ENVIRONMENTAL HEALTH SERVICES DIVISION

June 30, 2012

Ms. Terri Fashing
Department of Public Works
Marin County Stormwater Pollution Prevention Program
3501 Civic Center Drive, Room 304
San Rafael, CA 94903

Dear Ms. Fashing;

For fiscal year 7/1/2011 through 6/30/2012, Environmental Health Services staff conducted a total of 4306 routine site inspections county-wide at food facilities, commercial swimming pools, and, rental housing.

Inspectors routinely look for potential and actual non-stormwater discharges to storm drains and record these incidents through the use of database "service codes".

Of the 4306 inspections, 1 case was reported to the Marin County Stormwater Pollution Prevention Program or to a Local Stormwater Program. Per standard operating procedure, staff are advised to notify either County or local stormwater coordinators when events are observed in the field.

Sincerely,

Dave Smail, Supervising R.E.H.S.
