---

Mr. Crawford:

I have a home at 246 Seadrift, Stinson Beach.

I have been informed by Seadrift that the *staff* of the Coastal Commission is attempting to insert *their* draft into Coastal Commission regulations that are counter to the draft already approved by the Board of Supervisors.

This would ignore the work done through many letters and discussion by West Marin residents that went into the Supervisor's version, *and appears to be a last ditch attempt to block homeowner's ability to protect, maintain, and rebuild our homes.*

I am not sure how the politics of this works, but it seems odd that after all of this back and forth, and seeming agreement, a rewrite is proposed by the staff to be considered at a meeting on November 2nd... especially since it is my understanding that these issues were largely "put to bed."

Thank you for your consideration.

Steve Edelman
