# 2023 Safety Element and Countywide Plan Amendment

Board of Supervisors

January 24, 2023

# What is the Safety Element?

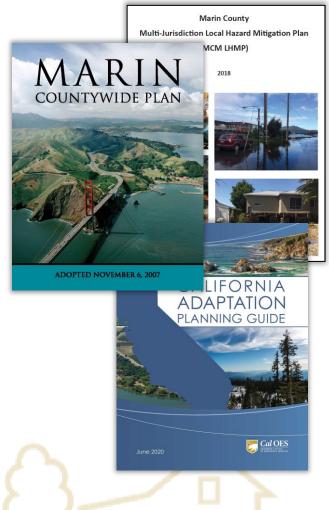

- A required element of the Countywide Plan
- Includes policies and programs to reduce risks from environmental hazards like wildfire, flooding, landslides, sea level rise, drought, and extreme heat.

# Updating the Safety Element

- First update in a new 8-year cycle (with the Housing Element)
- New laws require focus on climate change adaptation and resilience
- Requires a Vulnerability Assessment
- Plan should emphasize equity & needs of vulnerable communities

#### RELATIONSHIP TO OTHER PLANS

# Relationship to Housing Element

#### Apply Safety Element Policies to Safely Develop Housing

SE Policies will Improve Hazard Safety so Housing can be Developed Safely

SE Policies Specify Development Requirements so New Housing will be Constructed Safely

SE Policies Plan for all Equitable Protection from Climate Change Hazards

#### Relationship to Local Hazard Mitigation Plan

Local Hazard Mitigation Plan	Safety Element
A FEMA-required plan that includes assessing local risks to environmental hazards.	A required part of the general plan that includes assessing local risks to environmental hazards.
Identification of projects that reduce the identified risks. Projects quality for FEMA funds.	Identification of goals, policies and implementation programs that reduce the identified risks.

# LHMP and SE Differences

#### **Local Hazard Mitigation Plan**

5-year update cycle

Mitigation narrowly defined

Climate change impacts optional

Responsibility: Marin County Fire Office of Emergency Management

Multijurisdictional

Administered by the State Office of Emergency Planning (CalOES)

#### **Safety Element**

8-year update cycle

Policies can be broad

Climate change impacts required

Responsibility: Community Development Agency, Planning

Unincorporated Marin County

Administered by Governor's Office of Planning and Research (OPR) & Board of Forestry (CalFIRE)

#### MAJOR CHANGES TO THE SAFETY ELEMENT

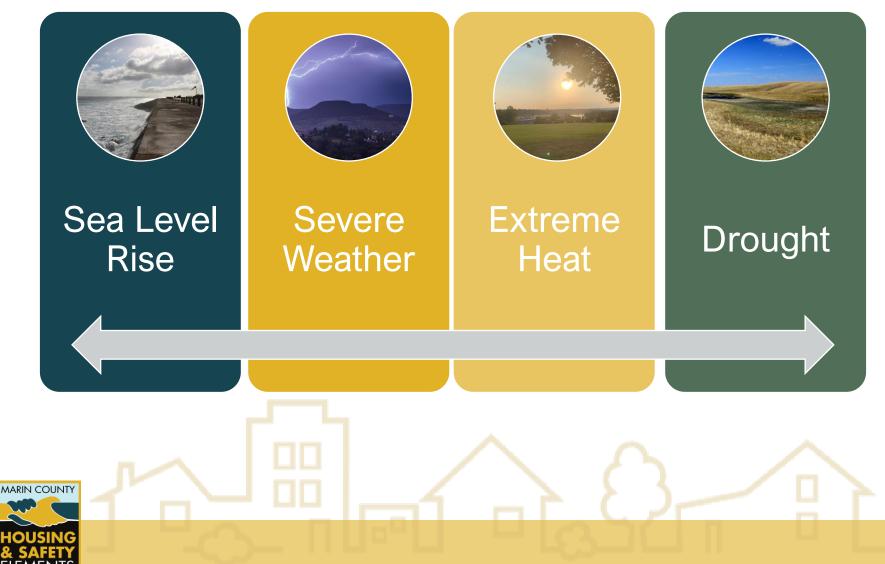

# Building on Existing Goals

Hazard Awareness	Disaster M, P, R & R
Geologic Hazards	Geologic Hazards
Flooding	Flooding
Wildfire	Wildfire (More Robust)
	- Equity
	Climate Resiliency
	Sea level rise, Extreme heat, Severe weather, Drought
MARIN COUNTY HOUSING	

# Building on Existing Goals

Hazard Awareness	Disaster M, P, R & R
Geologic Hazards	Geologic Hazards
Flooding	Flooding
Wildfire	Wildfire (More Robust)
	- Equity
	Climate Resiliency
	Sea level rise, Extreme heat, Severe weather, Drought
MARIN COUNTY HOUSING	

## What Falls Under Resiliency Planning?

#### HIGH-PRIORITY SHORT-TERM PROGRAM IMPLEMENTATION

### High-Priority Short-Term Implementation EQUITY

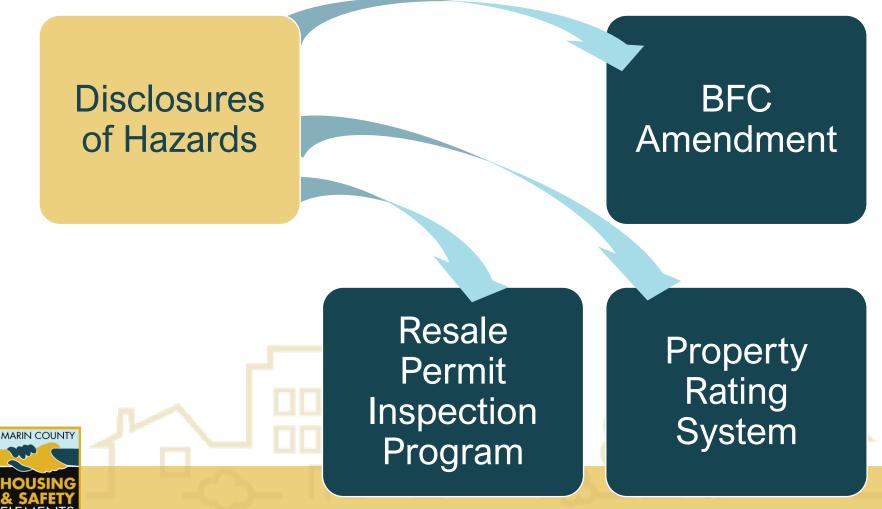

Develop Vulnerable Communities Database

#### Identify Funding & Support

HOUSING & SAFETY ELEMENTS Conduct Community-Specific Outreach

Develop Resilience Hubs

# High-Priority Short-Term Implementation HAZARD DISCLOSURE

#### High-Priority Short-Term Implementation EVACUATION

Implement Create New **MWPA** Evacuation Ingress **Egress** Routes **Project** Code Update Requirements to Encourage on New Road **Development** Improvements

### Safety Element Public Outreach

**4 Focus Group Meetings** August – September 2021 6 Design Review Board Meetings Fall 2021 & Fall 2022

**4 Public Workshops** September 2021 – April 2022 4 Joint BOS & PC Workshops February – October 2022

4 Community Workshops November 2022

**2 PC Meetings** December 2021 – January 2023

# QUESTIONS

#### Relationship to Local Hazard Mitigation Plan
