the-room" with the housing shortage is the effect of AirBnB. If the County clud reign in this business, the housing supply would quickly rebound, with numerous benefits to the community. Additionally, any new regulations for implementing the current planning process must avoid the ironic outcome that the newly constructed residential sites will also be converted to vacation rentals. Indeed, I suggest the County begin its effort to increase housing supply by tackling this behemoth before undertaking the kind of process it is currently enaged in. Assuming willing sellers of residential properties can be found in a smalle	Email (See Email Comments Received.PDF, pp. 16-19)	x	x		x		x		x		x		x	x	x	x	
Inverness, Balmoral Way	I am writing about the draft list of "underutilized residential housing" in Inverness, specifically those listed on Balmoral Way in Inverness. I am the property owner of 5 Balmoral Way. Imagine my surprise to see my own property (and my house which was fully rebuilt in 2015 with full permits from the county) included on this list as "underutilized residential housing." I was even more surprised to see all of my neighbors' homes on Balmoral Way (in which my neighbors live) to be similarly listed. Obviously the folks who came up with these addresses on Balmoral Way made a significant factual error that needs to be corrected by deleting the Balmoral Way addresses from the list. This isn't about NIMBY — this is simply a factual matter that the listed addresses are not underutilized housing sites. Balmoral Way is a small, one-lane, private, dirt road with no empty lots. Each lot is already built on and fully-utilized. Each lot has a steep incline. All lots are near the water of Tomales Bay and highly constrained in terms of septic system expansion. While perhaps we residents of Balmoral Way should consider it an honor to be listed as the epicenter of underutilized residential units in Inverness, alas, it is an error by those who compiled the list and is divorced from reality. In summary, as a simple factual matter, the housing stock on Balmoral Way in Inverness is fully-built-up and fully-utilized and should not be listed as "underutilized"; all the Balmoral Way addresses on the "underutilized" list should be removed. Thank you for your kind consideration of this request to correct clear and obvious factual errors in the county's data.	Email	х							x					X			
Inverness, Cottages at Point Reyes Parcel	1982 storms, which unleashed large amounts of mud and rock, and woody detritus, into the bottomlands, and it is unstable as far as landslide danger (take note of the problems on Sir Francis Drake Blvd. above). Without any doubt, these events will be repeated in the future. For these reasons alone, this is one of the least appropriate areas for future housing. Douglas (Dewey) Livingston	Email									х	х		х				
J - 9840 State Route 1 (Olema)	I think that the proposed low cost housing sites and sizes and the solution is not thought out! For instance, the 98 homes in Woodacre would create a huge traffic problem and also be inappropriate. The Olema location and proposal would ruin the nature of Olema! And Dennis Rodoni lives in Olema! The west Marin area has been protected for a reason! The nature and small town is the reason that we are all here! I've lived here for 46 years and believe that it would be more appropriate to absorb the housing on properties that are all ready developed and make it attractive for homeowners to build ADUs Please revise the thinking around this important topic of affordable housing! K - 1500 Butterfield Road (Sleepy Hollow)	· · · · · · · · · · · · · · · · · · ·	Email (See Email Comments Received.PDF, pp. 99-101)	x		x		X	x		x		x		х		x	X	
K - 1500 Butterfield Road (Sleepy Hollow)	I live in Sleepy Hollow. I am concerned about the San Dominico site (which proposes adding 90 housing units to a community with ~800 households) for two main reasons. 1) Safety. Butterfield is a one way in one way out road. In case of evacuation, increasing the households by over 10% is troubling. Cars at the far end of Butterfield tend to speed. Adding more cars at the very end of the road significantly increases the risk of cars speeding. 2) Traffic. There is almost no public transportation on Butterfield. San Dominico already has a strict traffic commitment with the community because traffic is so bad. This would make it worse. There are three schools which adds to the traffic on Butterfield. Best practices for increasing housing is to do infill in urban areas. This is the opposite. It's building far away from public transportation and freeway access. What makes the most sense is to build as close to highway 101, bus terminals, Smart, etc.	Email				х		х						х				
L - 26500 Main Street (Tomales)	Your proposal to place 186 low-income units on this site is not fair nor does it make sense for the following reasons: You will take away a little league ball field currently used by the nearby communities. t may displace the early development center on the site. he immediate area already supports a section 8 housing community at the corner of North San Pedro and Schmidt Lane. This development will put an unfair burden on the surrounding neighborhood. here is a site at McPhail School down the road on North San Pedro that accommodate the same number of units without removing the little league field and have less visibility to the nearby neighborhood. As stated in another comment, Bon Air shopping center could accommodate most if not all of these units.	Email			x					x								
Lucas Valley	I do not support the proposed quantity of housing proposed for Lucas Valley. I am concerned about water resources, evacuation congestion in a fire, lack of services for new people in the area, increased road congestion and increased wildfire risk. This is not a NIMBY response. The Rotary Village is a great example of affordable housing for seniors that is near our community which is lovely. Expanding this type of housing would be welcome. Highrises are not welcome as they do not fit-in with our area. greatly reduced quantity of one or two story homes would be welcome. Why are we targeted with such a large percentage of the proposed housing? This is not an equitable plan. thought the Governor wanted housing in urban centers where services were available. Your plan does not meet this key criteria.	Email			x	х				х		х		х	х		х	
Lucas Valley	I have resided in Upper Lucas Valley since 1986. Part of the appeal when I purchased here was the rural setting. Although I understand the need for housing, high density housing is inappropriate for Marin, i.e. large multi-unit structures. I welcome the addition of single family residences as many younger people need homes here desperately. I'm not sure where they would be situated in this area, but am open to suggestions. When George Lucas proposed affordable housing further down Lucas Valley Road, the main concern was the lack of transportation, grocery stores, and the other necessities. It made no sense. Another suggestion would be to make it possible for seniors to give (not sell) their larger homes to their children, purchase smaller homes and retain their property tax base. Most people in that position don't/can't move because buying a smaller home for \$1+ million brings with it property taxes they would find unaffordable. The only way it is currently possible is to sell your existing home and buy a cheaper one. When thinking of housing, perhaps the smart thing to do is build an area of affordable homes in the 1100-1500 square foot range for seniors. That would free up many, many existing homes for growing families.				×			х									x	
Lucas Valley	I just want to officially voice my opposition to the development of additional homes in the Lucas Valley area. While I support the development of affordable housing in Marin County, protecting our undeveloped green spaces is an even higher priority. Instead, I believe areas that have already been developed (green space replaced with concrete) such as towns in southern Marin or places like Northgate Mall would be better options for new housing. Our undeveloped green spaces are priceless and irreplaceable!	Email								х		х						
Lucas Valley	It's come to my attention the HOA to which I belong is objecting to proposed increased housing in Lucas Valley. I would like to inform you that the Lucas Valley HOA is not uniform in this opinion. There are members, such as myself, that would welcome additional housing in Lucas Valley. While I found some of the HOA's arguments moderately persuasive (especially with regard to access to public transportation), I believe the need for more affordable housing in Marin trumps all of their points. I encourage you to keep Lucas Valley on your radar for proposed housing sites, and to find ways to encourage and incentivize more public transportation in our community.	Email						х									х	х

Lucas Valley / Marinwood	(Comment edited for length) The Lucas Valley Homeowner's Association represents 538 homes in the special R-1:B-LV zoning track in Upper Lucas Valley. We, the Board of Directors of the LVHA, would like to give our support for the efforts to increase housing in Marin County, and offer the following input. To begin with, our State Governor's Housing Plan incentivizes housing in urban centers near transportation and services, to reduce reliance on vehicles and their carbon footprint. If the County chooses a path contrary to the State Plan, and not utilize State funding incentives for urban development, then we ask for a reevaluation of the housing sites identified for our Lucas Valley/Marinwood area. As outlined below, areas 1 - 3 are both contrary to the RHNA requirements and pose a danger for emergency evacuations. There are several sites identified as potential housing building sites in our area, 1. Lucas Valley Road / Mt Muir Court 2. Juvenile Detention Center/Jeanette Prandi Way 3. 7 Mt Lassen 4. 530 Blackstone Dr 5. Marinwood Market area. We agree that the Marinwood Market area is a suitable site. It is close to freeway access and has sufficient infrastructure in place, including amenities like food and gas, and can easily absorb new development. Inonically, the relative quantity proposed/identified at this site is comparably less than the quantity for site #2 above, which is a much less suitable site as shown in following comments. There are several factors that make areas 1 - 3 only marginally suitable for new buildings sites, and therefore should, at best, be only allowed limited building. Factors include: High Wildfire Risk - Single Limited Evacuation Route. Water Shortages. Lack of Infill Infrastructure. Building Atop Unmarked Graves. Zoning Restrictions: The special zoning district for Upper Lucas Valley (R-1:B-IV) limits most buildings to a single story. The district was created in order to adhere to the architectural vision and design aesthetic of Joseph Eichler, a renowned architect highly influentia			×		×				x		×	x	×	x		×	
Lucas Valley / Marinwood	All of the Lucas Valley sites are in the wildland urban interface (WUI) zones that contradict Governor Newson's priorities to shift housing away from rural wildfire-prone areas and closer to urban centers.	Email										Х		Х				
Lucas Valley / Marinwood	Due to FIRE danger and Drought please stop more construction in Mount Marin and Lucas Valley.	Email	\vdash						<u> </u>	1				Х	Х			
Lucas Valley / Marinwood	I am against housing development down Lucas valley and Marinwood. The weather here gets windy starting in spring and ends in the late fall. The surrounding mountains can catch on fire as we had a small one last year. With the drought we are already under rationing. A spark can create a fire and the wind will carry it all over the place. There are no exits except Lucas Valley road and in case of a fire it will be difficult for all to evacuate. Most locations you are considering are in heavily populated areas. Where would we go in case of a fire? 101 will be impacted. Yes we need affordable housing, not more multi million dollar homes. If the water department would consider building a desalination plant off the bay of San Francisco it would help us out. We are in global warming and more cars on the road and more pollution will set us back. What about the empty land space between Novato and Petaluma?	Email				х				x				х	x	х	х	
Lucas Valley / Marinwood	I am extremely concerned about the proposed new developments in the Lucas Valley Marinwood area, especially when taken together with other large new development projects in the nearby vicinity. I realize California has a housing issue. However, destroying existing communities is not the solution. The number of added housing units in the LVM area alone will utterly destroy our school system. The Miller Creek School district currently serves about 2000 students. Just one proposal would add 1800 homes and possibly triple our student needs. Where will these children go to school? Similarly, almost 250 homes in the Prandi location would increase the Lucas Valley Elementary school population by a similar 200%. This will overwhelm our schools, and other community services. If there is another huge build at the Northgate site, also in the Miller Creek School district, it malso worried about many environmental considerations that seem to be ignored. One has only to look at the debacle of the Talus development to see that these plans are not in the interest of the community or environment. These were not affordable homes for teachers and firefighters, but large expensive homes with big lots. Now we have a razed hillside, threats to our creek, destruction of few remaining heritage trees and wildlife habitar and one giant fire hazard with an enormous pile of dead trees and brush. This is what happens when projects are rammed through without proper review and oversight. Traffic increases will be a nightmare. In an emergency, how do we escape with the gridlocks that will occur? Lucas Valley Road and 101 are already jammed with cars especially at commute times. We are in continuing drought, unlikely to ever improve thanks to climate change. Where does the water come from for this new population? A few of the proposed sites make sense but this large scale unbalanced load into our small community does not. Any development should be tailored to fit the need (ie truly affordable housing, not a token 5%) and address community conc	Email			×					x		х		×			x	
Lucas Valley / Marinwood	I am writing in regards to the proposed multi unit housing in Unincorporated Marin County. I'm against using open space to build housing. The site in the open space on Lucas Valley Road should be used for a community park or sports center for the community. Kids need a place to go that could include Basketball, Swimming, Playstructure and lawn for families. I understand the need for additional affordable and Multi-Family housing in Marin, but why Open Space? The County should be looking to improve areas that need improvement, not use open space to pour concrete and build multi level boxes. What about repurposing and improving small strip mall areas all along the freeways? These building have small space and often times run down retail shops and turning those in to thriving shops with housing above. Several responsible counties and cities have successfully done this. Why can't Marin think this way? I don't understand it. Open space should remain open space or for public park use. Dilapidated buildings should should be improved to include affordable housing for the better of the community.	Email										x						
Lucas Valley / Marinwood	I moved to San Rafael specifically to get out of the city and to avoid over congestion, traffic and over development. The proposed additional housing in Marinwood and Lucas Valley will detract from the exact reason I moved here. Over development of north bay is an issue - and just because there is land does not mean it should be developed, which will permanently change the character of the community and landscape. I was unable to sign the petition against the new development, so sending this email instead. Thanks.	Email				х				х		х

Lucas Valley / Marinwood	I see the maps and have concerns that things aren't matching. The Housing Distribution Scenario says: Ensure Countywide Distribution - really? It looks like a disproportionate amount of it is in unincorporated Marinwood/Lucas Valley - 3,569 units to be exact. And some things to remember: We are a fire danger area now that we have had a fire evacuation this last summer. And what happens to road traffic during an evacuation? And it they don't drive, what happens to them? And what about the Water Shortage in Marin County with conservation being the ONLY SOLUTION so far? It is my understanding that the builders of these units won't have to pay property tax. So what does THAT do to our schools? Fire Department? EMT? And who picks up the tabMarinwood/Lucas Valley homeowners? And do we pick up the tax tab for ALL THE UNINCORPORATED AREA of 3,569 units? Encourage Infill and Redevelopment Opportunities: Can the residents of these residents drive? Are they close to services, jobs, transportation and amenities? I don't think so, especially if they can't drive.	Email			x	x		х						x				
Lucas Valley / Marinwood	The 2022 Marin County Candidates site for Unincorporated Marin and especially Marinwood/ Lucas Valley/Silveria Ranch is absurd. It targets just 5 square miles with 80% of the housing allocation for affordable housing in one community WITHOUT resential planning for schools, roads, government services, water, sewer and other essential services. Why "plan to fail"? Shouldn't a good faith effort to build affordable housing in our community laso include a comprehensive plan for accommodating growth? It doesn't. This is why it should be rejected today. Instead, let's address the core questions for growth AND the financial impact of adding massive amount of largely non profit housing to a single community WITHOUT ADDITIONAL TAX BASE. Marinwood/Lucas Valley currently has approximately 2700 housing units for 6000 residents. The proposed housing sites could add 2300 apartments and 5500 residents who ALL WILL NEED schools, water, government services, transportation, access to shopping, etc. Shouldn't a proper plan for growth precede approval for housing? One of the sites listed is Marinwood Plaza, our communities ONLY commercial plaza within walking distance for thousands of fresidents. If the plan for 160 units is approved, this would squeeze out a vital community center to the detriment of all. This is not including the problem of TOXIC WASTE contamination clean up suitable for residential dwelling is a long way off despite community pressure on the Regional Water Quality Control Board who will not enforce its own clean up orders on the current owners. Despite the harsh criticism of the RHNA process, I believe there is a real community desire for more affordable housing in a community that will be planned appropriately, won't redevelop our neighborhoods and utilize open spaces like Silveira Ranch, St Vincents and other sites. While everyone I know supports the idea of more housing, not a single one wants a poorly conceived plan that forces large housing projects without considering the impacts. Reject the current RHNA p	Email		x	×					x		x				x		
Lucas Valley / Marinwood	This letter is in regards to the proposed site and distribution of housing in the Lucas Valley/Marinwood area. While I feel this area can support some expansion, the amount proposed by the county is overwhelming. Per the board of supervisors principles, please note my feedback below. 1: Ensure Countywide Distribution: The majority of housing in unincorporated Marin County is being distributed to Marinwood/LUCAS VALLEY. This does not appear to be an equitable distribution and will potentially double the population of this area, affecting all services- sheriff, fire, schools, traffic, etc. Marinwood/LUCAS VALLEY area is being considered for a majority of this housing in unincorporated Marin: St Vincents: 1800 Marinwood Market: 136 Blackstone (site of religious house): 32 Mt Lassen/deli: 58 Jeanette Prandi/Juvi: 254 Lucas Valley Rd/near terra Linda Ridge: 26 Total: 2306. (This could be up to 60% of the total housing for unincorporated Marin) Households in Marinwood/LUCAS VALLEY currently 2412. (This could potentially double our size)	Email		х	х	х				х				x				
Lucas Valley / Marinwood	This letter is in regards to the proposed site and distribution of housing in the Lucas Valley/Marinwood area. While I feel this area can support some expansion, the amount proposed by the county is overwhelming. Per the board of supervisors principles, please note my feedback below.4: Consider Environmental Hazards: WATER AND WILDFIRE This pertains to most of Marin County. We have a limited supply of resources to accommodate doubling of the population of marinwood/Lucas valley.	Email								х		х						
Lucas Valley / Marinwood	We have seen the preliminary list of potential housing sites for Marin County, including in unincorporated areas such as Marinwood/Lucas Valley, as developed by the ABAG (Regional Housing Needs Allocation Plan), and approved by the California Department of Housing and Community Development. The plan includes 2,412 units within the Lucas Valley / Marinwood area (accounting for 68% of the 3,569 units within unincorporated Marin County). Sites under consideration in the Marinwood / Lucas Valley areas: St Vincent's School -1,800; Marinwood Market - 136; 530 Blackstone Drive (site of religious house) - 32 7; Mt Lassen (site of office park) - 58; 2 Jeannette Prandi Way (site of Juvenile Hall); 254 LucasValley Rd/near terra Linda Ridge; 26. We are not opposed to some moderate increase of housing units in the area. However, we have some serious concerns regarding these potential sites: (1) The Lucas Valley / Marinwood area currently has less than roughly 1,750 homes, spread across a roughly 3.5 mile valley corridor, almost all of which are single family dwellings, and the overwhelming majority of which are one or two story homes. There are no large multi-unit apartment buildings in this area. The overall magnitude of the increase in units in this area (2,4112 units) is disproportionately large compared to the current housing density of the area. The proposed increase would more than double the overall number of housing units in the area. (2) The area to the south and west of St. Vincent's School (east of HWY 101) has been discussed as a potential development site for some time. Although multi-unit housing could easily be developed there, adding 1,800 units would completely overwhelm the property and this very large number of additional units represents an enormous growth for the area, on the same order of units as currently exist in all of Lucas Valley / Marinwood. To fit this large number of additional units represents an enormous growth for the acroa, on the same order of units as currently exist in all of Lucas Vall	Email			x	x				x		x			X

Lucas Valley, Grady Ranch Development	Addendum to LVHA Housing Statement: EIR Traffic Impact Report Needed For Emergency Evacuations on Lucas Valley Road. The recent wildfire emergency evacuation of Upper Lucas Valley in 10/12/21 caused a logiam of traffic on the only road out, the 2-lane Lucas Valley Road. It has belatedly been brought to our attention that the Grady Ranch development, currently in works (224 housing units), also has Lucas Valley Road as their only exit in a wildfire emergency. When the units are complete, they could add another 300 - 500 cars in an emergency (footnote 1 below). Adding even hundreds of more vehicles onto Lucas Valley Road from the 338 new potential housing units projected, could prove disastrous (footnote 2 below). In addition, any traffic study in an EIR report would also have to take into consideration the potential for a significant number of ADU housing units within the corridor. Lucas Valley Road already seems to have all the traffic it can handle during an emergency evacuation. The LVHA would therefore request that a traffic study be done in advance of earmarking any significant number of additional housing units along the Lucas Valley Road corridor.	Email				x				x				X				
Lucas Valley, Mt. Muir Court	Thank you for taking time to read over my thoughts on the new housing developments proposed for Jeanette Prandi Way, Mount Muir Court, Marinwood Plaza and 7 Lassen. As a Marin County native of 58 years and a Lucas valley resident of 26 years, I am surprised that these projects are so close to approval without adequate community outreach and input. There are many items of concern that I don't feel have been adequately answered for me to support these developments. At this time I am strongly opposed to these developments. I am respectfully requesting more time for our community to better understand these proposals and how we can collaboratively help the County solve its low income housing challenges.	Email																
M - 1 St Vincents Drive(St. Vincents)	I am extremely perturbed that plans are being made to build housing in within the wetlands and flood zone contained in the old Silveira ranch and St Vincent's properties. This wetlands will become increasingly important as the sea level rises and flood zones will be even less inhabitable year round. This will leave any housing there soon uninhabitable but some builder richer and some county officials who only went through the motions of actually providing affordable housing. This issue was already explored and sanity prevailed in leaving the wetlands to be wetlands. Any housing, affordable or otherwise, should be built on appropriate land, not a flood zone which will damage any housing built on it.	Email									х						х	
M - 1 St Vincents Drive(St. Vincents)	for the infrastructure of this small area. Additionally, all of these proposed development sites are within the Miller Creek School District boundaries and the unfunded impact of these developments on the District would be disastrous. Since the District is currently funded using a Basic Aid Model, it gets no per pupil funding. This means that all the additional students these developments generate will not result in additional funding for the District.	Email		×	x					x							x	
M - 1 St Vincents Drive(St. Vincents)	I found the online tools for commenting cumbersome and inscrutable, and much too time consuming to use. So, the following are my comments about specific housing allotment recommendations in Marinwood Lucas Valley. St Vincent's School - 1800: NO Because there is little infrastructure at St. Vincents, including access to schools and public transportation, this is a poor site for development. Certainly not 1800 units which is an entire community. The only housing at St. Vincents should be limited to students (dorms) and staff.	Email		х	х			х		х								
M - 1 St Vincents Drive(St. Vincents)	I hope that the Marinwood Plaza/market site is again under consideration for housing. As you most likely know, some 15 years or so ago, the community shot down an excellent proposal from Bridge Housing. Except for the market, the property remains a derelict eyesore. Many of us in Marinwood would like to see the property improved, including a modest amount of housing development, along with community amenities such as a coffee shop, brew pub, or other gathering place, and other shops such as hair salon, co-working space, etc. It is close to public transportation, schools, and major employers most notably Kaiser. It's a far superior site for development than the St Vincents property which has myriad sea level rise and other environmental challenges, and very little other infrastructure. I hope the property will be on be on tomorrow's meeting agenda.	Email		х							х	х						
M - 1 St Vincents Drive(St. Vincents)	I oppose 98 houses on the 50 acre High School property facing Drake Blvd. in the San Geronimo Valley. West Marin is maxed out on development because of fire concerns, small roads, septic. The proposed development at the west side of whites hill is the headwaters of the Lagunitas creek which is our coho salmon nursery. It's a floodplain and is unsuitable for development. The infrastructure needed for a development would harm our fragile ecosystem. If Marin County decides to do what the State is demanding, then why not put the entire buildout on the St. Vincents property which is right next to the freeway and could handle the increase in population. We would like to see all the building be for homeless and low income people - like all the people who commute from Vallejo and Richmond to serve us daily because they can not afford to live in our county. Many other properties in Marin would be more suitable.	Email															х	х

The proposed development at the west side of whites hill is the headwaters of the Lagunitas creek which is our coho salmon nursery. It's a floodplain and is unsuitable for development. 3. The infrastructure needed for a development would harm our fragile ecosystem. 4.Building would ruin agricultural, rural beauty which is so precious to the San Geronimo Valley, 5. If Marin County decides to do what the State is demanding, then why not put the entire buildout on the St. Vincents property which is right next to the freeway and could handle the increase in population. We would like to see all the building be for homeless and low income people - like all the people who commute from Vallejo and Richmond to serve us daily because they can not afford to live in our county. Or work with the state to move San Quentin out to a more appropriate place for a prison such as barren land in the dessert, and make a beautiful development on the waterfront right next to shops and the ferry and the Richmond Bridge which would be easy access to transportation and would not overburden Sir Francis Drake which is already far too congested. Many other properties in Marin would be more suitable.	Email										х					х	х
M - 1 St Vincents Drive(St. Vincents)	I see the maps and have concerns that things aren't matching. Then two of the sites are still contaminated from the former cleaners at Marinwood Market Plaza - St. Vincent's and Marinwood Market Plaza. So what happens with the housing planned in these locations?1936 units?	Email														Х		
M - 1 St Vincents Drive(St. Vincents)	I think we should spend our time, energy and money on housing the homeless and low income people at the property near St. Vincents just south of Novato. As you may have noticed, people who work in our communities, but can not live here because of the cost, commute from Richmond and Vallejo and we see the traffic jams every day at commute times. I have heard of a toll coming for Hwy 37, making it even more costly for people who can not afford to live here.	Email																х
M - 1 St Vincents Drive(St. Vincents)	Juvenile Hall) – 254. My husband & I currently rent an office at 7 Mt. Lassen, so it's news to us that this site's under consideration. It's a beautiful, unique office setting that serves both the Upper and Lower Lucas Valley communities as a place of business to walk to! I'd hate to see that disappear!!! However, I wouldn't be adverse to seeing a portion of the current 7 Mt. Lassen structures converted to workflive spaces, if sensitively planned, Maybe 30%. My comments re: St. Vincents also apply to Jeannette Prandi Way. As long as new development is against the hills with access via Idylberry Rd, away from Lucas Valley Rd, and sensitively planned, I'm not totally adverse to new development. However the # of units proposed is too high!** Lucas Valley Rd/near terra Linda Ridge: 26. I don't know exactly where this is, but in principle I'm against it. "The problem with all new development close to Lucas Valley Rd is not merely degradation of the scenic route of LVR — but more importantly, adding traffic congestion to a wildfire interface area with a single ingress/egress. I'm an LVHA block captain, and was present and part of the fire evacuation on Sept 1st 2021 a learning experience. It's for this reason that I signed the petition against development in Lucas Valley. I believe that the current Northgate Mall could and should be a site for mixed-use development including low-to median income housing, yet is not on this list of proposed sites. It ticks all the boxes for access to transportation, schools, shopping, etc.	Email			x	х		X	х			x		X			×	х
M - 1 St Vincents Drive(St. Vincents)	I'm writing to express concern about the proposal to put 1800 units of new housing at St Vincents in Lucas Valley. This number is incredibly high - it would overwhelm the Miller Creek School district. There are many other sites proposed in Lucas Valley. I'm not saying no to all of them, but this has got to get more reasonable. Please don't destroy what is now a beautiful community. Marinwood is a special place. We can't absorb all this housing - some please, but nowhere close to the number of units proposed.	Email			х					х								
M - 1 St Vincents Drive(St. Vincents)	Public Feedback - Marinwood/St Vincents housing proposal: I was only recently made aware of the current preliminary proposal for housing allocation to the unincorporated areas of marin county. As a current resident who grew up in Marinwood Lucas Valley - left the county - and returned to raise my family here - I cannot more strongly oppose the sheer volume of proposed housing for the Marinwood/Lucas Valley areas. This location (Marinwood/Lucas Valley) is already underserved by commercial services and has a lack of job opportunities. It is a small bedroom community sandwiched between the commercial hubs of San Rafael and Novato. Any significant shopping or professional services require a vehicle trip to either the city of San Rafael or to the city of Novato. The added burden of the new development proposals would grossly increase the negative environmental impacts that the lack of nearby commercial services already causes. Furthermore the 101 interchanges both North and South already can barely handle the traffic that exists. More housing in this area without addressing current school campus, sport field, open space, park and community center availability and other critical services would have a significant negative impact on the community and not balance the Supervisors stated goal of 'equitable distribution' throught the county. The schools within the Miller Creek School District are also nearly at capacity. Many of the campuses operate with nearly a third of classrooms being in 'portable' classrooms and have had to take over outdoor recreation areas for portable classroom locations. Our youth sports also already operate at a deficit of field/court availability relative to the active youth that participate. I urge the planning department and the board of supervisors to re-evaluate the Marinwood/Lucas Valley area and not look to force nearly 60% of the county's unincorporated housing allotment into our small bedroom community. M - 1 St Vincents Drive(St. Vincents)	We have seen the preliminary list of potential housing sites for Marin County, including in unincorporated areas such as Marinwood/Lucas Valley, as developed by the ABAG (Regional Housing Needs Allocation Plan), and approved by the California Department of Housing and Community Development. The plan includes 2,412 units within the Lucas Valley / Marinwood area (accounting for 68% of the 3,569 units within unincorporated Marin County). Sites under consideration in the Marinwood / Lucas Valley areas: St Vincent's School - 1,800; Marinwood Market - 136; 530 Blackstone Drive (site of religious house) - 32 7; Mt Lassen (site of office park) - 58; 2 Jeannette Prandi Way (site of Juvenile Hall); 254 Lucas Valley Rd/near terra Linda Ridge: 26. We are not opposed to some moderate increase of housing units in the area. However, we have some serious concern regarding these potential sites: (1) The Lucas Valley / Marinwood area currently has less than roughly 1,750 homes, spread across a roughly 3.5 mile valley corridor, almost all of which are single family dwellings, and the overwhelming majority of which are one or two story homes. There are no large multi-unit apartment buildings in this area. The overall magnitude of the increase in units in this area (2,141 units) is disproportionately large compared to the current housing density of the area. The proposed increase would more than double the overall number of housing units in the area. (2) The area to the south and west of St. Vincent's School (east of HWY 101) has been discussed as a potential development site for some time. Although multi-unit housing could easily be developed there, adding 1,800 units would completely overwhelm the property and this very large number of auditional units represents an enormous growth for the area, on the same order of units as currently exist in all of Lucas Valley / Marinwood. To fit this large number of units, the development would likely include large three (or more) story structures, which do not currently exist anywhere in thi				x	x				x		x			×			
Muir Woods Lodge (Tam Valley)	After much thought and consultation with some neighbors, I'd like to submit the motel that is across from the Holiday Inn – the Muir Woods Lodge – as a possible housing site. You may know that the previous motel next door – with the big sign that says "Fireside" was converted to housing some years ago. If the Muir Woods Lodge is similarly converted, it would not create much additional traffic, as the patterns are already established.	Email																х
Nazareth House (San Rafael)	Additionally, there are also at least two other projects (the 670-unit Northgate and 100-unit Nazareth House developments) which are within our school district but not in unincorporated Marin. Likewise, neither of these developments, both within the Miller Creek School District, will generate per pupil funding for either the Miller Creek K-8 schools or the San Rafael High School district. That means that even though there will be many more students to serve, there will be no additional funding with which to do so. Additionally, these developments generate little to no parcel tax money and some are even exempt from the meager development fees which means the District would receive no money at all to build additional classrooms or to hire additional teachers to serve all the additional students that would be generated.	Email			х													
No Location Specified (Countywide)	All should be near public transportation and shopping. Walking is good for all of us	Email						Х	Х									
No Location Specified (Countywide)	Any & all housing proposed in Marin county should be near public transportation and shopping. Adding additional cars to the area doesn't make environmental sense so low cost housing should be in convenient locations	Email			х			Х										
No Location Specified (Countywide)	Any and all housing sites should consider availability of public transportation and availability of services, ie, grocery stores and pharmacies. It makes no sense to put any housing in out of the way sites where more cars are put on the road. Housing closer to hwy 101 is appropriate.	Email			Х			Х										
No Location Specified (Countywide)	As I am sure, many of our concerns may have already been asked but there is a need better communicate the information to the community. The follow are questions/ concerns: Who performed the study to identify potential areas for the housing sites? What determines the income used for each Housing category (ie local income, county income, housing prices)? How will residence commute from there new homes? Mass/public transportation? Where will retail commerce be located? Will the county exercise Eminent Domain Power? Effect to local taxes, for local bond issues created as a result increased population (Schools, roads, sewers, law enforcement, fire protection other county servicers)?	Email		Х	x			х						x	×		х	
No Location Specified (Countywide)	homes when there are not enough resources for those that are already here? Also, with the State allowing easy addition of ADUs on existing properties, it appears that some housing needs will be unwittingly filled that way (along with additional strain on resources)	Email				x									х			
No Location Specified (Countywide)	l am urging you to not proceed with the presently proposed Housing Element plans in incorporated Marin County. While affordable housing is a concern, so is sustainability. I do not believe the current plan balances these needs adequately. Please allow time for a more thoughtful discussion with more public engagement before proceeding.	Email										х						
No Location Specified (Countywide)	I am very concerned about the large number of homes that the state is requiring Marin to build, with no local control. We are already short of water. Where do they think we will the supply for more homes. As a minimum any new building should only be done with companion infrastructure improvements to handle it such as water, traffic, local schools, etc. I believe there should be push back to the state legislature regarding push to urbanize many parts of our county without thought or planning for the effects of such building.	Email		х	х	х				х					х			
No Location Specified (Countywide)	I do not think there should be housing put into rural meadows but should concentrate on areas that are near existing commercial or developed areas that are not being used. Why change Marin to be like other congested counties that have houses Everywhere willy-nilly and people have to have cars and use gas to get anywhere they need to go? Marin County has a beautiful and peacefulness in the open meadows and hillsides. Please don't jeopardize the county by putting the housing along open space meadowlands and hillsides.	Email										х						
No Location Specified (Countywide)	I find your proposals rushed and not well thought out. I am in favor of taking a more thoughtful and balanced approach.	Email																1

No Location Specified (Countywide)	I fully support measures to increase housing in Marin County, especially those targeted for low income housing. I reject the disguised racism and NIMBY attitude present among naysayers, even if it were to depress my own home's value. I support both racial and economic diversity as a strength of our community. It's unconscionable that wealthy Marin residents want the best schools, but don't want low paid teachers to be able to afford to also live here. This goes double for housecleaners, yard workers, and other very low wage workers who have to spend a significant portion of their income commuting. Let's stand up to the madness of a vocal few and do the right thing.	Email															х	
No Location Specified (Countywide)	I like how an unelected board (ABAG) comes up with this huge number and threatens the county with a big stick. Never mind the additional water resources that would be needed for all these new residents in a drought prone area.	Email													х			
No Location Specified (Countywide)	Marin Housing authority, It seems like the enthusiasm to push this through the County is ignoring a grievous situation. Already, even with water limitations, the County is poorly prepared to grow without greater water resources. This is truly the 'elephant in the middle of the room'. No expansion on this scale can possible be discussed without responsible delivery of adequate water. Thank you for considering my voice.	Email													х			
No Location Specified (Countywide)	My primary concern is the same one I always have: how will increasing housing affect the environment? A number of sites would require cutting down trees or building close to streams. We need MORE trees, preferably native oaks, to protect soil, reduce moisture loss, & provide shade. Open space is NOT wasted space. Talking about affordable housing sounds good, but I keep seeing huge vanity houses being built. There's a 4,000 ft2 just down the road from me that stands empty most of the time. All that construction required scarce building materials and created lots of air & noise pollution. Is slapping an affordable-housing tag on these projects just another sneaky way for people to invest in real estate? How does packing people into fire-prone areas make sense? What about drought and the impact of more construction & people? Why not buy back or forbid the ownership of 2nd & 3rd homes? Why not build housing in strip malls? Disrespecting the environment is how we got into this mess.	Email										Х		х		х	х	
No Location Specified (Countywide)	My view is that the changes proposed will change the character of this lovely region	Email										х						
No Location Specified (Countywide)	The county of Marin has reached peak density due to water and transportation constraints. Minimal new housing should be constructed in Marin County. The housing problem is a statewide problem and it should be addressed at the state level. New cities should be constructed along the Hwy. 5 and 99 corridors near the planned high speed rail lines. The state also needs to build treatment centers for the mentally ill and the drug addicted individuals that are currently living on the streets. These centers can also be placed where land and resources are less expensive. The current uncoordinated county by county plans will only decrease the quality of life and increase expenses for all.	Email			x	x		х		х					х		х	
No Location Specified (Countywide)	We are being asked to find housing numbers 19k what we were asked in the last planning cycle. Why? If this is because ABAG is, once again trying to the Marin housing numbers to SF through their "sphere of influence" concept, this has already been disproven, since Marin is not a bedroom community to SF. ABAG needs to understand that they cannot just wave their magic wand, and buildable lots appear! Affordable Housing needs are real, and Marin has been a very expensive place to live, both in housing costs and in cost of food, gas and everything else, so we are not a very affordable place to live, even once housed, ites with sea level rise issues should not be considered for new housing. Period. Building housing for the disadvantaged in these areas is not social justice, or even good planning. Parking on site is a must in Marin, regardless of any loopholes in SB9. Especially on the hills, where the streets are substandard, parking on the streets has already created impossible access for fire and other emergency vehicles, or even 2-way traffic. This has been caused by the County neglecting to demand the roads be improved before development went in. These are death traps in the event of the fire we know will come some day! Planning has allowed development to continue on substandard roads, particularly on hills. This poor planning has created fire traps throughout the county that people will not be able to evacuate from. These sites should also not be further developed, especially for those in need, without adding the infrastructure that will insure the safety of the residents, is adequate roads that can handle an evacuation. Other infrastructure needs to be updated to handle increased demands, such as sewers, to meet the unplanned expansions mandated by SB (How will we meet these sea level rise impacting existing housing and major roads, and fire. While we are redesigning these we may have opportunities to find new housing sites. I hear the Strawberry Seminary has sold its property. There is a vast opportunity for a	Email		×		×	x				x	×		x	x		x

No Location Specified (San Geronimo and Nicasio)	Dear Board of Supervisors, I am writing to thank you and the County staff for the outstanding work you have been doing on the new Housing Element for Marin County. I especially appreciate the community education and outreach by the County to actively engage residents during these past few months. The workshops on the Housing Element and the Balancing Act tool offered important information on the unmet need for affordable housing and also the criteria that could to be used as guides in the decision-making process. I also want to thank Leelee Thomas and the entire Community Development Agency staff for the virtual workshop on February 16th for unincorporated West Marin. More than 100 people attended, many with purposeful, well-informed questions. Leelee and staff responded to all of the questions in a knowledgeable, meaningful and insightful manner. In addition to housing sites, It was good to hear that County staff are working to try and find solutions to some of the most vexing issues that impede and discourage the creation of affordable homes: septic issues, waste treatment and grey water systems, and building code and zoning restrictions. I very much appreciate your dedication and support of affordable housing in Marin. We all have a lot of work to do. Attached are my ideas about possible sites for affordable housing sites in the San Geronimo Valley and Nicasio. (Note: attachment apparently not included)	Email															х

No Location Specified (San Geronimo Valley?)	Increasing the potential for 200+ more cars getting through the SFD corridor during rush hour? Traffic is already a nightmare morning and night. Adding houses to a community struggling to maintain homeowners insurance due to wildfire vulnerability? This is really poor thinking and poor planning. I support seeking SOME alternative Valley sites to meet our affordable housing obligations but there are possibilities along the 101 corridor that make much more sense. Please think forward instead of short sightedly.	Email				х								х				
No Location Specified (West Marin)	I agree with and adopt as my own the comments submitted by the Environmental Action Committee of West Marin (EAC), and request that you add my name in support of EAC's position. And additionally, and by all means, Marin County MUST maintain the zoning (A-60) and all other policies designed to protect and enhance agriculture in West Marin. (Note: unable to identify EAC comments which are referred to.)	Email										х						
No Location Specified (West Marin)	I am extremely concerned about more housing going up in West Marin due to fire danger and the already impossible likelihood of getting out of Marin from West Marin due to the lack of roads to get out. How can more housing be considered when there are only a couple ways out and if traffic in Fairfax is bottled up and the ONLY way out is going east then valley residents are screwed. Housing should only be considered in areas nearest the freeways. The golf course should only be for open space and recreation. Fire danger is a serious threat.	Email				х						х		х				
No Location Specified (West Marin)	In West Marin we are on septic systems. It is horrendously expensive to get anything done here., costing up to \$ 100,000 easily for a simple system. Then the County is imposing annual extra fees for people who have non standard systems of any kind. It makes this unfeasible for all but the most wealthy. I and many of my neighbors would be amenable to putting an ADU on our property BUT for the septic issues. There are alternatives - electric toilets, or other things that could be researched. Also, the County must come up with an affordable septic pricing. Plus, the contractors have no incentive to keep their costs in line, even with their proposals. I have heard time and again, how Questa got a bid, must have been the lowest bid, then they went over budget, (by \$15,000 or \$ 20,000) and to get the house signed off, approved, and be able to move in, the homewomer paid the cotrolin, I mean, bill. The County could at least provide a service where homeowners could put their comments in about septic contractors for prospective septic owners to see. Thanks for listening.	Email													x			
No Location Specified (West Marin)	The consideration of this site (275 Olive Avenue) raises a concern that other similarly inappropriate sites may also be up for consideration in other parts of Marin. Would it be possible to get a list of any sites that are within 500 feet of a wetland? I studied wetland habitat restoration planning in graduate school, and was under the impression that CEQA/CWA sect 404 prevented projects from being built on top of or close to wetlands. Novato, Atherton Corridor	Hello. Thank you for the information and materials regarding the Housing Element on the website. I have reviewed all of the materials and have the following questions the answers to which will help me and others comment and provide input in a more informed way. Because of the 1,000 character limit, this is the 1st of 3 emails with 9 total questions. The Draft Candidate Sites Inventory charts you have provided do not break-out extremely low-, very low-, and low-income units. The Housing Element Site Inventory Guidebook under Government Code Section 65583.2 (the "Guidebook") seems to require this, and Marin County's FAQ 15 breaks down the 3,569 total into those 3 categories plus moderate and above moderate. Can you please provide that more defined breakdown of all 5 categories by site? 1. It would be very helpful to have a chart for the Draft Candidate Sites Inventory that lists the units under each of the four scenarios. Is that something you have? Can you please provide it? 2. Under Part A, Step 3 please provide the infrastructure availability or plans for the Atherton Corridor sites. 3. Under Part A, Step 6 please provide the factors considered to accommodate low and very low-income housing for all of the sites. 4. Under Part B, for the Atherton Corridor sites, please provide the evidence that the site is realistic and feasible for lower income housing. 5. Is there a master plan for all of the low-income housing, up to 516 units, for the Atherton Corridor? Does any plan consider sidewalks, traffic lights, parking spaces and public transit? How many buildings and floors on each site are envisioned? 6. Under Part C, the capacity analysis, and in particular Step 2, what were the factors to calculate the realistic capacity of the Atherton Corridor sites including redevelopment of the non-vacant sites? 7. Under Part D, Step 3A, what is the basis for finding that the current residential use for the Atherton Corridor sites is unlikely to be continued? I would appreciate your response to my 9 questions in advance of t	Email	×	×													x	
Novato, Atherton Corridor	How would you feel if the County identified your home as the possible site for rezoning to accommodate high-density housing but neglected to notify you??? And then justified its inaction as inconsequential because the properties are only under preliminary consideration. That's what happened in the Community Development Agency's Feb. 17 presentation. I call it arrogant, insensitive, high-handed and totally inappropriate. Furthermore, the process of identifying these properties is opaque at best. It is irresponsible to proceed while disregarding the infrastructure necessary to support new homes, particularly in our drought- stressed, fire-endangered landscape. It's not the kind of government that respects its citizens. I am particularly troubled that the planning for the Atherton unincorporated areas ignores the Fireman's Fund 1000-home development in Novato less than a mile away. Dumping 1400 homes into this concentrated area spells disaster and will overwhelm the San Marin-Atherton interchange.* The "Guiding Principles" you adopted in December include "environmental hazards," but they recklessly disregard the practicalities of building on these sites and the adverse impact on the local environment, it's time to go back to the drawing boards and this time develop a reality-based plan that honors your constituents. "Construction of 101 in the Novato Narrows has taken 20+ years! Nothing should proceed until CalTrans is on board with a plan and dollars committed!	Email	x	х						х		х		х				
Novato, Unincorporated	We live in unincorporated Novato and the consensus of my neighborhood is that we do not wish to have our area re-zoned to accommodate low-income housing. What's unique about our area is that we still have some room to support the local wildlife and insects. Since moving here in 2014, we've witnessed a decline in the bee, bumblebee, and butterfly populations. The Monarchs will soon be gone too due to dwindling food resources. They are key to the health of our ecosystem, and every time a property is developed for housing, the plants needed to support these creatures are destroyed. Fencing also hurts the trails and pathways necessary for the animals to get much-needed food and water. We do not want you re-zoning anything. We want to keep our neighborhoods as they are. We already struggle with water issues. Please do not make our areas more accessible for development. We do not want what little beauty is left here destroyed.	Email										x			х

