CASCADE CANYON AND WHITE HILL OPEN SPACE PRESERVES

Notes:
1. Fords of Cascade Creek may be impassible in winter due to deep, fast-moving water, and may be closed at other times to protect steelhead. If posted, use alternate trails. New bridges are planned.
2. Pine Mountain Tunnel Road east of Cascade Canyon Preserve crosses private land and is not open to the public. (Map corrected 3/22/13)
