

Drawdown: Marin

Local solutions to the global climate challenge.

We are on
Coast Miwok land.

What is Drawdown: *Marin?*

Vision: Marin reverses its impact on the climate, sequestering more greenhouse gases than we emit as we transition to a thriving, resilient, and equitable future.

Mission: We collaborate with our entire community to create and implement bold climate solutions.

What are our existing GHG emissions?

2015 County GHG emissions inventory

- 1.6 million metric tons of CO₂ equivalent (MMTCO₂e) annually
- 53% transportation
- **22% residential**
- **14% commercial**
- **<1% water + wastewater**
- 10% everything else

Key Outcomes

- The County is an effective “backbone” of the Drawdown effort
- We develop a shared vision by setting an ambitious greenhouse gas (GHG) reduction goal, increase social resilience, and advancing equity
- We all work together to identify aligned activities and support one another
- We develop and prioritize solutions in 6 focus areas that dramatically reduce GHG emissions
- We mobilize funding so we can implement solutions
- We use shared metrics to measure progress toward our goals

Our Role + Approach

Buildings + Infrastructure Stakeholder Collaborative

Who are we?

What are we trying to accomplish?

Our Schedule + Your Time Commitment

Kick-off meeting – 1/23

Small group meetings – between 1/27 and 3/6

Solutions workshop – week of 3/9

Present to Partnership Council - TBD

Final presentation to Steering Committee – TBD (likely end of April)

What are we asking of you?

- Develop group goals
- Help us to understand more about existing initiatives
- Identify key data needs and work with the County to quantify GHG emissions reductions by solution
- Develop equitable solutions that dramatically reduce greenhouse gas emissions in the built environment sector
- Identify needed funding, partners, and develop an implementation plan for each solution
- Work with the Community Partnership Council to identify key opportunities to engage the public

Participation Pledge

- A formal promise to actively participate in this group
- Helps create a shared vision for our work
- Increases our accountability to each other