O - 217 Shoreline Highway (Tamalpais)	(Comment edited for length) Sustainable TamAlmonte has the following comments and recommendations regarding the merits of the above referenced Tam Valley, Almonte, and Manzanita Candidate Housing Sites listed in the 2023-2031 Housing Element DRAFT Candidate Housing Sites List. Due to the unique characteristics of the area, encouraging residential development, especially high-density development, at the above referenced Sites would increase the risk of undue harm to the environment and undue hardship, illness, injury and/or death to the current and future residents. The Tam Valley, Almonte, and Manzanita commercial lowlands, in which the above referenced sites are located, experience the most number of environmental constraints and hazards of any area in Unincorporated Marin. Both the Marin Countywide Plan's EIR and the 2012 Housing Element's SEIR demonstrate that development at these sites would exacerbate the existing dangerous conditions and add new significant adverse environmental impacts (which) magnifies the probability that a tragedy would ensue and the multiple mitigations that a developer would need to fulfill would cause development costs to soar. These factors make the sites unsuitable for affordable housing. The only acceptable course of action is to eliminate the sites from the inventory. Below is a list of the unique natural features, hazards, and limited resources in the Tam Valley, Almonte, and Manzanita lowlands that constrain development and population growth and substantiate our argument. For a quick overview of these constraints, please view the attached table. I. Dangerous Traffic with Unacceptable Level Of Service – LOS "F" Of Local Roadways:. II. Flooding, 100 Year Floodplain, Impending Sea Level Rise III. Filled Marsh Areas With High Seismic Activity, Liquefaction, Subsidence and Mud Displacement. IV. Air Quality & Noise: Increased Risk of Residents Developing Serious Illness Due to Living Near Major Roadways. V. Hazardous Materials: For additional information regarding potential health		x			x					x	x		X			х

O - 217 Shoreline Highway (Tamalpais)	As a concerned Mill Valley resident, I am writing to endorse TamAlmonte's letter to you re. the merits of Tam Valley, Almonte, & Manzanita Draft Candidate Housing Sites. Please think very carefully about sites, due to concerns about flooding, traffic and at times extreme fore danger with needed evacuation routes.	Email				х					х			х				
O - 217 Shoreline Highway (Tamalpais)	ATTACHMENT from Tam Design Review Board: Suggested Additional Policies to be Included in the Housing Element: 1. Wildfire Risk: Use mathematical modeling to investigate and predict wildfire risk. Prohibit the building of housing (even ADUs) in fire critical areas. 2. Flood Risk: Prohibit new housing in areas at risk of flooding from storm surge or sea level rise. 3. Bothin Marsh: Require all new development adjacent to Bothin Marsh to supplement and follow the policies that are designed to preserve the marsh. Given the County's recent efforts to restore and preserve the marsh, it makes no sense to select a site adjacent to the marsh for any form of dense development. 4. Evacuations: Require that new housing development along Shoreline Highway trigger a study and redesign of the traffic patterns to ensure that any new housing development in that area will not worsen traffic or increase the threat to life safety during an evacuation. Any assessment of traffic impacts of emergency evacuation should include new housing developments in the City of Mill Valley, as Shoreline Highway is the only exit should East Blithedale become blocked. 5. Short Term Rentals: Eliminate short-term rentals is completely, or allow only on-site, owner-occupied properties to have short-term rentals. If someone does not live on-site, then the property is arguably an investment property only, and any claim of the need for that short-term rental income can be disregarded. This would enable ADUs to be counted toward the Housing Element numbers (see item #10), 6. Vacancies: Create a County mandated vacancy tax (as San Francisco is presently considering) to create disincentives for leaving housing units empty. Exemptions could be made for work from home or dwellings under a certain square footage if the homeowner works from home or needs the space for their own dwelling use. This has been documented to establish new housing units and therefore could be counted toward the housing numbers. 7. Speculative Investment: Eliminate corporate ownership	Email																
O - 217 Shoreline Highway (Tamalpais)	I am in complete support of all the points made in Sustainable Tam Almonte letter of 2/24/22. Building in the proposed area is ill advised, and appears to be illegal.	Email								х	х							
O - 217 Shoreline Highway (Tamalpais)	I am writing to endorse the attached letter from Sustainable TamAlmonte to the Marin County Board of Supervisors and Planning Commission regarding the merits of the proposed Tam Valley, Almonte, and Manzanita Candidate Housing Sites listed in the 2023-2031 Marin County Housing Element DRAFT Candidate Housing Sites List. The need for housing our homeless is desperate but building residential space at Tam Junction is just NOT logical. The idea of building along Shoreling/ Highway 1 is very questionable. It is already a populated area with minimal sidewalks and access to needed resources. Thank you for your consideration of the attached letter	Email	×	х	×	×		х		х	х	х	×	×	Х	Х

O - 217 Shoreline Highway (Tamalpais)	We are writing in regard to the sites chosen for possible inclusion into county plans for housing in the Almonte/Tam Valley area of the county. Of the eight sites mentioned in your Balancing Act scenario, five are in a serious flood zone and one is located, not on, but in Richardson's Bay. Your commentary regarding the avoidance of environmental hazards has been completely ignored by whatever staff was used to choose these sites. The properties in the flood zone are 160 Shoreline, assessor's parcel # 052-041-27, 217 Shoreline, 223 Shoreline, and 204 Flamingo Rd. he site which is actually in the bay is 260 Redwood Hwy. Oddly enough, there is one property across the road from 160 Shoreline which is on solid ground. That would be the Muir Woods Lodge, a motel which actually has some open space which could be used for more housing. Why was this property ignored when lesser properties were chosen? Considering that we are familiar with the sites in the Almonte/Tam Valley area but not the rest of the county, it seems very strange that your staff has chosen properties which flood now and will continue to flood even more in the future. We wonder about your motivation in focusing on dangerous and inappropriate land. We also wonder why your staff has chosen properties which are pretty much lumped together in the same area which will further exacerbate the level F traffic problems which occur for us every day. If these sites were chosen to be close to public transportation, we would remind you that there is no viable public transportation in our area. So we would be looking forward to much more daily auto traffic. We are extremely disappointed in the Balancing Act which appears to be a distraction and of no practical value. We wonder how much time and money was wasted on promoting this ridiculous game. We also wonder how many sites in the rest of the county are totally inappropriate but are being promoted as a way to choose our fate which, as you know, is not the case. Surely, the Board of Supervisors can do better than pr	Email				x		×			x							
O - 217 Shoreline Highway (Tamalpais)	We oppose new housing in the areas mentioned in Tam Junction due to flooding and traffic and possible fires, can't get out of here now. Tell Scott Wiener and his friends to move on.	Email				х					Х			Х				
O - 217 Shoreline Highway (Tamalpais)	Vesterday afternoon, I had the pleasure of speaking with Ms. Clark about the wisdom (actually, the lack of it) in the choice of potential sites around Tam Junction. Last night, I participated in the "roadshow" and, as a result, I am asking for your help in following up on one matter. During the presentation by Jose Rodriguez, he mentioned that one of the "Guiding Principles" for the BOS is the consideration of "environmental hazards". It doesn't take long to recognize the hazards of sea level rise, a long history of flooding and traffic in our neighborhood, among others. But, in addition, Mr. Rodriguez made an interesting rejoinder to a question about whether certain sites can be included in this study if such sites have been previously reviewed and rejected. He was not too clear but he suggested that the State of California has some "requirements" if a previously rejected site is again brought up for analysis. I asked him to specify (1) which of the four Tam Valley sites have already been considered and rejected, and (2) what are the state's requirements (if any)-that are different or additional—that would apply to such sites. He did not have the information available to answer either question and it didn't appear to me that there would be much of an effort to research those questions and disseminate the answers. Hence, this email. Do you know the answers? If not, would you please put in motion an effort to discover the answers? It may not be dispositive, but then again, it may be important. P - 4900 Sir Francis Drake Boulevard (San Geronimo Valley)	(Comment edited for length) Please find attached the San Geronimo Valley Planning Group's response to the proposed Housing Element update. Background: The San Geronimo Valley Planning Group was formed in 1972 to help elect Gary Giacomini to the Board of Supervisors in order to gain the critical third vote necessary to kill the 1961 Countywide Master Plan, which had envisioned 5,000 new homes and 20,000 additional residents for the San Geronimo Valley alone. While the plan was updated in 1982 and 1997, its central premise has never changed; preserving our Valley's rural character and protecting our natural environment. This commitment - along with that of many other community members - also helped permanently preserve more than 2,300 acres of open space in our beloved Valley. We have been trying to apprehend the efforts of Marin County to meet the state- mandated "housing elements" through the rezoning of existing parcels. We are very concerned that few Valley residents are aware of the potential impact of this housing mandate on our community and that the Planning Group was not included in the process from the beginning. Apparently, pressure from the State has made it a top- down County effort. The Planning Group adamantly opposes the proposed, potential locations within our community identified below. High school property - We are alarmed by Candidate Housing Site P, the proposal to build 98 above-moderate-income units through rezoning the high school property next to the Ottolini/Flanders' Ranch at the bottom of White's Hill on Sir Francis Drake Blwd. Our Community Plan clearly spells out that the use of this property should remain as agriculture or open space; the high school district agreed. Our reasons are numerous. 1. It would be a dangerous location, creating a separate enclave with an entrance off a very busy highway, and removing one of the few places where traffic can safely pass slower traffic. 3 Because this property is not within the boundaries of any of our four villages, it would beatory the esse	Email (See Email Comments Received.PDF, pp. 234-236)			×	x	x			x		х					x	
P - 4900 Sir Francis Drake Boulevard (San Geronimo Valley)	1: can we use the Lagunitas school parcel that is before the Spirit Rock parcel? 2: If Spirit Rock is built on can it be hidden from road? 3: The visual view when you enter the Valley is gorgeous and should be maintained. 4: Lagunitas school campus has lots of unused space.	Email										х						х
P - 4900 Sir Francis Drake Boulevard (San Geronimo Valley)	98 houses on the San Geronimo Valley floor is a terrible idea. It would ruin the beauty of the valley which Valley residents have worked so hard over the years to preserve. Please help us we would be most grateful if you could find other sites for these needed homes. Grateful for your attention to this.	Email								х		х

P - 4900 Sir Francis Drake Boulevard (San Geronimo Valley)	Already leaving here is problematic early in the morning and many folks work and go to school over the hill and have to go then. You would be adding probably 200 or so cars to the problem for starters. As it is I no longer go to Point Reyes on the weekends because its an extremely busy place full of tourists and the locals cant park and get to services. Dennis, I have written to you before regarding the San Geronimo Valley Golf Course and you can see now that what was once a beautiful sward of land full of animals and birds and yes golfers is now a sea of weeds and fallen trees. And yes, people walk there on the paths and I guess through the tick invested grasses as well. And now you want to put up 98 (!) houses and destroy another piece of the Valley? And what about fire and earthquake considerations. If that corridor gets blocked in an emergency we would all try to get out through Lucas Valley or perhaps Highway One but regardless its scary to think of those situations. And I was here when we fought to keep that high school and all the other developments a NO GO. Successfully might I add and I believe the plan states that land was to stay agricultural. And how are you going to get all those folks home insurance? I already know people who have been denied coverage here and several of those companies I believe want to leave California altogether. Surely you can find another spot to meet whatever criteria is mandated some place else. I dont know if you even bother to read these letters but I do want to go on record objecting wholeheartedly to this.	Email /				х						х		x				
P - 4900 Sir Francis Drake Boulevard (San Geronimo Valley)	Dear Mr. Rodini please do your best to represent the better interest of all Valley residents and don't let 98 new houses be Built-in the area East of Woodacre along San Francisco Drake. The San Geronimo Valley has one road in-and-out and Our septic systems and fire protection issues are at stake! Please say no!	Email				х								х	х			
P - 4900 Sir Francis Drake Boulevard (San Geronimo Valley)	Hello Dennis, I am writing as a long term resident in Woodacre with some concern regarding the 50 acre parcel alongside SFD Blvd and the Flanders ranch property. Please include all San Geronimo residents in any planning that might go forward on this horrendous possibility for 98 homes. We are already struggling with water issues, fire issues, septic issues, road access in emergencies, current Fairfax traffic jams. We already have a valley floor jammed with County infrastructure - water dept, fire dept, PGE substation, noise and lights all times of day and night. I certainly hope this possibility will become part of many public forums on your agenda for this small and fragile valley. Since the last fire on White's Hill, nothing has been done to remove the battery box from the long-broken highway sign which may have sparked that fire. I think, in speaking to my neighbors, the SGV feels a bit neglected by your office and I sincerely hope that can be rectified.	Email				х				x				x	x			
P - 4900 Sir Francis Drake Boulevard (San Geronimo Valley)	I am a homeowner in Woodacre since 1972. I am of the opinion that there are some places that shouldn't be developed. I include all of western Marin in that category, but for the moment I will comment on the proposed development of 98 homes just west of White Hill on Sir Francis Drake Blvd. Entering the valley, one's first impression is the beautiful rural landscape that is becoming rare in California. That experience would be negatively impacted by any development in that area. 98 Homes would mean around 200 automobiles adding to the congestion in Fairfax and San Anselmo and create a great deal more air pollution than already exists. That area is not only a seasonal wetland, but is in the headwaters of the Lagunitas Creek Watershed. Construction and habitation of that area would cause irreparable harm to wildlife, including endangered salmonids and many other species. I support development along the 101 corridor.	Email				х				х		х		х	х			Ì
P - 4900 Sir Francis Drake Boulevard (San Geronimo Valley)	I am a resident and homeowner in Forest Knolls, where I live with my husband and 5 year old. I'm responding to signs I saw posted today along SFD near Dickson Ranch, in regard to the building of 98 homes on that property. I have searched online and cannot find any more information about this proposal. I would like to add my comment that you please proceed very cautiously—while I really recognize the need for more housing and more affordable housing in Marin, I have a couple of big concerns—environmental impact (including air quality, native species habitat preservation and restoration, and light pollution. I also have some concern about SFD as the only way into and out of the valley, in case of emergency (and, just in terms of general traffic congestion, and air pollution). So my comment is to please very carefully consider these matters before proceeding. Thank you!	Email				х						х		Х		Х		
P - 4900 Sir Francis Drake Boulevard (San Geronimo Valley)	I am dead set against the proposal to develop 98 new houses on the 50 acre High School property. Such a large development is exactly the kind of change the valley has fought against for decades. Such a large development would change the Valley's pastoral character enormously and negatively. I believe the Valley's population stands around 3,500. If 4 people were to live in each house of such a new village, the valley's population would increase over 10% overnight. I would support fewer than half such units of low-income housing if they were located in dispersed fashion, and wouldn't have such a negative aesthetic consequences.	Email								х		х					х	
P - 4900 Sir Francis Drake Boulevard (San Geronimo Valley)	I believe West Marin has reached its carrying capacity for new homes, especially in regards to water, roads, septic and fire safety. Are we going for maximum buildout? What happens after we add 3500 homes the State of California tells we have to do? What happens in 2031 when they say we have to do it again? I watched the zoom meeting with Leelee Thomas on February 16, and she said it's either the carrot or the stick. I did not see any carrots in the equation, only threats. The proposed 98 houses in the heart of the San Geronimo Valley is an ill conceived proposal. It does not take into consideration that the plot of land is the headwaters of the Lagunitas Creek which is a coho salmon nursery. It's a flood plain when we get substantial rain - if you have ever driven by in a downpour, the entire area is a web of small streams before it gets to the main stream channel about 500 feet from there. I believe the infrastructure needed for those houses would not only be an eyesore, but also a detriment to our fragile ecosystem.	Email		х		х				х	х	х		x	х			
P - 4900 Sir Francis Drake Boulevard (San Geronimo Valley)	I could not access the Balancing Site work area so I am submitting these comments here. SGV is am amazing place to be due to low development. I have had the benefit of living here 25 years. What is being proposed in both of the areas of the School property and at the Gold Course are for higher end homes. Higher end homes are not a help for our community. We need homes for families with kids, We need Senior housing. We don't need another 127 above moderate income homes. Have some vision. Create a place with a grocery store, deli, and place for people to meet. Create Senior housing. Have ability to share vehicles. This area could become a hub for our community to use and support. It is also a sensitive environmental area. It used to be where water would spread out when it rained and slowly sink into the ground providing water all year round for the fish. More concrete and asphalt = more runoff. This vision of 98 separate high end homes here is not fitting to the rural area of our valley. It is just going to bring in more people who want a rural lifestyle from other areas and NOT give our locals homes. Every day, people, and families are looking for homes. Renters are being pushed out. It is unaffordable to live here. Solve the problem we have now, housing for our locals. Not bring more people here. Also, the place being considered at 6900 Sir Francis Drake is a privately owned place. Owned by a family that owns quite a bit of property in the Valley as it is. I certainly hope public monies are not going to rehab this property.									х		х					х	
P - 4900 Sir Francis Drake Boulevard (San Geronimo Valley)	I do not support 98 houses on the 50 acre High School property facing Drake Blvd in the San Geronimo Valley. It would destroy our Valley's rural character and the beauty we prize in that view shed. I support seeking alternative Valley sites not visible from Sir Francis Drake Blvd to meet our affordable housing obligations.	Email								х		х						
P - 4900 Sir Francis Drake Boulevard (San Geronimo Valley)	I do not support 98 houses on the 50 acre High School property facing Drake Blvd. in the San Geronimo Valley. It would destroy our Valley's rural character, the beauty we prize in that view shed and create a new, unnecessary and unwanted village. I believe many of these West Marin sites are not strategic due to environmental concerns, lack of local jobs, and inadequate infrastructure to sustain such a population increase. I support seeking alternative Marin sites to meet our affordable housing obligations.	Email		х	х					х		х						
P - 4900 Sir Francis Drake Boulevard (San Geronimo Valley)	I do not support 98 houses on the 50 acre High School property facing Drake Blvd. in the San Geronimo Valley. It would destroy our Valley's rural character, the beauty we prize in that view shed and create a new, unnecessary and unwanted village. I support seeking alternative Valley sites to meet our affordable housing obligations. We are already working to provide affordable housing for people here in the San Geronimo Valley. Please work with our group to create homes and units that are an integral part of our existing villages. Continue to preserve our open, agricultural spaces and the green belt that surrounds this rural part of Marin county.	Email								х		×					х	
P - 4900 Sir Francis Drake Boulevard (San Geronimo Valley)	I do not support 98 houses on the 50 acre High School property facing Drake Blvd. in the San Geronimo Valley. It would destroy our Valley's rural character, the beauty we prize in that view shed and create a new, unnecessary and unwanted village. I support seeking alternative sites to meet our affordable housing obligations. Supervisor Rodon: You have been a supporter of the environment and the agg culture of Marin. I know we need housing in Marin, but this is the wrong spot for 98 houses especially without any transit options for residents in that development.	Email						Х		х		х

It would destroy our Valley's rural character, the beauty we prize in that view shed and create a new, unnecessary and unwanted village. Not to mention the massive increase in traffic and fire hazard/danger such a development would create. I support seeking alternative Valley sites to meet our affordable housing obligations.	Email				Х				х		х						
P - 4900 Sir Francis Drake Boulevard (San Geronimo Valley)	I do not support new housing on the 50-acre High School property facing Drake Blvd. in the San Geronimo Valley. This important rural gateway property to the valley and nearby Pt Reyes National Seashore should remain in agricultural use as part of the historical Flanders Ranch. I support seeking alternative Valley sites to meet our affordable housing obligations. Our community will vigorously oppose such inappropriate development.	Email								х		х						
P - 4900 Sir Francis Drake Boulevard (San Geronimo Valley)	I hate to hear that 98 houses are going to be built on the 50 acre High School property facing Drake Blvd. in the San Geronimo Valley. I do support seeking alternative Valley sites to meet our affordable housing obligations, and hope that some compromise can be reached that won't destroy the beautiful approach to West Marin or further stress our limited resources. I know we are lucky to have remained untouched by "progress" for so long but oh boy I hope our luck holds a bit longer. Anything you can do to stop this unwelcome and depressing development will be much appreciated.	Email								х		Х			х			
P - 4900 Sir Francis Drake Boulevard (San Geronimo Valley)	I have lived in Woodacre for over 40 years. I love the contry feel and woodsy environment. I highly object to the proposed low income housing development on Flanders property. I am your constituent, and voted for you when you were running for office. Please stop any expansion, re-zoning or building projects that will bring more residences to the Valley. I travel down San Geronimo Valley drive every day as, I work in San Rafael. When I get to the corner of Sir Francis Drake, I would be looking at the very piece of land across SFD, that the houses will be built on. As I understand the proposal, 100 houses will be built on 50 acres. The new development will also add to traffic on SFD by quite a bit. Please, let's keep the beautiful rural nature of the Valley as it is now.					х				x		x						
P - 4900 Sir Francis Drake Boulevard (San Geronimo Valley)	I hope you're well and please allow me to begin by thanking you for your leadership on a range of issues important to San Geronimo Valley residents. While I know the recent report about possible locations for additional housing in the county is quite preliminary (and conducted by a third party that does not speak for Marin County residents), it makes sense that concerned citizens speak loudly and early on this topic. Please know that I do not support 98 houses on the 50 acre high school property facing Sir Francis Drake Blvd. in the San Geronimo Valley. It would destroy our Valley's rural character. It would destroy the beauty we prize in coming over White's Hill. It would create a new, unnecessary and unwanted village. Most important, it would add a possible 200 additional vehicles and possibly up to one thousand daily vehicle trips in and out of the valley to an already congested road. Anyone trying to get to Highway 101 at 8:00 am already knows that the traffic is horrible as you enter Fairfax. This would add to that exponentially. Anyone living on or near SFD Blvd. knows that the weekends are equally tough with many tourists heading to and from the coast. While I support affordable housing I believe there are better ways and better locations to accomplish this.	Email				х				х		х

P - 4900 Sir Francis Drake Boulevard (San Geronimo Valley)	I just want to add my voice to ask you not to support the new San Geronimo housing being considered. The environmental and infrastructure impact will be horrible!	Email		Х								х						
P - 4900 Sir Francis Drake Boulevard (San Geronimo Valley)	I oppose 98 houses on the 50 acre High School property facing Drake Blvd. in the San Geronimo ValleyWest Marin is maxed out on development because of fire concerns, small roads, septic. The proposed development at the west side of whites hill is the headwaters of the Lagunitas creek which is our coho salmon nursery. It's a floodplain and is unsuitable for development. The infrastructure needed for a development would harm our fragile ecosystem. If Marin County decides to do what the State is demanding, then why not put the entire buildout on the St. Vincents property which is right next to the freeway and could handle the increase in population. We would like to see all the building be for homeless and low income people - like all the people who commute from Vallejo and Richmond to serve us daily because they can not afford to live in our county. Many other properties in Marin would be more suitable.	Email				x				x		х		х	х		х	
P - 4900 Sir Francis Drake Boulevard (San Geronimo Valley)	I oppose a housing development the 50 acre High School property facing Drake Blvd. in the San Geronimo Valley. 1. West Marin is maxed out on development because of fire concerns, small roads, septic. 2. The proposed development at the west side of whites hill is the headwaters of the Lagunitas creek which is our coho salmon nursery. It's a floodplain and is unsuitable for development. 3. The infrastructure needed for a development would harm our fragile ecosystem. 4.Building would ruin agricultural, rural beauty which is so precious to the San Geronimo Valley. 5. If Marin County decides to do what the State is demanding, then why not put the entire buildout on the St. Vincents property which is right next to the freeway and could handle the increase in population. We would like to see all the building be for homeless and low income people - like all the people who commute from Vallejo and Richmond to serve us daily because they can not afford to live in our county. Or work with the state to move San Quentin out to a more appropriate place for a prison such as barren land in the dessert, and make a beautiful development on the waterfront right next to shops and the ferry and the Richmond Bridge which would be easy access to transportation and would not overburden Sir Francis Drake which is already far too congested. Many other properties in Marin would be more suitable.					х				х	х	х		x	х			
P - 4900 Sir Francis Drake Boulevard (San Geronimo Valley)	I support adding housing in appropriate locations. I do not believe the west side of White's Hill, on Tamalpais School property is appropriate. The area is prone to flooding and is vital for supporting the flow of water in the creeks that are used by salmon. Also, the county plan has been to add housing on the 101 corridor, leaving west Marin rural. As a member of the Valley Emergency Response Team, I am concerned about adding so many more cars on the road, ensuring a bottleneck in the event of an emergency evacuation.	Email									х	х		Х				
P - 4900 Sir Francis Drake Boulevard (San Geronimo Valley)	I support adding housing in appropriate locations. Also, the county plan has been to add housing on the 101 corridor, leaving west Marin rural. As a member of the San Geronimo community, I am concerned about adding so many more cars on the road, ensuring a bottleneck in the event of an emergency evacuation.	Email									х	х		х				
P - 4900 Sir Francis Drake Boulevard (San Geronimo Valley)	I think that the proposed low cost housing sites and sizes and the solution is not thought out! For instance, the 98 homes in Woodacre would create a huge traffic problem and also be inappropriate. The Olema location and proposal would ruin the nature of Olema! And Dennis Rodoni lives in Olema! The west Marin area has been protected for a reason! The nature and small town is the reason that we are all here! I've lived here for 46 years and believe that it would be more appropriate to absorb the housing on properties that are all ready developed and make it attractive for homeowners to build ADUs Please revise the thinking around this important topic of affordable housing!	Email				X				x		х						
P - 4900 Sir Francis Drake Boulevard (San Geronimo Valley)	I'm not sure if this is accurate, but we have heard a site for 98 new homes is being proposed at the base of Whites Hill. We can only hope this is not true as that would be disastrous for the area and environment, and truly spoil the natural surroundings	Email										Х						
P - 4900 Sir Francis Drake Boulevard (San Geronimo Valley)	It has come to my attention, either from neighborly chats or from other sources, there is a potential plan taking shape to add housing to the San Geronimo Valley. Specifically close to 100 houses on the land we refer to as "Flander's Field", where there was once a plan for a high school. That plan didn't materialize, as this valley began to be more declarative and assertive in stating the vision for this area, and guidelines for what is / is not acceptable development. When I moved to the valley 25 years ago, I thought it might be a place to stay for a couple of years. But after understanding this community better, and listening to our elders, I came to understand and appreciate what our environmental advocates have been fighting for and diligently guarding. This is the reason I still live here today. In my home town, I watched as the cherry trees toppied, the apple orchards fell, and the planting fields gave way to urbanization and development. It still breaks my heart whenever I drive through and see the Police Station, Post Office, County Buildings and parking lots where I once played with my friends and frolicked with my dog. I am filled with such gratitude to live here in the San Geronimo Valley, comforted in knowing this place is truly special. Magical. I now take up the fight to preserve our natural beauty and the ecosystems that depend on limits to growth. My neighbor refers to entering the valley as the "Chitty Bang Bang effect", where the wheels of the car roll up under you and you start to float along in the last part of your journey home. Please help us keep this natural beauty as opposed to a Shitty Shitty first impression entering this sacred place. Also, this would impact and devastate what little is left of our natural habitat for spawning salmonI've witnessed and taken part in many debates and county board meetings to force the stoppage of building homes due to this deleterious impact. 98 homes will be a huge battle, but taking a cue from our long term residents, environmental groups, and ou	Email										x						
P - 4900 Sir Francis Drake Boulevard (San Geronimo Valley)	Please don't approve this development! It is way too big and is in a terrible location. It will destroy the beautiful view that every Valley resident welcomes on their return home to the SG Valley. Yes we need some affordable housing, but not on this parcel, and not at market rate. The Sir Francis Drake corridor in San Geronimo should remain rural. This huge development would create a new, unnecessary and unwanted village.	Email								х		х					х	
P - 4900 Sir Francis Drake Boulevard (San Geronimo Valley)	Please don't support the development of 98 units on former Flanders Ranch land in the San Geronimo Valley. This site stands at the gateway to the SGV and the headwaters of the watershed which houses our endangered salmonids. It is an especially sensitive location, both aesthetically and ecologically, and should be protected from all development. Just a couple of years ago, you and the BOS attempted to do a very good thing for Marin County and the SGV by purchasing the golf course, in order to protect it permanently from development and to give endangered salmonid populations a place to recover. Probably, in a few years' time, some public entity—possibly Marin County—will resume the pursuit of these goals when TPL sells the land. If the County allows a new village of several hundred people to be built, with all the ecological disturbance that entails, just a short distance upstream from the salmonid sanctuary, it will jeopardize this important environmental restoration project. I believe the 98 units are envisioned to be targeted to buyers of "above moderate" income. If so, then this suggests that the homes will be too expensive to count as the sort of affordable housing that the voting public sympathizes with. We don't want a SGV that is even more exclusive (economically speaking) than it already is—especially not at the expense of the ecology, aesthetics, etc. Please do all you can to keep the old Flanders Ranch area completely open and agricultural. Thank you very much.	Email										х					х	
P - 4900 Sir Francis Drake Boulevard (San Geronimo Valley)	Please understand that our history and values are not supportive of mass development in the San Geronimo Valley. We value our rural character for aesthetic reasons but equally for safety. We must protect egress for fire primarily. In addition we do not have the infrastructure and resources to support 98 new homes. This ideal would be better served along the 101 corridor. Thank you for consideration of supporting no development of the open fields adjacent to Flander's property.	Email		х						Х		х		Х

P - 4900 Sir Francis Drake Boulevard (San Geronimo Valley)	Remove the high school site from any consideration for housing. It is not supported in our Community Plan (see excerpts below). In addition, this is the critical view shed that every Valley resident experiences and "welcomes" on their return "home" to the San Geronimo Valley as they negotiate the curve, going west, at the bottom of White's Hill leaving the eastern urbanized corridor (where over 90% of Marin residents live), behind. This priceless Valley view encompasses the entire Ottolini/Flanders ranch and the Spirit Rock Meditation Center property from the meadows on the flats, to the uplands and ridge that seems to disappear going west towards the Nicasio pass. High School Site Issues: The development currently proposed would create the equivalent of a "new" village and its location next to SF Drake Blvd. would destroy the Valley's rural character. Increased traffic would overwhelm Drake Blvd. in route to and from the eastern urbanized corridor and 101. The north east section of San Geronimo Creek, which is home to coho salmon and steelhead trout, appears to be in this area. If confirmed, protection of this area could impact proposed development. FYI - Historically, this 50 acre school site was originally owned by the Ottolin/Flanders Ranch family. It was condemned for use of a planned High School part of the '61 Master Plan calling for 20,000 residents and 5000 homes. This '61 Master Plan was scuttled in 1972/73 after the newly elected Board of Supervisors voted to adopt the new County Wide Plan. Subsequently, the BOS began the development of highly successful Community Plans for designated areas in West Marin. At one point, (the '80's I think) the Tamalpais school board considered selling it's 3 unused school sites. Two were in the eastern corridor and one was in the Valley. The board appointed a committee to study the situation and make a recommendation. It was composed of Kate Blickhahn (Drake High School Superintendent), Dale Elliott of Forest Knolls and me. They implemented our recommendation to se	Email				×				×		x						
P - 4900 Sir Francis Drake Boulevard (San Geronimo Valley)	The proposed 98 new houses on the 50 acre parcel in the San Geronimo Valley was just brought to my attention. I am not opposed to more housing, but I am opposed to how and where they will be built i(n a cluster creating a new community as well as changing the landscape as you enter The Valley). There have been other projects in the past that are woven into the existing communities. The low cost neghborhood next to the Trailer park is a fine example. I am assuming that this Federal money is to be used for our lower income population? I have lived in the Valley for 50 years at which time we voted against sewer lines and natural gas in order to keep housing developments from taking place. Will a project this large take that into consideration? I will be sure to be adding my input as this project moves forward. Dennis, as old acquaintance I'm hoping that we can find time to discuss this more, I am no longer 'asleep at the wheel'Thank you for taking my opinion into consideration.	Email		х						х		х			х		х	
P - 4900 Sir Francis Drake Boulevard (San Geronimo Valley)	This is a terrible idea! I can tell you that it will become another problem like Victory Village. You can't just plunk down a totally different community (with different needs and mind-sets) inside another unique community. And what about water !??!?!?!! I do not support 98 houses on the 50 acre High School property facing Drake Blvd. in the San Geronimo Valley. It would destroy our Valley's rural character, the beauty we prize in that view shed and create a new, unnecessary and unwanted village. I support seeking alternative Valley sites to meet our affordable housing obligations	Email								х		х						ĺ
P - 4900 Sir Francis Drake Boulevard (San Geronimo Valley)	This proposal make no sense for multiple valid reasons. Please do what you can to reject it.	Email								х								
P - 4900 Sir Francis Drake Boulevard (San Geronimo Valley)	While I support adding housing in WMarin, I believe the White Hill location is not appropriate for the reasons below: This clearly goes against our Community Plan. It is an area prone to flooding As a result of the above, it interferes with the watershed that provides the creeks that support the endangers steelhead. It will place untold stress on an already precarious road evacuation during wildfire season. the Valley is already under major stress with failing septics, with no help on the horizon as has been blocked by the Planning Group. The Valley and it's homeowners are about to be handcuffed by the new stream side ordinances, making repairs and maintenance near impossible, so the added burden of 68 homes is such a double standard. The rural character of the Valley will be visually destroyed. I am curious why this information has been held from the public and the very short window of public comment which further punctuates your desertion, the same way you mid-handled the Golf Course debacle. Please respond with a confirmation of my very strong objection to this location.	Email								x	x	x						
R1 - 5800 Sir Francis Drake Boulevard (San Geronimo Valley)	(Comment edited for length) Please find attached the San Geronimo Valley Planning Group's response to the proposed Housing Element update. Background: The San Geronimo Valley Planning Group was formed in 1972 to help elect Gary Giacomini to the Board of Supervisors in order to gain the critical third vote necessary to kill the 1981 Countywide Master Plan, which had envisioned 5,000 new homes and 20,000 additional residents for the San Geronimo Valley alone. While the plan was updated in 1982 and 1997, its central premise has never changed: preserving our Valley's rural character and protecting our natural environment. This commitment - along with that of many other community members - also helped permanenently preserve more than 2,300 acres of open space in our beloved Valley. We have been trying to apprehend the efforts of Marin County to meet the state- mandated "housing elements" through the rezoning of existing parcels. We are very concerned that few Valley residents are aware of the potential impact of this housing mandate on our community and that the Planning Group adamantly opposes the proposed, potential locations within our community identified below. High school property - We are alarmed by Candidate Housing Site P, the proposal to build 98 above-moderate-income units through rezoning the high school property next to the Ottolini/Flanders' Ranch at the bottom of White's Hill on Sir Francis Drake Blvd. Our Community Plan clearly spells out that the use of this property should remain as agriculture or open space; the high school district agreed. Our reasons are numerous. 1. It would be a visual blight, destroying not only the aesthetics of the entrance to our Valley but also jamming suburbia into the inland rural corridor. 2. It would be a dangerous location, creating a separate enclave with an entrance of a very busy highway, and removing one of the few places where traffic can safely pass slower traffic. 3. Because this property is not within the boundaries of any of our four villages, it would destr				×	x	х			х		х					x	
R1 - 5800 Sir Francis Drake Boulevard (San Geronimo Valley)	1: can we use the Lagunitas school parcel that is before the Spirit Rock parcel? 2: If Spirit Rock is built on can it be hidden from road? 3: The visual view when you enter the Valley is gorgeous and should be maintained. 4: Lagunitas school campus has lots of unused space. R1 - 5800 Sir Francis Drake Boulevard (San Geronimo Valley)	I could not access the Balancing Site work area so I am submitting these comments here. SGV is am amazing place to be due to low development. I have had the benefit of living here 25 years. What is being proposed in both of the areas of the School property and at the Gold Course are for higher end homes. Higher end homes are not a help for our community. We need homes for families with kids, We need Senior housing. We don't need another 127 above moderate income homes. Have some vision. Create a place with a grocery store, deli, and place for people to meet. Create Senior housing. Have ability to share vehicles. This area could become a hub for our community to use and support. It is also a sensitive environmental area. It used to be where water would spread out when it rained and slowly sink into the ground providing water all year round for the fish. More concrete and asphalt = more runoff. This vision of 98 separate high end homes here is not fitting to the rural area of our valley. It is just going to bring in more people who want a rural lifestyle from other areas and NOT give our locals homes. Every day, people, and families are looking for homes. Renters are being pushed out. It is unaffordable to live here. Solve the problem we have now, housing for our locals. Not bring more people here. Also, the place being considered at 6900 Sir Francis Drake is a privately owned place. Owned by a family that owns quite a bit of property in the Valley as it is. I certainly hope public monies are not going to rehab this property.	Email								х		x					х	
R1 - 5800 Sir Francis Drake Boulevard (San Geronimo Valley)	I just want to add my voice to ask you not to support the new San Geronimo housing being considered. The environmental and infrastructure impact will be horrible!	Email		х								х						
R10 - 200 San Pedro Road (Santa Venetia)	Hello and thank you for the opportunity to comment regarding Future Housing Sites in Marin County. I attended the local Housing meeting regarding Santa Venetia and Los Ranchitos on February 15th and live in the Santa Venetia area. Here are my comments from a Santa Venetia resident perspective: 1. The process, while advised by the Marin County Planning Department, is being run by a consulting agency that is not familiar with Marin County and the local areas & neighborhoods. 2. The number of assigned housing units to Santa Venetia, 422, ignores the following. Before housing site numbers are assigned and accepted, a "CEQA-lite" analysis should be performed to determine if the numbers and locations are practical from a CEQA perspective. We heard these concerns brushed off with the response that if any development is going to be done, a full CEQA would be completed before development could/would proceed. This would be an "after-the-fact" process, with the fact that the housing numbers and sites have already been assigned and accepted, and would be too late to be influential in the development process. a. There is only one practical vehicle road out of Santa Venetia to the freeway that is already heavily impacted by three schools, the one at the JCC, the Marin School, and Venetia Valley school, and a large pre-school. Traffic in & out of Santa Venetia is also already heavily impacted by the JCC, the Civic Center traffic, the Marin Lagoon traffic, the Veterans Memorial traffic, the Marin Lagoon Housing and the commercial enterprises along McInnis Parkway. b. Some of the sites selected are in wetlands areas, such as the McPhail school site next to North San Pedro Road. c. some of the sites selected are next to the Bay and subject to special development restrictions, such as the McPhail school site. d. The total number of housing units assigned to Marin County, and not just to the unincorporated areas, does not take into account the water needs. And we, Marin County as serviced by MMWD, are in the middle of a water shor	Email				x				x				x	х			
R10 - 200 San Pedro Road (Santa Venetia)	Here in Santa Venetia, we are living with water shortages, traffic congestion, and our community's evacuation route was named the most dangerous in Marin and yet huge additional numbers of housing are proposed for this flood prone neighborhood. That's insane! We are not fooled by claims that these new residents won't drive everywhere. They will. We already know that every person of driving age in our neighborhood not only drives but owns a car, or truck. They line our streets, further restricting access routes. There are sites where housing can happen like at Northgate Mall, but not in our overcrowded flood zone.	Email				х				x	х			x				
R10 - 200 San Pedro Road (Santa Venetia)	lam a longtime resident of Santa Venetia in unincorporated Marin County, and a member of the Santa Venetia Neighborhood Association (SVNA). I, along with many of my neighbors, attended the February 15 Zoom meeting on the Housing Element initiative, which seems detached from the reality of worsening climate change. Much of Santa Venetia exists in a flood plain; other parts are in the WUI. With only a single one-lane route in and out of the neighborhood — North San Pedro Road — our existing infrastructure is already stretched to the breaking point with daily traffic congestion restricting both egress and ingress. We currently have fewer than 1800 residences in Santa Venetia eventually experiments of approximately 25%. Adding a fraction of 422 units to Santa Venetia would greatly compromise the safety of its residents, in addition to degrading quality of life. Many of our homes were built in the WUI. We are at constant risk of wildfire, with unstable hillsides that in recent years have collapsed onto North San Pedro Road. Like all of our Marin neighbors, we are constrained by drought. Here in Santa Venetia, our water supply comes from tanks that are sited in the WUI. Supplanting CEQA review in the drive to create multi-million-dollar homes puts our cultural as well as our natural environment at risk. For example, Oxford Valley, a known site of native tribal artifacts such as shell mounds, has been designated for 45 "above moderate income" units. Bypassing CEQA would eliminate the protection of cultural resources here and in other areas of Santa Venetia and Marin that have not yet been surveyed and would be lost forever. Our neighborhood is known to be at sever risk of flooding. The SVNA is currently participating in a collaboration between the California Dept of Parks and Rec, The County of Marin, and The SF Bay NERR to "Identify and Evaluate Sea Level Rise Adaptation Options to Solve Road Flooding in China Camp State Park." The project recently received a \$525k grant to address the critical issue of flooding in t	Email		×		×				x	×	×	x	×	x			
R10 - 200 San Pedro Road (Santa Venetia)	I am against the proposed units on North San Pedro Road. This proposed project is completely unsustainable and not researched for undesirable living situations. There are many factors that indicate this would not be a good site to build. Factors such as flood control, sea rising at a rate we can expect in the coming years, congestion, removal of a ball park and mostly there are no services to support this project. Well thought out projects include parks, services, bike paths, sidewalks and a reasonable egress in case of fire. North San Pedro Road is all ready congested due to a large school and many churches on this road. Another road to San Rafael is available to Point San Pedro Road however this road is falling due to floods in the winter and very evident sink holes that are not being addressed. More traffic would of course erode the roads further and in the past have had slides on this road particularly after recent tree removal has increased the likely occurance. R10 - 200 San Pedro Road (Santa Venetia)	I attended the zoom meeting a few nights ago. I share the concern of some of my neighbors, well articulated by Gina Hagen. While I totally support affordable housing (so question if this will be "affordable" for working class people), I think we already have too many high density buildings on San Pedro Road, Joc, school, rest homes, elder affordable housing, civic center etc So I would support maybe 25 more units or something manageable, but hundreds seems like asking for trouble in an emergency. I live on Labrea way and I am glad we have housing for families, down the street, but a common problem is the amount of cars and high occupancy of some of the apartments. The overflow of cars goes all the way to Rosal, and currently I have had cars parked in front of my house for a month and more. It is not a significant problem in my case, but my neighbor who has teenagers with cars, is having to struggle to park their own cars, while the overflow is from housing two blocks away. Obviously San Rafael is a good place for more housing and i would think a place closer to the freeway like Marin Square could be used for extra units of housing. I also would personally like to build an accessory unit in my front yard for a student, teacher, medical professional, at affordable rate. It would be nice to have a department in Marin county who could help seniors like myself design, get permits, and loans to afford to create such units. I myself was a renter in Marin for 36 years and lived in in-law apartments. I found it much more private and a win/win solution for the owner, typically older retired person, and myself as young professional. I was excited about an organization called Lily Pads and attended a meeting but found out later the owner was no longer providing services. So this would be a great thing to promote. Thank you for including us in your work. Hope we can have more affordable housing, while preserving the safety of our neighborhoods.	Email					x			x							x	
R10 - 200 San Pedro Road (Santa Venetia)	I served on the Santa Venetia Community Plan (SVCP) Committee for almost 10 years, including working with County Staff the last 4 years, until its final adoption in 2017. This process included a thorough survey of our neighbors who commented on every empty parcel and open space for future development (and in fact Godbe told us the response was overwhelming with a higher than normal percentage of participation). Our SVCP Committee Members represented every comer of Santa Venetia. We held community meetings (that were well-attended) so all residents had a chance to voice their opinions and ideas. No one knows Santa Venetia better than Santa Venetians. The plan was supposed to cover everything of interest to ensure a diverse, family-oriented, and happy community for years to come. Adding 442 units is simply untenable for a small, working-class hamlet such as Santa Venetia. The last two open spaces (two ball fields) are slated for high density housing. This is totally uncharacteristic of the surrounding neighbors who live in small, single-family housing. In the February 15th Housing Element Zoom call, with County Staff and Contractors from who knows where?, we were informed that our Community Plan would need to be updated. Who would do this work? When and how soon would these updates happen? How can the County randomly update our Community Plans that we spent so many resources on. SB-9 and SB-10 are a complete contradiction to our Community Plan that we dedicated years of work and volunteer hours to finally see its adoption. These past summers, we've stayed inside due to smoke and/or triple-digit weather. We used a bucket from our shower to water our indoor and deck plants while our yard withered and died due to restrictions and requirements in place from Marin Water. We worked out evacuation routes to lader residents to becaye danger due to our one road in and out of Santa Venetia. I heard chain saws, chippers, and weed whackers almost every day, regardless of the high, fire-danger days. This is due to San Rafa	Email									×			x	×			
R10 - 200 San Pedro Road (Santa Venetia)	I will reiterate the comments I made at the February 15 Housing Element meeting I've lived in SV for over 30 years. I've served on the Santa Venetia Neighborhood Association Board of Directors for almost 30 years. Through our neighborhood association, The Santa Venetia Neighborhood Association (SVNA), we try to get the word out so that our residents are aware of upcoming projects and opportunity to comment. We've heard from Santa Venetia residents that they want to protect our quality of life. We are already concerned about the constant fire danger, flooding, Sea Level Rise, ingress and egress, and unsafe evacuation routes. Climate change is a huge concern for us and as well, we have run out of water in Marin County and are under strict mandates, so I can't understand how adding more and more housing units will help. And to restate, 422 units in SV is an increase of almost 25% of the 1,700-1,800 units we currently had, at last count. It's a very shocking number of additional units for us. I grew up in San Rafael. I hate what they've done to the City and have been constantly disappointed with the building choices and what they have given up. I don't want to see that happening in Santa Venetia — more congestion and loss of our green spaces. Affordable housing sounds great on paper, but we never seem to get that promise fulfilled. I've followed projects in San Rafael and for almost every project, the promise is a huge amount of housing with a small portion designated affordable and then after the project passes through the hurdles, the affordable-housing number is adjusted always downward. I remember previously rules were passed to keep up with the demand of affordable housing, but the goalposts seem to constantly change and that number is lowered. What is the promise that won't happen with this process? Also, I heard them say at that meeting, they were giving schools and churches more flexibility by allowing them to build on parking lots? If that is the case, where will people park? They've already lowered	Email								x	×	x		x	×		x

