1. This recommendation has been implemented in Sausalito, however, enforcement with citations is currently being implemented to aggressively enforce defensible space.

3. I agree with this recommendation, however, I feel the camp should be used in conjunction with the other agencies used for vegetation management.

4. I agree with this recommendation, however, we currently do not utilize controlled burns to mitigate fire fuel loads. This is very controversial.

7. I support this recommendation. Meetings would provide better coordination and prevent duplication of vegetation management projects.
