## GEOTECHNICAL DESIGN MEMORANDUM

12 August 2019

**TO:** Marin County DPW Land Development

**SUBJECT:** 187 Sacramento Avenue, San Anselmo  
Update of 2015 Geotechnical Report

We have returned to the site and did not observe any significant changes in the geomorphology that would warrant revising the recommendations and conclusions in our 15 May 2015 Geotechnical report.

Updates only involve changing the references to the 2016 CBC and the current section numbers in that code.

We will publish a new revised report incorporating the above when necessary for structural design

For SalemHowes Associates Inc.