R10 - 200 San Pedro Road (Santa Venetia)	Re: Marin County Housing and Safety Elements Update, 2023 – 2031. The Santa Venetia Neighborhood Association (SVNA) is an organization representing the interests of 1,700 – 1,800 households (4,474 residents per the 2019 census figures) who live in Santa Venetia. As an organization, we are dedicated to the enhancement and preservation of the character and quality of life of the Santa Venetia neighborhood. We do our best to represent our community and have an established reputation to be a voice for proper development. And in accordance with our mission statement, we, the Board Members of the SVNA, feel compelled to comment on this issue. We want to ensure that the Marin County Board of Supervisors receives an accurate impression from our community regarding the updated Housing Element and are writing today to summarize feedback we have heard from many of our members. Many residents of Santa Venetia, including members of the SVNA, attended the February 15 Zoom meeting where consultants representing the interests of the housing element initiative presented online tools for community feedback. We find these tools inadequate; rather nacerving an open platform for the BOS to receive realistic community input, they seem designed to provide information to housing element staff as to where to add more housing. The Housing Element recommends 422 additional units for Santa Venetia. There are currently fewer than 1,800 residences in Santa Venetia, so this represents an increase of approximately 25%— far more growth than the neighborhood has seen for at least two decades. This mandate seems utterly siloed from the worsening reality of global warming and climate change, (the existence of which was recognized both in the Countywide Plan and by the Marin County Civil Grand Jury) which is leading to catastrophic weather events such as fires and flooding. The upland parts of Santa Venetia and tirrectly threatened by flooding are part of the Wildland Urban Interface (WUI) and are subject to year-round fire danger. Like all of Mar	Email				x				x	х			x	x		x	
R13 - 26600 State Route 1 (Tomales)	I would like to suggest an alternative site to the one listed on the east side of Hwy 1 and 1st Street in Tomales. After living in Tomales very close to 30 years, I feel the intersection there is already quite impacted due to school traffic approaching both elementary and high school, the district office traffic, our downtown businesses including bakery, deli, and general store and much weekend tourist traffic mistaking their way to Dillon Beach. I feel one or more of the sites at old high school, or further north of "hub" of town would be more suitable and would not add to the current congestion.	Email				х												
R15 -12785 Sir Francis Drake Boulevard (Inverness)	The proposed development and locations designated for housing in unincorporated West Marin is ill-conceived and inappropriate. This appears to be a numbers game on the part of the County and outside, contracted MIG development agency. The plan lacks consideration for or understanding of natural resources, environmental hazards and the existing community. Communities around Tomales Bay are watershed areas with drainage into the vulnerable bay, creeks and streams, the salt marshes and wildlife habitats. The site near Vladimir's restaurant, across from Dixon Marine, is directly across from Tomales Bay and almost at sea level. This area and the road can flood during a high tide or heavy rain, draining pollution into the bay. Also the proposed building would affect the small downtown of Inverness. West Marin is served by narrow, curving, two lane access roads. For Inverness there is only one road, in or out, a problem during flooding, fires, landslides and general overcrowding on weekends and holidays. These roads frequently need repair when lanes crumble into a creek, hillside or the bay. No freeways please, as was proposed in the 60s. I have lived in Inverness since the 70s. As a single working mother, a teacher, I raised my daughter in Inverness. Over the years I have seen families and friends move away as rentals, cottages and small units were converted to more lucrative Airbnbs and second homes. There are 4 houses around me with 2 units in each. Two are completely unoccupied. Two are rarely used by their absentee owners, leaving each second unit vacant. There are many houses like this in Inverness and far too many BnBs and other short term rentals. An absentee owner might purchase a house, spend an exorbitant amount of money improving it for short term rental or investment. Possible housing is currently available. West Marin already has serious problems related to climate change, as well as overcrowding, road congestion air and noise pollution from cars, sewage and, most obviously, water. Inverness is served by	Email				x					×	×		×	x

R18 - 375 Shoreline Highway (Tamalpais)	(Comment edited for length) Sustainable TamAlmonte has the following comments and recommendations regarding the merits of the above referenced Tam Valley, Almonte, and Manzanita Candidate Housing Sites listed in the 2023-2031 Housing Element DRAFT Candidate Housing Sites List. Due to the unique characteristics of the area, encouraging residential development, especially high-density development, at the above referenced Sites would increase the risk of undue harm to the environment and undue hardship, illness, injury and/or death to the current and future residents. The Tam Valley, Almonte, and Manzanita commercial lowlands, in which the above referenced sites are located, experience the most number of environmental constraints and hazards of any area in Unincorporated Marin. Both the Marin Countywide Plan's EIR and the 2012 Housing Element's SEIR demonstrate that development at these sites would exacerbate the existing dangerous conditions and add new significant adverse environmental impacts (which) magnifies the probability that a tragedy would ensue and the multiple mitigations that a developer would need to fulfill would cause development costs to soar. These factors make the sites unsuitable for affordable housing. The only acceptable course of action is to eliminate the sites from the inventory. Below is a list of the unique natural features, hazards, and limited resources in the Tam Valley, Almonte, and Manzanita lowlands that constrain development and population growth and substantiate our argument. For a quick overview of these constraints, please view the attached table. I. Dangerous Traffic with Unacceptable Level Of Service – LOS "F" Of Local Roadways:. II. Flooding, 100 Year Floodplain, Impending Sea Level Rise III. Filled Marsh Areas With High Seismic Activity, Liquefaction, Subsidence and Mud Displacement. IV. Air Quality & Noise: Increased Risk of Residents Developing Serious lilness Due to Living Near Major Roadways. V. R18 - 375 Shoreline Highway (Tamalpais)	(Comment edited for length) The Tam Design Review Board is charged with focusing on and supporting the provisions of the Tamalpais Area Community Plan (TACP). In addition to laying out a description of the appropriate character of the community, this plan clearly sets forth constraints specifying that environmental hazards must be taken into account in the site selection process. Indeed, this is also cucial for the viability of the adoption of the Housing Element Iself. According to step #7 of the Housing Element's Site Identification Process: "Provide in the analysis a general description of any known environmental or other features (e.g., presence of floodplains, protected wetlands, oak tree preserves, very high fire hazard severity zones) that have the potential to impact the development viability of the identified sites" p. 10. The TACP "places a strong emphasis on protecting the public safety and preserving the natural resources of the community, while still permitting individual property owners to realize reasonable development potentials" (pg. 1-3). This balance is more critical today than it was in 1992 when the plan was written, with the risk of chronic flooding, impending sea level rise, and fire in the wildland-urban interface presenting an ever- greater peril to our neighborhoods. Tam Valley, Almonte, Homestead Valley, and Muir Woods Park are already viable and diverse neighborhoods, containing a range of housing from high-end single family residences to affordable aratments. Maintaining this diversity has long been a goal of the community, as expressed in Section I-C of the TACP. Added mixed use development in the Tam Junction area could, with proper planning and infrastructure update, provide needed housing which would have a minimal negative impact and enhance the community. The Housing Element should take a closer look at the potential for rezoning to achieve its goals. For those of lesser wealth to have accase to the amenties available in the Tam Area, in particular good schools and proximit	Email (See Email Comments Received.PDF, pp. 228-231)				x					x	x		x			x	
R18 - 375 Shoreline Highway (Tamalpais)	ATTACHMENT from Tam Design Review Board: Suggested Additional Policies to be Included in the Housing Element: 1. Wildfire Risk: Use mathematical modeling to investigate and precided wildfire risk. Prohibit the building of housing (even ADUs) in fire critical areas. 2. Flood Risk: Prohibit new housing in areas at risk of flooding from storm surge or sea level rise. 3. Bothin Marsh: Require all new development adjacent to Bothin Marsh to supplement and follow the policies that are designed to preserve the marsh. Given the County's recent efforts to restore and preserve the marsh, it makes no sense to select a site adjacent to the marsh for any form of dense development. 4. Evacuations: Require that new housing development along Shoreline Highway trigger a study and redesign of the traffic patterns to ensure that any new housing development in that area will not worsen traffic or increase the threat to life safety during an evacuation. Any assessment of traffic impacts of emergency evacuation should include new housing developments in the City of Mill Valley, as Shoreline Highway is the only exit should East Bithedale become blocked. 5. Short Term Rentals: Eliminate short-term rentals completely, or allow only on-site, owner-occupied properties to have short-term rentals. If someone does not live on-site, then the property is arguably an investment property only, and any claim of the need for that short-term rental income can be disregarded. This would enable ADUs to be counted toward the Housing Element numbers (see item #10). 6 Vacancies: Create a County mandated vacancy tax (as San Francisco is presently considering) to creat disincentives from home or needs the space for their own dwelling use. This has been documented to establish new housing units and therefore could be counted toward the housing numbers. 7. Speculative investment: Eliminate corporate ownership of housing of up to 4 units. This will stop speculative over-bidding of properties (which drives up housing costs) and land banking (which is perform					x					x	х		x			x	
R18 - 375 Shoreline Highway (Tamalpais)	I am writing to endorse the attached letter from Sustainable TamAlmonte to the Marin County Board of Supervisors and Planning Commission regarding the merits of the proposed Tam Valley, Almonte, and Manzanita Candidate Housing Sites listed in the 2023-2031 Marin County Housing Element DRAFT Candidate Housing Sites List. The need for housing our homeless is desperate but building residential space at Tam Junction is just NOT logical. The idea of building along Shoreling/ Highway 1 is very questionable. It is already a populated area with minimal sidewalks and access to needed resources. Thank you for your consideration of the attached letter	Email	х	х	х	х		х		×	х	х	×	Х	x	х

R18 - 375 Shoreline Highway (Tamalpais)	We are writing in regard to the sites chosen for possible inclusion into county plans for housing in the Almonte/Tam Valley area of the county. Of the eight sites mentioned in your Balancing Act scenario, five are in a serious flood zone and one is located, not on, but in Richardson's Bay. Your commentary regarding the avoidance of environmental hazards has been completely ignored by whatever staff was used to choose these sites. The properties in the flood zone are 160 Shoreline, ascenser's parcel # 052-041-27, 217 Shoreline, 223 Shoreline, and 204 Flamingod. He site which is actually in the bay is 260 Redwood Hwy. Oddly enough, there is one property across the road from 160 Shoreline which is on solid ground. That would be the Muir Woods Lodge, a motel which actually has some open space which could be used for more housing. Why was this property ignored when lesser properties were chosen? Considering that we are familiar with the sites in the Almonte/Tam Valley area but not the rest of the county, it seems very strange that your staff has chosen properties which flood now and will continue to flood even more in the future. We wonder about your motivation in focusing on dangerous and inappropriate land. We also wonder why your staff has chosen properties which are pretty much lumped together in the same area which will further exacerbate the level F traffic problems which occur for us every day. If these sites were chosen to be close to public transportation, we would remind you that there is no viable public transportation in our area. So we would be looking forward to much more daily auto traffic. We are extremely disappointed in the Balancing Act which appears to be a distraction and of no practical value. We wonder how much time and money was wasted on promoting this ridiculous game. We also wonder how many sites in the rest of the county are totally inappropriate but are being promoted as a way to choose our fate which, as you know, is not the case. Surely, the Board of Supervisors can do better than prom	Email				x		×			x							
R18 - 375 Shoreline Highway (Tamalpais)	We oppose new housing in the areas mentioned in Tam Junction due to flooding and traffic and possible fires, can't get out of here now. Tell Scott Wiener and his friends to move on.	Email				х					х			х				
R18 - 375 Shoreline Highway (Tamalpais)	Yesterday afternoon, I had the pleasure of speaking with Ms. Clark about the wisdom (actually, the lack of it) in the choice of potential sites around Tam Junction. Last night, I participated in the "roadshow" and, as a result, I am asking for your help in following up on one matter. During the presentation by Jose Rodríguez, he mentioned that one of the "Guiding Principles" for the BOS is the consideration of "environmental hazards". It doesn't take long to recognize the hazards of sea level rise, a long history of flooding and traffic in our neighborhood, among others. But, in addition, Mr. Rodriguez made an interesting rejoinder to a question about whether certain sites can be included in this study if such sites have been previously reviewed and rejected. He was not too clear but he suggested that the State of California has some "requirements" if a previously rejected site is again brought up for analysis. I asked him to specify (1) which of the four Tam Valley sites have already been considered and rejected, and (2) what are the state's requirements (if any)-that are different or additional—that would apply to such sites. He did not have the information available to answer either question and it didn't appear to me that there would be much of an effort to research those questions and disseminate the answers. Hence, this email. Do you know the answers? If not, would you please put in motion an effort to discover the answers? It may not be dispositive, but then again, it may be important. R19 - Tennessee Valley Road (Tamalpais)	(Comment edited for length) Sustainable TamAlmonte has the following comments and recommendations regarding the merits of the above referenced Tam Valley, Almonte, and Manzanita Candidate Housing Sites listed in the 2023-2031 Housing Element DRAFT Candidate Housing Sites List. Due to the unique characteristics of the area, encouraging residential development, especially high-density development, at the above referenced Sites would increase the risk of undue harm to the environment and undue hardship, illness, injury and/or death to the current and future residents. The Tam Valley, Almonte, and Manzanita commercial lowlands, in which the above referenced sites are located, experience the most number of environmental constraints and hazards of any area in Unincorporated Marin. Both the Marin Countywide Plan's EIR and the 2012 Housing Element's SEIR demonstrate that development at these sites would ensure and the multiple mitigations that a developer would need to fulfill would cause development costs to soar. These factors make the sites unsuitable for affordable housing. The only acceptable course of action is to eliminate the sites from the inventory. Below is a list of the unique natural features, hazards, and limited resources in the Tam Valley, Almonte, and Manzanita lowlands that constrain development and population growth and substantiate our argument. For a quick overview of these constraints, please view the attached table. I. Dangerous Traffic with Unacceptable Level Of Service – LOS "F" Of Local Roadways.: II. Ali Cyality & Noise: Increased Risk of Residents Developing Serious Illness Due to Living Near Major Roadways. V. Hazardous Materials: For additional information regarding potential health impacts to workers and future residents who may be exposed to hazardous soil conditions, related to past uses, in Tam Junction and Manzanita, please follow the below link to read the comment letter by Technical Expert Matt Hagemann. VI. Endangered Special Status Species. VII. Insufficient Services & Public Tran	Email (See Email Comments Received.PDF, pp. 123-151)	x	x	×	x		×		х	x	х	x	х	х	x

	ATTACHMENT from Tam Design Review Board: Suggested Additional Policies to be Included in the Housing Element: 1. Wildfire Risk: Use mathematical modeling to investigate and predict wildfire risk. Prohibit the building of housing (even ADUs) in fire critical areas. 2. Flood Risk: Prohibit new housing in areas at risk of flooding from storm surge or sea level rise. 3. Bothin Marsh: Require all new development adjacent to Bothin Marsh to supplement and follow the policies that are designed to preserve the marsh. Given the Country's recent efforts to restore and preserve the marsh, it makes no sense to select a site adjacent to the marsh for any form of dense development. 4. Evacuations: Require that new housing development along Shoreline Highway trigger a study and redesign of the traffic patterns to ensure that any new housing development in that area will not worsen traffic or increase the threat to life safety during an evacuation. Any assessment of traffic impacts of emergency evacuation should include new housing developments in the City of Mill Valley, as Shoreline Highway is the only exit should East Blithedale become blocked. 5. Short Term Rentals: Eliminate short-term rentals completely, or allow only on-site, owner-occupied properties to have short-term rentals. If someone does not live on-site, then the property is arguably an investment property only, and any claim of the need for that short-term rental income can be disregarded. This would enable ADUs to be counted toward the Housing Element numbers (see item #10). 6. Vacancies: Create a County mandated vacancy tax (as San Francisco is presently considering) to create disincentives for leaving housing units empty. Exemptions could be made for work from home or dwellings under a certain square footage if the homeowner works from home or needs the space for their own dwelling use. This has been documented to establish new housing units and therefore could be counted toward the housing numbers. 7. Speculative investment: Eliminate corporate ownership of	Email				x					x	x		x			x

R2 - North Knoll Road and St. Thomas Drive (Strawberry)	I am writing to request that Strawberry site R2 be removed from potential sites for high density housing. This site is not appropriate for high density housing. The Eagle Rock neighborhood already has traffic problems, and adding units will exacerbate those issues. This particular site is in an inaccessible extreme stope. Adding high density housing to this site will also destroy the family neighborhood surrounded by open space. Please consider repurposing more urban locations instead of paving over natural landscape.	Email				х						х						
R2 - North Knoll Road and St. Thomas Drive (Strawberry)	I live on Eagle Rock Rd. It is already congested. Traffic conditions on Tiburon Blvd at most times make it difficult to enter the Eagle Rock area. At the proposed location there is a 4 way intersection, providing access to a gas station, a multi tenant commercial building, access to N. Knoll with section 8 housing (which is very busy) and the residents and providers to my neighbors and me. The proposed site is on a steep hillside making it difficult to build. There is a bus stop at the base where N. Knoll empties onto Tiburon Blvd. This may be good for your concerns, but every day there are cars parked on lower Eagle Rock Rd. using free parking to access the bus service, many use it for longer term parking when traveling out of the area. Building more units on your proposed site will increase street parking. It always does. Your proposal will increase foot traffic crossing 4 lane Tiburon Blvd. We see pedestrians, daily, risking their lives crossing to go to Strawberry Shopping Center. Sure, there is a pedestrian crossing lane, but with the traffic they are not always visible to drivers. It's a scary operation trying to cross. The traffic entering onto Tiburon Blvd. from Hwy 101 is already congested. Then add the traffic coming up from Strawberry Shopping Center. Certain times of the day you already have to wait for more than one light to get through. It seems that California fire seasons are getting longer and more intense. We could have a real discussion on that, but that is the reality today. We are located down hill from large open spaces. Our evacuation points are in Strawberry and with massive traffic also evacuating from points toward Tiburon, it could be a real disaster. Development on this plot is not a good idea. R2 - North Knoll Road and St. Thomas Drive (Strawberry)	The access to the Eagle Rock Road area is already very difficult. The narrow street, especially on the lower exit side, is concerning should there be more development in the area. All it takes is one truck to completely block the exit path from this area. I am already concerned about getting out safely should a fire happen in this area which has high fire potential. With the steep hill median strip (that is constantly slipping in rain storms) there is nowhere to widen the road. These steep hillsides are not a good location for additional housing, especially multi-tenant housing. The current traffic backing up at the Tiburon Blvd/Blithedale exit is already a problem. Additional traffic at this location is not a good idea. Please remove sites R2 and R7.	Email				х				х				х

R20 - 260 Redwood Highway Frontage Road (Almonte)	I am writing to endorse the attached letter from Sustainable TamAlmonte to the Marin County Board of Supervisors and Planning Commission regarding the merits of the proposed Tam Valley, Almonte, and Manzanita Candidate Housing Sites listed in the 2023-2031 Marin County Housing Element DRAFT Candidate Housing Sites List. The need for housing our homeless is desperate but building residential space at Tam Junction is just NOT logical. The idea of building along Shoreling/ Highway 1 is very questionable. It is already a populated area with minimal sidewalks and access to needed resources. Thank you for your consideration of the attached letter	Email	×	х	х	х		х		×	х	x	×	Х	×	х		
R20 - 260 Redwood Highway Frontage Road (Almonte)	The information lists only 1 Parcel, which is wrong - there are 3. It lists only 36 possible Housing units, which is wrong - it should be 36 units for Workforce or Senior units and 73 Hotel rooms, which is what the Tam Valley community Plan calls for on the larger Parcel. This site is located in the Manzanita area, not Almonte.	Email	х														х

R21 - 204 Flamingo Road (Tamalpais)	(Comment edited for length) Sustainable TamAlmonte has the following comments and recommendations regarding the merits of the above referenced Tam Valley, Almonte, and Manzanita Candidate Housing Sites listed in the 2023-2031 Housing Element DRAFT Candidate Housing Sites List. Due to the unique characteristics of the area, encouraging residential development, especially high-density development, at the above referenced Sites would increase the risk of undue harm to the environment and undue hardship, illness, injury and/or death to the current and future residents. The Tam Valley, Almonte, and Manzanita commercial lowlands, in which the above referenced sites are located, experience the most number of environmental constraints and hazards of any area in Unincorporated Marin. Both the Marin Countywide Plan's EIR and the 2012 Housing Element's SEIR demonstrate that development at these sites would exacerbate the existing dangerous conditions and add new significant adverse environmental impacts (which) magnifies the probability that a tragedy would ensue and the multiple mitigations that a developer would need to fulfill would cause development costs to soar. These factors make the sites unsuitable for affordable housing. The only acceptable course of action is to eliminate the sites from the inventory. Below is a list of the unique natural features, hazards, and limited resources in the Tam Valley, Almonte, and Manzanita lowlands that constrain development and population growth and substantiate our argument. For a quick overview of these constraints, please view the attached table. I. Dangerous Traffic with Unacceptable Level Of Service – LOS "F" Of Local Roadways:. II. Flooding, 100 Year Floodplain, Impending Sea Level Rise III. Filled Marsh Areas With High Seismic Activity, Liquefaction, Subsidence and Mud Displacement. IV. Air Quality & Noise: Increased Risk of Residents Developing Serious Illness Due to Living Near Major Roadways. V. Hazardous Materials: For additional information regarding potential health	Email (See Email Comments Received.PDF, pp. 123-151)	x	х	х	x		x		x	x	x	x	x	x	x

R21 - 204 Flamingo Road (Tamalpais)	such emergencies. Softenine riginway in 1 and valley is where most or in the propose nousing sites to our area area to a complete standstill and result in property damage and human fatalities. We further note that steadily increasing traffic impacts on Shoreline Highway from tourism continue to aggravate all these challenging conditions. While we appliand the careful consideration of available sites by MIG, as community volunteers appointed to research and uphold the values of the Tam Plan, we cannot in good conscience support the choice of the sites within our area without: 1) A detailed study of future traffic and its impacts on evacuation through Tam Junction and the Highway 101 on-ramp; 2) A careful analysis of the impact of new, medium or high-density housing on the Bothin Marsh and the risks of chronic flooding; 3) Development of a plan for Highway 1 at Manzanita and along Shoreline Highway to accommodate imminent sea level rise; and 4) Assurances that, if there is no way to avoid selecting housing sites in the Tam Plan area for development, the resulting housing will be protected from speculative investors and the potential to remove these future developments from the long-term rental market. The Tamalpais Area is so vulnerable to climate change disasters that, frankly, unless the housing built has a direct impact on resolving the housing crisis and addressing those most in need, new development will only intensify the crises of both climate risks and affordability. We understand the mandates from the State require you to make some challenging choices in selecting housing sites. In addition to placing questions of safety and environmental stewardship at the top of your agenda, we would like to suggest that you include in the current update of the Countywide Plan some further policies that will help guide County planning in the face of both State mandates and, if and when these mandates are modified, the undesirable results that might emerge. Please see the attached detailed list of policies	Email (See Email Comments Received.PDF, pp. 228-231)				x					×	×		x			×

R21 - 204 Flamingo Road (Tamalpais)	We are writing in regard to the sites chosen for possible inclusion into county plans for housing in the Almonte/Tam Valley area of the county. Of the eight sites mentioned in your Balancing Act scenario, five are in a serious flood zone and one is located, not on, but in Richardson's Bay. Your commentary regarding the avoidance of environmental hazards has been completely ignored by whatever staff was used to choose these sites. The properties in the flood zone are 160 Shoreline, assessor's parcel # 052-041-27, 217 Shoreline, 223 Shoreline, and 204 Flamingo Rd. he site which is actually in the bay is 260 Redwood Hwy. Oddly enough, there is one property across the road from 160 Shoreline which is on solid ground. That would be the Muir Woods Lodge, a motel which actually has some open space which could be used for more housing. Why was this property ignored when lesser properties were chosen? Considering that we are familiar with the sites in the Almonte/Tam Valley area but not the rest of the county, it seems very strange that your staff has chosen properties which flood now and will continue to flood even more in the future. We wonder about your motivation in focusing on dangerous and inappropriate land. We also wonder why your staff has chosen properties which are pretty much lumped together in the same area which will further exacerbate the level F traffic problems which occur for us every day. If these sites were chosen to be close to public transportation, we would remind you that there is no viable public transportation in our area. So we would be looking forward to much more daily auto traffic. We are extremely disappointed in the Balancing Act which appears to be a distraction and of no practical value. We wonder how much time and money was wasted on promoting this ridiculous game. We also wonder how many sites in the rest of the county are totally inappropriate but are being promoted as a way to choose our fate which, as you know, is not the case. Surely, the Board of Supervisors can do better than pr	Email				x		×			×							
R21 - 204 Flamingo Road (Tamalpais)	We oppose new housing in the areas mentioned in Tam Junction due to flooding and traffic and possible fires, can't get out of here now. Tell Scott Wiener and his friends to move on.	Email				Х					Х			Х				
R21 - 204 Flamingo Road (Tamalpais)	Yesterday afternoon, I had the pleasure of speaking with Ms. Clark about the wisdom (actually, the lack of it) in the choice of potential sites around Tam Junction. Last night, I participated in the "roadshow" and, as a result, I am asking for your help in following up on one matter. During the presentation by Jose Rodriguez, he mentioned that one of the "Guiding Principles" for the BOS is the consideration of "environmental hazards". It doesn't take long to recognize the hazards of sea level rise, a long history of flooding and traffic in our neighborhood, among others. But, in addition, Mr. Rodriguez made an interesting rejoinder to a question about whether certain sites can be included in this study if such sites have been previously reviewed and rejected. He was not too clear but he suggested that the State of California has some "requirements" if a previously rejected site is again brought up for analysis. I asked him to specify (1) which of the four Tam Valley sites have already been considered and rejected, and (2) what are the state's requirements (if any)—that are different or additional—that would apply to such sites. He did not have the information available to answer either question and it didn't appear to me that there would be much of an effort to research those questions and disseminate the answers. Hence, this email. Do you know the answers? If not, would you please put in motion an effort to discover the answers? It may not be dispositive, but then again, it may be important.	Email				х					x	x						
R3 - 275 Olive Avenue (Blackpoint)	I wanted to share concerns about a proposed housing element on the corner of Olive avenue and Atherton (275 Olive Ave, currently a nursery). That site is a wet meadow and not an appropriate building location for a development of 50 homes. It is already subject to frequent flooding, is essentially sitting on top of a wetland nature preserve, and is basically at sea level. If you walk out there today, it is mostly under water. The inevitable sea level rise that will impact that spot makes it, and any other sites at that elevation, inappropriate for further development. Is it alright to ask why this parcel is being considered when these conditions are well known?	Email	x							х	Х	Х						
R3 - 275 Olive Avenue (Blackpoint)	The consideration of this site (275 Olive Avenue) raises a concern that other similarly inappropriate sites may also be up for consideration in other parts of Marin. Would it be possible to get a list of any sites that are within 500 feet of a wetland? I studied wetland habitat restoration planning in graduate school, and was under the impression that CEOA/CWA sect 404 prevented projects from being built on top of or close to wetlands. R5 - 299 Olive Avenue (Blackpoint)	I am just finding out about the rezoning proposal along the Atherton corridor in Novato, and since I missed the meeting, I am writing to express my deepest concern as well as how much I am against this proposal. I live at the end of Olive Avenue, close to Atherton Ave, and have for almost 40 years. I have watched the impact just a few additional homes have had in this area. I am tremendously concerned about the wildlife, and how this proposal would jeopardize their well being. It would greatly impact their ability to access food and water. More homes means more traffic, which means more animals in danger of being struck by cars. There is already too much traffic for this corridor, and I am referring to Olive Avenue as well as Atherton Avenue. These areas cannot handle more housing! Please reconsider this proposal and keep the wildlife and our open spaces preserved.	Email				х				х		x						
R5 - 299 Olive Avenue (Blackpoint)	I am writing to express my opinion on the potential construction of hundreds of new housing units along the Atherton Avenue corridor to meet the county's state mandated housing quotas. I urge you to redirect new high-density housing to more appropriate areas with better access and infrastructure and with less adverse impacts on wildlife and existing residents: It is not sensible to add large new sources of traffic congestion directly onto Atherton Avenue, the only conduit for evacuation from surrounding neighborhoods during fire emergencies. The proposed development will impact a rich and diverse wildlife population in the area, beyond just the destruction of habitat in the footprints of new construction. Increases in road traffic, noise, and other human activity will invariably take a toil. Foxes, opossums, and raccoons regularly transit my yard at night (I live off of Atherton Ave) and the semi-rural neighborhood environment also supports deer, wild turkeys, hawks, quail, squirrels, owls, turkey vultures and other animals. These polations are assets to the natural environment of Marin County and are all sensitive to human encroachment. The potential housing development is grossly uncharacteristic of the adjacent neighborhoods in terms of density and appearance. The proposed housing locations do not have walk-to shopping and other services, which I believe should be a top priority for siting new high-density housing. The Atherton corridor is a narrow strip with very limited road access: One way in from the west; one way in from the east, and one secondary access (Olive Ave) from the south. This situation is a natural consequence of the geographic boundaries along the corridor. Loading up this narrow space with more traffic, more parking needs, more water requirements, and more sewer infrastructure – when other options exist – does not make sense.	Email		x	×	x				x		X		X	X			
R7 - Eagle Rock Road (Strawberry)	I live on Eagle Rock Rd. It is already congested. Traffic conditions on Tiburon Blvd at most times make it difficult to enter the Eagle Rock area. At the proposed location there is a 4 way intersection, providing access to a gas station, a multi tenant commercial building, access to N. Knoll with section 8 housing (which is very busy) and the residents and providers to my neighbors and me. The proposed site is on a steep hillside making it difficult to build. There is a bus stop at the base where N. Knoll empties onto Tiburon Blvd. This may be good for your concerns, but every day there are cars parked on lower Eagle Rock Rd. using free parking to access the bus service, many use it for longer term parking when traveling out of the area. Building more units on your proposed site will increase street parking. It always does. Your proposal will increase foot traffic crossing 4 lane Tiburon Blvd. We see pedestrians, daily, risking their lives crossing to go to Strawberry Shopping Center. Sure, there is a pedestrian crossing lane, but with the traffic they are not always visible to drivers. It's a scary operation trying to cross. The traffic entering onto Tiburon Blvd. from Hwy 101 is already congested. Then add the traffic coming up from Strawberry Shopping Center. Certain times of the day you already have to wait for more than one light to get through. It seems that California fire seasons are getting longer and more intense. We could have a real discussion on that, but that is the reality today. We are located down hill from large open spaces. Our evacuation points are in Strawberry and with massive traffic also evacuating from points toward Tiburon, it could be a real disaster. Development on this plot is not a good idea.	Email				x	x		х			х		х				
R7 - Eagle Rock Road (Strawberry)	The access to the Eagle Rock Road area is already very difficult. The narrow street, especially on the lower exit side, is concerning should there be more development in the area. All it takes is one truck to completely block the exit path from this area. I am already concerned about getting out safely should a fire happen in this area which has high fire potential. With the steep hill median strip (that is constantly slipping in rain storms) there is nowhere to widen the road. These steep hillsides are not a good location for additional housing, especially multi-tenant housing. The current traffic backing up at the Tiburon Blvd/Blithedale exit is already a problem. Additional traffic at this location is not a good idea. Please remove sites R2 and R7.	Email				х				х				х

San Geronimo	Comment edited for length)I attended the Wednesday evening presentation last week dealing with the State mandate for increasing housing in Marin. Clearly, you have been given a difficult task. Your introduction of the Guiding Principles and "explore strategies" was well done and appreciated. You answered most questions very well. Regretfully, time constraints didn't allow for in-depth responses and discussion. In every case, yours was the final comment and you, of necessity, moved on I also wish there had been more time for comments. It was kind of you to stay later. That was appreciated and beneficial but some of us couldn't stay because we had another meeting to attend following your scheduled presentation. I have lived in the San Geronimo Valley (Lagunitas) for 60+ years. I was one of the leaders in the five year effort (1972-77) to create a Community Plan that would preserve the Valley's rural character and natural resources and continue to be active. I was disappointed that so few homeowners from the Valley attended your presentation. Despite the county's efforts, I'm convinced that many Valley residents simply don't know about the current Plan and would be shocked to learn about it and its impact. We can rectify this problem. I request that you hold a meeting at the Lagunitas School multi-purpose room and make a presentation, with maps, and get one on one feedback from San Geronimo Valley residents and groups regarding recommendations and alternatives. In addition: I support the need for affordable housing in the San Geronimo Valley particularly for those with less than a moderate income. I support community involvement studying the issue of what, where, why and how (with the Community Plan as our guide) to deal with affordable housing in our valley, before providing any sites listing. Presbyterian Church - I cannot support the numbers proposed until I learn how much and where their property is located. Leelee and Staff: - The SGV Community Plan (CP) was developed by the Valley community over a five	Email (See Email Comments Received.PDF, pp. 45-47)			x							x					x	
San Geronimo	Considering putting any housing on the site of the once San Geronimo golf course is wrong. It's too far out, creating more congestion on an already congested road. It also goes against the property zoning. In case of fire, ingress and egress would be even more impacted than it is now	Email				Х								Х

West Marin Coastal Area	The deadline for input is unrealistic and the tool is exceedingly difficult to use. I understand the County is under pressure to meet the State mandate, however this plan is like throwing darts at a map. It fails to address critical disaster planning in advance of determining even potential site selection. Responding to the coastal zone: I find it extremely distressing that with the impact of climate related severe fire risk, drought, resource depletion, traffic, parking, lack of sewer, emergency ingress/egress, etc., that we are considering adding increased density. The tool does not allow for pinpointing houses that sit empty, or the 600 plus vacation rentals in West Marin. I support accessibility to community based housing. If there were a severe limit placed on vacation rentals in the Coast Region, clawing back on permits/allowances, a number of livable units equal to the numbers proposed would be freed up. I have lived here for 40 plus years and have seen housing go the way of increased tourism, housing stock becoming vacation/business stock and 2nd home owners with frequently vacant homes. Until the Coastal Commission understands the risks involved to increased density and supports strict limitations to vacation units/business, the problem will persist no matter how many new units are introduced. It is unfortunate that it likely take a fire storm / evacuation disaster to illustrate the hazards compounded by sheer numbers. My cottage on the Inverness Ridge burned in 95 and the risk then was a fraction of what it is today. Driving Sir Francis Drake on a usual busy weekend, or most days during the summer, is the equivalent of coastal gridlock. Adding more units at the bottom of White's Hill, Nicasio, Point Reyes, Olema, and Inverness is placing more people in vulnerable locations trying, along with thousands of visitors, to flee during an inevitable disaster on a narrow artery. Stop vacation rentals; create incentives to convert empty living units to housing stock.	Email		x		x	×			×		×		х	x		x	
West Marin Coastal Area	The housing candidate sites for our Marin coastal villages are not suitable as these sites do not have jobs, public transit or community services please consider what doubling the population of these villages would mean to public safety when electricity is out our wells cannot pump water and the many propane tanks result in a hazardous mixture. Our aquifers are undoubtedly low after these droughts it will be a strain on our coastal communities to entertain a larger population many in our village are already renting their small units let's just let SB 9 do its job. West Marin Coastal Area	The proposed development and locations designated for housing in unincorporated West Marin is ill-conceived and inappropriate. This appears to be a numbers game on the part of the County and outside, contracted MIG development agency. The plan lacks consideration for or understanding of natural resources, environmental hazards and the existing community. Communities around Tomales Bay are watershed areas with drainage into the vulnerable bay, creeks and streams, the salt marshes and wildlife habitats. The proposed Cottages building site is an environmental hazard to an already contaminated salt marsh and channel leading to Chicken Ranch Beach, Tomales Bay. As a result of previous inappropriate building and filling in a salt marsh, this has been an ongoing problem for many years. The site near Vladimir's restaurant, across from Dixon Marine, is directly across from Tomales Bay and almost at sea level. This area and the road can flood during a high tide or heavy rain, draining pollution into the bay. Also the proposed building would affect the small downtown of Inverness. West Marin is served by narrow, curving, two lane access roads. For Inverness there is only one road, in or out, a problem during flooding, fires, landslides and general overcrowding on weekends and holidays. These roads frequently need repair when lanes crumble into a creek, hillside or the bay. No freeways please, as was proposed in the 60s. I have lived in Inverness since the 70s. As a single working mother, a teacher, I raised my daughter in Inverness. Over the years I have seen families and friends move away as rentals, cottages and small units were converted to more lucrative Airbnbs and second homes. There are 4 houses around me with 2 units in each. Two are completely uncocupied. Two are rarely used by their absentee owners, leaving each second unit vacant. There are many houses like this in Inverness and far too many BnBs and other short term rentals. An absentee owners, leaving each second unit vacant. There are many houses like this i	Email				x					×	×		×	×			
Woodacre	There is a lot for sale as you enter Woodacre at the intersection of Park and Railroad (and an adjacent lot that is not for sale) that would be ideal for seniors with close access to post office and grocery store and bus stop.	Email															Х	Х

APPENDIX B: REVIEW OF 2015 HOUSING ELEMENT

Overview

Under State Housing Element law, communities are required to assess the achievements under their adopted housing programs as part of the periodic update to their housing elements. These results should be quantified where possible (e.g., the number of units rehabilitated), but may be qualitative where necessary (e.g., mitigation of governmental constraints). The results should then be compared with what was projected or planned in the earlier element. Where significant shortfalls exist between what was planned and what was achieved, the reasons for such differences must be discussed.

The County of Marin 2015-2023 Housing Element sets forth a series of housing programs with related goals for the following areas:

- Use Land Efficiently
- Meet Housing Needs Through a Variety of Housing Choices
- Ensure Leadership and Institutional Capacity

This section reviews the County's progress to date in implementing these housing programs and their continued appropriateness for the 2023-2031 Housing Element. Table B-1 summarizes the County's housing program accomplishments, followed by a review of its quantified objectives. The results of this analysis will provide the bases for developing the comprehensive housing program strategy for the 2023-2031 Element.

Cumulative Impacts on Addressing Housing for Special Needs

The County of Marin, including the Federal Grants Division, allocates funding for housing projects, including those for special needs populations. Many of the programs in the 2015-2023 Housing Element worked towards additional housing opportunities for seniors, agricultural workers, disabled residents, homeless persons, and others. Below are highlights of these efforts, while Table B-1 provides a thorough analysis of all Housing Element programs:

The County dedicated \$763,732 towards rehabilitation activities supporting 107 units of family housing across six development projects, including special needs individuals: a) \$21,810 to support rehabilitation of an affordable senior housing development that currently serves some individuals with special needs; b) \$396,371 towards the development of a new affordable housing complex for older

- adults, including special needs individuals; and c) \$30,922 towards home access modifications to allow people with disabilities to maintain living in their homes.
- Since the start of COVID-19 and subsequent shelter-in-place orders, Housing and Federal Grants staff have worked very closely with Health and Human Services staff in direct pandemic housing response around Marin's emergency motels, rental assistance and Homekey programs.
- The Housing and Federal Grants Division participates as a voting member in bimonthly Homeless Policy Steering Committee (HPSC) meetings. In 2020, local match funds of \$2,395,000 were used to leverage \$9,214,948 in State Homekey funding to acquire a former motel and commercial building to create 63 units of interim housing which will be converted to permanent supportive housing with wrap-around services earmarked for individual who have recently experienced homelessness.
- Housing and Federal Grants Division staff actively refer tenants in need of assistance making reasonable accommodation requests in the private housing market to the Marin Center for Independent Living (MCIL) and Fair Housing Advocates of Northern California (FHANC). FHANC received a \$64,000 allocation to support its fair housing monitoring and assistance. It intervened on behalf of 42 households, requesting reasonable accommodations and succeeded in securing reasonable accommodation concessions in 33 of those cases.
- The County requires non-discrimination clauses in contracts to which it is a party.
- The County acquired the U.S. Coast Guard Facility in the fall of 2019. The 32-acre site contains 36 multi-bedroom housing units and other community facilities. In November 2019, the County released a Request for Proposals and Statement of Qualifications to convert the existing housing to affordable housing and implement a community vision and reuse plan. As part of this, the developer will create a set-aside to house agricultural workers and their families.
- Since adoption of the County's source of income ordinance to prevent discrimination against tenants with third-party housing vouchers, Housing and Federal Grants staff have dedicated resources to support incorporated jurisdictions with research and development of their own source of income protections.

For the sixth cycle Housing Element update, the County will expand opportunities for a range of housing types throughout the unincorporated areas. Programs to pursue funding, partnership with nonprofit developers, and code amendments to facilitate special needs housing are also included in the Housing Element update.

