March 10, 2017

Attention: Residents of Santa Venetia area of San Rafael, California

Re: Oversized Vehicle Parking Restriction on North San Pedro Road

Marin County has received complaints regarding the increasing number of commercial and oversized vehicles that park along North San Pedro Road. Concerns have been expressed regarding storage of large vehicles and/or trailers on the roadway for long periods of time causing visual impacts and the perception of reduced neighborhood safety. Existing parking encourages dangerous pedestrian crossing patterns on North San Pedro Road.

A study conducted by County staff showed that prohibiting parking along North San Pedro Road results in commercial and oversized vehicles being displaced onto residential roads in Santa Venetia.

The County of Marin is addressing these concerns by proposing the following:

1) No parking of any vehicles at any time on North San Pedro Road from the intersection of La Pasada Way and extending approximate one-half mile easterly to the intersection of Vendola Drive. (see map)

2) No overnight parking (between 11:00 p.m. to 5:00 a.m.) of oversized commercial vehicles (commercial vehicles or combination of vehicle with trailer and/or auxiliary equipment longer than 22 feet), on the residential streets listed below and shown on the attached figure. (see map)

   Adrian Way
   Adrian Terrace
   Ash Way
   Birch Way
   Descanso Way
   Estancia Way
   Galerita Way
   Geneva Way
   Hacienda Way
   Hawthorne Way
   La Brea Way
   La Pasada Way
   La Playa Way
   Meadow Way
   Palmera Way
   Rafael Way
   Rincon Way
   Rosal Way
   Vendola Drive
   Mabry Way

In order to be effectively enforced, the parking restrictions will require additional signage to be placed in the area. Since the parking changes may impact the fronting property owners, we would like to give you this opportunity to provide any comments you may have regarding the proposed parking restrictions by March 24, 2017. It is anticipated that the parking restrictions will be considered by the Marin County Board of Supervisor on April 24, 2017.

If you have any comments please feel free to contact:

John Neville
Assistant Traffic Engineer
