

### School Demand Assessment Results

The table below shows the results of the bus demand assessment conducted as part of the Coordinated Student Transportation Study. All K-12 public schools located within the urbanized areas of Marin were included. The table shows the identified demand assignment (high/medium/low), the current busing program (if available), the identified appropriate busing program (if applicable), and estimates for current, potential, and new riders.

Countywide, **55 total** schools were included and **26** were identified as candidates for **high busing demand**, **20** as candidates for **medium busing demand**, the remaining **9** as either **low demand or unknown** due to the lack of data.

| School District         | School                           | Busing Demand          | Current Busing Program | Appropriate Type of Bus Program (if applicable) | Estimated # of Current Riders | Estimated # of Potential Riders | Estimated # of New Riders |