Table B-1: Evaluation of 2015-2023 Housing Element Programs

2015-2023 Housing Element Goal, Policy, or Program	Goal, Policy or Program	Achievements/ Results	Evaluation of Barriers to Implementations	Recommendations for the Housing Element Update
Goal 1	Use Land Efficiently	On-going		Carry forward as is
Program 1.a	Establish Minimum Densities on Housing Element Sites	Complete. Planners developed and routinely consult a Housing Element layer in the County's Geographic Information Systems (GIS) application for planning and land management; the Housing Element layer identifies the location of and expresses minimum densities for sites listed in the Site Inventory.	Successfully implemented	Carry forward as is
1.b	Evaluate Multi-family Land Use Designations	Complete. In 2020, Staff completed the Multi-Family Land Use Designation and Zoning Analysis Report and Multi-Family Zoning GIS Map, which was presented to the Board of Supervisors in January 2021.	Successfully implemented	Successfully completed, but additional revisions are being suggested for the 2023-2031 Housing Element.
1.c	Evaluate the Housing Overlay Designation	Partially Implemented. Achievement of this program is contingent upon an update to the General Plan.	Partially implemented	Review and update was initiated as part of the Housing Element update
1.d	Study Ministerial Review for Affordable Housing	In progress. In conjunction with its analysis and preparation of streamlined review procedures pursuant to SB 35, staff initiated an exploration of potential procedures to expedite review for affordable housing projects. Staff started working with consultants on Objective Design and Development Standards in collaboration with cities and towns to streamline the development of housing, including affordable housing in the fall of 2019. This study is in partnership with nine other jurisdictions in Marin County.	Partially implemented	AB 1397 requires that housing to be developed on reuse or rezone sites be provided ministerial review if the project includes 20% lower income units. This provision is included in the 2023-2031 Housing Element as part of the adequate sites project.
1.e.	Consider Adjustments to Second Unit Development Standards	Complete. In 2018, provisions were established for JADUs and waivers of certain fees for JADUs and ADUs. In 2020, the Board expanded the program; property owners can receive up to \$10,000 in building permit fee waivers if they rent the second unit to a	Successfully implemented.	The 2023-2031 Housing Element includes a program to facilitate the development of Accessory Dwelling Units (ADUs) and

Table B-1: Evaluation of 2015-2023 Housing Element Programs

2015-2023 Housing Element Goal, Policy, or Program	Goal, Policy or Program	Achievements/ Results	Evaluation of Barriers to Implementations	Recommendations for the Housing Element Update
J		household that earns below 80% area median income, up to \$5,000 if rented to a household that earns between 80% and 120% area median income, and up \$2,500 if rented at market-rate.		monitor the trend of development.
1.f	Review and Consider Updating Parking Standards	Completed. In December 2018, the Board of Supervisors adopted amendments to County parking standards to reduce parking space requirements for projects developed under the Housing Overlay Designation policy, in transit-rich areas, and for affordable housing developed near transit. The amendments also authorized tandem parking for certain residential uses.	Successfully implemented.	Additional revisions are being recommended in the 2023-2031 Housing Element.
1.g	Codify Affordable Housing Incentives Identified in the Community Development Element	The County authorizes waiver of Building and Planning permit fees and reimbursement of Environmental Health Service fees for affordable housing developments. The County's Mixed-Use Policy allows developments containing housing affordable to low- and very-low-income households to exceed a site's maximum Floor Area Ratio to accommodate the additional affordable units.	Successfully implemented.	2023-2031 Housing Element includes a new program for affordable housing incentives.
1.h	Promote Resource Conservation	Currently implementing a variety of programs including: - County works with and promotes the Bay Area Regional Energy Network's (RayREN) Single-Family and Multi-Family Energy Efficiency programs; - County operates its Green Building Program, which includes mandatory energy efficiency and green building measures for both new construction and remodel projects.	On-going	Programs offered by outside agencies are referenced in the 2023-2031 Housing Element as resources.

Table B-1: Evaluation of 2015-2023 Housing Element Programs

2015-2023 Housing Element Goal, Policy, or Program	Goal, Policy or Program	Achievements/ Results	Evaluation of Barriers to Implementations	Recommendations for the Housing Element Update
1.i	Consider Simplifying Review of Residential Development Project in Planned Districts	Completed. In March 2017, the Board of Supervisors amended the County Development Code to permit Master Plans to set ministerial development standards. The Board of Supervisors also approved modifications to planned zoning districts; the County now evaluates them through a more streamlined process of site review rather than full design review. In many cases, this change is anticipated to reduce time spent on review by 50% or more.	Successfully implemented.	Delete; successfully completed.
1.j	Consider Adjusting Height Limits for Multi- family Residential Buildings	Completed. County staff initiated a process to address this program as part of a broader set of Development Code amendments. The Development Code amendments allowed increased heights in both planned and conventional districts for multi-family housing.	Successfully implemented.	Additional revisions are being recommended in the 2023-2031 Housing Element.
1.k	Clarify Applicability of State Density Bonus	Not started. Implementation of this program requires CEQA review. To conserve resources, staff proposes to integrate evaluation of the State density bonus program with a forthcoming General Plan update, scheduled for initiation in late 2021.	Delay in implementation due to need for further analysis	Density bonus is incorporated in new program for facilitating affordable housing in the Housing Element update.
Goal 2	Meet Housing Needs Through a Variety of Housing Choices			Carry forward as is
Program 2.a	Encourage Housing for Special Needs Households	Currently implementing. Through the 2020 Community Development Block Grant (CDBG) and HOME Investment Partnerships Program (HOME) allocation process, the Housing Trust Fund, and Measure W funding the County dedicated \$763,732 towards rehabilitation activities supporting 107 units of family housing across six development projects, including	On-going	The 2023-2031 Housing Element includes a program to address the provisions of other special needs housing such as Low Barrier Navigation Center (AB 101) and

Table B-1: Evaluation of 2015-2023 Housing Element Programs

2015-2023 Housing Element Goal, Policy, or Program	Goal, Policy or Program	Achievements/ Results	Evaluation of Barriers to Implementations	Recommendations for the Housing Element Update
		special needs individuals; \$21,810 to support rehabilitation of an affordable senior housing development that currently serves some individuals with special needs; \$396,371 towards the development of a new affordable housing complex for older adults, including special needs individuals; and \$30,922 towards home access modifications to allow people with disabilities to maintain living in their homes.		Supportive Housing (AB 2162).
2.b	Enable Group Residential Care Facilities	Currently implementing. Small group homes, defined as those with six or fewer residents, are permitted by right in all residential zoning districts. Large group homes, defined as those with at least seven residents, may apply for a conditional use permit in any residential zoning district.	On-going	The 2023-2031 Housing Element includes an evaluation of the CUP findings required for large group residential care facilities.
2.c	Make Provisions for Multi-Family Housing Amenities	Currently implementing. The County prioritizes rental housing for families when making funding recommendations for HOME and CDBG funds. In 2020, the County allocated funding for the development, rehabilitation, or acquisition of 194 units of family housing using Housing Trust, CDBG and HOME funds.	On-going	The 2023-2031 Housing Element includes a program to facilitate housing for families.
2.d	Foster Linkages to Health and Human Services Programs	Currently implementing. Since the start of COVID-19 and subsequent shelter-in-place orders, Housing and Federal Grants staff have worked very closely with HHS staff in direct pandemic housing response around Marin's emergency motels, rental assistance and Homekey programs. Also see response to program 2.e, "support efforts to house the homeless."	On-going	The 2023-2031 Housing Element includes Project Homekey and linkage to other supportive programs.

Table B-1: Evaluation of 2015-2023 Housing Element Programs

2015-2023 Housing Element Goal, Policy, or Program	Goal, Policy or Program	Achievements/ Results	Evaluation of Barriers to Implementations	Recommendations for the Housing Element Update
2.e	Support Efforts to House the Homeless	Currently implementing. The Housing and Federal Grants Division participates as a voting member in bimonthly Homeless Policy Steering Committee (HPSC) meetings. Staff also participate in Opening Doors, an organization with a focus on solving chronic homelessness. In 2020, local match funds of \$2,395,000 were used to leverage \$9,214,948 in State Homekey funding to acquire a former motel and commercial building to create 63 units of interim housing which will be converted to permanent supportive housing with wraparound services earmarked for individual who have recently experienced homelessness.	On-going	These are modified and included in the 2023-2031 Housing Element.
2.f	Engage in a Countywide Effort to Address Homeless Needs	Currently implementing. See response to program 2.e, "support efforts to house the homeless."	On-going	These are modified and included in the 2023-2031 Housing Element.
2.g	Ensure Reasonable Accommodation	Partially completed. Housing and Federal Grants Division staff actively refer tenants in need of assistance making reasonable accommodation requests in the private housing market to the Marin Center for Independent Living (MCIL) and Fair Housing Advocates of Northern California (FHANC). Both organizations were supported in their work by CDBG funding. MCIL received a \$30,922 allocation to its home modification program to fund alterations in homes occupied by low-income individuals with disabilities. FHANC received a \$64,000 allocation to support its fair housing monitoring and assistance. It intervened on behalf of 42 households requesting reasonable accommodations and succeeded in	On-going	The 2023-2031 Housing Element includes a program to expedite Reasonable Accommodation requests.

Table B-1: Evaluation of 2015-2023 Housing Element Programs

2015-2023 Housing Element Goal, Policy, or Program	Goal, Policy or Program	Achievements/ Results	Evaluation of Barriers to Implementations	Recommendations for the Housing Element Update
		securing reasonable accommodation concessions in 33 of those cases.		
2.h	Require Non- discrimination Clauses	Currently implementing. The County requires non-discrimination clauses in contracts to which it is a party. Housing and Federal Grants staff developed an affirmative marketing tool and implemented a requirement for applicants requesting Federal Grants and Housing Trust Fund monies to submit affirmative marketing plans as part of their funding applications.	On-going	Included in the 2023-2031 Housing Element as part of the County's meaningful actions to affirmatively further fair housing.
2.i	Increase Tenant Protections	Currently implementing. To implement Ordinance 3705, a new landlord registry tool was developed to simplify the process for landlords subject to the ordinance to maintain registration of their properties. In 2020, staff completed a Landlord and Tenant Resources webpage. Since the start of the COVID-19 pandemic, staff have been monitoring State and Federal tenant protections and have brought forward local emergency Resolutions and Ordinances to meet community need.	On-going	Included in the 2023-2031 Housing Element as part of the County's meaningful actions to affirmatively further fair housing.
2.j	Promote the Development of Agricultural Worker Units in Agricultural Zones	Partially completed and on-going. The County acquired the U.S. Coast Guard Facility in the fall of 2019. The 32-acre site contains 36 multi-bedroom housing units and other community facilities. In November 2019, the County released a Request for Proposals and Statement of Qualifications to convert the existing housing to affordable housing and implement a community vision and reuse plan, as part of this, the developer will create a set-aside to house agricultural workers and their families.	On-going.	The 2023-2031 Housing Element includes a new program to facilitate affordable housing for agricultural workers and hospitality workers.

Table B-1: Evaluation of 2015-2023 Housing Element Programs

2015-2023 Housing Element Goal, Policy, or Program	Goal, Policy or Program	Achievements/ Results	Evaluation of Barriers to Implementations	Recommendations for the Housing Element Update
J		CDA staff collaborated with Marin County University of California Cooperative Extension to develop streamlined permitting procedures for agricultural worker housing.		
		CDA staff convenes the Agricultural Worker Housing Collaborative, which is currently working on a comprehensive study to understand the scope and needs for agricultural worker housing.		
		In 2020, CDA staff began exploring the possible development of Agricultural Worker Housing on a County-owned site in Nicasio. To date, a Phase I study and biological assessment have been conducted on the site to help determine suitability for residential development.		
2.k	Promote and Ensure Equal Housing Opportunity	Currently implementing. The County AI was approved in 2020. With more than 1,400 interviews with individual residents and employees, staff developed a rigorous inventory and understanding of barriers to housing opportunity. Beginning in 2020, staff began participating in community conversations regarding the development of a Community Land Trust in Marin City, Marin's historically African American community.	On-going	Included in the 2023-2031 Housing Element as part of the County's meaningful actions to affirmatively further fair housing.
		All housing providers that receive CDBG, HOME, and Housing Trust dollars from the County must provide an Affirmative Marketing Plan; see Program 2.h.		
2.1	Deter Housing Discrimination	Currently implementing. Since the adoption of the County's source of income ordinance to prevent	On-going	Included in the 2023-2031 Housing Element as part of

Table B-1: Evaluation of 2015-2023 Housing Element Programs

2015-2023 Housing Element Goal, Policy, or Program	Goal, Policy or Program	Achievements/ Results	Evaluation of Barriers to Implementations	Recommendations for the Housing Element Update
		discrimination against tenants with third-party housing vouchers, Housing and Federal Grants staff have dedicated resources to support incorporated jurisdictions with research and development of their own source of income protections. The Town of Fairfax, the City of Novato, the Town of San Anselmo, and the City of San Rafael adopted similar source of income ordinances. Staff continue to provide technical assistance and resources to other Marin jurisdictions. CDA staff continue to refer discrimination complaints to Fair Housing Advocates of Northern California or other appropriate legal services, County, or State agencies.		the County's meaningful actions to affirmatively further fair housing.
2.m	Implement the Inclusionary Housing Policy	Currently implementing. The County adjusts its in-lieu housing fee annually based on the higher of either the Consumer Price Index (CPI) for Shelter for the Construction Cost Index (CCI) published by the Engineering-News Record. See also response to program 2.n, "apply long-term housing affordability controls." In response to the Governor's approval of AB 1505, which renewed the County's authority to extend its inclusionary zoning policy to rental housing units, the Board adopted an amendment to its Development Code to renew that application of its inclusionary zoning policy to the rental housing development projects.	On-going	The 2023-2031 Housing Element includes a program to implement and modify the Inclusionary Housing policy.

Table B-1: Evaluation of 2015-2023 Housing Element Programs

2015-2023 Housing Element Goal, Policy, or Program	Goal, Policy or Program	Achievements/ Results	Evaluation of Barriers to Implementations	Recommendations for the Housing Element Update
		The County is working with other Marin Cities and Towns on updating their inclusionary programs, to provide more consistency across jurisdictions and to ensure that the policies are aligned with best practices and current market conditions.		
2.n	Apply Long-Term Housing Affordability Controls	Currently implementing. An affordable housing development's receipt of Marin Housing Trust Fund monies is typically contingent upon acceptance of a regulatory agreement that imposes affordability restrictions in perpetuity. Exceptions to this requirement are made only for projects with unavoidable constraints that preclude the developer's ability to accept those terms. Examples of such constraints include developments with a determinate term length for land or building leases or conflicts with terms of other sources of public financing.	On-going. The County requires long-term affordability restrictions on all inclusionary and funded units	Ongoing practice but is not included in the Housing Element as a separate housing program.
2.0	Encourage Land Acquisition and Land Banking	Currently implementing. Housing and Federal Grants Division staff participate in a committee of funders that seeks out and evaluates potential acquisitions of existing housing and other opportunities for maximizing affordable housing stock throughout the County. Also see response to program 2.e, "support efforts to house the homeless."	On-going.	The 2023-2031 Housing Element includes a program to maintain existing and create new Community Land Trusts.
2.p	Expedite Permit Processing of Affordable and Special Needs Housing Projects	Currently implementing. See response to program 1.d, "study ministerial review for affordable housing."	Limited success because of lack of affordable housing developments seeking permits	Modified in the 2023-2031 Housing Element to reflect AB 1397 requirements. Projects on rezone or reuse sites will be provided ministerial by-right approval if the project

Table B-1: Evaluation of 2015-2023 Housing Element Programs

2015-2023 Housing Element Goal, Policy, or Program	Goal, Policy or Achievements/ Results		Evaluation of Barriers to Implementations	Recommendations for the Housing Element Update
				includes 20% lower income units.
2.q	Study Best Practices for Housing Choice Voucher Acceptance.	Currently implementing. In August 2018, the County executed a \$450,000 contract with Marin Housing Authority to renew its Landlord Partnership Program for a second two-year period. The program incentivizes landlord participation in the Housing Choice Voucher program and provides security deposit assistance of tenants. The Landlord Partnership Program works in conjunction with the increasing number of sources of income ordinances within the County to increase success rates for voucher holders. In 2018, Marin Housing Authority reported a five percent increase in the success rate; it averaged roughly 60 percent throughout the year. Also see response to program 2.I, "deter housing discrimination."	On-going	Modified in the 2023-2031 Housing Element to include outreach and education regarding State source of income protection (SB 329 and SB 222), emphasizing new rental housing opportunities through ADUs and SB 9, and areas with disproportionate housing needs.
2.r	Encourage First Time Homebuyer Programs	Currently implementing. The Successor Agency to the Marin County Redevelopment Agency funds the Marin Housing Authority (MHA) Below Market Rate homeownership and down payment assistance programs for first-time homebuyers. MHA, Fair Housing Advocates of Northern California (FHANC), and Habitat for Humanity Greater San Francisco continue to coordinate and host first-time homebuyer readiness workshops and services.	On-going	Program included in the 2023-2031 Housing Element.

Table B-1: Evaluation of 2015-2023 Housing Element Programs

2015-2023 Housing Element Goal, Policy, or Program	Goal, Policy or Program	Achievements/ Results	Evaluation of Barriers to Implementations	Recommendations for the Housing Element Update
2.s	Link Code Enforcement with Public Information Programs	Currently implementing. County staff enforce housing, building, and fire codes to ensure compliance with basic health and safety building standards. Referrals to Marin Housing Authority's Rehabilitation Loan Program, affordable housing opportunities, and other services are provided as appropriate.	On-going	Program is modified in the 2023-2031 Housing Element to expand inspection scope.
2.t	Assist in Maximizing Use of Rehabilitation Programs	Currently implementing. The MHA Rehabilitation Loan program was allocated \$230,095 in CDBG funds to support the provision of approximately 12 loans to low-, very-low-, and extremely-low-income homeowners in 2020. MHA staff routinely refer recipients of rehabilitation loans to the Green and Healthy Homes Initiative-Marin (GHHI), a collaborative consortium of service providers in Marin that provide housing health and sustainability interventions – including subsidies and rebate programs – for low-income residents.	On-going.	Program expanded to emphasize outreach in areas with disproportionate housing needs.
2.u	Monitor Rental Housing Stock	Currently implementing. Starting in 2019, landlords must report rents and general occupancy information for all rental properties subject to the Just Cause for Eviction ordinance. Housing and Federal Grants Division staff participate in an affordable-housing funders group (see response to program 2.o, "encourage land acquisition and land banking") and Opening Doors (see response to program 2.e, "support efforts to house the homeless"). The County Development Code prohibits conversion of multi-family rental units into condominiums unless the vacancy rate exceeds 5% and the change does not reduce the ratio of multi-family rental units to less		Included in the 2023-2031 Housing Element as part of the County's meaningful actions to affirmatively further fair housing, with increased monitoring in areas identified with displacement risks in the AFFH analysis.

Table B-1: Evaluation of 2015-2023 Housing Element Programs

2015-2023 Housing Element Goal, Policy, or Program	Goal, Policy or Program	Achievements/ Results	Evaluation of Barriers to Implementations	Recommendations for the Housing Element Update
-		than 25% of the total number of dwelling units in the County. Also see response to program 2.n, "apply long-term affordability controls."		
2.v	Study Housing Needs and Constraints Specific to West Marin	In progress. In August 2018, the County elected to renew its financial, administrative and technical support of the Community Land Trust Association of West Marin's (CLAM) Real Community Rentals pilot program for a second two-year period. CLAM provides education, assistance with project management, and a screening and referral service to prospective landlords who agree to rent their units at rates affordable to low- and moderate-income households. In the fall of 2019, the Board of Supervisors authorized staff to enter into a purchase agreement for the Coast Guard property with the federal government. The agreement includes language that restricts the use of the 32-acre site to public benefit, which includes a conversion to affordable housing. A developer was selected for the project in April 2020. In 2019, \$4,712,600, was allocated for the construction and preservation of 49 units of affordable housing, including the above-mentioned Coast Guard property.	In progress	Included in the 2023-2031 Housing Element as part of the County's meaningful actions to affirmatively further fair housing.
Goal 3	Ensure Leadership and Institutional Capacity			Carry forward as is

Table B-1: Evaluation of 2015-2023 Housing Element Programs

2015-2023 Housing Element Goal, Policy, or Program	Goal, Policy or Program	Achievements/ Results	Evaluation of Barriers to Implementations	Recommendations for the Housing Element Update
Program 3.a	Consider methods for improving County's outreach with respect to affordable housing	Currently implementing. The Housing and Federal Grants Division publishes staff reports in Spanish and ensures that Spanish interpretation services are made available at Board of Supervisors hearings. To make those hearings more accessible to working households, the Board of Supervisors often holds hearings related to affordable housing in the evening.	On-going.	Included in the 2023-2031 Housing Element as part of the County's meaningful actions to affirmatively further fair housing.
3.b	Advance Organizational Effectiveness	Currently implementing. Staff continues to coordinate with other agencies, divisions, and departments as is appropriate to support the accomplishment of intersectional programs and goals.	On-going. Staff has worked with other local governments and staff to address barriers to providing affordable homes in Marin	Ongoing staff function and is not included in the Housing Element as a separate program.
3.c	Provide and Promote Opportunities for Community Participation in Housing Issues	Currently implementing. Staff regularly gives presentations to community groups and conferences on affordable and fair housing issues. Also see response to program 3.a, "consider methods for improving County's outreach with respect to affordable housing."	On-going. Staff conducted an intensive outreach process to update the housing element, including hands-on interactive community workshops.	Included in the 2023-2031 Housing Element as part of the County's meaningful actions to affirmatively further fair housing. A new Community Engagement program is included in the Housing Element.
3.d	Coordinate with Regional Transportation and Housing Activities	Currently implementing. CDA works closely with the Transportation Authority of Marin (TAM) and the Association of Bay Area Governments (ABAG) to produce informative local data. Representatives from	On-going. Staff worked closely with Transportation Authority of Marin and will continue to	Staff function but not included in the Housing Element as a separate program.

Table B-1: Evaluation of 2015-2023 Housing Element Programs

Ü		those agencies attend regular area planning director's meetings.	look for opportunities to coordinate with regional transportation agencies.	
3.e	Coordinate with Other Agencies	Currently implementing. Housing and Federal Grants Division staff coordinate with other agencies to facilitate the efficient processing of affordable and special needs housing applications in both the unincorporated county and the incorporated cities and towns. When project approvals require cooperation between departments, CDA staff facilitate expedition of permits and waiver of fees whenever possible and appropriate. To reduce funding barriers to affordable and special needs housing projects in incorporated cities and towns, the Board of Supervisors maintains a policy that it may support those projects through allocations of Marin Housing Trust Fund monies.	On-going	Staff function but not included in the Housing Element as a separate program.
3.f	Promote Countywide Collaboration on Housing	Currently implementing. Staff work with all towns and cities in Marin through the CDBG Priority Setting Committee (PSC) to fund affordable housing and ensure that jurisdictions affirmatively further fair housing. In 2020, staff continued to convene a countywide working group of planners to encourage interjurisdictional collaboration on housing issues and solutions, with a specific focus on responding to 2017 State housing Package. The working group established common goals and coordinated on housing legislation, planning, production, and	On-going	Staff function but not included in the Housing Element as a separate program.

Table B-1: Evaluation of 2015-2023 Housing Element Programs

2015-2023 Housing Element Goal, Policy, or Program	Goal, Policy or Program	Achievements/ Results	Evaluation of Barriers to Implementations	Recommendations for the Housing Element Update
		preservation of existing affordability. The working group applied jointly for SB2 planning grants in the summer and fall of 2019 and have started to collaborate on these grant projects including Objective Design and Development Standards, an ADU Workbook and Website, and Inclusionary housing program updates.

Appendix C: Sites Inventory

A. Introduction

State law requires that jurisdictions demonstrate in the Housing Element that the land inventory is adequate to accommodate that jurisdiction's share of the region's projected growth. The County has available residential development opportunities with sufficient capacity to meet and exceed the identified housing need.

The following sections provide details on the County's 2023-2031 Housing Element sites inventory. The opportunity areas consist of proposed developments, vacant sites, and underutilized sites to accommodate the RHNA. The identified areas involve sites that can realistically be redeveloped with residential units during the planning period. The sites chosen are significantly underutilized given their size and location. As market forces continue to push toward higher densities, recycling of underutilized land is expected to occur at an increasing rate. If the trend continues, the County can anticipate increased recycling of land, particularly in higher-density areas where economies of scale can be realized.

Sites to Meet the RHNA

Site selection to meet the RHNA includes underutilized, vacant, and non-vacant sites.

Underutilized Sites

<u>Underutilized sites included in this inventory have been chosen based on the potential capacity increase available to property owners and thus the ability to realize economic gain.</u>

For large commercial shopping centers, all or portions of such sites have been identified by selecting areas that have the potential for housing development. Large parking areas or commercial buildings with vacancies were identified for redevelopment. Based on the developable areas, these sites were reduced in capacity to approximately 85%. This reduction allows for commercial uses to remain under mixed use development. Reduction capacity vary by each commercial center based on available developable areas.

Vacant and Non-Vacant Sites

Site vacancy is a criterion used in identifying sites with potential for new development or recycling opportunities. The following section describes the criteria used in determining the suitability of vacant/non-vacant sites.

Methodology in Identifying Sites

The County's RHNA for the 6th cycle Housing Element is accommodated primarily on non-vacant sites. Existing uses on the sites are older or show signs of disinvestment or deferred maintenance, indicating a "ripeness" for private redevelopment. Key sites with existing uses that are "ripe" for redevelopment typically contain older structures and are underutilized given the development

potential afforded. Examples of existing uses include vacant commercial, office, and industrial buildings, and storage lots. Some sites with existing lower-density residential uses provide the opportunity for significant capacity increases.

Suitability of Sites

Table C-1 below presents recent developments in the county to identify land uses that have recently been recycled for development and other development trends. Recently recycled land uses include industrial, commercial, office, storage, and residential uses. Other key metrics used to evaluate recent development projects include floor area ratio (FAR) as a proxy for building intensity, the building-to-land (BLV) ratio, and age of existing structures.

Recent development projects show that development occurred on parcels with a FAR between 0.00–0.75, BLV ratio between 0.08–2.80 and building age between 28–122 years old; averages of the above metrics are 0.32, 1.17, and 68 respectively. The final metrics for determining the suitability of sites uses 75th percentile values to reduce the effect of outliers and account for a greater majority of available sites. These values are 0.40 FAR, 1.54 BLV, and buildings aged 50 years and above (year built >/= 1972).

In addition to the above metrics, developer/property owner interest to redevelop the site and parcel ownership were also taken into consideration when determining the suitability of sites. All aforementioned considerations were then coded in Table C-4 (Detailed Site Inventory) to provide substantial evidence that existing land uses do not constitute an impediment for additional residential use on the sites (pursuant to Assembly Bill 1397). These criteria are:

- 1. **Interest**: Developer interest or property owner interest to redevelop site.
- 2. Vacant/Minimal Improvements: Vacant lots, Vacant lot, parking lots, or open storage that includes only minimal-to-no existing improvements on site.
- 3. **Public Ownership**: Property under county or state ownership
- 4. **Existing Use**: Existing uses that are similar to uses that have been recycled (Industrial; Commercial; Office; Storages; Residential)
- 5. Age: Buildings 50 years and older (>/= 1972)
- 6. **Building Intensity** (Floor Area Ratio, FAR)³: Low existing FAR; 0.35 and under.
- 7. Building/Land Value (BLV)⁴ Ratio: 1.54 and under

Sites that meet criteria #1, #2, or #3, or sites that meet two or more of the remaining four criteria (#4 through #7) are included in the sites inventory.

Realistic Capacity

To determine realistic capacity assumptions for the county, recent development trends and their respective capacities were surveyed and the average calculated. Table C-2 presents the recent development projects surveyed with each project's theoretical and realistic capacity, as well as unit distributions per income level. The average realistic capacity for recent development projects is 85 percent of the theoretical capacity.

³ FAR = Floor-area ratio (building area/land area)

⁴ BLV = assessed improvement value/assessed land value

Consistent with HCD Guidelines, the methodology for determining realistic capacity on each identified site must also account for land use controls and site improvements.

- Commercial Center Sites. For large commercial center sites, the average realistic capacity of 45 percent was based on identifying developable areas of the site. These areas will allow for residential development from 30 to 45 dwelling units per acre.
- Vacant Sites. For many vacant sites, realistic capacity was determined by subtracting areas that are affected by natural resources, including wetlands and stream conservation areas, and as well as environmental constraints, including flooding, sea level rise, and steep terrain. For sites with steep terrain, the developable areas or flatter portions of the site were identified. On average, vacant site realistic capacity was calculated at 50 percent. The realistic capacity trend for building on steep terrain in Marin County is also 50 percent.
- Religious Sites. Religious institutions sites are sites with churches or other religious institutions, with excess vacant property or large parking lots, that could accommodate residential development. Only the portion of the vacant or parking area is used as a candidate housing site. All religious properties were reviewed. Sites with largest parking areas or surrounding vacant areas were selected or that could yield at least a half an acre when half of the property was calculated. In rural and inland areas, vacant lots appear to be used as parking areas. Half of the parking lot or vacant area (50 percent) were calculated toward housing units. Vacant areas with terrain constraints were either excluded or not selected from the analysis.
- School Sites. School sites with underutilized or unused areas or sites considered surplus by the school district that could accommodate residential development. Only the portion of the site considered underutilized or unused, or the entire "surplus" site, is considered a candidate housing site. Additionally, some school sites include buildings or recreational amenities that could or are currently being used as neighborhood amenities. These buildings and facilities were removed from the housing calculation analysis. Some school sites have development potential limited by environmental constraints such as flooding, sea level rise, and steep terrain. Based on existing environmental context and constraints, and to produce a realistic housing count, these sites were reduced in capacity by 50 percent and vary by each site.
- Underutilized Nonresidential Sites. For underutilized nonresidential sites, a realistic
 capacity of 75 percent was applied to sites based on the maximum allowed density based
 on recent trends and the assumption that development standards combined with unique
 site features may not always lead to 100 percent buildout

Accommodating Lower Income Sites

Density

Sites within the County Center and Baylands Corridors use residential densities at 30 dwelling units per acre or higher and are credited toward lower-income housing sites. The County Centered and Baylands Corridors are generally located along Highway 101 and adjoining incorporated cities where employment, public services, and infrastructure is generally more available.

Sites within the Rural and Inland Corridors use residential densities at 20 dwelling units per acre and are credited toward lower-income housing sites. Due to limited infrastructure and wide use of septic tanks, development over a density of 20 dwelling units per acres is generally restrictive due to spacing requirements for drain or leach fields. Assembly Bill 1537 lowered Marin County's default density to 20 units per acre.

Large and Small Sites

Consistent with updated Housing Element law (Assembly Bill 1397) related to the suitability of small and large sites, the lower-income sites inventory presented in this appendix is made up predominately of sites between 0.5 and 10 acres in size, as the State has indicated these size parameters are most adequate to accommodate lower-income housing need. Individual parcels under 0.5 acres in size are included only if they are part of a larger site based on common ownership.

Five sites over 10 acres in size are included in the inventory. In Marin County, development of lower income affordable housing on large sites is achievable and there is interest in redeveloping larger sites. In San Rafael, the Northgate Mall is currently undergoing entitlements to overhaul the mall to include 1,320 residences on a 45-acre site. Nearly 10 percent of the housing units will be devoted to affordable housing.

- Marin County Juvenile Hall. The Marin County Juvenile Hall site consists of 33 acres
 and includes existing Probation Department facilities, Marin County offices, and an open
 recreational area. Marin County owns the site and facilities and will pursue affordable
 housing on a maximum of 10 acres of land on the site, while preserving recreational areas.
- Nicasio Corporation Yard. The Nicasio Corporation Yard is approximately 13.9 acres.
 As a County-owned site, the County recognizes the important of adding affordable housing within the inlands areas of the County and will pursue such housing on this site.
- Marin Gateway Center. Marin Gateway Center is located along Highway 101 near the Donahue Street/Bridge Boulevard and Bridgeway on/off ramps. The site, consisting of 15 acres, includes existing commercial and retail uses. An approximately 1.5-acre portion of parking area and potentially vacant retail spaces can accommodate housing on the site.
- San Domenico School. The majority of the San Domenico School campus, over 522 acres, consists of school facilities and steep hillside terrain. There are a few areas of the school, each over 1 acre and less than 10 acres, that could allow for housing opportunities.

St. Vincent's School for Boys. This site consists of three properties totaling over 315 acres of land. Large swaths of the property are constrained by sea-level rise and a floodplain along Miller Creek. The existing Catholic Charities facilities, setbacks from Highway 101, and surrounding hillside terrain also limit the developable areas on this site significantly. Approximately 40 acres of the site may be available for housing development and other uses. The Built Environment Element of the Countywide Plan includes policy and requirements to provide for affordable housing on this site.

Parcel Listing of Sites

The sites inventory is shown in **Table C-4**. **Table C-3** shows a listing of the sites inventory by parcel broken down by unincorporated communities consistent with the level of analysis throughout the Housing Element. Unincorporated communities are made up by census designated places (CDPs) as delineated by the U.S. Census. Some sites do not fall within the boundaries of a CDP within an unincorporated community but fall within the larger County Communities (North Marin, West Marin, Central Marin, Southern Marin). These sites are categorized under an "Other" heading in **Table C-4**.

Appendix D: Affirmatively Furthering Fair Housing

A. Introduction and Overview of AB 686

Assembly Bill 686 passed in 2017 requires the inclusion in the Housing Element an analysis of barriers that restrict access to opportunity¹ and a commitment to specific meaningful actions to affirmatively further fair housing.² AB 686 mandates that local governments identify meaningful goals to address the impacts of systemic issues such as residential segregation, housing cost burden, and unequal educational or employment opportunities to the extent these issues create and/or perpetuate discrimination against protected classes.³ In addition, AB 686:

- Requires the state, cities, counties, and public housing authorities to administer their programs and activities related to housing and community development in a way that affirmatively furthers fair housing;
- Prohibits the state, cities, counties, and public housing authorities from taking actions materially inconsistent with their AFFH obligation;
- Requires that the AFFH obligation be interpreted consistent with HUD's 2015 regulation, regardless of federal action regarding the regulation;
- Adds an AFFH analysis to the Housing Element (an existing planning process that California cities and counties must complete) for plans that are due beginning in 2021;
- Includes in the Housing Element's AFFH analysis a required examination of issues such as segregation and resident displacement, as well as the required identification of fair housing goals.

The bill added an assessment of fair housing to the Housing Element which includes the following components: a summary of fair housing issues and assessment of the County's fair housing enforcement and outreach capacity; an analysis of segregation patterns and disparities in access to opportunities, an assessment of contributing factors, an identification of fair housing priorities, and an identification of specific fair housing goals and actions.

¹ While Californian's Department of Housing and Community Development (HCD) do not provide a definition of opportunity, opportunity usually relates to access to resources and improved quality of life. HCD and the California Tax Credit Allocation Committee (TCAC) have created Opportunity Maps to visualize place-based characteristics linked to critical life outcomes, such as educational attainment, earnings from employment, and economic mobility.

² "Affirmatively furthering fair housing" is defined to mean taking meaningful actions that "overcome patterns of segregation and foster inclusive communities free from barriers that restrict access to opportunity" for communities of color, persons with disabilities, and others protected by California law.

³ A protected class is a group of people sharing a common trait who are legally protected from being discriminated against on the basis of that trait.

B. Affirmatively Furthering Fair Housing in Marin County

The Fair Housing Act (Title VIII of the Civil Rights Act of 1968) requires recipients of HUD funding to affirmatively further fair housing, which means, according to HUD, "taking meaningful actions, in addition to combating discrimination, that overcome patterns of segregation and foster inclusive communities free from barriers that restrict access to opportunity based on protected characteristics." Specifically, affirmatively furthering fair housing means taking meaningful actions that, when taken together,

- Addresses significant disparities in housing needs and in access to opportunities;
- Replaces segregated living patterns with truly integrated and balanced living patterns;
- Transforms racially and ethnically concentrated areas of poverty into areas of opportunity; and
- Fosters and maintains compliance with civil rights and fair housing laws.

In an effort to attain this goal of affirmatively furthering fair housing, HUD requires Marin County as an entitlement jurisdiction to engage in fair housing planning. This planning process requires Marin County to:

- 1. Conduct and update an Analysis of Impediments to Fair Housing Choice (AI):
- 2. Develop appropriate actions to overcome the effects of the identified impediments; and
- 3. Develop a system for record keeping and monitoring the activities undertaken to reduce or overcome the identified impediments.

The purpose of the planning process is to identify and eliminate discrimination and segregation in housing on the basis of race, color, religion, sex, age disability, familial status or national origin and to expand housing choice for all residents in Marin. The most recent Marin County Al was completed in February 2020.

C. Analysis Requirements

An assessment of fair housing must consider the elements and factors that cause, increase, contribute to, maintain, or perpetuate segregation, racially or ethnically concentrated areas of poverty, significant disparities in access to opportunity, and disproportionate housing needs.⁴ The analysis must address patterns at a regional and local level and trends in patterns over time. This analysis should compare the locality at a county level or even broader regional level such as a Council of Government,⁵ where appropriate, for the purposes of promoting more inclusive communities.

For the purposes of this AFFH, "Regional Trends" describe trends in the Bay Area (the members of the Association of Bay Area Governments⁶) when data is available in the Data Needs Package or trends within the boundaries of Marin County. when ABAG-level data is not available. "Local Trends" describe trends specific to the unincorporated County and its unincorporated communities.

Sources of Information

The County used a variety of data sources for the assessment of fair housing at the regional and local level. These include:

- Housing Needs Data Packet prepared by the Association of Bay Area Governments (ABAG), which rely on 2015-2019 American Community Survey (ACS) data by the U.S. Census Bureau for most characteristics.
 - Note: The ABAG Data Packets also referenced the U.S. Department of Housing and Urban Development (HUD) Comprehensive Housing Affordability Strategy (CHAS) reports (based on the 2013-2017 ACS) \.
- U.S. Census Bureau's Decennial Census (referred to as "Census") and American Community Survey (ACS).
- Marin County Analysis of Impediments to Fair Housing Choice in January 2020 (2020 AI).
- AFFH Segregation Report (2022) for Unincorporated Marin prepared by ABAG and UC Merced.
- HCD's AFFH Data Viewer.
- Local Data and Knowledge.

Some of these sources provide data on the same topic, but because of different methodologies, the resulting data differ. For example, the decennial census and ACS report slightly different estimates for the total population, number of households, number

⁴ Gov. Code, §§ 65583, subds. (c)(10)(A), (c)(10)(B), 8899.50, subds. (a), (b), (c); see also AFFH Final Rule and Commentary (AFFH Rule), 80 Fed. Reg. 42271, 42274, 42282-42283, 42322, 42323, 42336, 42339, 42353-42360, esp. 42355-42356 (July 16, 2015). See also 24 C.F.R. §§ 5.150, 5.154(b)(2) (2016).

⁵ Councils of Governments (COGs) are voluntary associations that represent member local governments, mainly cities and counties, that seek to provide cooperative planning, coordination, and technical assistance on issues of mutual concern that cross jurisdictional lines. For example, the Association of Bay Area Governments (ABAG) is a Council of Government in the Bay Area.

⁶ Includes the Counties of: Alameda, Contra Costa, Marin, Napa, San Francisco, San Mateo, Santa Clara, Solano, Sonoma, and the City of San Francisco. For detailed member list see: https://abaq.ca.gov/about-abaq/what-we-do/our-members

of housing units, and household size. This is in part because the ACS provides estimates based on a small survey of the population taken over the course of the whole year. Because of the survey size, some information provided by the ACS is less reliable. For this reason, the readers should keep in mind the margin of error when drawing conclusions based on the ACS data used in this chapter. The information is included because it provides an indication of possible trends. The analysis makes comparisons between data from the same source during the same time periods, using the ABAG Data Package as the first source since ABAG has provided data at different geographical levels for the required comparisons. As such, even though more recent ACS data may be available, 2014-2019 ACS reports are cited more frequently (and 2013-2017 for CHAS data).

The County also used findings and data from the 2020 Marin County Analysis of Impediments to Fair Housing Choice (2020 AI) for its local knowledge as it includes a variety of locally gathered and available information, such as a surveys, local history and events that have effected or are effecting fair housing choice. The County also used the HCD's 2020 Analysis of Impediments to Fair Housing Choice for its regional findings and data.

In addition, HCD has developed a statewide AFFH Data Viewer. The AFFH Data Viewer consists of map data layers from various data sources and provides options for addressing each of the components within the full scope of the assessment of fair housing. The data source and time frame used in the AFFH mapping tools may differ from the ACS data in the ABAG Data Package. The County tried to the best of their ability to ensure comparisons between the same time frames but in some instances, comparisons may have been made for different time frames (often different by one year). As explained earlier, the assessment is most useful in providing an indication of possible trends.

For clarity, this analysis will refer to various sections of the unincorporated County as North Marin, West Marin, Central Marin, and Southern Marin. These designations are shown in <u>Figure D-1</u> and include the following communities and jurisdictions:

- North Marin: Black Point-Green Point, Novato, Lucas Valley-Marinwood
- West Marin: Dillon Beach, Tomales, Inverness, Marshall, Point Reyes Station, Nicasio, Lagunitas-Forest Knolls, San Geronimo, Woodacre, Bolinas, Stinson Beach, Muir Beach
- Central Marin: Sleepy Hollow, Fairfax, San Anselmo, Ross, Santa Venetia, San Rafael, Kentfield, Larkspur, Corte Madera
- Southern Marin: Mill Valley, Tiburon, Strawberry, Tamalpais-Homestead Valley, Marin City, Belvedere, Sausalito

D-4 Marin Countywide Plan

⁷ The American Community Survey is sent to approximately 250,000 addresses in the United States monthly (or 3 million per year). It regularly gathers information previously contained only in the long form of the decennial census. This information is then averaged to create an estimate reflecting a 1- or 5-year reporting period (referred to as a "5-year estimate"). 5-year estimates have a smaller margin of error due to the longer reporting period and are used throughout the AFFH.

Local Knowledge

In addition to using federal or state level data sources, local jurisdictions are also expected to use local data and knowledge to analyze local fair housing issues. Using point-in-time federal and state level data sets alone to identify areas may misrepresent areas that are experiencing more current and rapid changes or may be primed to do so in the near future. For these reasons, an additional screen of local data and knowledge is necessary. Local data and knowledge from stakeholders, community members, and County staff is interwoven within each section where data was available.

Figure D- 1: Marin County Communities

D. Assessment of Fair Housing Issues

1. Fair Housing Enforcement and Outreach

Enforcement capacity includes the ability to address compliance with fair housing laws, such as investigating complaints, obtaining remedies, and engaging in fair housing testing. The two primary state fair housing laws are the Fair Employment and Housing Act (FEHA) and the Unruh Civil Rights Act. These laws incorporate the same protected classes of persons as the federal Fair Housing Act, and also prohibit discrimination based on marital status, sexual orientation, source of income, ancestry, immigration status, citizenship, primary language and arbitrary factors such as age or occupation. Fair housing outreach capacity relates to the ability of a locality and fair housing entities to disseminate information related to fair housing and provide outreach and education to assure community members are well aware of fair housing laws and rights

Fair Housing Advocates of Northern California (FHANC) provides fair housing services, including fair housing counseling, complaint investigation, and discrimination complaint assistance, to Marin County residents. FHANC is a non-profit agency whose mission is to actively support and promote fair housing through education and advocacy. FHANC also provides fair housing workshops to educate tenants on fair housing law and include information on discriminatory practices, protections for immigrants, people with disabilities, and families with children, occupancy standards, and landlord-tenant laws. FHANC also provides educational workshops on home buying and affordable homeownership. In addition, FHANC hosts a fair housing conference in Marin County annually.

The County works in close partnership with the Fair Housing Advocates of Marin (FHAM) (a division of Fair Housing Advocates of Northern California, FHANC). FHAM is the only HUD-certified Housing Counseling Agency in the county, as well the only fair housing agency with a testing program in the county. Fair Housing Advocates of Marin (FHAM) provides free services to residents protected under federal and state fair housing laws. FHAM helps people address discrimination they have experienced, increasing housing access and opportunity through advocacy as well as requiring housing providers to make changes in discriminatory policies. FHAM provides the following services:

- (1) Housing counseling for individual tenants and homeowners;
- (2) Mediations and case investigations;
- (3) Referral of and representation in complaints to state and federal enforcement agencies;
- (4) Intervention for people with disabilities requesting reasonable accommodations and modifications;
- (5) Fair housing training seminars for housing providers, community organizations, and interested individuals;
- (6) Systemic discrimination investigations;
- (7) Monitoring Craigslist for discriminatory advertising;
- (8) Education and outreach activities to members of protected classes on fair housing laws;

- (9) Affirmatively Furthering Fair Housing (AFFH) training and activities to promote fair housing for local jurisdictions and county programs;
- (10) Pre-purchase counseling/education for people in protected classes who may be victims of predatory lending; and
- (11) Foreclosure prevention.

