

## Mountain View Road Bridge Community Meeting

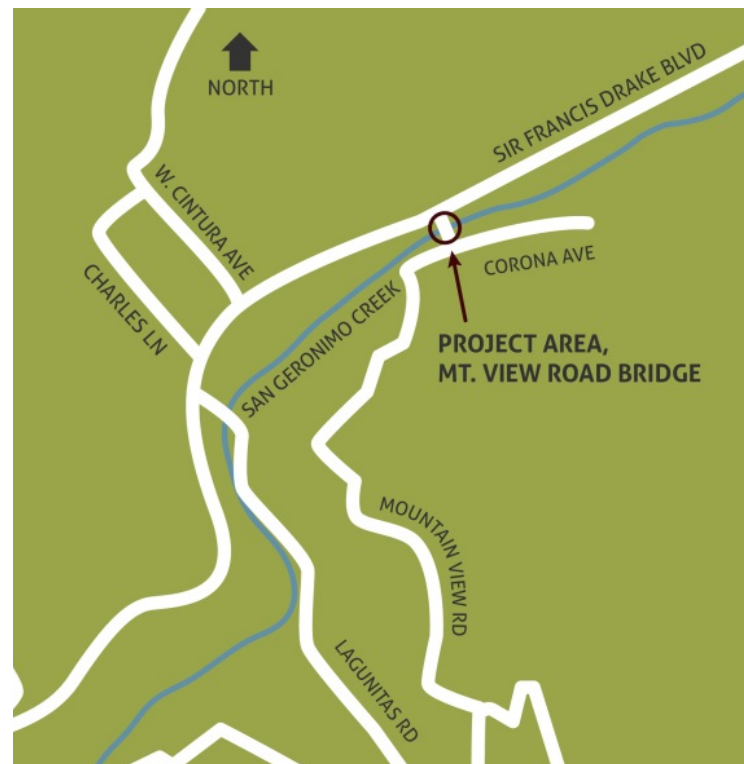

**Date: Wednesday, April 26, 2017**

**Time: 6:00 PM – 7:00 PM**

### **Location: at the Mountain View Road Bridge**

Sir Francis Drake Boulevard and Mountain View Road  
San Geronimo, CA 94963

In 2015, the County of Marin identified Mountain View Road Bridge over San Geronimo Creek as one of several bridge replacement projects within the County utilizing federal Highway Bridge Program funding. On March 17, 2016, a public meeting was held to provide an opportunity to learn about the proposed bridge replacement project, ask questions, and provide input. As a follow-up to the 2016 public meeting, the project team is hosting an on-site community meeting at Mountain View Road Bridge to provide an update on design concepts, to review the physical limits of the proposed project and to further discuss the proposed bridge height and aesthetics. This informal meeting is meant to foster an open discussion regarding updated design concepts.
