

Landowner Assistance Program Fall Workshop

Landscape Practices for Property Owners

San Geronimo Valley Community Center

8:30 a.m - 3 p.m., October 15, 2011

This workshop is intended for those with an interest in owning or managing forest or streamside properties in Marin County's San Geronimo Valley.

This workshop will provide homeowners with practical tools and resources to foster stream health and manage their forested parcels. We will introduce avenues for technical and financial assistance for homeowners. The workshop includes a field trip to sites demonstrating stream management. Participants will be encouraged to exchange experiences and ask questions.

A final agenda and directions to the workshop will be provided to registrants who provide email addresses (the University of California does not share these addresses).

Lunch, light snacks, and transportation to and from the field locations is included with registration cost. The workshop is limited to 50 participants, and registration ends Sept. 30.