Fair Housing Enforcement

Regional Trends

In late 2016, Marin County passed a local fair housing ordinance that established protections for renters based upon source of income, including renters using third-party housing subsidies such as Housing Choice Vouchers (HCVs). While California state law provided that it was unlawful to discriminate based upon one's source of income, at that time the definition was narrow and did not include third-party housing subsidies such as HCVs, Veterans Affairs Supportive Housing (VASH), Housing Opportunities for People with Aids (HOPWA), and Shelter Care Plus vouchers. The ordinance made it unlawful for housing providers in the unincorporated parts of Marin County to refuse to consider renters using housing subsidies, to offer different terms and conditions, such as higher security deposits, or to make discriminatory statements, such as "No Section 8."8

FHANC monitors advertisements online with potentially discriminatory statements and sends notification letters, sharing its fair housing concerns. Since the enactment of these local ordinances and SB329, FHANC has made concerted efforts to focus its education efforts on source of income protections, highlighting the change in the law and how income requirements work. The response from housing providers has varied from hostility to appreciation.

Discrimination complaints from both resident and prospective County tenants can be filed through FHANC, which refers complaints to the Department of Housing and Urban Development (HUD), or the Department of Fair Employment and Housing (DFEH). Complaints filed through HUD/DFEH from 2018-2019, included in the 2020 Analysis of Impediments to Fair Housing (2020 AI) are shown below in Table D- 1. More updated FHANC clients (2020-2021) are also included in Table D- 1. A total of 301 housing discrimination complaints were filed with FHANC from 2020 to 2021 and 14 were filed with HUD from 2018 to 2019. A majority of complaints, including 78 percent of complaints filed with FHANC and 57 percent of complaints filed with HUD, were related to disability status. This finding is consistent with federal and state trends. According to the 2020 State Al, 51 percent of housing-related complaints filed with DFEH between 2015 and 2019 were filed under disability claims, making disability the most common basis for a complaint. FHANC also received 38 complaints (13 percent) on the basis of national

⁸ In 2019, the California Legislature passed Senate Bill (SB) 329 that amended the Fair Employment and Housing Act (FEHA) to clarify that HCVs and other types of housing subsidies and third party rental assistance are included within the definition of source of income. Thus, source of income protections now apply to the entire state.

origin, 22 on the basis of race (seven percent), 19 (six percent) on the basis of gender, and 13 (4.3 percent) on the basis of familial status. Similarly, state trends show the same protected classes are among the most commonly discriminated against.

<u>Table D-1</u>: Discrimination Complaints by Protected Class (2018-2021)

Protected Class	FHANC	(2020-21)	HUD/DFE	EH (2018-19)	
	Complaints	Percent	Complaints	Percent	
Disability	235	78.1%	8	57%	
National Origin	38	12.6%	4	29%	
Race	22	7.3%	3	21%	
Gender	19	6.3%	2	14%	
Familial Status	13	4.3%	1	7%	
Source of Income	28	9.3%			
Total	301		14		

Notes:.1. A single complaint can be filed by a member of multiple protected classes so the totals per protected class does not add up to the 301 total complaints reported to FHANC. 2. HUD/DFEH complaints in AI reported to nearest whole number.

Sources: Marin County Analysis of Impediments to Fair Housing Choice, 2020; Fair Housing Advocates of Northern California (FHANC), 2020-2021.

A reasonable accommodation, as defined in the 2020 AI, "is a change or modification to a housing rule, policy, practice, or service that will allow a qualified tenant or applicant with a disability to participate fully in a housing program or to use and enjoy a dwelling, including public and common spaces." The 2020 AI reported that FHANC requested 35 reasonable accommodations for clients with disabilities between 2018 and 2019, 33 of which were approved. County staff also advises clients on reasonable accommodations requests. FHANC also provides funding for the Marin Center for Independent Living (MCIL). Since 2017, FHANC has provided funding for 13 MCIL modifications.

As described earlier, the County works with Fair Housing Advocates of Marin (FHAM) (a division of Fair Housing Advocates of Northern California, FHANC) to provide fair housing services to Marin residents. However, FHAM also provides services across a large service area that includes Marin County, Sonoma County, Santa Rosa, Fairfield, and Vallejo.

Historically, FHAM's fair housing services have been especially beneficial to Latinx, African-Americans, people with disabilities, immigrants, families with children, female-headed households (including survivors of domestic violence and sexual harassment), and senior citizens; approximately 90 percent of clients are low-income. FHAM's education services are also available to members of the housing, lending, and advertising industry. Providing industry professionals with information about their fair housing responsibilities is another means by which FHAM decreases incidences of discrimination and helps to protect the rights of members of protected classes.

From 2017 to 2018, the organization served 1,657 clients (tenants, homeowners, social service providers, and advocates), a 22 percent increase from the previous year; provided

counseling on 592 fair housing cases (a 26 percent increase), intervened for 89 reasonable accommodations granted (a 33 percent increase) of 97), represented 97 requests from people with disabilities (a 24 percent increase; funded eight (8) reasonable modification requests to improve accessibility for people with disabilities; investigated 71 rental properties for discriminatory practices, filed 15 administrative fair housing complaints and one (1) lawsuit; garnered \$71,140 in settlements for clients and the agency; and counseled 71 distressed homeowners and assisted homeowners in acquiring \$228,197 through Keep Your Home California programs to prevent foreclosure.

During Fiscal Year 2018 to 2019, FHAM counseled 393 tenants and homeowners in Marin County, screening clients for fair housing issues and providing referrals for non-fair housing clients or callers out of FHAM's service area. Of the households counseled, 211 alleged discrimination and were referred to an attorney or bilingual housing counselor for further assistance (e.g. receiving information on fair housing laws, interventions with housing providers requesting relief from discriminatory behavior, making 35 reasonable accommodation requests on behalf of disabled tenants, four referrals to HUD/DFEH and representation in administrative complaints).

Local Trends

FHANC provides Countywide enforcement activities described above but detailed information for the unincorporated data was unavailable for all types of activities. However, FHANC estimates that 43 percent of their services are located in "other" areas of the County (while the other 57 percent of services are provided in Novato and San Rafael).

Of the 301 complaints received by FHANC between 2020 and 2021 (<u>Table D- 1</u>), 68 were from unincorporated communities (<u>Table D- 2Table D- 2</u>:). Only residents from West Marin and Southern Marin reported discrimination complaints in the unincorporated county, with West and Southern Marin each making up about 50 percent of the complaints reported to FHANC. Within West Marin, residents of Point Reyes Station and Woodacre reported the highest number of complaints, while in Southern Marin, Marin City had the greatest number of complaints. Overall, Marin City had the highest incidence of reported discrimination complaints, making up about 45.6 percent of all the complaints in the unincorporated County.

Table D- 2: Discrimination Complaints by Unincorporated Community/Area (2	?0 <i>2</i> 0-

Notes: 1. A single complaint can be filed by a member of multiple protected classes so the totals per Source: Fair Housing Advocates of Northern California (FHANC), 2020-2021.

The protected classes from the unincorporated area that made discrimination complaints were similar to those in the County and the state. Of the 68 complaints made to FHANC in the unincorporated area, 85 percent were made by persons with disabilities. Gender and race were the other top protected classes that made disclination complaints to FHANC (about nine percent of the cases).

Table D- 3: Discrimination Complaints by Protected Class (2020-2021)						
Protected Class	Cases	% of Cases

Total Cases	68					

Notes: 1. A single complaint can be filed by a member of multiple protected classes so the totals per Source: Fair Housing Advocates of Northern California (FHANC), 2020-2021.

FHANC also tracks the discriminatory practices reported by complainants (<u>Table D- 4</u>). The most commonly reported discriminatory practice was denial of reasonable accommodation (62 percent of cases) followed by different terms and conditions, refusal to rent/sell, and harassment (nine percent of cases). As with the County and state trends, discrimination complaints and discriminatory practices are more commonly related to persons with disabilities and their special needs.

Table D- 4	Discrimination	Complaints	by	Discriminatory	Practice	(2020-
2021)		-	_	_		-

Recent Complaint Trends

Since the beginning of COVID, FHANC has seen related housing hardships such as inability to pay rent/mortgage due to income loss; increased rents despite financial hardship; need for reasonable accommodations in order to protect from COVID infections and/or because of increases in stress; domestic violence exacerbated by quarantine/isolation; sexual harassment/exploitation of tenants unable to move/pay rent; neighbor-on neighbor harassment related to increases in stress/prolonged proximity; and harassment/discrimination based on stereotypes about which groups are likely to have COVID. FHANC has seen an overall decrease in eviction cases during the pandemic. For example, a client with an autoimmune disease and is considered high-risk with regard to COVID-19 reached out to FHANC to prevent her landlord from unnecessarily entering her unit during the COVID-19 pandemic. She had had repeated issues with the landlord entering her unit often and on short notice, without taking proper precautions to prevent the spread of COVID-19. FHANC sent a letter detailing her condition, with verification from her doctor, and requested that the landlord not enter the unit except in case of emergency or for significant repairs. The landlord agreed to the request, and the issue has not persisted since it was granted.

Fair Housing Testing

Initiated by the Department of Justice's Civil Rights Division in 1991, fair housing testing involves the use of an individual or individuals who pose as prospective renters for the purpose of determining whether a landlord is complying with local, state, and federal fair housing laws.

Regional Trends

In Fiscal Year 2018 to 2019, Fair Housing Advocates of Marin (FHAM) conducted systemic race discrimination investigations as well as complaint-based testing, with testing for race, national origin, disability, gender, and familial status discrimination. FHAM monitored Craigslist for discriminatory advertising, with the additional recently added protection for individuals using housing subsidies in unincorporated parts of Marin. FHAM notified 77 housing providers in Marin during the year regarding discriminatory language in their advertisements.

According to the 2020 AI, during the 2018 to 2019 Fiscal Year, FHANC conducted email testing, in-person site, and phone testing for the County. FHANC conducted 60 email tests (30 paired tests) to "test the assumption of what ethnicity or race the average person would associate with each of the names proposed" as well as source of income discrimination in jurisdictions in Marin County with local ordinances protecting tenants with housing subsidies. The results were as follows:

- Eight paired tests (27 percent) showed clear differential treatment favoring the White tester;
- 19 paired tests (63 percent) conducted in jurisdictions with local source of income ordinances showed discrimination based upon source of income; and,
- 3 paired tests revealed discrimination based upon both race and source of income.

 In 80 percent of tests (24 of 30 paired tests), there was some disadvantage for African American testers and/or testers receiving Housing Choice Vouchers (HCVs).⁹

In-person site and phone tests consisted of an African American tester and a White tester. Of the 10 paired in-person site and phone tests conducted, 50 percent showed differential treatment favoring the White tester, 60 percent showed discrepancies in treatment for HCV recipients, and 30 percent showed discrimination on the basis of race and source of income.

The conclusions of the fair housing tests included in the 2020 Al are as follows:

- Housing providers make exceptions for White Housing Choice Voucher recipients, particularly in high opportunity areas with low poverty.
- Email testing revealed significant evidence of discrimination, with 27 percent of tests showing clear differential treatment favoring the White tester and 63 percent of tests showing at least some level of discrimination based upon source of income.
- Phone/site testing also revealed significant instances of discrimination: 50 percent of discrimination based upon race and 60% based on source of income.

The 2020 State AI did not report any findings on fair housing testing. However, the AI concluded that community awareness of fair housing protections correlates with fair housing testing as testing is often complaint-based, like it is for FHAM in Marin County. According to the 2020 State AI, research indicates that persons with disabilities are more likely to request differential treatment to ensure equal access to housing, making them more likely to identify discrimination. The 2020 State AI highlighted the need for continued fair housing outreach, fair housing testing, and trainings to communities across California, to ensure the fair housing rights of residents are protected under federal and state law. The 2020 State AI recommended that the state support the increase of fair housing testing to identify housing discrimination.

The 2020 State Al also reported findings from the 2020 Community Needs Assessment Survey. Respondents felt that the primary bases for housing discrimination were source of income, followed by discriminatory landlord practices, and gender identity and familial status. These results differ from the most commonly cited reason for discrimination in complaints filed with DFEH and FHANC. The State survey also found that most (72)

-

⁹ The Housing Choice Voucher (HCV) Program is the federal government's major program for assisting very low-income families, the elderly, and persons with disabilities to afford decent, safe, and sanitary housing in the private market. Since housing assistance is provided on behalf of the family or individual, participants are able to find their own housing, including single-family homes, townhouses and apartments. Participants are free to choose any housing that meets the requirements of the program and is not limited to units located in subsidized housing projects. Participants issued a housing voucher are responsible for finding a suitable housing unit of their choice where the owner agrees to rent under the program. A housing subsidy is paid to the landlord directly by the local Public Housing Agency (PHA) on behalf of the participant. The participant then pays the difference between the actual rent charged by the landlord and the amount subsidized by the program. Beginning on January 1, 2020, housing providers, such as landlords, cannot refuse to rent to someone, or otherwise discriminate against them, because they have a housing subsidy, such as a Housing Choice Voucher, that helps them to afford their rent.

percent) respondents who had felt discriminated against did "nothing" in response. According to the 2020 State AI, "fair housing education and enforcement through the complaint process are areas of opportunity to help ensure that those experiencing discrimination know when and how to seek help."

Local Trends

FHANC conducts systemic audit testing every year where they test a sample of landlords in each of their service areas to see how members of a particular protected class are being treated. Results from the most recent audit on race and income are expected in Summer/Fall 2022. The results will be incorporated into this analysis when they become available.

In the Audit Report for Fiscal Year 2019-2020, FHANC investigated discrimination against prospective renters who are Latinx and/or Housing Choice Voucher (HCV) holders in Marin, Sonoma, and Solano Counties. While discrimination on the basis of a renter's source of income has been illegal in California, until only recently have these protections extended to HCV holders, who are individuals who have historically experienced a number of barriers to housing opportunity.

FHANC conducted 139 individual investigations, 45 in Marin County. Tested properties were located in the cities of Fairfax, Larkspur, Mill Valley, Novato, San Anselmo, San Rafael, Sausalito, and Tiburon and unincorporated communities of Kentfield, Lagunitas, and Nicaso. According to FHANC, the investigation did not include the smaller unincorporated communities such as Inverness or Bolinas in Marin County because of the lack of available rental housing, particularly complexes with more than two to three units. In addition, some larger cities were not tested due to lack of eligible availabilities (for instance, the contract rent was significantly above the relevant payment standard). FHANC found that housing providers in Marin County discriminated on the basis of national origin and/or source of income in approximately 81 percent of the time (the lowest rate among the Tri-County area), either demonstrating an outright refusal to rent to HCV holders or requiring an improper application of the minimum income requirement (which effectively prohibits voucher holders from accessing housing) and/or providing inferior terms/conditions and general treatment to Latinx voucher holders as compared to non-Latinx White voucher holders. Of the investigations revealing discrimination, 57 percent were based on source of income, 24 percent were based on both source of income and national origin.

Between January and March 2021, FHANC investigated 111 rental properties in Marin, Sonoma and Solano counties for disability discrimination. FHANC chose properties with stated policies in their rental listings prohibiting or limiting animals on the property, such as "no pet" policies or policies restricting the type, breed or size of animals permitted. Testers posing as renters with disabilities called or emailed housing providers in response to such rental listings and asked if the provider would be willing to make an exception to their animal policy in order to accommodate an applicant who requires an emotional support animal because of a verified disability. In Marin County, tests were conducted at

properties located in San Rafael, Novato, Southern Marin¹⁰, West Marin¹¹, and Central Marin.¹² Of the 32 investigations conducted in Marin County, 59 percent revealed evidence of a discriminatory policy or less favorable treatment toward persons with disabilities.

One of the most significant findings revealed by the investigation was the extremely high rate of discrimination uncovered at properties with less than 11 units (73 percent) versus the relatively low rate of discrimination at properties with more than 50 units (20 percent) for the Tri-County area combined. This points to a clear need for increased education and outreach to "mom and pop" landlords regarding their obligation to provide reasonable accommodations under fair housing laws.

<u>Table D- 5</u> below shows a sample of the phone-based discriminating testing conducted in response to client complaints (or as follow up tests to previous tests) in the unincorporated County between 2017 and 2021.

Table D- 5: Comp	plaint-Based	Discrimination	Phone	Testing	for	Unincorporated
Communities						
1						

(2017-2021) **Test Summary** Year **Protected Class** Investigation **Property Outcome** City 2017 Disability; Familial Clear Landlord refused to let protected tester Inverness Status Discrimination apply because she has a disability. He says there are stairs and it gets icy in the winter and he doesn't want the liability because she could fall. 2019 Some/ Potential Disability Kentfield Tester said she had an emotional support animal and agent said there Discrimination would be no fees as long as it was a "certified service animal." Tester clarified that it was an ESA not a service animal many times but agent kept saying it had to be a service animal. Eventually agent said she would ask her superiors if there was a difference but she never got back to tester and never responded to her follow-up call.

D-16 Marin Countywide Plan

¹⁰ Southern Marin includes the incorporated and/or unincorporated cities/ towns of Marin City, Sausalito, Mill Valley, Tiburon, and Belvedere

¹¹ West Marin includes the incorporated and/or unincorporated cities/ towns of Woodacre, San Geronimo, Lagunitas, Forest Knolls, Lucas Valley, Stinson Beach, Bolinas, and Point Reyes Station.

¹² Central Marin includes the incorporated and/or unincorporated cities/ towns of Corte Madera, Larkspur, Kentfield, Ross, San Anselmo, and Fairfax.

2020	Source of Income	Clear Discrimination	Greenbrae	Protected tester called the property posing as a renter and asked if they accept Section 8, to which the agent responded that they are "not currently entering into those contracts."
2021	Source of Income	Clear Discrimination	Greenbrae	A protected tester called and explained that she has a section 8 voucher. She was told by the property manager that they do not accept section 8 and that they "are not entering into any contracts." She was not allowed to get on the waitlist. Based on this investigation, FHANC has determined that the landlord likely discriminated on the basis of source of income and is considering bringing an agency complaint against the housing provider.
2021	Source of Income	Clear Discrimination	Greenbrae	Protected tester told that they would not accept section 8 vouchers.

Fair Housing Education and Outreach

Regional Trends

As stated earlier, the 2020 State AI has concluded that fair housing outreach and education is imperative to ensure that those experiencing discrimination know when and how to seek help. The County established a Fair Housing Community Advisory Group in 2016. The Community Advisory Group provides advice and feedback on citizen engagement and communication strategies to County staff, participates in inclusive discussions on fair housing topics, identifies fair housing issues and contributing factors, and assists in developing solutions to mitigate fair housing issues. The County also established a Fair Housing Steering Committee consisting of 20 members representing public housing, faith-based organizations, the Marin County Housing Authority, Asian communities, cities and towns, African American communities, business, persons with disabilities, children, legal aid, persons experiencing homelessness, Latino communities, and philanthropy. The Steering Community advises on citizen engagement strategies, identifies factors contributing to fair housing impediments, incorporates community input and feedback, and provides information on a variety of housing topics to inform actions and implementation plans.

In addition, FHANC, as the County Fair Housing Provider, organizes an annual fair housing conference and resource fair for housing providers and advocates. Housing rights workshops are offered to landlords, property managers, and community members. Information on federal and state fair housing laws, common forms of housing discrimination, protected characteristics, unlawful practices, and fair housing liability is presented to workshop participants. The Marin County Housing Authority website

includes the following information in English and Spanish languages, with the option to use google translate for over 100 languages:

- Public Housing, including reasonable accommodations, grievance procedures, transfer policies, Section 3, maintenance service charges, fraud and abuse, resident newsletters, forms and other resources;
- HCVs, including for landlords, participants, fraud and abuse and voucher payment standards:
- Waitlist information and updates;
- Resident Services, including the Supportive Housing Program and Resident Advisory Board;
- Homeownership including Below Market Rate Homeownership Program, Residential Rehab Loan Program, Mortgage Credit Certification Program and the Section 8 Homeownership Program;
- Announcements and news articles, Agency reports and calendar of events.

FHANC conducts the following educational and outreach activities to provide fair housing education, and for complaint solicitation, in an effort to reach protected classes, staff of service agencies, jurisdictional staff, elected officials, housing advocates, housing providers and the general public:

- FHANC provides training seminars to housing providers, tenants and staff of service organizations in English and Spanish (staff of service agencies serve Spanish speaking clients and members of protected classes). FHANC also provides conferences on Reasonable Accommodations for people with disabilities and a Fair Housing Conference annually. The events that are open to the public are marketed through e-blasts, social media posts, outreach to agency contacts (especially contacts in the Canal, Marin City, and agencies servicing protected classes), and through community partners. Some trainings and community presentations are arranged directly with a particular organization and are open to the organization's staff only. Due to the pandemic, most events were held online.
- FHANC is a HUD-certified Housing Counseling Agency and offers homebuying education for those interested in buying Below-Market Rate units in Marin County, and also provides foreclosure prevention education.
- FHANC conducts fair housing education through social media campaigns and email marketing, targeting different protected classes, in English and Spanish.
 FHANC also publishes newspaper ads in English and Spanish.
- FHANC distributes literature in four languages (English, Spanish, Vietnamese and Tagalog) to different protected classes, including postering through a postering service, and brochure distribution. FHANC literature includes a 40-page handbook available in English and Spanish with information and resources for tenants.

- FHANC provides expertise to jurisdictional and County of Marin staff and elected officials, on fair housing and AFFH matters.
- FHANC has information for tenants on fair housing rights on its website, in English, Spanish and Vietnamese, including fair housing literature, educational webinars, and an accessible intake procedure, so tenants can easily access FHANC's services.
- FHANC attends community meetings, webinars, conferences and other events for networking and outreach purposes and to provide input on fair housing matters.
- FHANC collaborates with community agencies to provide fair housing information to staff and clients. FHANC networks or holds meetings (sometimes on regular basis) with staff of other agencies to promote collaborations, referrals, and networking,

To educate the community on matters related to Fair Housing and Covid-19, FHANC created a training session and developed a flyer (in English and Spanish) with FAQ's, regarding Fair Housing and Covid-19. FHANC distributed the flyer to agencies in Marin County and posted it on FHANC's website. FHANC also hosted a Fair Housing in Times of Covid forum (details in the event list below).

During FY 2020-2021, FHANC engaged in education and outreach efforts to reach individuals most likely experience discrimination and least likely to contact FHANC though activities such as: engaging public and private providers to prevent discriminatory practices, fair housing training to public and private housing providers, presentations to service providers and tenant groups, fair housing ads and e-blasts/social media posts, and literature distribution. FHANC also conducted pre-purchase education workshops in Spanish and English in collaboration with Marin Housing Authority to promote homeownership to low-income residents, covering topics such as preparing to buy a home, taking steps to homeownership, obtaining a loan, affordable housing programs, and predatory lending. In addition, FHANC partnered with San Rafael High School to provide presentations on fair housing and the history of racial residential segregation in Marin to social studies classes. Additionally, FHANC annually produced and hosted successful virtual Reasonable Accommodations conferences and April Fair Housing Month conferences.

As an example of FHAM's outreach capacity, from 2017 to 2018, FHAM educated 221 prospective homebuyers; trained 201 housing providers on fair housing law and practice, reached 379 tenants and staff from service agencies through fair housing presentations and 227 community members through fair housing conferences, distributed 4,185 pieces of literature; had 100 children participate in the annual Fair Housing Poster Contest from 10 local schools and 16 students participate in our first Fair Housing Poetry Contest from 11 local schools; and offered Storytelling shows about diversity and acceptance to 2,698 children attending 18 Storytelling shows.

As of 2021, FHAM agency reaches those least likely to apply for services through the following:

Translating most of its literature into Spanish and some in Vietnamese;

- Continuing to advertise all programs/services in all areas of Marin, including the Canal, Novato, and Marin City, areas where Latinx and African-American populations are concentrated and live in segregated neighborhoods;
- Maintaining a website with information translated into Spanish and Vietnamese;
- Maintaining bilingual staff: As of 2021, FHAM has three bilingual Spanish speakers who offer intake, counseling, education and outreach to monolingual Spanish speakers; in addition, they have one staff member who is bilingual in Mandarin and another in Portuguese;
- Maintaining a TTY/TDD line to assist in communication with clients who are deaf/hard of hearing. Offering translation services in other languages when needed;
- Conducting outreach and fair housing and pre-purchase presentations in English and Spanish;
- Collaborating with agencies providing services to all protected classes, providing fair housing education to staff and eliciting help to reach vulnerable populations – e.g. Legal Aid of Marin, the Asian Advocacy Project, Canal Alliance, ISOJI, MCIL, Sparkpoint, the District Attorney's Office, Office of Education, the Marin Housing Authority, and North Marin Community Services.

Local Trends

FHANC events are not for specific jurisdictions, rather they make an effort to reach underserved areas and protected classes. Pre-COVID FHANC did an average of 15-30 in person events, including fair housing trainings, presentations, conferences, pre-purchase workshops, foreclosure prevention workshops and forums. They were held all over the County, with the goal of reaching underserved communities including West Marin and Marin City. Post-COVID as of July 2022, the events are still being held virtually due to the uncertainty of COVID case numbers going down. If members of the protected classes do not have access to computers and/or the internet, FHANC makes every effort to have meetings in person. FHANC does not expect to change its programming, even during COVID they had 15-30 events a year.

Targeted outreach occurs when there are known violations in a geographic area. FHANC puts up posters, sends mailers and emails to people in the area advertising their services and sometimes has meetings to follow up. In addition, FHANC is constantly strategically planning who needs to be targeted for this work. They mainly use census data (block and tract) to find new and emerging populations of members of the protected classes to target. They work with CBOs in all of these geographic areas to make sure that the target audience is in attendance.

The outreach activities and capacities described in the Regional Trends section include the unincorporated County area, which represent about 43 percent of FHANC's geographic service area. According to FHANC's 2022/2024 CDBG Application to Marin County, FHANC stated it will undertake the following activities to Affirmatively Furthering Fair Housing:

- FHANC will maintain an accessible office where residents can come (once COVID restrictions are lifted and FHANC begins to provide services in person)
- FHANC will provide residents with materials on fair housing and equal opportunity, opportunities to participate in fair housing educational activities, and avenues to report or file complaints of suspected or perceived housing discrimination.
- FHANC will maintain its website and ensure that it details the advocacy, programs, complaint intake services, and counseling offered to residents by FHANC.
- FHANC will utilize its Spanish and Vietnamese language materials in the provision of all fair housing education/outreach services within the county and offer interpretative services to non-English speaking individuals who contact FHANC seeking assistance.
- FHANC will advertise, promote, and solicit responses from participants regarding
 the need for ASL and foreign language interpretation services in the provision of
 all fair housing education/outreach and enforcement services, and make ASL and
 foreign language interpretation services available at all events where prospective
 participants indicate a need for the interpretation services at least five days in
 advance of the event.
- FHANC will continue to implement its fair housing education and outreach program.
- FHANC will serve as an advocate and educational resource to local elected officials and municipal staff at all levels about the obligations of recipients of federal funds to affirmatively further fair housing.
- FHANC will make its staff available for guest speaker appearances on radio/television talk and feature programs, at conferences and workshops, when requested, and will disseminate fair housing literature through various methods as appropriate.
- FHANC will continue to monitor online housing advertisements and provide education and advocacy that discourages discriminatory advertising, statements, and practices in all forms.
- FHANC will counsel complainants who have encountered illegal discrimination about available options and provide assistance to complainants in filing administrative complaints as well as lawsuits, as appropriate FHANC will maintain its testing program in the County, conducting testing upon receiving complaints as appropriate and in audits for housing discrimination. FHANC will be an organizational complainant and initiate administrative complaints and/or lawsuits as appropriate, based upon evidence gathered from testing or other investigations.
- FHANC will be a proactive advocate for the effective enforcement and utilization of the federal Fair Housing Amendments Act, the California Fair Employment and Housing Act, and HUD Guidelines and Recommendations that exist to discourage and eliminate housing discrimination based on any protected class.
- FHANC will counsel homeowners and loan applicants who may have experienced lending discrimination in violation of the Fair Housing Amendments Act, and provide foreclosure prevention intervention services to residents at risk of

- foreclosure or who are facing the loss of their primary residence due to imminent foreclosure when appropriate, as resources allow.
- FHANC will provide pre-purchase counseling/education to homebuyers so they can better identify fair lending violations and avoid predatory loans, as resources allow.

According to FHANC, the above mentioned activities will help to overcome impediments to fair housing choice by safeguarding people in protected classes from discrimination in the housing market, increasing housing stability by fair housing advocacy and education for people from protected classes, and expanding housing options available to families by helping to ensure open, diverse, and equitable communities through continued outreach and enforcement.

Summary: Fair Housing Enforcement and Outreach Issues

Disability status is the most common basis for a complaint filed with FHANC, Marin's Fair Housing provider. Testing on the basis of disability in the County revealed that persons with disabilities are likely received less favorable treatment or be denied reasonable accommodation. Most importantly, testing revealed higher rates of discrimination on the basis on disability in properties with less than 11 units, indicating a need for increased fair housing education with "mom and pop" landowners.

The use of housing subsidies and HCV vouchers has recently become protected under California law though it has been protected in Marin County since 2016. Testing in Marin County has revealed discriminatory treatment for HCV holder, but higher rates for Latinx and Black HCV holders. Of note is the finding that landlords made exceptions of HCV holders for White residents in areas of high opportunity. This indicates a higher need for outreach education on Source of Income and Race in areas with high resources.

Overall, FHANC's testing has focused on disability status, race, and source of income, as disability status and race have the highest reporting rates and source of income has recently become protected. As such, fair housing outreach and education is imperative to ensure that those experiencing discrimination know when and how to seek help.

Integration and Segregation

Segregation is the separation of different demographic groups into different geographic locations or communities, meaning that groups are unevenly distributed across geographic space. ABAG/MTC¹³ and UC Merced prepared AFFH Segregation Report to assist Bay Area jurisdictions with the Assessment of Fair Housing section of the Housing Element.

¹³ Metropolitan Transportation Commission

Race/Ethnicity

According to ABAG/MTC's Segregation Report, segregation has resulted in vastly unequal access to public goods such as quality schools, neighborhood services and amenities, parks and playgrounds, clean air and water, and public safety¹⁴ This generational lack of access for many communities, particularly people of color and lower income residents, has often resulted in poor life outcomes, including lower educational attainment, higher morbidity rates, and higher mortality rates.¹⁵

To measure segregation in a given jurisdiction, the US Department of Housing and Urban Development (HUD) provides racial or ethnic dissimilarity trends. Dissimilarity indices are used to measure the evenness with which two groups (frequently defined on racial or ethnic characteristics) are distributed across the geographic units, such as block groups within a community. The index ranges from zero (o) 0 to 100, with zero (0) denoting no segregation and 100 indicating complete segregation between the two groups. The index score can be understood as the percentage of one of the two groups that would need to move to produce an even distribution of racial/ethnic groups within the specified area. For example, if an index score above 60, 60 percent of people in the specified area would need to move to eliminate segregation. The following shows how HUD views various levels of the index:

<40: Low Segregation

• 40-54: Moderate Segregation

>55: High Segregation

Regional Trends

Non-Hispanic Whites make up 71.2 percent of Marin County's population, a significantly larger share than in the Bay Area region, ¹⁷ where only 39 percent of the population is non-Hispanic White. The next largest racial/ethnic group in Marin County is Hispanic/Latino, making up 16 percent of the population, followed by Asian population (5.8 percent), and population of two or more races (3.8 percent) (Table D- 6). Black residents make up the fifth highest share of the population, with 2.1 percent of the County's residents identifying as African American/Black. Within the County, San Rafael has the most concentrated Hispanic population, where 31 percent of residents are Hispanic or Latino, while Belvedere has the smallest Hispanic population of only five percent (and inversely the largest White population of 92 percent). These trends differ from the Bay Area, where Asians make up the second largest share of the population (27 percent). While Asians

As explained above, dissimilarity indices measures segregation, with higher indices signifying higher segregation. The dissimilarity index at the jurisdiction level can be interpreted as the share of one group that would have to move to a different tract to create perfect integration for these two groups.

In Marin County, all minority (non-White) residents are considered moderately segregated from White residents, with an index score of 42.6 in 2020 (Table D- 7). Since 1990, segregation between non-White (all non-white residents combined) and White residents has increased. Dissimilarity indices between Black, Hispanic, Asian/Pacific Islander, and White residents have also increased since 1990, indicating that Marin County has become increasingly racially segregated. Based on HUD's definition of the index, Black and White residents are highly segregated and Hispanic and White residents are moderately segregated, while segregation between Asian/Pacific Islander and White residents is considered low.

<u>Table D- 7</u> : Dissimilarity Indices for Marin County (1990-2020)

The County is making efforts to reduce segregation patterns through its sites inventory. About 26 percent (940 units) of the County's sites inventory is located in tracts where minorities make up less than 20 percent of the population. These sites offer housing opportunities at various income levels, 452 are lower income, 218 are moderate income, and 270 are above moderate. This strategy reflects an effort to provide housing opportunities in areas with a low concentration of minorities to residents of all races and income levels.

According to the Othering and Belonging Institute located in Berkeley, CA, there were 3 counties in California that were more segregated in 2020 than they were in 2010 – Napa, Sonoma and Marin. And Marin County was the most segregated of all. While over 70% of White Marin residents own their homes, 71% of Latinx and 75% of African Americans rent. The high cost of housing, and its effects, are the main reasons why many people – particularly people of color move from Marin. Seniors, Latinx residents, African Americans, low-wage earners and families with children are the most financially burdened from the rising cost of housing and increasing rents are displacing residents to areas outside of Marin, which is further perpetuating racial segregation.

In California, based on the figures provided in the 2020 State AI, segregation levels between non-White and White populations were moderate in both entitlement and non-

entitlement areas¹⁸. However, segregation levels in non-entitlement areas are slightly higher with a value of 54.1, compared to 50.1 in entitlement areas. Segregation trends Statewide show an increase in segregation between non-White and White populations between 1990 and 2017 in both entitlement and non-entitlement areas. The 2020 State AI found that California's segregation levels have consistently been most severe between the Black and White populations, a trend paralleled trends in Marin County. Also, like Marin County, State trends show Asian or Pacific Islander and White residents are the least segregated when compared to other racial and ethnic groups, but levels are still increasing.

Figure D- 2 and Figure D- 3 below compare the concentration of minority populations in Marin County and the adjacent region by census block group¹⁹ in 2010 and 2018. Since 2010, concentrations of racial/ethnic minority groups have increased in most block groups regionwide. In Marin County, non-White populations are most concentrated along the eastern County boundary, specifically in North and Central Marin in the cities of San Rafael, Novato, and the unincorporated communities of Marin City. Red block groups indicate that over 81 percent of the population in the tract is non-White. While non-White populations appear to be increasing across the Marin region, these groups are generally concentrated within the areas described above. However, minorities are more highly concentrated in North, Central, and Southern Marin. Most of the block groups along the San Pablo Bay and San Francisco Bay shores in Solano, Contra Costa, Alameda, and San Francisco County have higher concentrations of minorities (over 61 percent) compared to North Bay counties (Marin, Sonoma, and Napa).

¹⁸ Entitlement Area means a unit of general Local Government that has been designated by HUD to receive an allocation of HOME funds.

¹⁹ Block groups (BGs) are the next level above census blocks in the geographic hierarchy (census blocks are the smallest geographic area for which the Bureau of the Census collects and tabulates decennial census data). A BG is a combination of census blocks that is a subdivision of a census tract or block numbering area (BNA). A county or its statistically equivalent entity contains either census tracts or BNAs; it cannot contain both. The BG is the smallest geographic entity for which the decennial census tabulates and publishes *sample* data.

Figure D- 2: Regional Racial/Ethnic Minority Concentrations by Block Group (2010)

Figure D- 3: Regional Racial/Ethnic Minority Concentrations by Block Group (2018)

Figure D- 4 shows census tracts in Marin County and the neighboring region by predominant racial or ethnic groups. The intensity of the color indicates the population percentage gap between the majority racial/ethnic group and the next largest racial/ethnic group. The higher the intensity of the color, the higher the percentage gap between the predominant racial/ethnic group and the next largest racial/ethnic group. The darkest color indicator for each race indicates that over 50 percent of the population in that tract is of a particular race/ethnicity. Gray indicates a White predominant tract, green indicates a Hispanic predominant tract, purple indicates an Asian predominant tract, and red indicates a Black predominant tract. There are only four tracts in the County with non-White predominant populations. Three tracts in Central Marin and one tract in Southern Marin have predominant non-White populations. Two tracts in San Rafael have Hispanic predominant populations (green), one of which has a Hispanic population exceeding 50 percent (90 percent, darkest green) and the other covers predominantly the prison. In Southern Marin, one tract in unincorporated Marin City has a Black majority population (41 percent, red). In all other tracts countywide, Whites are the predominant race (grey). By comparison, many census tracts in Solano, Contra Costa, Alameda and San Francisco county have predominant minority populations (shades of purple, green, and red).

Local Trends

In the unincorporated area, Marin City has the largest proportion of Hispanic residents (25 percent) significantly greater than in the unincorporated County (10 percent) and Marin County as a whole (16 percent) (<u>Table D-8</u>). All communities except Northern Coastal West Marin, the Valley, and Marinwood/Lucas Valley have a Hispanic population representing less than 10 percent of the total population.

<u>Table D-8</u> : Population by Race, Unincorporated Marin County Communities

Unincorporated Marin	0.3%	5.5%	3.0%	76.0%	5.0%	10.3%	68,252

Note: For the purposes of this table, the "Hispanic or Latinx" racial/ethnic group represents those who identify as having Hispanic/Latinx ethnicity and may also be members of any racial group. All other racial categories on this graph represent those who identify with that racial category and do not identify with Hispanic/Latinx ethnicity.

"Other race" refers to persons that identified as, "some other race" or "two or more races" but not Hispanic/Latinx Source: American Community Survey 5-Year Data (2015-2019), Table B03002.

Marin City, a historic African American enclave, is also home to the County's largest Black/African American population, (with the exception of San Quentin State Prison), at 22 percent, considerably higher than any other community in Marin County. Marin City was founded in 1942 as part of the wartime ship building efforts of World War II. In the early 1940s, many African American's migrated from the South for better wages and more consistent work. Over time federal and local policies prevented people of color, particularly the Black population of Marin City, from moving out. This included low interest rate loans offered to white families only. Additionally, restrictive covenants were an effective way to segregate neighborhoods and beginning in 1934, the Federal Housing

Authority recommended the inclusion of restrictive covenants in the deeds of homes it insured_because of its belief that mixed-race neighborhoods lowered property values. These racially restrictive covenants made it illegal for African Americans to purchase, lease or rent homes in many white communities. Restrictive covenants were placed in most communities in Marin County, making it impossible for people of color to become homeowners. Restrictive covenants are no longer enforceable.

Today, Marin City has a sizable African American and low-income population, compared to surrounding communities, which are mostly affluent and white. The median income in Marin City is \$65,958, with nearly 30 percent of residents living below the poverty line. The Marin City community has experienced significant gentrification pressures and displacement of lower-income Black/African American residents. An important trend not pictured in Figure D- 3 is that Marin City is experiencing significant declines in its African American population – in 2010, the community was about 40 percent and declined to 22 percent as of 2019, leading to concerns of displacement and gentrification. Gentrification and displacement is discussed at greater length in the Displacement Risk section in page 127.

Minority communities also have the greatest need for rental assistance in the unincorporated County. In 2021, Hispanic/Latinx populations represent about 16 percent of the County population, but 34 percent of Rental Assistance requests, while Black/African American residents represent about two percent of the County population, but 8.5 percent of Rental Assistance requests.

<u>Figure D- 5</u> below shows that minority populations are focused along in North, Central, and Southern Marin. While the majority of block groups have a minority population of less than 20 percent, there are some block groups in Santa Venetia where minority population ranges from 21 to 60 percent. Meanwhile in Marin City, one block group has 74 percent minority population while the other block group within Marin City's boundaries has a minority population of 21 percent.

While there is no Dissimilarity Index data for the unincorporated County communities, the increasing segregation trends detected in the County (Table D- 7) also apply to the unincorporated communities. In the focus groups convened for the housing process, the County heard anecdotal evidence that Black and Asian residents in Corte Madera and Mill Valley did not feel welcome in many stores in the area. Mill Valley and Corte Madera are incorporated cities sin the County with a very small minority population. Thus it is likely that minority populations are concentrating in areas where there is already a minority concentration due to the sense of community in those areas. This means integration will pose greater challenges than just providing affordable housing in areas without a concentration of minorities.

Figure D- 5: Racial Demographics in the Unincorporated County (2018)

Marin's Native American Population

While Unincorporated Marin County's Native American population is less than one percent, the Native American population has roots in Marin County as its native inhabitants. According to U.S. Department of Interior, the Coast Miwok first settled the Tomales Bay area between 2,000 and 4,00 years ago. ²⁰ Evidence of villages and smaller settlements along the Bay are concentrated within Point Reyes National Seashore. The Coast Miwok are believed to have located their settlements on coves along the bay and to live a semisedentary lifestyle. The Tomales Bay area and other areas in what is now Marin County was changed dramatically by the Spanish colonization and Missionaries. In the late 1700s, Coast Miwok were interned in four San Francisco Bay area missions and by the end of the Spanish occupation, Coast Miwok population had fallen from 3,000 to between 300 and 500.

Coast Miwoks were further excluded from their land during the Mexican California and Ranching Era in Marin County (1821-1848). During this time, "the Mexican government transformed Coast Miwok land into private property, and all the land surrounding Tomales Bay had been granted to Mexican citizens."21 The Coast Miwok were forced into the Mexican economy as ranch laborers and cooks and maids.

In 1848s, Tomales Bay changed hands to the United States through the Treaty of Guadalupe Hidalgo and underwent a radical transformation as san Francisco became a metropolitan center. While the treaty "guaranteed certain rights to California Indians... the Coast Miwok were increasingly marginalized under American rule."22 The government did not make any treaties with the Coast Miwok nor did they set aside a reservation for the group, probably due to the small number of survivors. There was an estimated only 218 Coast Miwoks in Marin County by 1852. The 1870 census only listed 32 Indians in Point Reyes and Tomales Townships and by 1920, only five remained.

In 1920, after the Lipps-Michaels Survey of Landless Indians (a congressional study) concluded that Native Americans in Marin and Sonoma County deserved their own reservation, the Bureau of Indian Affairs was unable to find land in the Tomales Bay for the Coast Miwok. According to the U.S. Department of the Interior "property owners were unwilling to sell land for an Indian reservation" and the government ended up purchasing a 15.5 acre parcel near Graton in Sonoma County- far from tadeonal Coast Miwok land. Some Coast Miwok moved to the site but the sites proved to be too small, steep, and lacked water and funds to build housing. Eventually the Coast Miwoks left the land as a community center and continued to pursue work elsewhere as farm workers or house keepers.

The Coast Miwok community also had ancestral land in Nicasio, Olompali, San Rafael, Corte Madera, Mill Valley, Strawberry, Tiburon, Angle Island, San Geronimo, Fairfax,

²² Avery (2009). P. 62

Belvedere, Sausalito, Larkspur, Marin City, Novato areas.²³ In fact, Marin County's namesake comes from Chief Marin, a Miwok leader whose name was Huicmuse but was later given the name Marino by missionaries after he was baptized at Mission Dolores in 180.²⁴ San Geronimo is also rumored to be named after another Coast Miwok leader.²⁵ The San Geronimo Valley Historical Association reports that Coast Miwoks have thousands of years of history in the San Geronimo. Southern Popo people are also known to have inhabited Marin before colonization. Colonization and private property systems excluded the Coast Miwoks from home/land ownership and left them with limited choices to make a living.

