Dear Mr. Crawford,

As a West Marin homeowner, I am writing to ask that you withdraw the Enviornmental Hazards Ammendment to Marin's Local Coastal Program.

I am very concerned that under regulations the California Coastal Commission is attempting to impose on Marin County, I would lose my right to maintain, protect and rebuild my home. It is clear that Commission's will as expressed in the Amendment is an arbitrary attempt to assert power which is directly contrary the position of both the Board of Supervisors and the will of the many citizens of West Marin as expressed in many meetings, votes and letters. I urge you to protect my home and property and abandon your contemplated Amendment.

Lawrence D. Ehrlich
