

NBWA 2010-2011 Accomplishments

EPA Grant-TMDL implementation

NBWA partnered with SFEP on a grant proposal for “North Bay TMDL Implementation” in Marin, Napa, and Sonoma for federal EPA funding at ~\$1.5 million in 2009-2010. They were awarded the grant and worked in 10-11 to finalize the grant agreement. The County of Marin and City of Mill Valley are partners under this grant and will implement a creek/riparian restoration project on a tributary to Warner Creek in the Arroyo Corte Madera del Presidio Watershed, water quality monitoring in that watershed (in Mill Valley), and a program that will encourage houseboat owners in the Richardson Bay to repair sewer laterals. Project implementation will begin in 2011-2012 and should be complete by 2014-2015.
