

MARIN COUNTY COMMUNITY DEVELOPMENT AGENCY
PUBLIC SCOPING SESSION
WOODACRE/SAN GERONIMO FLATS WASTEWATER RECYCLING PROJECT
ENVIRONMENTAL IMPACT REPORT
April 18, 2017
EIR PROCEDURAL INFORMATION

Purpose of the Scoping Session

The County is holding this public scoping session to facilitate maximum public participation in the development of an Environmental Impact Report (EIR) for the Woodacre/San Geronimo Flats Wastewater Recycling Project. This scoping session is being held pursuant to the California Environmental Quality Act (CEQA) to provide early consultation with the public on the EIR being prepared for the project. This early consultation is typically called scoping.

The purpose of this public scoping session is to provide individuals, organizations and agencies an opportunity to raise concerns about the environmental effects of the proposed project. Comments will be recorded and made part of the formal EIR record. There are likely to be questions raised by speakers at the session, although in the interest of giving everyone a chance to speak, any questions asked will be responded to through the EIR process rather than at this meeting. Responses to comments and questions will not be provided at the scoping session since the purpose of the session is for the public to provide information to the County.

Comments must be limited to the scope of environmental effects to be studied, rather than commenting on the merits of the project at this time. CEQA defines environmental effects as direct, indirect, and cumulative impacts to the natural and man-made environment affected by the project. Effects analyzed under CEQA must be related to a physical change in the environment. (CEQA Guidelines sections 15358 and 15360.)

Comment Procedure

At the public scoping session, members of the public will have the opportunity to submit written comments and/or to make oral comments during the session. Those wishing to speak should fill out a green testimony sign-in card.

In anticipation of a good turnout and limited time, and in order to allow everyone an equal opportunity to speak, each speaker will be limited to three minutes, more or less, depending upon the turnout. Signs will notify the speaker when remaining time is one minute and at the conclusion of the three minute period. Members of organizations are encouraged to select a spokesperson from the organization to speak on the group's behalf to avoid repetition of the same concerns.

Comment forms are available for those who wish to submit written comments on the scope of the EIR either to supplement or take the place of oral comments at the session. Comment forms may also be used to indicate agreement with specific speakers or organization environmental issues in lieu of orally repeating similar concerns. Please hand in any written comments that you have on the scope of the EIR to County staff at the scoping session, or mail to the attention of Rachel Reid at 3501 Civic Center Drive, Suite 308, San Rafael, CA 94903. Comments can also be submitted via email to envplanning@marincounty.org before the end of the comment period deadline at **4:00 p.m. on Monday, May 1, 2017**.

Other Opportunities for Public Comment

The public will have additional opportunities to comment during the EIR process and hearings on the merits of the proposed project. Notices will be sent to everyone on the scoping session sign-up sheet indicating the availability of the Draft EIR and the time and location of public hearings on the proposed project.