In the 1990s, Coast Miwok descendants began to lobby for federal recognition as a tribe and in 1997, they were granted official status as the Federated Indians of Graton Rancheria- which in 2009 included 1,000 members of Coast Miwok and Southern Pomo descent. The group remined landless at the turn of the 21st century.

Today, Native American communities are represented Federated Indian of Graton Rancheria as well as by active organizations such as the Coast Miwok Tribal Council of Marin- a core group of lineal Marin Coast Miwok descendants and the Marin American Indian Alliance - longstanding Marin County 501c3 non-profit organization connecting American Indians living in Marin and the San Francisco Bay Area at large.

Persons with Disabilities

Persons with disabilities²⁶ have special housing needs and often higher health care costs associated with their disability. This general lack of accessible and affordable housing in Marin County makes the housing search even more difficult. In addition, many may be on fixed incomes that further limit their housing options. Persons with disabilities also tend to be more susceptible to housing discrimination due to their disability status and required accommodations associated with their disability.

Regional Trends

Marin County's population with a disability is similar to that in the Bay Area. As presented in <u>Table D-9</u> in Marin County, 9.1 percent of the population has a disability, compared to

9.6 percent in the Bay Area. Black or African American, American Indian and Alaska Native, and non-Hispanic White populations experience disabilities at the highest rates in both the Bay Area and the County (16 percent, 18 percent, and 11 percent in the Bay Area and 15 percent, 12 percent, and 10 percent in Marin County, respectively). Nearly 37 percent of Marin County's population aged 75 and older and 14.6 percent aged 65 to 74 has one or more disability, lower shares than in the Bay Area. Ambulatory and independent living difficulties are the most common disability type in the County and Bay Area.

^{1.} The "Bay Area" data covers the members of the Association of Bay Area Governments (ABAG) which are the counties of: Alameda, Contra Costa, Marin, Napa, San Francisco, San Mateo, Santa Clara, Solano, and Sonoma. Sources: American Community Survey, 2015-2019 (5-Year Estimates).

According to the 2015-2019 ACS, populations of persons with disabilities in Marin County cities are generally consistent, ranging from 7.2 percent in Ross to 10 percent in Novato. Figure D- 6 shows that less than 20 percent of the population in all tracts in the County

has a disability. Persons with disabilities are generally not concentrated in one area in the region. Figure D-6 also shows that only a few census tracts in the region have a population with a disability higher than 20 percent. However, multiple census tracts with a population with disabilities between 15 and 20 percent are concentrated along San Pablo Bay and San Francisco Bay in Napa, Contra Costa, and Contra Costa Valley.

Local Trends

The unincorporated County's population with a disability is similar to that of the County and Bay Area. According to 2019 ACS data, approximately 9.2 percent of the unincorporated County's population has a disability of some kind, compared to 9.1 percent and 9.6 percent of Marin County and the Bay Area's population. Table D- 10 shows the rates at which different disabilities are present among residents of unincorporated Marin County and its community areas. Among the unincorporated County communities, the Valley, Marinwood/Lucas Valley, Santa Venetia/Los Ranchitos, and Marin City have a higher proportion of persons with a disability than the unincorporated County. However, across all communities, ambulatory difficulties are the most prominent.

Table D- 10: Persons with Disabilities by Disability Type

Persons with developmental disabilities²⁷ also have specific housing needs and the increased risk of housing insecurity after an aging parent or family member is no longer

D-38 Marin Countywide Plan

²⁷ Senate Bill 812, which took effect January 2011, requires housing elements to include an analysis of the special housing needs of the developmentally disabled in accordance with Government Code Section 65583(e). Developmental disabilities are defined as severe, chronic, and attributed to a mental or physical impairment that begins before a person turns 18 years old.

able to care for them. The total number of persons served in unincorporated County communities cannot be estimated because the Department of Developmental Services does not give exact number of consumers when fewer than 11 persons are served (Table II- 38). However, based on the September 2020 Quarterly Consumer Reports, the communities of Marinwood/Lucas Valley, Santa Venetia/Los Ranchitos, and Black-Point Greenpoint have the greater population of persons with developmental disabilities. Figure D-7 shows this concentration of persons with disabilities in Central Coastal West Marin, the Valley, Lucas Valley and Marin City. About 10 to 20 percent of the population in these census tracts have a disability.

Figure D- 7: Persons with Disabilities- Unincorporated Communities

Familial Status

Under the Fair Housing Act, housing providers may not discriminate because of familial status. Familial status covers: the presence of children under the age of 18, pregnant persons, any person in the process of securing legal custody of a minor child (including adoptive or foster parents). Examples of familial status discrimination include refusing to rent to families with children, evicting families once a child joins the family through, e.g., birth, adoption, custody, or requiring families with children to live on specific floors or in specific buildings or areas. Single parent households are also protected by fair housing law.

Local Trends

Within the unincorporated County, Marin City has the highest percentage of female-headed households (42 percent of all households are female-headed households) and female-headed households with children (11 percent) (Table D- 11). Marin City also has the highest poverty rates compared to all community areas and the unincorporated County; about 16 percent of all family households are living below the federal poverty line. Female-headed households also have higher rates of poverty (11 percent) in Marin City compared to other community areas. About six percent of all households in the Marin City are female-headed family household with children living below the poverty line.

<u>Table D- 11:</u> Female-Headed Households (FHH) - Unincorporated County Communities

Marin City	1,377	42.0%	10.5%	698	16.3%	10.5%	6.3%
Unincorporated	25,850	26.1%	3.1%	17,061	2.8%	0.9%	0.6%
FHH = Female-Headed Households Source: American Community Survey, 5-Year Estimates 2015-2019, Tables DP02 and B17012.							

This concentration of female-headed households is reflected in <u>Table D- 11</u> which shows that between 40 and 60 percent of children in that tract live in single female-headed households. Additionally, the Southern Coastal West Marin census tracts (Stinson Beach and Bolinas CDPs) also have the highest concentration of children in single female-headed households (40 to 60 percent), although these families only account for 1.2 percent of households in the community.

Regional Trends

According to the 2019 ACS, there are slightly fewer households with children in Marin County than the Bay Area. About 27 percent of households in Marin County have children under the age of 18, with 21 percent married-couple households with children and six percent single-parent households (Figure D- 8). In the Bay Area, about 32 percent of households have children and as in the County, the majority of households with children are married-couple households. Within Marin County, the cities of Belvedere, Corte Madera, and Ross have the highest percentage of households with children (36 percent, 37 percent, and 41 percent, respectively). Corte Madera and San Rafael have concentrations of single-parent households exceeding the countywide average. Figure D-9 shows the distribution of children in married households and single female headed households in the region. Census tracts with high concentrations of children living in married couple households are not concentrated in one area of Marin County. Most census tracts have over 60 percent of children living in married-persons households. Regionally, children in married-person households are more common in inland census tracts (away from the bay areas). The inverse trend is seen for children living in singleparent female-headed households, is shown in Figure D- 10. In most tracts countywide, less than 20 percent of children live in female-headed households. Between 20 and 40 percent of children live in female-headed households in two tracts: one in Southern Marin in the unincorporated community of Marin City and one in West Marin near the unincorporated community of Bolinas. Regionally, tracts with a higher percentage of children in married-persons households are found along the San Pablo and San Francisco bays.

Figure D- 9: Regional Percent of Children in Married Couple Households by Tract (2019)

Income Level

Household income is the most important factor determining a household's ability to balance housing costs with other basic life necessities. A stable income is the means by which most individuals and families finance current consumption and make provision for the future through saving and investment. The level of cash income can be used as an indicator of the standard of living for most of the population.

Households with lower incomes are limited in their ability to balance housing costs with other needs and often the ability to find housing of adequate size. While economic factors that affect a household's housing choice are not a fair housing issue per se, the relationships among household income, household type, race/ethnicity, and other factors often create misconceptions and biases that raise fair housing concerns.

For purposes of most housing and community development activities, HUD has established the four income categories based on the Area Median Income (AMI) for the Metropolitan Statistical Area (MSA). HUD income definitions differ from the State of California income definitions. Table D- 12 compares the HUD and State income categories. HUD defines a Low and Moderate Income (LMI) area as a census tract or block group where over 51 percent of the households earn extremely low, low, or moderate incomes (<81 percent AMI). This means LMI areas (<81 percent AMI) as defined by HUD, are lower income areas (extremely low, very low, and low), as defined by HCD. These terms may be used interchangeably.

<u>Table D- 12</u> : Income Category Definitions					
HCD Defini	tion	HDD Definition			
Extremely Low	0%-30% of AMI	Extremely Low	0%-30% of AMI		
Very Low	31%-50% of AMI	Low	31%-50% of AMI		
Low Income	51%-80% of AMI	Moderate	51%-80% of AMI		
Moderate income	81-120% of AMI	Middle/Upper	> 81% of AMI		
Above Moderate Income	>120% of AMI				

Income groups are based on HUD calculations for Area Median Income (AMI). HUD calculates the AMI for different metropolitan areas and uses San Francisco Metro Area (Marin, San Francisco, and San Mateo Counties) for Marin County.

Regional Trends

According to Comprehensive Housing Affordability Strategy (CHAS)²⁸ data based on the 2017 ACS, 40.5 percent of Marin County households earning 80 percent or less than the area median income (AMI) and are considered lower income (<u>Table D- 13Table D- 13:</u>). A significantly larger proportion of renter households in Marin County are lower income.

²⁸ Each year, the U.S. Department of Housing and Urban Development (HUD) receives custom tabulations of American Community Survey (ACS) data from the U.S. Census Bureau. These data, known as the "CHAS" data (Comprehensive Housing Affordability Strategy), demonstrate the extent of housing problems and housing needs, particularly for low income households.

Nearly 60 percent of renter households are considered lower income compared to only 29.8 percent of owner households. Figure D- 11 shows that lower income populations (LMI areas²⁹) are most concentrated in tracts in West Marin, North Marin (Novato), Central Marin (San Rafael), and the unincorporated communities of Marin City and Santa Venetia. Comparison to the Bay Area is not available as the ABAG Data Package does not provide CHAS data for the region as a whole.

²⁹ LMI refers to an AREA where 51 percent or more of the households are earn low and moderate incomes (based on HUD definition) or lower incomes (based on HCD definition).

Income Category	Owner	Renter	Total
0%-30% of AMI	8.7%	26.0%	14.9%
31%-50% of AMI	8.5%	16.0%	11.2%
51%-80% of AMI	12.6%	17.6%	14.4%
81%-100% of AMI	8.4%	10.0%	8.9%
Greater than 100% of AMI	61.8%	30.4%	50.5%
Total	67,295	37,550	104,845

^{1.} Income groups are based on HUD calculations for Area Median Income (AMI). HUD calculates the AMI for different metropolitan areas and uses San Francisco Metro Area (Marin, San Francisco, and San Mateo Counties) for Marin County.

Sources: ABAG/MTC Housing Needs Data Workbook, 2021; HUD CHAS (based on 2013-2017 ACS), 2020.

Local Trends

For the unincorporated communities, Figure D- 12 illustrates many unincorporated communities have a higher percentage of LMI/lower income households than the entire unincorporated County (38 percent) and Marin County (41 percent). The communities of Central Coastal West Marin and Marin City have the highest percentages of LMI households (62 and 71 percent, respectively. In addition, both Central Coast West Marin and Marin City have the highest percent of extremely low income households (29 percent and 40 percent, respectively).

The concentration of lower income population in central and northwestern Marin coincides with the Inland-Rural Corridor. The Inland-Rural Corridor is designated primarily for agriculture and compatible uses, as well as for preservation of existing small communities. While less than 2 percent of Marin County's population lives in the Inland Rural Corridor, between 75 percent and 100 percent of that population is considered lower income (Figure D- 11). The population in this area also likely works in the agriculture industry, which has low paying wages. According to the Quarterly Census of Employment and Wages (QCEW) for the third quarter in 2021, average weekly pay for Agriculture, Forestry, Fishing & Hunting industries was \$813 (with Cattle Ranching and Farming having even lower weekly incomes. Based on those averages, farmworkers in Marin County earn less than \$43,000 per year, meaning they earn less than 30 percent the 2021 Area Median Income of \$149,600, and are thus considered extremely low income.

In addition to earning extremely low incomes, farmworker populations are physically and linguistically isolated from County processes. Based on comments from Public outreach, linguistic barriers and fear due to being undocumented makes it hard to reach this population. County staff is working on bridging this gap by convening the Agricultural Worker Housing Collaborative, including the Marin Community Foundation, the Community Land Trust of West Marin, Marin Agricultural Land Trust, UC Cooperative Extension, West Marin Community Services, local ranchers, and ranch workers to address the needs of agricultural worker housing. The Agricultural Worker Housing Collaborative is expanding to include agricultural workers and their families, as well as representatives of the Park Service. The collaborative will continue its work to expand housing choices and quality of housing for agricultural workers and their families.

Figure D- 12: Percent Low and Moderate Income (LMI) Households: Unincorporated County

<u>Figure D- 13</u> shows LMI population concentration at a smaller scale- by block group. A Marin City block group has the highest concentration of LMI population, with over 75 percent of the population earning low incomes. Block groups adjacent to Marin City as well as in Santa Venetia and the Valley and Central Coastal West Marin (Point Reyes and Inverness) also have a high concentration of LMI persons. In these block groups between 50 and 75 percent of the population is LMI. Again, the concentration of LMI persons in West Marin likely reflects the extremely low income farmworker population in the area.

As explained earlier, a concentration in northern West Marin is likely due to the farmworker population in the area. Meanwhile, Marin City also has a concentration of African American population, minority populations, and lower income persons. It is important to note that Marin City has one of the largest concentration of public housing in the County. Since tenants in public housing are required to have lower incomes, analysis of concentration by income level reflects this concentration of lower income households.

ABAG/MTC's Segregation report provided an analysis of income segregation in the incorporated County based on isolation indices and dissimilarity indices. The isolation index values for all income groups in Unincorporated Marin County for the years 2010 and 2015 in <u>Table D- 14</u> show Above Moderate income residents are the most isolated income group in Unincorporated Marin County. Unincorporated Marin County's isolation index of 51.0 for these residents means that the average Above Moderate income resident in Unincorporated Marin County lives in a neighborhood that is 51.0% Above Moderate income. Among all income groups, the Very Low income population's isolation index has changed the most over time, becoming more segregated from other income groups between 2010 and 2015.

<u>Table D- 14:</u> Income Group Isolation Index Values for Segregation within Unincorporated Marin County

Income Category	2010	2015
Very Low Income (< 50% of AMI)	26.9	35.8
Low Income (50%-80% of AMI)	16.5	14.2
Moderate Income (80%-120% of AMI)	17.8	20.7
Above Moderate (>120% AMI)	54.0	51.0

Data for 2015 is from U.S. Department of Housing and Urban Development, American Community Survey 5-Year 2011-2015 Low- and Moderate-Income Summary Data. Data for 2010 is from U.S. Department of Housing and Urban Development, American Community Survey 5-Year 2006-2010 Low- and Moderate-Income Summary Data.

Sources: ABAG/MTC Segregation Report

Table D- 15Table D- 15: below provides the dissimilarity index values indicating the level of segregation in Unincorporated Marin County between residents who are lower-income (earning less than 80 percent of AMI) and those who are not lower-income (earning above 80 percent of AMI). This data aligns with the requirements described in HCD's AFFH Guidance Memo for identifying dissimilarity for lower-income households. Segregation in Unincorporated Marin County between lower-income residents and residents who are not lower-income has not substantively changed between 2010 and 2015. Additionally, Table D- 15 shows dissimilarity index values for the level of segregation between residents who are very low-income (earning less than 50 percent of AMI) and those who are above moderate-income (earning above 120 percent of AMI). This supplementary data point provides additional nuance to an analysis of income segregation, as this index value indicates the extent to which a jurisdiction's lowest and highest income residents live in separate neighborhoods.

<u>Table D- 15:</u> Income Group Dissimilarity Index Values for Segregation within Unincorporated Marin County

Income Category	2010	2015
Below 80% AMI vs. Above 80% AMI	29.9	29.5
Below 50% AMI vs. Above 120% AMI	38.4	40.2

Data for 2015 is from U.S. Department of Housing and Urban Development, American Community Survey 5-Year 2011-2015 Low- and Moderate-Income Summary Data. Housing Choice Vouchers (HCV)

An analysis of the trends in HCV concentration can be useful in examining the success of the program in improving the living conditions and quality of life of its holders. The HCV program aims to encourage participants to avoid high-poverty neighborhoods and promote the recruitment of landlords with rental properties in low poverty neighborhoods. HCV programs are managed by Public Housing Agencies (PHAs), and the programs assessment structure (SEMAPS) includes an "expanding housing opportunities" indicator that shows whether the PHA has adopted and implemented a written policy to encourage participation by owners of units located outside areas of poverty or minority concentration³⁰. The County of Marin funds Marin Housing Authority's Landlord Partnership Program, which aims to expand rental opportunities for families holding housing choice vouchers by making landlord participation in the program more attractive and feasible, and by making the entire program more streamlined. The program also includes a requirement to include affirmative marketing.

A study prepared by HUD's Development Office of Policy Development and Research found a positive association between the HCV share of occupied housing and neighborhood poverty concentration and a negative association between rent and neighborhood poverty³¹. This means that HCV use was concentrated in areas of high poverty where rents tend to be lower. In areas where these patterns occur, the program has not succeeded in moving holders out of areas of poverty.

Regional Trends

As of December 2020, 2,100 Marin County households received HCV assistance from the Housing Authority of the County of Marin (MHA). The map in Figure D- 14 shows that HCV use is concentrated in tracts in North Marin (Hamilton and the intersection of Novato Boulevard and Indian Valley Road). In these tracts, between 15 and 30 percent of the renter households are HCV holders. In most Central Marin tracts and some Southern

Marin tracts (which are more densely populated), between five and 15 percent of renters are HCV recipients. The correlation between low rents and a high concentration of HCV holders holds true in North Marin tracts where HCV use is the highest (<u>Figure D- 15</u>). Overall, patterns throughout most Marin County communities also show that where rents are lower, HCV use is higher.

Figure D- 14: Regional HCV Concentration by Tract

Figure D- 15: Regional Median Gross Rent/Affordability Index by Tract

Local Trends

Within the unincorporated County, the Lucas Valley-Marinwood and Marin City communities have the highest concentration of HCV use; between five and 15 percent of renters in those tracts are HCV users. Low gross rents (i.e. location affordability index) also coincide with high HCV use in both Marin City (<\$1,500) and in Lucas Valley-Marinwood (<(<\$2,000). As explained in the Regional Trends

According to the 2019 ACS, there are slightly fewer households with children in Marin County than the Bay Area. About 27 percent of households in Marin County have children under the age of 18, with 21 percent married-couple households with children and six percent single-parent households (Figure D- 8). In the Bay Area, about 32 percent of households have children and as in the County, the majority of households with children are married-couple households. Within Marin County, the cities of Belvedere, Corte Madera, and Ross have the highest percentage of households with children (36 percent, 37 percent, and 41 percent, respectively). Corte Madera and San Rafael have concentrations of single-parent households exceeding the countywide average. Figure D-9 shows the distribution of children in married households and single female headed households in the region. Census tracts with high concentrations of children living in married couple households are not concentrated in one area of Marin County. Most census tracts have over 60 percent of children living in married-persons households. Regionally, children in married-person households are more common in inland census tracts (away from the bay areas). The inverse trend is seen for children living in singleparent female-headed households, is shown in Figure D- 10. In most tracts countywide, less than 20 percent of children live in female-headed households. Between 20 and 40 percent of children live in female-headed households in two tracts: one in Southern Marin in the unincorporated community of Marin City and one in West Marin near the unincorporated community of Bolinas. Regionally, tracts with a higher percentage of children in married-persons households are found along the San Pablo and San Francisco bays.

Figure D- 9: Regional Percent of Children in Married Couple Households by Tract (2019)

Income Level section of this analysis, Marin City also has a concentration of lower income persons due to the affordability of the areas as well as the concentration of public housing. In addition, Marin City is high concentration of multi-family housing, condos, and townhomes that offer one of the least expensive housing costs in the area, especially compared to surrounding communities of Mill Valley and Tam Valley, where gross rents are over \$3,000 (compared to <1,500 in Marin City, Figure D- 15).

MHA has focused on insuring voucher recipients have access to housing in all parts of the County. Prior to the 2020 enactment of SB 329 Housing Opportunities Act of 2019, the State's law on housing discrimination based on source of income (California Government Code Section 12927) did not protect individuals or families with third party rental subsidies.

In addition, the MHA implements the Landlord Partnership Program³² to expand rental opportunities for families holding housing choice vouchers by making landlord participation in the program more attractive and feasible, and by making the entire program more streamlined. Incentives include security deposit, loss mitigation, vacancy loss, building and planning permit fees waived, and access to a dedicated landlord liaison 24-hour hotline to address immediate issues as well as landlord workshops and training.

Summary: Integration and Segregation

Most communities in unincorporated Marin are predominantly white. However, protected groups appear to be segregated in the unincorporated community of Marin City. Marin City has the highest concentration of Black/African American and Hispanic/Latinx residents compared to other unincorporated communities. In addition, Marin City was identified as R/ECAP (see following section), indicating a concentration of minority population³³ and poverty. Marin City also has the highest concentration of persons with disabilities and single-female headed households with children compared to other unincorporated communities. This indicates a concentration of special needs populations within Marin City. Marin City is also dealing with a confluence of economic pressures (proximity to the Bay area, lower rents, multi-family and townhome/condo housing stock), which make it vulnerable to displacement. Integration efforts need to balance displacement pressures with preserving the existing resident population.

Racially and Ethnically Concentrated Areas of Poverty (R/ECAP)

In an effort to identify racially/ethnically-concentrated areas of poverty (R/ECAPs), HUD has identified census tracts with a majority non-White population (greater than 50 percent) and a poverty rate that exceeds 40 percent or is three times the average tract poverty rate for the metro/micro area, whichever threshold is lower.

³³ Persons who are not non-Hispanic White

Regional Trends

The Othering and Belonging Institute at UC Berkley has published a report34 on Racial Segregation in the Bay Area and found that each of the nine counties as well as the two major "Metropolitan Statistical Areas" (MSAs) is marked by high levels of racial segregation. Most of the traditionally recognized "segregated neighborhoods," where people of color were historically restricted on account of redlining and other forms of housing discrimination, are typically found within the larger, broadly diverse municipalities such as San Francisco, Oakland, San Jose, and mid-sized cities such as Berkeley and Richmond. The displacement of many people of color from these communities and the corresponding in-migration of white families over the last twenty years has diversified the municipal populations in these cities, but has not always resulted in more integrated neighborhoods. Thus, although these cities are diverse in aggregate, they tend to contain some of the most racially segregated non-white neighborhoods in the Bay Area. The Institute also reported that the effects of racial segregation include negative life outcomes for all people in those communities, including rates of poverty, income, educational attainment, home values, and health outcomes.

They concluded that, "the most segregated cities in the Bay Area are those that are either historically places where people of color were permitted to live, when locked out of other places, or are highly exclusionary and heavily white mid-sized to smaller suburbs, exurbs or rural cities and towns in places like Marin and San Mateo counties." The section below expands on Racially Concentrated Areas of Affluence.

R/ECAPs in the Bay area are mostly concentrated in metropolitan areas- specifically in San Francisco, San Jose, and Oakland. There is one R/ECAP in Southern Marin located in Marin City west of State Highway 101 (Figure D- 16). Marin City is part of the unincorporated County area.

Local Trends

As shown in <u>Table D- 8</u>, the Marin City tract is characterized by a concentration of African American residents. Approximately 22 percent of Marin City's residents are African American- significantly higher than the County's and unincorporated County's African American population (two percent and three percent, respectively). Marin City residents also earn lower median incomes (less than \$55,000) (<u>Figure D- 18</u>: <u>Regional Median Income by Block Group (2019)Figure D- 18</u>) especially compared to neighboring jurisdictions where median incomes are higher than \$125,000. Marin City, where Marin County's only family public housing is located, also has the highest share of extremely low-income households in the County; about 40 percent of households earn less than 30 percent the Area Median Income, whereas only 14 percent of unincorporated County households are considered extremely low income.

The concentration of African American residents in Marin City is due to historic policies barred African American residents of Marin City from accessing housing in places with

^{34 &}lt;a href="https://belonging.berkeley.edu/segregationinthebay">https://belonging.berkeley.edu/segregationinthebay

greater opportunities. Discriminatory policies like redlining, restrictive covenants, and exclusionary zoning promoted racial segregation – entrenching racial disparities in access to well-resourced neighborhoods. Marin City is considered a community vulnerable to displacement (see Displacement Risk section) due to increased housing costs as well interest in redevelopment and the continued pressures of being surrounded by affluent neighbors in one of the most exclusive counties in the country.

The County's zoning patterns have contributed to these areas of concentration. A significant number of properties across all seven Countywide Plan Planning Areas are designated within a zoning district intended for low density, single-unit uses. This is due in part to the early applications of low-density zoning and the constrained physical conditions that present a fundamental impediment to increased subdivision potential or density. Additionally, as noted in the 2020 Marin County Analysis of Impediments to Fair Housing Choice, these zoning practices have also determined the type of housing within communities and who it is available to, where "exclusionary zoning practices, including those that limit where, how, or if affordable housing can be developed, can result in creating and maintaining segregated communities". Marin City has a disproportionately higher percentage of multi-unit zoned parcels within its community, representing 64 percent of all parcels, in contrast with 10 percent of parcels zoned multi-unit in the unincorporated regions of the County as a whole.

Racially Concentrated Areas of Affluence (RCAAs)

While racially concentrated areas of poverty and segregation (R/ECAPs) have long been the focus of fair housing policies, racially concentrated areas of affluence (RCAAs) must also be analyzed to ensure housing is integrated - a key to fair housing choice. Identifying RCAAs is also important for underserved populations to be able to participate in resources available to populations living in areas of influence. According to a policy paper published by HUD, RCAAs are defined as communities with a large proportion of affluent and non-Hispanic White residents. According to HUD's policy paper, non-Hispanic Whites are the most racially segregated group in the United States. In the same way neighborhood disadvantage is associated with concentrated poverty and high concentrations of people of color, conversely, distinct advantages are associated with residence in affluent, non-Hispanic White communities.

This analysis relies on the definition curated by the scholars at the University of Minnesota Humphrey School of Public Affairs cited in HCD's memo: "RCAAs are defined as census tracts where 1) 80 percent or more of the population is white, and 2) the median household income is \$125,000 or greater (slightly more than double the national median household income in 2016) as well as the RCAA maps available through HCD's AFFH Data Viewer Tool

Regional Trends

According to ABAG/MTC's Segregation Report, across the San Francisco Bay Area, white residents and above moderate-income residents are significantly more segregated from other racial and income groups. Figure D- 3 and Figure D- 4 shows the concentration of minority/non-White population and majority populations across the region. In Figure D- 3, census tracts in yellow have less than 20 percent non-white population, indicating over 80 percent of the population is white. There are a number of tracts with over 80 percent non-Hispanic White population located throughout the County, especially in Southern Marin, parts of Central Marin, coastal North Marin, and central West Marin. The cities of Belvedere, Mill Valley, Fairfax, Ross, and some areas of San Rafael and Novato are also predominantly white. However, of all these predominantly white areas (incorporated jurisdictions and unincorporated communities), only Belvedere, the San Geronimo Valley, Tam Valley, Black Point- Green Point and the eastern tracts of Novato are census tracts with a median income over \$125,000 (Figure D- 18). Although not all census tracts have the exact relationship of over 80 percent White and median income over \$125,000 to qualify as "RCAAs," throughout the County tracts with higher White population tend to have greater median incomes.

Figure D- 18: Regional Median Income by Block Group (2019)

Local Trends

Within the Unincorporated County, all of the West Marin communities, Black Point- Green Point in North Marin, and Greenbrae in Central Marin have a white population over 80 percent (Table D- 5), though these concentrations are not represented in Figure D- 5, perhaps due to differences in geographical unit (block group versus the entire community). Median incomes exceeding \$125,000 overlap with Muir Beach in West Marin and the Tamalpais-Homestead CDP in Southern Marin, making them the potential RCAAs in the unincorporated County (Figure D- 18). Of note is that Tamalpais- Homestead CDP is adjacent to Marin City, which was identified as a racially and ethnically concentrated area of poverty (R/ECAP).

On July 8, 2022, HCD released a map illustrating census tracts designated as RCAAS, in addition to an updated data methodology. A census tract is designated an RCAA if its proportions of non-Hispanic White residents and households earning above the region's area median income are overrepresented. The map in Figure D- 19 illustrates that a majority of Marin communities are designated as RCAAs, including many parts of unincorporated Marin such as Black Point-Green Point, Marinwood/Lucas Valley, Kentfield and Tam Valley. While areas of West Marin are not designated as RCAAs under this methodology, many of the census tracts in these communities follow similar trends for the data factors involved. For example, West Marin census tracts range from having a proportion of 81.2 percent (Northern Coastal West Marin) to 89.6 percent (Central Coastal West Marin) non-Hispanic White residents, as opposed to 40% in the overall Bay Area region. The census tracts are excluded from this designation due to lower reported median income than the region. The tracts range from \$85,903 in Southern Coastal West Marin to \$97,321 in the Valley, as opposed to \$113,597 in the Bay Area and \$115,246 in Marin County.

A contributing factor to these areas is a large proportion of the County's residentially zoned areas allow only single-unit development (and associated Accessory Dwelling Units). Only eleven percent of the parcels in the County are zoned with a zoning district intended for multi-unit housing, a pattern that prevents the wide-scale availability of multi-unit rental housing. Furthermore, the predominant land use patterns in the unincorporated county characterized by protected agricultural and park lands and single-unit zoning have limited the parcels available for a variety of multi-unit housing. Additionally, as noted in the 2020 Marin County Analysis of Impediments to Fair Housing Choice, these zoning practices have also determined the type of housing within communities and who it is available to, where "exclusionary zoning practices, including those that limit where, how, or if affordable housing can be developed, can result in creating and maintaining segregated communities".

The racial disparities within Marin and between Marin and other Bay Area counties are stark. While it may be difficult to find conclusive evidence that increasing rental housing will increase racial diversity, there are correlations between the percentage of multi-unit zoned properties in an area, the percentage of housing units that are renter-occupied, and the racial diversity of that area. This suggests that it may be possible to increase racial diversity by increasing the diversity of housing opportunities in areas currently dominated by detached single-unit residences.

To address these patterns, this Housing Element proposed to re-zone parcels as multifamily throughout the County, with a focus on areas of opportunity.

RCAAs- Marin County

| Company | Com

Figure D- 19: RCAAs- Marin County

Summary: RECAPs/RCAAs

Not only are there areas of concentrated special needs populations and poverty concentrated in a single area- Marin City- but affluent and white populations are concentrated and segregated from these populations. Regional trends show that white residents and above moderate-income residents are significantly more segregated from other racial and income groups. This trend is also seen in unincorporated Marin County where above moderate-income residents are the most isolated income group while

very-low income communities have become more isolated (Table D- 14: and Table D- 15:). As a result, segregation between very-low income communities and above moderate communities remains moderate (compared to slightly lower segregation indices between lower income residents and non-lower income residents).

The only RECAP identified in the entire County is in Marin City, a community with a historical concentration of minorities, specifically Black residents. Black residents settled in Marin City during the 1940s and later federal policies such as restrictive covenants and low interest loans for white residents in other communities maintained the concentration of Blacks in Marin City. Today, Marin City has a sizable (through decreasing) African American and low-income population, compared to surrounding communities, which are mostly affluent and white. An especially unique condition of Marin City is that it is next to some of the most affluent communities in the County- Tamalpais-Homestead CDP (Tam Valley) and Sausalito. In 2019, median income in Tam Valley and Sausalito exceeded \$100,000 (\$111,906 and \$163,071, respectively), while Marin City's median income was only \$45,841. White population also exceeded 80 percent in both Tam Valley and Sausalito, while it was only 33 percent in Marin City. Another unique characteristic of Marin City compared to other areas of with a concentration of minorities and lower income households (like San Rafael in Central Marin and Novato in Northern Marin) is its proximity to the Bay Area. As explained in later sections, this proximity to a jobs-rich center and its relatively cheaper home values and rents compared the Bay Area homes make this community vulnerable to displacement. Berkley's Urban Displacement Project's case study of Marin City noted that a "concern in this community is future displacement due to potential increases in population, interest in redevelopment and the continued pressures of being surrounded by affluent neighbors in one of the most exclusive counties in the country." 35

This is important in formulating Housing Mobility Strategies to facilitate the movement of persons from areas with high concentration of special needs populations (especially Marin City) to other high resource areas. The County has already signed a voluntary agreement to avoid an overconcentration of affordable units in areas of minority concentration, including Marin City and the Canal neighborhood.

Racially concentrated areas of affluence are widespread in the County but are less prevalent in Central and Northern Marin. Specifically, all of the unincorporated communities in Central and Northern Marin are RCAAs. Black Point-Green Point, Lucas Marinwood, Ross, Kentfield, and Larkspur are all RCAAs. Tracts that are not RCAAs are located within the entitled jurisdictions of Novato and San Rafael. Two common features of some RCAAs are their higher ownership rates and high access to automobiles compared to other areas in the County (Figure D- 20 and Figure D- 21³⁶). Green colors in

³⁵ https://www.urbandisplacement.org/wp-content/uploads/2021/08/marin_city_final.pdf

³⁶ The California Healthy Places Index, developed by the Public Health Alliance of Southern California and visualized by Axis Maps, is a powerful tool to help prioritize public and private investments, resources, and programs in neighborhoods where they are needed most. The HPI combines 25 community characteristics,

the maps indicate higher ownership and auto access and correspond with RCAAs. This pattern may be due to higher income households being less likely to need to rely on public transportation and can take advantage of housing opportunities away from transit, whereas lower income households tend to be closer to transit. This may present a challenge when creating housing opportunities for lower income households in RCAAs like Black Point-Green Point, or Lucas-Marinwood or other areas with higher resources since these areas require either automobile use or have lower access to transit. Homeownership opportunities need to balance avoiding concentration in areas where these is already a concentration of lower income households (near transit corridors) while also supporting smart growth and environmental goals.

like access to healthcare, housing, education, and more, into a single indexed HPI score. The healthier a community, the higher the HPI score.

Access to Opportunities

Significant disparities in access to opportunity are defined by the AFFH Final Rule as "substantial and measurable differences in access to educational, transportation, economic, and other opportunities in a community based on protected class related to housing."

TCAC Opportunity Maps

The Department of Housing and Community Development (HCD) and California Tax Credit Allocation Committee (TCAC) convened the California Fair Housing Task force to "provide research, evidence-based policy recommendations, and other strategic recommendations to HCD and other related state agencies/ departments to further the fair housing goals (as defined by HCD)." The Task Force has created Opportunity Maps to identify resources levels across the state "to accompany new policies aimed at increasing access to high opportunity areas for families with children in housing financed with nine percent Low Income Housing Tax Credits (LIHTCs)". These opportunity maps are made from composite scores of three different domains made up of a set of indicators. Table D- 16 shows the full list of indicators. The opportunity maps include a measure or "filter" to identify areas with poverty and racial segregation. To identify these areas, census tracts were first filtered by poverty and then by a measure of racial segregation. The criteria for these filters were:

- **Poverty:** Tracts with at least 30 percent of population under federal poverty line;
- Racial Segregation: Tracts with location quotient higher than 1.25 for Blacks, Hispanics, Asians, or all people of color in comparison to the County

<u>Table D- 16:</u> Domains and List of Indicators for Opportunity Maps				
Domain	Indicator			
Economic	Poverty Adult education Employment Job proximity Median home value			
Environmental	CalEnviroScreen 3.0 pollution Indicators and values			
Education	Math proficiency Reading proficiency High School graduation rates Student poverty rates			

TCAC/HCD assigns "scores" for each of the domains shown in <u>Table D- 16</u> by census tracts as well as computing "composite" scores that are a combination of the three domains. Scores from each individual domain range from 0-1, where higher scores indicate higher "access" to the domain or higher "outcomes." Composite scores do not have a numerical value but rather rank census tracts by the level of resources (low, moderate, high, highest, and high poverty and segregation).

The TCAC/HCD Opportunity Maps offer a tool to visualize areas of highest resource, high resource, moderate resource, moderate resource (rapidly changing), low resource, and high segregation and poverty and can help to identify areas within the community that provide good access to opportunity for residents or, conversely, provide low access to opportunity. They can also help to highlight areas where there are high levels of segregation and poverty.

The information from the opportunity mapping can help to highlight the need for housing element policies and programs that would help to remediate conditions in low resource areas and areas of high segregation and poverty and to encourage better access for low and moderate income and black, indigenous, and people of color (BIPOC) households to housing in high resource areas.

Regional Trends

As explained earlier, TCAC composite scores categorize the level of resources in each census tract. Categorization is based on percentile rankings for census tracts within the region. Counties in the region all have a mix of resource levels. The highest concentrations of highest resource areas are located in the counties of Sonoma and Contra Costa (Figure D- 22). Marin and San Francisco counties also have a concentration of high resource tracts. All counties along the San Pablo and San Francisco Bay area have at least one census tract considered an area of high segregation and poverty, though these tracts are most prevalent in the cities of San Francisco and Oakland.

There is only one census tract in Marin County considered an area of "high segregation and poverty" (Figure D- 23Figure D- 23). This census tract is located in Central Marin within the Canal neighborhood of the incorporated City of San Rafael. In the County, low resource areas (green) are concentrated in West Marin, from Dillon Beach to Nicasio. This area encompasses the communities of Tomales, Marshall, Inverness, and Point Reyes Station. In Central Marin, low resource areas are concentrated in San Rafael. As shown in Figure D- 23 all of Southern Marin is considered a highest resource area, with the exception of Marin City which is classified as moderate resource.

Figure D- 23: Local TCAC Areas of High Segregation and Poverty Areas (2021)

Note: The area in outlined in red in Tiburon is Angel Island State Park (no residential).

Local Trends

Many unincorporated Marin communities have high and highest resource tracts, except for Northern Coastal and Central Coastal West Marin, where tracts have low resources (Table D- 17). Most unincorporated communities are classified as highest resource. Of note is that Marin City, which has been identified as a RECAP, is classified as having moderate and highest resources. This apparent contradiction may reflect the gentrification forces occurring in that tract. Marin City has been identified as a "sensitive community" by the UC Berkley Urban Displacement project. Residents in sensitive communities may be particularly vulnerable to displacement in the context of rising property values and rents. Overall, the lower resources are located in areas further from the County's concentration of communities and development., which are farther from employment and community colleges. West Marin (especially Northern and Central Coastal) is far from the other communities where resources are concentrated.

	Community Name	CDP	TCAC Score

	Marin City	Marin City	Highest/Moderate Resource	

Opportunity Indices

While the Federal Affirmatively Furthering Fair Housing (AFFH) Rule has been repealed, the data and mapping developed by HUD for the purpose of preparing the Assessment of Fair Housing (AFH) can still be useful in informing communities about segregation in their jurisdiction and region, as well as disparities in access to opportunity. This section presents the HUD-developed index scores based on nationally available data sources to assess Marin County residents' access to key opportunity assets by race/ethnicity and poverty level³⁷. Table D- 18 provides index scores or values (the values range from 0 to 100) for the following opportunity indicator indices:

- School Proficiency Index: The school proficiency index uses school-level data on the performance of 4th grade students on state exams to describe which neighborhoods have high-performing elementary schools nearby and which are near lower performing elementary schools. The higher the index value, the higher the school system quality is in a neighborhood.
- Labor Market Engagement Index: The labor market engagement index provides a summary description of the relative intensity of labor market engagement and human capital in a neighborhood. This is based upon the level of employment, labor force participation, and educational attainment in a census tract. The higher the index value, the higher the labor force participation and human capital in a neighborhood.
- Transit Trips Index: This index is based on estimates of transit trips taken by a
 family that meets the following description: a 3-person single-parent family with
 income at 50 percent of the median income for renters for the region (i.e. the CoreBased Statistical Area (CBSA). The higher the transit trips index value, the more
 likely residents in that neighborhood utilize public transit.
- Low Transportation Cost Index: This index is based on estimates of transportation costs for a family that meets the following description: a 3-person single-parent family with income at 50 percent of the median income for renters for the region/CBSA. The higher the index value, the lower the cost of transportation in that neighborhood.
- Jobs Proximity Index: The jobs proximity index quantifies the accessibility of a
 given residential neighborhood as a function of its distance to all job locations
 within a region/CBSA, with larger employment centers weighted more heavily. The
 higher the index value, the better the access to employment opportunities for
 residents in a neighborhood.
- Environmental Health Index: The environmental health index summarizes
 potential exposure to harmful toxins at a neighborhood level. The higher the index
 value, the less exposure to toxins harmful to human health. Therefore, the higher

_

³⁷ Index scores not available for unincorporated County or its communities.

the index value, the better the environmental quality of a neighborhood, where a neighborhood is a census block-group.

Table D- 18: Opportunity Indices by Race/Ethnicity – Marin County

Education

Regional Trends

The school proficiency index is an indicator of school system quality, with higher index scores indicating access to higher school quality. In Marin County, Hispanic residents have access to lower quality schools (lowest index value of 56) compared all other residents (for all other racial or ethnic groups, index values ranged from 74 to 78, Table D- 18). For residents living below the federal poverty line, index values are lower for all races but are still lowest for Hispanic and Native American residents. White residents have the highest index values, indicating a greater access to high quality schools, regardless of poverty status.

The HCD/TCAC education scores for the region show the distribution of education quality based on education outcomes (Figure D- 24). As explained in Table D- 16, the Education domain score is based on a variety of indicators including math proficiency, reading proficiency, high School graduation rates, and student poverty rates. The education scores range from 0 to 1, with higher scores indicating more positive education outcomes. In the County, lower education scores are found in census tracts in all counties along the San Pablo Bay. In counties surrounding San Francisco Bay, there are concentrations of both low and high education scores. For example, in San Francisco County, the western coast has a concentration of high education scores while the eastern coast has a concentrated in Novato and San Rafael along San Pablo Bay and along the western coast.

According to Marin County's 2020 Analysis of Impediments to Fair Housing Choice [2020 Al], while the County's overall high school graduation rates are among the highest in the nation, Marin County, "has the greatest educational achievement gap in California." According to data from Marin Promise, a nonprofit of education and nonprofit leaders, from 2017 – 2018:

- 78 percent of White students in Marin met or exceeded common core standards for 3rd Grade Literacy, while only 42 percent of students of color met or exceeded those standards;
- 71 percent of White students met or exceeded common core standards for 8th grade math, while only 37 percent of students of color met or exceeded those standards;
- 64 percent of White students met or exceeded the college readiness standards, defined as completing course requirements for California public universities, while only 40 percent of students of color met or exceeded those requirements.

Local Trends

There is a Countywide pattern of lower education scores in Northern Marin and highest in Southern Marin (Figure D- 24Figure D- 24:). This pattern also applies to unincorporated communities in these areas. Low education scores are found in Black Point-Green Point and Santa Venetia in the North Marin. However, the TCAC education score for the community does not solely reflect the demographics of the community itself. Rather, data factors for this category are calculated based on the nearest 1-3 schools, which are shared more broadly. While Black Point-Green Point's education score is low, only 8.0% of the community is aged 18 or under, in comparison to 20.2% in the overall County and 18.7 percent in Novato, the nearest jurisdiction. Furthermore, while about 90% of the community identifies as non-Hispanic White, about 40% of students at the nearest school (Olive Elementary) identify as Hispanic/Latin. There are no schools located within the boundaries of the community.

Higher education scores are prominent in Central and Southern Marin areas including the unincorporated communities of Kentfield, Strawberry, and Tam Valley. In West Marin, education scores are among the lowest. Northern and Central Coast West Marin (Dillon Beach, Tomales, Inverness, and Point Reyes Station) have education scores of less than 0.25 (Figure D- 24). The Countywide pattern of higher education scores in the south and lower education scores in the north correlate with the location of schools throughout the unincorporated County. Figure D- 25 shows that most schools are concentrated in North, Central, and Southern Marin along major highways (Highway 101 and Shoreline Highway), with few schools in West Marin.

