Dear Mr. Liebster,

Jack!

Congratulations on receiving a \$28,900 grant from the California State Coastal Commission for your "Youth Exploring Sea Level Rise Science" education program.

In collaboration with the King Tides Project and Shore Up Marin, high school students from economically diverse districts will be able to study curriculum on climate science, sea level rise, mapping and data collection. It's a wonderful opportunity, not only to collect and share data, but also to train our future environmentalists and protectors of our planet.

Congratulations again and best of luck with your exciting endeavor!

Warmest regards,

MIKE MCGUIRE
Senator

*Big Congratulations - I
would love to come see
the program!*
