Re: Point Reyes Coast Guard Housing
APN 119-240-73

Dear Ms. Levenson:

Please be advised that the North Marin Water District (District) can provide water service to the proposed multi-family development at the site, subject to the following conditions:

- The owner must submit an application and enter into an agreement with the District and complete financial arrangements for construction of new water facilities; and
- The District be given a final building permit inspection hold for confirmation of water conservation and other potential requirements of the project; and
- Water service will not be furnished to any building unless it is connected to a public sewer system or to a wastewater disposal system approved by all governmental entities having regulatory jurisdiction; and
- Occupancy approval shall not be granted until water service installation is complete and compliance with the Water Conservation requirements verified.

Should you have any questions regarding this readiness to serve letter, please call (415) 761-8935 and ask for our Engineering Services Representative.

Sincerely,

Anthony Williams, PE
Chief Engineer
