INDEPENDENT AUDITORS' REPORT ON MEASURE A COMPLIANCE

To the Marin County Board of Supervisors, Measure A Community Oversight Committee,
And Management of Marin County Parks
San Rafael, California

Compliance

We have audited the Marin County Parks' (County) compliance with the types of compliance requirements described in County of Marin Ordinance 3586 applicable to the County of Marin's Measure A Funds (Measure A Funds) for the period from July 1, 2015 to June 30, 2016.

Management's Responsibility

Compliance with the requirements referred to above is the responsibility of the County's management.

Auditor's Responsibility

Our responsibility is to express an opinion on the County's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States; and the standards applicable to financial audits contained in *Government Audit Standards* issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the compliance requirements referred to above that could have a material effect on the Measure A Funds occurred. An audit also includes examining, on a test basis, evidence about the County's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of the County's compliance with those requirements.

Opinion

In our opinion the County complied, in all material respects, with the compliance requirements referred to above that are applicable to the Measure A Funds for the period from July 1, 2015 to June 30, 2016.

Internal Control Over Compliance

Management of the County is responsible for establishing and maintaining effective internal control over compliance with the compliance requirements referred to above. In planning and performing our audit, we considered the County's internal control over compliance to determine the auditing procedures for the purpose of expressing our opinion on compliance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the County's internal control over compliance.

To the Marin County Board of Supervisors, Measure A Community Oversight Committee,
And Management of Marin County Parks
San Rafael, California
Page 2

A deficiency in internal control over compliance exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a compliance requirement will not be prevented, or detected and corrected, on a timely basis.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be deficiencies, significant deficiencies, or material weaknesses in internal control over compliance. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on County of Marin Ordinance 3586. Accordingly, this report is not suitable for any other purpose.

B. Implementation Requirements

Implementation of the plan shall be guided by the following procedures to ensure that the revenue generated by the Measure is spent in the most efficient and effective manner possible, consistent with servicing the public interest in Marin County, and the desires of the voters of Marin County:

- a. The Marin County Parks and Open Space Commission shall conduct a public meeting annually to gain public input on selection of projects to expend the sales tax revenues as part of the County's annual budget development process.
- b. The County of Marin is charged with the fiduciary duty to administer sales tax proceeds in accordance with applicable laws. Disbursement of funds as grants shall be subject to terms and conditions that may include, but are not limited to, the County's right to 1) require grantees to enter into funding agreements with the County; 2) require matching funds; and 3) audit a grantee's use of tax proceeds.
- c. Actual revenues generated by the Measure may be higher or lower than estimates in this Plan due to variability in annual tax receipts. The County shall annually estimate revenue from the Measure.
- d. The County may accumulate revenue over multiple years so that sufficient funding is available for larger and long-term projects. All interest income shall be used for the purposes identified in this Plan, and shall accrue proportionately to the sales tax increase, unused funds and accrued interest from the Farmland Preservation Program, and the City, town, and Applicable Special District Program shall be available for any purpose consistent with this Plan, subject to approval by the Board of Supervisors.