Marin County has 17 school districts, with 78 public schools. <u>Table D- 19</u> shows a list of the 13 elementary school districts, two joint union districts, and two high school districts in Marin County. District boundaries do not separate incorporated areas from unincorporated areas, though some do serve unincorporated communities only (<u>Figure D- 26</u>). For example, Shoreline Unified School District only serves Northern and Central Coastal West Marin, which are all unincorporated communities.

USDA | Marin County Community Development Agency

Marin Promise Partnership publishes district-level Progress Reports showing data along six key indicators from Cradle to Career. The Cradle to Career indicators show a set of six key milestones outcomes along a student's educational journey: Kindergarten Readiness, 3rd Grade Literacy, 8th Grade Math, College & Career Readiness, College & Career Program Enrollment, and College and Career Completion. The Progress Reports summarized in Table D- 20 also highlight racial disparity gaps. Disparity gaps occur for all indicators and in all districts, with a greater proportion of white students meeting milestones than students of color.

According to <u>Table D- 20</u>, kindergarten readiness is similar across each school district and all Marin County districts combined. Tamalpais Unified School District, which serves West and Southern Marin, had the highest proportion of its entire student population meeting each milestone as well as the smallest gaps between White students and students of color. By contrast, San Rafael City Schools, which serve Lucas Valley and Santa Venetia students, had the lowest proportion of students meeting all milestones (except college completion) and often the largest gaps. For example, while 32 percent of all students reached 3rd Grade Literacy, the proportion of White students reaching this milestone far exceeded this (76 percent) while only 17 percent of students of color reached 3rd Grade Literacy. It appears that student performance is more likely affected by

school resources rather than proximity to schools given that Tamalpais Unified District only has a few schools over a large geographical area ³⁸ (Figure D- 25 and Figure D- 26).

<u>Table D- 20:</u> Educational Progress Report for School Districts Serving Unincorporated Communities

Placed in the "prepared" level by California School Dashboard" C- or better in all UC/CSU prep courses. 4. Enroll in a postsecondary program by Fall after graduation 5. Complete a postsecondary program within 6 six years. Source; Marin Promise Partnership, January 2022. https://www.marinpromisepartnership.org/progress-reports-race/# (FreatSchools provided data comparisons by the School Districts shown. Tamalpais Unified is only made up of high schools while San Rafael Schools and Shoreline Unified Districts have a variety of school levels. This table provides context on the educational progress and disparities in access to education and is being used to identify trends.

³⁸ Often proximity to schools is used a proxy for educational outcomes or access.

Of special note in Marin County is the California State Justice Department's finding in 2019 that the Sausalito Marin City School District, which serves the unincorporated communities of Marin City and Tam Valley, and nearby Town of Sausalito, as having "knowingly and intentionally maintained and exacerbated" existing racial segregation and deliberately established a segregated school and diverted County staff and resources to Willow Creek School while depriving the students at Bayside MLK an equal educational opportunity.

There are two K-8 elementary schools in the Sausalito Marin City School District (SMCSD): Bayside Martin Luther King Jr. Academy, located in Marin City which is the only public school in the District, and Willow Creek Academy, a charter school located in nearby Sausalito. The majority of students from both Bayside MLK and Willow Creek attend Tamalpais High School in nearby Mill Valley. The combined enrollment of both schools is just under 500 students. The two communities SMCSD serves while geographically adjacent, have very different demographic profiles and histories, with large disparities in racial/ethnic representation and economic diversity. While less than two miles apart, both schools replicate and reinforce these patterns of segregation.

In the case of the Sausalito Marin City School District (SMCSD), the asymmetrical dynamics between both communities combined with the implementation of biased educational policies further exacerbated the harm of segregation. Black and Latinx students were limited from accessing educational opportunities. Segregation separates students of color from power, opportunity, and supportive spaces that honor and value their identities. According to the 2020 AI, students of color from Marin City who attend Tamalpais High School in Mill Valley consistently report not feeling welcomed or included, and as reported in 2016, zero percent of African American students in Marin felt connected to their school.

As a result of the State Justice Department's finding in 2019, Sausalito Marin City School District prepared an Integration Generation Plan which would include reparations to graduates in the form of long-term academic and career counseling and support higher education applications and skilled workforce employment. The Plan was adopted in June 2021. ³⁹ Unification of the two schools in the district, Bayside MLK and WCA into one single school was one of the most expedient ways to achieve the goals of integration and the benefits of diverse classrooms for all students in the district. The District opened a single unified TK-8 grade school on August 23rd, 2021 and was considered a successful process – retaining over 92% of Willow Creek families and 99% of Bayside MLK families. As of April 2022, the District has met all 5 -10 and 15-year benchmarks of the settlement agreement and is in a monitoring stage.

Transportation

Regional Trends

According to ABAG's Plan Bay Area 2040, regional mismatch between employment growth relative to the housing supply has resulted in a disconnect between where people live and work. Overall, the Bay Area has added nearly two jobs for every housing unit built since 1990. The deficit in housing production has been particularly severe in terms of housing affordable to lower- and middle wage workers, especially in many of the jobsrich, high-income communities along the Peninsula and in Silicon Valley. As a result, there have been record levels of freeway congestion and, before the COVID pandemic, historic crowding on transit systems like Bay Area Rapid Transit (BART), Caltrain and San Francisco's Municipal Railway (Muni).

HUD's opportunity indicators can provide a picture of transit use and access in Marin County through the transit index ⁴⁰ and low transportation cost.⁴¹ Index values can range from zero to 100 and are reported per race so that differences in access to transportation can be evaluated based on race. In the County, transit index values range from 61 to 69, with White residents scoring lower and Black and Hispanic residents scoring highest. Given that higher the transit trips index, the more likely residents utilize public transit, Black and Hispanics are more likely to use public transit. For residents living below the poverty line, the index values have a larger range from 61 for White residents to 75 for Hispanic residents. Regardless of income, White residents have lower index values- and thus a lower likelihood of using transit.

Low transportation cost index values have a larger range than transit index values from 65 to 75 across all races and were similar for residents living below the poverty line. Black and Hispanic residents have the highest low transportation cost index values, regardless of poverty status. Considering a higher "low transportation cost" index value indicates a lower cost of transportation, public transit is less costly for Black and Hispanics than other groups in the County.

Transit patterns in Figure D- 27 show that transit is concentrated throughout North, Central, and Southern Marin along the City Centered Corridor from Novato to Marin City/Sausalito. In addition, there are connections eastbound; San Rafael connects 101 North/South and 580 Richmond Bridge going East (Contra Costa County) and Novato connects 101 North/South and 37 going East towards Vallejo (Solano County) Internally, public transit along Sir Francis Drake Blvd connects from Olema to Greenbrae.

⁴⁰ Transit Trips Index: This index is based on estimates of transit trips taken by a family that meets the following description: a 3-person single-parent family with income at 50 percent of the median income for renters for the region (i.e. the Core-Based Statistical Area (CBSA). The higher the transit trips index, the more likely residents in that neighborhood utilize public transit.

⁴¹ Low Transportation Cost Index: This index is based on estimates of transportation costs for a family that meets the following description: a 3-person single-parent family with income at 50 percent of the median income for renters for the region/CBSA. The higher the index, the lower the cost of transportation in that neighborhood.

Figure D- 27: Public Transit

All nine Bay Areas counties are connected via public transportation. Marin Transit Authority (MTA) operates all bus routes that begin and end in the County. Golden Gate Transit provides connections from Marin to San Francisco, Sonoma and Contra Costa County. In 2017, MTA conducted an onboard survey of their ridership and identified the Canal District of San Rafael as having a high rating of a "typical" transit rider". That typical rider was described as, "42 percent of households have annual income of less than \$25,000, 90 percent of individuals identify as Hispanic or Latino, 19 percent of households have no vehicle, 17 percent have three or more workers in their homes, 30 percent have five or more workers living with them, and Spanish is spoken in 84 percent of households."⁴² According to the survey, residents in the Canal area had the highest percentage of trips that began or ended in routes provided by Marin Transit.

In addition to its fixed routes, MTA offers several other transportation options and some that are available for specific populations:

- Novato Dial-A-Ride designed to fill gaps in Novato's local transit service and connects service with Marin Transit and Golden Gate Transit bus routes.
- ADA Paratransit Service provides transportation for people unable to ride regular bus and trains due to a disability. It serves and operates in the same areas, same days and hours as public transit.
- Discount Taxi Program called Marin-Catch-A-Ride, it offers discount rides by taxi and other licensed vehicles if you are at least 80 years old; or are 60 and unable to drive; or you are eligible for ADA Paratransit Service.
- West Marin Stage provides public bus service from West Marin to Highway 101 corridor which connects with Marin Transit and Golden Gate Transit bus routes.

Local Trends

There are no opportunity indices at the unincorporated County level. However, regional trends show a need for connecting West Marin to the transportation hubs in North, Central, and South Marin. For this reason, MTA operates the West Marin Stagecoach which consists of two regularly operating bus routes between central and West Marin. Route 61 goes to Marin City, Mill Valley, and Stinson Beach. Route 68 goes to San Rafael, San Anselmo, Point Reyes and Inverness (Figure D- 28). The Stagecoach also connects with Marin Transit and Golden Gate Transit bus routes. However, the Northern Coastal West Marin area does not have any public transit connection to the south. Bus transit (brown dots in Figure D- 27 and routes 61 and 86 of Stagecoach Figure D- 28) only connect as far north as Inverness. This lack of transit connection affects the minority populations and the persons with disabilities concentrated in the west part of the County (Figure D- 3 and Figure D- 7). The lack of infrastructure as far as Northern Coastal West Marin is due to its low population density. Overall, West Marin has historically been rural with a focus on agriculture, open space preservation, and park lands. The population of West Marin is approximately 16,000 people, or about 6.5 percent of the population of

⁴² From the 2020 County of Marin Analysis of Impediments to Fair Housing Choice

Marin County, residing in more than half the land area of the county. While the overall density of the community is very low, residents cluster in towns and villages, with the vast areas of designated open space in West Marin being virtually uninhabited. Further impacting the area is the Coastal Act, which preserves access to the coast and promotes visitor serving uses over uses for local residents.

Together these factors have resulted in less access to infrastructure such as public transportation, which likely resulted in the areas' low TCAC Opportunity scores as well. Due to the small widely distributed population, community services such as grocery stores and health clinics are also absent in much of the area.

Economic Development

Regional Trends

The Bay Area has a regionalregionalregional economy which has grown to be the fourth largest metropolitan region in the United States today, with over 7.7 million people residing in the nine-county, 7,000 square-mile area. In recent years, the Bay Area economy has experienced record employment levels during a tech expansion surpassing the "dot-com" era of the late 1990s. The latest boom has extended not only to the South Bay and Peninsula — the traditional hubs of Silicon Valley — but also to neighborhoods in San Francisco and cities in the East Bay, most notably Oakland. The rapidly growing and changing economy has also created significant housing and transportation challenges due to job-housing imbalances.

HUD's opportunity indicators provide values for labor market index⁴³ and jobs proximity index⁴⁴ that can be measures for economic development in Marin County. Like the other HUD opportunity indicators, scores range from 0 to 100 and are published by race and poverty level to identify differences in the relevant "opportunity" (in this case economic opportunity). The labor market index value is based on the level of employment, labor force participation, and educational attainment in a census tract- a higher score means higher labor force participation and human capital in a neighborhood. Marin County's labor market index values have a significant range from 49 to 86, with Black residents scoring lowest and White residents scoring highest. Scores for Marin County residents living below the poverty line drop notably for Hispanic residents (from 68 to 57), increase for Black residents (from 49 to 55) and remain the same for all other races. These values indicate that Black and Hispanic residents living in poverty have the lowest labor force participation and human capital in the County.

HUD's jobs proximity index quantifies the accessibility of a neighborhood to jobs in the region. Index values can range from 0 to 100 and a higher index value indicate better the access to employment opportunities for residents in a neighborhood. County jobs proximity index values range from 65 to 75 and are highest for Hispanic and Black residents. The jobs proximity value map in Figure D-29 shows the distribution of scores in the region. Regionally, tracts along the northern San Pablo Bay shore and northern San Francisco Bay shore (Oakland and San Francisco) have the highest job proximity scores

In Marin County, the highest values are in Central Marin at the intersection of Highway 101 and Highway 580 from south San Rafael to Corte Madera. Some census tracts in North and Southern Marin along Highway 101 also have high jobs proximity values, specifically in south Novato and Sausalito. The Town of Tiburon in Southern Marin also has the highest scoring census tracts. Western North and Central Marin and some West Marin tracts, including the unincorporated Valley community (west of Highway 101) have the lowest jobs proximity scores.

⁴³ Labor Market Engagement Index: The labor market engagement index provides a summary description of the relative intensity of labor market engagement and human capital in a neighborhood. This is based upon the level of employment, labor force participation, and educational attainment in a census tract. The higher the score, the higher the labor force participation and human capital in a neighborhood.

⁴⁴ Jobs Proximity Index: The jobs proximity index quantifies the accessibility of a given residential neighborhood as a function of its distance to all job locations within a region/CBSA, with larger employment centers weighted more heavily. The higher the index value, the better the access to employment opportunities for residents in a neighborhood.

The TCAC Economic Scores are a composite of jobs proximity index values as well as poverty, adult education, employment, and median home value characteristics. TCAC economic scores range from 0 to 1, where higher values indicate more positive economic outcomes. The map in Figure D- 30 shows that the lowest economic scores are located along the northern San Pablo shores as well as many census tracts in North and West Marin, southern Sonoma County, Solano, and Contra Costa County. In Marin County, the lowest economic scores are located in northern West Marin and North Marin, as well as some census tracts in Central Marin and at the southern tip of the County (Marin Headlands). The highest TCAC economic scores are located along coastal West Marin communities, Southern Marin, and parts of Central Marin including the cites of Larkspur, Mill Valley, Corte Madera, Sausalito, and Tiburon.

⁴⁵ See <u>TCAC Opportunity Maps</u> at the beginning of section for more information on TCAC maps and scores.

Local Trends

Related to the location of the transportation hubs in Central and Southern Marin, jobs proximity index scores⁴⁶ are also highest in these areas, especially in the incorporated cities of San Rafael and Corte Madera (Figure D- 29). This means that the unincorporated communities in southern West Marin as well as Santa Venetia, Strawberry, Kentfield, and Tam Valley, while not having the highest index values, are closest to these job hubs, compared to Northern West Marin and Coastal West Marin. By contrast, the incorporated communities in the Valley, Northern Coastal West Marin, Lucas-Valley, and Black Point-Green Point have the lowest job proximity index values (40 to 60).

Again, as with regional trends, proximity to jobs does not always reflect positive economic outcomes for the residents of that area. The TCAC Economic scores are a metric for poverty, adult education, employment, median home value, and jobs proximity for the population in a census tract. While the Valley had the lowest proximity index, its TCAC Economic score is amongst the highest (Figure D- 30). Overall, the highest economic resources are located in the Central Coastal West Marin, Santa Venetia, Lucas Valley, Kentfield, Strawberry, and Tam Valley, while the lowest economic scores are located in Black-Point Green Point, Marin City, Northern Coastal West Marin, and Central Coastal West Marin . Of important note then are Marin City- an area close to jobs but with a low economic score, and Black Point- Green Point and Northern Coastal West Marin, which scored low on both proximity to jobs and economic scores.

Marin City's lower TCAC composite score (compared to its neighboring areas) can be attributed to its lower economic score. The TCAC Economic Score is a combination of poverty, median home values, adult education, employment and jobs proximity (<u>Table D-16</u>) The past discriminatory practices that affected Marin City's Black residents continue to have had an impact in the economic outcome of this community.

The history of Marin City and its contribution to Marin County is a local example of how historic government policies and practices helped create the segregated communities that continue to exist today. In 1942, Kenneth Bechtel, an industrial builder, signed a contract with the U.S. government to construct transport vessels or the U.S. Navy. It created Marinship, which during World War II built nearly 100 liberty ships and tankers. The Bechtel Company was also given permission to develop a community to house some of its workers, and the unincorporated community of Marin City was constructed as a temporary housing facility.

Since Marinship faced a shortfall in local, available workers, Bechtel overlooked the workplace exclusions that were standard at the time and recruited African Americans from southern states such as Louisiana, Arkansas, Texas and Oklahoma. At its peak in 1944,

⁴⁶ The jobs proximity index quantifies the accessibility of a given residential neighborhood as a function of its distance to all job locations within a region/CBSA, with larger employment centers weighted more heavily. The higher the index value, the better the access to employment opportunities for residents in a neighborhood.

Marinship employed 22,000 workers from every state in the Union, and Marin City had a population of 6,500 people, including over 1,000 school-aged children, and was home to Midwestern Whites (85 percent), southern Blacks (10 percent), and Chinese immigrants (five percent). Marin City was the country's first integrated Federal housing project, and eventually would be hailed as a model city for the company's workers and a bold social experiment in race relations. During an era when segregation was widely practiced in California as well as across the country, Marin City was a diverse, racially integrated community.

At the end of the war, military veterans returned in droves. Housing was in short supply and families were doubling up. With a large civilian housing shortage, the National Housing Act of 1949 was created.

Under the National Housing Act, the Federal Housing Administration (FHA) guaranteed bank loans to housing developments that were designed to move Whites out of integrated, urban areas into all-White subdivisions in the suburbs. FHA loan guarantees were made to developers on the condition that homes could be sold only to Whites. Racially restrictive covenants were used to prevent people of color from purchasing homes in White communities in Marin, and the Federal Housing Administration's Underwriting Manual recommended the use of restrictive covenants to "provide the surest protection against undesirable encroachment and inharmonious use." While the Civil Rights Act of 1969 prohibited such transactions, many of these covenants still remain in property deeds in Marin., although they are unenforceable.

White veterans and their families returning from World War II were able to purchase homes with mortgages that were guaranteed by the Federal Government. Many homes in Marin in the late 1940s were selling for \$7,000 to \$8,000 and families often got mortgages with 0 percent to five percent down payments. In some cases, the monthly cost to purchase a home was less than what a family would pay for rent in public housing.

Today's wealth inequality was created, in part, after World War II when explicit policies and programs of the Federal government provided Whites the opportunities for home ownership with very affordable prices and financing, while African Americans were prohibited from participating in the same programs. Today, the home equity appreciation for families who were able to purchase homes after the war has allowed those families to use their accumulated wealth to finance college educations, fund retirement, bequeath money, and to support their children's home ownership. For generations, African Americans have not had those same opportunities.

Environment

Regional Trends

Environmental conditions residents live in can be affected by past and current land uses like landfills or proximity to freeways The TCAC Environmental Score shown in Figure D-31 is based on CalEnviroScreen 3.0 scores. The California Office of Environmental Health Hazard Assessment (OEHHA) compiles these scores to help identify California communities disproportionately burdened by multiple sources of pollution. In addition to environmental factors (pollutant exposure, groundwater threats, toxic sites, and

hazardous materials exposure) and sensitive receptors (seniors, children, persons with asthma, and low birth weight infants), CalEnviroScreen also takes into consideration socioeconomic factors. These factors include educational attainment, linguistic isolation, poverty, and unemployment. TCAC Environmental Scores range from 0 to 1, where higher scores indicate a more positive environmental outcome (better environmental quality)

Regionally, TCAC environmental scores are lowest in the tracts along the San Pablo and San Francisco Bay shores, except for the coastal communities of San Rafael and Mill Valley in Marin County. Inland tracts in Contra Costa and Solano County also have low environmental scores. In Marin County, TCAC Environmental scores are lowest in the West Marin areas of the unincorporated County from Dillon Beach in the north to Muir Beach in the South, east of Tomales Bay and Shoreline Highway. In addition, census tracts in Black Point-Green Point, Novato, and southern San Rafael (Canal and California Park) have "less positive environmental outcomes." More positive environmental outcomes are located in tracts in the City-Centered Corridor along Highway 101, from North Novato to Sausalito (Figure D- 31).

<u>Figure D- 31</u> shows the TCAC Environmental Score based on CalEnviroScreen 3.0. However, the Office of Environmental Health Hazard Assessment has released updated scored in February 2020 (CalEnviroScreen 4.0). The CalEnviroScreen 4.0 scores in <u>Figure D- 32</u> are based on percentiles and show that the Canal and California Park Communities in San Rafael and Marin City have the highest percentile and are disproportionately burdened by multiple sources of pollution.

HUD's opportunity index for "environmental health" summarizes potential exposure to harmful toxins at a neighborhood level. Index values range from 0 to 100 and the higher the index value, the less exposure to toxins harmful to human health. Therefore, the higher the value, the better the environmental quality of a neighborhood, where a neighborhood is a census block-group. In Marin County, environmental health index values range from 77 for Blacks to 83 for Hispanics (Table D- 18). The range is similar for the population living below the federal poverty line, with Black residents living in poverty still scoring lowest (76) but Native American residents living in poverty scoring highest among all races (85) and higher than the entire County Native American population (86 and 81, respectively). Environmental health indices for White population falls within the range of that of minority populations 81 for all White population and 83 for White population under the federal poverty line.

Local Trends

It is important to note that CalEnviroScreen scores (and thus TCAC environmental scores) measure not only environmental factors and sources of pollution but also takes into consideration socioeconomic factors that makes residents more sensitive to pollution to identify disproportionately burdened communities.

For this reason, CalEnviroScreen scores are used to identify SB 535 Disadvantaged Communities. Disadvantaged communities in California are specifically targeted for investment of proceeds from the state's Cap-and-Trade Program. These investments are aimed at improving public health, quality of life and economic opportunity in California's most burdened communities, and at the same time, reducing pollution that causes climate change. The investments are authorized by the California Global Warming Solutions Act of 2006 (Assembly Bill 32, Nunez, 2016). Figure D- 33 shows the disadvantaged communities designated by CalEPA for the purpose of SB 535. These areas represent the 25 percent highest scoring census tracts in CalEnviroScreen 4.0, census tracts previously identified in the top 25 percent in CalEnviroScreen 3.0, census tracts with high amounts of pollution and low populations, and federally recognized tribal areas as identified by the Census in the 2021 American Indian Areas Related National Geodatabase. There are no disadvantaged communities in Marin County.

Despite Figure D- 32 (CalEnviroScreen 4.0) and Figure D- 33 (SB 35 disadvantaged communities) do not identify any communities in Marin County as being disproportionately burdened by pollution, Figure D- 31 (based on CalEnviroscreen 3.0 scores) do show that among the unincorporated county communities, the lowest TCAC Environmental scores are located in West Marin and Black Point-Green Point (Figure D-31). These lower Environmental scores are likely due to the socioeconomic characteristics of these areas, such as health outcomes, education, housing burdens, poverty, and unemployment.

CAHCI

Healthy Places

Regional Trends

Residents should have the opportunity to live a healthy life and live in healthy communities. The Healthy Places Index (HPI) is a new tool that allows local officials to diagnose and change community conditions that affect health outcomes and the wellbeing of residents. The HPI tool was developed by the Public Health Alliance of Southern California to assist in comparing community conditions across the state and combined 25 community characteristics such as housing, education, economic, and social factors into a single indexed HPI Percentile Score, where lower percentiles indicate lower conditions. Figure D- 34 shows the HPI percentile score distributions in the Region tend to be above 60 percent except in some concentrated areas in the cities of Vallejo, Richmond, Berkeley, Oakland, and San Francisco- each county along the bays have at least one cluster of tracts with an HPI below 60 (blue).

Local Trends

All of the tracts within the unincorporated county areas scored above the 60th percentile of the Healthy Place Index Scores except for Marin City. All of Marin City scored in the lower 40th percentile. Marin City has also been identified as having low access to healthy foods in the 2020 Al.

Figure D- 34: Regional Healthy Places Index by Tract (2021)

Open Space and Recreation.

Regional Trends

According to Plan Bay Area 2040, a strong regional movement emerged during the latter half of the 20th century to protect farmland and open space. Local governments adopted urban growth boundaries and helped lead a "focused growth" strategy with support from environmental groups and regional agencies to limit sprawl, expand recreational opportunities, and preserve scenic and natural resources. However, this protection has strained the region's ability to build the housing needed for a growing population. In addition, maintaining the existing open space does not ensure equal access to it.

In Marin County, the Marin County Parks and Open Space Department operates a system that includes regional and community parks, neighborhood parks, and 34 open space preserves that encompass 19,300 acres and 190 miles of unpaved public trails. In 2007, 500 Marin County residents participated in a telephone survey, and more than 60 percent of interviewees perceived parks and open space agencies favorably, regardless of geographic area, age, ethnicity, or income. However, in 2019, the Parks Department conducted a Community Survey and identified the cost of entrance and fees to be obstacles for access to County parks. As a result, in July of 2019, entry fees were reduced from \$10 to \$5 for three popular parks in the County, and admission to McNears Beach Park pool, located in San Rafael, was free beginning on August 1, 2019.

Local Trends

Despite the large acreage of open spaces throughout the County, there are still some communities that lack access to open space and recreation (Figure D- 35). Northern Coastal West Marin appear to be furthest from federal and state open spaces/parks. Northern Coastal West Marin also lacks public transportation to the south to the nearest open spaces. In the more densely populated areas of the County (North, Central, and South Marin) open space and recreation areas are limited and mostly concentrated east of Highway 101. Despite this limited open space, most unincorporated county communities have at least County park access

As stated before, Marin City is a community with a disproportionate concentration of minorities and low income residents. From 1990 to 2015, Marin City, which had the highest African American population in the County and according to the Marin Food Policy Council, one of the highest obesity rates, did not have an outdoor recreational space. In 2015, the Trust for Public Land, in collaboration with the Marin City Community Services District, designed and opened Rocky Graham Park in Marin City. According to the 2020 Al, while the park contains "a tree-house-themed play structure, drought-resistant turf lawn, adult fitness areas, and a mural showcasing scenes from Marin City's history," Marin City continues to have limited access to surrounding open spaces and hiking trails.

Figure D- 35: Marin County Open Space

Home Loans

A key aspect of fair housing choice is equal access to credit for the purchase or improvement of a home, particularly in light of the continued impacts of the lending/credit crisis called the Great Recession. In the past, credit market distortions and discriminatory practices such as "redlining" were prevalent and prevented some groups from having equal access to credit. The Community Reinvestment Act (CRA) in 1977 and the subsequent Home Mortgage Disclosure Act (HMDA) were designed to improve access to credit for all members of the community and hold the lender industry responsible for community lending. Under HMDA, lenders are required to disclose information on the disposition of home loan applications and on the race or national origin, gender, and annual income of loan applicants.

Regional Trends

The 2020 Marin County Analysis of Impediments to Fair Housing Choice examined lending practices across Marin County. According to HMDA, in 2017, there were a total of 11,688 loans originated for Marin properties. Of the 11,688 original loan applications, 6,534 loans were approved, representing 56 percent of all applications, 1,320 loans denied, representing 11 percent of the total applications, and there were 1,555 applicants who withdrew their applications, which represents 13 percent of all applications (Table D-21). Hispanic and Black/African American residents were approved at lower rates and denied at higher rates than all applicants in the County.

Table D- 21: Loan Approval, Denial, and Withdrawal by Race						
	All Applicants	White	Asian	Hispanic/ Latinx	Black/African American	
Loans approved	55.9%	60.0%	59.0%	50.0%	48.0%	
Loans denied	11.3%	12.0%	16.0%	18.0%	19.0%	
Loans withdrawn by applicant	13.3%	14.0%	13.0%	19.0%	14.0%	
Source: 2017 HMDA, as prese Note: Data did not add up to 1		County AI.	ı	1		

According to the 2020 Al, there were several categories for reasons loans were denied. Under the category, "Loan Denial Reason: insufficient cash - down payment and closing costs," African Americans were denied 0.7 percent more than White applicants. Denial of loans due to credit history significantly affected Asian applicants more than others; and under the category of "Loan Denial Reason: Other", the numbers are starkly higher for African American applicants. Other reasons may include: debt-to-income ratio; employment history; credit history; collateral; insufficient cash; unverifiable information; credit application incomplete; mortgage insurance denied.

The Al also identified that many residents who lived in Marin City during the Marinship years⁴⁷ were not allowed to move from Marin City to other parts of the County because of discriminatory housing and lending policies and practices. For those residents, Marin City has been the only place where they have felt welcomed and safe in the County.

Based on the identified disparities of lending patterns for residents of color and a history of discriminatory lending practices, the AI recommended further fair lending investigations/testing into the disparities identified through the HMDA data analysis. More generally, it recommended that HMDA data for Marin County should be monitored on an ongoing basis to analyze overall lending patterns in the County. In addition, lending patterns of individual lenders should be analyzed, to gauge how effective the Community Reinvestment Act (CRA) programs of individual lenders are in reaching all communities to ensure that people of all races and ethnicities have equal access to loans.

Local Trends

As the 2020 Al found, disparities in lending practices disproportionately affect people of color in the County, especially African Americans in Marin City. In December 2021, FHANC and a Marin City couple sued a San Rafael appraiser in federal court for alleged race discrimination after they were given an appraisal in February 2020 \$455,000 less than an appraisal done in March 2019. The couple sought to refinance their home and thought the February 2020 appraisal of \$995,000 was very low. To test their assumption of discrimination, they asked for a third appraisal and removed any indicators of their raceincluding removing pictures- and asked a white friend to meet the appraiser. The third appraisal valued the house at \$1,482,500. According to the Marin Independent Journal, their suit argues that "Marin City has a long history of undervaluation based on stereotypes, redlining, discriminatory appraisal standards, and actual or perceived racial demographics. Choosing to use comps located in Marin City means that the valuation is dictated by these past sale prices, which were the direct product of racial discrimination."48 More details on this case can be found in the press release from FHANC found in Figure D- 36. This suit is an example of how the approach used to generate appraisal values (years of past sales reviewed and radius of search) can exacerbate past discriminatory practices and continue to disproportionately affect Marin City residents. Monitoring lending practices as recommended by the 2020 Al should consider these practices in its analyses.

⁴⁷ Marinship is a community of workers created by the Bechtel Company which during World War II built nearly 100 liberty ships and tankers. Since Marinship faced a shortfall in local, available workers, Bechtel overlooked the workplace exclusions that were standard at the time and recruited African Americans from southern states such as Louisiana, Arkansas, Texas and Oklahoma. A thorough history if Marin City and Marinship is found in the local knowledge section.

Discrimination Lawsuits Filed Alleging Race Discrimination in Home Appraisal Process

San Rafael, CA – Today, Fair Housing Advocates of Northern California (FHANC), Tenisha Tate-Austin, and Paul Austin announce the filing of a fair housing lawsuit in federal district court alleging housing discrimination due to race in the appraisal process. The named defendants are Janette Miller, a licensed real estate appraiser; Miller and Perotti Real Estate Appraisals, Inc.; and AMC Links LLC, an appraisal management company. The complaint can be found here.

In December 2016, Tenisha Tate-Austin and Paul Austin, a Black couple, purchased a house in Marin County, California and moved into their house with their children. After spending thousands of dollars on renovations that increased the square footage of the house and upgraded many features, and beginning renovations on an accessory dwelling unit, they decided to refinance their mortgage in 2020.

Janette Miller was hired through AMC Links LLC to inspect the Austins' house and prepare an appraisal report. She appraised the Austins' house at \$995,000. Suspecting that their race and the racial demographics of the unincorporated area known as Marin City – where their house is located – played a role in the appraiser's surprisingly low estimate of value, the Austins had a second appraisal completed three weeks after the first appraisal inspection by a different appraiser. In this appraisal, the Austins erased any evidence of their racial identities inside their house, removing family photos and African-themed art. Their white friend, who replaced the Austins' family photos with photos of her own family, was the only person present during the second inspection. That appraisal came back with a value of \$1,482,500, nearly half a million dollars higher than Ms. Miller's estimate.

"We believe that Ms. Miller valued our house at a lower rate because of our race and because of the current and historical racial demographics of where our house is located," said Paul Austin. "The sales comps that the appraiser chose to use were unsuitable and were guaranteed to lower the value of our house."

A local non-profit helping communities eliminate housing discrimination

TDD: CALIFORNIA RELAY SERVICE FOR THE HEARING OR SPEECH IMPAIRED: (800) 735-2922 SE HABLA ESPAÑOL - NÊU CẦN GỦUP ĐỔ BẰNG TIẾNG VIỆT NAM XIN LIÊN LẠC SỐ: (415) 847-2747

MEMBER NATIONAL FAIR HOUSING ALLIANCE

"Unfortunately, the Austins are not alone in their experience," said Caroline Peattie, Executive Director of FHANC. "Discrimination in the appraisal process is something we've been seeing more frequently, probably because there has been more attention paid to this issue, and more homeowners of color are coming forward when they receive an unfair appraisal, particularly when it results in their loan being denied. There are studies that show that Black and Latinx applicants are more likely than white applicants to receive an appraisal value lower than the contract price of a home. These studies show that appraisers choose comparisons (comps) of other property sales located substantially closer to the property being appraised if it's located in a Black or Latinx census tract than if it's located in a white census tract – so we know that appraisers still view neighborhoods, and relevant comps, based on racial demographics. We believe that this is exactly what happened with the Austins' appraisal."

The complaint maintains that using comparisons of other property sales located exclusively or primarily in Marin City results in a skewed and race-based valuation of the property, because selecting comps from areas that have been historically devalued by discrimination perpetuates and exacerbates the undervaluation of Blackowned homes in Black neighborhoods.

In order to reach an unbiased estimate of value, the complaint asserts, it is necessary to look outside of Marin City, particularly because Marin City has a very small number of property sales every year – most of which were not comparable to the Austins' house. In addition, the complaint asserts that it was improper and discriminatory for Miller to decrease her estimated value of the Austins' house based solely on its location in Marin City.

Additionally, Ms. Miller's market analysis of Marin City speaks only to market trends before the 2007 recession and ends at 2008, with no analysis of recent trends. Her appraisal notes that "during 2008... many communities in the Bay Area began to feel the effects of tightening credit and deteriorating economic conditions." However, she uses a different period of time for her market analysis of Sausalito, noting increasing home values in the city since 2014. She writes, "values [in the City of Sausalito] have increased since 2014 with a recent stabilization of values as evidenced by MLS year-end data for all residential properties sold." These outdated analyses of market trends resulted in, or improperly justified, a lower estimated value for the Austin's house than was warranted.

Ms. Miller's analysis relies heavily on Marin City comps – three of the five were from Marin City – even though one was a bank-owned property sold in foreclosure two years before and another was an attached dwelling that was contained within a planned unit development. In contrast, eight properties were chosen as comps for the second appraisal three weeks later, of which only two were located in Marin City, while the other six were located in the City of Sausalito, which shares a school district with Marin City. The complaint maintains that Ms. Miller's choices of comps indicate racial bias and point to a deeper and more systemic issue in the appraisal process – the practice of considering demographic characteristics of a neighborhood rather than relying only on physical home and neighborhood characteristics other than race. This disproportionately and negatively affects Black people, the complaint asserts, because neighborhoods of color have been historically undervalued due to deliberate racist housing policies, such as redlining.

Marin City is an unincorporated community located in Marin County, situated between the cities of Sausalito to the south and Mill Valley to the north. Properties located in Marin City have a Sausalito mailing address. According to the U.S. Census, as of July 2019, Marin County's population was 85.3% white, 2.8% Black, 6.6% Asian, and 16.3% Latino. The County's Black residents are overwhelmingly concentrated in two census tracts, one of which is in Marin City, and Black residents still accounted for approximately 35.95% of Marin City's population as of 2019, while the City of Sausalito is 92.2% white, and Blacks comprise only 0.9% of Sausalito's population.

Workforce housing was built in Marin City during World War II to house workers who came to the area from around the country to work in the shipyards as part of the war effort. Though the housing was integrated, after

the war, many white residents moved away. Black families were blocked from doing so because of discriminatory practices such as redlining and restrictive covenants.

"Home buyers generally cannot obtain a mortgage, and homeowners cannot refinance a mortgage, without getting an appraisal," said Caroline Peattie. "Yet neighborhoods of color have been historically undervalued due to deliberate racist housing policies, such as redlining. This ongoing undervaluation of homes in Black neighborhoods is, in effect, present-day redlining, and continues to widen the wealth gap between Black and white families."

The Austins succeeded in getting a loan based on the second appraisal in March 2020, but the damage was done – they were not able to refinance on the favorable terms that had been available a month earlier. "We missed out on a better interest rate because of the unfair appraisal we received. And to prove that our civil rights had been violated, we had to erase who we were, by having our white friend pose as the homeowner and hiding the things in our home that represent who we are." said Tenisha Tate-Austin. "Even worse, these discriminatory practices have the effect of lowering property values in Marin City which harms us and harms our community."

"I really hope that this lawsuit makes appraisers and lenders start to look more carefully at their practices and policies," said Paul Austin. "And I really want people to know that there are organizations that can help support them if they have a discrimination complaint. We feel that litigating this case is not only important for us but for our community as well."

The Austins and FHANC are represented by counsel Julia Howard-Gibbon of FHANC and Liza Cristol-Deman of Brancart & Brancart.

If you feel you may have been discriminated against in a recent home appraisal, contact FHANC's office to complete an interview. Contact FHANC at fhanc@fairhousingnorcal.org or 415-457-5025 x101.

Fair Housing Advocates of Northern California is a non-profit organization serving several Bay Area counties that provides free counseling, enforcement, mediation, and legal or administrative referrals to persons experiencing housing discrimination. Fair Housing Advocates of Northern California also offers foreclosure prevention counseling, pre-purchase education, seminars to help housing providers fully understand fair housing law, and education programs for tenants and the community at large. Fair Housing Advocates of Northern California is a HUD-Certified Housing Counseling Agency. Please call Fair Housing Advocates of Northern California at (415) 457-5025 or TDD: (800) 735-2922 for more information. Note: This material is based on work supported by the Department of Housing and Urban Development (HUD) under FHIP PEI Grant FPEI190035. Any opinion, findings, and conclusions or recommendations expressed in this material are those of the author(s) and do not necessarily reflect the views of HUD.

Summary: Access to Opportunity Issues

The analysis of access to opportunities revealed disproportionate access in three different communities: Northern Coastal West, Black Point-Greenpoint, and Marin City. Northern Coastal West Marin is not well connected by transportation to the rest of the County, and perhaps due to a lack of connection, also has low jobs proximity and economic scores., since the County's economic center is located in Central and Southern Marin. Northern Coastal West Marin also had low education outcomes. Shoreline School District (which serves Northern Coastal West Marin) had higher Educational Report than San Rafael School District but lower than Tamalpais Union School District. Specifically, students of color and White students in Shoreline Unified District had large gaps in their educational outcomes and all Shoreline students had the lowest College enrollment and college competition rates.

Marin City, which has already been identified as a RECAP and a community with a concentration of special needs population had mixed resources (moderate and high) but lower economic scores despite being close to the County's economic center. Marin City also ranked low in its Healthy Place Index and has seen issues of home loan discrimination that are attributed to past discriminatory practices such as redlining and undervaluation due to it concentration of Black/African American residents. Residents of Marin City also have limited access to protected open space.

Overall, Black Point-Green Point was classified as Moderate Resources and also had lower economic scores, lower jobs proximity scores, and lower education scores. However, the categorization of this community as Moderate Resource is almost exclusively derived from data points relating to the characteristics of the community, rather than its residents. Black Point-Green Point's lower jobs proximity score is likely due to the community's relative isolation in the north east corner of Marin and distance from the nearest jobs (the area's major retail corridors are located in the Vintage Oaks shopping Center, about 4-5 miles to the south east, and downtown Novato). Until the SMART train was fully implemented in 2017, the area was not served by transit and experienced a disconnect from the rest of the area. The nearest SMART train station (Novato San Marin) is located directly adjacent to the 101 freeway, and about 3 miles from the community. The 2016 Black Point-Green Point Community Plan notes the suggestion of a shuttle service linking the community to the station. The area is predominately residential and does not have any local serving commercial use, except for a small deli and storage facility. The nearest grocery store is in the Hamilton area of Novato, about 5-6 miles south. There is no school within the community's boundaries; children from the community must travel to other parts of Novato for school. Though these characteristics would often yield special needs or lack of resources, the area is not known regionally as such. The residents in Greenpoint - Black Point are predominantly rich, non-Hispanic white, and well-educated, and. it is likely that the TCAC methodology does not account for the unique characteristics of Black Point- Green Point

Disproportionate Needs

The AFFH Rule Guidebook defines disproportionate housing needs as a condition in which there are significant disparities in the proportion of members of a protected class experiencing a category of housing needs when compared to the proportion of a member of any other relevant groups or the total population experiencing the category of housing need in the applicable geographic area (24 C.F.R. § 5.152). The analysis is completed by assessing cost burden, overcrowding, and substandard housing.

The Comprehensive Housing Affordability Strategy (CHAS) developed by the Census for HUD provides detailed information on housing needs by income level for different types of households in Marin County. Housing problems considered by CHAS include:

- Housing cost burden, including utilities, exceeding 30 percent of gross income;
- Severe housing cost burden, including utilities, exceeding 50 percent of gross income;
- Overcrowded conditions (housing units with more than one person per room); and
- Units with physical defects (lacking complete kitchen or bathroom

According to CHAS data based on the 2013-2017 ACS, approximately 40 percent of Marin County households experience housing problems, compared to 35 percent of households in unincorporated Marin County. In both the County and unincorporated County, renters are more likely to be affected by housing problems than owners.

Cost Burden

Regional Trends

As presented in <u>Table D- 22</u>, in Marin County, approximately 38 percent of households experience cost burdens. Renters experience cost burdens at higher rates than owners (48 percent compared to 32 percent), regardless of race. Among renters, American Indian and Pacific Islander households experience the highest rates of cost burdens (63 percent and 86 percent, respectively). Geographically, cost burdened renter households are concentrated in census tracts in North and Central Marin in Novato and San Rafael (<u>Figure D- 37</u>). In these tracts, between 60 and 80 percent of renter households experience cost burdens. Throughout the incorporated County census tracts, between 40 and 60 percent of renter households are experiencing cost burdens. Cost-burdened owner households are concentrated in West Marin in the census tract surrounding Bolinas Bay and in Southern Marin within Sausalito (<u>Figure D- 38</u>).

<u>Table D- 22:</u> Housing Problems and Cost Burden by Race/Ethnicity – Marin County

Housing problems and cost burdens can also affect special needs populations disproportionately. <u>Table D- 23</u> shows that renter elderly and large households experience housing problems and cost burdens at higher rates than all renters, all households, and their owner counterparts.

<u>Table D- 23:</u> Housing Problems, Elderly and Large Households – Marin County

Source: HUD CHAS, (2013	Source: HUD CHAS, (2013-2017).							

Local Trends

Housing problem and cost burden rates are lower in the unincorporated County (35 percent and 34 percent, respectively, <u>Table D- 24</u>) than in the County overall (40 and 38 percent). However, trends of disproportionate housing problems and cost burdens for Black and Hispanic residents persist in the unincorporated County. About two-thirds of all Black and Hispanic households experience housing problems. Like in the County, owner households experience housing problems and cost burdens at lower rates than renter households in unincorporated areas... Also, owner housing problems and cost burden rates are similar for White, Black, and Asian owners, but higher for Hispanic households. This means that Hispanic households experience housing problems and cost burdens at the highest rates regardless of tenure.

Households	%						

Note: Used CHAS data based on 2013-2017 ACS despite more recent data being available because the ABAG Housing Data Needs Package presented CHAS data for the unincorporated County for this time frame. Unincorporated County data was calculated by aggregating the values for all the CDPs in the unincorporated county communities as follows: Black Point-Green Point, Bolinas, Dillon, Inverness, Kentfield, Lagunitas-Forest Knolls, Lucas Valley-Marinwood, Marin City, Muir Beach, Nicasio, Point Reyes Station, San Geronimo Santa Venetia, Sleepy Hollow, California, Stinson Beach, Strawberry, Tamalpais-Homestead Valley, Tomales, and Woodacre Source: HUD CHAS Data (based on 2013-2017 ACS).

