Subject: *Marin County Local Coastal Program Update (LCP-2-MAR-15-0029-1)*

Dear Mr. Crawford:

On June 3, 2016, we received the County's letter and attachments submitted in response to our status letter dated May 6, 2016 regarding the above-referenced LCP update item. On June 8, 2016, we received a corrected version of the proposed LCP Implementation Plan to replace that submitted June 3rd. Although we disagree with many of the characterizations in your letter regarding Commission staff and our implementation of LCP amendment filing requirements, we appreciate that you provided information in response to many of the items identified in our May 6, 2016 letter. We have again reviewed your overall submittal, and, although we would prefer a broader exchange of information to benefit both our and the public's understanding of the County's proposed LCP update, we have determined that we will be able to move forward with filing the County's proposed LCP update once you have provided the sea level rise maps that your letter commits to providing. After we have received and reviewed those maps, we will contact you regarding filing dates and hearing deadlines.

We look forward to continuing to work with you to bring this important LCP update to a Commission hearing as soon as possible. We also appreciate your commitment to providing materials to facilitate public review (e.g., table copies of materials) when we get closer to said hearing. On that point, we would also respectfully request that you please post to your website all documents that you transmitted to us on June 3rd and 8th. If you have any questions, please do not hesitate to contact Shannon Fiala of my staff at (415) 904-5266, or myself at (415) 904-5290.

Sincerely,

A handwritten signature in cursive script that reads "Nancy Cave".
