Subject: Marin County Local Coastal Program Amendments 3 and 7

Hi Tom,

Please convey to the Marin County Planning Commission Coastal Commission staff's support for the changes to amendments 3 and 7 of the Local Coastal Program with the slight modifications we discussed to remove "In the context of development" from the ongoing agriculture definition, and to correct the narrative findings that were associated with the changes proposed in LCP Section 22.64.140.A.1.b(3) to clarify that the impact evaluation would be for public water supply projects, private/public projects proposing the subdivision or rezoning of land that would increase the intensity of use, and private/public projects on developed lots that would increase the amount of water use by more than 50%. We look forward to our continued work with your staff on completion of the Local Coastal Program Update.

Thank you,
Jeannine