As shown in <u>Figure D- 37</u>, the percentage of cost-burdened renter households varies across the unincorporated area. Southern Coastal West Marin, the Valley, Tam Valley, and Kentfield have the lowest concentration of cost-burdened renters. In these communities, fewer than 40 percent of renter households are cost burdened. Cost burdened renters are concentrated in Black Point-Green Point, Santa Venetia, and Marin City. In these tracts between 40 and 60 percent of owners are cost-burdened.

Smaller communities like Black Point-Green Point, Lucas Valley, Kentfield, and Tam Valley have lower shares of owner households experiencing cost-burdens (Figure D- 38). In these tracts, between 20 and 40 percent of owners pay more than 30 percent of their income in rent. The majority of the unincorporated County census tracts have between 40 to 60 percent of owner households experiencing cost-burdens except for Southern Coastal West Marin. Southern Coastal West Marin stands out as the tract with the highest concentration of cost-burdened owners. While the map in Figure D- 38 shows that between 60 and 60 percent of owner households are cost-burdened, the actual percentage of cost-burdened owners is 61 percent, making the rates similar to the rest of the unincorporated County tracts.

As in the County as a whole, owner special needs populations like the elderly and large households in the unincorporated communities do not experience housing problems or cost burdens disproportionately compared to all owners and all households in the unincorporated county (Table D- 25). About one-third of these special needs owner households experience housing problems- similar to all owners (31 percent) and lower than all households (36 percent). By contrast, renter elderly households and large households experience housing problems at similar rates than renter households but higher rates than all households in the unincorporated County. Overall, renter elderly households and renter large households are the most affected by housing problems- but different types. Whereas the share of elderly renter households experiencing housing problems and cost burdens is similar (46 percent and 42percent, respectively), there is a large gap in the share of renter large households experiencing any housing problem (42 percent) and cost burdens (26 percent). This means that 19 percent of the large renter households experiencing housing problems live in units with physical defects (lacking complete kitchen or bathroom or are living in overcrowded conditions.

<u>Table D- 25</u>: Housing Problems, Elderly and Large Households – Unincorporated County

	Owner-Occupied			Renter-Occupied			All HH
	Elderly	Large HH	All Owners	Elderly	Large HH	All Renters	
Any Housing Problem	34.1%	26.9%	31.3%	45.8%	45.2%	47.6%	36.3%
Cost Burden > 30%	24.1%	30.6%	34.5%	42.1%	25.8%	43.4%	34.5%

Note: Used CHAS data based on 2013-2017 ACS despite more recent data being available because the ABAG Housing Data Needs Package presented CHAS data for the unincorporated County for this time frame. Unincorporated County data was calculated by aggregating the values for all the CDPs in the unincorporated county communities as follows: Black Point-Green Point, Bolinas, Dillon, Inverness, Kentfield, Lagunitas-Forest Knolls ,Lucas Valley-Marinwood, Marin City, Muir Beach, Nicasio, Point Reyes Station, San Geronimo Santa Venetia, Sleepy Hollow, California, Stinson Beach, Strawberry, Tamalpais-Homestead Valley, Tomales, and Woodacre

Overcrowded Households

Regional Trends

Overcrowding is defined as housing units with more than one person per room (including dining and living rooms but excluding bathrooms and kitchen). According to the 2017 five-year ACS estimates, about 6.5 percent of households in the Bay Area region are living in overcrowded conditions (Table D- 26). About 11 percent of renter households are living in overcrowded conditions in the region, compared to three percent of owner households. Overcrowding rates in Marin County are lower than the Bay Area (four percent and 6.5 percent, respectively) and like regional trends, in Marin County a higher proportion of renters experience overcrowded conditions compared to renters. Overcrowded households in the region are concentrated in Richmond, Oakland, and San Francisco (Figure D- 39). At the County level, overcrowded households are concentrated North and Central Marin, specifically in downtown Novato and the southeastern tracts of San Rafael (Canal).

While the ACS data shows that overcrowding is not a significant problem, it is likely that this data is an undercount, especially with families who may have undocumented members. It is also likely that agricultural worker housing is overcrowded and undercounted.

While the lack of affordable housing exists throughout the County, the challenges of housing permanent, agricultural workers is further complicated because housing is often provided on-site by employers/ranchers and ties the workers' housing to their employment with the owner/rancher. Similar to other low-income populations in the County, the lack of affordable housing options may force many agricultural families to live in compromised conditions, including substandard housing units and overcrowded living situations.

	Bay Area	Marin County
Owner-Occupied	3.0%	0.8%
Renter Occupied	10.9%	9.4%
All HH	6.5%	3.9%

D-120 Marin Countywide Plan

Local Trends

While Figure D- 39 shows that overcrowding rates are similar across all census tracts in the county, the map shows overcrowding rates for renters and owners combined. Within the unincorporated County, renter households are affected by overcrowding at significantly higher rates than owner households (Table D- 27). Marin City renter households experience high rates of overcrowding- about one in five renter households are reported to be living in overcrowded conditions. Renter households in the Valley have the second highest overcrowding rate in the unincorporated County. For owner households, Southern Coastal West Marin and Santa Venetia renter households experience overcrowding disproportionately compared to all other owner households in the unincorporated County.

According to 2014-2019 ACS estimates, Hispanic/Latinx households are disproportionally affected by overcrowded conditions. About 15 percent of Hispanic/Latinx households are overcrowded, compared to four percent of Asian households and two percent of White non-Hispanic households. ⁴⁹ Overcrowding also affects extremely low income households more than any other income group (Figure D- 40). In fact, overcrowding rates generally decrease as income level increases.

D-122 Marin Countywide Plan

⁴⁹ Overcrowding estimates were zero percent for American Indian/Alaska Natives and Black/ African American, and nine percent for other race or multiple races. Source: U.S. Census Bureau, American Community Survey 5-Year Data (2015-2019), Table B25014, from ABAG Data Package.

Figure D- 40: Overcrowding by Income Level

Notes: The Census Bureau defines an overcrowded unit as one occupied by 1.01 persons or more per room (excluding bathrooms and kitchens). Income groups are based on HUD calculations for Area Median Income (AMI). HUD calculates the AMI for different metropolitan areas, and the nine county Bay Area includes the following metropolitan areas: Napa Metro Area (Napa County), Oakland-Fremont Metro Area (Alameda and Contra Costa Counties), San Francisco Metro Area (Marin, San Francisco, and San Mateo Counties), San Jose-Sunnyvale-Santa Clara Metro Area (Santa Clara County), Santa Rosa Metro Area (Sonoma County), and Vallejo-Fairfield Metro Area (Solano County). The AMI levels in this chart are based on the HUD metro area where this jurisdiction is located.

Source: U.S. Department of Housing and Urban Development (HUD), Comprehensive Housing Affordability Strategy (CHAS) ACS tabulation, 2013-2017 release. From the ABAG Data Package.

Substandard Conditions

Regional Trends

Incomplete plumbing or kitchen facilities can be used to measure substandard housing conditions. Incomplete facilities and housing age are estimated using the 2015-2019 ACS. In general, residential structures over 30 years of age require minor repairs and modernization improvements, while units over 50 years of age are likely to require major rehabilitation such as roofing, plumbing, and electrical system repairs.

According 2015-2019 ACS estimates, shown in <u>Table D- 28</u>, only about one percent of households in the Bay Area and Marin County lack complete kitchen and plumbing facilities. Incomplete kitchen facilities are more common in both the Bay area and Marin County and affect renter households more than renter households. In Marin County, one percent of households lack complete kitchen facilities and 0.4 percent lack complete plumbing facilities. More than 2 percent of renters lack complete kitchen facilities compared to less than one percent of renter households lacking plumbing facilities.

⁵⁰ JADUs may not be visible from the street as a separate unit or require a separate address. Given that number of JADUs and the American Community Survey (ACS) data is based on a small sample, it is unlikely that JADUs would impact the data in any significant manner.

Table D- 28: Substandard Housing Conditions –Bay Area and Marin County						
	Bay	Area	Marin County			
	Lacking complete kitchen facilities	Lacking complete plumbing facilities	Lacking complete kitchen facilities	Lacking complete plumbing facilities		
Owner	0.3%	0.2%	0.2%	0.3%		
Renter	2.6%	1.1%	2.4%	0.6%		
All Households	1.3%	0.6%	1.0%	0.4%		
Source: American C	ommunity Survey, 2015	-2019 (5-Year Estimates	s).			

Like overcrowding, ACS data may not reflect the reality of substandard housing conditions in the County. Staff has heard code enforcement complaints on substandard conditions relating to lack of landlord upkeep/care like moldy carpets, delay in getting hot water back, especially from the Hispanic/Latin community.

Housing age can also be used as an indicator for substandard housing and rehabilitation needs. As stated above, structures over 30 years of age require minor repairs and modernization improvements, while units over 50 years of age are likely to require major rehabilitation. In the County, 86 percent of the housing stock was built prior to 1990, including 58 percent built prior to 1970. Figure D- 41 shows median housing age for Marin County cities and unincorporated communities Central and Southern Marin, specifically the cities of Ross, Fairfax, and San Anselmo, have the oldest housing while Novato, Black Point-Green Point, Nicasio, Muir Beach, and Marin City have the most recently built housing.

<u>Figure D- 41:</u> Median Housing Age by Marin County Cities and Unincorporated Communities

Source: 2015-2019 ACS (5-Year Estimates).

Local Trends

As in the County as a whole, unincorporated County communities are more likely to lack complete kitchen and plumbing facilities in renter households at higher rates than owner households (<u>Table D- 29</u>). Similar to the County as a whole, rates of substandard housing conditions are less than two percent regardless of tenure.

<u>Table D- 29:</u> Substandard Housing Issues in Unincorporated County						
Building Amenity	Kitchen	Plumbing				
Owner	0.2%	0.3%				
Renter	1.4%	0.8%				
Notes: Per HCD guidance, this data should be supplemented by local estimates of units needing to be rehabilitated or replaced based on recent windshield surveys, local building department data, knowledgeable builders/developers in the						

community, or nonprofit housing developers or organizations.
Source: U.S. Census Bureau, American Community Survey 5-Year Data (2015-2019), Table B25053, Table B25043, Table B25049. From ABAG Data Package.

Estimating the number of substandard units in the County is difficult since code enforcement is complaint driven (for the County's Code Enforcement agency) and inspection of multi-family units (3+) is voluntary through the Environmental Health Services (EHS). According to County Code Enforcement, most of the complaints related to substandard housing are from neighbors related to animal or insect infestation that's

perceived to come from another unit or home. In most cases, these complaints are not substantiated. Therefore, the County does not have any standardized count of substandard units.

EHS inspects all buildings that are have three or more units every other year. However, this inspection is voluntary and requires tenant authorization. Of the units EHS inspects, only a "handful" were considered substandard. However, there are several 3+ unit buildings that seem very much substandard that EHS has not been authorized to inspect, especially in West Marin. Marin Housing Authority conducts inspections at a more regular basis as part of Housing Quality Standard inspections of units receiving housing choice vouchers. Fail rates between 2017 and 2021 ranged from 28 percent to 31 percent. However, data was not provided by community/area. Units fail if they don't meet HUD's Housing Quality Standards "HQS" for decent, safe and sanitary housing. Examples of reasons for failing include: Missing or inoperable smoke detectors; appliances not working; windows or doors not locking or operating as designed; electrical hazards; and unsafe conditions interior or exterior.

Within the unincorporated County, the Valley, Southern Coastal Western Marin, and Tam Valley have the largest proportion of housing build before 1990 (Figure D- 42). More than 90 percent of housing units in these communities are more than 30 years old. By contrast, Black Point-Green Point, Central Coastal West Marin, and Marin City have the largest percentage of housing stock build after 1990. About 20 percent of housing units in these communities is less than 30 years old.

Figure D- 42: Age of Housing by Unincorporated Community

Homelessness⁵¹

Categories of housing needs include not only such factors as cost burden, overcrowding, and substandard housing conditions but also homelessness.

Protected Groups

Homelessness in the County has a disparate impact on protected classes. According to the data collected during the 2019 Point in Time⁵² count and the needs assessment conducted to inform the Marin County 2020-2024 Consolidated Plan, the populations being impacted disproportionately by homelessness include African American individuals, families, individuals with mental and physical disabilities, and older adults in the very low and low income range.

The 2019 PIT count found that Black or African American individuals were overrepresented in the homeless population (Table D- 30). While Black residents made up 5% of the general population in the County, they made up 17% of the homeless population in 2019. Black or African American individuals were also overrepresented in homeless subpopulations- they represented about 22% of homeless individuals in families and 15% of the older (over 60 years old) homeless population.

<u>Table D- 30: General County Population vs County Homeless Population by</u> Race /Ethnicity (2019)

	General Population	
<u>White</u>	<u>71.2%</u>	<u>66.0%</u>
Black/African American	<u>2.1%</u>	<u>17.0%</u>
Multi-Race/Other	<u>4.7%</u>	<u>11.0%</u>
American Indian/Alaska Native	<u>0.2%</u>	<u>3.0%</u>

<u>Latinx/Hispanic</u>	<u>16.0%</u>	<u>19.0%</u>

Sources: 2019 Marin County Homeless County and Survey Comprehensive Report; 2015-2019 American Community Survey

National data from 2018 suggest that 33% of all people experiencing homelessness are persons in families.⁵³ In Marin County, 15 percent of persons experiencing homelessness in the 2019 PIT count were persons in families. The 2019 PIT count also reported that nationally, the majority of families experiencing homelessness are households headed by single women and families with children under the age of six. The 2019 report did not

⁵¹ Analysis of disparate impacts on protected classes only available at County level (not unincorporated county level) because the 2019 Marin County Homeless County and Survey Comprehensive Report provides population character tics for the entire County population surveyed.

⁵² While the PIT Count is normally conducted every two years, the 2021 count was delayed to 2022 due to the COVID-19 pandemic. Only preliminary results of Marin County's 2022 PIT Count have been released as of November 2022 and do not include survey results or characteristics of the homeless population. The 2019 PIT results are used for this analysis,

⁵³ U.S. Department of Housing and Urban Development. (2018). The 2018 Annual Assessment Report (AHAR) to Congress. Retrieved 2019 from https://www.hudexchange.info/resources/documents/2018-AHAR-Part-1.pdf as cited by the 2019 Marin County Homeless County and Survey Comprehensive Report.

provide data on the family type for families experiencing homelessness. However, given that single female-headed households with children have the highest rates of poverty in the County(15.4 percent, Table D- 31) and poverty is a risk factor for homelessness, single female-headed households with children may be disproportionately impacted by homelessness in the County.

Table D- 31: Poverty Rates for Families- Marin County (2019)						
Family/Household Type						
All Families	<u>66,052</u>	<u>2,477</u>	<u>3.8%</u>			
All Families with children	<u>29,767</u>	<u>1,568</u>	<u>5.3%</u>

Persons with disabilities are also disproportionately affected by homelessness in the County as health conditions affect the housing stability or employment. In 2019, 38% of respondents reported having a disabling condition that prevented them from working or maintaining stable housing. Two-thirds (66%) of respondents reported experiencing at least one health condition, with 42% reporting a psychiatric or emotional condition, 35% reporting Post-Traumatic Stress Disorder, and 29% reporting chronic health problems. About 25% of respondents also reported having a physical disability. Thus, it is important to consider accessibility to the location of homeless services.

Older adults have the compounding factors of having lower incomes and disabilities that put them at higher risk of homelessness. The number of older adults experiencing homelessness has risen in accordance with the overall growth of the older adult population in the County. While homeless older adults have not been identified as a specific subpopulation of interest by the federal government, Marin County recognized the growing trend and initiated an effort to gather additional information on the population in the 2019 PIT. Older adults and those under age 60 identified similar causes of homelessness. For both populations, economic issues such as job loss and eviction was the primary reason for homelessness. Fifty-eight percent (58%) of older adults cited economic issues, 30% cited personal relationship issues, and 16% reported mental health issues as the primary cause of their homelessness.

A key divergence between persons under 60 and over 60 experiencing homelessness is in the length of homelessness. Older adults were almost twice as likely to be likely to be homeless for 11 years or more than those under age 60, (29% and 15%, respectively). Eighty-six percent (86%) of older adults reported being homeless for one year or more compared to 77% of those under age 60.

Access to Services

According to the 2019 PIT Count, North Marin and Central Marin had the highest share of the population experiencing homelessness (Table D- 32). In 2019, about 30% and 36% of the homeless population resided in North and Central Marin. Among the

unincorporated County areas, West Marin had the highest concentration of homeless population, with 13.5% of the County's total homeless population. West Marin also had the highest percentage change between 2017 and 2019. In 2017, only 8.9% of the County's homeless population resided in West Marin while in 2019, 13.5% of the County's homeless population was counted in West Marin. This represented a 41 percent increase in the homeless population in West Marin from 99 to 140 persons. The share of homeless population in North and Central Marin actually decreased between 2017 and 2019. The data indicates the need to continue to provide services in North and Central Marin and the growing need in West Marin.

When asked what services they would most like to access in the 2019 PIT County, 42% of respondents requested housing placement assistance, followed by free meals (38%), bus passes (38%), and emergency shelter (34%).

In addition, there are numerous community-based services and programs made available to individuals experiencing homelessness. These services range from day shelters and meal programs to job training and healthcare. Figure D- 43Figure D- 31: shows the

location of homeless services that appear through a Google search in Marin County. Most service locations appear to be along major transportation corridors, such as Highway 101. Figure D- 43 in the Transportation section above shows that transit routes mirror the location of homeless services. On July 1, 2020 Marin Transit introduced an expanded Low-Income Fare Assistance (LIFA) program. Eligible riders can receive \$20 of credit per month to use for trips on local Paratransit, Pt. Reyes Dial-A-Ride, Dillon Beach Dial-A-Ride, and the base fare for Catch-A-Ride. Eligible riders can opt-in to receive a free pass to use on Marin Transit local bus service.

Community Action Marin, a non-profit social service agency, also has Community Alternative Response (CARE) homeless outreach teams, through which vital support and assistance to unhoused people throughout Marin County is provided. CARE teams are often the first point of contact for people experiencing homelessness. CARE teams find people in need of service and help them in simple ways like wellness checks, bringing people food, socks or sleeping bags, or transportation to a detox center, homeless shelter or hospital, until they are receptive to accessing services.

The mobile CARE (Community Alternative Response Engagement) Teams can be contacted across Marin County by the geography they cover:

CARE I - All Marin County: 415.847.1266

CARE II – Downtown San Rafael: 415.847.6798

CARE III - Novato: 415.302.0753

<u>CARE IV – All Marin County: 415.599.5200</u>

Displacement Risk

Regional Trends

UC Berkley's Urban Displacement project defines residential displacement as "the process by which a household is forced to move from its residence - or is prevented from moving into a neighborhood that was previously accessible to them because of conditions beyond their control." As part of this project, the research has identified populations vulnerable to displacement (named "sensitive communities") in the event of increased redevelopment and increased housing costs. They defined vulnerability based on the share of low income residents per tract and other criteria including: share of renters is above 40 percent, share of people of color is more than 50 percent, share of low income households severely rent burdened, and proximity to displacement pressures. Displacement pressures were defined based on median rent increases and rent gaps. Using this methodology, sensitive communities in the Bay Area region were identified in the coastal census tracts of Contra Costa, Alameda, and San Francisco County, specifically in the cities of Vallejo, Richmond, Berkeley, Oakland, and San Francisco (Figure D- 44). In Marin County, sensitive communities were identified in the cites of Novato and San Rafael, and the unincorporated areas of Marin City, Strawberry, Northern and Central Coastal West Marin and Nicasio in the Valley.

Local Trends

As stated above, the sensitive communities identified in the unincorporated county are located in Marin City, Strawberry, Northern and Central Coastal West Marin and Nicasio in the Valley. These communities have also been identified in earlier sections as having disproportionate housing needs, especially Marin City.

Marin City has a confluence of factors that make its residents susceptible to displacement. In addition, the displacement pressures appear to be disproportionately affecting African American residents. As discussed in earlier sections, Marin City has a high concentration of African American residents though this share has been decreasing since the 1980s. In Marin City, permanent low-income housing is allowing many residents to stay in Marin and in an area where African Americans feel comfortable living. While many residents wish to stay in their community, many African American residents are leaving Marin City due to lack of affordable housing in Marin City or in Marin in general. In 1980, 75 percent of Marin City residents were African American compared to 23 percent in 2019. Marin City is one of the most affordable areas with a large concentration of multifamily housing and more affordable housing stock (condos and townhomes) for the workforce in both Marin County and San Francisco's commuting workforce. UC Berkley's Urban Displacement Project has published a case study on gentrification and displacement pressures in Marin City.⁵⁴ According to the study, "concern in this community is future displacement due to potential increases in population, interest in redevelopment and the continued pressures of being surrounded by affluent neighbors in one of the most exclusive counties in the country."

On a broader scale, West Marin is also feeling the effects of the growing divide between wealth and poverty in the Bay Area. Increasing home prices, increased short-term rentals and second home-owners are forcing people to move further from their areas of employment. Undocumented immigrants who work in agriculture and are often isolated by living conditions, language and culture are severely affected by the lack of low-income housing which put workers in vulnerable positions. "With housing so difficult to find, many residents don't complain about substandard conditions or report them to authorities, for fear of finding themselves with no housing at all." These workers who are the foundation of the economy both in agriculture and the service sectors cannot afford to live near their jobs and are forced to have long commutes as the tourist industry continues to grow.

Short-Term Rentals

Online platforms for rental of private homes as commercial visitor accommodations have become a popular amenity for travelers and property owners. The services have also created a multitude of challenges for communities everywhere, most notably around neighborhood disruption, service needs, and housing supply and affordability.

Community discussions connected with the Housing Element effort have indicated that STR uses may be affecting the supply and affordability of housing, particularly in West Marin communities which have become increasingly attractive to homebuyers and where

⁵⁴ https://www.urbandisplacement.org/wp-content/uploads/2021/08/marin_city_final.pdf

there are relatively small numbers of homes. Overall, it appears that in the context of labor shortages, increased costs, and demand, STRs are increasingly impacting the health and safety of local communities, especially in the West Marin Area. <u>Table D-33</u> shows the concentration of STRs in West Marin. About 70 percent of the County's STR properties (476) are located in West Main. Within West Marin, Dillon Beach, Muir Beach, Stinson Beach, and Marshall have the highest concentration of STRs. More than 20 percent of these communities' housing stock are registered as STRs.

Table D- 33: Short Term Rental Distribution on West Marin

	# of STR properties	# of residential properties with at least 1 living unit ²	Proportion of STRs

Marin County	677	82,043	0.8%

¹ Marin County Department of Finance Business License, www.marincounty.org/bl, Retrieved 01/24/22.

Housing shortages and prices are affected by the use of homes as STRs instead of residences. Of the approximately 5,250 residentially developed parcels in West Marin, 551 are currently registered with a valid Business License and Transient Occupancy Tax Certificates, the two required licenses currently needed to legally operate an STR. In some cases existing housing is converted to STR use, and in other cases newly constructed units or ADUs are used as STRs rather than adding to the County's housing supply. A

² 2021 Marin County Assessor-Recorder Secured Roll Data File

significant proportion of the housing in some communities has been converted to commercial use in the form of STRs; for example, 20 percent of all housing units in Marshall and 22 percent in Stinson Beach are registered as STRs.

In addition, only 2,251 of the approximately 5,250 developed lots in the West Marin area receive the Primary Home Tax Exemption, indicating that 2,999 properties may not be in use as full-time homes. While all are not currently operating as STRs, the flexibility and the income generated by STRs, where nightly rates can range up to over \$1,000/night, in comparison to that earned with a long term rental is likely an incentive for property owners to seek STR use serving visitors rather than traditional rental housing for a community of residents. This condition has led to growing concerns in West Marin communities about impacts of STRs on the availability of housing for workforce, families, and community members.

On August 7, 2018, the Marin County Board of Supervisors adopted the County's first STR ordinance (Ordinance No. 3695) with a limited, two-year term. The ordinance requires neighbor notification of STRs, requires renters be provided with "good neighbor" house rules, and establishes a short-term rental hotline for complaints (which is currently operated by Host Compliance, the County's third party STR monitor). Additionally, the Ordinance requires STR operators register for a Business License and TOT Certificate, providing accountability and payment of taxes and fees commensurate with the commercial use.

On May 2022, the County Board of Supervisors adopted an urgency ordinance establishing a moratorium on new short-term rental registration in the West Marin Area, also known as the Measure W or West Marin Transient Occupancy Tax (TOT) Area, to maintain stability in housing supply while County staff evaluates policies and contemplated zoning proposals to improve the availability of middle- and lower-income housing in the West Marin Area, while maintaining existing coastal access.

Santa Venetia's Housing Needs

Santa Venetia's racial composition has changed significantly in the past decade, notably that of the Hispanic/Latin community. In 2010, about 24.0 percent of the community identified as Hispanic/Latin, as opposed to 5.7 percent in 2019. The County has been engaging with the Santa Venetia community through a committed County-led initiative called "Community Conversations". These meetings have been occurring monthly or bimonthly since Fall 2021 and are led in Spanish with English interpretation. Through this initiative, the County has learned about the needs of this community, and the specific housing needs of the Hispanic/Latin community. These meetings are hosted by the Venetia Valley K-8 school, whose students are 86.4 percent Hispanic/Latin (2021-22 California Department of Education). The following topics were brought up by the community and representatives were invited to speak directly to community members and answer questions:

- Need for more affordable housing participants ask about location of available affordable units in the County and are actively looking to apply to remain housed.
- Specific interest in Section 8 housing representative from MHA came to talk about it to address questions/interest from the community from previous meetings. Interested in learning if any vouchers are available and how to apply and access.
- Habitability representative from County's Environmental Health Services EHS)
 Multi-Family Inspection Program came to discuss how to report habitability issues.
 Explained tenants' rights when experiencing this issue. Questions that were
 addressed include: how to request inspection; how/when to involve landlord; fears
 around retaliation (confirmation that landlord will not be notified without tenant
 permission)
- Rental Assistance first meeting was held in Fall 2021 and impacts of COVID were still being acutely experienced by the community. Per suggestion from Venetia Valley school staff, the County asked representatives from the County's Rental Assistance program to set up a table and answer questions/search applications.
- Tenant Legal Assistance representative from Legal Aid of Marin came to discuss tenants' rights and landlord responsibilities

Based on this engagement process that County has included actions in its Housing Plan to address the needs of Santa Venetia residents.

Summary: Disproportionate Needs

Disproportionate needs in unincorporated County communities were more apparent by income level, tenure, and race. As a result, some areas with concentrations of these populations also had disproportionate housing needs. Black and Hispanic renters tended to have the highest rates of cost burdens compared to other races and owners. While more than 50 percent of all Black and Hispanic households experience cost burdens, cost burden rates for Black or Hispanic renters are even higher (about 60 percent). Geographically, tracts in Northern Coastal west Marin, Black Point-Green Point, and Marin City had the highest rates of cost burdened renters.

Overcrowding and substandard conditions rates were low overall in unincorporated communities but renters in Marin City and the Valley had disproportionately high rates of overcrowding compared to other communities. Of note is that both Marin City and the Valley have significant shares of renter households, 73 percent and 24 percent, respectively. In addition, lower income households were more likely to live in overcrowded conditions.

Not only are residents in Northern Coastal West Marin and Marin City experiencing housing problems at higher rates than other communities in the region, these communities have also been identified as being at risk of displacement. This indicates a need to increase the availability of affordable housing within these communities as well as outside to facilitate the mobility of residents out of these areas and to protect existing residents from displacement when place-based strategies and investments improve the

conditions of the area. Some actions to ameliorate displacement risk include Measure W and the identification of RHNA sites of mixed-income in these areas.

E. Site Inventory

HCD requires the City's sites inventory used to meet the RHNA affirmatively furthers fair housing. This includes ensuring RHNA units, especially lower income units, are not disproportionately concentrated in areas with populations such as racial/ethnic minority groups, persons with disabilities, R/ECAPs, cost burdened renters, etc. For the purposes of analyzing the City's RHNA strategy through the lens of Affirmatively Furthering Fair Housing, the sites inventory is shown at the tract level by Community (Table D- 34).

North Marin

North Marin is made up of the unincorporated communities of Black Point-Green Point and Lucas Valley-Marinwood. As shown in <u>Table D- 35</u>, <u>780</u> total RHNA units (2<u>1</u> percent) are distributed in the North Marin communities of Black Point-Green Point, Lucas Valley-Marinwood, and other areas in North Marin not associated with either CDP. The County has allocated <u>111 above-moderate income units</u> in Black Point-Green Point. Black Point-Green Point is made up of moderate resource tracts with an average minority population of <u>31 percent</u> and LMI population of <u>53 percent</u>.

The adjacent community of Lucas Valley-Marinwood is considered Highest Resource and has nonwhite population of 26 percent and LMI population of 20 percent. The County has allocated 273 lower and moderate income units in Lucas Valley. This unit distribution is intended to improve the availability of affordable housing in a high resource area. Cost burdens in Lucas Valley-Marinwood is highest between the two North Marin communities (49 percent for renters and 39 percent for owners). Lower income housing can also improve cost burdens in the area by increasing the availability of lower income housing for renters.

West Marin

West Marin covers the coastal areas of the County as well as the Valley in the middle of the County. Northern Coastal West Marin is a low resource area, also considered an LMI area, with high shares of cost burdens for renters (43 percent) and owners (49 percent). The County has allocated 60 RHNA moderate and above-moderate income units in this community. Lower income units were not allocated here to avoid placing housing in an area that has low infrastructure and connectivity of the County's economic center and services.

Central Coastal West Marin has a tract with moderate resources (for the CDPs along the coast) and low resources (for the CDPs in the Valley). Both tracts in Central Coastal West Marin have similar shares of LMI population and cost burdens for both renters and owners. The County has allocated 156 RHNA units of all income levels in this community-149 lower income, three-moderate income, and four-above moderate. All 149 lower income units are located in Point Reyes Station- within a low resource tract. However, many of the sites in Point Reyes are vacant and public sites and are more likely to develop affordable housing than in surrounding underutilized sites.

Southern Coastal West Marin is considered a high resource tract. This tract has less than 1,000 units and the County has allocated 26 mixed income RHNA units in this area. Units are both in Stinson Beach and Bolinas, but the 13 lower income units in the area are located in Bolinas as part of Credit projects. These units increase the availability of affordable units in an area with high resources.

The Valley is located inland in the County, and has tracts with a mixture of resources-Highest in the Lagunitas, Woodacre, San Geronimo area and low in isolated Nicasio. Despite their differences in resources, the tract's population characteristics are similar for nonminority concentration, LMI population, and owner cost burdens. However, overcrowding and renter cost burden is higher in tract 33000. The County has allocated a total of <u>97</u> RHNA units in The Valley, with the majority (81) in the tract with the highest resources. Of the <u>48</u> combined lower income units in both of the tracts, <u>32</u> are in the tract with highest resources. This should increase the availability of low income housing in high resource areas in the Valley community.

Overall, <u>453</u> RHNA units (<u>12</u> percent) were distributed in West Marin, which has one of the lowest population densities in the County but the largest land area. The County took care to distribute units in a way to both increase housing availability of all incomes as well as allocating lower income units in areas with high resources and/or with access to infrastructure. About <u>60</u> percent of the units <u>in sites</u> in West Marin are lower income <u>(274)</u>, and most (109) are in Central Coastal West Marin.

Central Marin

Central Marin is one of the most densely populated areas in the County, but the majority of the land area is made up of incorporated cities. Kentfield/Greenbrae and Santa Venetia/Los Ranchitos are the only unincorporated communities in the area. However, these two communities are located at opposite ends of Central Marin and have differing levels of resources. Kentfield/Greenbrae is made up of high/highest resource tracts while Santa Venetia/Los Ranchitos has lower resources. There are also large areas of unincorporated land not belonging to either community where the County has allocated 539 RHNA units. Of the 1,625 total RHNA units in Central Marin, 225 are located in Kentfield/Greenbrae. About half of the units in Kentfield/Greenbrae (130) are on sites suitable for lower income households- thus providing affordable housing in an area with high resources. In Santa Venetia/Los Ranchitos, where resources are moderate, most of the units (561 of 861) are lower income units. Most of these units are designated for the St Vincent's site and have a high probability of being developed as lower income housing due to incentives for lower income housing development on religious sites.

The remaining <u>539</u> RHNA units in Central Marin are spread out in areas not within Kentfield/Greenbrae or Santa Venetia/Los Ranchitos. These areas range in resources from Highest to Moderate. However, the majority of these units are located in the northern end of the County (near Fairfax, <u>California Park, Lucas Valley, and Sleepy Hollow</u>). Most of the sites designated for lower income units (<u>221</u> of <u>247</u>) located in "other" areas of Central Marin are in High and Highest resource tracts.

Southern Marin

Southern Marin is made up of a mixture of unincorporated communities- Marin City, Strawberry, Tam Valley, as well as -incorporated cities:- Mill Valley, Sausalito, Tiburon, and Belvedere. Southern Marin, while predominantly High and Highest resource, also has Marin City, which has been identified as being a racially and ethnically segregated area of Poverty (RECAP), has a higher share of single-female headed households with children and persons with disabilities than other unincorporated communities, has disproportionate access to opportunities and disproportionate needs, and is a historically Black/African American community that has been impacted by discriminatory policies, redlining, and even was even the subject of discriminatory home lending headlines in 2021.

About 22 percent of the unincorporated County's RHNA (802 units) is located in Southern Marin-266 lower income, 137 moderate income, and 399 above moderate income. Of these 802 units, 286 are located in Marin City. In an effort to avoid the concentration of lower income units in an area already with a concentration of LMI population, yet with a need for affordable housing units (about 30 to 56 percent of renters are cost burdened), the County allocated 94 lower income units in Marin City, while the rest are Moderate and Above Moderate income. Most of these lower income units (74) are located in the tract with the highest percentage of cost burdened renters. The existing residents are also vulnerable to displacement so the County has included considerations for more robust tenant protections in its 6th Cycle Housing Element Programs.

In Strawberry, where resources are "highest", the County has allocated <u>354</u> RHNA units, split <u>across all</u> income <u>levels</u>. Despite both tracts being considered highest resource, one tract (25000) has a considerably higher concentration of LMI population, and cost burdened renters and owners (57 percent and 41 percent, respectively). All lower income units in Strawberry are within the tract with the highest concentration of cost burdened households. This strategy helps increase the availability of affordable housing in an area with disproportionate needs but highest resources.

The County allocated <u>130</u> RHNA units in Tam Valley, split between <u>lower</u>, moderate and above moderate income. This community has one of the highest concentration of cost burdened owners in Southern Marin and all of Marin County in <u>Tract 30202 (64 percent)</u>. Above Moderate units in this tract can help improve conditions for owner households by increasing the supply of housing.

though <u>Figure D- 55:</u> and <u>Table D- 37</u> through <u>Table D- 47</u> under section F. RHNA Unit Distribution by Fair Housing Characteristics show the distribution of RHNA units relative to a variety of characteristics that impact fair housing choice.

F. Identification and Prioritization of Contributing Factors

<u>Table D- 36</u> below shows a Summary Issues and Identification and Prioritization of Contributing Factors based on the analysis presented above. Meaningful actions to address these issues are described in detail in the Housing Element's Program Section.

<u>Table D- 36</u> : Summary Issues and Identification and Prioritization of Contributing Factors				
Issue/Justification	Contributing Factor	Priority	Program	
Fair Housing Outreach and Education Disability status is the most common basis for discrimination complaints. Testing on the basis of disability in the County revealed that persons with disabilities most to have received less favorable treatment or more likely	Higher discrimination in private small landlord market Lack of property owner/landlord education.			
to be denied reasonable accommodations. Most importantly, testing revealed higher rates of discrimination on the basis of disability in properties with less than 11 units, indicating a need for increased fair	Lack of property owner/landlord education.	High	30	
housing education with "mom and pop" landowners. Source of Income Protection has been protected since 2017 in the County and has become protected under California Law since 2020. Testing in Marin County has also revealed discriminatory treatment for all HCV holders, but higher rates for Latinx and Black HCV holders. Of note is the finding that landlords made exceptions of HCV holders for White residents in areas of high opportunity. This indicates a higher need for outreach education on Source of Income and Race in areas with high resources. Information about all protected classes as well as source of income protection needs to be disseminated to both landlords and residents.	Testing is complaint-based and discrimination based on disability is more apparent. Reporting based on disability may be an overrepresentation of the discrimination activity occurring. Residents need to know their fair housing rights.	Moderate	30,32	
Because discrimination in the private market is higher for landlords with buildings with a lower number of units, the County is placing high priority on education to landlords- particularly landlords of smaller buildings (townhomes, condos, ADUs).				
Because testing is complaint-based, the County is placing moderate priority to extending education to residents. Residents need to know the fair housing resources available and their fair housing rights. For this				

reason the County is prioritizing outreach and education, both to residents and realtors.			
Integration and Segregation Most communities in unincorporated Marin are predominantly white. Marin City has the highest concentration of Black/African American and Hispanic/Latinx residents compared to other unincorporated communities. In addition, Marin City was identified as R/ECAP, indicating a concentration of minority population and poverty. Marin City also has the highest concentration of persons with disabilities and single-female	Concentration of low income housing (associated with special needs populations and minority population) in the Marin City attributed to historical settlements, discriminatory practices, and land use policies.	High	10, 12, 27, 29
the highest concentration of persons with disabilities and single-female headed households with children compared to other unincorporated communities. This indicates a concentration of special needs populations within Marin City. Not only are there areas of concentrated special needs populations and poverty, but affluent and white populations also appear to be concentrated and segregated from these populations. Regional trends show that white residents and above moderate-income residents are significantly more segregated from other racial and income groups. This trend is also seen in unincorporated Marin County where Above Moderate-income residents are the most isolated income group while very-low income communities have become more isolated. As a result, very-low income communities and above moderate communities remain moderately segregated (compared to slightly lower segregation indices between lower income residents and non-lower income residents).	Lack of opportunities for residents to obtain housing in areas of higher opportunities .	High	2,4, 5, 6, 14, 24
The County is placing a high priority on housing mobility strategies to facilitate the movement of persons from areas with high concentration of special needs populations (especially Marin City) to other high resource areas and on facilitating affordable housing production. Actions include considering concessions/incentives for universal design, facilitating ADU construction, an SB9 mapping tool, efficient use of multi-family land, by-right approval in reuse sites for lower income units and streamlining approval, and addressing infrastructure constraints to residential development. On the other hand, the County has signed a voluntary agreement with HUD to not invest in any more affordable housing in Marin City to avoid the overconcentration of low income housing.			

			I
The County is placing a high priority on Place-Based strategies to improve the condition of Marin City. This includes objective design standards for off-site improvements to streamline timelines and improve certainty across all unincorporated communities as well as increasing investment in Marin City neighborhood improvement.			
Access to Opportunities	Development patterns and land	Low	
The analysis of access to opportunities revealed disproportionate access in three different communities: Northern Coastal West, Black Point-Greenpoint, and Marin City. Northern Coastal West Marin is not well connected by transportation to the rest of the County, and perhaps due	use policies isolating West Marin, especially Northern Coastal West Marin, from areas of high opportunity		
to a lack of connection, also has low jobs proximity and economic scores. The County's economic center is located in Central and Southern Marin. Northern Coastal West Marin also had low educational outcomes.	Lack of opportunities for residents to obtain housing in higher opportunity areas	High	1, 4, 5, 24
Marin City, which has already been identified as a RECAP and a community with a concentration of special needs population, was classified as being predominantly moderate resource. Marin City's lower TCAC composite score (compared to its neighboring areas) is due to its lower economic score. Since the TCAC score is a combination of poverty, adult education, employment, job proximity, and median home value, but Marin City is close to the County's employment centers, the resources most necessary in the area are related to improving the human capital- poverty, education, employment, as well as neighborhood improvements to increase home values. Home values are also directly linked to past discriminatory practices that did not allow Black residents to move to other areas and remain in Marin City. As early as 2021, Marin City also has seen complaints of home loan discrimination. Residents of Marin City also have limited access to protected open space.	Low opportunities and resources in Marin City due to lack of human capital and home values	High	10,12,27, 29
Black Point- Green Point in North Marin also had moderate TCAC resource scores accompanied by lower education scores and lower jobs proximity and lower economic scores. However, this area is not known regionally to lack resources or have special needs. The population in the area is White, affluent, and well educated.			

West Marin has historically been rural with a focus on agriculture, open space preservation, and park lands. Northern Coastal West Marin is not well connected to the rest of the County where there are more job opportunities and higher overall resources. Further impacting the area is the Coastal Act, which preserves access to the coast and promotes visitor serving uses over uses for local residents. Since overall population density is low in these areas and residential development in these areas are limited by the Coastal Act, the County is placing low priority in addressing the land use patterns in West MarinMCCDC) and improve neighborhood through community planning. The first community plan for the 6 th Planning Cycle for Marin City has already secured funding through ABAG.			
Disproportionate Needs	Lack of affordable housing due to due to constraints to	High	7, 14, 10, 17
Disproportionate needs in unincorporated County communities were more apparent by income level, tenure, and race. As a result, some areas	residential development		
with concentrations of these populations also had disproportionate housing needs. Black and Hispanic renters tended to have the highest	Lack of affordable housing due to short-term rentals	Moderate	18, 19
rates of cost burdens compared to other races and owners. While more than 50 percent of all Black and Hispanic households experiences cost burdens, cost burden rates increased to 60 percent for Black or Hispanic renters. Geographically, tracts in Northern Coastal West Marin, Black Point-Green Point, and Marin City had the highest rates of cost burdened renters.	Lack of housing condition inspection and monitoring in the majority of the unincorporated County's housing stock (single family housing)	Moderate	20
Overcrowding and substandard conditions rates were low overall in unincorporated communities but renters in Marin City and the San Geronimo Valley had disproportionately high rates of overcrowding compared to other communities. Of note is that both Marin City and the San Geronimo Valley have the significant shares of renter households, 73 percent and 24 percent, respectively. In addition, lower income households were more likely to live in overcrowded conditions.	Lack of renter protections, especially in communities with high displacement risk (Marin City and Northern Coastal West Marin)	High	31
Not only are residents in Northern Coastal West Marin and Marin City experiencing housing problems at higher rates than other communities, these communities have also been identified as being at risk of displacement. This indicates a need to increase the availability of affordable housing within these communities as well as outside to facilitate the mobility of residents out of these areas and to Protecting			

existing residents from displacement when place-based strategies and investments improve the conditions of the area. Many issues affect housing needs- constraints to production, lack of incentives for production, and short-term rentals affect the availability and cost of housing. Meanwhile, a lack of monitoring for housing condition may lead to substandard conditions, particularly for renters. Marin County is addressing most of these issues but higher priority is being given to incentivizing new housing production. Because cost burden is related to housing availability, the County is placing a high priority on incentivizing and facilitating affordable housing production throughout the unincorporated communities. Part of the strategy includes reducing the concentration of affordable housing in Marin City and facilitating it in areas with higher resources. Because short-term rentals reduce housing availability which can increase the demand for housing and inflate housing prices, especially in West Marin and its coastal communities, exploring options for limiting short-term rentals is considered a moderate priority. Higher priority is being given to incentivizing new housing production. The majority of the incorporated County housing stock is single units dwellings. Inspections for substandard conditions are currently only done in buildings with 3 or more units. Because renters are experiencing housing problems – substandard conditions- in single unit dwellings, the County is placing moderate priority on expanding the inspection program to single-unit dwellings/homeowners. . The combined forces of increased housing cost as well as the production of unaffordable housing is creating displacement risk for Marin City and Northern Coastal West Marin. The County is placing a high priority on exploring tenant protection options such as rent stabilization, just cause for eviction, relocation assistance, tenant commissions, right to purchase, and right to return.
