Planner: Megan Alton

The Marin County Airport Land Use Commission (ALUC) will review the Habitat Redwood Boulevard Project to determine its consistency with the Airport Land Use Plan (ALUP). The ALUC is reviewing this project because it is located within the Gnoss Field Airport Referral Area Boundary and is not exempted from review per the ALUP Policy SZ-7.2. Planning approvals and Building permits for this development are processed by the City of Novato. The applicant for the project is Habitat for Humanity Greater San Francisco, and the property is located at 8161 Redwood Boulevard, further identified as Assessor's Parcel 125-180-49.

The applicant has submitted a request with the City of Novato for 80 residential units in 23 buildings and one flex building for non-residential uses. The 80 residential units are housed in 6 detached single-family dwellings, three 6-unit buildings, and fourteen 4-unit buildings. The multi-family unit types include townhouses and one-level flats, and range in size from 864 to 1,489 square feet. The proposed single-family dwellings are 1,478 square feet in size. The two-story residential buildings are up to 25 feet tall and the three-story buildings are up to 34 feet, 9 inches tall from lowest finished grade to highest roof peak.

This is a workshop to discuss the Stream Conservation Area Ordinance for the San Geronimo Valley. The Stream Conservation Area Ordinance for the San Geronimo Valley (SGV) amends various chapters of Marin County Code Title 22 (Development Code). These amendments establish a new SGV combining district in
Section 22.14.050, Table 2-11, B-Combining District Development Standards, to apply uniform standards for all zoning districts within the San Geronimo Valley; amends exemptions for various activities, uses of land, and other improvements in Section 22.06.050 (Exemptions from Land Use Permit Requirements); establishes new development standards in Section 22.30.045 (San Geronimo Valley Community Standards) for development located in the stream conservation area within the San Geronimo Valley; amends Chapter 22.52 (Site Plan Review) to require Site Plan Review for new development located within the stream conservation area; and incorporates select technical terms and phrases from the Countywide Plan in Chapter 22.130 (Definitions). The proposed amendments are applicable to all perennial and intermittent streams, and ephemeral streams that either: a) supports riparian vegetation for a length of 100 feet or more; and/or b) supports special-status species and/or sensitive natural community type regardless of the extent of riparian vegetation associated with the stream.
