

**NOTICE OF AVAILABILITY AND NOTICE OF PUBLIC HEARING
2007 MARIN COUNTYWIDE PLAN SUPPLEMENTAL EIR
WITH A FOCUS ON POTENTIAL CUMULATIVE IMPACTS
TO SALMONIDS IN SAN GERONIMO VALLEY**

NOTICE IS HEREBY GIVEN that Marin County has released a Draft Supplement (Draft SEIR) to the 2007 Marin Countywide Plan Final EIR, certified in 2007 (2007 CWP FEIR). Marin County is the lead agency, pursuant to the State Guidelines for the California Environmental Quality Act (CEQA Guidelines Section 15150) for preparation of a Draft SEIR. This Draft SEIR has been prepared by Marin County in accordance with CEQA, the State CEQA Guidelines, and the Marin County Environmental Impact Review Guidelines, and is available along with the 2007 CWP FEIR at: <http://www.marincounty.org/depts/cd/divisions/environmental-review>.

The 2007 Marin Countywide Plan Supplemental EIR has been prepared in accordance with the decision of the Court of Appeal of the State of California First Appellate District Division Three, to set aside the County's certification of the 2007 Countywide Plan EIR with respect to San Geronimo Watershed only, pending preparation of a supplemental EIR with respect to the San Geronimo Watershed only, that analysis cumulative impacts in conformity with Guidelines section 15130, subdivision (b) and this opinion, and that describes mitigation measures in conformity with State CEQA Guidelines section 15126.4 and this opinion or makes other findings in conformity with State CEQA Guidelines section 15091.

As specified in the Court's order, the principal action considered in this SEIR is adoption and implementation of the Marin CWP (2007) with respect to the San Geronimo Valley and the potential for effects on salmonids. The SEIR will be used to fulfill the Court's mandate, and will be used by the Marin County Board of Supervisors in considering approval of the Proposed Project (Marin CWP [2007]) and certification of the EIR with respect to the San Geronimo Valley.

The Draft SEIR finds that the project, in combination with changed conditions, would not result in any unavoidable significant impacts. All impacts in the Draft SEIR were either identified to be less than significant, or able to be rendered less than significant through mitigation measures identified in the Draft SEIR. Impact 5.1 and 5.2 would result in potentially significant impacts that can be rendered less than significant through mitigation measures identified in the Draft SEIR. Impact 5.3 would not result in significant cumulative impacts, however the County has elected to pursue a voluntary mitigation measures consistent with its commitment to avoiding or minimizing impacts to the maximum extent practicable. NOTICE IS HEREBY FURTHER GIVEN that this Notice of Availability of the Draft SEIR commences a 45-day public review period. Written comments on the environmental review will be accepted at the Community Development Agency until the close of the public review period at **4:00 p.m. on June 15, 2017**.