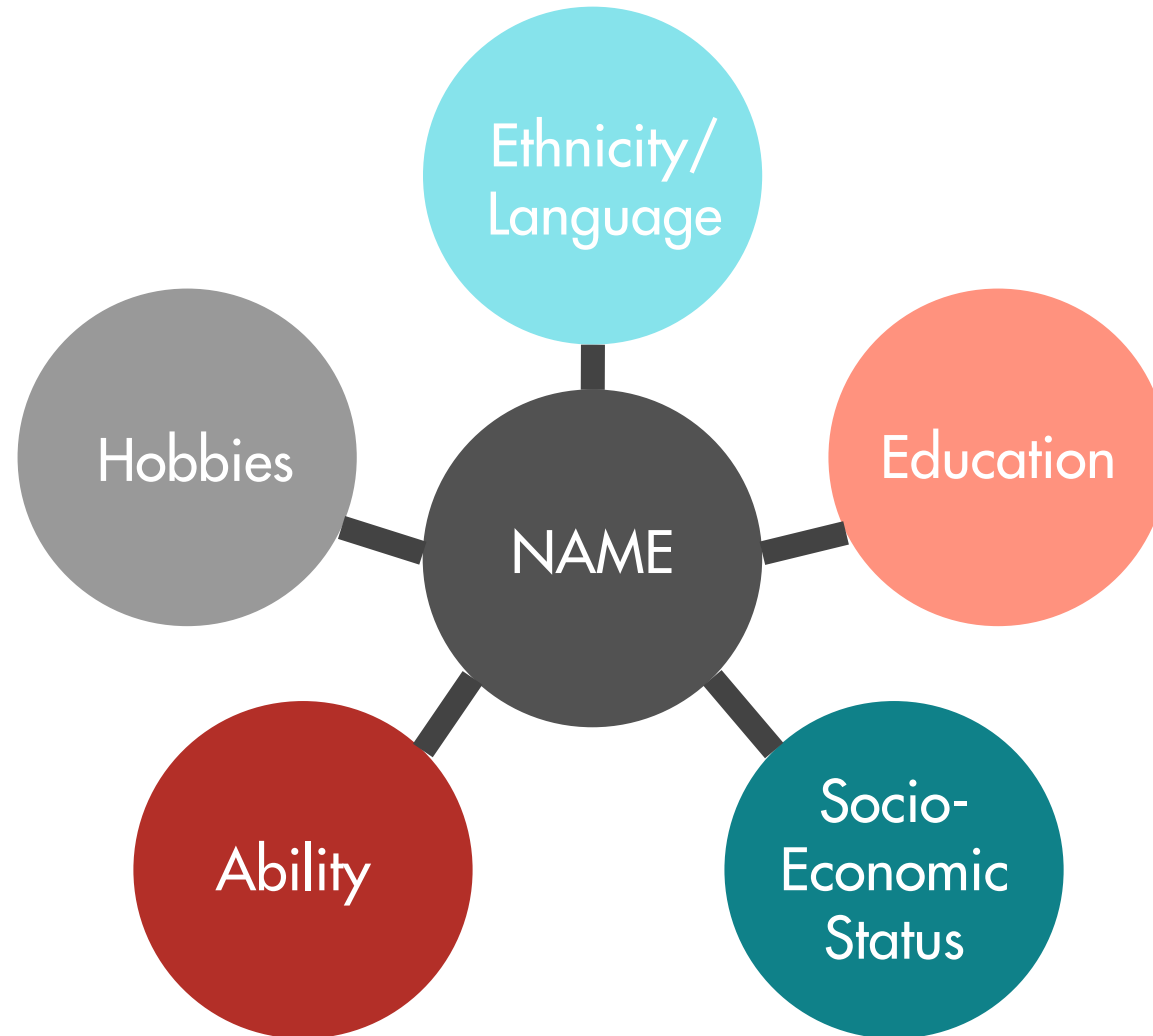

Reflective Practice: Centering ourselves in this work

Paseo Circles of Identity

Elements of your identity,
including:

- How you see yourself
- How others see you
- What you want people to know about you

Reflect on Your Identity

2 mins per person

- With which descriptors do you identify most strongly?
- Describe a time when one of the elements of your identity definitely worked to your advantage or appeared to hold you back?
- How does your identity play a role in our work together?

Group Debrief

- What did you learn about your partner?
- Why is it important for us to get to know each other better?

Diversity, Inclusion, + Equity

- Defining these terms
- Why does it matter for our work?
- Why is it especially important for Marin to consider?

BREAK

How can we solve complex problems?

- Systems Thinking
- Collective Impact Model
- U-Process
- User-Centered Design

SYNTHESIS

ISOLATION

RELATIONSHIPS

Common Agenda

- Keeps all parties moving towards the same goal

Common Progress Measures

- Measures that get to the TRUE outcome

Mutually Reinforcing Activities

- Each expertise is leveraged as part of the overall

Communications

- This allows a culture of collaboration

Backbone Organization

- Takes on the role of managing collaboration

Concepts in blue reflect elements cultivated throughout the initiative

Convening to
create systems
change

Focus on data,
facts, perspectives

Systems
Thinking/Sensing

1. Co-initiating:
uncover common intent
stop and listen to others and to
what life calls you to do

2. Co-sensing:
observe, observe, observe
connect with people and places
to sense the system from the whole

3. Presencing:
connect to the source of inspiration and will
go to the place of silence and allow the inner knowing to emerge

5. Co-evolving:
embody the new in ecosystems
that facilitate acting
from the whole

4. Co-creating:
prototype the new
in living examples to explore
the future by doing

Standardize,
Scale Up, Evolve

Test Ideas, Learn,
Refine Solutions

Design Thinking,
(incl. user-centered
design)

Tapping Purpose
& Potential

Why do we care about these frameworks?

- We need to shift the way we solve complex problems
- These frameworks can help us make that shift
- They establish a common approach for all Drawdown groups
- They provide a common metric for the groups to measure progress

Let's discuss – do we understand these frameworks?

Time for fun!

Conversation Mapping Exercise

- Allows us to gather a large amount of information from a diverse group of stakeholders in a short amount of time
- Illuminates how different challenges, opportunities, and ideas are connected

Our Goals

- Overarching goal of Drawdown: Marin
- What do we want to achieve as the Transportation Stakeholder Collaborative?
- What are the most important impacts we can have as a group?

How can we achieve our goals?

- Your top 2 solutions and more?
- Every idea is a great idea!

Housekeeping

- Drawdown Schedule
- Document sharing
- On-going Communication
