Subject: New "Parcel Merging" hearing by US Supreme Court

Honorable Members of the Marin Co Board of Supervisors

Currently before this Board, is the Local Coastal Plan LCP, which at the behest of the California Coastal Commission, mandates the merging of all legal separate land parcels under one ownership, (or even partial ownership) ostensibly confined to only agricultural parcels not to areas within cities under their jurisdiction.

We at Conlan Ranches California once again protest, and lodge our objections to this violation of the Constitutional Fifth Amendment prohibition of a taking without compensation, and call to the attention of this Board, a substantial tentative basis to resist the California Coastal Commission proposals because of the current acceptance of the United States Supreme Court *writ of certiorari* to hear the "relevant parcels" case of ***Murr v. State of Wisconsin & St. Croix County.***

Thank you for your attention.
